EXHIBIT "B"

Minutes of June 18, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance;

Contract No. 3312, with N. A. Toole Construction Company, for grading, oil mat surfacing and rock production on the North Powder ("E" Street) and Telocaset Junction-Wingville Junction Section of the North Powder City Street and Old Oregon Trail Highway in Union and Baker Counties, completed May 24, 1951.

Contract No 3344, with D-H Paving Company, for reoiling on the Morrow County Line-Condon-Service Creek Section of the Wasco, Heppner and John Day Highways in Gilliam and Wheeler Counties, completed June 4, 1951.

Contract No. 3419, with Western Paving and Construction Company, for grading and bituminous macadam surfacing on the Yoncalla ("B" Street) Section in Douglas County, completed June 4, 1951.

Contract No. 3426, with E. C. Hall Company, for constructing Greenleaf Creek Bridge in Lane County, completed May 29, 1951.

Contract No. 3455, with Warren Northwest, Inc., for pavement resurfacing on the Monmouth-Suver Road Section of the Pacific Highway West in Polk County, completed May 28, 1951.

Contract No. 3458, with A. H. Saxton and Sons, for furnishing crushed rock in stockpiles on the Oregon Coast, Sunset and Necanicum Highways and Saddle and Ecola Park Roads in Clatsop County, completed May 1, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "C"

Minutes of June 18, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Klamath Falls-Lakeview Highway No. 20 known as the Quartz Mt.-Drews Valley Section in Lake County, the westerly terminus of which is at highway engineer's station 2860+00 of the reconstructed line and the easterly terminus of which is at highway engineer's station 3174+11.8 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated sections or areas are no longer needed for highway purposes; and

WHEREAS, there are no persons living on said eliminated sections and areas, and there are no communities served thereby; and

WHEREAS, the contract for the construction of this relocated section of the Klamath Falls-Lakeview Highway No. 20 has been completed and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas and sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Klamath Falls-Lakeview Highway known as the Quartz Mt.-Drews Valley Section, which begins at highway engineer's station 2860+00 on the new route and ends at highway engineer's station 3174+11.8 of the new route, has been completed and made available for travel, and that the sections of the old route herein defined and described as Units "A" and "B" shall no longer be parts of the route of the Klamath Falls-Lakeview Highway but shall be eliminated therefrom.

2. That parts of the section of the old route of the Klamath Falls-Lakeview Highway lying outside the established right of way of the relocated highway which for the purpose of this agreement are identified as Units "A" and "B" and are more particularly described as follows:

EXHIBIT "C" (cont.)

Unit "A"

Beginning at State Highway Engineer's Station 3098+90 of the relocated Klamath Falls-Lakeview Highway in the Northwest quarter of the Northwest quarter of Section 18, Township 38 South, Range 17 East, W. M., thence Easterly along the former route of the Klamath Falls-Lakeview Highway to State Highway Engineer's Station 3106+60 of the relocated Klamath Falls-Lakeview Highway in the Northwest quarter of the Northwest quarter of Section 18, Township 38 South, Range 17 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 3106+50 of the relocated Klamath Falls-Lakeview Highway in the Northwest quarter of the Northwest quarter of Section 18, Township 38 South, Range 17 East, W. M.; thence Easterly along the former route of the Klamath Falls-Lakeview Highway to State Highway Engineer's Station 3170+00 of the relocated Klamath Falls-Lakeview Highway in the Northwest quarter of the Southwest quarter of Section 17, Township 38 South, Range 17 East, W. M.

and are otherwise shown and identified colored in brown on a white print marked "Exhibit A",** and by this reference incorporated herewith, are hereby abandoned as any part of the right of way of the said state highway, and the Commission hereby surrenders all jurisdiction thereover and hereby consents that jurisdiction over said sections may be assumed and exercised by the County Court of Lake County to be used for county purposes or vacated as the County Court of Lake County may determine.

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that posession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners.

(cont.)

FOOTNOTE:**

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 234 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

June 18, 1951

EXHIBIT "C" (cont.)

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission as of the 18th day of June, 1951, and the Secretary hereby is directed to mail to the County Court of Lake County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall either accept the said abandoned sections of the said old right of way shown colored in brown on the map attached hereto and marked "Exhibit A", and shall assume jurisdiction thereover, or permit said sections to revert to the owners of the abutting property, as the County Court may determine.

EXHIBIT "D"

Minutes of June 18, 1951

RESOLUTION LIFTING REDUCED LOAD LIMIT
on
The Weston-Elgin Secondary Highway

WHEREAS, on the 26th day of February, 1951, at a regular meeting of the Oregon State Highway Commission, two members being present and participating, the Commission passed and adopted a resolution reducing the maximum load limit on the Weston-Elgin Secondary Highway No. 330; and

WHEREAS, subsequent to the passage of said resolution, conditions changed, and the Commission did, on the 24th day of May 1951, remove the restrictions from that portion of said highway between Summerville (M. P 37. 94) and junction with Wallowa Lake Highway (M. P. 41. 39); and

WHEREAS, subsequent thereto, conditions have further changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution on any portion of said highway.

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the maximum permissible load limit as set forth in said resolution of February 26, 1951, on the remaining portion of the Weston-Elgin Secondary Highway No. 330, to-wit:

Name of Highway and No.		County	Section of Highway	Date Lifted
Weston-Elgin	330	Umatilla, Union	Jct. Oregon-Wash. Hwy. (M. P. 0. 0.) to Summerville Road (M. P. 37. 94)	1951 June 2

be and the same hereby is rescinded and cancelled as of the date and location listed above, and the maximum load limit permissible subsequent thereto shall be the maximum load limit provided by law.

EXHIBIT "D" (cont.)

IT IS HEREBY ORDERED that a certified copy of this resolution be furnished to the county clerk of each county in which said highways or sections of highways are located, and to the Superintendent of the Department of State Police for his information.

Dated this 18th day of June, 1951

OREGON STATE HIGHWAY COMMISSION

By Ben R. Chandler

ATTEST:

H. B. Glaisyer
Secretary

EXHIBIT "E"

Minutes of June 18, 1951

RESOLUTION

WHEREAS, Mr. H. B. Glaisyer is the duly appointed, qualified and acting Secretary for the Oregon State Highway Commission; and

WHEREAS, Mr. Floyd A. Query is assistant to Mr. H. B. Glaisyer in his capacity as Secretary for the Commission; and

WHEREAS, Mr. H. B. Glaisyer will be absent from the State of Oregon from June 24, 1951, until July 7, 1951, and it is necessary that some other qualified person be appointed to act as Secretary for the Commission during the absence of Mr. Glaisyer; and

WHEREAS, Mr. Floyd A. Query is capable and qualified to perform the duties of Acting Secretary for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. That Floyd A. Query is hereby appointed, authorized and directed to perform all of the usual duties of the Secretary for the Commission, except the signing of vouchers pursuant to the authority given to Mr. H. B. Glaisyer by resolution of the Commission dated May 24, 1951.

2. That Mr. Floyd A. Query is authorized to sign for Mr. H. B. Glaisyer, as Secretary for the Commission, all contracts, documents, minutes and other papers or instruments of the Commission which require the signature of the Secretary, and Mr. Query is authorized to prepare on the request of any interested parties copies of any records, documents, contracts or other papers in the custody of the Secretary, and he may certify to the same.

3. Mr. Floyd A Query shall keep in his custody the official seal of the Commission and may impress the same upon all contracts or other papers or documents on which said official seal may be appropriate or necessary.

4. Mr. Floyd A Query shall, in addition to the duties and authorities herein enumerated, and not expressly excepted, is authorized to perform such other functions or duties as may naturally and normally come within the scope of the office of the Secretary for the Commission or as may be required by the Commission.

(cont.)

16826

5. That the authority granted to Mr. Floyd A. Query pursuant to this resolution and the duties to be performed by him in compliance with this resolution shall be during the absence of Mr. H. B. Glaisyer from the State of Oregon during the period from June 24, 1951, to July 7, 1951, inclusive.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 18th day of June, 1951.

Portland, Oregon
July 16, 1951

The State Highway Commission convened in regular session at 9:00 a.m., in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
J. M. Devers, Chief Counsel
C. W. Enfield, Assistant Counsel
Fred Miller, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

The Parks Superintendent reported on the following park matters:

1. Purchase of a house from the California-Oregon Power Company on the Crater Lake Highway, Jackson County: The Parks Superintendent advised that this building is located on property that the Company leased from Federal Government prior to the State's acquiring it for park purposes; that the building is in very good state of repair, having an appraised value of $8,400, whereas the company is asking $7,500 for it. He recommended purchase of the building at such figure for use as a caretaker's residence at Casey State Park, and advised that, if the State does not buy it, it will be necessary to spend a considerable sum for repairs to the house that the caretaker is now using. The Commission unanimously approved the purchase of the house at the price quoted.

2. Proposed acquisition of Wiggins property at Wallowa Lake State Park, consisting of about 33 acres of land:
The Parks Superintendent advised that in recent discussion with Mrs. Wiggins, she demands, if the State purchases her property, a permanent concession for horses and boats. He recommended against the granting of any such concession. As the result of discussion, the Commission ordered an appraisal of the property by the Right of Way Department, and that an offer be made to Mrs. Wiggins to pay her the amount of the appraised value. The Commission will decide later whether or not to condemn the property if Mrs. Wiggins refuses to accept the amount offered.

3. Proposed purchase of the W. A. and Mildred Alcorn property on the south side of the Columbia River Highway at Tooth Rock Tunnel: The Parks Superintendent advised that the property consists of 20.76 acres owned jointly by Mr. and Mrs. Alcorn, who are separated; Mr. Alcorn, he said, is willing to sell his interest for $3,000, and he gave as his feeling that Mrs. Alcorn will accept a like sum for her share. He pointed out that the State owns the adjoining property, and he advised that in his opinion, the Alcorn property, which is a timbered tract, also should be preserved. He recommended purchase of the property if it can be obtained at the prices mentioned. The Commission deferred its decision in the matter, pending a cruise of the timber and appraisal of the land. The Parks Superintendent was instructed to report the results of the cruise and the appraisal. The Commission will then take final action.

4. Extension of lease given to Jack Flaucher for operation of a concession at the Vista House on the Columbia River Highway at Crown Point: The Parks Superintendent advised that the present agreement with Mr. Flaucher expires on April 1, 1952, but Mr. Flaucher is anxious to know whether or not it is to be extended so he can make his arrangements accordingly. Several other people, he said, are interested in the lease, but he recommended that Mr. Flaucher's lease be extended for a period of one year, because he has operated this concession in a very fine manner and has returned annually to the State at least $5,000. The Commission unanimously approved the extension of Mr. Flaucher's lease for a one year period as recommended.

5. Tentative lease agreement with the Federal Government covering the Fern Ridge Dam Recreational Area, Lane County: The Parks Superintendent advised that the Federal authorities have submitted a tentative form of agreement which appears to satisfy the Highway Commission's requirements. He recommended acceptance of the agreement as prepared. Assistant Counsel Mr. Enfield stated that he has examined the agreement as to form and that, in his estimation the Commission and the State are fully protected. The Commission approved the recommendation unanimously.

6. Pipe line crossing of Union Pacific Railroad right of way at Benson State Park: The Parks Superintendent presented a form of agreement covering this matter and recommended approval of the same. The Commission approved the recommendation. (The agreement was signed later in the session.)

7. Request of C. L. Snider, Wilderville, Oregon, for extension of his agreement with the State covering a road crossing of Mackin Gulch State Park, Josephine County: The Parks Superintendent recommended approval of the request. The Commission approved the recommendation.

8. Request of Lee R. Foster, County Extension Agent, Hood River, Oregon, that Zeba Dimmick State Park be renamed Hood River State Park: The Parks Superintendent advised that this park is located about fifteen miles south of the town of Hood River, and that it was given its present name in honor of a pioneer family by the name of Dimmick, who came to Oregon in 1853, and did much toward the development of the Hood River area. He also said he has received numerous communications protesting any change in the present name. He recommended that Mr. Foster's request be denied. The Commission approved the recommendation.

9. Salutation suggested by Mr. Alfred D. Collier, Klamath Falls, for Collier State Park: The Parks Superintendent advised that Mr. Collier wishes to install the salutation at the entrance to the museum portion of the park. He recommended approval of the suggestion. The Commission approved the recommendation.

10. Request of Federal Security Agency that the State Parks Department act as a screening agency for requests for recreational permits: The Parks Superintendent advised that he is unfamiliar with the details but he is willing to undertake the assignment on a trial basis, if the Commission approves. The Commission authorized the Parks Superintendent to act for the agency on such basis.

11. Construction of latrines at Helmick and Silver Falls State Parks: The Parks Superintendent requested authority to advertise for bids for construction of the latrines, provision for which, he said, is contained in the 1951 budget. The Commission approved the request unanimously.

12. Request of Cascadia Development and Production Company for retention of mineral rights on property it is deeding to the State as an addition to Cape Lookout State Park, Netarts Bay, Tillamook County: The Parks Superintendent pointed out that the company is deeding the property to the State gratis, the State's expense being limited to the cost of an abstract of title and payment of recording fees. He recommended that the company's request be granted. The Commission approved the recommendation unanimously.

13. Question of compensating boys from the State Training School, Woodburn, for services rendered in State parks: The Parks Superintendent advised that some of the boys are employed at Cape Lookout State Park, and that they are doing a good job; further, that the school authorities feel that the boys should be paid a small amount for their labor, and have suggested $1.00 per day. He recommended approval of the payment of such sum. The Commission approved the recommendation unanimously, however, instructed the Parks Superintendent to investigate the Highway Department's liability in the event accidents occur.

14. Proposed addition to Harris Beach State Park, Curry County: The Parks Superintendent advised that Mr. Gus Schneideau, Gold Beach, owns 35 acres of land immediately adjoining the present park, a portion of which property is needed to enlarge the park and a portion for right of way for future highway construction. He also said that Mr. Gordon Kershaw, Medford, holds an option in the amount of $20,000, on the property, for which he paid $500, but he is willing to turn over this option to the State if the State will reimburse him for his expenditure. He requested instructions. The Commission ordered an appraisal of the property, the results of which are to be reported to the Commission at its next meeting.

The Engineer brought up for discussion a request from Mr. Leo J. Ellis, Portland, for permission to remove logs from the ocean beach southerly from Fort Stevens jetty to a point one and a half miles south of Peter Airdale County Road in Clatsop County. The Commission ordered that Mr. Ellis be informed that the State has no objections to the removal of the logs from the beach area and the transportation of the same across the beach and on the highways leading to the beach, if he first obtains approval of the owner of the logs; also, that the movements of the logs across the beach area and on the highway shall be on motorized equipment subject to the restrictions contained in the statutes and in the Highway Commission's permit forms. The Chief Counsel was instructed to communicate this information to Mr. Ellis.

The Right of Way Engineer presented for the Commission's consideration options obtained by the Right of Way Department in connection with real property purchases. After careful consideration, the Commission approved the closing of the options at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

In connection with the discussion of right of way matters, the Commission again urged expediency so as to avoid delays in contracting construction. The Engineer was instructed to expedite preparation of right of way descriptions and to turn them over to the Right of Way Department as rapidly as possible.

The Chief Counsel reported a recent Supreme Court decision concerning condemnation cases, whereby, hereafter, the owner of property which is being condemned must be paid 6% interest on the amount allowed him by the Court for his property starting from the date of the filing of the complaint.

Assistant Counsel, Mr Enfield, requested authority to condemn certain parcels of real property which cannot be acquired at reasonable expense by negotiation. He submitted a list of such properties together with the offer that he recommended in condemnation for each parcel, as follows:

			Recommended Offer
Big Creek Section of the Columbia River Highway			
R 17395	Floyd H. Barrett & William W. Campbell, Jr., et al Right of Way (Clatsop) 0.399 acre		$ 80.00
The Dalles-Seufert Sect. of the Columbia River Hwy.			
R 17107	Seufert Brothers Company (a corporation) Right of Way and Interstate Bridge Approach (Wasco) 17.0 acres		$20,500.00
Viento-Hood River Sect of the Columbia River Hwy.			
R 17665	Alice E. Glass Right of Way (Hood River) 0.24 acre		$ 300.00
R 16985	Sonny Land Company Right of Way (Hood River) 5.66 acres at $75.00 per acre 2.0 acres at $25.00 per acre	$ 424.50 50.00 474.50	$ 500.00
R 17006	Harold L. Frick, et al Right of Way (Hood River) 1.99 acres of land consisting of orchard and landscaped area, a barn, chicken house and fenced yard, driveway and damages		$ 11,500.00
Hood River-Mosier Section of the Columbia River Hwy.			
R 17634	James C. Fulton, et al. Right of Way, Rock Quarry & Haul Road (Wasco) 15.09 acres of land at $10.00 per acre Damage (10% of total value of property $15,000.00)	$ 150.00 1,250.00 $1,400.00	1,500.00

			Recommended Offer
Salem-Hayesville School Sect. of the Pacific Hwy. East			
R 13893	Albert J. Sauers, et al Right of Way (Marion) 462 square feet of land		$ 1,600.00
R 13914	Elmer F. Gaska, et al. Right of Way (Marion) 3900 square feet at 20 cents remove and replace fence value of fir tree taken	$ 780.00 25.00 50.00 $ 855 00	$ 900.00
Judkins Point-Goshen Sect. of the Pacific Hwy.			
R 17055	Ross E. Glass, et al. Gravel Pit (Lane) Entire taking Remaining portion	$20,500.00 14,500.00	
	To be acquired	$ 6,000.00	$ 6,000.00
Nimrod-Blue River Sect. of the McKenzie Hwy.			
R 17313	Frederick Behm , et al. Quarry and Stockpile Site (Lane) Parcel No. 1 1.35 acres at $500.00 Parcel No. 2 6.63 acres at $ 75.00 2.0 acres at $500.00	$ 675.00 497.25 1,000.00 $ 2,172.25	$ 2,175.00
Nyssa-Adrian Sect. of the Nyssa-Adrian Hwy.			
R 17764	Lem E. Wilson, Jr. under contract to E. M. Titus Right of Way (Malheur) 1.55 acres of land		$ 1,500.00

R 15695	Rinehart under contract to A. E. Child Gravel Pit (Malheur) 10.15 acres 186 rods of fence to be moved		$ 2,000.00

			Recommended Offer
Nyssa-Adrian Sect. of the Nyssa-Adrian Hwy. (cont.)			
R 17763	R. S. Overstreet under contract to C. P. Resendorfer Gravel Pit (Malheur) Approximately 20 acres		$ 4,000.00
Salisbury-Baker Sect. of the Baker-Unity Hwy.			
R 17585	Charles Greer Right of Way (Baker) Land 0.21 acre at $500 Fence, 13.5 rods at $4.00	$ 105.00 54.00 $ 159.00	$ 200.00
R 17583	H. T. Quin Right of Way (Baker) 1.29 acres at $500 Fence, 45 rods at $4.00 Damage, loss of pasture	$ 645.00 180.00 32.25 $ 857.25	$ 900.00
R 17581	D. E. Clark, under contract to Fay Taylor 1.25 acres at $500 Fence, 41 rods at $3.00 Right of Way (Baker)	$ 625.00 123.00 $ 748.00	$ 800.00
R 17586	Roy E. Young Right of Way (Baker) .023 acre Fence, 6 rods at $3.00	$ 25.00 18.00 $ 43.00	$ 50.00
R 17580	Violet Flossie Cole Right of Way (Baker) Land 2.25 acres at $300 Damage, loss of pasture at $50 Fence, 27 rods at $5.00	$ 675.00 112.00 135.00 $ 922.00	$ 1,000.00
R 17570	O. B. Hindman, under contract to Paul Dalgliesh Right of Way (Baker) Land 7.15 acres at $3.00 Fence, 391 rods at $3.00 Compromise allowance for loss of interest	$2,145.00 1,173.00 200.00 $3,518.00	$ 3,600.00

Unit No. 2 Section of T. H. Banfield Expressway

R 15871 J. A. Lyons

New resolution to be adopted for the purpose of correcting the property description. Amount of the offer to remain that of the same authorized by the Commission on April 12, 1951.

After careful consideration of each item, the Commission unanimously approved the request and the recommended offers by adoption of the attached resolutions relative thereto marked EXHIBITS "J-1", "J-2", "J-3", "J-4", "J-5", "J-6", "J-7", "J-8", "J-9", "J-10" and "J-11", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported sales of miscellaneous properties as follows subsequent to the last meeting of the Commission:

File No.	Location	Sales Price	Purchaser	Items & Remarks
16960-	Tumalo-Bend Sect. McKenzie-Bend Hwy.	$ 30.00	Eldon A. McMullen Camp Living Water, Bend, Oregon	This shack acquired in land trade- considered of no value in trade
14856 -	6826 NE Halsey Street- Banfield Expressway Unit #4- Building "E"	$500.00	Insurance by Fire	Building destroyed by fire May 24, 1951, - total insurance collected
14710-	1030 NE 29th Avenue Unit #2- Banfield Expressway	$ 20.00	Adolph Abendroth, Gales Creek, Oregon	This is mostly a concrete building- the salvage is rafters, doors and windows -
14856-	6826 NE Halsey Street Unit #4- Banfield Expressway- quonset hut	$200.00	N. A. Heckman 3723 N Russett Portland	This hut was partly damaged by fire. Checked department- they had no use for building
14856-	6907 NE Halsey Street, Unit #4 Banfield Expressway-galvanized iron covered building with attached office	$850.00	Newport Construction company- 7031 NE Halsey Street Portland	Newports are in a better position to salvage this bldg. than anyone-also, office back of office bldg. at 6855 NE Halsey Street

File No.	Location	Sales Price	Purchaser	Items & Remarks
14856-	6909 NE Halsey Street, Unit #4 Banfield Expressway- galvanized iron-covered building	$750.00	Newport Construction Company- 7031 NE Halsey St., Portland, Oregon	Newports are in a better position to salvage this building than anyone

The Commission unanimously approved the sales as reported.

The Right of Way Engineer also reported the results of receiving bids in Salem on July 5, 1951 for the purchase of real property located in Pendleton. He said that only two bids were received, one being that of W. H. Morrison, Pendleton, at $22,008 in behalf of two clients, namely Ray L. Comrie and Garland L. Ganger, the other being an adjusted bid of Senator Rex Ellis, Pendleton, at $5,000, detailed as follows:

Rex Ellis, Pendleton		$ 5,000.00

* Detail of above bid:

Bid	$26,000.00	
Cash Payment	5,000.00	
Balance		$21,000.00

Reimbursement of above $21,000.00 to be made by savings to State, computed as follows:

Value of land	$26,500.00	
Improvements (building, etc.)	23,800.00	
	$49,300.00	
Estimated fair yearly return on $49,300.00	$ 3,900.00	
Proposed yearly rental to Secretary of State	1,800.00	
Savings to State per year	$ 2,100.00	
Savings to State for ten years		$21,000.00

The matter was discussed very carefully by the Commission and, as a result thereof, Commissioner McIver moved acceptance of Mr. Morrison's bid in the sum of $22,008, in behalf of his clients. The motion was duly seconded by Commissioner Reynolds and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Commission discussed a request from S. T. Humphrey, Glendale, Oregon, for permission to assign to E. S. Skillings, Jr. his lease of 14.25 acres of State Highway property on the Pacific Highway at Johns-Glensdale Junction. The Right of Way Engineer recommended approval of the request. The Commission approved the recommendation. (A "Consent of Assignment" form was signed by the Commission later in the session).

Consideration was given by the Commission to the leasing of a parcel of ground at Bunker Hill, Coos Bay, for a period of ten years, to a Mr. Walter J. Brandon. The Right of Way Engineer advised that the property consists of two city lots, and that Mr. Brandon is willing to pay $125 per year for use of the property; moreover, he will also pay all taxes assessed against the property in excess of $50 a year. He also said that the lease will contain a six months' cancellation clause, so if the State needs the property before the ten years has expired, it may take it over with proper notice. The Right of Way Engineer explained that Mr. Brandon owns the property abutting the State's tract and that he intends to use the area either for parking or landscaping and he will give the State permission to enter upon the property at any time as may be necessary in connection with maintenance of a sewage structure which crosses the property. He recommended approval of the lease under those conditions. The Commission approved the recommendation unanimously. (The lease was signed later in the session.)

The Right of Way Engineer asked the Commission to confirm the telephonic authority given him on June 22, 1951 to grant to the U.S. Corps of Engineers a perpetual easement across State Highway property between Cottage Grove and Walker in connection with a flood control project in Row River. He stated that the property was acquired for a gravel pit and that the granting of the easement will not in any way impair it for future State use. Moreover, approval of the easement is recommended by the Chief Counsel and Assistant State Highway Engineer, Mr. W. C. Williams. The Commission approved the granting of the easement.

The Commission discussed and by unanimous vote approved the granting of a permit to Mr. and Mrs. J. A. Bucher to use certain State owned property situated adjacent to the Columbia River Highway at Dodson overpass for grazing purposes as a compromise settlement of their damage claim against the State. (The permit was signed later in the session).

The Commission also approved a proposed agreement with the O W.R.& N. Railroad Company and the Union Pacific Railroad Company relinquishing two encroachments on railroad property near Troutdale, it appearing from information given by the Engineer that these encroachments are no longer required. (An agreement was signed later in the session).

The Commission discussed a request from the Consumers Co-operative Association of Swisshome for permission to remove 4,000 cubic yards of rock from a State owned quarry on the Siuslaw Highway, Lane County. The Engineer explained that the quarry is located on Government-owned land and that the Federal authorities are willing for the Association to take rock from it, subject to approval by the Highway Commission which has prior rights. He further stated that there are no objections to the taking of the rock from the standpoint of the Highway Department, and he recommended approval of the request. The Commission approved the recommendation. (An agreement covering the matter was signed on the following day.)

The Commission discussed a proposed agreement with the California-Oregon Power Company and Elizabeth Gallogly Geary relating to the reconstruction and maintenance of a dike on the Geary property adjacent to the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway, Klamath County. The Chief Counsel explained details in connection with this matter and recommended approval of the agreement. The Engineer concurred in the recommendation. The Commission approved the recommendation unanimously. (The agreement was signed on the following day.)

The Right of Way Engineer brought up for discussion a request from Ronald K. and Martha C. Miller for a change in the point of access to their property on the Columbia River Highway between Cascade Locks and Viento. He said that the change has been investigated and it has been determined that the new access will not be detrimental to the State's interests. He recommended approval of the request. The Commission approved the recommendation. (A form of "Indenture of Access" was signed by the Commission on the following day.)

The Commission discussed a proposed settlement with William M. Gray and Retha Gray for a hauling road in connection with the improvement of the Midland-Mac's Store Section of the Lower Klamath Lake Secondary Highway. It appears that in 1947 a quarry and hauling road were acquired for use in connection with the improvement with this highway section and an investigation indicated there was plenty of material available; however, when the contractor opened up the quarry, it was found that the material was not suitable for the purpose intended, and the quarry was abandoned. It also appears that in acquiring the quarry, the State became obligated with respect to the hauling road, and that it would cost about $1,000 to fulfill that obligation. However, the grantors will be satisfied were the hauling road reconveyed to William M. Gray and Retha Gray, and were the quarry redeeded to Veda Gray and Frank and Lawrence F. Gray, from whom they were acquired. The Right of Way Engineer recommended approval of such settlement. The Commission approved the recommendation. (Two bargain and sale deeds covering the matter were signed by the Commission on the following day.)

The Commission considered and approved a two-year renewal of its lease of a gravel pit near Gold Hill, Jackson County, from the owners, Gold Ray Realty Company, Medford. The tract contains 0.98 acres of land and the consideration involved is $3 per year.

The Chief Counsel reported the following settlements of lawsuits since the last meeting of the Commission:

1. The case of the State vs Harrison W. Jensen et al, involving acquisition of right of way for the T. H. Banfield Expressway in Portland. The Chief Counsel advised that the Jensens originally demanded $1,000 for the property for which the State had offered $650, but as a result of negotiations a compromise settlement has been reached at $800. The Commission approved such compromise settlement.

2. State vs John Gilbert et ux concerning acquisition of right of way for the Santiam Highway in the city of Sweet Home in Linn County. The Chief Counsel recalled that the Commission authorized an offer of $1,500 in this case which amount the owners refused. Subsequently, he said, Senator Gill, Attorney for the owners, had three appraisals made of the property, and the Gilberts finally agreed to a compromise settlement of $2,000 which is one-half of the difference between the State's offer and the two lowest appraisals secured by Senator Gill. The Counsel recommended settlement on such basis. The Commission approved the recommendation.

3. State vs Harry Swager et al concerning right of way needed for the Santiam Highway in the City of Sweet Home. The Chief Counsel advised that three appraisals of this property showed a valuation of $2,375. $2,500, and $2,700, respectively, compared with the State's offer of $1,800 which the owners refused. Through the efforts of Senator Gill, he said, the owners have finally agreed to accept the sum of $2,150 for their property which is one-half of the difference between the State's offer and the amount of the lowest appraisal. He recommended approval of the settlement. The Commission approved the recommendation.

4. State vs Ernest W. Buck et al concerning right of way needed for the T. H. Banfield Expressway in Portland. The Chief Counsel advised that Mr. Buck demanded $10,000 for this property but finally agreed to accept $8,475 for it. He recommended approval of the settlement. The Commission approved the recommendation.

5. State vs Markel Service, Inc., involving collection of the sum of $953.55 which represents the cost to repair a bridge on the Pacific Highway at Sutherlin, Douglas County, which was damaged by a truck colliding with it on December 23, 1949. The Chief Counsel advised that the Markel Service has offered to pay the sum of $750 as settlement in full. He recommended acceptance of the offer because there is a question as to who was liable for the damage. The Commission approved the recommendation.

6. State vs B. Folsom et ux concerning acquisition of a slope easement necessary in connection with the improvement of the Oregon Coast Highway in the City of Coquille. The Chief Counsel advised that this case was filed on March 28, 1951 after a formal offer of $750 had been refused; also that subsequently negotiations were continued and as a result an easement has been obtained for the amount of the consideration first offered. The Commission approved the report.

7. State vs Simica Milich concerning right of way needed for the T. H. Banfield Expressway in Portland. The Chief Counsel advised that the Commission's offer in this case was $7000 which Mrs. Milich first refused but finally agreed to accept upon recommendation of her attorney, Mr. Donald H. Joyce, Portland, if the State would allow her an additional $200 to cover expenses incident to moving and re-establishing herself in new accommodations. He recommended approval of the settlement. The Commission authorized payment of $7200 in this case as recommended.

The Chief Counsel brought up for discussion the matter of extending the T. H. Banfield Expressway easterly from its present terminus at the Portland City limits to a connection with the new Columbia River water level Highway near Troutdale. He recalled that the Commission, at its meeting on August 22, 1950 adopted a resolution designating T. H. Banfield Expressway, which was then described as extending only from the east end of the Burnside Bridge in Portland to the easterly city limits of Portland, from which point to Troutdale, the highway would still be called Sullivan's Gulch Highway. He suggested in order to eliminate the confusion that exists in referring to one section of this highway as Sullivan's Gulch Highway and to the other as the T. H. Banfield Expressway, that the entire route between the Burnside Bridge in Portland and the connection near Troutdale be designated as the T. H. Banfield Expressway. The Commission unanimously approved the suggestion by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution, by this reference, is made a part hereof with like effect as though extended in full herein.

The Chief Counsel submitted a status report on the settlement of the State's claim against contractor C. J. Montag arising out of fire that occurred in the Mack Truck Building in Portland which Montag and Sons rented from the State for use during highway construction at this location. He advised that in June of this year, Mr. Montag agreed to pay the State $25,000 cash in settlement of this account but changed his mind later and now refuses to pay more than $22,500 cash, which amount he estimates repairs will cost. As an alternative, Mr. Montag states his willingness to repair the building. The Chief Counsel advised that, if this

matter should go to court, the State would have a very poor chance to collect the amount of its original claim so it is a case of accepting the $22,500 cash or letting Mr. Montag restore the building to its original condition. As a result of discussion, a motion was made by Commissioner McIver that the Commission accept the sum of $22,500 cash as settlement in full of this account. The motion was duly seconded by Commissioner Reynolds and carried by the unanimous vote of the Commission.

The Commission discussed written reports from the Chief Counsel and the Engineer concerning the request of the Portland City Council that the State contribute additional funds to pay the cost of constructing a storm and sanitary sewer on 82nd Street in Portland. A careful review of the facts disclosed therein indicated to the Commission that the State is not liable for payment of a greater sum than already has been authorized as cooperation in this project. Accordingly the Commission voted unanimously to limit its contribution to the $50,000 which it previously authorized for this purpose. (For details see copy of the Engineer's report and Chief Counsel's report in the general files.)

The Chief Counsel requested authority to increase the salary of Mr. J. W. De Souza, attorney assigned to the right of way department, from $450 per month to $500 per month. The Commission unanimously approved the request and so voted.

The Commission considered and, upon recommendation of the Engineer and Chief Counsel, approved an agreement with the Crown Zellerbach Company of Portland for the joint use of State and Company quarries situate in Columbia County in order to obtain road building materials. (The Agreement was signed later.)

The Engineer reported the results of further studies of the proposed relocation of the Pacific Highway through the City of Roseburg, particularly with respect to the objections that have been offered by local representatives of the Roseburg Community Hospital. The matter was discussed at considerable length and, as a result thereof, the Commission decided unanimously to adopt the location heretofore recommended by the Engineer. The attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote upon motion by Commissioner Reynolds and duly seconded by Commissioner McIver. (For details see copy of Engineer's report to the Highway Commission dated July 9, 1951 in general files.)

The Commission discussed a report from the Engineer concerning a complaint filed by Mr. J. F. La Rouche, former operator of the Wilsonville Ferry, about the service being rendered by Mr. T. E. Bruck, present operator. In his letter Mr. La Rouche enumerates his complaint in detail. The Engineer advised that the complaint has been investigated and that all of the statements made by Mr. La Rouche are refuted by the

findings; that Mr. Bruck is furnishing service in conformity with the provisions of his contract and that the ferry boat that he is using has passed inspection by the Coast Guard. The matter was discussed by the Commission, but no action was taken pending personal appearance of Mr. La Rouche on the following day. (For details see copy of Engineer's report dated July 10, 1951 in the general files.) (See ahead for additional paragraph.)

The Commission discussed a resolution from the City Council of The Dalles, Oregon, approving the plans and specifications of the State Highway Department for a one-way street couplet in The Dalles to provide for one-way traffic on US Highway No. 30, including a system of traffic signals. According to the resolution, the City agrees to pay one-half of the cost of the traffic signal installation and to adopt and enforce necessary ordinances to regulate and maintain the flow of traffic in the one-way pattern. The Engineer advised that the overall cost to install the system and the signals is estimated at $165,000 of which amount the City's share is $40,500, representing 50 per cent of the right of way expense and signal costs. He requested instructions whether or not to proceed with the preparation of plans for the project. The Commission indicated a favorable attitude toward the project and, upon receipt of a telegram from Mr. Marshall W. Nelson, Mayor of The Dalles, requesting the improvement in behalf of the City Council, approved the project on the basis of the Engineer's report. Motion to that effect was offered by Commissioner Reynolds, seconded by Commissioner McIver, and carried unanimously. The Commission ordered the arrangement covered by appropriate written agreement with the City. The Engineer was authorized to work up detailed plans of the project.

The Engineer reported the result of the taking of bids in Salem on July 6, 1951 for the purchase of used equipment located at the Highway Shops in Salem, Coquille, Klamath Falls, and La Grande. He presented a tabulation of the high bids received and recommended acceptance of the same. The Commission approved the recommendation unanimously. (For details see copy of the high tabulation in the Secretary's files, File No. 440, Miscellaneous Proposals.)

The Commission discussed a report from the Engineer, including a tabulation listing employees who are subject to the pension and retirement act. The employees are classified in three groups, viz:

(1) Employees who have received their retirement extensions and whose extensions expire during the fourth quarter of 1951;

(2) Employees reaching the original retirement age during the fourth quarter of 1951; and

(3) Employees previously retired who have requested re-employment under the revised retirement law.

In the first category, the Engineer listed Frank T. Young; H. G. Smith; Paul Deuber; Harry G. Benson. In the second group, he listed W. C. Crews; Chester B. Johns; Harvey McClain; John L. Oscar; George P. Boone; William U. Sabin; Fred P. Kuhl; Carl A. Peterson; and P. P. Whitmore. Prince A. Lucas was the only employee listed in the third group. The Engineer recommended that all of the employees listed in groups 1 and 2 be retained on the Highway Department payroll and that Mr. Lucas be reinstated. The Commission approved the recommendation unanimously.

A letter was presented from Senator Stewart Hardie, Condon, requesting the placement of a crushed rock surface on the Cottonwood Grade Section of the Wasco-Heppner State Secondary Highway. The Commission deferred consideration of this matter pending adoption of a construction program later in the session. (The Commission later in the session authorized the expenditure of $32,000 of State funds for this purpose.) (See ahead for additional paragraph.)

A letter was presented from Mr. E. L. Kincade, President, Radio Airways, Inc., Eugene, suggesting construction of a new highway along the north side of the Willamette River between the new Ferry Street Bridge, in Eugene, and Springfield to relieve what he deems a bottleneck condition on US99 at Judkins Point. The Commission deferred action on this matter pending presentation of the Engineer's report on an economic study of the highway situation in the Eugene and Springfield areas which the Commission previously authorized him to make.

In this connection a request was also presented from the County Court of Lane County for substitution of the Mohawk County Road No. 439 for the Fox Hollow State Secondary Highway in the State Secondary Highway system. The Engineer advised that a reconnaissance survey of both roads would have to be made before he could render an intelligent report on the County Court's request. The Commission decided to take no action until the Engineer has rendered his report on the economic studies of this district.

The Commission discussed communications, as follows, from the City of Springfield, concerning the proposed highway improvement in that city: (1) report from the Springfield Chamber of Commerce; (2) resolution passed by the Common Council of the City of Springfield at a meeting held on July 2, 1951; and (3) excerpts from the minutes of a meeting of the Common Council held on May 18, 1951, all having to do with the selection of the South "A" Street Route for this improvement. The Engineer advised that he has studied this material, and it now appears possible, with clarification of matters pertaining to the South "A" Street route, to proceed with construction of the project sometime this year, inasmuch as the Southern Pacific Company has indicated its cooperation with

respect to right of way that is needed from that company. Accordingly he recommended that the Commission enter into a written agreement with the City of Springfield concerning the matter, and that the Public Utilities Commissioner be asked to conduct a hearing with respect to the grade crossing of the Southern Pacific Company's tracks and the use of a switch track across the highway during rush hours. As a result of this discussion the Commission authorized the Chief Counsel to prepare a form of agreement with the City as recommended by the Engineer. This is to be presented to the Commission before it is sent to the City to execute and is not to be given to the City to approve until the hearing on the grade crossing has been had before the Public Utilities Commissioner. The Engineer was authorized to arrange for such a hearing, and he was instructed to render an additional report on the subject when the Public Utilities Commissioner has made his order on the matter.

The Commission discussed and ordered filed a resolution from the Roads and Highways Committee of the Lewiston Chamber of Commerce endorsing a resolution heretofore adopted by the Enterprise Chamber of Commerce, urging the early completion of the Lewiston-Enterprise Highway.

A resolution was presented from the City Council of the City of Gold Hill, Jackson County, objecting to the re-routing of the Pacific Highway that will result in by-passing the City of Gold Hill. The Engineer advised that similar requests have been received from the City of Drain and other towns along the Pacific Highway which, in all probability, will be by-passed when the highway has been relocated. He pointed out that, in order to comply with the Federal law, public hearings must be held in the towns affected, and he suggested that such a hearing be held in each of these places before the Commission adopts the revised location. It was the feeling of the Commission that the hearing should be held subsequent to the adoption of the new location, and it was so ordered.

The Commission had under discussion the approval of the plans of the following cities and towns for expenditure of State Tax Street Funds that have accrued to them during the second six months period of 1950:

Amity	$2,042.75	Fairview	$1,342.38	Mosier	$ 783.31
Antelope	184.31	Gervais	1,394.60	Mount Vernon	1,363.88
Aumsville	857.03	Glendale	2,600.18	Nehalem	826.31
Aurora	746.45	Gold Beach	2,263.91	North Powder	1,231.79
Bonanza	795.60	Gold Hill	1,873.80	Oceanlake	2,107.25
Canyon City	1,554.33	Halsey	1,201.07	Pilot Rock	2,583.38
Columbia City	1,241.01	Hines	2,789.19	Rogue River	1,812.36
Condon	2,967.36	Island City	423.91	Scappoose	2,024.31
Creswell	2,045.82	Lafayette	2,027.39	Siletz	1,747.85
Dayville	878.53	Lostine	546.78	Sodaville	1,256.37
Dufur	1,290.16	Malin	1,827.72	Summerville	224.24
Eagle Point	1,852.29	Maupin	952.26	Waldport	2,094.97
Echo	1,397.67	Metolius	482.27	Wasco	921.54
Estacada	2,890.56	Monument	700.37	Weston	2,085.75
		Moro	1,099.70		

The Engineer advised that each of these cities has fulfilled the legal requirements with respect to the use of the funds in question and that the plans for the proposed improvements have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto and marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also discussed the matter of distributing to the cities and towns of the State their respective shares of highway revenues that accrued to them during the first six months period of 1951. A tabulation showing the amounts due each city and town was presented by the Engineer. As a result of the discussion, the Commission unanimously approved the allocations shown therein by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer brought up for discussion the advisability of raising the limit of population under which cities and towns can participate in the $250,000 special State Tax Street Fund Act. He advised that a number of cities which formerly had a population of less than 5000 have made inquiry as to the possibility of securing the benefits of such funds, notwithstanding the fact that their population by the 1950 census is greater than 5000, the limit heretofore set by the Commission for such participation. He said that there is now a total of 24 cities having a population in excess of 5000 of which seven were added to the list as a result of the 1950 census. He gave as his feeling that the population limit should be raised possibly to 10,000 or at least to 7,500. The Commission voted unanimously to make no change in the present population limit for the time being. Motion to that effect was offered by Commissioner Reynolds and was seconded by Commissioner McIver.

The Commission discussed a request from the Pilot Rock Commercial Association, Pilot Rock, Oregon, for improvement of the Pendleton-John Day Highway between Pendleton and Pilot Rock, a distance of about twelve and one-half miles. The Engineer estimated that it would cost about $528,000 to reconstruct this road properly. The Commission took the matter under advisement.

The Engineer reported that considerable difficulty is being experienced in maintaining the progressive signal system on Franklin and Broadway Boulevards, US 99, in Eugene because the signals are not synchronized and any power failure throws the signals out of progression. He estimated the cost to inter-connect the signals so they will remain in progression at $2,000 and he recommended approval of the expenditure on the condition that the City of Eugene will pay 50 percent of the cost. The Commission approved the recommendation unanimously.

The Commission discussed a request from the City of Weston for installation of traffic signals on the Oregon-Washington and Weston-Elgin Highways in Weston. The Engineer advised that this matter has been investigated by the Traffic Engineering Department whose report indicates that the following provisions will result in a material improvement in the handling of traffic in the City and will result in fewer accidents occuring:

1. that the City trim the trees to a mean height of ten feet above the ground at the southwest corner of Depot and Water Streets,

2. that a "No Parking At Any Time" regulation be instituted along the east side of Water Street between Second Street and Depot Street,

3. that a "No Parking At Any Time" regulation be made effective on the west side of Water Street from Bruce Street to High Street, and on the west side of Water Street from a point fifty feet south of Pomeroy Street to Depot Street,

4. that parallel parking be put into effect on both sides of Main Street between Water Street and Broad Street in lieu of the present angle parking,

5. that a flashing beacon be installed at the intersection of Water Street (ORE 11) and Main Street (ORE 204) which will flash amber to traffic on ORE 11 and red to traffic entering the intersection from ORE 204,

To make the "No Parking" directives effective, he said, will require the adoption of appropriate ordinances by the city.

He estimated the cost of the signal at the intersection of ORE 11 and ORE 204 at $500 which, he said, will be paid with State funds because it is an intersection of State Highways. He recommended approval of the plan as outlined, contingent upon the city's approving and adopting the necessary ordinances. The Commission approved the recommendation unanimously, subject to the conditions mentioned by the Engineer.

The Commission discussed a request from Mr. E. H. Crosby, Chairman of the Board of Governors, Oregon Timber Transport Operators, for improvement of traffic at three locations, viz: (1) US 101 north of Coquille, (2) Junction of Warrenton Secondary Highway with US 101 south of Astoria, and (3) Junction of Sunset Highway with US 101 at Cannon Beach Junction. The Engineer advised that Mr. Crosby's requests have been investigated by the Traffic Engineer and, as a result, the situation on US 101 north of Coquille has been corrected by readjustment of signs routing traffic into and from the Highway Department traffic scales located at that place. He advised that Mr. Crosby suggests construction of a "left turn refuge" for north-bound traffic and the designation of a restricted

speed zone at the junction of the Warrenton Secondary Highway with US 101 south of Astoria. The investigation, he said, reveals that there is no justification for the expense of constructing the "left turn refuge", neither is there justification for the installation of a reduced speed zone at this point. He recommended that the request be denied. As to Mr. Crosby's suggestion for improvement at the junction of Sunset Highway with US 101, the Engineer stated that the information gathered from the Traffic Engineer's investigation reveals that a flashing beacon should be installed at this junction. He estimated the cost of the installation at $500 and recommended approval of the expenditure. The Commission unanimously approved the Engineer's recommendations.

The Commission also discussed a request from Representative Carl H. Francis, Dayton, Oregon, for signalization of the Southern Pacific Company's railroad grade crossing on the Three Mile Lane State Secondary Highway north of Dayton. The Engineer advised that this matter has been investigated by the Traffic Engineer and the information gathered indicates that there is some justification for the signal, although he could not recommend it at this time due to the relatively low priority of the crossing, it being the sixty-fifth on the list of all unsignalized crossings on the State Highway system. In view of this information, the Commission decided not to authorize the installation at this time. The matter is to be reconsidered at some future time.

A resolution was presented from Vale Grange No. 696, Malheur County, requesting either the widening of the present bridge over Bully Creek on US Highway 20 about one and one-fourth miles southwest of Vale, or construction of an entirely new structure of sufficient width to accommodate heavy traffic without hazard. The Engineer advised that it is impractical to widen the present structure and that the cost to replace it with a new one is estimated at about $30,000. He further advised that there are seventeen bridges on the highway system with the same roadway width as the Bully Creek Bridge and sixty-two bridges on the system with horizontal clearance less than that on the Bully Creek Bridge. The sight-distance at the Bully Creek Bridge, he said, is unimpaired for at least a quarter of a mile in either direction and the accident record is very favorable. He recommended that the request be denied but that it be considered again at some future time when conditions change. The Commission approved the recommendation.

The Engineer reported the need to landscape embankment and excavation slopes on the Fir Avenue-Ingersoll Avenue Section of US 101 in the City of Coos Bay in order to prevent raveling of the slopes. He also reported the need to construct about 500 feet of guard fence along the top of the cut slopes as a safety measure. He estimated the cost of the landscaping and the guard fence construction at $7,500 and recommended approval of the expenditure as a minor betterment project, the work to be done by contract. The Commission approved the recommendation unanimously.

The Engineer requested an additional project authorization of approximately $21,000 in connection with the grading and paving of the

Ontario-Nyssa Section of the Old Oregon Trail, State Highway Contract No. 3370. He explained that the over-run of the original authorization was partially due to widening the gravel shoulders with a bituminous binder course in order to secure a satisfactory base on which to construct the widened pavement, and partially because of an over-run in the costs of gravel borrow where there was a greater shrinkage of the material than was estimated. The Commission unanimously approved the additional authorization.

A petition was presented from residents of Cannon Beach and vicinity requesting construction of a foot path along US 101 for a distance of two and one-half miles south from the town of Cannon Beach. The Engineer estimated the cost of the foot path at approximately $13,300, the high cost being partially due to purchase of extra right of way. He pointed out that the highway construction that is now under way at this point will soon eliminate the old highway as the main travelled route, and, when the new highway is opened to traffic, the hazard mentioned by the petitioners will be so materially decreased that the expenditure for the foot path cannot be justified. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer reported that surveys have now been completed for the relocation of the Oregon Coast Highway between Reedsport and Hauser, the section between Reedsport and the Douglas-Coos County Line having been surveyed by the State Highway Department and the section between the Douglas-Coos County Line and Hauser by the Bureau of Public Roads. The improvement of the entire section, he said, is scheduled for the near future, using State bond money and forest highway funds to finance the work, in view of which it is desired to proceed immediately with the acquisition of necessary right of way. He exhibited maps showing the proposed location and explained details, and he asked the Commission to approve the surveys and to authorize the Right of Way Department to negotiate options for right of way as may be necessary. This matter was given very careful consideration by the Commission, and, as a result thereof, the Commission approved and adopted the survey as recommended. The attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The Commission had under consideration the following requests for extensions of time within which to complete certain highway contracts:

1. VaDare Construction Company, Contract No. 3286, for construction of the Spruce Street Bridge on the Coquille-Myrtle Point County Road, in the town of Myrtle Point, Coos County, requested an extension of time of sixty days from May 31, 1951 to July 31, 1951 within which to complete this job. They gave the following reasons for their failure to complete the project within the specified time limit: operations closed during the winter season to avoid danger of possible floods during the removal of the old structure, and need to wait

for suitable weather conditions in the spring to paint the structural steel and guard rail. The Engineer advised that the new structure has been complete for several months and has been in use by traffic; further that he directed the contractor to postpone the removal of the old structure until danger from high water in the river was passed. He recommended that the extension of time be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

2. Parker-Schram Company, Contract No. 3390, for grading and paving the Ochoco Avenue-Milwaukie Service Road along the Pacific Highway East in Clackamas County, requested an additional extension of time of 45 days, from May 15, 1951 to June 29, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to adverse weather conditions. The Engineer advised that extremely heavy rains during the month of April prevented the contractor from preparing the subgrade for paving and caused considerable delay in final completion of the work. The traveling public, he said, has not been inconvenienced by the delay, neither has the State incurred any extra expense for engineering supervision. He recommended that the additional extension of time as requested be granted without penalty. The Commission approved the recommendation.

3. Porter W. Yett, Contract No. 3387, for grading and paving the Gresham (N. E. 5th Street to N. E. 10th Drive) city street project in the City of Gresham, requested an extension of time of 289 days, from October 15, 1950 to July 31, 1951, within which to complete this job. He attributed his failure to complete the project within the specified time limit to failure of the City of Gresham to relocate water mains and utilities before winter weather set in. The Engineer advised that the obligation to relocate the water mains and utilities was entirely that of the City of Gresham which failed to perform the work until it was too late for the contractor to work his project as planned. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation.

4. J. S. Struss, Contract No. 3301, Rock Production on the Canyon Creek Summit-Soda Mountain Section of the John Day Burns Highway, requested an additional extension of time of 92 days from June 1, 1951 to September 1, 1951 within which to complete this project. He attributed his failure to complete the project within the specified time limit to adverse weather conditions. The Engineer advised that this contractor has been extremely slow in prosecuting his work, in fact the Commission previously granted him an extension of time to June 1, 1951, subject to the penalty of paying engineering costs incurred subsequent to the specified completion date. He recommended that the additional extension of time now requested be granted subject to the same penalty that Mr. Struss will be charged with the

engineering expenses incurred by the State on this job subsequent to the date specified in the contract for completion of the work. The Commission approved the recommendation.

5. H. G. Carl, Contract No. 3332, for construction of the James Avenue Bridge in the town of Silverton, Marion County, requested an additional extension of time of twelve days, from June 1 to June 12, 1951, within which to complete this job. He alleged that the over-run of time limit was due to delay in delivery of paint that was to be used on the structural steel. The Engineer advised that all work on this project, with the exception of painting the structural steel, was completed within the previously extended time limit, but adverse weather forced postponement of the painting work; also, that the contractor experienced difficulty in securing delivery of tested paint. He recommended, in view of the circumstances that the additional extension of time now requested be granted without penalty. The Commission approved the recommendation.

6. Sound Construction and Engineering Company, Contract No. 3250, for construction of the State Highway Office Building in Salem, requested an additional extension of time of eighteen days, from June 1 to June 18, 1951, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to non-delivery of priority items of necessary materials. The Engineer advised that in granting this contractor the first extension of time, the Commission specified that the contractor should reimburse the State for one-half the cost of the steam used in heating the building during construction, and that the contractor be required to reimburse the State for Engineering costs incurred after February 8, 1951, which was the date specified in the contract for completion of the structure. He pointed out that the Highway Department took possession of the building on June 1, 1951 and shortly thereafter occupied it. He recommended, in view thereof, that the extension of time now requested be granted without further penalty but subject, however, to the penalties previously assessed when the first extension of time was granted. The Commission approved the recommendation.

7. Walter Rohde, Contract No. 3333, for construction of a latrine in Catherine Creek State Park in Union County, requested an extension of time of 285 days, from July 31, 1950 to May 12, 1951, within which to complete this job. He gave the following reason for failure to complete the project within the specified time limit: "misinterpretation of the specifications, weather conditions and plumbing could not be tested as water had not been run into the building until the month of May 1951". The Engineer advised that this job was completed except for testing the plumbing, within the specified time limit, but the contractor was not able to make the test because the water supply was not provided by the State until May of this year. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty.

The Commission approved the recommendation.

8. The Gilpin Construction Company, Contract No. 3105, for construction of the Sauvies Island Bridge on Gillihan County Road in Multnomah County, requested an additional extension of time of 184 days, from April 30, 1951 to November 1, 1951, within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to high water conditions in Willamette Slough. The Engineer advised that the structure was completed last fall and was opened to traffic during the winter time. He recalled that the first extension of time was granted up to and including April 30, 1951 to permit painting of the structure during suitable weather, and placement of the lower part of the web wall between the piers during extreme low water. Suitable water level was not reached, he said, during the spring season so it was necessary to postpone the placing of the web wall until this fall. He also said that the public has not been inconvenienced by the delay, neither has the State incurred any extra expense for engineering supervision. He recommended, in view of the circumstances, that the additional extension of time now requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The recommendation was approved unanimously by the Commission.

9. R & M Construction Company, Contract No. 3408, for widening the Union Creek Bridge on the Crater Lake Highway at M. P. 57.29, requested an additional extension of time of 30 days, from June 30, 1951 to July 30, 1951. They attributed their failure to complete the project within the previously extended time limit to a 30-day breakdown of the plant from which they were obtaining their cement. The Engineer advised that this contract was awarded late in the fall of 1950 but could not be completed before cold weather set in so he ordered postponement of the work until spring, and the Commission granted the first extension of time without penalty. The closing down of the cement plant at Gold Hill for repairs, he said, caused a further delay of about 30 days. He recommended, in view of the circumstances, that the additional extension of time be granted without penalty. The Commission approved the recommendation.

10. Parker-Schram Company, Contract No. 3318, for grading and paving the approaches to the Sauvies Island Bridge on the Columbia River Highway and Gillihan County Road in Multnomah County, requested an extension of time of fifteen days, from June 30, 1951 to July 15, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to a change in plans for the improvement whereby the tonnage of Class "B" asphaltic concrete was increased in lieu of oil mat surfacing. The engineer advised that the change in plans was at the request of Multnomah County which is paying the additional costs. He recommended that the extension of time as requested be granted without penalty. A letter was presented

from the Bureau of Public Roads concurring therein. The Commission approved the recommendation.

11. R. A. Heintz Construction Company, Contract No. 3303, for grading and paving the South Unit of the Denver Avenue-Columbia Slough Section of the Pacific Highway East in Multnomah County, requested an additional extension of time of 92 days, from June 30 to September 30, 1951, within which to complete this job. They gave the following reasons for failure to complete the project within the previously extended time limit: (1) Embankment on the "E" line over the slough kept settling due to saturation and subsidence caused by rise in river levels during the spring months, necessitating delays to await drying out of the fill materials; (2) Seeding work was not permitted by the landscape division of the Highway Department until late summer; and (3) difficulties in employing experienced blade operators for finishing work. The Engineer advised that the reasons given by the contractor for failure to complete the project within the previously extended time limit are correct. He recommended, in view of the circumstances, that the additional extension of time now requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously.

12. Cosmo Gilo, Contract No. 3421, for grading the Stout Creek-Mill City Section of the North Santiam Highway in Marion County, requested an extension of time of ninety days, from July 15 to October 15, 1951, within which to complete this job. He attributed his failure to complete the project within the specified time limit to adverse weather conditions. The Engineer advised that the reason given by Mr. Gilo for failure to complete the project within the specified time limit is correct. He recommended that the extension of time as requested be granted without penalty with the understanding that if the project is not completed by October 15, 1951, then the contractor shall be charged with the engineering expense incurred after that date. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation unanimously. (See FOOTNOTE).

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3257, 3370, 3372, 3382, 3391, 3442, 3451, 3469, 3492, 3286, 3332, 3333, 3389, 3453, 3473,

3305, 3386, 3387, 3390, and 3422 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by the adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion claims against the State Highway Department as follows:

1. Claim of the Union Pacific Railroad Company in the amount of $51,965.61 for alleged damages to railroad facilities by reason of a slide at Moffett Creek on the Columbia River Highway between Dodson and Bonneville. In the discussion of this matter, the Commission had the benefit of a report from the Engineer, dated July 6, 1951, in which the Engineer states that there is no foundation for the claim and recommends that the claim be denied. The Engineer also points out that the location is an ancient landslide which has been unstable for years; that the material is only kept in place by friction and that the lubrication of the slip plane plus added weight of the water started the slide movement; moreover, a geological investigation reveals positive evidence of slide movement before any materials were removed to build the highway. In view of the Engineer's report, the Commission, by unanimous vote, decided not to allow the claim. The Chief Counsel was instructed to resist the claim in court if necessary.

2. Claim of Norman Board in the amount of $27.50, representing cost to remove paint from his automobile. The Engineer advised that a Highway Department maintenance crew was painting guard fences in the vicinity of Reith on April 5, 1951, using both spray and brush methods dependent upon whether or not any motor vehicles were parked in the vicinity. Mr. Board's car, he said, was parked about 75 feet from the fence and the crew had no idea that the spray would reach it although it evidently did because inspection showed the car speckled with white paint which evidently was carried to it by the wind. He recommended payment of the claim. The Commission approved the recommendation.

3. Claim of Hugh Adams in the amount of $24.25, representing the cost to remove asphalt that was sprayed on his automobile as a result of paving crew operations on Court Street in Salem. The Commission approved the payment of this claim on recommendation of the Engineer and Chief Counsel.

4. Claim of Roger Putnam in the amount of $17.34, representing the cost to repair his car which was damaged when driven into an unlighted traffic island on North Commercial Street in Salem. The Engineer advised that the median island was constructed on Commercial Street under a contract with Warren Northwest Inc. for the Commercial and Liberty Streets one-way street plan, and, at the time the accident

occured, the island was not lighted. He gave as his feeling that the claim is a just one and recommended payment of the same. The Commission approved the recommendation.

5. Claim of the Knappton Towboat Company in the amount of $652.34, representing actual cost of repairs to its tug, "Betsy L", which was damaged when it collided with the draw span of the Lewis and Clark River Bridge on US 101 between Astoria and Seaside. The Assistant State Highway Engineer, Mr. W. W. Stiffler, explained details in connection with this claim, particularly pointing out that it resulted because of a mechanical failure of one of the parts of the draw span. He recommended payment of the claim. The Commission approved the claim unanimously on motion of Commissioner McIver which was duly seconded by Commissioner Reynolds.

6. Claim of Otis G. Whipple in the amount of $554.14, representing losses incurred by him as the result of an accident on the Mt. Hood Highway. Mr. Whipple alleges that the accident occured by reason of the failure of the State's paving crew to place signs a sufficient distance ahead of where oiling operations were being carried on, to give the public proper warning of the operations. The Engineer advised that Mrs. Whipple, who was driving the car at the time, passed three sets of signs before reaching the freshly oiled pavement and, upon application of the brakes, the car skidded across the road into a large fir tree, completely demolishing the rear end of the car. He gave as his opinion as a result of a review of all the reports that have been submitted in this case, that the maintenance crew was not negligent in the performance of its duties, and accordingly he recommended that the claim be denied. The Commission approved the recommendation.

The meeting recessed at 12:00 noon for luncheon and reconvened at 2:00 p. m. with the same persons present and participating.

At 2:00 p. m. bids as follows, for highway construction projects were opened and read aloud by the Secretary in conformance with previously published notice, and Chairman Chandler then announced that the award of contracts would be made at 5:00 p. m.

HUNTINGTON MAINTENANCE BUILDING IN BAKER COUNTY

Johnson Construction Company, Ontario	$14,309.00
Loree Building Service, La Grande	16,046.68

BAKER-UNITY HIGHWAY IN BAKER COUNTY

C. J Eldon, Portland	78,400.00
John A. Logan, Portland	84,958.00

The Engineer reported information from the US Forest Service in Lakeview that approximately 500,000,000 feet of merchantable timber is to be moved from the Warner Valley Section of Lake County and that this timber will be transported over approximately sixteen miles of the Warner Valley Secondary Highway between its junction with US 395 and the road to Plush, the sale and the marketing of the timber to be on a controlled basis, resulting in from 20,000,000 to 30,000,000 FBM transported over the highway annually during the next 20 years. The highway, he said, will not withstand statutory loads when the bearing value of the road bed and the soil is decreased during the spring months and for that reason, he recommended that the Commission adopt a resolution authorizing the posting of this section of highway for reduced weight loads during the spring months, February to June. The Commission gave the matter very careful consideration and decided not to adopt such a resolution. However, the Engineer was instructed to send a general letter to all log haulers, lumber and timber interests in the vicinity advising them of the conditions and that very likely it will become necessary, in order to protect the highway, to order a 50 percent reduced load restriction during the spring months, so they should govern themselves accordingly.

The Engineer requested authority for an expenditure of $1,860 to purchase office furniture for the Legal Department, $340 for purchase of an electric calculator for the Administrative Assistant, George Hester, and $11,556 for the purchase of equipment for the Maintenance Department, Auditing Department, and Department of City and County Relations, details of which are contained in the Engineer's letters to the Commission, dated June 29 and July 9, 1951. The Commission approved the request by unanimous vote.

A petition was presented from residents of Union Gap, a community located on the Pacific Highway south of Oakland, requesting designation of a 35-mile per hour speed zone on this highway through their community. The Engineer advised that this matter has been investigated by the Traffic Engineer whose report on the subject clearly indicates that the reduced speed zone is not warranted. He recommended that the request be denied and that

in lieu thereof two signs be erected on the highway approaching this community, bearing the wording "Look Out for Pedestrians Ahead". The Commission approved the recommendation.

The Engineer reported a request from the City of McMinnville for designation of a reduced speed zone on US 99 West northerly from the McMinnville north city limits. He advised that this matter has been investigated by the Traffic Engineer whose report indicates that a 40-mile per hour speed limit is warranted, particularly along the section between the north city limits of McMinnville (M. P. 38.02) and McDonald Lane (M. P. 37.27). He recommended the establishment of a 40-mile speed zone between such limits. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a request from Mrs. Clara M. Dodson, Postmistress, Depoe Bay, for establishment of a "No Parking-Loading" zone on the Oregon Coast Highway in front of the Depoe Bay Postoffice. The Engineer recommended approval of the request. The Commission questioned the advisability of establishment of a "No Parking" zone at this place or in other similar localities, which appear to be more or less for private convenience. Accordingly the matter was referred back to the Engineer for further investigation and report.

The Commission discussed and approved an agreement with the Wheeler County Court, providing for the disposal of a small portion of the Ochoco Highway (old route) at Bridge Creek Bridge, when the new highway has been completed at this location. (The agreement was signed later in the session.)

The Commission discussed and ordered filed a resolution from the Oregon State Federation of Labor, J. T. Marr, Executive Secretary, protesting the performance of certain work on the Lewis and Clark Bridge near Astoria by State maintenance forces which they believe is an encroachment upon the rights of local contractors and local union labor; is unwarranted and discriminatory.

The Commission also discussed and approved a request from Mr. Ralph K. Skoubo for a temporary private road crossing of the Heppner Junction-Boardman Section of US 30, pending completion of a private roadway he is building across a nearby swamp. The Chief Counsel advised that the State acquired certain real property from Mr. Skoubo for right of way purposes for the revised location of the Columbia River Highway, including a complete restriction of access except on the north and south sides of the highway opposite Engineer's Station 1320+50; further that because of the swamp and undrained land on the northerly side of the highway, it is impossible for Mr. Skoubo to use the designated access at all times of the year in traveling to and from his home and other lands owned by him on the southerly side of the highway. Mr. Skoubo, he said, is now constructing a private roadway

across this undrained area and wants a temporary permit to cross the highway at another point for a period of one year. He recommended approval of the request. The Engineer concurred in the recommendation. The Commission approved the recommendation unanimously. (A form of temporary permit was executed later in the session)

The Engineer brought up for discussion proposed revisions of the Public Utilities Commissioner's Schedule "B" log-hauling permit form; also proposed revisions of the "Manditory Regulations", which form a part of each Schedule "B" permit. He recalled that the Commission at its last meeting approved certain revisions in these forms, but it now appears that additional changes are required to overcome certain objections by the Public Utilities Commissioner, particularly some of the "regulations" which have been provided for elsewhere in the Motor Vehicle Laws or the Motor Transport Code. He presented revised forms and recommended approval of the same as substitutes for the forms approved by the Commission at its May 24 meeting The Commission deferred action on the matter until its August meeting in order to give the Chief Counsel time to "iron out" additional inconsistencies.

The Engineer reported that because of the enactment of Chapter 405 Oregon Laws 1951, which repeals all former statutes relating to truck sizes and weights, it has become necessary to revise all of the transportation permit forms which are issued through the Permit Office. He particularly mentioned the following forms:

1. Form E-242, Revised, Transportation Permit for Continuous Operation of Overlength and Overweight Vehicles-Group I Highways.

2. Form E-243, Revised, Transportation Permit for Continuous Operation of Overweight Vehicles - Group II Highways.

3 Form E-271, Revised, Transportation Permit (Temporary) for Continuous Operation of Overlength or Overweight Vehicles - Group I or II Highways.

4. Form E-250, Revised, Transportation Permit for Single Trip Oversize or Overweight Load.

5. Form E-322, Transportation Permit for Excess Weight or Length Logs, Poles, or Piling (6-Wheeler).

6. Form E-323, Transportation Permit for Excess Length Logs, Poles, or Piling (4-Wheeler).

He presented to the Commission copies of the forms listed above and requested approval of the same. As a result of discussion of this matter, the Commission approved the revised forms as recommended. The attached resolutions relative thereto, marked EXHIBITS "K-1" and "K-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission unanimously.

The Commission considered and approved out-of-state travel authorizations as follows:

(1) F. B. Crandall, Traffic Engineer; J. Al Head, Assistant Traffic Engineer, to attend the 22nd Annual meeting of Institute of Traffic Engineers in Los Angeles, September 23 - 27, 1951, estimated cost $180.00 each.

(2) R. L. Porter, Assistant Right of Way Engineer, and H. G. Benson, Right of Way Agent, to attend meeting of Right of Way and Appraisal Section of California Highway Department, July 12 and 13, 1951.

(3) R. H. Baldock, State Highway Engineer; W. W. Stiffler, Assistant State Highway Engineer; G. S. Paxson, Bridge Engineer; J. M Devers, Chief Counsel; C. W. Enfield, Assistant Counsel; Forrest Cooper, Right of Way Engineer, and H. B. Glaisyer, Secretary, to attend meeting of American Association of State Highway Officials in Omaha, Nebraska in October.

(4) R. W. Cozad to go to Tacoma on July 5 and 6, 1951 to negotiate with Weyerhaeuser Timber Company for right of way needed for the West Klamath Secondary Highway, estimated cost $26.55

The Commission discussed a letter from Mr. Arthur R. Kirkham, Vice President, Radio Station KOIN, in which the State Highway Department is complimented for the manner in which it is maintaining highway wayside stopping places. The Secretary was instructed to forward to Mr. Kirkham an appropriate letter of thanks.

The Commission discussed items of "Unfinished Business" listed in the Secretary's summary dated May 25, 1951, and took the following action thereon.

(1) Collection of the amount of bid bond furnished by State Construction Company in connection with its proposal to construct piers for the Marion Street bridge. The Commission ordered this item retained on the list.

(2) Acquisition of additional area to accommodate overnight parking at Wallowa Lake State Park: The Commission ordered this item retained on the list.

(3) Proposed park site in Ladd Canyon, Union County: The Commission ordered this item retained on the list.

(4) Proposed change in form or real estate options: The Commission ordered this item deleted from the list; it is to be considered as new business should it come up later.

(5) Secondary Federal Aid Highway Program, 1952, 1953, 1954: This item is to be retained on the list of "Unfinished Business".

(6) Proposed improvement of FAS 479, Valley Section of Alicel-Lower Cove Road, Union County: The Engineer advised that his report on this subject will be ready for the August meeting of the Commission

(7) Request of Andrew Stambuck to acquire a portion of the old right of way on the Pacific Highway at Turkey Hill, Douglas County: The Engineer advised that discussions with Mr. Stambuck's attorney, George Neuner, Jr. are still being carried on; this item is to be retained on the list of "Unfinished Business".

(8) Request of McMinnville Chamber of Commerce for elimination of Hazardous condition on US99W near Whiteson: The Engineer advised that the survey of this highway has not yet been completed, so he is not in a position to render a report on the subject.

(9) Proposed highway improvement through the City of Springfield: The Commission ordered this item deleted from the list.

(10) Fireproofing service station north of Salem underpass, estimated cost $10,000: The Chief Counsel advised that he wrote Mr. Al Loucks, Mayor of Salem, regarding this matter in an endeavor to have the City requirement waived, but has not yet received a reply; the item is to be retained in the list.

(11) Matters pertaining to construction of the east approach to the Marion Street Bridge in Salem: The Commission ordered this item deleted.

(12) Proposed one-way street system for US30 through The Dalles: This matter was previously disposed of earlier in the session.

(13) Request for designation of ORE Route No. 23 as a part of Federal Route 97 south of The Dalles: The Engineer advised that he is not yet ready to report on this subject; the item is to be retained on the list.

(14) Request of Umatilla County for oiling and extension of Mission County Road as a Federal Aid Secondary Highway: The Engineer advised that his report on the subject is not yet prepared.

(15) Request for surfacing the East Cottonwood Canyon Section of the Wasco-Heppner Secondary Highway No. 300: The Engineer advised that a search of the Commission's records indicates that the Commission has made no commitments with respect to this highway, which have not been fulfilled. The Commission ordered the item deleted from the "Unfinished Business" list.

(16) Request of the City of Portland that the State increase its contribution toward the cost of constructing a sanitary and storm sewer on 82nd Avenue: This matter was disposed of earlier in the session when the Commission denied the request.

(17) Request of Roseburg Community Hospital for change in the proposed relocation of the Pacific Highway through Roseburg: This matter was disposed of earlier in the session when the Commission decided to adhere to the original location recommended by the Engineer.

(18) Proposed improvement to US99 at Portland Stock Yards: The Commission ordered this item reinstated on its list of "Unfinished Business".

(19) Wording for signs at each end of construction projects: The Commission ordered this item reinstated on the list.

(20) Request for improvement of John Day Highway between Fossil and Spray: The Commission ordered this item reinstated on the list and instructed the Engineer to investigate and report where improvement is most needed and how much it will cost.

The Chief Counsel presented a request from Mr. Elmer Bankus, Brookings, for the filling in of State Highway property between the Oregon Coast Highway and his private holdings just north of the Town of Brookings, or that this property be reconveyed to him, so he can do the work. In the discussion,

it was pointed out that this matter has been before the Commission on two or three occasions in the past and each time the request was refused. The Commission again denied the request.

A letter was presented from Mr. Dwight L. Phipps, Acting State Forester, requesting the use of the right of way that the State Highway Commission acquired for the proposed Fishhawk Falls State Secondary Highway in Clatsop County. Mr. Phipps advises that the State Board of Forestry and Clatsop County intend to sell timber standing on property located adjacent to this right of way, and that it is essential that the successful bidder have access to this timber which the right of way will afford; also, that one of the terms of sale of the timber is that the successful bidder must construct a roadway. The Engineer recommended that a revokable permit be granted to the State Board of Forestry to use as much of the highway right of way as is necessary on a year-to-year permit basis. The Commission approved the recommendation.

The Engineer reported on completed contracts in connection with which final payments have not been made. He submitted a list of contracts in this category, which the Commission carefully studied. It was the expressed feeling of the Commission that the contract payments should be released at once unless there are very good reasons for holding them up. The Engineer was instructed to report at the next meeting what can be done to expedite the payments.

The Commission discussed the date for its next regular meeting and decided unanimously to hold such a meeting in Portland on Monday and Tuesday, August 20 - 21, 1951. The Commission also decided to hold an adjourned meeting on Friday, August 3, 1951 for the purpose of discussing the sale of bonds authorized by the 1951 Legislature. The Secretary was instructed to make the usual arrangements to hold both meetings in the Green Room of the Imperial Hotel, Portland.

The Commission discussed the wording hereafter to be used in announcing contract awards, particularly awards that require concurrence by the Bureau of Public Roads, those in which cities are cooperating, and those in connection with which right of way negotiations have not been completed. This matter arose as a result of allegations of a contractor who recently defaulted, that the contract awarded him was not awarded by the Commission, but by the Engineer, who had no legal authority to make the award. The Chief Counsel suggested wording as follows, which, he said, would satisfy the requirements:

1. Wording to be Used Involving Cooperation of Cities

"The bid of _____ in the sum of $ _____ is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of _____ and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State."

2. Wording to be Used Involving Federal Aid and Right of Way

"The bid of _____ in the sum of $ _____ is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads."

The Commission unanimously approved such wording, which is to be used hereafter in those cases in which a clean-cut award of the contract is not made when the awards are announced by the Commission.

The following matters were brought up for discussion by members of the Commission:

1. Chairman Chandler mentioned that the Commission is seriously concerned by the failure of certain contractors to start working their projects when they have been notified of the contract award, and to keep working them expeditiously. He gave as the feeling of the Commission that there has been some negligence on the part of the engineers, and he instructed the Engineer to do something about it. The Engineer advised that he likewise is concerned and to correct the situation, he is placing into immediate effect the following procedure, to wit Division Engineers will be notified to write to each contractor who has not appeared upon the work within 30 days after the contract has been awarded to him, and request immediate information as to the plans of the contractor to prosecute the work, and the date when he plans to start operations. The Division Engineer, he

said, will forward two copies of his letter to the Salem Office, one of which will be forwarded to the Manager of the Associated General Contractors with a request that he extend his efforts to induce the contractor to start work. If the contractor has not appeared on the job in 60 days, he said, the Division Engineer will notify the First Assistant State Highway Engineer, who will immediately communicate with the contractor and surety on the bond, and the matter will also be brought to the attention of Contractors Association. The Engineer gave as his feeling that this procedure will bring desired results.

2. Commissioner Reynolds stated that he had mentioned some time ago that the county courts of Baker County and Umatilla County requested improvements on the Federal Aid Secondary Highway system. He recalled that the Commission referred these requests to the Engineer for investigation and report, which have not yet been rendered. The Engineer stated that he would report on this matter within the next week.

3. Chairman Chandler inquired as to the furnishing of maps showing the Federal Aid Secondary system, and expenditures already made for improvements on such system. He gave as the feeling of the Commission that no county having already received funds for improvements of this kind should receive the benefits of additional funds until the other counties have had their share. The Engineer advised that he would expedite the preparation of the maps.

4. Commissioner Reynolds brought up for discussion the making of surveys. He said that delays in making the surveys are costly and that the Commission wants them expedited. Assistant State Highway Engineer, W. C. Williams, mentioned the shortage of engineers. Chairman Chandler brought into the picture the cost of the surveys, which, he said, in numerous instances are very expensive. The Engineer promised to investigate the matter thoroughly.

5. The matter of furnishing right of way descriptions to the Right of Way Department was also discussed. The Engineer was instructed again to expedite preparation of the descriptions, so as not to delay contracting of the work in connection with which the right of way is required.

6. Chairman Chandler inquired as to the status of the Engineer's report on the proposed change in the alignment of the Oregon Coast Highway at Yachats. He said that Mr. Sherwood, owner of Sherwood Lodge on the south side of the Yachats River, has in mind a location which he thinks might prove satisfactory, and, if it is adopted, he will donate about 75% of the right of way that will be required. The Engineer was instructed to have someone contact Mr. Sherwood for details.

7. Chairman Chandler also inquired as to the proposition offered by Mr. O. H. Hinsdale, Reedsport, in regard to construction of a section of the Umpqua Highway near Reedsport on water grade alignment, using dredged materials. It appears that Mr. Hinsdale has plans to do certain dredging work in the Umpqua River, and he is of the feeling that the dredged materials could be used to good advantage in constructing a water grade highway along his holdings. The Engineer advised that he is not in a position to report on this subject at the present time, but will do so as soon as possible.

The Commission discussed with the Engineer the bids received at 2:00 p.m. for highway construction work, and at 5:00 p.m., Chairman Chandler announced awards as follows, the action of the Commission in each instance being by unanimous vote:

"Construction of a maintenance building at Huntington, Baker County. The Commission received two bids for this work, both of which are considered too high and have been rejected.

"Grading and paving and construction of a bridge on the Salisbury-Baker Section of the Baker-Unity Highway, Baker County. Newport Construction Company, Portland, was the low bidder on this work at $399,185.50. There were four higher bids. The bid of Newport Construction Company in the sum of $399,185.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Cannon Beach-Arcadia Section of the Oregon Coast Highway near Cannon Beach, Clatsop County. The Commission received three bids for this work, all of which have been rejected as being too high.

"7.36 miles of topping and slope protection on the Hood River-Mosier Section of the Columbia River Highway. Parker-Schram Company of Portland submitted the low bid for this work at $479,600.00. There were nine higher bids. The bid of Parker-Schram Company of Portland in the sum of $479,600.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving Rogue River (Depot and Main Streets) Project, Jackson County. The Commission received only one bid for this project, being that of T. R. Florey, Medford at $23,633.50. The bid is considered too high and has been rejected.

"Madras Oiling Project on Third and "C" Streets in Madras, Jefferson County. Two bids were received for this work, the low one being that of Babler Brothers, Inc., Portland at $9,528.00. The other was that of Coast Blacktop Paving Company, Bend at $10,000.00. The contract has been awarded to Babler Bros., Inc. at their bid price.

"11.70 miles of topping and paving on the Meridian Dam-Duval Creek Section of the Willamette Highway, Lane County. Eight bids were received for this work, the low one being that of Parker-Schram Company, Portland, at $456,125.00. The contract has been awarded to Parker-Schram Company at its bid price.

"Construction of a service building at the Highway Department shops in Salem, Marion County. Cecil A. Lantz, Salem, was the low bidder for this work at $43,857.40. Barham Brothers, Salem, submitted the next low bid at $49,080.00. There were four higher bids. The Commission has awarded the contract to the low bidder, Cecil A. Lantz, at his bid price.

"Construction of a latrine in Benson State Park, Multnomah County. Gilbert Roberts, Hood River, submitted the low bid of $4,695.00. There were four higher bids. The contract has been awarded to Gilbert Roberts at his bid price.

"Grading and bituminous macadam construction on the Stanfield (Coe Avenue) Section in the City of Stanfield, Umatilla County. Russell Olson Construction Co., Inc., Pendleton, was the low bidder for this work at $21,675.00. There were two higher bids. The bid of Russell Olson Construction Co., Inc., Pendleton, in the sum of $21,675.00 is accepted, and

the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Stanfield and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Wallowa (Old Highway) Paving Project in the City of Wallowa, Wallowa County. H. J. and H. W. Miller, Baker, were the low bidders for this work at $15,124.00. There was one higher bid. The bid of H. J. and H. W. Miller in the sum of $15,124.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Wallowa and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Wallowa Lake Park Overnight Camping Area, roadway and building construction, parking areas, camp sites, plumbing, lighting and other miscellaneous work, Wallowa County. The low bid for this work was submitted by Bechtel Brothers, Elgin at $47,720.50. Jack R. Robinson, Bend, submitted the only other bid at $49,693.00. The Commission awarded the contract to Bechtel Brothers at their bid price.

"Drainage, surfacing and construction of a concrete bridge at Bridge Creek on the Ochoco Highway, Wheeler County. The low bid for this work was submitted by Loyd Calkins and Company, Oceanlake, at $70,845.00. There were three higher bids. The contract has been awarded to the low bidder, Loyd Calkins and Company, at its bid price."

The meeting adjourned at 5:10 p.m., to reconvene on the following morning in the same room.

Portland, Oregon
July 17, 1951

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel, with the following persons present and participating

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
J. M. Devers, Chief Counsel
C. W. Enfield, Assistant Counsel
Fred A. Miller, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

Pursuant to previously published notice, bids as follows, were received, opened and read aloud by the Secretary, who then announced that the awards of contracts would be made at 4:00 p.m.

CLACKAMAS COUNTY
TIMBERLINE JUNCTION HOUSES AND SAND STORAGE SHED

McKel, Inc., Portland	$68,328.20
Schrader Construction Company, Portland	71,791.00
Delbert E. Johnson, Milwaukie	74,650.60
Gene H. Settergren, Portland	75,968.80
Chas. R. Schmiedeskamp, Portland	85,493.80
H. and R. Construction Company, Beaverton	89,759.82

COLUMBIA RIVER HIGHWAY IN CLATSOP COUNTY
BIG CREEK SECTION

J. N. Conley, Portland	$227,361.00
Berke Brothers, Portland	227,658.00
C. J. Eldon, Portland	231,883.00
Natt McDougal Company, Portland	248,881.00
Leonard and Slate Oregon Limited, Portland	265,530.00

WASCO COUNTY
SHANIKO MAINTENANCE BUILDING

Swendig and Son, Redmond	$ 13,430.00
Ward and Greene, Contractors, Portland	16,432.00

Mr. H. A. Ingalls, Wasco, California, was present and explained to the Commission a special oil process for road building, which he has patented. The Commission referred him to the Engineer, who was instructed to investigate the process.

A delegation from Fossil and Condon was present. Composing the group were J. P. Steiwer, Secretary, Fossil Community Club; Senator W. H. Steiwer, Fossil; and E. R. Fatland, representing the Condon Commercial Club. Mr. J. P. Steiwer headed the group and explained briefly what they have in mind. Mr. Fatland urged the construction of a top surfacing on the Cottonwood Grade Section of the Wasco-Heppner Secondary Highway while the State's contractor is working on the adjoining section. He also asked for improvement of the Butte Creek-Summit Section of the John Day Highway and advised that these two projects are the major requirements of their district. Mr. W. H. Steiwer stressed the importance of the Butte Creek-Summit project, declaring that it will eliminate the main bottleneck of the John Day Highway, although, he said, the Butte Creek-Spray Section is also in bad condition, and should be improved. He urged improvement of

the Butte Creek-Summit Section at an early date. Chairman Chandler advised that the Commission has the Butte Creek-Summit Section in mind and is now awaiting an engineering report on the subject. He also advised that the surfacing of the Cottonwood Grade Section is estimated to cost about $35,000 and that the Commission now is trying to find some money to finance the work this fall, which may necessitate rearranging the construction program somewhat. Concerning the Butte Creek-Summit Section, he advised that to do the work properly is a major undertaking and will cost more money than the Commission can spare at the present time; however, the Commission's instructions to the Engineer are to report what it will cost to improve some of the points where the worst hazards exist. Commissioner Reynolds endorsed Chairman Chandler's remarks. He added that the Commission wants to eliminate the worst places, if possible, and is considering a major project for its next construction program. This concluded the conference. (The Commission later in the session definitely authorized expenditure of $32,000 State funds to finance the surfacing of the Cottonwood Grade Section.)

A delegation from Lake County, including County Judge J.R. Heckman, County Commissioner Roy Moorehouse, and Forrest Cooper, attorney, Lakeview, was present and urged the rerouting of the Warner State Secondary Highway from the Fish Hatchery to the Town of Plush, along what is locally known as the Camas Creek County Road. Judge Heckman briefly outlined what they have in mind. Mr. Cooper presented their request in detail. He stated that the present road to Plush is about fifty miles long and that the proposed road will be about twelve miles shorter; also, that about 18% of the county tax base is collected from that part of the county. He further stated that the county has an improved road up Camas Creek, which is graveled and which is maintained for all-year traffic; however, the County does not own the right of way, but the owners of the right of way have, for the most part, stated their willingness to donate it. He presented a letter signed by the property owners to that effect. Mr. Cooper presented a map showing the location of the proposed road and some plats showing property ownerships, both private and public. He advised that this project is the number 1 road project for Lake County and urged the Commission to authorize an engineering investigation. The Commission referred the matter to the Engineer for such investigation and written report.

A delegation from Baker County, consisting of State Senator Sam Coon, Baker; L. W. Adler, Baker, Chairman of the Highway Committee of the Baker Chamber of Commerce, and Loring Perkins, farmer, Haines was present. Senator Coon headed the group. He asked the Commission for two projects, viz: improvement of the Richland-Halfway Section of the Baker-Homestead and

Halfway Highways, and the surfacing and oiling of the Anthony Lakes Road. He read aloud a petition signed by 215 residents requesting the improvement. In support of his request for the Richland-Halfway improvement, Senator Coon stated that the present road is crooked and narrow and dangerous to travel; in fact, accidents frequently occur by reason thereof. Mr. Perkins endorsed the remarks of Senator Coon, and he added that the projects are merited because of the heavy volume of traffic that uses the roads. Mr. Adler stated that the Richland-Halfway and the Anthony Lakes Road projects are the number 1 and number 2 projects of their district. He gave as his understanding that the Richland-Halfway project was set up for improvement in the Commission's ten-year plan; however, he added that it is now three years behind schedule, and they would like to have something done about it. He pointed out that plans are in the offing for construction of a dam at Hell's Canyon, in the Snake River, which will require a good access road. In this connection, he advised that the Hell's Canyon Club of Baker, in its advertising, is stressing Hell's Canyon as the deepest canyon in the world. He urged improvement of the Anthony Lakes Road as a tourist attraction. Commissioner Reynolds advised that he inspected the Anthony Lakes Road and, as a result thereof, the Commission decided to improve it by putting on some crushed rock; however, it couldn't spare the money necessary to oil it. There was some delay, he said, in getting the rock crushed, which is the reason the work has not been done. Senator Coon stated that they have been anticipating an oiled surface for this road. In replying, Commissioner Reynolds mentioned the money that the Highway Commission has spent in the Baker vicinity, particularly an obligation of about $400,000 recently made plus the underpass at Baker, which totals about $1,300,000. He said that the Commission must be very careful in distributing the funds it is disbursing, so that each district in the State will receive a fair allotment. This concluded the conference.

The Commission discussed briefly the wording for signs to be maintained at the ends of construction work that is under way, but reached no conclusion with respect thereto.

The meeting adjourned for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Mr. J. F. LaRouche, Portland, was present regarding the Wilsonville ferry operation across the Willamette River at Wilsonville. He objected to continuance of the operation by the present contractor, Mr. T. E. Bruck, declaring that Mr. Bruck is not furnishing service as required by his contract with the State. Moreover, the ferry that he is using has not been properly inspected by the U. S. Coast Guard. He recommended to the Commission the cancellation of its contract with Mr. Bruck and that the contract be awarded to him on the basis of the bid that he submitted to the Commission on January 23, 1951.

He was informed that the Commission now has a bona fide contract with Mr. Bruck, whom, reports indicate, is serving the public in conformity with the specifications contained in his contract; also that the ferry has passed inspection by the Coast Guard, in view of which the Commission has no cause to cancel Mr. Bruck's contract at this time.

A delegation from the Town of Drain, Douglas County, appeared before the Commission regarding the proposed relocation of the Pacific Highway, which will by-pass their town. Mr. James Whipple headed the group, which included H. L. Goodmanson, Highway 38 Association, W. E. McIntosh, Mayor; Harold Johnston, Service Station Owner; H. A. Blyth, Insurance and Real Estate; W. S. Carlson, Motel owner; all of Drain; and R. C. Wamsley, grocer; Fred Booth, Feed dealer; and C. W. Daugherty, Service Station operator; all of Yoncalla. Mr. Whipple advised that they have heard rumors to the effect that the highway is to be rerouted about four miles east of Drain, and he inquired whether or not the rumor is based on fact, and what they can hope for. He was informed by Chairman Chandler that the rumors are correct; however, a definite route has not yet been adopted. The engineers, he said, are studying several locations but before construction is undertaken on either one of them, a public hearing will be held in the city in conformity with Federal requirements. He pointed out that there are a number of towns along the Pacific Highway that are in the same category and in which public hearings will be held. In reply to the inquiry from Mr. Whipple as to when the Commission expects to proceed with construction, Chairman Chandler advised that that depends on the sale of bonds, but the Commission hopes to contract the work some time next year. Mr. Whipple requested assurance from the Commission that they can go home with confidence that the Commission will give their wishes consideration and will let them have an opportunity to be heard again regarding the matter before a definite decision is reached. Chairman Chandler again mentioned the hearing in Drain, which, he said, is public and to which anyone interested is invited to attend to express his views. He also assured the group that they can appear at the regular meetings of the Commission at any time they wish. This concluded the conference.

A delegation was present from Gilliam County consisting of two members of the County Court, James D. Burns, County Judge and Chas. Quinn, Commissioner, both of Condon; State Senator Stewart Hardie, Condon; Bryce Logan, Mayor, Condon; Marshall Nelson, Mayor; George E. Kaseberg, farmer; Chas. Hampton, merchant; Loyd Brady, city manager, all of The Dalles; and Shelt Burres, rancher, Moro, was present in the interests of Wasco-Heppner State Secondary Highway No. 206. Senator Hardie headed the group. He brought to the Commission's attention what

he claimed is an unsatisfactory condition on a five-mile section of this highway, extending easterly from the John Day River bridge. This section, he said, is surfaced with river gravel which will not stay in place. He urged the Commission to authorize the placement of a top surfacing of crushed rock on this section in conjunction with surfacing work that is now under way on the adjoining section. Commissioner Reynolds advised that this matter was discussed with another delegation during the morning session, and the Commission is going to see what can be done to remedy the situation this year He mentioned that the improvement is tentatively scheduled for the 1952 program, but if some money can be found to finance it this year, the Commission very likely will authorize it and issue a call for bids at its August meeting. Others speaking in behalf of the improvement were Marshall Nelson, Mayor of The Dalles; Loyd Brady, City Manager of The Dalles; Bryce Logan, Mayor of Condon; County Judge James D. Burns, Gilliam County. Following departure of the group, the Commission resumed discussion of the matter and upon being assured by the Auditor that State money in the amount of $32,000, the estimated cost of the work, is available, authorized the Engineer to advertise the project for bids. A motion to that effect was made by Commissioner Reynolds, duly seconded by Commissioner McIver, and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The following persons were present representing the Central Oregon Chamber of Commerce: M. A. Lynch, Madras, merchant, former member of the State Highway Commission; Howard Turner, Redmond, and Marion E. Cady, Bend. Mr. Lynch headed the group. He thanked the Commission for arranging to improve The Dalles-California Highway south of Bend, which, he said, was one of the projects they intended to request at this hearing, but they learned upon arriving that the project had been taken care of. He requested improvement of the Terrebonne-Crooked River bridge section of this highway north of Redmond, and elimination of the bottleneck condition that exists on the Mount Hood Highway at Government Camp, particularly during the winter season when travel is held up by winter sports enthusiasts. He said that the group is bringing no recommendation to the Commission, but simply wants to call the Commission's attention to the things that they have in mind.

Messrs. Leslie V. Wolfe, Mayor of the City of Delake, and Raymond G. Wood, City Attorney, were present in behalf of the Delake City Council. They urged the establishment of a permanent grade and construction of concrete curbs along the Oregon Coast Highway through their city. Mr. Wood, who was the principal spokesman, recited improvements that the city has made, including lighting system, etc. and advised that their request is to further the development of their community. He mentioned that the present highway right of way is sufficiently wide to accommodate the improvement without purchase of additional property. He also stated that the improvement

they have in mind extends from the schoolhouse north of "D" River southerly to the south limits of Delake, which is approximately three-fourths of a mile south of "D" River, and that, while they are not presently asking for pavement full width between curbs, they will, of course, want that later on. The Commission referred the matter to the Engineer for study and report.

The County Courts of Marion and Linn Counties, represented by Judge Rex Hartley and Commissioners Ed Rogers and Roy Rice, of Marion County, and Judge E. G. Arnold and Commissioners W. E. Downing and Floyd Jeaks, of Linn County, were present in the interests of the Scio-Stayton County Road. Judge Arnold was spokesman for the group. He said that the section is nine miles in length and is the only unpaved section of an alternate highway route between Lebanon and Portland, which will provide a big saving in distance for local people who now use the Pacific Highway East. He urged favorable consideration by the Commission of this project. There was no discussion of the matter.

The Right of Way Engineer requested authority to advertise for sale the Highway Department maintenance site at Government Camp, including improvements. The appraised value of the land, he said, is $1,000 and the improvements are appraised at from $2800 to $3000, so the Commission should receive nearly $4000 for the property. He also stated that the Engineer has certified that the property is no longer needed by the State Highway Department because of the development of a new site further removed from this congested point. The Commission unanimously approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof, with like effect as though extended in full herein.

Commissioner Reynolds reported a request for improvement of the Mount Hood Highway between Parkdale and the City of Hood River, Hood River County. The Commission referred the matter to the Engineer for investigation and written report as to the need for the improvement.

The Engineer reported that Lewis E. Scott, State Highway Geologist, and his assistant, Richard Van Pelt have devised a process for using an inferior class of stone, such as sandstone or shale, in connection with road construction. The process is of value, he said, and, in his estimation, should be patented in order to protect the State's interests. He estimated the initial cost in connection with the patent proceedings at $30.00 and later expense at about $100.00. He recommended that this expense be paid by the State. The Commission approved the recommendation.

The Engineer brought up for discussion the Commission's agreement with Columbia County to satisfy the State's obligation to pay $15,000 in connection with the settlement of the Longview Bridge tax matter. He said that pursuant to the agreement, the Commission at this meeting received bids for oiling the Apiary Section of the Rainier-Apiary County Road, 5.5 miles in length, Harr and Horton, Portland, being the low bidder at $16,873. The State's obligation, he said, is for a contribution of $15,000, and the county has $2,500 county money as cooperation, making a total of $17,500 that is available to finance the project, exclusive of engineering costs. The County, he said, is anxious to secure the benefit of the entire amount so he suggested that the work be extended or reduced, as may be necessary to take up the full amount of the appropriation. He advised that such arrangement has been provided for in the provisions of the contract. The Commission approved the suggestion unanimously.

The Engineer requested an increase in the project authorization for the construction of a latrine in Benson State Park. He explained that in working up the original authorization for this job, the cost of certain work, such as water and electrical connections, which is to be performed by State forces and is estimated at $500, was overlooked. The increase, he said, will bring the total authorization for this project to $5,844.38. The Commission approved the request unanimously.

The Commission discussed briefly but deferred action on a tentative five-year construction program suggested by the Engineer for Federal Aid funds and for monies derived from the sale of bonds.

The Commission also considered a tentative draft of a construction program prepared by the Engineer to utilize Federal Aid funds which are expected to be made available for contracting in October or November 1951. As a result of careful consideration, the Commission unanimously approved the following program for such funds totaling $12,827,000.00:

FEDERAL AID PROGRAM

FEDERAL FISCAL YEAR 1953
PRIMARY FEDERAL AID

County	Highway, Section and Description	Amount
	DIVISION NO. 1	
Washington	Sunset. Quartz Creek-N. Plains, 32.3 mi. A. C. Paving	$ 700,000
Multnomah	Pacific West. Steel Bridge-Ankeny Street, 0.3 mi. Landscaping	50,000

FEDERAL AID PROGRAM (cont.)
FEDERAL FISCAL YEAR 1953

PRIMARY FEDERAL AID

County	Highway, Section & Description	Amount
	DIVISION NO. 1 (cont.)	
Washington	Pacific West. Tigard-Onion Flat, 5 mi. Grading and Paving	$ 335,000
	Subtotal, Division No. 1	$1,085,000
	DIVISION NO. 2	
Clatsop	Columbia River. Big Creek Sect., 2.04 mi. Paving & Landscaping	$ 110,000
Marion	Pacific East. Hayesville School-State St., (Salem By-pass), 4.2 mi. Grad. and Top. (2-lane)	345,000
Lincoln, Polk & Tillamook	Salmon River. Sulphur Creek Rogue River, 10.0 mi. Widening, A.C. Resurf. and Landscaping	205,000
Tillamook	Wilson River. Wilson R. Tunnel Sect., 0.4 mi. Grad. and Pav. (Addit. to $180,000 to 1952 funds)	120,000
	Subtotal, Division No. 2	$ 780,000
	DIVISION NO. 3	
Douglas	Coos Bay-Roseburg. Suicide Creek-Pacific Hwy., 11.6 mi. Surface & A.C. Paving	$ 350,000
Douglas	Pacific. Chenowith Park-M.P. 182. 2 mi. Grad., Structures & Paving	550,000
Jackson	Pacific. North Unit Medford-Ashland Sect., 5 mi. Grad. & Pav. (4-lane)	550,000

FEDERAL AID PROGRAM (cont.)
FEDERAL FISCAL YEAR 1953

PRIMARY FEDERAL AID

County	Highway, Section & Description	Amount
	DIVISION NO. 3 (Cont.)	
Lane	Pacific. Judkins Pt.-Goshen, 4.9 mi. Surf., Paving & Landscaping	$ 420,000
	Subtotal, Division No. 3	$1,870,000
	DIVISION NO. 4	
Hood River & Wasco	Columbia River. Bridge over Hood River at Hood River	$ 250,000
Klamath	The Dalles-California. MP 181.3 to 186.0 (5 mi. N. of Gilchrist), 4.7 mi. Widening and A.C. Resurfacing	250,000
Wasco	Columbia River. Mosier-The Dalles, 4.0 mi. Grad. & Top. (West Unit)	710,000
	Subtotal, Division No. 4	$1,210,000
	DIVISION NO. 5	
Grant	John Day. Mt. Vernon-John Day, 8.3 mi. Grad. and A. C. Paving	$ 400,000
Grant	John Day. W. Unit, Austin Spur-Forest Bdry. Sect. (MP 191-195), 4.0 mi. Widening and A. C. Resurf.	160,000
Union	Old Oregon Trail. La Grande-N. Powder, 24.4 mi. Paving	800,000
	Subtotal, Division No. 5	$1,360,000
	Total, All Divisions	$6,305,000

FEDERAL AID PROGRAM (cont.)
FEDERAL FISCAL YEAR 1953

URBAN FEDERAL AID

County	Highway, Section & Description	Amount
	DIVISION NO. 1	
Multnomah	Pacific East (Union Ave.), Bridgeton Road-Schmeer Road, Construction of Service Roads	$ 150,000
Multnomah	T. H. Banfield Expressway. 82nd Street-Fairview, 7.00 mi. Grading	1,400,000
	Subtotal, Division No. 1	$1,550,000
	DIVISION NO. 3	
Douglas	Pacific. Roseburg Sect. (Umpqua River-Fairgrounds), 1.2 mi. Grad. and Top.	$ 300,000
	Subtotal, Division No. 3	$ 300,000
	Total, All Divisions	$1,850.000

SECONDARY FEDERAL AID

	DIVISION NO. 1	
Clackamas	Clackamas. Eagle Creek Line Change, 0.6 mi. Grad., Pav. and Bridge over Eagle Creek	$ 225,000
Clackamas	County Road. Bridge over Tualatin River (W. of West Linn)	150,000
Washington	Nehalem. Buxton to Summit, 5 mi. A. C. Resurf.	90,000
	Subtotal, Division No. 1	$ 465,000

FEDERAL AID PROGRAM (cont.)

July 17, 1951

FEDERAL AID PROGRAM (Cont.)

FEDERAL FISCAL YEAR 1953

SUMMARY

(Contracting to begin November, 1951)

Division No.	Primary Federal Aid	Urban Federal Aid	Secondary Federal Aid	Total
1	$1,085,000	$1,550,000	$ 465,000	$3,100,000
2	780,000	--	1,155,000	1,935,000
3	1,870,000	300,000	1,175,000	3,345,000
4	1,210,000	--	900,000	2,110,000
5	1,360,000	--	977,000	2,337,000
Totals	$6,305,000	$1,850,000	$4,672,000	$12,827,000

Above amounts, when combined with corresponding amounts for the fiscal years 1951 and 1954, are in conformance with the division allotment formula.

The Commission also discussed a revised schedule for the contracting of certain projects during the remaining months of this year, and which it is proposed to finance with monies derived from the sale of bonds. The Engineer advised that the program had to be revised because of new demands of the Union Pacific Railroad Company, and that certain projects previously authorized for contracting in August had to be postponed until September. As a result of discussion, the Commission approved the rearrangement of the projects for contracting in August and September, as follows:

PROPOSED CONTRACT LETTINGS - BOND PROGRAM

1951

August 1951

Forest Bdry. -Mill Creek (Warm Springs Hwy.), 14.45 mi. Paving	$ 400,000
North Grants Pass Section, 0.83 mi. Grad. & Paving	150,000
	$ 550,000

PROPOSED CONTRACT LETTINGS - BOND PROGRAM
(Cont.)
1951

September, 1951

Gorton Creek-Warren Creek, 3.03 mi. Grad., Br. & Paving	$1,700,000
Warren Creek-Viento, 1.84 mi. Grad. & Paving	1,100,000
Wygant Park-Hood River, 5.92 mi. Grad., Br. and Paving	1,700,000
S. Unit, Deschutes Co. Line-Willamette Jct., 12 mi. Grad. & Paving	800,000
Bay City-Tillamook, 2.15 mi. Grad., Br. & Paving	500,000
Reedsport-Winchester Bay, 3.72 mi. Grad., Br. and Paving	900,000
	$6,700,000

Mr. W. F. Gaarenstroom, Director, Department of Veterans Affairs, was present regarding the temporary use of space on the fifth floor of the State Highway Building for his department, during the processing of payments of the bonus to Oregon World War II veterans which was authorized by vote of the people last November. He was informed by Chairman Chandler that the Commission has decided not to make any commitment with respect to the occupancy of the unused space in this building due to the fact that the Highway Department is not yet settled in the building and it is not known how much space the Highway Department will need. He also pointed out that the Commission has promised another State agency first refusal on any space that might be available, so the outlook is not very good, although the Commission will discuss it.

Mr. A. G. Suomela, State Master Fish Warden, was present regarding the use of about three acres of State Highway property situate adjacent to the Columbia River Highway at Herman Creek, Hood River County. He explained that the Fish Commission has plans to expand its existing facilities at this location for the handling of the large run of fall Chinook salmon and, in order that the program may be carried out to a successful conclusion, it is essential that the Fish Commission acquire the three acres of land that the Highway Commission owns adjoining the Herman Creek Fisheries station, which, he understands, is not being used by the Highway Department. The Engineer advised that the property in question is an old quarry and that there are possibilities that it might be needed in construction of the new highway at this

location. Other than this, he added, the Highway Department has no use for the property. He suggested that the Highway Department retain title to the quarry until the highway work is done, and then deed the property to the Fish Commission. Mr. Suomela indicated his approval of the suggestion, whereupon the Commission adopted the suggestion unanimously and so ordered.

The Commission discussed with the Engineer bids received at the morning session for highway construction, and at 4:00 p.m., Commissioner Reynolds announced the Commission's decision with respect to each project, such decision having been reached by the unanimous vote of the Commission:

"Construction of four frame dwellings and one frame sand storage shed at the Timberline Junction on Mount Hood Highway, Clackamas County: McKel, Inc., Portland was the low bidder for this project at $68,328.20. There were five higher bids. The Commission has awarded the contract to the low bidder, McKel, Inc. at its bid price.

"Construction of the Big Creek Section of the Lower Columbia River Highway, Clatsop County: J. N. Conley, Portland, submitted the low bid for this project at $227,361.00. There were seven higher bids. The bid of J. N. Conley in the sum of $227,361.00 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Oiling the Apiary Section of the Rainier-Apiary County Road in Columbia County: The low bid for this work was submitted by Harr and Horton, Portland, at $16,873. There were two higher bids The contract has been awarded to the low bidder, Harr and Horton, at their bid price.

"Construction of the Worthington Bridge over the South Umpqua River on a county road five miles east of Canyonville, Douglas County. This is a county project for which bids were received by the Commission as a courtesy to the Douglas County Court. The Bids are all being referred to the county court for further handling.

"Grading, surfacing and construction of a bridge on the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway, Klamath County: McNutt Brothers, Eugene, submitted the only bid for this work at $589,959.50. The bid has been rejected as being too high.

"Construction of a masonry block building in Delake, Lincoln County. The Commission received three bids for this work, the low one being that of Robert C. Wilson, Corvallis, at $10,340.00. The contract has been awarded to Mr. Wilson at his bid price.

"Construction of a maintenance building extension and a sand storage shed at Santiam Junction, Linn County. C. M. Merrill, Newport, submitted the low bid of three for this project at $24,355.00. The contract has been awarded to Mr. Merrill at his bid price.

"Halsey (First Street) paving project in the City of Halsey, Linn County. Western Paving and Construction Company, Albany, submitted the low bid for this work at $13,021.00. Warren Northwest, Inc., Portland, submitted the next low and only other bid at $13,195.00. The contract has been awarded to Western Paving and Construction Company at its bid price.

"Brownsville (Main Street) paving project in the City of Brownsville, Linn County. The low bid for this work was that of Warren Northwest, Inc., Portland at $11,917.50. Western Paving and Construction Company submitted the only other bid at $13,460.00. The contract has been awarded to the low bidder, Warren Northwest, Inc., Portland, at its bid price.

"Ontario (East First Street South) paving project in the City of Ontario. Babler and Rogers, Portland, submitted the low bid for this work at $14,390.00. There were two higher bids. The bid of Babler and Rogers in the sum of $14,390.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Ontario and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Nyssa (King and Park Avenue) oil mat surfacing project in the City of Nyssa, Malheur County. Babler and Rogers, Portland, was the low bidder for this work at $11,210.00. D. F. McKenzie, Salem, was the next low and only other bidder at $16,160.00. The contract has been awarded to the low bidder, Babler and Rogers, at their bid price.

"Grading and paving the Nyssa-Adrian Section of the Nyssa-Adrian Highway in Malheur County. Babler and Rogers, Portland, submitted the low bid for this work at $298,888.00. Porter W. Yett, Portland, was the next low

bidder at $301,976.50. There were six higher bids. Bids for this project were considered with the bids received for construction of the Nyssa (Locust Street-Bower Street) Section of the Old Oregon Trail. The low combination bid was that of Babler and Rogers at $327,608.00. Porter W. Yett was the next low combination bidder at $335,832.50. The combination bid of Babler and Rogers in the sum of $327,608.00 is accepted, and the Engineer is instructed to have contracts prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Landscaping the State Highway Building grounds in Salem, Marion County. Rich & Sons Nursery, Hillsboro was the low bidder for this work at $14,656.80. There were four higher bids. The contract has been awarded to the low bidder, Rich & Sons Nursery, at its bid price.

"Grading and paving the Hayesville-Salem Section of the Pacific Highway East, Marion County. Two bids were submitted for this work, the low one being that of D and H Paving Company, Vancouver, at $149,696.00. The bid of D and H Paving Company in the sum of $149,696.00 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Turner ('C', 2d, and 'D' Streets) paving project in the city of Turner, Marion County. Western Paving and Construction Company, Albany, was the low bidder at $11,426.00. Warren Northwest, Inc., Portland, was the next low bidder at $12,369.00. The Commission has awarded the contract to the low bidder, Western Paving and Construction Company at its bid price.

"Grading and paving the Fairview-Sundial Section of the T. H. Banfield Expressway, Multnomah County. The low bid for this work was submitted by K. F. Jacobsen Company, Inc., and J.M Arenz, Portland, as a joint venture, at $341,105.20. The bid of K. F. Jacobsen Company, Inc., and J.M. Arenz, Portland, in the sum of $341,105.20 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as the right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Embankment construction along the west approach to the Salem bridge on the Salem-Dallas Highway, Polk County. F.C. Scott Construction Company, Portland, was the low bidder for this work at $87,360.00. There were five higher bids. The contract has been awarded to the low bidder at his bid price.

"Construction of buildings at Emigrant Springs State Park on the Old Oregon Trail, Umatilla County. Two bids were received by the Commission for this work, the low one being that of Loree Building Service, LaGrande, at $5,687.70. The contract has been awarded to this bidder at his bid price.

"Grading and bituminous macadam surfacing on 'G' and 'I' Streets in the City of Umatilla, Umatilla County. Russell Olson Construction Company, Pendleton, was the low bidder for this work at $8,040.00. The contract has been awarded to this company at its bid price.

"Grading and oiling on North First Street in the City of Dufur, Wasco County. Babler Brothers, Inc., Portland, were the low bidders for this project at $6,585.00. Edwin C. Gerber, Oregon City, was the only other bidder at $10,147.00. The Commission has awarded the contract to the low bidder, Babler Brothers, Inc. at their bid price.

"Construction of a masonry block maintenance building on State Highway No. 42, Shaniko, Wasco County. Swendig and Son, Redmond, submitted the low bid for this work at $13,430.00. There was one higher bid. The Commission has awarded the contract to the low bidder at its bid price."

Commissioner Reynolds reported receipt of a letter from Mr. Oscar Furuset, Attorney, Portland, concerning a problem relating to the grading and widening of Henderson Avenue from its junction with the Eugene-Goshen Highway to the south end of land owned by his brother, Mr. Elmer Furuset. The matter was referred to the Engineer for immediate attention.

The Commission signed agreements, etc., as follows:

Pipe line crossing of Union Pacific Railroad right of way.

"Consent of Assignment" - S. T. Humphrey to E. S. Skillings, Jr. of lease rights of 14.25 acres of State Land.

Lease with Walter J. Brandon for parcel of ground at Bunker Hill, Coos Bay - 10 years.

Permit granting Mr. and Mrs. Buther use of State-owned property at Dodson overpass.

Agreement with O. W. R. & N. Co. and U. P. Co. relinquishing two encroachments on railroad property at Troutdale.

Agreement with Consumers Cooperative Association of Swisshome, Oregon, Authorizing Association to remove 4,000 cu. yds. rock from quarry on Siuslaw Highway.

Agreement with California-Oregon Power Co., and Elizabeth Gallogly Geary re reconstruction and maintenance of dike on Geary property located on Rock Creek-Wocus Marsh Section of Klamath Lake Secondary Highway.

"Indenture of Access" granting Ronald K. and Martha C. Miller change of access on Cascade Locks-Viento Section of Columbia River Highway.

2 Bargain and Sale Deeds with respect to hauling road across land owned by William M. Gray and Retha Gray on Midland-Mac's Store Section of the Lower Klamath Lake Secondary Highway.

Agreement with Wheeler County Court providing for disposal of small portion of Ochoco Highway (old route) when highway has been realigned.

Temporary Access Permit to Ralph K. Skoubo granting temporary crossing on the Heppner Junction-Boardman Section, pending construction of roadway across swamp.

Agreement with C. E. Brown relative to sale of timber in Short Sand Beach State Park in Tillamook County.

Bargain and Sale Deed to Newport Construction Company, Santa Rosa Park Addition Multnomah County. T. H. Banfield Expressway. This parcel of land contains 6,250 sq. ft.

Agreement with Columbia County covering construction of county road known as Rainier-Apiary Road.

The meeting adjourned at 4:30 p.m. to reconvene at 9:00 a.m. on Friday, August 3, 1951, in the Green Room of the Imperial Hotel, Portland, Oregon pursuant to action previously taken at this meeting.

Chairman

Commissioner

Commissioner

State Highway Engineer

Secretary

EXHIBITS "A" THROUGH "K"

Minutes of

July 16 and 17, 1951

EXHIBIT "A"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the Oregon State Highway Commission by a resolution made a part of the official minutes of the Commission meeting of May 25, 1948, adopted the survey of a route for a new highway to be known as the Sullivan Gulch Highway and to be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the throughway law, Chapter 226, Oregon Laws 1947; and

WHEREAS, the Commission by a resolution made a part of the official minutes of the Commission meeting of August 22, 1950, designated all of that portion of said Sullivan Gulch Highway within the corporate limits of the City of Portland as the T. H. Banfield Expressway; and

WHEREAS, it is desirable that all of said highway route, the survey of which was adopted by said resolution of May 25, 1948, including the portions thereof, both within and without the corporate limits of the City of Portland, be designated by the same name; and

WHEREAS, it is deemed by this Commission fitting and appropriate that all of said route should bear the name of and be known as the T. H. Banfield Expressway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. That the highway to be constructed over and along a route defined as beginning at the Harbor Line, which is at the east end of the Burnside Bridge, extending thence easterly for a distance of 5.34 miles to a junction with 92nd Avenue at the easterly boundary of the Portland city limits; thence along a location immediately south of and parallel to the Union Pacific Railroad tracks to a point approximately 2,000 feet east of Rockwood Road; thence across the railroad and continuing parallel to the railroad on the north side to a point near Arrata Road; thence in a northeast direction to a connection with the Upper Columbia River Water Level Highway near the proposed Sundial Underpass, Engineer's Station 740+80, said highway being 14.03 miles in length and being more particularly shown on the map marked "Exhibit A" and attached to and made a part of said resolution of May 25, 1948, together with suitable on and off connections or traffic interchanges, shall be and hereby is named and shall forever be known as the "T. H. Banfield Expressway".

(cont.)

EXHIBIT "B" (cont.)

2. That appropriate plaques be prepared and one erected and thereafter maintained in attractive and proper repair and condition at each entrance to said expressway, on which plaques shall be the words "T. H. Banfield Expressway".

3. That said resolution of August 22, 1950, designating the section of said route within the corporate limits of the City of Portland as the "T. H. Banfield Expressway", is hereby amended and supplemented to include all of said route above described.

4. That this resolution be entered in the minutes and records of the Commission as of the 16th day of July, 1951.

EXHIBIT "C"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Amity	$2,042.75	Fairview	$1,342.38	Mosier	$ 783.31
Antelope	184.31	Gervais	1,394.60	Mount Vernon	1,363.88
Aumsville	857.03	Glendale	2,660.18	Nehalem	826.31
Aurora	746.45	Gold Beach	2,263.91	North Powder	1,231.79
Bonanza	795.60	Gold Hill	1,873.80	Oceanlake	2,107.25
Canyon City	1,554.33	Halsey	1,201.07	Pilot Rock	2,583.38
Columbia City	1,241.01	Hines	2,789.19	Rogue River	1,812.36
Condon	2,967.36	Island City	423.91	Scappoose	2,024.31
Creswell	2,045.82	Lafayette	2,027.39	Siletz	1,747.85
Dayville	878.53	Lostine	546.78	Sodaville	1,256.37
Dufur	1,290.16	Malin	1,827.72	Summerville	224.24
Eagle Point	1,852.29	Maupin	952.26	Waldport	2,094.97
Echo	1,397.67	Metolius	482.27	Wasco	921.54
Estacada	2,890.56	Monument	700.37	Weston	2,085.75
		Moro	1,099.70		

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and

(cont.)

thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 16th day of July, 1951.

EXHIBIT "D"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by the enactment of Chapter 149, Oregon Laws 1949, it is provided as follows.

"Beginning with the year 1949 and annually thereafter there shall be and hereby is appropriated out of the state highway fund such sums of money as will equal 10 per cent of all moneys credited to the state highway fund by the state treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the state highway fund by the state treasurer under the provisions of section 115-135, O. C. L. A.; section 15, chapter 413, Oregon Laws 1945, as amended by section 4, chapter 114, Oregon Laws 1947; and section 29, chapter 467, Oregon Laws 1947; and from fines and penalties collected for violations of the motor vehicle and transportation laws. Such appropriation shall be distributed among the several cities as provided in this act".

AND, WHEREAS, by said law it is further provided that:

"Such appropriation shall be allocated to the cities as follows: The sum of two hundred fifty thousand dollars ($250,000) shall be withdrawn from such appropriation each year and set up in a separate account to be administered by the state highway commission. Such account shall be spent each year by such commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic. Such commission shall determine the distribution of such expenditures after considering applications made to it therefor from the cities. The balance remaining in such appropriation after the withdrawal of said two hundred fifty thousand dollars ($250,000) shall be distributed to all of the cities. Each city shall receive such share of the balance as its population bears to the total population of the cities".

AND, WHEREAS, by section 3 of said act it is provided that:

"Funds accrued and payable to cities under this act shall be remitted semiannually by the secretary of state to the financial officer of each city. The funds appropriated by this act shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the state highway commission who shall certify such apportionment to the secretary of state. Upon receipt of such certificate the secretary of state shall issue his warrants therefore payable to the cities in the amounts set out".

(cont.)

WHEREAS, a copy of the allocation of state highway revenues, made by the Commission during the January 23-24 session of the Commission, was delivered to the Secretary of State, and

WHEREAS, pursuant to the foregoing statutes and prior to the enactment of Chapter 15, Oregon Laws 1951, the Highway Commission, when in regular session on January 23 and 24, 1951, duly and regularly made and adopted a resolution providing for the allocation and distribution of said state highway revenues, which said allocation and distribution was made on the basis of the 1940 United States census, a copy of which allocation and distribution was delivered to the Secretary of State, and

WHEREAS, by the enactment of Chapter 15, Oregon Laws 1951, allocations and distributions of state highway revenues by the Highway Commission to cities and municipalities of the State of Oregon are to be made on the basis of the preliminary count of the 1950 census pending the publication of the official 1950 United States census, and

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1951, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of Section 115-135, O. C. L. A. (motor vehicle license fees)	$ 5,273,648.35
Funds resulting under the provisions of Section 15, Chapter 413, Oregon Laws 1945, as amended by Section 4, Chapter 114, Oregon Laws 1947 (gasoline tax)	11,885,289.80
Funds resulting under the provisions of Section 29, Chapter 467, Oregon Laws 1947 (motor carrier fees)	2,622,147.50
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws	139,580.87
	$19,920,666.52

AND, WHEREAS, the statutory ten per cent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $1,992,066.65, from which sum there is to be deducted one-half of the sum of $250,000, thus leaving for allocation and distribution during the period January 1 to June 30, 1951, the sum of $1,867,066.65, and

WHEREAS, by applying the factors of allocation or distribution provided for in said Chapter 149, Oregon Laws 1949, and Chapter 15, Oregon Laws 1951, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below:

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

I. Cities of Populations 1,000 or More

EXHIBIT "E"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Reedsport-Hauser Section of the Oregon Coast Highway in Coos and Douglas Counties, and in connection therewith prepare a map or maps showing the route and location of said section or sections of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey or surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, surveys, field notes, maps, and other engineering data, it is the judgment of the Comission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Reedsport-Hauser Section of the Oregon Coast Highway, beginning at Engineer's Station 505+00 in Reedsport and ending at Engineer's Station 15+00 in the town of Hauser, south of Reedsport, together with the map, which for identification purposes bears Map Nos. 7B - 7 - 12, 13, 14 and 15 and the date of July, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

(cont.)

EXHIBIT "E" (cont.)

4. That the survey of the section or unit of said Oregon Coast Highway has been made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission, November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 16th day of July, 1951.

EXHIBIT "F"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3305, with Porter W. Yett, for grading and paving on the Goshen-Creswell Section of the Pacific Highway in Lane County, completed June 14, 1951.

Contract No. 3386, with Parker-Schram Co., for paving on the Denver Avenue-Vanport Connection Section of the Pacific Highway West in Multnomah County, completed June 15, 1951.

Contract No. 3387, with Porter W. Yett, for grading and paving on the Gresham (N. E. 5th Street-N E. 10th Drive) Section of Gresham City Streets, completed June 21, 1951.

Contract No. 3390, with Parker-Schram Co., for grading and paving on the Ochoco Avenue-Milwaukie Section of the Pacific Highway East in Clackamas County, completed June 5, 1951.

Contract No. 3422, with Heavy Hauling Co., for furnishing crushed material in stockpiles on the Birkenfeld-Washington County Line Section of the Nehalem Highway in Columbia County, completed May 31, 1951.

Contract No. 3257, with Stevenson Construction Co., for grading and oil mat surfacing on the West Unit, Hamilton-Long Creek Section of the Kimberly-Long Creek Highway in Grant County, completed June 28, 1951.

Contract No. 3370, with Rogers Construction Co., for grading and paving on the Ontario-Nyssa Section of the Old Oregon Trail in Malheur County, completed June 12, 1951.

Contract No. 3372, with Warren Northwest Inc., for grading and paving on the Salem (Pine, Commercial, and Liberty Streets) Section of the Pacific Highway East in Marion County, completed June 7, 1951.

(cont.)

EXHIBIT "F" (cont.)

Contract No. 3382, with E. H. Itschner Co., for furnishing crushed material in stockpiles on the Mt. Vernon-Prairie City Section of the John Day Highway in Grant County, completed May 8, 1951.

Contract No. 3391, with Grimstad and Vanderveldt, for grading and bituminous macadam surfacing on the Warrenton (Hayes Street-Morton Street) Section of the Warrenton Highway in Clatsop County, completed June 30, 1951.

Contract No. 3442, with E. C. Hall Co., for furnishing crushed materials in stockpile on the Service Creek-Mt. Vernon Section of the John Day Highway in Grant and Wheeler Counties, completed June 14, 1951.

Contract No. 3451, with G. D. Dennis & Sons, for grading and bituminous macadam surfacing on the Heppner (May Street-Heppner School) Section of the Heppner Highway in Morrow County, completed May 7, 1951.

Contract No. 3469, with Morrison & Fisher, for grading and oil mat surfacing on the Hermiston (Railroad to Hurlburt Avenue) Section of the Old Oregon Trail in Umatilla County, completed May 23, 1951.

Contract No. 3492, with J. C. Compton Co., for reoiling on the Division No. 1, District B, Section of the Mt. Hood Highway in Clackamas County, completed June 22, 1951.

Contract No. 3286, with VaDare Construction Co., for constructing Spruce Street (Myrtle Point) Bridge on the Coquille-Myrtle Point County Road in Coos County, completed June 27, 1951.

Contract No. 3332, with H. G. Carl, for constructing James Avenue Bridge on Silverton City Street in Marion County, completed June 11, 1951.

Contract No. 3333, with Walter Rohde, for constructing a latrine in Catherine Creek State Park in Union County, completed May 12, 1951.

Contract No. 3389, with City Electric, Inc., for constructing traffic signals on the Pacific Highway in Corvallis in Benton County, completed June 27, 1951.

EXHIBIT "F" (cont.)

Contract No. 3453, with Theodore J. Patzer, for constructing caretaker's cottage in Yaquina State Park in Lincoln County, completed June 28, 1951.

Contract No 3473, with Hamilton and Thoms, for constructing Riverview Street Viaduct on the Pacific Highway in Eugene, Lane County, completed June 1, 1951.

THEREFORE, BE IT RESOLVED, that the work covered by State Highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "G"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: PACIFIC HIGHWAY WEST

Highway Number: 1-W Route Number: 99-W

Location of Termini			Established Speed
M. P. 37.27 (McDonald Lane north of McMinnville)	to	M. P. 38.02 (North City limits of McMinnville)	40 miles per hr.

July 16, 1951 (cont 1)

EXHIBIT "G" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Highway Commission as of July 16, 1951.

EXHIBIT "H"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Winchester-Shady Point Section of the Pacific Highway in Douglas County, and in connection therewith prepare a map or maps showing the route and location of said section or sections of highway and file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey or surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Winchester-Shady Point Section of the Pacific Highway beginning at Engineer's Station 2230+00 about one and one-half miles north of Winchester and extending southerly to Engineer's Station 2750+00 at Shady Point, about two miles south of Roseburg, together with the map, which for identification purposes bears map numbers 7B-7-10 and 7B-7-11 and the date of May, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section or unit of said Pacific Highway has been made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission, November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 16th day of July, 1951.

EXHIBIT "I"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the STATE OF OREGON, by and through its State Highway Commission, is the owner of a parcel of land described as follows, to-wit:

> Lots 7 and 8, Block 5, Townsite of Pompeii, Clackamas County, Oregon, containing 10,000 square feet, and

WHEREAS, after consideration, this Commission hereby finds and declares that the said property is no longer needed, required, or useful for highway purposes, and

WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $4,000.00, and the Commission is desirous of selling and disposing of said property, at a price not less than the said appraised amount, upon the basis of complete restriction of access to the abutting Mount Hood Highway

NOW, THEREFORE, be it resolved that the Secretary of the Commission be, and he hereby is, authorized and instructed, to advertise the said property for sale in accordance with the terms and provisions of Chapter 437, Oregon Laws, 1949, as amended by Chapter 154, Oregon Laws 1951. Sealed bids for the sale of the said property shall be received by the said Secretary in the offices of the Commission in Salem, Oregon, at 2.00 o'clock P. M. Daylight Saving Time on the 20th day of September, 1951, and shall be opened in the presence of the Commission's Chief Counsel or his authorized representative. The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

The published notice for the receiving of bids shall fix a minimum price of $4,000.00 for which the property shall be sold and shall further provide that the sale shall be made for cash.

EXHIBIT "J-1"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate in part, widen, construct, improve and maintain the Big Creek Section of the Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation in part, widening, construction, improvement and maintenance of the Big Creek Section of the Columbia River Highway real property located in Clatsop County, Oregon, and described as follows, to-wit:

R 17395
Floyd H. Barrett, et ux.
William W. Campbell, Jr., et ux

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of Section 24, Township 8 North, Range 8 West, W M., Clatsop County, Oregon, and

(cont.)

being a portion of that property conveyed by that deed to William W. Campbell and Floyd H. Barrett, recorded in Book 198, Page 209, of Clatsop County Records of Deeds; the said parcel being that portion of said property included in a strip of land variable feet in width, lying on the southerly side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning on the south line of the Northeast quarter (NE$\frac{1}{4}$) of Section 24 at Engineer's center line Station 487+13.9, said Station being 80.7 feet east of the center of said Section 24; thence North 46° 46' 30" East 109.35 feet; thence on a spiral curve right (the long chord of which bears North 48° 06' 30" East) 400 feet; thence on a 2864.79 foot radius curve right (the long chord of which bears North 66° 51' 15" East) 1607.92 feet to Station 508+31.17; the southerly line of said strip of land intersecting the west and east lines of the said property approximately opposite Stations 496+85 and 501+85, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Southerly Side of Center Line
496+00	501+00	80
501+00	502+00	100
502+00	505+00	80

The parcel of land to which this description applies contains 0.399 acre lying outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcel of real property, it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress and regress to, from and between the remaining land of the larger tract of which the above-described property is a part and the above-described property and any highway now or hereafter constructed thereon, and that all approaches or access from the Columbia River Highway to said remaining land and from said remaining land to the Columbia River Highway be prohibited, except that there shall be reserved unto the owners of said remaining property rights of private access for two approaches from said remaining land to the Columbia River Highway as follows:

1. A private right of access not to exceed twenty-five feet in width on the south side of the Columbia River Highway opposite Highway Engineer's Station 498+00

2. A private right of access not to exceed twenty-five feet in width on the south side of the Columbia River Highway opposite Highway Engineer's Station 499+70.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

The State shall have the right, at its option, to build at any future time at its sole cost a frontage road upon right of way now owned or lands to be acquired by the State, and upon construction of such frontage road the rights of private access for the said two approaches to the relocated, in part, and improved Columbia River Highway herein set forth to be reserved shall terminate and cease and the owners of said remaining property shall thereupon have access to the frontage road. Said frontage road shall be connected to the main highway only at such point or points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4 That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-2"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission, in cooperation with Wasco County, plans and proposes to realign, widen and improve The Dalles-Seufert Section of the Columbia River Highway, including connections with The Dalles-California Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the realigning, widening, construction, improvement and maintenance of The Dalles-Seufert Section of the Columbia River Highway, including connections with The Dalles-California Highway, real property located in Wasco County, Oregon, and described as follows, to wit:

R 17107
Owner: Seufert Brothers' Co.

(cont.)

EXHIBIT "J-2" (cont.)

Parcel No. 1:

A parcel of land lying in Lot 3 and the Northeast quarter (NE$\frac{1}{4}$) of the Northeast quarter (NE$\frac{1}{4}$) of Section 1, Township 1 North, Range 13 East, and in Lot 1 of Section 36, Township 2 North, Range 13 East, W. M., Wasco County, Oregon; the said Parcel being a strip of land of variable widths over and across said subdivisions and lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 74+00, said Station being 1480 feet south and 2285 feet west of the northeast corner of said Section 1; thence North 63° 46' East 314.88 feet to Station 77+14.88 equals Station 1166+75.01 (crossing the south line of said Lot 3, Section 1, approximately at Station 77+00;) thence on a spiral curve left (the long chord of which bears North 62° 36' East) 400 feet; thence on a 3274.05 foot radius curve to the left (the long chord of which bears North 55° 18' East) 567.62 feet; thence on a spiral curve to the left (the long chord of which bears North 48° 00' East) 400 feet; thence North 46° 50' East 193.99 feet; thence on a 9549.3 foot radius curve to the left (the long chord of which bears North 40° 55' 30" East) 1969.44 feet to Station 1202+06.06; said last curve crossing the line between said Sections 1 and 36 approximately at Station 1188.55 and crossing the east line of said Section 36 approximately at Station 1193+20, 350 feet, more or less, north of the southeast corner of Section 36. The northerly line of said strip of land follows along the southerly right of way line of the O. W. R. & N. Co. from the south line of said Lot 3, Section 1, to a point northerly of and opposite Station 1176+42.63; from Station 1176+42.63 to Station 1182+36.62, said northerlyline is parallel to and 125 feet northerly of said center line and from Station 1182+36.62 to the east line of said Section 36, said northerly line is parallel to and 100 feet northerly of said center line. The southerly line of said strip of land begins at the intersection of the south line of said Lot 3, Section 1, and the east line of the W. C. Laughlin D. L. C., and runs thence along the south line of said Lot 3 to a point which is 200 feet southerly of (measured at right angles to) said highway center line, and thence parallel to and 200 feet southerly of said center line to the east line of said Section 36.

EXCEPT the existing right of way of said Columbia River Highway.

The parcel of land to which this description applies contains 14.37 acres.

EXHIBIT "J-2" (cont.)

Parcel No. 2:

A parcel of land lying in Lot 5 of Section 31, Township 2 North, Range 14 East, W. M., Wasco County, Oregon, and being a portion of that property conveyed by that deed to Seufert Brothers' Company, recorded in Book U, Page 205, of Wasco County Records of Deeds; the said parcel being a triangular strip of land, the southeasterly line of which is along the southeasterly line of said Seufert Brothers' Company property; the northeasterly line is at right angles to the relocated center line of the Columbia River Highway at Engineer's center line Station 1204+15.14 and the northwesterly line is parallel to and 75 feet northerly of said relocated highway center line, which center line is described as follows:

Beginning at Engineer's center line Station 1204+15.14, said Station being 1226.9 feet north and 669.1 feet east of the southwest corner of said Section 31; thence South 35° 01' West 209.08 feet to Station 1202+06.06; thence on a 9549.3 foot radius curve to the right (the long chord of which bears South 37° 40' 30" West) 886.06 feet to Station 1193+20; said last Station being approximately on the west line of Section 31 and 350 feet, more or less, north of the southwest corner of said Section 31.

EXCEPT the existing right of way of said Columbia River Highway.

The parcel of land to which this description applies contains 0.46 acre.

Parcel No. 3:

A parcel of land lying in Lot 4 of Section 31, Township 2 North, Range 14 East, W. M., Wasco County, Oregon; the said parcel being a strip of land of variable widths, lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1205+65.14, said Station being 1349.7 feet north and 755.1 feet east of the southwest corner of said Section 31; thence North 35° 01' East 317.36 feet; thence on a 2864.79 foot radius curve to the left (the long chord of which bears North 30° 09' East) 486.7 feet; thence North 25° 17' East 260.8 feet to Station 1216+30. That part of said strip of land which lies northerly of said center line extends from a line at right angles to said center line at Engineer's Station 1205+65.14 to a line at right angles to said center line at Engineer's Station 1216+30. That part of said strip of land which lies southerly of said center line extends from the south line of said Lot 4, Section 31, to a line at right angles to said center line at Engineer's Station 1213+00.

The widths in feet of the strip of land above referred to are as follows:

(cont.)

Station	to Station	Width on Northerly side of Center Line
1205+56	1211+00	75
1211+00	1216+30	40

	Width on Southerly side of Center Line
South line of Lot 4 to 1213+00	200

EXCEPT the existing right of way of said Columbia River Highway.

The parcel of land to which this description applies contains 3.71 acres.

2. That in addition to the acquisition of fee simple title to the aforesaid-described parcels of real property, it is necessary that there be acquired all easements and rights of access, and all rights of ingress, egress, and regress to, from and between the remaining land of the larger tract of which the above-described parcels of real property are parts, which said larger tract is described as follows, to wit:

The Northeast quarter (NE$\frac{1}{4}$) of the Northeast quarter (NE$\frac{1}{4}$) and Lot 3 of Section 1, Township 1 North, Range 13 East, W. M., Lot 1, Section 36, Township 2 North, Range 13 East, W. M., Lot 4, Section 31, Township 2 North, Range 14 East, W. M., and that portion of Lot 5 (Southwest quarter of the Southwest quarter) of Section 31, Township 2 North, Range 14 East, W. M., described as follows, to-wit:

Commencing 7.58 chains north of corner to Townships 1 and 2 North, Ranges 13 and 14 East, at point on north side of county road leading from Dalles City to Lower Des Chutes Bridge; thence north 12.70 chains; thence east 11.54 chains; thence South 44° 35' West 16.82 chains to the place of beginning, all in Section 31, Township 2 North, Range fourteen East of Willamette Meridian, containing 7.31 acres and situated in Wasco County, Oregon. EXCEPT the rights of way of all public roads and the rights of way of the O. W. R. and N. Co. and the Union Pacific Railroad Company.

and the above-described parcels of real property and any highway now or hereafter constructed thereon, and all other portions of the right of way of the Columbia River Highway upon which said remaining land abuts, and that all approach or access from the Columbia River Highway to said remaining land and from said remaining land to the Columbia River Highway be prohibited; except that there shall be reserved unto the owners of said remaining land rights of access for three approaches

from said remaining land to the Columbia River Highway as follows:

1. A right of private access not to exceed twenty-five feet in width on the north side of the Columbia River Highway opposite Highway Engineer's center line Station 1194+57 to a connecting or approach road to be constructed upon the right of way of the Columbia River Highway and northerly of the traveled portion of said highway; said approach or connecting road to connect with said traveled portion of said highway opposite Highway Engineer's center line Station 1190+30.

2. A right of private access not to exceed twenty-five feet in width on the south side of the Columbia River Highway opposite Highway Engineer's center line Station 1213+64.

3. A right of access not to exceed twenty-five feet in width on the north side of the Columbia River Highway opposite Highway Engineer's center line Station 1213+64.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

The State shall have the right, at its option, to build at any future time at its sole cost frontage roads upon right of way now owned or lands to be acquired by the State, and upon construction of such frontage roads the rights of access to the Columbia River Highway herein set forth to be reserved shall terminate and cease and the owners of said remaining property shall thereupon have access to the frontage roads. Said frontage roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private unjury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire

title to the said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-3"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and in the event right of way or property of any railroad company is required or needed for state highway location or state highway construction, and if any portion of such property or right of way is likewise needed and required by the railroad company for the proper operation of its trains and the usual and ordinary conduct of its business, but which property or land the said railroad company is willing to deed to the state for highway purposes in exchange for a like amount of land in close proximity thereto, the State Highway Commission is authorized to acquire by purchase, agreement, or by the exercise of the right and power of eminent domain, an equal amount of land or property contiguous thereto, or as nearly adjacent thereto as possible, and, after acquiring said land or property, to convey the same to said railroad company in exchange for the land or property needed and required from said railroad company for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Viento-Hood River Section of the said Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and, in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Viento-Hood River Section of the Columbia River Highway the parcel of real property located in Hood River County, Oregon, and described as follows, to-wit:

File No. 16985
Owner: Sonny Land Company

Parcel No. 1:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) and in Government Lot 4 of Section 31, Township 3 North, Range 10 East, W.M., Hood River County, Oregon; the said parcel being that part of said Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) and said Lot 4 lying north of the existing Columbia River Highway and lying south of the right of way of the Oregon-Washington Railroad & Navigation Company and Union Pacific Railroad Company; also, that part of said Lot 4 lying south of the existing Columbia River Highway and lying north of a line which is parallel to and 175 feet southerly of the relocated center line of the Columbia River Highway; and, also, that part of said Lot 4 lying north of the right of way of the Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company and lying south of a line which is parallel to and 30 feet northerly of said relocated center line of the Columbia River Highway; said relocated center line of the Columbia River Highway being described as follows:

Beginning at Engineer's center line Station 890+69.24, said Station being 22.2 feet north and 117.6 feet west of the west quarter corner of said Section 31; thence on a spiral curve to the left (the tangent of which at said beginning point bears North 60° 18' 25" East and the long chord bears North 58° 22' 50" East) a distance of 340 feet to Station 894+09.24 equals Station 894+70.67, at which point the tangent to said spiral bears North 57° 25' East; thence North 57° 25' East 1429.39 feet to Station 909+00.06; thence on a spiral curve to the right (the long chord of which bears North 59° 30' East) 500 feet to Station 914+00.06, said center line crossing the east line of said Lot 4 approximately at Station 908+52

The parcel of land to which this description applies contains 4.88 acres.

EXHIBIT "J-3" (cont.)

2. The Commission does hereby find and declare that, in exchange for a like amount of land to be deeded by the Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company to the State of Oregon for right of way of said Columbia River Highway, there is needed and required for conveyance by the State of Oregon to the said Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company for right of way for use in connection with the relocation, construction and maintenance of their railway a parcel of real property located in Hood River County, Oregon, and described as follows, to-wit:

Parcel No. 2:

A parcel of land lying in Government Lot 4 of Section 31, Township 3 North, Range 10 East, W.M., Hood River County, Oregon, the said parcel being that part of said Lot 4 lying north of the right of way of the Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company and also lying north of a line which is parallel to and 30 feet northerly of the relocated center line of the Columbia River Highway, said relocated center line being described as follows:

Beginning at Engineer's center line Station 890+69.24, said Station being 22.2 feet north and 117.6 feet west of the west quarter corner of said Section 31; thence on a spiral curve to the left (the tangent of which at said beginning point bears North 60° 18' 25" East and the long chord bears North 58° 22' 50" East) a distance of 340 feet to Station 894+09.24 equals Station 894+70.67, at which point the tangent to said spiral bears North 57° 25' East; thence North 57° 25' East 1429.39 feet to Station 909+00.06; thence on a spiral curve to the right (the long chord of which bears North 59° 30' East) 500 feet to Station 914+00.06, said center line crossing the east line of said Lot 4 approximately at Station 908+52.

The parcel of land to which this description applies contains 2.78 acres.

3. That the highway facility requiring and making necessary acquisition of the aforesaid parcels of real property has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That in addition to acquisition of fee simple title to the aforesaid parcel No. 1, it is necessary that there be acquired all existing easements and rights of access to, from and between the remaining land of the larger tract, of which said parcel No. 1 is a part, and said parcel No. 1 and the relocated Columbia River Highway to be constructed thereover, and that there be acquired such interest, if any

(cont.)

there be, by which a right of access or any right in the nature of a right of access may accrue to the owners' remaining property by reason of the adjacency of the relocated Columbia River Highway, when constructed upon said parcel No. 1, to said remaining real property. The owners shall retain their existing rights of access to those portions of the existing Columbia River Highway that will be adjacent to their said remaining property, which said portions of the existing Columbia River Highway shall connect with the relocated Columbia River Highway.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-4"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Viento-Hood River Section of the said Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Viento-Hood River Section of the Columbia River Highway the parcel of real property located in Hood River County, Oregon, and described as follows, to wit.

R 17006
Owner: Harold L. Frick, et ux.

(cont.)

EXHIBIT "J-4" (cont.)

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 27, Township 3 North, Range 10 East, W. M., Hood River County, Oregon, and being a portion of that property conveyed by those certain deeds to Harold L. Frick and Eloise Frick, recorded in Book 23, Page 643, and in Book 25, Page 137, of Hood River County Records of Deeds; the said parcel being that portion of said property included in a strip of land 275 feet in width, 100 feet northerly and 175 feet southerly of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1080+00, said Station being 951.2 feet north and 369.3 feet west of the south quarter corner of said Section 27; thence North 72° 55' 30" East 2396.56 feet to Station 1103+96.56; the said center line crossing the west and east lines of said property approximately at Stations 1097+76 and 1101+29, respectively.

The parcel of land to which this description applies contains 1.99 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property it is necessary that there be acquired all existing easements and rights of access to, from and between the remaining land of the larger tract, of which the above-described property is a part, and the above-described property and any highway now or hereafter constructed thereover, and that there be acquired such interest, if any there be, by which a right of access or any right in the nature of a right of access may accrue to the owners' remaining property by reason of the adjacency of the relocated Columbia River Highway, when constructed upon the above-described real property, to said remaining real property, except that there shall be reserved unto the owners of the remaining real property rights of access to a frontage road to be constructed by the State upon the aforesaid-described real property and northerly of the main highway, said frontage road to be connected to the main highway only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute

to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-5"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiation and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, widen and improve the Hood River-Mosier Section of the Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way, quarry site, haul road and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes for use in connection with the proper construction of a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway a parcel of real property located in Wasco County, Oregon, and described as follows:

R 17634
Owner: James C. Fulton, et ux.

Parcel No. 1:

A parcel of land lying in Government Lot 6 of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon; the said parcel being described as follows:

Beginning at a point 333.95 feet south and 1430 feet east of the westerly southwest corner of the J. A. Mosier D. L. C. No. 37;

(cont.)

said point also being on the southerly right of way line of the Columbia River Highway; thence on said right of way line North 79° 53' 30" East a distance of 167.68 feet; thence along a right of way line parallel to and 100 feet distant southerly from the Union Pacific Railroad center line South 73° 22' East a distance of 210.51 feet to the westerly line of the Frank Ginger property; thence along the said property line South 0° 55' 30" West a distance of 280 feet; thence North 60° 39' 30" West a distance of 516.42 feet; thence North 56° 43' East a distance of 105.18 feet to the point of beginning.

The parcel of land to which this description applies contains 1.91 acres.

2. The Commission does hereby find and declare that there are needed and required as a quarry site for the acquisition of road building materials and for haul road purposes for use in connection with the proper relocating, widening, construction, improvement and maintenance of the Hood River-Mosier Section of the Columbia River Highway two parcels of real property located in Wasco County, Oregon, and described as follows:

Parcel No. 2:
(Quarry Site)

A parcel of land lying in Government Lots 5 and 7 and the Southwest quarter ($SW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 2, Township 2 North, Range 11 East. W. M., Wasco County, Oregon; the said parcel being described as follows:

Beginning at a point 855.71 feet east and 1143.0 feet south of the westerly southwest corner of the J. A. Mosier D. L. C. No 37; thence South 23° 42' West a distance of 120.66 feet; thence South 8° 48 East a distance of 446.23 feet; thence South 25° 03' 30" West a distance of 428.01 feet; thence South 53° 31' 30" West a distance of 355.96 feet; thence South 85° 23' 30" East a distance of 736.61 feet; thence North 06° 20' East a distance of 1059.18 feet; thence North 72° 34' West a distance of 201.30 feet; thence North 65° 21' West a distance of 232.46 feet to the point of beginning, containing 11.42 acres.

Parcel No. 3
(Haul Road)

A parcel of land lying in Government Lots 5 and 6 of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon; the said parcel being 40 feet wide, 20 feet on each side of a line described as follows:

Beginning at a point on the southerly right of way line of the Union Pacific Railroad, said point being 1249.17 feet east and 201.18 feet south of the westerly southwest corner of the J. A. Mosier D. L. C.

(cont.)

No. 37; thence South 40° 38' East a distance of 121.87 feet; thence South 4° 09' West a distance of 112.55 feet; thence South 24° 24' West a distance of 206.48 feet; thence South 50° 43' West a distance of 276.73 feet; thence South 20° 53' 30" West a distance of 408.40 feet to the northerly line of the quarry site described as parcel No. 2 above, containing 0.91 acre.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Co unsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein the Chief Counsel. or in his absence the Assistant Counsel. is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-6"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, and improve the Lana Avenue-Hayesville School Section of the Pacific Highway East within the city limits of the City of Salem, Oregon, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Pacific Highway East is a major highway of the State, and as such carries large volumes of traffic, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, construction, improvement and maintenance of the Lana Avenue-Hayesville School Section of the Pacific Highway East the parcel of real property located in Marion County, Oregon, and described as follows, to-wit:

(cont.)

EXHIBIT "J-6" (cont.)

File No. 13893
Owner: Albert J. Sauers, et ux.

A parcel of land lying in the Southwest quarter (SW$\frac{1}{4}$) of Section 12, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to Albert J. Sauers and Irma Sauers, recorded in Book 317, Pages 694 and 695 of Marion County Record of Deeds; the said parcel being described as follows:

Beginning on the westerly line of the Pacific Highway East at the northeasterly corner of said property; said point being 419.8 feet South 57° 10' East, 1800.32 feet North 22° 15' East, 195.3 feet North 22° 15' East and 815.7 feet South 68° East from the southwest corner of said Section 12; thence North 68° West 10 feet along the northerly line of said property; thence South 34° 30' West parallel to and 40 feet westerly of the center line of said highway a distance of 46 feet to the northerly line of a tract sold under a contract agreement to Charles F. Spiess and Susan Spiess as recorded in Book 380 at Page 348 of Marion County Deed Records; thence North 68° West 10 feet along the northerly line of said Spiess tract to the westerly line of said highway; thence North 34° 30' East 46 feet along said highway line to the place of beginning, containing 460 square feet.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcel of real property, it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress, and regress to, from and between the remaining land of the larger tract, of which the above-described parcel of real property is a part, and the above-described parcel of real property and any highway now or hereafter constructed thereon, and that all access to the aforesaid-described parcel of real property and the Pacific Highway East, now or hereafter constructed thereon, from said remaining land of said larger tract, and all approaches or access from said highway to said remaining land be prohibited; except that there shall be reserved unto the owners of said remaining land a right of access for an approach from said remaining land to the Pacific Highway East, as follows

A right of access for an approach not to exceed twenty-five feet in width on the west side of Pacific Highway East opposite Highway Engineer's center line Station 40+95.

3. That the highway facility for which the aforesaid-described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the

opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-7"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, and improve the Lana Avenue-Hayesville School Section of the Pacific Highway East within the city limits of the City of Salem, Oregon, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Pacific Highway East is a major highway of the State, and as such carries large volumes of traffic, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, construction, improvement and maintenance of the Lana Avenue-Hayesville School Section of the Pacific Highway East the parcel of real property located in Marion County, Oregon, and described as follows, to-wit:

File No. 13914
Owner: Elmer F. Gaska

A parcel of land lying in the Adam Stephens D. L. C., also in the Northeast quarter (NE $\frac{1}{4}$) of Section 12, Township 7 South, Range

(cont.)

3 West, W. M., Marion County, Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to Elmer F. Gaska and Goldie Gaska, recorded in Book 396, Page 60 of Marion County Record of Deeds; the said parcel being described as follows:

Beginning on the center line of the Pacific Highway East at the southwesterly corner of said property; thence South 79° 14' East 50 feet, more or less, along the southerly line of said property to a line which is parallel to and 45 feet easterly of the relocated center line of the Pacific Highway East; thence northerly along said parallel line 210 feet, more or less, to the northerly line of said property; thence North 82° 56' West 55.5 feet, more or less, to the northwesterly corner of said property, thence southerly along the westerly property line (the center line of the highway) to the point of beginning. The relocated center line of the Pacific Highway East is described as follows: Beginning at Engineer's center line Station 61+88.79 which Station is 1799 feet south and 1172 feet west of the northwest corner of the Towner Savage D. L. C. No. 37; thence on a 2291.83 foot radius curve to the left (the long chord of which bears North 29° 34' East) 349.33 feet; thence North 25° 12' East 207.59 feet to Station 67+45.71, said center line crossing the northerly and southerly lines of said property approximately at Stations 64+92 and 67+02, respectively.

The parcel of land to which this description applies contains 10,500 square feet, more or less, of which 6,600 square feet lie within the existing right of way, title to which hereby is alleged to be in the public, and 3,900 square feet lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcel of real property, it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress, and regress to, from and between the remaining land of the larger tract of which the above-described parcel of real property is a part, and the above-described parcel of real property and any highway now or hereafter constructed thereon, and that all access to the aforesaid-described parcel of real property and the Pacific Highway East, now or hereafter constructed thereon, from said remaining land of said larger tract, and all approaches or access from said highway to said remaining land, be prohibited; except that there shall be reserved unto the owners of said remaining land a right of access for an approach from said remaining land to the Pacific Highway East, as follows

A right of access for an approach not to exceed twenty-five feet in width on the east side of the Pacific Highway East opposite Highway Engineer's Station 65+30.

(cont.)

3. That the highway facility for which the aforesaid-described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of theState, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-8"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to surface and pave the relocated Judkins Point-Goshen Section of the Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for a gravel pit for the acquisition of road-building materials and for other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following-described property is necessary and required as a gravel pit for the acquisition of road-building materials in connection with the surfacing, paving and maintenance of the relocated Judkins Point-Goshen Section of the Pacific Highway, said property being located in Lane County, Oregon:

File No. R 17055
Owner: Ross E. Glass, et ux.

Parcel No. 1

All of Lot 7 of Section 11, Township 18 South, Range 3 West, W.M., Lane County, Oregon, and being a portion of the following-described property That tract of land which was conveyed by that certain deed to Ross E. Glass and Florence M. Glass recorded in

(cont.)

Book 300, Page 205, of Lane County Record of Deeds; except that portion of said Lot 7 conveyed to the State of Oregon, by and through its State Highway Commission, by that certain deed dated April 5, 1951, recorded in Book 436, Page 90, of Lane County Record of Deeds, the said parcel being described as follows: Beginning at a point 6 feet north of the southwest corner of the land conveyed by J. C. Richmond and wife to Samuel Oaks by deed dated August 2, 1909, and recorded in Book 84, Page 506, Lane County Deed Records; thence west 16 feet; thence north parallel with the west boundary of said Samuel Oaks tract of land 454 feet to the left bank of the Coast Fork River; thence North 66° 40' West along said left bank 438.56 feet; thence south 627.7 feet; thence east 402.7 feet to the place of beginning; and except that portion of said Lot 7 conveyed to the State of Oregon, by and through its State Highway Commission, by that certain deed dated April 19, 1951, recorded in Book 436, Page 638, of Lane County Record of Deeds, contained in that parcel of real property described as follows, to-wit: Beginning at a point 134 rods west of the northeast corner of the Southeast quarter ($SE\frac{1}{4}$) of Section 11, Township 18 South, Range 3 West, W. M.; thence west 38 rods and 5 feet; thence north to the center of the channel of the Coast Fork River; thence meandering east along the center of the channel of said river to a point due north of the place of beginning; thence south to the place of beginning, excepting therefrom a right of way one rod wide across the south end of said land; excepting therefrom, also, a right of way about six rods long and 16 feet wide along the river and running east from the west line of said land.

Parcel No. 2:

A parcel of land lying in Government Lot 6, Township 18 South, Range 3 West, W.M., Lane County, Oregon. the said parcel being described as follows:

Beginning at a point on the east line of Government Lot 6, said point being 1303.5 feet east and 2250 feet south of the northwest corner of Section 11, Township 18 South, Range 3 West, W. M.; thence North 52° 30' West 1350 feet, more or less, to the easterly right of way line of the Southern Pacific Railroad; thence northerly along said line 250 feet, more or less, to the intersection of said right of way line with the north line of Lot 6; thence meandering upstream along the left bank of the Willamette River along the northerly line of said Lot 6, to the northeast corner of said Lot; thence south along the east line of said Lot 6, a distance of 660 feet, more or less, to the point of beginning.

ALSO: Any accretions to Government Lot 6.

EXHIBIT "J-8" (cont.)

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3 That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-9"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Nyssa-Adrian Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to better the alignment in part and to improve the Nyssa-Adrian Section of the Nyssa-Adrian Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there are needed and required for right of way for use in connection with the realignment in part, construction, improvement, and maintenance of the Nyssa-Adrian Section of the Nyssa-Adrian Highway parcels of real property located in Malheur County, Oregon, and described as follows:

File No. 17757
Owner: Ida B. Ward

Parcel No. 1

A parcel of land lying in Lot 3 of Section 31, Township 19 South, Range 47 East, W. M., Malheur County, Oregon, the said parcel being that portion of said Lot 3 lying north and west of a line which is parallel to and 40 feet southeasterly of the center line of the Nyssa-Adrian Highway as said highway has been relocated, which center line is described as follows:

(cont.)

Beginning at Engineer's center line Station 89+55.95, said Station being 18.6 feet north and 689.1 feet east of the west quarter corner of said Section 31; thence on a spiral curve to the left (the long chord of which bears South 79° 39' 53" West 396.89 feet) 400 feet; thence on a 477.46 foot radius curve to the left (the long chord of which bears South 42° 43' 50" West) 348.70 feet; thence on a spiral curve to the left (the long chord of which bears South 5° 47' 47" West 396.89 feet) 400 feet to Station 101+04.65; the said parcel being bounded on the ends by lines at right angles to said center line at Stations 89+55.95 and 101+04.65.

The parcel of land to which this description applies contains 2.65 acres, of which 1.05 acres lie within the existing right of way, title to which is in the public, and 1.6 acres lie outside of the existing right of way.

File No. 17764
Owners: E. M. Titus, Lem E. Wilson, Jr., et al.

Parcel No. 2

A parcel of land lying in the north half ($N\frac{1}{2}$) of the northwest quarter ($NW\frac{1}{4}$) of Section 7, Township 20 South, Range 47 East, W.M., Malheur County, Oregon, the said parcel being that portion of said north half ($N\frac{1}{2}$) of the northwest quarter ($NW\frac{1}{4}$) lying north and west of a line which is parallel to and 40 feet southeasterly of the center line of the Nyssa-Adrian Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 184+40.82, said Station being in the center of the existing highway and 694.80 feet east of the northwest corner of said Section 7; thence on a spiral curve to the left (the long chord of which bears South 79° 45' 43" West 396.89 feet) 400 feet; thence on a 477.46 foot radius curve to the left (the long chord of which bears South 42° 47' 15" West) 349.38 feet; thence on a spiral curve to the left (the long chord of which bears South 5° 48' 47" West 396.89 feet) 400 feet to Station 195+90.20; said parcel being bounded on the easterly and southerly ends by lines at right angles to said center line at Stations 184+40.82 and 195+90.20 respectively.

The parcel of land to which this description applies contains 2.76 acres, of which 1.21 acres lie within the existing right of way, title to which is in the public, and 1.55 acres lie outside of the existing right of way.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and /or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

5. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-10"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Nyssa-Adrian Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to better the alignment in part and to improve the Nyssa-Adrian Section of the Nyssa-Adrian Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for a gravel pit for the acquisition of road-building materials and for other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that the following-described property is necessary and required as a gravel pit for the acquisition of road-building materials in connection with the realignment in part, construction, improvement and maintenance of the Nyssa-Adrian Section of the Nyssa-Adrian Highway, said property being located in Malheur County, Oregon:

R 17763
George H. Besendorfer

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 2, Township 21 South, Range 46 East, W. M., Malheur County Oregon and being a portion of the following-described property. That tract of land which was conveyed by that certain deed to George H. Besendorfer and Martha Besendorfer recorded in Book 86 Page 404, of Malheur County Record of Deeds; the said parcel being described as follows:

(cont.)

Beginning at a point in the north line of the Southeast quarter ($SE\frac{1}{4}$) of said Section 2; said point being 1176.29 feet North 87° 22' 30" East of the center of Section 2; thence South 14° 32' 30" East 1357.55 feet to the south line of the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of said Section 2; thence along said south line North 87° 22'30" East 530.12 feet to the southeast corner of the West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$); thence along the east line of said West half ($W\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) North 2° 13' 30" West 518.62 feet; thence North 38° 21' West 411.93 feet; thence North 30° 35' 30" West 536.42 feet to the north line of the Southeast quarter ($SE\frac{1}{4}$) of said Section 2; thence along said north line South 87° 38' 30" West 322 feet to the point of beginning.

The parcel of land to which this description applies contains 15.60 acres, of which 0.37 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 15.23 acres lie outside of the existing right of way

2. That the highway facility for which the aforesaid property is required and is being taken has been planned designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That, if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel,

or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "J-11"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing, and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the T. H. Banfield Expressway, for the purpose of establishing,

constructing, and maintaining a throughway, the following-described parcel of real property, to-wit:

File No. 15871
Owner: J. A. Lyons heirs

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of Section 25, Township 1 North, Range 1 East, W.M., Multnomah County, Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to J. A Lyons, recorded in Book 900, Page 13 of Multnomah County Record of Deeds; the said parcel being all of said property lying northerly of the following-described line:

Beginning on the east line of 33rd Avenue at a point which is North 1°26' 21" East 157.56 feet from the intersection of said east line of 33rd Avenue with the south line of said Section 25; said point of beginning also being 168 feet southerly measured radially from the Oregon-Washington Railroad & Navigation Company railroad center line as of October 8, 1946; thence easterly along the arc of a 648.69 foot radius curve to the right (the long chord of which bears North 83° 06' 34" East 363.84 feet) a distance of 368.79 feet to a point on the east line of said property, said point being North 1° 26' 21" East along said east line a distance of 208.74 feet from the southeast corner of said property; said line as described above being parallel to and 168 feet southerly of said railroad center line.

The parcel of land to which this description applies contains 1.00 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the T. H. Banfield Expressway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

EXHIBIT "J-11" (cont.)

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State. the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the sixteenth day of July, 1951.

EXHIBIT "K-1"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the Forty-Sixth Legislative Assembly enacted Chapter 405, Oregon Laws 1951; and

WHEREAS, the Highway Commission is authorized by the provisions of Section 12, Chapter 405, Oregon Laws 1951, to issue permits for the movements of vehicles and combinations of vehicles having an overall length of not more than 60 feet, except that combinations of vehicles transporting logs, poles or piling may have an overall length in excess of 60 feet, and having a gross weight not in excess of that set forth in the table of weights contained in said Section 12; and

WHEREAS, Section 4, Chapter 405, Oregon Laws 1951, provides that, with certain exceptions, no combination of vehicles coupled together shall consist of more than two vehicles, and further authorizes the Commission to issue permits under the provisions of Section 12 for the operation of combinations of vehicles consisting of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel; and

WHEREAS, it is the judgment and opinion of the Commission that a combination of vehicles consisting of a truck-tractor and semi-trailer drawing one trailer, operating within the size and weight limitations provided by Chapter 405, Oregon Laws 1951, will not unduly damage highways or endanger the motoring public, and that such combination of vehicles is of a type similar to a combination of vehicles consisting of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, and that within the meaning, purpose and intent of Chapter 405, Oregon Laws 1951, permits may be issued under the provisions of Section 12 for the operation of the first-described combination of vehicles; and

WHEREAS, based upon the advice and recommendation of the State Highway Engineer, it is the judgment and opinion of the Commission that permits be issued upon application therefor, which permits shall authorize the movement over highways set forth therein of combinations of vehicles having a length or gross weight in excess of that authorized by Chapter 405, Oregon Laws 1951, without permit, but not in excess of the limits stated in the form of permit;

(cont.)

EXHIBIT "K-1" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, all of the members being present and voting affirmatively, as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits, pursuant to the provisions of Section 12, Chapter 405, Oregon Laws 1951, hereby is authorized on the following forms of permit, which forms are attached hereto, by this reference made a part hereof, and are hereby approved and adopted as to form and as to all provisions and regulations contained therein:

a. "EXHIBIT A" - Transportation Permit for Continuous Operation of Overlength and Overweight Vehicles - Group I Highways - Permit Form E-242-Rev. This permit authorizes the movement over Group I Highways named therein, and such other highways that may hereafter be reclassified as Group I Highways pursuant to paragraph 7 of this resolution, of combinations of vehicles consisting of a truck and full trailer, or of a truck-tractor and semitrailer and full trailer, or of a truck-tractor and semitrailer drawing one additional semitrailer mounted on a dolly equipped with a fifth wheel, including any load thereon, having a length not in excess of 60 feet and having a gross weight of any wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by Section 12, Chapter 405, Oregon Laws 1951, provided that the gross weight of any combination of vehicles consisting of a truck having two axles and a full trailer having two axles shall not exceed that set forth in the table of weights in paragraph d, subsection 2, Section 12, Chapter 405, Oregon Laws 1951, or the sum of the permissible axle weights, whichever is the lesser.

b. "EXHIBIT B" - Transportation Permit for Continuous Operation of Overweight Vehicles - Group I and II Highways - Permit Form E-243-Rev. This permit authorizes the movement over Group I and Group II Highways named therein of combinations of vehicles consisting of a truck and full trailer or a truck-tractor and semitrailer, including any load thereon, having a length not in excess of 50 feet and a gross weight of any wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by Section 12, Chapter 405, Oregon Laws, 1951, provided that the gross weight of any combination of vehicles consisting of a truck having two

axles and a full trailer having two axles shall not exceed that set forth in the table of weights in paragraph d, subsection 2, Section 12, Chapter 405, Oregon Laws 1951, or the sum of the permissible axle weights, whichever is the lesser.

c. "EXHIBIT C" - Transportation Permit (Temporary) for Continuous Operation of Overlength or Overweight Vehicles - Group I or II Highways - - Permit Form E-271. This permit authorizes the movement over such highways as may be specified therein of combinations of vehicles, including any load thereon, having a length and of a description as specified therein, but in no event to exceed 60 feet in length and having a gross weight of any wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by Section 12, Chapter 405, Oregon Laws 1951, provided that the gross weight of any combination of vehicles consisting of a truck having two axles and a full trailer having two axles shall not exceed that set forth in the table of weights in paragraph d, subsection 2, Section 12, Chapter 405, Oregon Laws 1951, or the sum of the permissible axle weights, whichever is the lesser. The principal use of this permit form shall be to facilitate movement of vehicles operating under temporary authority from the Public Utilities Commissioner and which by reason thereof would not be eligible for a Group I or Group I and II permit, and also to facilitate movement of combinations of vehicles consisting of a truck-tractor and semitrailer having a length in excess of 50 feet but not in excess of 60 feet over said Group I Highways heretofore or hereafter designated by the State Highway Engineer, which highways by means of trial runs have been found capable of safely accomodating such combinations of vehicles;

d. "EXHIBIT D" - Transportation Permit for Excess Length or Weight - Logs, Poles or Piling (6-Wheeler) - Permit Form E-322. This permit authorizes the movement over the highways specified therein of combinations of vehicles consisting of a truck-tractor with tandem rear axles, and a pole trailer with tandem axles, for the transportation of logs, poles or piling, including any load thereon, having a length as specified therein, and having a gross weight of any

(cont.)

EXHIBIT "K-1" (cont.)

wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by Section 12, Chapter 405, Oregon Laws 1951.

e. EXHIBIT E" - Transportation Permit for Excess Length, Logs, Poles or Piling (4-Wheeler) - Permit Form E-323. This permit authorizes the movement over the highways specified therein of combinations of vehicles consisting of a truck-tractor with single rear axle, and a pole trailer with single or tandem axles, including any load thereon, having a length as specified therein, and having a gross weight of any wheel, axle, tandem axle, group of axles or of the combination of vehicles not in excess of that authorized by Section 11, Chapter 405, Oregon Laws 1951.

2. That permits issued on said forms marked "Exhibits A, B and C" shall not be valid for movement of any combination of vehicles when operating under a permit issued pursuant to Section 13, Chapter 405, Oregon Laws 1951.

3. No permit on any of said forms marked "Exhibits A, B, C, D or E" shall be issued authorizing the movement of any combination of vehicles, including any load thereon, having a length in excess of 50 feet, until it is determined by a trial load that the combination of vehicles, including any load thereon, moving in a normal manner, can stay on the right side of the center line of the traveled way at all times and that there is sufficient room in the opposing traffic lane for the safe movement of other vehicles; provided that permits may be issued on said forms marked "Exhibits D and E" for limited transportation of logs, poles or piling upon establishing satisfactory flagging and traffic controls to protect and not unreasonably delay the traveling public, if the movement of the combination of vehicles cannot be confined to the right side of the highway.

4. That permits on said forms marked "Exhibits A, B, D or E" may be issued for and by the State Highway Commission within the meaning, purpose and intent of Section 12, Chapter 405, Oregon Laws 1951, and of this resolution and order, and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any one of the following persons.

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor;

that any permit issued upon either of said forms marked "EXHIBITS D or E" and signed, as above provided, shall be in full force and effect until the date of expiration specified upon the permit, which said date shall not extend beyond one year from the date of issuance of the permit.

5. That permits on said form marked "Exhibit C" may be issued for and by the State Highway Commission within the meaning, purpose and intent of Section 12, Chapter 405, Oregon Laws 1951, and of this resolution and order, and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any one of the following persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

provided, that in case of emergency, permits upon said form marked "Exhibit C" may be issued from field offices, but only when the issuance of such permit has been first approved by the Director of Permits, or by the Supervisor of Transportation Permits. Any permit issued from a field office may be signed by the Division Engineer, the Acting Division Engineer, the Assistant Division Engineer, or the Division Office Engineer of the division in which the field office is located, or may be signed by the District Maintenance Superintendent or District Maintenance Office Man. Any permit issued upon said form marked "Exhibit C" and signed as above provided, shall be in full force and effect until the date of expiration specified upon the permit, which said date shall not extend beyond one year from the date of issuance of the permit.

6. That the Commission does hereby authorize the issuance of permit identification certificates upon a form attached hereto, marked "Exhibit F", and by this reference made a part hereof, to permittees to whom permits upon said form marked "Exhibit A" have been issued, and the issuance of permit identification certificates upon a form attached hereto, marked "Exhibit G", and by this reference made a part hereof, to permittees to whom permits upon said form marked "Exhibit B" have been issued. Said permit identification certificates shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and when signed by any one of the following persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor;

EXHIBIT "K-1" (cont.)

and when issued and signed, as herein provided, shall constitute satisfactory evidence that a permit has been issued, within the provisions of Section 14, Chapter 405, Oregon Laws 1951.

7. That hereafter, when the State Highway Engineer upon careful and proper investigation finds that any of the highways or sections of highways classified in said permit form marked "Exhibit B" as Group II Highways are of such character and design to safely accomodate the movement of combinations of vehicles in excess of 50 feet in length, then said Engineer is hereby authorized and directed to reclassify said highway or section of highway to a Group I Highway and report such action to the Commission for entry in the Commission's records.

8. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by a resolution or order entered in the minutes and records of the Commission.

9. That this resolution be entered in the minutes and records of the Commission as of the sixteenth day of July, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

HAULING OF LOGS, POLES OR PILING NOT ALLOWED UNDER THIS PERMIT

Subject to each and all of the following terms and conditions permission hereby is granted to the above named permittee to operate over the Group I highways hereinafter designated, and over such other highways as may from time to time be added, the truck or truck-tractor described on page 4 hereof, in combination as described in paragraph 1.

This permit is issued under authority of Section 12, Chapter 405, Oregon Laws, 1951.

1. This permit covers the operation of a truck and full trailer combination; or combinations commonly known as "double headers" consisting of a truck-tractor and semi-trailer and full trailer, or a truck-tractor and double semi-trailer and converter dolly. The overall length of any combination of such vehicles, including any load thereon, operated under this permit shall not exceed 60 feet, and no single vehicle shall exceed an overall length of 35 feet.

2. The gross weight of any single axle of any vehicle or combination of vehicles operated under this permit shall not exceed 18,000 pounds and the gross weight of any tandem axle shall not exceed 32,000 pounds. The gross weight of any group of axles of any vehicle or combination of vehicles, when the distance between the first and last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combination of vehicles shall not exceed the applicable gross weight set forth in the tables of weights on page 3 of this permit.

3. The posting of any highway or structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. All equipment operated under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. plates and certificates and, except as otherwise expressly provided herein, shall conform in all other respects to the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. Notwithstanding anything in this permit to the contrary, the permittee shall be subject to all regulatory powers vested in the Interstate Commerce Commission, and shall be subject also to the regulatory powers vested in the Public Utilities Commissioner, but any such regulatory power, or any order of any Federal or State office, Board, or Commission, having regulatory power over transportation, shall not be construed as permitting the operation of vehicles exceeding in any respect the provisions of this permit in regard to weight or dimensions.

6. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstructions on the highway.

7. Furnished in connection with this permit is an identification certificate for each truck or truck-tractor that is to be operated hereunder. This certificate must be carried at all times in the cab of the truck for which it has been prepared, and shall be available for inspection by any police officer and any representative of the State Highway Commission or the Public Utilities Commissioner.

8. This permit may be cancelled at any time by the State Highway Commission for violation of any of the terms or provisions of this permit, or when, in the judgment of the Highway Commission, public interests require cancellation of this permit. This permit shall remain in effect until cancelled by the State Highway Commission.

Transportation Permit for Continuous Operation of Overweight Vehicles
Group I and II Highways

THIS COPY FOR
P. U. C. OFFICE ☐ ☐ ☐ ☐

HAULING OF LOGS, POLES OR PILING NOT ALLOWED UNDER THIS PERMIT

Subject to each and all of the following terms and conditions permission hereby is granted to the above named permittee to operate over the Group I and Group II highways hereinafter designated and over such other highways as may from time to time be added, the truck or truck-tractor described on page 4 hereof in combination with a full trailer or semi-trailer as the case may be.

This permit is issued under authority of Section 12, Chapter 405, Oregon Laws 1951.

1. The overall length of any combination of vehicles, including any load thereon, operated under this permit shall not exceed 50 feet and no single vehicle shall exceed an overall length of 35 feet.

2. The gross weight of any single axle of any vehicle operated under this permit shall not exceed 18,000 pounds, and the gross weight of any tandem axle of any vehicle shall not exceed 32,000 pounds. The gross weight of any group of axles of any vehicle or combination of vehicles, where the distance between the first and last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combinations of vehicles shall not exceed the applicable gross weight set forth in the tables of weights on page 4 of this permit.

3. The posting of any highway or structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. All equipment operating under authority of this permit shall be properly licensed and shall carry proper Oregon P.U.C. plates and certificates, and, except as otherwise expressly provided herein, shall conform in all other respects to the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. Notwithstanding anything in this permit to the contrary, the permittee shall be subject to all regulatory powers vested in the Interstate Commerce Commission, and shall be subject also to the regulatory powers vested in the Public Utilities Commissioner, but any such regulatory power, or any order of any Federal or State office, Board, or Commission, having regulatory power over transportation, shall not be construed as permitting the operation of vehicles exceeding in any respect the provisions of this permit in regard to weight or dimensions.

6. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstructions on the highway.

7. Furnished in connection with this permit is an identification certificate for each truck or truck-tractor that is to be operated hereunder. This certificate must be carried at all times in the cab of the truck or truck-tractor, as the case may be, for which it has been prepared, and shall be available for inspection by any police officer and representative of the State Highway Commission or the Public Utilities Commissioner.

8. This permit may be cancelled at any time by the State Highway Commission for violation of any of the terms or provisions of this permit, or when, in the judgment of the Highway Commission, public interests require cancellation of this permit. This permit shall remain in effect until cancelled by the State Highway Commission.

TABLES OF PERMISSIBLE WEIGHTS

9. a. The gross weight of any group of axles of any vehicle or combination of vehicles, where the distance between the first and last axles of any group of axles is 18 feet or less, shall not exceed that set forth in the following table:

Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)	Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)
less than 6	32,000	12	36,400
6	32,200	13	37,100
7	32,900	14	43,200
8	33,600	15	44,000
9	34,300	16	44,800
10	35,000	17	45,600
11	35,700	18	46,400

b. The gross weight of any vehicle or combination of vehicles, where the distance between the first and last axles of the vehicle or combination of vehicles is more than 18 feet, shall not exceed that set forth in the following table:

Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)	Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)
18	46,400	36	64,600
19	47,200	37	65,450
20	48,000	38	66,300
21	48,800	39	67,150
22	49,600	40	68,000
23	50,400	41	68,000
24	51,200	42	68,000
25	55,250	43	68,000
26	56,100	44	68,000
27	56,950	45	68,000
28	57,800	46	68,800
29	58,650		
30	59,500		
31	60,350		
32	61,200		
33	62,050		
34	62,900		
35	63,750		

Because the maximum overall length on Group II Highways is limited to 50 feet, the table of weights for axle spacings greater than 46 feet does not apply.

The maximum gross weights in the above tables are for axle spacings measured to the nearest foot. If the axle spacing as actually measured is exactly one-half foot, the gross weight allowed is that given in the table for the next higher spacing.

DESCRIPTION OF HAULING EQUIPMENT

MAKE OF TRUCK OR TRACTOR | MOTOR No. | PUC PASS. or PLATE No. | LICENSE No. | FIRM No.

This permit is issued under authority of Section 12, Chapter 405, Oregon Laws, 1951.

1. The overall length of the combination of vehicles operated under this permit shall not exceed ..... feet, and no single vehicle shall exceed an overall length of 35 feet.

2. The gross weight of any single axle of a vehicle operated under this permit shall not exceed 18,000 pounds, and the gross weight of any tandem axle of a vehicle shall not exceed 32,000 pounds. The gross weight on any group of axles of any vehicle or combination of vehicles, where the distance between the first and the last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combination of vehicles shall not exceed the applicable gross weight set forth in the tables of weights on the reverse side of this permit.

3. The posting of any highway or structure to reduced limits of weight or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. All equipment operating under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. authorization, and shall conform in all other respects with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. Notwithstanding anything in this permit to the contrary, the permittee shall be subject to all regulatory powers vested in the Interstate Commerce Commission, and shall be subject also to the regulatory powers vested in the Public Utilities Commissioner, but any such regulatory power, or any order of any Federal or State office, Board, or Commission having regulatory power over transportation, shall not be construed as permitting the operation of vehicles exceeding in any respect the provisions of this permit in regard to weight or dimensions.

6. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstructions on the highway.

7. This permit must be carried at all times in the cab of the truck or truck-tractor, as the case may be, and shall be available for inspection by any police officer and any representative of the State Highway Commission or the Public Utilities Commissioner.

8. This permit is of a temporary nature only and will expire on ....., provided that any time prior thereto this permit may be cancelled by the State Highway Commission for violation of any of the terms or provisions of this permit, or when, in the judgment of the Highway Commission, public interest requires cancellation of this permit.

Subject to each and all of the following terms and conditions, including those on the reverse side hereof, and pursuant to the provisions of Section 12, Chapter 405, Oregon Laws, 1951, and not otherwise, the above named permittee is hereby authorized to transport on any combination of vehicles herein described, consisting of a truck-tractor with tandem rear axles and a pole trailer with tandem rear axles having an overall length, including any load thereon, not in excess of ..... feet, and an overall wheelbase, measured from the first axle to the last axle of the combination of vehicles, not in excess of ..... feet, over the following state highways

License P. U. C. Permit 3. The equipment to be operated under this permit must be properly licensed in the State of Oregon and each vehicle shall carry proper Oregon P.U.C. Certificate and plate or pass.

Crossing Highway Center Line 4. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond, or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted center stripe, except when overtaking or passing other vehicles or obstructions on the highway.

Entrance and Exit 5. This permit is granted with the express understanding on the part of the permittee that all loads hauled under this permit shall enter and leave State Highways only at the exact points specified herein, and that the limits of the haul shall be confined between said points. Each load shall be brought to a complete stop before entering any highway. No turning movement shall be made at any entrance to or exit from any highway until such movement can be negotiated without endangering other traffic, having due regard for the length, rear overhang, and "tailsweep" of the load.

County Roads City Streets 6. This permit does not authorize operations over county roads or city streets. To operate over a county road a permit must be obtained from the county court of the county having jurisdiction over the road; likewise, to operate over a city street other than a state highway route, a permit must be obtained from the proper city authority.

Posted Load Limits 7. The posting of any highway or structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

Permissible Weights 8. *The gross weight of any single axle of any vehicle or combination of vehicles operated under this permit shall not exceed 18,000 pounds and the gross weight of any tandem axle shall not exceed 32,000 pounds. *The gross weight of any group of axles of any vehicle or combination of vehicles, when the distance between the first and last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combination of vehicles shall not exceed the applicable gross weight set forth in the following tables of vehicle or combination of vehicles, when the distance between the first and last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combination of vehicles shall not exceed the applicable [illegible]

permissible weights.

TABLES OF PERMISSIBLE WEIGHTS

a. The gross weight of any group of axles of any vehicle or combination of vehicles, where the distance between the first and last axles of any group of axles is 18 feet or less, shall not exceed that set forth in the following table:

Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)	Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)
less than 6	32,000	12	36,400
6	32,200	13	37,100
7	32,900	14	43,200
8	33,600	15	44,000
9	34,300	16	44,800
10	35,000	17	45,600
11	35,700	18	46,400

b. The gross weight of any vehicle or combination of vehicles, where the distance between the first and last axles of [illegible] vehicles is more than 18 feet, shall not exceed that set forth in the following table:

Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)	Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)
18	46,400	36	64,600
19	47,200	37	65,450
20	48,000	38	66,300
21	48,800	39	67,150
22	49,600	40	68,000
23	50,400	41	68,000
24	51,200	42	68,000
25	55,250	43	68,800
26	56,100	44	69,600
27	56,950	45	70,400
28	57,800	46	71,200
29	58,650	47	72,000
30	59,500	48	72,800
31	60,350	49	73,600
32	61,200	50	74,400
33	62,050	51	75,200
34	62,900	52 or over	76,000
35	63,750		

The maximum gross weights in the above tables are for axle spacings measured to the nearest foot. If the axle spacing as actually measured is exactly one-half foot, the gross weight allowed is that given in the table for the next higher spacing.

*The weight provisions of this permit are not applicable with respect to any combination of vehicles having less than five (5) axles. Pursuant to Sub-section (2) of Section 17, Chapter 405, Oregon Laws, 1951, with respect to any combination of vehicles consisting of a truck tractor with tandem rear axles and pole trailer with tandem axles the gross weight of any tandem axles may exceed 32,000 pounds but shall not exceed 34,000 pounds; provided, that the total gross weight on both sets of tandem axles does not exceed 66,000 pounds, and provided further, that the gross weight of any group of axles does not exceed that set forth in Paragraph 9a above, and that the gross weight of the combination of vehicles does not exceed the applicable gross weight set forth in Paragraph 9b above, and the weight declared for the combination of vehicles as shown on the Certificate of Declared Weight, issued by the Public Utilities Commissioner.

	☐
	☐

Subject to each and all of the following terms and conditions, including those on the reverse side hereof, and pursuant to the provisions of Section 12, Chapter 405, Oregon Laws, 1951, and not otherwise, the above named permittee is hereby authorized to transport ....., on any combination of vehicles herein described, consisting of a truck-tractor with single rear axle and a pole trailer with single or tandem axle, having an overall length, including any load thereon, not in excess of ..... feet, over the following state highways.

License P. U. C. Permit 3. The equipment to be operated under this permit must be properly licensed in the State of Oregon and each vehicle shall carry proper Oregon P.U.C. Certificate and plate or pass.

Crossing Highway Center Line 4. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond, or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted center stripe, except when overtaking or passing other vehicles or obstructions on the highway.

Entrance and Exit 5. This permit is granted with the express understanding on the part of the permittee that all loads hauled under this permit shall enter and leave State Highways only at the exact points specified herein, and that the limits of the haul shall be confined between said points. Each load shall be brought to a complete stop before entering any highway. No turning movement shall be made at any entrance to or exit from any highway until such movement can be negotiated without endangering other traffic, having due regard for the length, rear overhang, and "tailsweep" of the load.

County Roads City Streets 6. This permit does not authorize operations over county roads or city streets. To operate over a county road a permit must be obtained from the county court of the county having jurisdiction over the road; likewise, to operate over a city street other than a state highway route, a permit must be obtained from the proper city authority.

Posted Load Limits 7. The posting of any highway or structure to reduced limits of weights or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

Permissible Weights 8. *The gross weight of any single axle of any vehicle or combination of vehicles operated under this permit shall not exceed 18,000 pounds and the gross weight of any tandem axle shall not exceed 32,000 pounds. *The gross weight of any group of axles of any vehicle or combination of vehicles, when the distance between the first and last axle of any group of axles is 18 feet or less, and the gross weight of any vehicle or combination of vehicles shall not exceed the applicable maximum [illegible]

Gross weight of any vehicle or combination of vehicles shall not exceed the applicable gross weight set forth in the following tables of permissible weights.

TABLES OF PERMISSIBLE WEIGHTS

a. The gross weight of any group of axles of any vehicle or combination of vehicles, where the distance between the first and last axles of any group of axles is 18 feet or less, shall not exceed that set forth in the following table:

Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)	Distance Between First and Last Axles of Group (feet)	Maximum Gross Weight of Group (pounds)
less than 6	32,000	12	36,400
6	32,200	13	37,100
7	32,900	14	43,200
8	33,600	15	44,000
9	34,300	16	44,800
10	35,000	17	45,600
11	35,700	18	46,400

b. The gross weight of any vehicle or combination of vehicles, where the distance between the first and last axles of the vehicle or combination of vehicles is more than 18 feet, shall not exceed that set forth in the following table, and in no event shall exceed 60,000 pounds:

Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)	Distance Between First and Last Axles of Vehicles or Comb. of Vehicles (feet)	Maximum Gross Weight of Vehicle or Combination of Vehicles (pounds)
18	46,400	25	55,250
19	47,200	26	56,100
20	48,000	27	56,950
21	48,800	28	57,800
22	49,600	29	58,650
23	50,400	30	59,500
24	51,200	30½ or over	60,000

The maximum gross weights in the above tables are for axle spacings measured to the nearest foot. If the axle spacing as actually measured is exactly one-half foot, the gross weight allowed is that given in the table for the next higher spacing.

* The weight provisions of this permit are not applicable with respect to any combination of vehicles having more than four (4) axles. Pursuant to Sub-section (2) of Section 17, Chapter 405, Oregon Laws, 1951, with respect to any combination of vehicles consisting of a truck-tractor with a single rear axle and pole trailer with tandem axles, the gross weight of any single axle may exceed 18,000 pounds, but shall not exceed 19,000 pounds, and the gross weight of any tandem axles may exceed 32,000 pounds, but shall not exceed 36,000 pounds before July 1, 1953, or 34,000 pounds after July 1, 1953; provided, that the total gross weight on the three load-carrying axles does not exceed 55,000 pounds, before July 1, 1953, or 50,000 pounds after July 1, 1953, and provided further, that the gross weight of any group of axles does not exceed that set forth in Paragraph 9a above, and that the gross weight of the combination of vehicles does not exceed the applicable gross weight set forth in Paragraph 9b above. Also, pursuant to Sub-section (2) of Section 17, Chapter 405, Oregon Laws, 1951, with respect to any combination of vehicles consisting of a truck-tractor with a single rear axle and a pole trailer with a single axle, the gross weight of any single axle may exceed 18,000 pounds, but shall not exceed 19,000 pounds; provided that the gross weight on the two load-carrying axles does not exceed 37,000 pounds, and provided also that the gross weight of any group of axles does not exceed that set forth in Paragraph 9a above, and that the gross weight of the combination of vehicles does not exceed the applicable gross weight set forth in Paragraph 9b above. (The gross weight of such a combination will usually be limited to the sum of the permissible gross weight on the two load-carrying axles—37,000 pounds, plus the actual weight of the front axle of the truck-tractor.)

EXHIBIT "K-2"

Minutes of July 16 and 17, 1951

RESOLUTION

WHEREAS, the State Highway Commission is given authority under Section 13, Chapter 405, Oregon Laws 1951, to grant written permits for the movement over state highways of any vehicle, combination of vehicles, articles, property or things, having any gross weight or dimension, or of a description not otherwise permitted, to move over state highways; and

WHEREAS, modern industry has produced and is continuing to produce, and industries are now using equipment, commodities, property and articles of gross weights, types and sizes, which cannot be moved over the highways of this State without special single movement permits; and

WHEREAS, a limited number of sections of state highways are so designed and constructed that vehicles and loads in excess of statutory limits, both as to gross weights and dimensions, may under certain conditions be moved or transported without damaging such sections of highways and with a minimum of hazard to the motoring public; and

WHEREAS, frequent requests are made to the Commission for permission to move vehicles, equipment, commodities and articles, having gross weights and dimensions in excess of that permitted without special single movement permits, and it is desirable and in the best public interest to facilitate the movement of such vehicles, equipment, commodities and articles, in cases where the movement is proposed over sections of highways that will permit such movements and where the hazard to the motoring public is at a minimum; and

WHEREAS, the Commission is of the opinion that it is feasible and practical to delegate to the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Director of Permits and Transportation Permit Supervisor, authority to issue permits under Section 13, Chapter 405, Oregon Laws 1951, and as said section may hereafter be amended, upon certain terms and conditions, and when certain facts are found to exist; and

WHEREAS, the Commission is of the opinion that it is feasible

(cont.)

EXHIBIT "K-2" (cont.)

and practical to delegate to certain personnel of the Commission, hereinafter named, the authority to issue permits under Section 13, Chapter 405, Oregon Laws 1951, and as said section may hereafter be amended, under certain conditions and when certain facts are found to exist; and

WHEREAS, the Commission believes that the best public interest will be served in delegating such authority under terms and conditions hereinafter set forth;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, all members being present and voting affirmatively, acting pursuant to the authority of Section 13, Chapter 405, Oregon Laws 1951, as follows:

1. That no permit shall be issued under the provisions of Section 13, Chapter 405, Oregon Laws 1951, unless and until there is delivered to a proper person herein authorized to issue permits a written application for a permit upon the form attached hereto, marked "Exhibit A", and by this reference made a part hereof.

2. That any permit issued pursuant to the provisions of Section 13, Chapter 405, Oregon Laws 1951, shall be upon the form attached hereto, marked "Exhibit B", and by this reference made a part hereof, that said "Exhibit B" is hereby approved and adopted as to all provisions and regulations contained therein, and is hereby approved and adopted as the form of all permits to be issued under the provisions of Section 13, Chapter 405, Oregon Laws 1951, and may include special provisions that, in the opinion of the person issuing any particular permit, pursuant to the authority herein contained, are necessary and required to effect the movement without damage to highways and highway facilities and to protect the motoring public.

3. That one permit, only, shall be issued to any permittee for the purpose of facilitating any one movement of a particular vehicle, combination of vehicles, article, property or thing, regardless of whether such movement will be in excess of statutory limitations as to width, length, height or any gross weight.

4. That when either the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor or the personnel hereinafter designated in paragraphs 10 and 11, find that the proposed movement is to be made over a highway classified as either a Group I or Group II Highway, as set forth in the

(cont.)

EXHIBIT "K-2" (cont.)

resolution of the Commission dated July 16, 1951, and all amendments and supplements thereto that may hereafter be adopted, they are authorized to issue a permit for such movement, subject to the limitations hereinafter stated, having gross weights not in excess of the following, to-wit:

Maximum gross weight of any vehicle or combination of vehicles, 80,000 pounds

Maximum gross weight of any axle, 19,000 pounds

Maximum gross weight of any tandem axles, 37,000 pounds

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula W = 1000 x (L+40)

Maximum gross weight in pounds of any group of axles spaced 18 feet or less apart is determined by the formula W = 850 x (L+40)

5. The granting of any permit shall be conditioned upon a finding by the State Highway Engineer that the specific sections of highways the specific bridges or other structures, are in a structural condition and of a design that will permit the proposed movement. In the event the State Highway Engineer shall find that a specific section of highway, a specific bridge or other structure, has developed a weakness, or for some other reason such section of highway, bridge or structure, will not safely permit such gross weights or dimensions, he is hereby directed to reduce the maximum gross weights or dimensions, provided in any permit, accordingly.

6. On all highways, other than those set forth as Group I and Group II Highways under the Commission's resolution above referred to, the maximum gross weights to be provided in any permit shall, subject to the maximum gross weights hereinabove set forth in paragraph 4, be based upon the recommendation of the State Highway Engineer. When the State Highway Engineer finds that any gross weight involved in any proposed movement is not more than that set forth in paragraph 4 and that the movement can be made with safety upon highways other than Group

EXHIBIT "K-2" (cont.)

I and Group II Highways, then either the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Director of permits or Transportation Permit Supervisor, and only these officials, are permitted to issue a permit for such movement under Section 13, Chapter 405, Oregon Laws 1951.

7. No permit shall be issued unless and until the permittee shall have furnished to the Director of Permits evidence satisfactory to the Directof of Permits that he has procured and has in full force and effect, covering the proposed movement, a policy or policies of public liability and property damage insurance in any insurance company duly qualified and licensed to do business in the State of Oregon in amounts not less than those hereinafter set forth. Each of said policies shall name as assureds, in addition to the permittee, the State of Oregon, the State Highway Commission and members thereof, and its officers, agents and employees, jointly and severally, and shall contain a provision or endorsement that the naming of the State of Oregon, the State Highway Commission and members thereof, its officers, agents and employees, as assureds, does not waive and will not be a defense against any right or claim whatsoever of either the State of Oregon, the State Highway Commission, or any member thereof, or any officer, agent or employee of the State of Oregon or of the State Highway Commission, to recover for the damage to or destruction of any property owned by or under the control of the State of Oregon or the State Highway Commission, or any member thereof or any officer, agent, or employee of the State of Oregon, or the State Highway Commission, or to recover for any personal injury; or, in lieu of the policy's or policies' naming of the State of Oregon, the State Highway Commission and members thereof, its officers, agents and employees as additional assureds and containing the above provision or endorsement, the permittee may furnish to the State Highway Department evidence satisfactory to the Department that he has procured and has in full force and effect, covering the movement, a policy or policies of public liability and property damage insurance in an insurance company qualified and licensed to do business in the State of Oregon in amounts not less than those hereinafter set forth, wherein there shall be named as assureds, only, the State of Oregon, the State Highway Commission and the members thereof, and its officers, agents and employees, jointly and severally, which said policy or policies of insurance shall be, in addition to the first above-required policy or policies of public liability and property damage insurance, wherein the permittee is named as the assured and

(cont.)

EXHIBIT "K-2" (cont.)

wherein neither the State of Oregon, the State Highway Commission, nor members thereof, nor officers, agents nor employees, are named as assureds. The amounts of said insurance shall be not less than the following:

a. If the permittee is a contract (for hire) hauler, the public liability insurance shall be not less than $50,000 / $100,000, and the property damage insurance shall be not less than $25,000.

b. If the permittee is a private hauler (hauling for himself), other than a rancher or a farmer, the public liability insurance shall be not less than $50,000 / $100,000, and the property damage insurance shall be not less than $25,000.

c. If the permittee is a rancher or farmer transporting his own equipment, the public liability insurance shall be not less than $10,000 / $20,000, and the property damage insurance shall be not less than $10,000.

d. If the permittee is operating log or lumber carriers, or moving vans, the public liability insurance shall be not less than $50,000 / $100,000, and the property damage insurance shall be not less than $25,000.

8. The State Highway Engineer, First Assistant State Highway Engineer, Second State Highway Engineer, Director of Permits or Transportation Permit Supervisor, and only these officials, when, in their opinion, the proposed movement is of such a nature that added financial protection for the State or the public is desirable, shall require the permittee to furnish either indemnity insurance or an indemnity bond, as provided in Section 13, Chapter 405, Oregon Laws 1951, or, in lieu of such bond, a certified check or cash in an amount of the indemnity insurance or penal sum of the bond, as follows:

a. Contract haulers - $10,000

b. Private haulers, other than ranchers or farmers - $10,000

c. Ranchers or farmers - $1,000

EXHIBIT "K-2" (cont.)

d. Log and lumber carriers, and moving vans - - $10,000

The bond shall be in the form attached hereto, marked "Exhibit C", and by this reference made a part hereof.

9. Every permit issued pursuant to Section 13, Chapter 405, Oregon Laws 1951, shall contain a provision that the permit shall be null and void for noncompliance with any of the descriptions, terms or conditions printed or written in the form of permit, and each permit shall contain the provision that no other permit issued pursuant to Chapter 405, Oregon Laws 1951, is valid for the movement of any vehicle while operative pursuant to a permit issued under authority of Section 13, Chapter 405, Oregon Laws 1951.

10. Under the direction of the State Highway Engineer, and subject to the conditions in this resolution set forth, the Resident Engineer and the office man in the Resident Engineer's office at Ontario, Oregon, and the Maintenance Superintendents of the following Districts, and in their absence, District Maintenance office men in the Districts, hereby are authorized to issue permits for movements over Group I and Group II Highways, only, within the limits of their respective districts, and not otherwise:

2-A Astoria	4-B Redmond
2-C Corvallis	4-C Klamath Falls
3-A Eugene	5-A John Day
3-B Coquille	5-B Pendleton
3-C Grants Pass	5-C Baker
4-A The Dalles	5-D Burns

11. Under the direction of the State Highway Engineer, and subject to the conditions in this resolution set forth, Division Engineers, Acting Division Engineers, and in their absence, Assistant Division Engineers, and in their absence, Division Office Engineer, in the following Divisions, hereby are authorized to issue permits for movements over Group I and Group II Highways, only within the limits of their respective Divisions, and not otherwise:

Division 3, Roseburg, Oregon
Division 4, Bend, Oregon
Division 5, LaGrande, Oregon

EXHIBIT "K-2" (cont.)

12. The maximum gross weights and dimensions that may be authorized in permits issued by persons designated in paragraphs 10 and 11 above are as follows:

a. Weight: Maximum weight shall be subject to the limitations set forth in paragraph 4 of this resolution.

b. Overheight: No permit shall be issued in excess of the clearance limits allowable for all structures as shown on "vertical clearance map" of the state highway system; provided, however, that no permit shall be issued for a height in excess of six inches less than the minumum vertical clearance on the route over which a movement is to be made.

c. Overwidth: No permit shall be issued permitting a width in excess of ten feet six inches.

d. Overlength: No permit shall be issued permitting a movement having an overall length of more than sixty feet on Group I Highways, or more than fifty-five feet on Group II Highways.

13. The personnel designated in paragraphs 10 and 11 above hereby are authorized to issue permits, only after having received prior approval from the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Permit Director or Transportation Permit Supervisor, for the movement of vehicles, combinations of vehicles, articles, property or things, having dimensions in excess of those set forth in paragraph 12, above, and for movements extending beyond the boundaries of their respective District or Division.

14. If at any time or under any conditions the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor, any Division Engineer, any Acting Division Engineer, any Assistant Division Engineer, any District Maintenance Superintendent or any Staff Engineer of the Highway Department shall be of the opinion that any movement being made pursuant to any permit issued under authority of Section 13, Chapter 405, Oregon Laws 1951, and this resolution, is unduly hazardous to the motoring public or is not being made according to the terms and conditions of the permit under which the

EXHIBIT "K-2" (cont.)

movement is being made, or cannot be made with safety to highway facilities and structures, they hereby are directed and authorized to forthwith stop such movement and take all necessary, proper and reasonable action to correct the condition and minimize or eliminate the hazard to the motoring public and to state highway facilities and structures.

15. That the persons in this resolution authorized to issue permits shall, in determining whether or not any particular permit should be issued, and in determining any special provisions to be included in such permit, take into consideration the manner in which the permittee has conducted movements under prior permits and the nature and extent of violations, if any, of provisions contained in permits issued to the permittee in the past.

16. That this resolution be entered in the minutes and records of the Commission as of the 16th day of July, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission , and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

Subject to each and all of the following terms and conditions, including those on the reverse side hereof and pursuant to the provisions of Section 13, Chapter 465, Oregon Laws, 1951, and not otherwise, and subject to the condition that this permit shall be null and void for noncompliance with any of the descriptions, terms or conditions printed or written herein, the permittee is hereby authorized to move the commodity or vehicle or combination of vehicles and load of the description, overall size and weight hereinafter stated over state highways named herein from

_____ to _____

Highway route: _____

COMMODITY: _____ OVERALL WIDTH: _____ OVERALL HEIGHT: _____

OVERALL LENGTH: _____ GROSS WEIGHT: _____

DESCRIPTION OF HAULING EQUIPMENT:

MAKE _____ MOTOR No. _____ PUC No. _____ LICENSE No. _____ YEAR No. _____

PERMITTEE SHALL PROVIDE A WARNING TO OTHER HIGHWAY USERS BY THE USE OF FLAGMAN OR FLAGMEN AS CHECKED.

☐ The above described movement shall be preceded by a flagman-escort, approximately 500 feet in advance of the movement. It shall be the duty of the permittee by use of flagman-escort and approved signaling device to flag and warn approaching traffic of danger. Furthermore, escort conveyance shall display the standard Oregon State Highway sign No. OC-25 or one substantially similar bearing the words "WIDE LOAD" in a manner visible to approaching traffic.

☐ The above described movement shall be preceded and followed by flagman-escorts, approximately 500 feet in advance and to the rear of said movement. It shall be the duty of the permittee by use of flagman-escort and approved signaling devices to flag and warn approaching and overtaking traffic of danger; furthermore, escort conveyances shall display standard Oregon State Highway signs No. OC-25 or ones substantially similar, bearing the words "WIDE LOAD" in a manner visible to approaching and overtaking traffic.

☐ No flagman required except as specified in paragraph 6 hereof.

1. The above-described equipment shall be properly licensed in the State of Oregon. Each vehicle shall carry proper Oregon P. U. C. certificate and plate or pass.

2. All wheels must be equipped with pneumatic tires and the tire width of any individual wheel or axle shall be sufficient to provide not less than one inch of tire width (manufacturer's rating) for each 600 pounds of the gross weight on each wheel or axle.

3. The gross weight of any group of axles spaced more than 18 feet apart of any vehicle or combination of vehicles operated under this permit shall not exceed that determined by the formula $W = 1,000 \times (L + 40)$, wherein W equals the gross weight in pounds and L equals the distance in feet between the first and last axles of such group of axles. This provision shall apply to intermediate axle groups as well as to the overall wheelbase of a combination of vehicles.

The gross weight of any group of axles spaced 18 feet or less apart of any vehicle or combination of vehicles operated under this permit shall not exceed that determined by the formula $W = 600 \times (L + 40)$.

In no case shall the gross weight of the vehicle and load or combination of vehicles and load exceed _____ pounds, nor shall the gross weight of any individual axle exceed 20,000 pounds, nor shall the gross weight of any tandem axles spaced less than 6 feet apart exceed 37,000 pounds.

The posting of any highway or structure to reduced limits of weight or dimensions shall be to that extent a modification of the weights or dimensions allowed, under this permit.

4. This permit is intended only to authorize movement of a commodity or vehicle or combination of vehicles and load of excess _____ and in all other respects the equipment and load covered by this permit shall conform to the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code as the same may be modified by the provisions of this permit. This permit must be carried at all times in the cab of the truck or truck-tractor, as the case may be, and shall be available for inspection by any police officer and any representative of the State Highway Commission or the Public Utilities Commissioner.

5. THIS PERMIT IS OF A TEMPORARY NATURE ONLY AND WILL EXPIRE ON _____

SEE REVERSE SIDE FOR ADDITIONAL PROVISIONS.

No other permit issued pursuant to [illegible] Oregon Laws 1951, shall be required for any vehicle while operating [illegible] this permit.

OREGON STATE HIGHWAY COMMISSION

By R. H. BALDOCK, State Highway Engineer

Countersigned by _____

EXHIBIT B

6. Any vehicle with load thereon operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstruction on the highway, or when the roadway width is restricted, in which case the permittee shall furnish a flagman-escort to precede the load and warn approaching traffic, whether or not such flagman-escort is required on the face of this permit.

7. The driver of any vehicle listed in this permit shall, at all times, operate his vehicle at a reasonable speed, giving due consideration to existing conditions. The speed of the movement shall not exceed fifteen (15) miles per hour in any zone covered by advance "CURVE" or "NARROW BRIDGE" signs.

8. Full responsibility for the determination of adequate clearance, both vertical and horizontal, hereby is imposed upon the permittee and the driver of the equipment for any movement involving a load of excessive width or height being transported across any highway bridge or under any overhead structure. When the vertical or horizontal clearance is impaired to the extent that full two-way traffic cannot be maintained, the permittee shall provide a flagman whose duty shall be to prevent approaching vehicles from entering the structure while it is impaired by the movement covered by this permit.

9. Unless otherwise endorsed hereon, movements involving widths in excess of 8 feet, overall heights in excess of 12 feet 6 inches, or overall lengths in excess of 55 feet on truck tractor and semitrailer combinations, or 60 feet on truck and trailer combinations is strictly prohibited, during Saturday afternoons, Sundays, holidays, or between sunset and sunrise. The particular holidays to which this reservation applies are New Years Day, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving Day, and Christmas Day; and whenever any of said holidays fall on a Sunday, then the following Monday shall be deemed the holiday.

10. Permittee shall be held responsible and liable for any and all injury or damage to, or destruction of any highway or any highway structure occasioned by the movement over said highways, and hereby agrees to reimburse the State Highway Commission for the cost or expense of repairing or restoring any highway or highway structure so injured, damaged, or destroyed such reimbursement to be made by the permittee within ten days after being billed for the same by the State Highway Commission. Furthermore, permittee shall furnish the State either a certified check or a surety bond, in an amount to be specified by the Commission, to guarantee the payment of claim for damages, should there be such claim.

11. Permittee shall also be held responsible and liable for any and all injury to persons or damage to property resulting from the movement over and upon said highways, and shall indemnify and hold harmless the State of Oregon, the State Highway Commission, its members, officers, employees, and agents, jointly and severally, from liability in the event that such injury or damage shall occur. In this connection permittee shall furnish to the State Highway Commission evidence of satisfactory public liability and property damage insurance, in amounts as may be required by the Commission, and evidence of satisfactory indemnity insurance or a satisfactory indemnity bond, indemnifying the State of Oregon and its State Highway Commission, its members, officers, employees, and agents, jointly and severally, against liability in the event of any injury or accident occurring by reason of said permittee's operations on a state highway. This permit shall automatically terminate, and be of no force and effect, in the event that any insurance or bond filed under this provision is allowed to lapse.

12. This permit does not authorize operations over county roads or city streets. To operate over a county road a permit must be obtained from the county court having jurisdiction over the road; likewise, to operate over a city street other than a state highway route, a permit must be obtained from the proper city authority.

ADDITIONAL SPECIAL PROVISIONS

OREGON STATE HIGHWAY COMMISSION

OREGON STATE HIGHWAY COMMISSION

SPECIAL TRANSPORTATION PERMIT BOND

KNOW ALL MEN BY THESE PRESENTS: That We, _____

_____, as principal, and _____

_____

as surety, are jointly and severally held and bound unto the State of Oregon in the sum of _____, for the payment of which we jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns firmly by these presents.

THE CONDITION OF THIS BOND IS SUCH

THAT, WHEREAS, the said principal herein is making and will from time to time hereafter make applications to the Oregon State Highway Commission under the provisions of Section 13, Chapter 405, Oregon Laws 1951, and as said section may hereafter be amended, for permission to transport over, upon or across a State Highway the following described property, to wit: oversize and/or overweight loads or equipment, and

WHEREAS, said applications from time to time are granted by the Oregon State Highway Commission and licenses or permits are issued, subject to and upon certain conditions, stipulations, rules, regulations and provisions specifically set forth in said permits and specific reference is now made to each and all of said terms, provisions, specifications, rules, regulations and requirements set out, declared or provided in either or any permits now or hereafter issued;

NOW, THEREFORE, if the principal herein shall faithfully and truly observe each of the terms, provisions, conditions, stipulations, rules regulations and requirements of each of said permits; shall indemnify and save harmless the State of Oregon, the State Highway Commission and members thereof, its officers, agents or employees from any direct or indirect damage or injury which may be suffered by them or any of them, or from claims against them or any of them by reason of any injury to persons or property during the operation of said principal under either or any of said permits; and shall indemnify and make whole the State for any injury or damage to said highway, or any part thereof, resulting from the operations of said principal, and shall in all respects faithfully keep and observe all of said requirements, conditions, provisions, rules, regulations or stipulations, then this obligation is to be void, otherwise to remain in full force and effect.

EXHIBIT e

18461

Unless definite expiration date is specified hereon, this bond shall continue in force until 30 days' written notice is given to the Oregon State Highway Commission at Salem, Oregon, whereupon this bond may be cancelled and the surety shall be relieved of all liability and obligation upon any permit issued after the expiration of the 30-day period and not otherwise.

_____

Portland, Oregon
August 3, 1951

Pursuant to adjournment of its meeting held on July 17, 1951, the State Highway Commission met at 9:00 o'clock A.M., Standard Oregon Time, in the Green Room of the Imperial Hotel at Portland, Oregon. Among others, the following named persons were present:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
J. M. Devers, Chief Counsel
C. W. Enfield, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
M. H. Hawke, Auditor
H. B. Glaisyer, Secretary

Bids as follows for the furnishing and installing traffic signals in Salem, Marion County, were opened and read aloud by the Secretary, pursuant to previously published notice:

Westates Electrical Construction Company, Salem	$26,812.00
Mill Electric Company, Salem	29,889.00
Electric Corporation, Salem	36,184.00
City Electric, Incorporated, Salem	37,179.80

There followed a general discussion of the proposals received and, as a result thereof, the Commission rejected all of them as being too high and instructed the Engineer to have the work performed by State forces.

The Commission considered the question of proposed sale of $15,000,000.00 of State Highway Bonds to mature in principal instalments of one-twentieth of the amount of the issue each year, beginning with the first year following the year of issue, to provide funds with which to defray the costs of location, relocation, improvement, construction and reconstruction of state highways and bridges. After full discussion of the matter, Commissioner Reynolds moved, and Commissioner McIver seconded, the adoption of the following resolution, which motion, upon being put to vote by the Chairman, received the unanimous vote of the Commission and was by the Chairman declared carried, to wit:

RESOLUTION

BE IT RESOLVED BY THE STATE HIGHWAY COMMISSION OF THE STATE OF OREGON that, of the bonds authorized by Article XI, Section 7 of the Constitution of the State of Oregon, and further authorized by Chapter 491, Oregon Laws 1951, $15,000,000.00 par value of such bonds be issued and sold on or before October 15, 1951, in order to carry out the purposes of the said article of the constitution with respect to the construction of permanent roads, and the purposes of the said law; and

BE IT FURTHER RESOLVED that the principal of and the interest upon all of the bonds issued pursuant to the provisions of this resolution be paid upon the due dates thereof at the fiscal agency of the State of Oregon in the City and State of New York, and that the bonds be known and designated as **OREGON STATE HIGHWAY BONDS, SERIES** 1951, and be numbered consecutively from one (1) to fifteen thousand (15,000) inclusive; and

BE IT FURTHER RESOLVED that the said bonds be dated October 1, 1951, be issued to mature serially in principal instalments of one-twentieth of the amount of the issue each successive year hereafter, beginning with the date of October 1, 1952, and ending with the date of October 1, 1971; and

BE IT FURTHER RESOLVED that the State Highway Commission furnish to the original purchaser or purchasers of such bonds, without cost to them, the written opinion of Messrs. Winfree, McCulloch, Shuler & Sayre, Attorneys at Law, of Portland, Oregon, certifying to the validity and legality of the said bonds; and

BE IT FURTHER RESOLVED that a complete transcript of proceedings pertaining to the said bond issue and to the sale thereof and pertaining to the adoption by the Forty-Sixth Legislative Assembly of the State of Oregon, of Chapter 491, Oregon Laws 1951, be submitted to the said bond attorneys for their examination in connection with their certification as to the validity and legality of such bonds; and

BE IT FURTHER RESOLVED that the said bonds be of uniform tenor and be in substantially the following form, prepared by the Attorney General of the State of Oregon:

18464

UNITED STATES OF AMERICA
STATE OF OREGON
OREGON STATE HIGHWAY BOND
SERIES 1951

KNOW ALL MEN BY THESE PRESENTS, That the STATE OF OREGON acknowledges itself to owe and for value received hereby promises to pay to bearer the principal sum of

ONE THOUSAND DOLLARS

on the first day of October, 19__, with interest on said sum from the date hereof until paid, at the rate of _____ - ___ percent (___%) per annum payable semiannually on the first days of April and October of each year as evidenced by, and upon the presentation and surrender of, the interest coupons hereto annexed as they severally become due. Both the principal of and the interest upon this bond are payable at the fiscal agency of the State of Oregon in the City and State of New York in any coin or currency which at the time of payment is legal tender for the payment of public and private debts within the United States of America.

This bond is issued by the State of Oregon under and by virtue of, and in all respects in full and strict compliance with, the constitution and laws of the State of Oregon, and in particular Article XI, Section 7, of the said constitution, and Chapter 491, Oregon Laws 1951.

The faith and credit of the State of Oregon hereby are irrevocably pledged to the punctual payment of the interest on and the principal of this bond as the same become due and payable as aforesaid.

IN TESTIMONY WHEREOF, the STATE OF OREGON has caused this bond to be signed by the Governor and by the Secretary of State with their facsimile signatures, and by the State Treasurer, and sealed with the seal of the State of Oregon, and has caused the annexed interest coupons to be executed with the facsimile signatures of its said officers, all as of the first day of October, 1951.

and

BE IT FURTHER RESOLVED, that bids for said bonds shall be received on September 12, 1951, at the hour of 9 o'clock A. M. Standard Oregon Time, at the meeting of the Commission held at the Green Room in the Imperial Hotel in Portland, Oregon. The Secretary of the Commission is directed to cause a notice of sale of the said bonds to be published in one issue of the Daily Bond Buyer, a financial newspaper printed and published in the City and State of New York, and in one issue of The Daily Journal of Commerce, a daily newspaper of general circulation printed and published in the City of Portland, Multnomah County, Oregon, at least ten (10) days prior to the date of the proposed sale of said bonds; and

BE IT FURTHER RESOLVED that the said notice of sale specify that the bonds offered for sale shall bear interest at a coupon rate or rates of not exceeding three percent (3%) per annum, and shall be sold at an effective interest rate, computed on a simple interest basis, of not to exceed two and one-fourth percent ($2\frac{1}{4}\%$) per annum payable semiannually; that each bidder submitting a bid for the bonds shall include therewith as a good faith deposit a certified check in the sum of $250,000.00 drawn upon a bank having a capital and surplus of not less than $10,000,000.00 and that the State Highway Commission reserves the right to reject any or all bids for the said bonds; and

BE IT FURTHER RESOLVED that the Secretary of the Commission procure from the State Treasurer of the State of Oregon, a list of bond dealers who ordinarily submit bids for state bond issues and that he mail to each of said dealers, as soon as possible after the said notice is so published, an exact copy of the notice of sale of said bonds; and

BE IT FURTHER RESOLVED that the said bonds be executed with the facsimile signatures of the Governor and of the Secretary of State and with the autograph signature of the State Treasurer, and that the interest coupons annexed thereto be executed with the facsimile signatures of all of said officers; and

BE IT FURTHER RESOLVED that the State Treasurer be, and he hereby is, authorized to register said bonds upon the records in his office and to deliver said bonds to the purchaser thereof after the date of sale, execution, and sealing thereof, upon the payment of the principal thereof and the accrued interest thereon, if any; and

BE IT FURTHER RESOLVED that the State Highway Commission obtain bids for the printing of the said bonds and that it award the job of printing them to the lowest responsible bidder therefor, subject to the provisions of Section 98-301, O. C. L. A.

The State Parks Superintendent reported on the following park matters.

(1) Acquisition of Wiggins property at Wallowa Lake as an addition to the present park: The Parks Superintendent advised that negotiations with Mrs. Wiggins so far have been unsuccessful, but that the Right of Way Engineer is making an appraisal of the property with the intention of making her a definite offer later. In reply to an inquiry from Commissioner Reynolds, the Right of Way Engineer advised that there are about thirty-four acres in the tract desired from Mrs. Wiggins and that the appraisal probably will show a value of between $18,000 and $20,000. The Parks Superintendent advised that it is his plan to develop the property immediately because the area is badly needed for overnight camping purposes. As a result of the discussion, motion was made by Commissioner Reynolds that negotiations with Mrs Wiggins be continued in an attempt to purchase the property without resorting to condemnation. The motion was seconded by Commissioner McIver and carried by the unanimous vote of the Commission.

Application of Universal Picture Corporation for permission to utilize an area at Rooster Rock on the Upper Columbia River Highway in connection with its production of a historical picture film relating to this area: The Parks Superintendent advised that the request was presented by the Portland Chamber of Commerce in behalf of the corporation, also, that the property will be used only for a very few days, and that such use will not interfere at all with the use of the highway. He recommended approval of the request. The Commission approved the recommendation unanimously on the condition that the site selected meets with approval of the Engineer and that all expense involved shall be paid by the corporation.

Report on employment in State Parks of boys from the Woodburn State Boys Training School: The Parks Superintendent advised that, pursuant to instructions from the Commission, he investigated the responsibility of the State Highway Commission should any of the boys be injured while employed in one of the State Parks and that he has ascertained from the State Industrial Accident Commission that the boys who are committed to the school are wards of the State and do not qualify as workmen within the meaning of the compensation law and, for that reason, cannot be protected by that department. The school, he says, assumes all responsibility of the boys, and the work that the boys are doing is considered a part of their training, so the Highway Commission will have no responsibility in the matter. The Commission approved the report. In this connection, the Parks Superintendent suggested that the boys be compensated for their services. He recommended $1.00 per day, which would be paid directly to the school for distribution to the boys inasmuch as the boys are not in the employment of the State Highway Department, and the Commission's agreement is with the Superintendent of the school. It was the feeling of the Commission that the service rendered by the boys should be recognized and, accordingly, the Commission voted unanimously to pay the school $1.00 per day for each boy that is engaged in State Parks work.

The Right of Way Engineer presented for the Commission's consideration options he has obtained for acquisition of real property that is needed for State highway purposes. After careful consideration, the Commission approved the options and authorized purchase of the properties at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution, by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

Commissioner McIver brought up for discussion acquisition of property from the Lloyd Corporation that is needed as right of way in connection with the T. H. Banfield Expressway, Portland. A status report on this matter was rendered by the Right of Way Engineer. As a result of discussion, the Commission instructed the Right of Way Engineer to render a complete report on the subject at its meeting in September; in any event, not later than the October meeting of the Commission.

The Assistant Counsel, Mr. C. W. Enfield, requested authority to condemn certain parcels of real property that are needed in connection with several highway improvements and which cannot be obtained by negotiation. He presented a list of the properties, together with the offer that he recommended in condemnation for each parcel, as follows:

			Recommended Offer
HOOD RIVER-MOSIER SECTION OF THE COLUMBIA RIVER HIGHWAY			
R 17634	James C. Fulton, et al. Right of Way, Rock Quarry & Haul Rd. (Wasco) 15.09 acres of land Area taken, plus damage	$ 8,000.00	$ 8,000.00
BUREAU OF PUBLIC ROADS PROJECT, TILLER-TRAIL HIGHWAY			
R 17810	L. E. Gilliam et al. Quarry and Stockpile Site (Douglas) 1.9 acres quarry site at $100.00 2.8 acres stockpile site at $150.00 Total	190.00 420.00 $610.00	625.00
HAYES HILL SECTION OF THE REDWOOD HIGHWAY			
R 17386	Delorsa Livina Casper Beck, et al. Right of Way (Josephine) .50 acre at $500.00 1.80 acres at $150.00	250.00 270.00 $520.00	550.00
LADD CANYON SECTION OF THE OLD OREGON TRAIL			
R 15714A	Heber P. Glenn, et al. Cinder Pit (Union) 16.63 acres at $400.00	6,652.00	6,750.00

As a result of discussion, the Commission unanimously approved the request and the recommended offers. The attached resolutions relative thereto marked EXHIBITS "B-1", "B-2", and "B-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission by unanimous vote.

By way of explanation of the first of the above-mentioned condemnation items, viz: R17634, James C. Fulton et al, the Right of Way Engineer recalled that the Commission at the previous meeting authorized condemnation to acquire 15.09 acres of Mr. Fulton's land and an offer of $1500.00 in connection therewith which offer was based on an appraisal that did not consider that a rock crusher would be operated on the site. Mr. Fulton, he said, strenuously objected to the crusher operation because

of the dust nuisance that would be created. Accordingly, the property was reappraised from that standpoint and a value of $7500 to $8000 established. The Right of Way Engineer advised that Mr. Fulton owns about 34 acres of land, which he thought could be purchased for about $20,000. As a result of discussion, the Commission authorized the Right of Way Engineer to try to buy Mr. Fulton's entire tract for such sum. In the event that he is unable to do so, the Chief Counsel then is to proceed with condemnation of the fifteen acres that the State needs, on the basis of an offer of $8,000. The Commission ordered immediate action on this matter.

The Right of Way Engineer requested confirmation of the following sales of miscellaneous properties which have been made since the last meeting of the Commission:

File No.	Location	Sales Price	Purchaser	Items & Remarks
16128	Ladd Canyon-North Unit Old Oregon Trail	$ 25.00	Walter Peebler, Rte. 2 LaGrande	1½ tons hay
16857	Banfield Expressway, Unit #5 Portland	100.00	John H. Matney, 9404 NE Skidmore, Portland	This is an extremely old house on center line of Fairview over-crossing section. House to be removed in two weeks.
15268	Judkins Point-Goshen Section Pacific Hwy.	50.00	George Neuner Salem	Homart water pump with 15-gallon tank
7174	Grants Pass-Green Creek Sect. Pacific Highway	40.00	Mary E. Gray, Wolf Creek	1 bath-tub removed from building used as construction office
15375	Canyonville-Johns Sect. Pacific Hwy.	12.50	Fred Beck 1351 E Hoyt Salem	1 gas steam table-offered this for over a year- only bid on same
14930	Delmar-Bay Park Sect. Oregon Coast Hwy.	8.50	Fred Beck 1351 E Hoyt Salem	1 meat cutter. This cutter went thru a fire & was received by State in bldg. after fire. No other offer received.

File No.	Location	Sales Price	Purchaser	Items & Remarks
8942	Quinton Section Columbia River Highway	$ 60.00	Hogg Bros. Salem	Gas ice box- Asked four firms to bid & only Hogg Bros. was interested- no other offers received.
14930	Delmar-Bay Park Sect. Oregon Coast Hwy.	100.00	R. L. Byrum 230 Hrubetz Road Salem	1 deep freeze- 3 bids received- went thru fire $ 52.00 - Fred Beck 80.00 - Hogg Bros 100.00 - R. L. Byrum
9734 9735	South 6th Street Klamath Falls	3,000.00	George H. Cox, 1902 Oregon Ave. Klamath Falls	These properties have been offered for sale twice- best bid was $1,000.00. Buildings are an extreme fire hazard and are empty and should be removed.

The sales were confirmed by the Commission by unanimous vote.

The Chief Counsel brought up for discussion the matter of the State's cooperating in the moving of a building from property which was acquired in connection with the purchase of right of way for the Dundee-Dayton Junction Section of the Pacific Highway West. He recalled that the Commission acquired a parcel of land from John H. Winn et al, on which was located a building owned by School District No. 3 of Yamhill County. The building, he said, was not purchased but had to be either moved or remodeled, which was estimated to cost approximately $3,500, and no consideration was allowed for such purpose in the original transaction. The Unity Center Club, which acquired the building, he said, has agreed to move it if the Highway Commission will contribute $1,500 toward the expense. He recommended approval of the arrangement. The Commission unanimously approved the expenditure.

The Right of Way Engineer brought to the Commission's attention a request from John A. Martin for a change in access from his property to the Oregon Coast Highway between Cedar Point and Coquille, Coos County. He said that this matter has been investigated and there are no objections to the change wherefor he recommended approval of the request. The Commission approved the recommendation unanimously. (An "Indenture of Access" was signed by the Commission later.)

The Commission discussed and approved leasing to the Westfall Engineering Co. property known as the Vanguard property located near Halsey Street and 134th Avenue, Portland, for a consideration of $480 per month for a 6-months' period, with right of renewal subject to the Commission's approval. (The Lease was signed later.)

The Commission also discussed and approved an agreement with the O. W. R. & N. Co. and the Union Pacific Railroad Company covering an easement for a roadway on the east bank of the Sandy River under the railroad company's trestle at this point. (The Agreement was signed later.)

The Chief Counsel brought to the Commission's attention two agreements with the Southern Pacific Company covering the Goshen undercrossing of the Pacific Highway at Goshen, Lane County. He advised that the agreements have been prepared in conformity with the Commission's requirements and he recommended approval of the same. The Commission approved the recommendation unanimously. (The Agreements were signed later.)

The Commission discussed a request from Al Pearce Lumber Company, Coos Bay, for access to the Oregon Coast Highway opposite their plant, which is between Coos Bay and Coquille. The Right of Way Engineer exhibited a map showing the location, and explained details. It appears that in acquiring right of way for the highway at this location right of access was not obtained on the railroad side of the highway, and that the railroad company now has granted the company a permit to cross its tracks. The question arose whether or not there is sufficient room between the railroad and the highway for such access and whether or not, were the access to the highway granted, an undesirable precedent would be established. It also appears that the Al Pearce Lumber Company has a major investment at this location, anticipating no difficulty in securing access to the highway. In the discussion, it was pointed out that the Commission granted another party access to the highway under similar conditions about a half mile northerly from the Pearce land, so no precedent would be established. Also that industrial sites are very few in this vicinity and there appears to be no justification to refuse the request in this instance. The Engineer advised that there is plenty of room between the railroad and the highway to provide access by bringing the access road into the highway at at angle. The Chief Counsel gave as his opinion that the request is such that the Commission can grant it if it wishes to. As a result of the discussion, the Commission unanimously granted the access as requested.

The Chief Counsel recalled that the Commission at the previous meeting adopted a resolution authorizing the Secretary to sign claim vouchers on behalf of the Commission. Since then, he said, the question has arisen whether or not such authority extends to the

signing of vouchers to contractors for payment of contract work. He suggested, in view thereof, the adoption of a supplemental resolution clarifying this question, and he presented a form of resolution covering the matter. After discussion, upon motion of Commissioner Reynolds, duly seconded by Commissioner McIver, and unanimously carried, the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was adopted by the Commission.

The Chief Counsel rendered a status report on the settlement of the Commission's claim against C. J. Montag & Sons, arising out of a fire which occurred in the Mack Truck building in Portland, which this contractor was using in connection with State Highway construction work at this location. He advised that Mr. Montag has indicated his willingness to pay the sum of $22,500, which the Commission, at the previous meeting, agreed to accept. He presented a form of release for approval and execution by the Commission and for delivery to Mr. Montag as soon as he pays the agreed upon amount of $22,500. The Commission approved and signed the form of release, with the understanding that it is not to be given to Mr. Montag until the sum of $22,500 has been received.

The Chief Counsel brought up for discussion a controversy with Mr. Elling Halvorson et al arising out of acquisition of right of way needed for improvement of US99E between Lana Avenue and Hayesville School, north of Salem. He advised that three parcels of real property are involved and that Mr Halvorson has been assured of access to the highway from his property at certain locations, but he is not satisfied, and he has declared his objections to waiving any of his rights of access to the highway, particularly in view of the fact that he plans to plat his property and to open up certain streets which may connect with the highway; he particularly wants access to the highway from all of the streets that he lays out if they are approved by the authorities who are legally responsible for approving of the plats. The State Highway Engineer advised that he has inspected the premises and, in his estimation, there will be no objection to allowing one street access about 50 feet wide, because there is such a long way between existing street connections, and he recommended approval of one street connection only. The Commission approved the recommendation, and so ordered. The attached resolution authorizing the Chief Counsel to condemn Mr. Halvorson's property for right of way purposes if necessary, which resolution is marked EXHIBIT "D", and by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The Chief Counsel brought up for discussion a proposed settlement with Messrs. Deal and Christie of a lawsuit that is pending concerning right of way on US101 at Beverly Beach, Lincoln County. He said that this case dates back to 1946 when the State took possession of the property. At that time, he said, the State offered to pay $4,000 for three parcels of land that were required, but this was refused and the case went to court, with the result that the defendants secured a

jury verdict of $7,500 plus Attorneys fees amounting to $1,000, and an additional sum of $2,500, which represents 6% interest on the settlement subsequent to filing of the case, making a total of approximately $10,900. He said that Messrs. Deal and Christie are willing to settle for $9,500, or they will appeal if settlement is not made on such basis, in which case they are going to ask for an additional amount for their land and for attorneys' fees. He pointed out that appraisal of the property ranged from $4,000 to $16,000, so the Commission may expect to pay for the property any amount between such limits. As a result of discussion, the Commission authorized settlement of the case for a maximum of $9,500 and instructed the Chief Counsel to pay such sum only in the event he is unable to settle for a lesser amount.

The Engineer reported the results of a reconnaissance survey of the Valley Section of the Alicel-Cove Market Road, Union County, improvement of which has been requested by the Union County Court. The Commission took no action on this matter other than to state its intentions to keep this project in mind in programming future highway funds.

The Engineer also reported the reasons why engineering expense in connection with projects completed during the first six-months' period of 1951 are in excess of estimated amounts. The Commission deferred action on the matter.

A letter was presented from Mr. E. A. Hollinshead, Jr., Portland, requesting reconsideration of the Commission's action on his previous request for improvement of facilities to accommodate and safeguard traffic on the Columbia River Highway near Troutdale. The Engineer recalled that his report on Mr. Hollinshead's original request was rendered to the Commission on May 24, 1951, when the Commission decided not to do the things requested by Mr. Hollinshead. Further investigations, he said, do not indicate the need for any additional signing or lighting, and he recommended adherence to the Commission's previous decision. The Commission approved the recommendation.

The Commission discussed and unanimously approved the assignment given by the Acme Construction Co. to Porter W. Yett of its title, right and interest in and to State Highway Contract No. 3392, awarded to Acme Construction Co. for paving on the Cape Arago-Empire State Secondary Highway in the town of Empire, Coos County.

The Commission discussed a request from the County Court of Yamhill County that the county road leading to Grand Island be designated a Federal Aid Secondary Highway, and that this road be improved, including a new bridge across an arm of the Willamette River. The Engineer estimated the cost of the bridge construction at $200,000 and the cost to improve the roadway, which, he said, is 1.2 miles in length, at $25,000. He recommended that the

request be denied, owing to the large amount of unimproved Federal Aid Secondary highway mileage in this county, and also because the road carries very little traffic. The Commission approved the recommendation.

The Engineer brought up for discussion the construction of a median island on the Sunset Highway westerly from the Vista Avenue Bridge in the City of Portland. He recalled that the Commission at its meeting on September 28, 1950, authorized an expenditure of $2,300 of State Highway funds in cooperation with a like amount of city funds for such purpose, but the work was not done under the original plan because of objections from some of the property owners, who alleged that the placement of the island would prevent access to their properties located adjacent to Canyon Road. The city was advised, he said, that, if the work was not stopped at once, an injunction would be obtained. In an effort to settle the matter, he said, a conference was held with some of the city officials and, as a result, it was decided to construct the traffic median as planned, and to provide also a turn-around near the entrance to Washington Park in order to eliminate the necessity for any breaks in the median strip, and to give the property owners the access that they needed. The additional work, he said, cost $16,568.88, of which sum the city is asking the State to pay 50%, or $8,284.44. He recommended approval of the additional expenditure. The Commission approved the recommendation unanimously.

The Engineer requested authority to construct a reinforced concrete paint shop on the highway shop premises in Salem. He said that the building will be used, not only in connection with painting of signs, but also with painting of equipment, and that if the painting work can be confined in a building of its own, a reduction of about $890 can be realized in the annual premium paid for insurance coverage. He estimated the cost of the building at $52,000, and advised that the sum is provided in the 1951 budget. The Commission unanimously approved the request and authorized the Engineer to complete the plans and advertise the project for bids

The Commission unanimously approved a request from the Engineer for an increase of $29,000 in the project authorization for construction of the Squallyhook-Quinton Section of the Columbia River Highway. The Engineer advised that this project cost more than was originally anticipated, due to slides in blow-sand areas, resulting in an overrun in excavation quantities, and due to the fact that sprinkling was required in order to allay the dust.

The Engineer brought up for discussion, a request from the Bureau of Public Roads that the State of Oregon join with other states in conducting a nationwide motor vehicle use study in order to obtain convincing evidence for the need of highway transportation and to support requests for the allocation of critical material for highway construction. The estimated cost of the survey, he said, is $9,000, which will be paid with Federal Aid funds that are available in the Commission's planning survey budget. He recommended approval of the project. The Commission approved the recommendation.

The Engineer reported that the conditions governing the award of the following contracts for which bids were received by the Commission at its meeting on July 16 and 17, 1951 have been satisfied and that contract forms have been prepared and forwarded to the contractors for acceptance and execution:

(1) Paving project in the City of Wallowa, Wallowa County. Contract No. 3556 awarded to H. J. and H. W. Miller, Baker, low bidder;

(2) Paving project on East First Street South in the City of Ontario. Contract No. 3357, awarded to Babler & Rogers, Portland, low bidder;

(3) Grading and bituminous macadam surfacing on Coe Avenue in the City of Stanfield, Umatilla County. Contract No. 3559, awarded to Russell Olson Construction Co., Inc., Pendleton, low bidder;

(4) Grading and construction of grade separation structure on Big Creek Section of Columbia River Highway, Clatsop County. Contract No 3558, awarded to J. N. Conly, Portland, low bidder; and

(5) Grading, paving and construction of a bridge on the Salisbury-Baker Section of the Baker-Unity Highway, Baker County. Contract No. 3560, awarded to Newport Construction Co., Portland, low bidder.

The Commission unanimously approved the report and thereupon confirmed the contract awards.

The Engineer reported completion of surveys for the following highway sections:

(1) Bay City-Kilchis River Section of the Oregon Coast Highway, Tillamook County.

(2) LaPine-Willamette Highway Junction Section of The Dalles-California Hwy., in Deschutes and Klamath Counties; and

(3) State Street South Section of the Salem By-Pass on US99E, Marion County.

The Engineer exhibited maps showing the proposed location of each of these sections and explained details. He asked the Commission to approve the surveys and to authorize the Right of Way Department to negotiate options for rights of way as may be necessary. After careful consideration, the Commission approved each of the

surveys unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered formal adoption of the survey made by the Bureau of Public Roads of a route and location of the Hayes Hill Section of the Redwood Highway in Josephine County, construction of which on revised alignment is scheduled for the not distant future. The Chief Counsel advised that formal adoption of the survey by the Commission is essential in connection with condemnation actions to obtain right of way that is needed for the improvement. The Engineer advised that he has examined the Engineering data furnished by the Bureau of Public Roads in connection with this survey and that they are satisfactory from an engineering standpoint. He exhibited a map showing the revised location and recommended approval of the survey by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

(1) Stockton & Son, Contract No. 3413 for construction of a building at Timberline Junction on the Mt. Hood Highway, Clackamas County, requested an extension of time of 30 days from June 30 to July 30, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to heavy snows during the past winter, which prevented the painting of the metal roof of the building. The Engineer advised that the reason given by the contractor for failure to complete the project within the time limit specified in the contract is correct. He recommended that the request be granted without penalty. The Commission approved the recommendation.

(2) Kuckenberg Construction Co., Contract No. 3094, for grading, paving and structures on the Front Avenue (Steel Bridge-Ankeny Street) Section of the Pacific Highway West, Portland, Multnomah County, requested an additional extension of time of 17 days from June 30, 1951 to July 17, 1951, within which to complete this job. They gave no particular reason for failure to complete the project within the previously extended time limit, but advised that all work was completed by June 30, 1951 with the exception of a few minor clean-up items. The Engineer advised that the extension of time was required to make tests of some water supply pipes and to straighten some anchor bolts for light poles. The State, he said, has incurred no additional expense for engineering supervision,

nor has the general public been inconvenienced by the delay. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE).

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that contracts, Nos. 3009, 3094, 3365, 3369, 3405, 3408, 3427, 3432, 3436, 3463, 3482, 3490, and 3523 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and approved a permit agreement with the St. Helens Pulp and Paper Co., extending until October 31, 1952, a previous agreement covering use by the company of an overhead crossing on the Lower Columbia River Highway at M.P. 89.51 in Clatsop County. (The Agreement was signed later in the session.)

The Engineer reported a request from Homer Moxley, Foster, Oregon to purchase the merchantable timber on a quarry site, consisting of 7.4 acres situate on the south side of Santiam Highway about two miles west of Cascadia. He advised that most of the timber on this tract was logged off when the quarry was operating several years ago, and that the few remaining trees are of no benefit to the appearance to the highway, according to the Landscape Engineer, Mr. Mark Astrup. Mr. Moxley, he said, is conducting logging operations in this vicinity, and has offered to pay $10.00 per MFBM for the timber standing thereon, if he can remove it before completing his other operations. He mentioned that there is a total of 30 MFBM of timber on the tract and that in the opinion of the Forest Service the logs are worth on an average, $8.00 per M. He recommended that the timber be advertised for sale to the high bidder in the usual manner. The Commission approved the recommendation.

The Commission discussed a proposed agreement with Douglas County providing for the joint usage of property and buildings situate in Section 24, Township 27S, Range 6 W., W.M., Douglas County, in connection with the installation and operation of radio equipment. It appears that the county has constructed a radio building and a standby power plant on the property and has provided other facilities for the installation and operation of a base station for frequency modulated radio network on the property and, being advised of the State's plan to establish such a station in that area, is desirous of sharing its facilities with the State. It also appears that, according to an arrangement with the county, the State is to pay the county $185 annually for the use of the premises and the facilities, including an access road, which rental also includes full payment for all electrical energy consumed by the State. The Engineer recommended approval of the arrangement on a 10-year basis, starting July 10, 1951. The Commission approved the recommendation unanimously. (An Agreement covering the matter was signed by the Commission later in the session.)

The Engineer reported a request from the State Police Department for establishment of cross walks and for a reduction of the presently established 45-mile per hour speed limit on the McKenzie Highway, east of the City of Springfield. He advised that the present 45-mile per hour speed limit was designated in 1949, and, since that time, vehicular traffic has materially increased and the section now carries an average daily traffic of 5,050 vehicles. Culture along the roadside, he said, has also developed rapidly and these two factors have resulted in an increase in the accident rate from 4.16 per million vehicle miles in 1948 to 15 accidents per million vehicle miles at the present time. He recommended that the existing 45-mile per hour speed limit be reduced to 35 miles per hour between M.P. 3.47 and M.P. 5.17. Also that signs bearing the wording "Look Out for Pedestrians Ahead" be installed at M.P. 3.45 for the benefit of east bound traffic, and at M.P. 3.76 for west bound traffic. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed an agreement with Douglas County providing for the abandonment of a portion of the Turkey Hill-Chenoweth Park Section of the Pacific Highway (old route), Douglas County. The Engineer advised that the section referred to is a portion of the old route of the Pacific Highway that no longer is of value for state highway purposes, since the highway has been realigned. He exhibited a map showing the section and recommended that the area be abandoned in favor of Douglas County. The Commission approved the recommendation unanimously. (An Agreement covering the matter was signed by the Commission later in the session.)

The Commission also discussed, and, upon recommendation of the Engineer, approved an agreement with Baker County and the City of Baker providing for the disposal of portions of the Baker-Unity Highway (old route) between Salisbury and Baker when the proposed improvement of that section has been completed. (The Agreement was signed later in the session.)

The Commission had under discussion the disposal of a portion of the old route of the Wasco-Heppner State Secondary Highway No. 300 in Gilliam County, which no longer is of value for State Highway purposes because of the realignment of the highway at this point. The Commission decided to surrender all jurisdiction of the old road to Gilliam County to be maintained hereafter as a county road for public use pursuant to previous agreement with the county. The attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission by unanimous vote.

The Engineer requested authority to attend a meeting of the Washington State Good Roads Association in Olympia, Washington on Friday, September 14, 1951. He estimated his expense would not exceed $36.50. The Commission approved the request. The Engineer also requested authority for Mr. R. C. Blensly, Assistant Planning Survey Engineer, to attend a meeting of the Highway Planning Survey Conference in San Francisco on September 20-21, 1951. He estimated the out-of-state expense at $70. The Commission approved the request.

The Commission had under discussion approval of uniform safety standards for operation of log truck and trailer combinations, as compiled by representatives of the State Highway Department, Secretary of State, Public Utilities Commission, State Industrial Accident Commission, and the Department of State Police. The Engineer advised that these standards have been officially adopted by the Industrial Accident Commission, and that enforcement of the same, except as to safety chains, will be done by the Accident Commission through its field inspectors, and that the standards which apply to safety chains will be enforced by Oregon State Police and weighmasters of the State Highway Department. As a result of discussion, the Commission unanimously approved the regulations as follows:

> Effective August 2nd, 1951, all log truck and trailer combinations shall be equipped with Safety Chains which shall be installed or replaced in compliance with the following requirements.
>
> Effective September 1, 1951, all log truck and trailer combinations placed in service for the first time shall be equipped with Couplings and Reaches installed or replaced in compliance with the following requirements.

On and after April 1, 1952, all log truck and trailer combinations shall be equipped with Couplings and Reaches of approved material, design and construction, equal to or better than the following requirements. Equipment not so approved shall be considered unlawful and shall be immediately removed from service.

SAFETY CHAINS:

1. Each log truck and trailer combination shall be equipped with two safety chains of not less than $\frac{1}{2}$ inch steel material or 3/8 inch High Test steel chain.

2. Each Safety Chain shall be permanently attached preferably to the frame of the truck or extension of truck frame and shall attach as near as is practicable to the eye of the reach and not to exceed 12 inches therefrom.

3. Each such Safety Chain shall form a separate continuous connection between truck frame, or extension of truck frame, and reach and shall not permit more than 6 inches of slack when truck and trailer are in alignment.

4. Means of attachment for Safety Chains shall provide strength equivalent to that rendered by the chain. In addition, means of attaching and detaching of chains from reach, truck frame, or extension of truck frame, shall be of a design to provide a positive connection that cannot be rendered inoperative by any condition of use or exposure. Surface welding of Safety Chains to Reach, truck frame or extension of truck frame is prohibited.

5. Safety Chains which contain cut, cracked, or excessively worn links shall be replaced. Such Chains shall not be repaired for use as safety chains.

COUPLINGS:

1. Couplings (Hitches) for log truck and trailer units shall be designed and constructed for such use and shall be capable of withstanding, in any direction, the potential stresses imposed from such use.

2. Each coupling shall have a double locking device and shall be locked securely and positively. The locking devices shall be protected from dirt and debris or shall be of a design which would not be rendered inoperative by an accumulation of dirt or debris.

3. Attachment of the couplings to truck frame or extension of truck frame shall be by means of not less than 4 heat treated bolts and nuts 3/4 inch in diameter, or larger, secured by lock washers, locknuts or cotterkeys.

4. Castings shall be constructed of steel of not less than 11 nor more than 13% manganese or castings or forgings of equal strength alloy.

5. Couplings (Hitches) with broken, cracked, excessively worn or otherwise defective parts shall be immediately removed from service.

REACHES

All reaches shall be provided with a pin or other device near the end of the reach to prevent pulling or stripping through the tunnel.

No reach of less than the maximum size usable in the tunnel of a trailer shall be permitted. Alteration of a trailer tunnel to permit reduction of reach size is prohibited.

Steel Reaches.

Steel reaches shall have a cross section of not less than 60 inches, inside of the periphery, the least dimension of which shall be not less than 6 inches.

Steel reaches shall be constructed of alloy steel of not less than 3/16 inch thickness or constructed of uniformly rolled mild steel of not less than 1/4 inch thickness.

Steel reaches with bent, cracked, excessively worn, or otherwise defective parts shall be immediately removed from service.

Wood Reaches.

Note: The following requirements are minimum and are not intended to discourage the use of a superior grade of straight-grained materials, free of knots and without other weakening defects.

Wooden reaches will be permissible provided they meet the following minimum specifications and no combination of the following allowable defects will be permitted where such combination will seriously impair the strength of a reach.

Wood reaches shall have a cross section of not less than 60 inches, the least dimension of which shall be not less than 6 inches.

Wood reaches when used shall be of Douglas Fir, or of a species, grade or size which will provide equivalent strength.

Solid sawn reaches shall have grade characteristics so limited that the normal working stress in bending will not be less than 1800 lbs. per sq. inch. Based on the named species; slope of grain, either spiral or diagonal, shall not be steeper than 1" in 18" throughout the length of the piece but disregarding short local deviations. The rate of growth shall average not less than 6 nor more than 20 annual rings per inch measured over a representative 3 inch line. The maximum diameter of knots permitted on various widths of faces shall be:

Width of Face	Maximum Knot Size Permitted	Remaining Strength	Maximum Slope of Grain Permitted	Remaining Strength
6"	3/4"	88% of clear green wood	1" in 18"	85% of clear green wood
8"	1 1/4"	83% of clear green wood	1" in 18"	85% of clear green wood
10"	1 3/4"	78% of clear green wood	1" in 18"	85% of clear green wood

The sum of the sizes of knots within a length of six inches shall not be greater than the size of the maximum size knot permitted.

Wood reaches of glued laminated structural lumber shall be of Douglas fir and shall be manufactured in accordance with the methods set forth by the Forest Products Laboratory of the U. S. Department of Agriculture. Only an approved water proof glue shall be used and quality of workmanship and materials shall be such that the allowable normal working stress in bending, for wet conditions of use, shall not be less than 2000 lbs. per sq. inch.

Wood reaches shall not be coated with materials which will conceal the condition of the wood.

Wood reaches containing decay cracks, knots (except as otherwise specified), or slope of grain in excess of that permitted, or which show excessive wear or otherwise defective parts that will impair their strength shall be immediately removed from service.

DEFINITIONS OF DEFECTS

CROSS-GRAINED WOOD -- Cross-grained wood means that the fibres are not parallel with the axis of longitudinal edges of the piece. It is expressed in these regulations as the slope of the grain with respect to the edges of the piece. For example, 1 in 18 inches means that in length of eighteen inches the grain deviates one inch from a line parallel with the edge.

DECAY -- Decay is the destruction of wood due to wood-destroying fungi.

DEFECT -- A defect is any characteristic or condition in a piece of wood which tends to weaken or reduce its strength.

KNOT -- A knot is that portion of a limb or branch which appears on the surface of the wood; and all rules relating to the size of knots apply to the mean or average diameter as measured on the surface.

The Engineer requested an additional authorization of $5,500 for construction of highway embankment in West Salem with materials dredged from the Willamette River by the U. S. Army Engineers. He recalled that the Commission previously authorized an expenditure of $39,600 for this purpose, but it has been found that such sum is not sufficient to complete the work and present estimates are that an additional sum of $5,500 will be required from the State. The Commission approved the additional authorization unanimously.

The Commission discussed and, upon recommendation of the Engineer, approved payment to the City of Corvallis of the sum of $1,715.62 representing the cost of constructing pavement on Second Street in front of the Highway Department property in Corvallis.

The Commission discussed an agreement with the Southern Pacific Company concerning an exchange of properties in the City of Coos Bay necessitated by the highway improvement at that place. It appears that the State needed certain property from the railroad company, and the railroad company was agreeable to deeding the property to the State if the State would deed certain property to the company and would reestablish the railroad tracks on a new location nearer the shoreline of the bay, which condition necessitated construction of an embankment in the bay. It also appears that due to objections by the Army Engineers to construction of the embankment in the bay, it was necessary to shift the railroad tracks about twenty-three feet closer to the highway, with the result that more land is being deeded to the railroad company than was originally intended. The Engineer explained details, advising that the embankment which was originally planned could not be constructed to the satisfaction of the Army Engineers without an expensive retaining wall, so in order to meet the situation it

was agreed to shift the tracks. He further stated that the additional land that is being deeded to the railroad company is of no value for State Highway purposes. He recommended approval of the agreement as prepared. The Commission approved the recommendation unanimously. (The Agreement was signed later in the session.)

The Engineer reported results of investigations of the Butte Creek-Summit Section of the John Day Highway, Wheeler County, pursuant to instructions from the Commission. He said that the investigations disclose that the roadbed for the most part is at least 20 feet wide although at certain points, aggregating 1.1 miles in length, it is barely 20 feet wide, and contains about .9 mile of rather sharp curvature. These places, he said, range in length from 200 feet to 2,700 feet, and should be widened in order to promote safety, particularly in the winter time. He estimated the cost of widening such sections to a 26-foot roadbed at approximately $45,000, and suggested that he be given authority to make requisite surveys now, and to construct the project with State money next year. The Commission approved the suggestion unanimously.

The Engineer requested authority to construct a standard maintenance building in the Town of Bly, Klamath County. He recalled that an amount of $15,000 was provided in the 1951 budget for a building at this place, but due to an emergency which arose, the amount was transferred to finance a building at Shaniko, for which no provision had been made. It now appears, he said, that the building at Bly is an immediate necessity, and he requested authority to proceed with the work. To finance such building, he recommended the transfer of $15,000 from the amounts budgeted for like buildings at Harper or Juntura in Division V, since he has been unable to secure a satisfactory building site at either of those places. The Commission unanimously authorized the construction of the building at Bly and the transfer of $15,000 from either the Harper or the Juntura building accounts to finance the work.

The Commission discussed, and unanimously approved, an agreement with the City of Salem providing for the installation of traffic signals along State Highway routes within the city limits. In the discussion of this matter, it was pointed out that the estimated cost of the signal installations is $55,000, and that the city already has paid its full share of the expense, amounting to $27,500. (The Agreement was signed later in the session.)

The Engineer reported an offer from Ray Garland, Newberg, to pay the sum of $180 for some second growth trees that are piled on a State-owned stockpile site adjacent to the Hillsboro-Silverton Secondary Highway about 2½ miles north of Newberg. He said that the trees were cut during the process of clearing the stockpile site, and are of no value to the State. Moreover, it would entail expense to dispose of them. He recommended acceptance of the offer. The Commission approved the recommendation.

The Engineer brought up for discussion the matter of issuing transportation permits to operators who have cases of violations outstanding against them. The Commission deferred action on this matter until its next meeting. The Engineer was authorized to continue the granting of permits as in the past, until that time.

The Commission discussed and approved an option agreement with the Standard Oil Company covering right of way needed for the revised location of the Upper Columbia River Highway, consideration $535.36. (The Agreement was signed later).

Chairman Chandler brought up for discussion the releasing of strip maps showing the revised location of the Pacific Highway at points where public hearings are to be held. The Commission authorized the releasing of such maps to the newspapers as soon as they are prepared.

Commissioner McIver brought up for discussion a request from the City of Portland for the establishment of a highway couplet along 18th Avenue and 19th Avenue, in Northwest Portland, to a connection with US Highway 30 (Lower Columbia River Highway). The Engineer advised that his report on this subject is not yet ready, but he will prepare it as soon as he can.

The Engineer brought up for discussion a proposed agreement with the Weyerhaueser Timber Company covering construction and maintenance of a concrete and steel bridge over Coos River on the Coos River Secondary Highway, Coos County, including certain river frontage in and to which the company has privileges. The Engineer pointed out that the company in granting this easement does so, subject to the condition that either the State or the County will construct and maintain the bridge at no cost to the company, that the period of interference to the company's log booming or rafting operations during construction of the bridge shall not exceed a total period of three months, and that all damage or injury done to the company's property during construction of the bridge shall be repaired immediately by the State or its contractor. He recommended approval of the agreement. The Commission approved the recommendation unanimously. (The Agreement was signed later in the session).

The Commission also discussed and approved an agreement with the City of Forest Grove covering matters pertaining to the proposed highway-street improvement in that city. The Engineer advised that the agreement has been prepared in conformity with the Commission's ideas on the subject, and the Chief Counsel advised that the agreement is satisfactory from a legal standpoint. (The Agreement was signed later in the session).

Commissioner Reynolds brought up for discussion a notice that has been placed on the bulletin board at the LaGrande headquarters, prohibiting the parking of employees private cars on the premises. He said that there are some 35 to 40 employees who have parked their cars there for years, but after August 10, according to the bulletin, they will have to find some other place to leave them because the space is needed for other purposes. The Engineer advised that he knows nothing about the order but will investigate it at once, and, will arrange for the employees to park their cars as heretofore until a solution has been found.

Commissioner Reynolds also brought up for discussion an editorial appearing in one of the newspapers complaining of traffic delays due to oiling operations. He inquired if it is necessary to delay traffic unduly for such operations. He suggested that more attention should be paid to this feature. The Engineer advised that he will study the matter and see what can be done to improve conditions.

Commissioner Reynolds brought up the allocation of secondary highway funds in Division No. 4. He mentioned the programming of a considerable sum for improvements in the southern part of this district, but allocation of a comparatively small amount of money in the northern end. The Engineer was instructed to prepare a written report on the subject for discussion by the Commission at its next meeting.

Chairman Chandler brought up for discussion the setting of a date for dedication of the State Highway Building in Salem. As a result of discussion of this matter, it was decided unanimously to have no dedicatory ceremonies.

Chairman Chandler also brought up for discussion a proposed agreement with the City of Coos Bay covering traffic signal installations and the designation of "No Parking" areas. He pointed out that the Coos Bay project is nearing completion and he gave as his feeling, in view thereof, that this matter should be taken care of in the not distant future. The matter was referred to the Engineer.

Chairman Chandler also inquired as to the status of the Commission's request to the State Budget Director for approval of the payment of $4.50 per day to employees who are required to be away from their headquarters. The Engineer advised that he has not had an opportunity to discuss the matter with the Budget Director but will do so when he returns to Salem.

The matter of rental of the fifth floor of the State Highway Building was brought up for discussion by Chairman Chandler. The Engineer advised that, at the request of the State Budget Director, the State Property Controller is now occupying space on this floor as a temporary provision until the 1953 Legislature meets, when the Budget Director believes that arrangements can be made to move this department back into the Capitol Building.

Chairman Chandler inquired as to the status of the salary increases that were authorized by the Commission at its meeting in June. The Engineer advised that the increases, insofar as they concern engineering personnel, have been approved by the Civil Service Commission and by the State Budget Director, effective August 1, 1951. Consideration was then given by the Commission to the salary of the Secretary. It was the declared feeling of the Commission that, inasmuch as the position of Commission Secretary in the past has been considered comparable to Division Engineer, the salary that is paid the Secretary

should continue to equal that of Division Engineer. As a result of discussion, a motion was made by Commissioner Reynolds that the salary of the Commission Secretary, H. B. Glaisyer, be set at $672.00 per month, starting August 1, 1951 when the new salary schedule for Division Engineers in like amount becomes effective. The motion was duly seconded by Commissioner McIver. Chairman Chandler declared the motion carried by the unanimous vote of the Commission. The salary of the Chief Auditor was also discussed. The Engineer advised that the Civil Service Board will discuss adjustments to the auditors' scale when it holds its next regular meeting in August. Chairman Chandler stated that if someone will furnish a salary schedule for auditors, the Commission will see what can be done to secure its approval.

The Secretary presented a letter from Mr. Floyd W. Lansdon, Manager of Associated Press, Portland, requesting an advance copy of the agenda that is considered by the Commission at its monthly meetings, as now are furnished to the representatives of the Oregonian and the Journal. The Commission indicated its willingness to comply with the request if a representative of the Associated Press were to attend the meetings as do representatives of the other two papers, but not otherwise. The Secretary was instructed to inform Mr. Lansdon accordingly.

The Chief Counsel brought to the Commission's attention a request from Edward H. Grootendorst for a roadway easement across State Highway property, near Brookings, to permit normal ingress and egress to his property from the Chetco River Road. He explained details and recommended approval of the request. The Commission approved the recommendation. (A "Grant of Easement" was signed by the Commission later.)

Mr. W. H. Lynch, Bureau of Public Roads, was present and discussed with the Commission the programming of $1,600,000 of Federal Aid funds recently authorized. As a result of discussion, it was mutually agreed to recommend to the Commissioner of Public Roads and the Chief of the U. S. Forest Service the following projects for the funds available:

(1) Douglas County Line-Hauser Section of the Oregon Coast Highway, South Unit, Douglas County, $335,000;

(2) Hayes Hill-Love Station Section of the Redwood Highway, Josephine County, $415,000;

(3) Niagara-Detroit Section of the North Santiam Highway, surfacing, $225,000;

(4) Rhododendron Section of the Mount Hood Highway, $115,000;

(5) Sled Springs-Forest Boundary Section of the Enterprise-Lewiston Highway, grading, $100,000;

(6) North Umpqua Highway, previously approved in 1951 program, $311,000; and

(7) Cascade Lakes Highway, previously approved in 1951 program, $50,000.

The Commission discussed the date for its next regular meeting following that scheduled for August 20 and 21, and decided unanimously to hold such meeting in Portland on Thursday and Friday, October 11 and 12, 1951, and it was also decided to hold the November meeting in Portland on Thursday and Friday, November 8 and 9, 1951. The Secretary was instructed to make the usual arrangements to hold these meetings in the Green Room of the Imperial Hotel. In this connection, the Engineer advised that the Legislative Highway Interim Committee desires to meet with the Commission some time soon in Portland, to discuss matters of mutual interest. As a result of discussion, the Commission decided to meet with the Interim Committee immediately following its regular meeting in October. The Engineer was instructed to inform the chairman of the Interim Committee that the Commission will be pleased to confer with them on Saturday morning, October 13, 1951 and the Secretary was instructed to arrange for use of the Green Room in the Imperial Hotel.

The Commission signed Agreements etc., as follows:

Lease covering Vanguard property located near Halsey Street at 134th Avenue, Portland, to Westfall Engineering Co., Portland.

Easement Agreement with O. W. R. & N. Co. and Union Pacific Railroad Company covering roadway on east bank of Sandy River under railroad company's trestle.

Two agreements with Southern Pacific Co. covering Goshen overcrossing on Pacific Highway at Goshen.

Release of claim against C. J. Montag & Sons, arising out of a fire which occurred in the Mack Truck Building in Portland.

Agreement with St. Helens Pulp and Paper Co. covering use of overhead crossing on the Lower Columbia River Highway in Clatsop County.

Agreement with Douglas County providing for joint usage of property and buildings in connection with installation and operation of radio equipment.

Agreement with Douglas County providing for abandonment of a portion of Turkey Hill-Chenowith Park Section of Pacific Highway, Douglas County (old route).

Tri-party Agreement with Baker County and City of Baker, providing for abandonment of portions of Baker-Unity Highway (old route) in Baker County.

"Indenture of Access" re John A. Martin property at Coos Bay.

Agreement with City of Salem covering traffic light installation.

Agreement with Sound Construction & Engineering Co. with respect to completion of State Highway Building, Salem.

Easement Agreement with Weyerhaeuser Timber Company relative to crossing of the booming rights of the timber company on the Coos River Secondary Highway.

Agreement with Washington County and the City of Forest Grove covering the proposed highway rerouting plans at Forest Grove.

Option Agreement with Standard Oil Company for right of way needed for revised location of Columbia River Highway in Hood River County.

Grant of Easement to Edward H. Grootendorst and wife permitting them to cross over land purchased from Bankus at Azalea State Park.

Agreement with Southern Pacific Co. re City of Coos Bay project.

There being no further business to come before the meeting, upon motion duly made, seconded, and unanimously adopted, the meeting adjourned.

EXHIBITS "A" THROUGH "I"

Minutes of

August 3, 1951

EXHIBIT "A"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

SALEM BY-PASS SECTION - PACIFIC HIGHWAY EAST

17679 - Strawn, Jesse L and Flora M. — Thomas, Perry A. and Bernice M. - 3676 Truman Avenue (Haskin)
Right of Way
Option expires August 22, 1951

8950 sq. ft. at $0.07 + per sq. ft.	$ 650.00
House and garage	7,650.00
Amount to be paid owner - chrg to Right of Way	$8,300.00

Takes all -

(cont.)

EXHIBIT "A" (cont.)

CORVALLIS-MONROE SECTION - PACIFIC HIGHWAY WEST

6579 - Cabell, Henry Failing & Margaret M. (Byrum)
Right of Way
Deed signed July 17, 1951

1,500 square feet Gratis

THINGS TO BE DONE BY THE STATE:

Construct private access on West side at Station 412+98.

Access controlled-

ROSEBURG-DIXONVILLE SECTION - NORTH UMPQUA HIGHWAY

13270 - Marsters, Lyle E. and L. Flae (Holt)
Gravel Bar
Lease - expires November 1, 1954

Renewal of lease for three years. $0.05 per cu. yd.

13271 - Criteser, F. F. and Stell M. (Holt)
Gravel Bar
Lease - expires November 1, 1954

Renewal of lease for three years. $0.05 per cu. yd.

16787 - Sisters of Mercy of Oregon (Holt)
Haul road easement
Easement expires November 1, 1954

Three year extension of easement agreement. $225.00

Amount to be paid owner - chrg to Gravel Bar $225.00

Access not controlled -

SUICIDE CREEK-COOS JUNCTION SECTION - COOS BAY-ROSEBURG HWY.

17812 - Wambolt, Irvin H. and Virginia (Holt)
Gravel Bar
Option expires January 16, 1952

0.41 acre at $125. per acre. $51.25

Amount to be paid owner - chrg to Gravel Bar $ 51.25

EXHIBIT "A" (cont.)

SUICIDE CREEK-COOS JUNCTION SECTION - COOS BAY-ROSEBURG HIGHWAY (cont.)

17813 - Riley, Leonard W. and Mona P. & W.M. Allen (Holt)
Gravel Bar
Option expires January 20, 1952

1.92 acres at $125.00 per acre. $ 240.00

Amount to be paid owner - chrg to Gravel Bar $ 240.00

NORTH ENTRANCE TO GRANTS PASS SECTION - PACIFIC HIGHWAY

17357 - City of Grants Pass & G.H. Kesterson & Rose Kesterson (Holt)
Right of Way & Easement
Deed signed July 5th, 1951

4125 sq. ft.
+ 10' slope easement Gratis

Subject to an easement and right of way for private sewer line.

Access controlled - no access allowed

NORTH ENTRANCE TO GRANTS PASS SECTION - PACIFIC HIGHWAY

17338 - Stone, Alton E. and Josephine (Holt)
Slope Easement

10' slope easement, 675 sq. ft. LUMP SUM $50.00

Amount to be paid owner - chrg to Right of Way $50.00

THINGS TO BE DONE BY THE STATE:

Construct 25' commercial approach at Station 21+85 and 22+75 west side.

Access controlled -

17351 - Martin, Delbert L. and Jimmie (Holt)
Right of Way
Option expires January 4, 1952

620 sq. ft. at $0.75 per sq. ft $465.00
Large shade tree and shrubs 30.00

Amount to be paid owner - chrg to Right of Way $495.00

THINGS TO BE DONE BY THE STATE:

Reconstruct commercial approach at Station 32+90, east side.

State to give Salem Electric Co. a new easement

Approved by M. K. McIver - July 24, 1951

EXHIBIT "B-1"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Tiller-Trail Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the United States Government plans and proposes to surface the Elk Creek-Jackson County Line Section of the Tiller-Trail Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, the State has undertaken and agreed to procure and make available to the United States Government such real properties as are necessary for the surfacing by the Government of said section of said highway; and

WHEREAS, said Commission is authorized to take fee title to said property for quarry site, stockpile site and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required as a quarry site for the acquisition of road-building materials for use in connection with the surfacing, improving and maintaining of the Elk Creek-Jackson County Line Section of the Tiller-Trail Highway a parcel of real property located in Douglas County, Oregon, and described as follows:

Parcel No. 1
L. E. Gilliam, et ux - Owners

A parcel of land lying in the northwest quarter ($NW\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 32, Township 31 South,

(cont.)

EXHIBIT "B-1" (cont.)

Parcel No. 1 (cont.)
L. E. Gilliam, et ux - Owners

Range 1 West, W.M., Douglas County, Oregon, the said parcel being described as follows:

Beginning at the north quarter corner of said Section 32; thence east along section line 180 feet, more or less, to the westerly line of the Tiller-Trail Highway, said westerly line being parallel to and 40 feet westerly of the center line of said highway; thence southerly 341 feet along said westerly line; thence west 310 feet, more or less, to the west line of the northeast quarter ($NE\frac{1}{4}$) of Section 32; thence north 316 feet along said west line to the point of beginning, containing 1.9 acres, more or less.

2. The Commission does hereby find and declare that there is needed and required as a stockpile site for the stockpiling of materials for use in connection with the surfacing, improving and maintaining of the Elk Creek-Jackson County Line Section of the Tiller-Trail Highway a parcel of real property located in Douglas County, Oregon, and described as follows:

Parcel No 2
L. E. Gilliam, et ux - Owners

A parcel of land lying in the northwest quarter ($NW\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 32, Township 31 South, Range 1 West, W.M., Douglas County, Oregon, the said parcel being described as follows:

Beginning on the west line of the northeast quarter ($NE\frac{1}{4}$) of Section 32 at a point 515.3 feet south of the north quarter corner of said section; thence east 315 feet, more or less, to the westerly line of the Tiller-Trail Highway, said westerly line being parallel to and 40 feet westerly of the center line of said highway; thence southerly 450 feet along said westerly line; thence west 200 feet, more or less, to the west line of said northeast quarter ($NE\frac{1}{4}$) of Section 32; thence north 434 feet to the point of beginning, containing 2.8 acres, more or less.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

EXHIBIT "B-1" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property or any interest therein, the Chief Counsel, or in his absence the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the third day of August, 1951.

EXHIBIT "B-2"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Redwood Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the United States Government plans and proposes to relocate in part, widen, construct and improve the Hayes Hill Section of the Redwood Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, the State has undertaken and agreed to procure and make available to the United States Government such real properties as are necessary for the relocation in part, widening, construction and improvement by the Government of said section of said highway; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Redwood Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation in part, widening, construction, improvement, and maintenance of the Hayes Hill Section of the Redwood Highway real property located in Josephine County, Oregon, and described as follows, to wit

(cont.)

EXHIBIT "B-2" (cont.)

Delorsa Livina Beck, et al. - Owners

A parcel of land lying in the southeast quarter ($SE\frac{1}{4}$) of the southeast quarter ($SE\frac{1}{4}$) of Section 18 and in the northeast quarter ($NE\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 19, Township 37 South, Range 7 West, W.M., Josephine County, Oregon, and being a portion of that property conveyed by that deed to Delorsa Livina Casper recorded in Book 124, Page 372, of Josephine County Records of Deeds; the said parcel being that portion of said property included in a strip of land of variable width lying on each side of the center line of the Redwood Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 74+43.55, said Station being approximately 689.5 feet south and 1940.6 feet west of the northeast corner of said Section 19; thence North 68° 25' East 1006.48 feet; thence on a spiral curve left (the long chord of which bears North 67° 25' East) 300 feet; thence on a 2864.79 foot radius curve left (the long chord of which bears North 59° 08' East) 628.33 feet; thence on a spiral curve left (the long chord of which bears North 50° 51' East) 300 feet to Station 96+78.36, said center line crossing the west line of the northeast quarter ($NE\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 19 and the east line of Section 18 approximately at Stations 81+08 and 96+12 respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station	Width on Southerly Side of Center Line	Width on Northerly Side of Center Line
80+00 to 82+00	150	00
82+00 to 84+00	100	To existing R/W line
84+00 to 85+50	130	To existing R/W line
85+50 to 87+50	80	To existing R/W line
87+50 to 88+00	80	50
88+00 to 96+78	50	50

The parcel of land to which this description applies contains 2.30 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcel of real property it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress and regress to, from and between the remaining land of the larger tract of which the above-described property is a

EXHIBIT "B-2" (cont.)

part and the above-described property and any highway now or hereafter constructed thereon, and that all approaches or access from the Redwood Highway to said remaining land and from said remaining land to the Redwood Highway be prohibited, except that there shall be reserved unto the owners of said remaining property rights of private access for six approaches from said remaining land to the Redwood Highway as follows:

a. A right of private access for an approach, not to exceed twenty-five feet in width, on the north side of the Redwood Highway opposite Engineer's Center Line Station 88+84;

b. A right of private access for an approach, not to exceed twenty-five feet in width, on the north side of the Redwood Highway opposite Engineer's Center Line Station 92+00;

c. A right of private access for an approach, not to exceed twenty-five feet in width, on the north side of the Redwood Highway opposite Engineer's Center Line Station 92+88;

d. A right of private access for an approach, not to exceed twenty-five feet in width, on the north side of the Redwood Highway opposite Engineer's Center Line Station 95+25;

e. A right of private access for an approach, not to exceed twenty-five feet in width, on the south side of the Redwood Highway opposite Engineer's Center Line Station 89+67;

f. A right of private access for an approach, not to exceed twenty-five feet in width, on the south side of the Redwood Highway opposite Engineer's Center Line Station 91+35.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

The State shall have the right, at its option, to build at any future time at its sole cost frontage roads upon right of way now owned or lands to be acquired by the State, and upon construction of such frontage roads the rights of private access for the said six approaches to the relocated and improved Redwood Highway herein set forth to be reserved shall terminate and cease and the owners of said remaining property shall thereupon have access to the frontage roads. Said frontage roads shall be connected to the main highway only at such points as the State of Oregon may designate.

(cont.)

EXHIBIT "B-2" (cont.)

3. That there be reserved to the owners, their heirs and assigns, the right to maintain that portion of the garage building now located upon the above-described property in its existing location during the natural life of said garage building, and that said right shall automatically cease and terminate whenever the said garage building shall no longer be suitable for use or when the said garage building is substantially altered or reconstructed or replaced.

4. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission as of the third day of August, 1951.

EXHIBIT "B-3"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Old Oregon Trail Highway is a highway under the jurisdiction and control of the State and, in addition, is a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to locate, construct and maintain the Ladd Canyon-North Powder Section of the relocated Old Oregon Trail Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for the purpose of procuring therefrom roadbuilding materials for use in connection with the construction and maintenance of the Ladd Canyon-North Powder Section of the Old Oregon Trail Highway a parcel of real property located in Union County, Oregon, and described as follows:

H. P. Glenn et ux., owners

A parcel of land lying in the southwest quarter (SW$\frac{1}{4}$) of the southeast quarter (SE$\frac{1}{4}$) of Section 17, Township 5 South, Range 39 East, W. M., Union County, Oregon, the said parcel being described as follows:

Beginning on the south line of Section 17 at a point which is 212.33 feet east of the south quarter corner of said Section 17, said point being 150 feet distant easterly from (when measured at right angles to) the relocated center line of the Old Oregon Trail Highway at

(cont.)

EXHIBIT "B-3" (cont.)

Engineer's center line Station 841+22.51; thence South 88° 48' 40" East 1083.62 feet, along the south line of said Section 17, to the westerly right of way line of the Ladd Canyon Market Road; thence along said right of way line on a 1011.74 foot radius curve left (the long chord of which bears North 19° 33' 30" West) 720.94 feet; thence North 88° 48' 40" West 1013.42 feet to a line which is parallel to and 150 feet easterly of said relocated highway center line; thence South 14° 03' East parallel to said center line 684.05 feet to the point of beginning.

The parcel of land to which this description applies contains 16.63 acres.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That, if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the third day of August, 1951.

EXHIBIT "C"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the Commission heretofore approved, adopted and entered in its records a resolution for the purpose of which is to make available to the Highway Commission the benefits of Chapter 156, Oregon Laws 1951, which said resolution is now in full force and effect, and

WHEREAS, it is deemed by the Commission necessary and advisable at this time to supplement said resolution by expressly entering therein as voucher claims and indebtedness within the meaning of said act partial payments to be made on contracts entered into for the State of Oregon by and through its Highway Commission, the subject of which contracts is highway, bridge, and other matters within the jurisdiction and authority of the Commission.

NOW, THEREFORE, Be It And It Hereby Is Ordered and Resolved, as follows:

(1) That for the purpose of complying with the provisions of Chapter 156, Oregon Laws 1951, the acceptance of bids and the awarding and execution of contracts by the Commission for highway construction, bridge construction, and other purposes and improvements within the jurisdiction of the Commission, which contracts provide for partial or progress payments, shall be deemed an approval by the Commission and an authorization for payment of all such partial and progress installments within the meaning and requirements of said Chapter 156, Oregon Laws 1951

(2) It is further resolved and ordered that this resolution be entered in the minutes and records of the Commission as of August 3, 1951, and by its adoption and entry be deemed a supplement and an essential part of said resolution of May 24, 1951

(3) The Secretary is directed to file with the Secretary of State a duly certified copy of this resolution.

EXHIBIT "D"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway East is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, construct, and improve the Lana Avenue-Hayesville School Section of the Pacific Highway East within the city limits of the City of Salem, Oregon, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Pacific Highway East is a major highway of the State, and as such carries large volumes of traffic, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the widening, construction, improvement and maintenance of the Lana Avenue-Hayesville School Section of the Pacific Highway East three parcels of real property located in Marion County, Oregon, and described as follows, to wit:

File No. R 13870
Owner: Elling Halvorson

Parcel No. 1:

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of Section 13, Township 7 South, Range 3 West, W. M., Marion County,

(cont.)

EXHIBIT "D" (cont.)

Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to Elling Halvorson, et al., recorded in Book 392, Page 639 of Marion County Record of Deeds; the said parcel being all that portion of the foregoing-described property included in a strip of land 40 feet in width on the easterly side of the center line of the Pacific Highway East as said highway has been located over and across or adjacent to the said property; the location of said strip of land (in so far as it encroaches upon said property) being determined by the said center line from Station 21+84.06 to Station 22+39.04, which portion of center line is described as follows:

Beginning at a point which is Engineer's center line Station 21+84.06 opposite and 40 feet distant from which point the easterly line of the said strip of land intersects the southerly line of said property; said point being 303 feet south and 835 feet east of the northwest corner of Section 13, Township 7 South, Range 3 West, W. M.; thence North 33° 56' East a distance of 54.98 feet to Station 22+39.04 opposite and 40 feet distant from which Station the Easterly line of said strip of land intersects the northerly line of said property.

The parcel of land to which this description applies contains 2,199 square feet, of which 1,649 square feet lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 550 square feet lie outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) of Section 13, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to Elling Halvorson, et al., recorded in Book 368, Page 417, and in Book 368, Page 421 or Marion County Record of Deeds; the said parcel being all that portion of the foregoing-described property included in a strip of land 40 feet in width, on the easterly side of the center line of the Pacific Highway East as said highway has been located over and across or adjacent to the said property; the location of the said strip of land (in so far as it encroaches upon said property) being determined by the said center line from Station 22+39.04 to Station 23+98.90, which portion of center line is described as follows:

Beginning at a point which is Engineer's center line Station 22+39.04 opposite and 40 feet distant from which point the easterly line of the said strip of land intersects the southerly line of said property; said point being 258 feet south and 866 feet east of the northwest corner of Section 13, Township 7 South, Range 3 West, W. M., thence North 33° 56' East a distance of 159.86 feet to Station 23+98.90 opposite and 40 feet distant from which Station the easterly line of said

(cont.)

EXHIBIT "D" (cont.)

strip of land intersects the northerly line of said property.

The parcel of land to which this description applies contains 6,394 square feet, of which 4,796 square feet lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 1,598 square feet lie outside of the existing right of way.

Parcel No. 3:

A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of Section 13, Township 7 South, Range 3 West, W. M., Marion County, Oregon, and being a portion of the following-described property: That tract of land which was conveyed by that certain deed to Elling Halvorson, et al., recorded in Book 318, Page 349 of Marion County Record of Deeds; the said parcel being all that portion of the foregoing-described property included in a strip of land 40 feet in width on the easterly side of the center line of the Pacific Highway East as said highway has been located over and across or adjacent to the said property; the location of the said strip of land (in so far as it encroaches upon said property) being determined by the said center line from Station 23+98.90 to Station 25+20.90 which portion of center line is described as follows:

Beginning at a point which is Engineer's center line Station 23+98.90 opposite and 40 feet distant from which point the easterly line of the said strip of land intersects the southerly line of said property; said point being 125 feet south and 955 feet east of the northwest corner of Section 13, Township 7 South, Range 3 West, W. M.; thence North 33° 56' East a distance of 122 feet to Station 25+20.90 opposite and 40 feet distant from which Station the easterly line of said strip of land intersects the northerly line of said property.

The parcel of land to which this description applies contains 4,880 square feet, of which 3,869 square feet lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 1,011 square feet lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcels of real property, it is necessary that there be acquired all easements and rights of access and all rights of ingress, egress, and regress to, from and between the remaining land of the larger tracts, of which the above-described parcels of real property are parts, and the above-described parcels of real property and any highway now or hereafter constructed thereon, and that all access to the aforesaid-described parcels of real property and the Pacific Highway East now or hereafter constructed thereon, from said remaining land of said larger tracts, and all approaches or access from said highway to said remaining land, be prohibited; except that there shall be reserved unto

(cont.)

EXHIBIT "D" (cont.)

the owners of said remaining land rights of access for three approaches from said remaining land to the Pacific Highway East, as follows:

a. A right of access for an approach not to exceed forty-five feet in width on the east side of the Pacific Highway East opposite Highway Engineer's Station 24+60.5.

b. A right of access on the east side of Pacific Highway East for an approach not to exceed fifty feet in width for the connection to said Pacific Highway East of a street that may hereafter be established upon remaining real property abutting upon said parcel No. 2 above described, at a location to be agreed upon by and between the owners of said abutting real property and the State, which said access for a fifty-foot approach shall not be used for street purposes unless and until the proper public authority who has jurisdiction and control over the establishment and opening of streets upon the owner's remaining property approves and authorizes the establishment and opening of such street. Until such street is established and opened for public street purposes, pursuant to the approval of the proper public authority, the owners of said abutting real property shall have the right to use said right of access only for an approach not to exceed twenty-five feet in width.

c. A right of access for an approach not to exceed twenty-five feet in width on the east side of Pacific Highway East opposite Highway Engineer's Station 22+35.

3. That the highway facility for which the aforesaid-described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the third day of August, 1951.

EXHIBIT "E"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of (A) the Bay City-Kilchis River Section of the Oregon Coast Highway in Tillamook County, (B) the Lapine-Willamette Highway Junction Section of The Dalles-California Highway in Deschutes and Klamath Counties, and (C) the State Street-South Unit of the Salem By-pass Section of the Pacific Highway East in Marion County, and in connection therewith to prepare maps showing the route and location of said highway sections and file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed;

THEREFORE BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. (A) That the survey of the Bay City-Kilchis River Section of the Oregon Coast Highway, beginning at Engineer's Station 119+50, a short distance south of the Kilchis River and extending northerly to Engineer's Station 241+51.1 in Bay City, together with the map, which for identification purposes bears map file No. 7B-8-12 and the date of July, 1951; and

(B) That the survey of the Lapine-Willamette Highway Junction Section of The Dalles-California Highway, beginning at Engineer's Station 700+00 in Lapine, and extending southerly to Engineer's Station 282+50 at Willamette Highway Junction. together with the map, which for identification purposes bears map file Nos. 7B-8-11, 13, 14, 15, 19, 20 & 7B-9-1 and the date of July 1951; and

(C) That the survey of the State Street-South Unit of the Salem By-pass Section of the Pacific Highway East, beginning at Engineer's Station 252+47.79 at State Street extended, and extending southerly to Engineer's Station 575+22 at the junction with the existing Pacific Highway East, together with the map which for identification purposes bears map file No. 7B-6-13 and the date of March 1951; and

(cont.)

EXHIBIT "E" (cont.)

(D) That the field notes and other Engineering data, submitted by the Engineer in connection with each of said surveys, hereby are approved, and the Engineer is directed to file and preserve the same in the records and the files of the Commission at Salem, Oregon.

2. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary description and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the surveys of the sections or units of said Oregon Coast Highway, The Dalles-California Highway, and the Pacific Highway East have been made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and were likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948. Therefore, the construction of said State highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the third day of August, 1951.

EXHIBIT "F"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3408, with R. & M. Construction Co., for widening Union Creek Bridge on the Crater Lake Highway in Jackson County, completed July 30, 1951.

Contract No. 3436, with Rush Construction Co., for furnishing crushed rock in stockpiles on the Union-Miles Bridge Section of the Medical Springs Highway in Union and Baker Counties, completed May 21, 1951.

Contract No. 3432, with Inter City Sand and Gravel Co., Inc., for furnishing crushed rock in stockpiles on the Lakeview Rock Production Project on the Fremont and Klamath Falls-Lakeview Highways in Lake County, completed May 23, 1951.

Contract No. 3365, with E. H. Itschner Co., for resurfacing and oiling on the Hamilton Hill Section of the Kimberly-Long Creek Highway in Grant County, completed June 29, 1951.

Contract No. 3427, with C. E. Leseberg for furnishing crushed materials in stockpiles on the Drewsey-Juntura and Harper-Hope Sections on the Central Oregon Highway in Malheur and Harney Counties, completed July 6, 1951.

Contract No. 3463, with M. C. Lininger & Sons for furnishing crushed materials in stockpiles on the Chemult Rock Production Project on The Dalles-California, Willamette and East Diamond Lake Highways in Klamath County, completed July 10, 1951.

Contract No. 3405, with Warren Northwest Inc., for grading and paving on the Pudding River-Silverton Section of the Silverton County Road in Marion County, completed July 13, 1951.

Contract No. 3523, with J. C. Compton Co., for reoiling on Division No. 3, District C Section of the Pacific, Green Springs, Crater Lake, Williams, Medford-Provolt, Rogue River Loop and Redwood Highways in Jackson and Josephine Counties, completed July 19, 1951.

(cont.)

EXHIBIT "F" (cont.)

Contract No. 3369, with K. F. Jacobsen & Co., Inc., for grading and paving on the Scio-Thomas Creek and Scio Sections of the Albany-Lyons Highway and City Streets in Linn County, completed July 30, 1951.

Contract No. 3094, with Kuckenberg Construction Co., for structures, grading and paving on the Front Avenue (Steel Bridge-Ankeny St.) Section of the Pacific West Highway in Multnomah County, completed July 16, 1951.

Contract No. 3482, with Mills Construction Co., for constructing a sign storage building at Salem Shops in Marion County, completed July 13, 1951.

Contract No. 3009, with Macco Corporation for construction of the Independence Bridge over Willamette River in Marion and Polk Counties, completed July 13, 1951.

Contract No. 3490, with Harr & Horton for reoiling on Division No. 1, District A Section of the Sunset and Hillsboro-Silverton Highways in Washington and Yamhill Counties, completed July 30, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "G"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320 O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: MCKENZIE HIGHWAY

Highway Number: 15 Route Number: US Route 28

Location of Termini		Established Speed
M. P. 3.47 (Jct. Springfield-Creswell Secdy. Hwy.	to M. P. 5.17 (Jct. of road to Jasper)	35 miles per hour

(cont.)

EXHIBIT "G" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the State Highway Commission as of August 3, 1951.

EXHIBIT "H"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Wasco-Heppner Secondary Highway No. 300, known as the Cottonwood Canyon Section in Gilliam County, the westerly terminus of which is at Highway Engineer's Station 965 of the reconstructed line and the easterly terminus of which is at Highway Engineer's Station 1272+50 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway, a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated section or area is no longer needed for highway purposes; and

WHEREAS, Gilliam County and the Highway Commission have entered into an agreement under date of November 5th, 1947, relating to the use and jurisdiction of the abandoned section; and

WHEREAS, the contract for the construction of this relocated section of the Wasco-Heppner Secondary Highway No. 300 was completed on September 16th, 1948, and highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the area and section of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "A" and is shown colored in red on map attached hereto and marked "Exhibit A", and is more particularly described as follows:

Unit "A"

Beginning opposite State Highway Engineer's Station 1179+50 of the relocated Wasco-Heppner Secondary Highway in the Northwest quarter of the Northwest quarter of Section 4, Township 2 South, Range 19 East, W. M.; thence Easterly and Southerly via the former route of the Wasco-Heppner Secondary Highway to State Highway Engineer's Station 1272+50 of the relocated Wasco-Heppner Secondary Highway on the line between the Southeast and Southwest quarters of the Northeast quarter of Section 9, Township 2 South, Range 19 East, W. M.

(cont.)

EXHIBIT "H" (cont.)

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communties served thereby. The Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Gilliam County, and said road shall thereafter be maintained by the County for public use. *

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

3. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Gilliam County a duly certified copy thereof , and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandon section of the said old right of way shown in red on the map attached hereto and marked "Exhibit A". *

FOOTNOTE: *

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 238, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I"

Minutes of August 3, 1951

RESOLUTION

WHEREAS, the Bureau of Public Roads has heretofore made a survey of the route and location of the Hayes Hill Section of the Redwood Highway in Josephine County, from Highway Engineer's Station 0+00 to Highway Engineer's Station 97+20, and in connection therewith a map showing the route and location of said section of said highway has been prepared and filed with the State Highway Commission for consideration; and

WHEREAS, the State Highway Engineer has submitted said survey for the approval or disapproval of the Commission and has recommended that the same be approved; and

WHEREAS, after due consideration of said survey and map, it is the judgment of the Commission that the same should be approved and filed;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows.

1. That the said survey of the Hayes Hill Section of the Redwood Highway, together with the map, which for identification purposes is designated as Oregon State Highway Department Drawing No. 7B-6-10, bearing the date of March, 1951. and other engineering data submitted by the Bureau of Public Roads and recommended by the State Highway Engineer, hereby are approved. and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed or improved the same shall be done in accordance with said survey and location, unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instruction to the Engineer to make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement along and over said survey. Said approval and adoption shall also be authority and direction to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way and other real properties needed, pursuant to the normal and approved method

4. That this resolution be entered in the minutes and records of the Commission as of the 3rd day of August, 1951.

August 3, 1951

Portland, Oregon
August 20, 1951

The State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
Forrest Cooper, Right of Way Engineer
J. M. Devers, Chief Counsel
C W. Enfield, Assistant Counsel
Fred A. Miller, Assistant Counsel
C. H. Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

The Commission by unanimous vote approved the minutes of the meeting held on May 23, 24 and 25, 1951.

The State Parks Superintendent reported on the following park matters:

1. Requests of Robert Fromm, Port Orford, and David C. Shaw, Gold Beach, for an extension of their leases authorizing the grazing of sheep in Humbug Mountain and Cape Sebastian State Parks: The Parks Superintendent recommended the present leases be extended for a one-year period. The Commission approved the recommendation.

2. Request of the St. Helens Pulp and Paper Company for authority to construct and operate a roadway across a portion of Short Sand Beach State Park: The Parks Superintendent advised that the company is marketing timber on adjoining property and needs a roadway across the park in connection therewith. He recommended granting of a permit of one year's duration, subject to the company's paying for the timber that it cuts in the construction of its roadway, at a price to be specified by the State Forester. He estimated that there are about 50 MFBM timber involved. The Commission approved the recommendation.

3. Request of the Coastal Lumber Company for permission to construct and operate a roadway across State park property on the Salmon River Highway near Boyer: The Parks Superintendent advised that the proposed roadway will not involve the cutting of any timber; neither will the roadway interfere with the use of the park. He recommended approval of the request. The Commission approved the recommendation.

4. Petition from citizens of the Town of Yachats requesting that use of the Yachats State Park road by truck drivers as a turn-around be prohibited: The Parks Superintendent exhibited a map showing the location of the park road. He pointed out that the trucks, for the most part, are logging trucks that originate on the county road which extends up the Yachats River, and that it is impossible for them to make the turn from the county road to the Yachats River Bridge, so they use the park roadway for turn-around purposes. He recommended that the use of the park road for such purposes be prohibited, in conformity with the desire of the petitioners. The Engineer estimated the cost to construct a suitable connection between the county road and the Yachats bridge at about $6,000. He gave as his feeling that it is not the State's obligation to provide a turn-around for the trucks, and he suggested that the operators be required to construct their own turn-around at some point along the highway north of the town of Yachats. The Commission decided unanimously against the use of the park road for this purpose and ordered suitable signs erected in conformity therewith.

5. Proposed transfer to Hood River County of certain State-owned forest waysides along the Hood River-Mosier Section of US30: The Parks Superintendent explained that, due to the construction of the new Columbia River Highway between Hood River and Mosier, the old highway no longer will be of value for State Highway purposes. The County Court of Hood River County, he said, has stated its willingness to assume jurisdiction over the old highway on the condition that the State will deed to the County the forest waysides along the section, and thereafter the county will maintain the old road. He recommended acceptance of the county's proposition. The Commission approved the recommendation unanimously.

6. Construction of a water collection system and pump in the Silver Falls State Park: The Parks Superintendent advised that these facilities are needed in connection with the operation of the overnight camping area in this park. He estimated the cost of the installation at $800 and advised that provision for the expenditure is contained in the 1951 budget. He requested authority to proceed with the work. The Commission approved the request unanimously.

7. Request of the Pacific Coast Borax Company for a ten-year lease of stock grazing privileges on the property that the company donated to the State for park purposes in Curry County: The Parks Superintendent advised that the company does not intend to graze stock on its own account, but prior to deeding the property to the State, it had leased this privilege to certain private individuals, who now desire renewal of the leases, which expire this month. Commissioner McIver suggested the granting of a ten-year lease for such purpose subject to vacation of the property when the State needs it. The suggestion was approved by the Commission unanimously, and it was so ordered.

8. Question of granting concession privileges in State Parks: The Parks Superintendent advised that frequently when groups picnic in State parks, he is requested to authorize the sale of ice cream, sandwiches, etc. as an accommodation. He questioned the advisability of permitting such concessions, which is contrary to the Commission's general policy, although they might be satisfactory in some instances. As a result of discussion, the Commission instructed the Parks Superintendent to deny such requests unless they are presented early enough to be discussed by the Commission, and the Commission approves the granting of the privilege.

The Right of Way Engineer presented for the Commission's consideration options that he has obtained for acquisition of real property needed for state highway improvements. As a result of careful consideration, the Commission approved the closing of the options at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

Assistant Counsel, Mr. Enfield, requested authority to acquire by condemnation a parcel of land consisting of 3.86 acres that is needed from Mr. Ralph W. Almquist et ux for a proposed improvement of the Hayes Hill Section of the Redwood Highway, Josephine County. He explained that Mr. Almquist demands $1,750 for his property, which has been appraised by the local appraisers at $600. In the discussion of this matter, it was brought out that an option was obtained from Mr. Almquist at his price but was not accepted because it was so much higher than the appraised value of the property, but Mr. Almquist will not accept a lesser amount. It now appears that by mistake Mr. Almquist was informed that the State would pay him the amount that he demanded. The Right of Way Engineer suggested, in view of the fact that Mr. Almquist is unwilling to accept the amount of the highest appraisal for his property, that the property be condemned and that an offer of $600 be made for it in connection therewith. This matter was discussed at some length and, due to the fact that a question of ethics is involved, the Commission ordered further negotiation with Mr. Almquist in an endeavor to reach a compromise settlement that would be satisfactory to all concerned. It was understood that, because of the misunderstanding that has developed, Mr. Almquist will be paid the amount he demands for his property if he still insists.

The Right of Way Engineer rendered a status report on the progress of negotiations with the Lloyd Corporation concerning acquisition of right of way needed for the T. H. Banfield Expressway in Portland across the corporation's property. It appears that appraisals are being made by the corporation, and when results are made known, the Right of Way Engineer will report further on the subject. The Commission took no action.

The Right of Way Engineer reported that in connection with the construction of the Summit-Lobster Valley Section of the Alsea-Deadwood Highway, Benton County, it is necessary to remove from the right of way timber belonging to the Federal Government, the value of which is estimated at $86.10. He requested authority to pay the Government such sum. The Commission approved the expenditure unanimously.

The Right of Way Engineer brought up for discussion a proposed settlement of the Taylor case on the Salem-Hayesville Section of US99E involving the fireproofing of Mr. Taylor's building which had to be moved to accommodate a highway improvement. He recalled that the previous estimate to fireproof the building in order to comply with the city ordinance covering such matters was $10,000; however, settlement has finally been reached for $850. He recommended payment of such sum. The Commission approved the recommendation.

The Right of Way Engineer brought up for discussion the disposal of houses located on right of way that is being acquired for the Salem By-pass Section of US99E. He said there are quite a number of houses to be disposed of, and he gave as his feeling that it might be possible to realize more from them if they were sold at public auction. He suggested, as a trial proposition, that he be authorized to dispose of two of the buildings in such manner, and to include in the transaction two lots that the Highway Department owns nearby, on which to reestablish them. As a result of discussion, the Commission approved the suggestion by unanimous vote, as a trial arrangement.

The Commission discussed a report from the Right of Way Engineer on results of negotiations to acquire an addition to Harris Beach State Park in Curry County. The Right of Way Engineer advised that the tract desired by the Commission contains about 35 acres of land, which has been appraised by Mr. Crissy, a local appraiser in Gold Beach, at $21,500, but he believes that it can be bought for the sum of $20,000. Chairman Chandler stated that he could not recommend purchase of the property at such figure, which he considers exorbitant. The Commission decided unanimously not to buy the property.

The Right of Way Engineer reported the results of two appraisals of property that the Commission desires from Mrs. Irene Wiggins as an addition to Wallowa Lake State Park. He advised that the area consists of 33 acres of land and that separate appraisals were made by Messrs. Philo Anderson and Robert E. Williamson, local realtors, each of whom set a value of $42,810 for the property. The Commission considered the price too high; however, in view of the fact that the property is needed if the park is to be enlarged for overnight camping, and there being no other property available for the purpose, the Right of Way Engineer was instructed to contact Mrs. Wiggins and ask her to name the lowest price that she will take for the area.

Consideration was given by the Commission to the matter of deeding to the State Forestry Department certain waysides along the Sunset Highway and the Wilson River Highway, pursuant to previous arrangement with that Department. The Right of Way Engineer recalled that the Commission at its meeting of July 10 and 11, 1950 authorized deeding of such waysides to the Forestry Department in exchange for certain property that the Highway Department needed. He presented five deeds to complete the Highway Commission's obligation in the matter and advised that the Forestry Department is ready to fulfill its part of the arrangement upon receipt of these deeds. He recommended approval and execution of the deeds. The Commission approved the recommendation. (The Deeds were signed by the Commission later in the session).

The Commission discussed and approved an easement agreement with the US Bureau of Reclamation relative to right of way that is needed for improvement of the Nyssa-Adrian Highway in Malheur County. (The Agreement was signed later in the session).

The Right of Way Engineer reported that C. J. Montag & Sons, who some time ago agreed to pay the State $22,500 for fire damage in the Mack Truck Building, Portland, which this contractor was using, now refuses to pay such sum, alleging that the fire was not caused by any negligence on their part and because the building was covered by State fire insurance. He gave as his feeling, in view of the circumstances that the Commission should institute suit to collect the amount. Commissioner Reynolds gave as his thought, if it is necessary to go to that extent, that the Commission should sue to collect $25,000, which is the amount of the State's original claim, rather than for the amount of the compromised settlement. The suggestion was approved by Chairman Chandler and Commissioner McIver, whereupon the Chief Counsel was instructed to take immediate action to collect the full amount of the original claim.

The Right of Way Engineer brought to the Commission's attention a situation that has developed in connection with the renting of the Vanguard property to the Westfall Engineering Company, Portland, said property being located near Halsey Street and 134th Avenue, Portland, having been acquired in connection with a settlement for right of way needed for the T. H. Banfield Expressway. He recalled that the Commission at the previous meeting authorized renting of this property to the Westfall Engineering Company for a six-months' period at $480 per month, but it appears now that the classification of the zone in which the building is located is to be changed and, if this is done, the State will be precluded from continuing the rental arrangement. The matter was discussed at some length and, as a result thereof, the Commission voted unanimously to resist any change in the existing zone classification of this property.

The Chief Counsel brought to the Commission's attention, a proposed exchange of land with Lang Bros. in Sullivan's Gulch. He explained that in acquiring right of way for the T. H. Banfield Expressway, the back end of Lang Bros.' property on which they conduct an upholstery business is being taken. This area, he said, is used by the company for the parking of cars and the stockpiling of materials, and to recompense them for the loss of this area, they suggest that the State deed to them some vacant

land situate about one block distance from their business site. The Right of Way Engineer exhibited a map showing both properties and explained details. The Commission decided not to exchange property at this time but to wait until the highway has been constructed.

The Chief Counsel reported a compromised settlement with Bergman Bros. for some property that is needed as right of way for the widening of Canyon Road (Sunset Highway) near Sylvan in the City of Portland. He explained that an option was obtained from Bergman Bros. at $7,400, which was not accepted because it was considered too high, and before an agreement could be reached in the matter one of the brothers died. The appraisal board appointed by the probate court, he said, appraised the property at $8,000, which sum the remaining brother, Sam Bergman, demanded; however, as a result of continued negotiation, he has finally agreed to accept the sum of $7,000 for the area that the State needs. He recommended payment of such sum. The Commission approved the recommendation.

The Chief Counsel brought up for discussion the claim of the Knappton Towboat Company against the State for damage that occurred to one of its boats by reason of a collision with the Lewis and Clark River drawbridge near Astoria. He recalled that the Commission, at its meeting on July 16, 1951, authorized payment of the claim which amounts to $652, however, he pointed out that, according to law, the Commission cannot settle such claims for an amount in excess of $500. In the discussion, it was brought out that the Commission approved the payment of the full amount of the claim because the evidence disclosed the State to be at fault. Accordingly, the Commission decided unanimously that an endeavor should be made to pay the full amount of the claim.

The Commission discussed briefly a written report from the Chief Counsel dated August 15, 1951 concerning the Marion Street bridge approach in the City of Salem, and the designation of State highway routes in this city. He suggested in support thereof that the Commission at its next meeting adopt a resolution designating the streets in Salem over which State highway traffic is to be routed and later, when the streets have been improved, that the Commission adopt another resolution definitely routing State highway traffic over such streets. The Commission indicated its approval of the recommendation, but took no definite action. (For details, see copy of Chief Counsel's written report in General files).

The Chief Counsel brought up for discussion the question of releasing the final amounts that are due Shoreline Construction Company in connection with three State highway contracts, viz: Contract No. 3011 for rock production on the Brush Creek-Hunter Creek Section of the Oregon Coast Highway, Curry County; Contract No. 3012 for rock production on the Hunter Creek-California State Line Section of the Oregon Coast Highway, Curry County; and Contract No. 3018 for grading and oil mat surfacing on the Odell State Secondary Highway in Hood River County. He advised that a total of about $6,000 is still due the contractor in connection with these jobs, which sum the company's surety is anxious to obtain in order to pay off outstanding

claims against the work. He further stated that Mr. John M. Coke, attorney for the surety, is anxious to secure the funds, and in order to get them, has stated a willingness to furnish a written guarantee to protect the State from all outstanding claims. He recommended release of the funds on such basis. The Commission approved the releasing of the funds by unanimous vote on the condition that such a guaranty is first obtained.

The Chief Counsel also brought to the Commission's attention the termination of a contract awarded Spada Bros., Portland, for construction of the Drake Creek-Adel Section of the Warner Secondary Highway, Lake County, Contract No. 3439. He advised that, pursuant to telephonic authority given by the Commission, this contractor was declared in default on August 17, 1951 by registered letter, and was advised that no further payments would be made to them until the job had been completed and a complete account and report with respect to costs and disbursements and other financial data had been determined. He further stated that, according to the provisions of the contract, the Commission may legally proceed with the work in any manner it sees fit, or may call upon the bonding company to take over the work. The Engineer suggested, in order to expedite completion of the grading work and the placement of sufficient rock to make the road passable this winter, that the Commission authorize him to negotiate a contractor to complete the job. In the discussion of this matter, the Commission unanimously confirmed and approved the action taken declaring this contract to be in default, and authorized the Engineer to negoitate an arrangement with some qualified contractor to complete the project. (For details, see copy of Engineer's letter dated August 17, 1951 in General Files).

The Commission discussed the performance of the contracts awarded to Acme Construction Company. It was the feeling of the Commission that this contractor is not conducting his operations as expeditiously as is possible or as the Commission desires, and there is considerable delay in the completion of its work. The Commission instructed the Engineer to notify this contractor in writing that the Commission expects better performance, and, if the contractor does not comply, the Commission will seriously consider disqualifying it from bidding on future highway contracts.

The Commission also discussed the operations of the Intercity Sand and Gravel Company, who, the records disclose, is dilatory with State highway contracts awarded them. The Engineer was instructed to write a strong letter to this company also giving similar information.

The Chief Counsel reported on the claim of Mr. and Mrs. Scott Haddix, whose small child was injured by tripping over a survey stake. He said that Mr. and Mrs. Haddix have agreed to accept the sum of $500 in full settlement of this claim. The Commission authorized payment of such sum if the Haddixes will release the State from future obligations.

The Chief Counsel brought to the Commission's attention a threatened injunction by Mr. Sam D. Rawson, who has mining rights on cinder pit property in Jefferson County which the Highway Commission controls. He advised that the property on which the cinder pit is located is Government land and the Government has notified Mr. Rawson that he has no rights thereto, and to vacate the premises. The miner, he said, has moved out in accordance with the Government's order but is now suing for damages and is getting out an injunction to stop State work involving the use of this pit. The Commission took no action.

The Engineer rendered a report on preliminary studies of a proposal made by Mr. Howard Hinsdale, Reedsport, for constructing the Reedsport-Koepke Slough Section of the Umpqua Highway on a dredged embankment along the edge of the Umpqua River in lieu of the surveyed route on higher ground. The studies indicate, he said, that the water level route will cost about $68,000 in excess of the hill route, but that the economic advantages of the water level route will approximate $146,000 over the economic advantages of the hill route. He gave as his feeling, in view thereof, that the water level route is preferable. He requested authority to make a detailed survey of the project in order to check the information gathered from the preliminary studies, and to conduct test borings to determine the stability of the materials in the river bed, upon which it is proposed to construct the road embankment. The Commission approved the request unanimously.

The Engineer rendered a progress report with regard to a proposed improvement of the Columbia River Highway at Arlington. He pointed out that any change in the location at Arlington will require the crossing of the Condon Branch of the Union Pacific Railroad, which, under normal conditions, would necessitate a grade separation structure; however, the railroad only operates two trains a week over this line except during the wheat hauling season, so he considers it advisable to substitute a grade crossing if certain changes can be made in the local plant of the Shell Oil Company and the fuel oil system of the railroad company so as to eliminate switching movements across the intersection. He gave figures on the cost to construct the improvement along several relocations that are being considered, and he pointed out a saving of about $400,000 in construction costs if satisfactory arrangements can be made with the Union Pacific Company and company approval of the plan obtained. He also said that the grade crossing plan will be the least detrimental to the town. The Commission indicated its approval of the grade crossing plan as presented, but awaited final decision until the matter has been presented to the railroad company and its reaction obtained.

The Engineer requested authority to conduct a detailed survey of US30 between the foot of Emigrant Hill and Deadman's Pass in Umatilla County. He recalled that he previously rendered a report on a reconnaissance survey between Pendleton and LaGrande, which indicated

high priority for construction of the Emigrant Hill-Deadman's Pass Section; also, that the construction of this section has been provided for in the program for monies derived from the sale of bonds, if the bonds are sold. The Commission unanimously approved making such relocation survey.

The Commission discussed briefly and confirmed the projects that were approved by the Commission at its meeting on August 3, 1951 for forest highway funds as follows:

Project	Amounts in Approved Programs 1951	1952	Alloted Aug. 3, 1951
Douglas Co. Line-Hauser	$ --	$ 600,000	$ 335,000
Hayes Hill-Love Station	--	400,000	415,000
Niagara-Detroit	--	400,000	225,000
Rhododendron Section	--	110,000	115,000
Sled Springs-Forest Boundary	--	260,000	100,000
North Umpqua Highway	750,000	70,000	311,000
Cascade Lakes	100,000	--	50,000

In this connection, the Commission was assured by the Engineer that the monies provided in this program are in addition to monies heretofore authorized for three projects in the previous program, which projects had been deferred because of the lack of funds with which to finance them. The Engineer was instructed to notify the Bureau of Public Roads of the Commission's approval of the program and to secure, if possible, an additional $100,000 allotment for improvement of the Douglas County Line-Hauser Section of the Oregon Coast Highway. He was also instructed to obtain from the Bureau of Public Roads a priority listing of the projects so right of way acquisition can be expedited. The Commission stated its desire to tie in these jobs with the next construction program so as to assure their construction without undue delay. The Commission also stated that it wanted no substitutions made for any of the jobs listed in the program.

The Commission discussed the wording to be used on signs that it wishes placed at the ends of construction projects, giving pertinent information to the public, but deferred a decision in the matter pending receipt of information as to what other states are doing in this regard. The Engineer was instructed to obtain such information.

The Engineer reported that the development of the one-way street project and widening project on US101 at Coos Bay will be completed soon and opened to traffic, which will result in the need for signalized traffic control to regiment and control speed on the main highway, and also to permit cross street traffic to enter and cross the highway. He recommended that signals be installed at three intersections, which he estimated

will cost about $8,000, on the condition that the city pay 50% of the initial expense of the installation, maintain the signals and furnish electrical energy with which to operate them. The Commission deferred a decision in the matter until later in the session. (As a result of later discussion, the Commission authorized the installation of seven signals, three of which are to be installed on Front Street and four on Broadway if the City of Coos Bay will pay 50% of the initial cost, will maintain the signals and will furnish electrical energy to operate them. In the event the city is unable to meet its share of the expenses, then only three signals shall be installed if the city can pay its proportionate share).

The Commission discussed a request from the Siletz Chamber of Commerce for construction of pavement full width between curbs, for a distance of two blocks on the main street in this town. The Engineer estimated the cost of such improvement at $12,500. He also stated that studies reveal only a very small volume of traffic at this place and that there are many other towns in the State which have a higher priority status from such standpoint. He recommended that the request be denied. The Commission approved the recommendation.

Consideration was given by the Commission to a request from the City of Stayton for State cooperation in the widening of four city street intersections to facilitate movement of motor vehicles operating under permit. The City asked the State to contribute 50% of the cost which is estimated at $2,000, and the city agrees to arrange for the moving of power poles belonging to the Mountain States Power Co. The Engineer advised that the four points mentioned are right angle turns on the route of the North Santiam Highway, which cannot be negotiated by truck tractor and full trailer equipment 60 feet over-all in length without encroachment in the opposing lane of traffic, whereas no such encroachment will be necessary if the proposed widening work were done. He recommended approval of the city's request, the work to be done by State forces as a minor betterment project. The Commission approved the recommendation.

The Engineer requested authority for an expenditure of approximately $17,000 to clean up surplus rock which has sloughed into the old Oneonta slide borrow pit, just east of Multnomah Falls. He said there are about 8,000 cubic yards of rock material that should be removed and that this material can be used for riprapping slopes on the new highway grade, where there is evidence that the Columbia River has been cutting into the highway embankment. He also said that the work should be done before the winter season sets in, and that if authorized by the Commission, the project will be contracted, bids to be received at the September 12, 1951 meeting of the Commission. The Commission approved the expenditure unanimously.

The Commission discussed a request from the US Geological Survey that the Highway Department cooperate with the Geological Survey on a 50-50 basis in a water way study to determine needed sizes of culverts and bridge structures across water ways, and to gain information as to the needed height of grade lines in order to avoid floods. The estimated cost of such study is $10,000, which is to be paid 50% by the Geological Survey and 50% by the State. The Engineer recommended approval of the arrangement. The Commission approved the recommendation.

A petition was presented from the citizens of Eddyville and Nashville for improvement of the Eddyville-Blodgett State Secondary Highway between these two towns. The Engineer advised that the section of highway referred to is 12 miles long and he estimated the cost to widen the roadbed from 16 feet to 26 feet, including resurfacing and oiling, at $450,000. He pointed out that the average daily traffic on this road is less than 80 cars, and he recommended approval of an expenditure of $35,000 in the 1952 minor betterment program to cover the estimated cost of widening 40 curves from 15 feet to 20 feet, to extend culverts and to surface the widened sections. The Commission approved the recommendation.

The Engineer reported that the following cities and towns have met the legal requirements with respect to expenditure of state tax street funds that accrued to them during the second six-month period of 1950 and that the plans for the work contemplated with such funds has been approved and found satisfactory:

Athena	$2,306.92
Butte Falls	1,145.78
Cascade Locks	2,248.56
Chiloquin	2,030.46
Coburg	2,128.76
Falls City	2,604.88
Hammond	1,585.05
Juntura	331.75
Long Creek	869.32
Oakland	2,534.23
Richland	675.80
Stanfield	2,592.60
Talent	2,242.41

He also reported that the towns of Bay City and Nehalem have met the legal requirements with respect to the expenditure of state tax street funds that accrued to them during the first six-month period of 1951 and that the plans of these two towns for contemplated improvements have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto marked EXHIBITS "B" and "C", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer reported satisfaction of conditions governing the award of the following contracts:

(1) Grading and paving Nyssa-Adrian Section of Nyssa-Adrian Secondary Highway, Malheur County. Bids received July 17, 1951. Low bidder, Babler Bros. Inc. Conditions satisfied August 14.

(2) Locust Street-Bower Street pavement widening project in Nyssa, Malheur County. Bids received July 17. Low bidder, Babler Bros., Inc. Conditions satisfied August 14.

(3) Construction of Hood River-Mosier Section of the Columbia River Highway. Bids received July 16. Low bidder, Parker-Schram Co. Conditions satisfied August 14.

(4) Grading and paving Hayesville-Salem Section of US99E, Marion County. Bids received July 17. Low bidder, D & H Paving Co. Conditions satisfied August 13.

The Commission adopted the report by unanimous vote.

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. Macco Corporation, Contract No. 3009, for construction of a bridge over the Willamette River at Independence in Marion and Polk Counties, requested an additional extension of time of 225 days from November 30, 1950, to July 13, 1951, within which to complete this job. They alleged that in the fall of 1950, they were ordered to postpone all structural steel and metal handrail painting until suitable weather in the spring of 1951. The Engineer advised that this is the third extension of time on this job, the first of which was granted without penalty to, and including August 31, 1950, provided the structure could be placed in use on that date, but that all engineering costs subsequent to that date be assessed against the contractor. He said that the bridge was not ready for use by that time nor at the expiration of the second extension that was granted. He recommended, in view thereof, that this third extension of time be granted subject to assessment against the contractor of all engineering costs incurred by the State since August 31, 1950. The Commission approved the recommendation. (See FOOTNOTE)

2. General Construction Company, Contract No. 3454, for redecking, paving and lighting work on the upper deck of the Steel Bridge on the Pacific Highway West in Portland, Multnomah County, requested an extension of time of 62 days from July 31, 1951, to October 1, 1951, within which to complete this job. They alleged that

all work had been done and traffic routed over the bridge by July 31st; that the only work remaining was some electrical work which would be completed in August if possible to secure delivery of necessary material, and the application of the seal coat which was ordered postponed by the Engineer in order to observe the deck "as is" before placing the seal coat. The Engineer advised that the redecking work, except for sealing the asphaltic concrete pavement which had been ordered deferred, and for a small amount of electrical work for which the material had not yet arrived, was completed and the bridge opened to traffic prior to the expiration of the specified time limit. He recommended that the extension of time as requested, be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

3. C. J. Montag & Sons, Contract No. 3236, for bridge construction and road work on the Tillamook Street-Broadway Bridge Section of the Pacific Highway West, in Portland, Multnomah County, requested an additional extension of time of 92 days from August 1 to October 31, 1951, within which to complete this job. They alleged that they had failed to complete the job within the limits of the first extension of time due to the Engineer's request to use a finishing machine on the surfacing which could not be done until the grading on an adjoining project had been completed. The Engineer reported that this second extension was requested so that the paving of the approach roadway could be done at the same time that the paving of the adjoining section between the Steel Bridge and the Broadway Bridge was accomplished. By so doing, he said, the contractor would be enabled to use machine finishing methods which would provide a better riding surface on the pavement. He recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

4. A. H. Saxton & Sons, Contract No. 3411, for guard rail and bituminous macadam surfacing on the Sand Station-Washington State line Section of the Columbia River Highway in Umatilla County, requested an extension of time of 31 days, from July 31 to August 31, 1951, within which to complete this job. They alleged that their failure to complete the job within the specified time limit was due to scarcity of skilled labor for the guard rail construction. The Engineer reported that all of the bituminous macadam surfacing was completed within the required time limit, but due to scarcity of skilled labor the contractor was unable to complete the guard fence construction within the time limit. He further advised there has been neither inconvenience to the traveling public, nor added expense to the State, because of the delay, and he recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

5. Roy L. Houck & Son, Contract No. 3367, for oil mat surfacing on the Meridian Dam detours on the Willamette Highway in Lane County, requested an extension of time of 236 days from September 30,

1950, to May 23, 1951, within which to complete this job. They alleged that failure of the contractors who were performing the grading work for the U. S. Army engineers to complete their contracts prevented completion of the surfacing work within the specified time limit. The Engineer reported that the reason given by the contractor for overrunning the specified time limit is correct. In view thereof, he recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

6. Russell Olson Construction Company, Contract No. 3406, for grading and oil-mat surfacing on the West Fillmore Street Section in the City of Burns, Harney County, requested an extension of time of 62 days, from June 30 to August 31, 1951, within which to complete this job. The company alleged that additional time is required to obtain sufficient mineral aggregates in correct sizes. The Engineer advised that because of the small amount of oil aggregate required on the project, the contractor had waited until a crushing plant had been set up near Burns in order to obtain his material. The non-completion of the project within the specified time limit, he said, has caused no inconvenience to the public, nor extra expense to the State, and he therefore recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

7. Portland Construction Company, Contract No. 3500, for landscaping on the Lombard-Killingsworth Section of the Northeast Portland Secondary Highway in Multnomah County, requested an extension of time of 30 days from July 31 to August 31, 1951, within which to complete this job. They stated that the additional time is required in order to complete germination of the lawn and three required mowings. Also, that the extreme hot weather delayed for ten days the planting of ivy. The Engineer advised that due to slow germination of the grass seed, the contractor was unable to do the mowing as was required by the contract provisions, and twenty days additional time were needed to determine whether or not any damage had resulted to the lawn from spraying with weed killer. He recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

8. Inter City Sand & Gravel Company, Inc., Contract No. 3300, for grading and oil-mat surfacing on the Port Orford Section of the Oregon Coast Highway in Curry County, requested an extension of time of 276 days from September 30, 1950, to July 4, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to delays in connection with the grading operations, beyond their control, and to difficulties in securing cement deliveries. The Engineer advised that although the contractor had been somewhat lax in prosecuting his

work, he was materially delayed by failure of utility companies to move water lines and power poles. This moving which was started in May of 1950, was not completed until August 23rd, thereby preventing the contractor from completing the oil work during the summer season. He recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

9. Warren Northwest Inc., Contract No. 3508, for grading and paving the Salem (Lana Avenue-Academy Street) Section of the Pacific Highway East, in Marion County, requested an extension of time of 31 days, from July 31 to August 31, 1951, within which to complete this job. They alleged that they were unable to complete the work within the specified time limit due to failure of utility companies to adjust their facilities which were in the way of construction. The Engineer stated that the contractor was delayed approximately 80 days due to failure of the power, water and gas companies to move their utilities. He recommended, in view of the fact that the delay was no fault of the contractor, that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (See FOOTNOTE)

10. Spada Bros., Contract No. 3439, for grading and oil-mat surfacing on the Drake Creek-Adel Section of the Warner Secondary Highway in Lake County, requested an extension of time of 335 days from August 31, 1951, to July 31, 1952, within which to complete this job. They attributed their failure to complete the work within the specified time limit to break-down of equipment; inability to secure repair parts; insufficiency of rock in specified quarries, and inadequate capacity of the sub-contractor's crushing and screening plant. The Engineer advised that investigations do not substantiate the contractor's claims, but point to dilatory practices on his part. The contractor, he stated, has provided neither adequate equipment, nor proper supervision, and the rock formations encountered have not been unduly difficult to handle. In view of these findings, he recommended that the extension of time as requested, be granted, subject to the condition that the contractor be required to pay, as a penalty, all engineering costs that the State incurs in connection with this job from August 31, 1951 until the job is completed. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

11. Peter Kiewit Sons Co., Contract No. 3289, for grading and bituminous macadam surfacing on the Barclay Springs-Algoma Section of The Dalles-California Highway in Klamath County, requested an extension of time of 30 days from July 31 to August 31, 1951, within which to complete this job. They attributed the overrun in time limit to more solid rock excavation than was anticipated and to difficulty in securing competent men to lay the dry rubble masonry wall. The Engineer advised that the reasons given by the contractor for the delay are correct. The contractor, he said, did exceptionally good work, and

there has been no inconvenience to the public, nor additional expense to the State. He recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

12. Berke Bros., Contract No. 3448, for grading the Willow Creek-Boardman Section of the Columbia River Highway in Morrow and Gilliam Counties, requested an extension of time of 45 days from August 1 to September 14, 1951, within which to complete this job. They alleged that they were prevented from completing the contract within the specified time limit due to (1) delay in awarding the contract, (2) poor performance by a sub-contractor, (3) re-grading on the underpass at the request of the resident engineer. The Engineer advised that although bids were received on the project on November 10, 1950, the contract was not awarded until January 5, 1951, due to right of way difficulties on property acquired from the U. S. Government. Also, the contractor was required to do additional work on the underpass approaches between the Stanfield-Boardman Highway and the old Columbia River Highway. In view of the circumstances, he recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3196, 3238, 3300, 3384, 3396, 3428, 3460, 3465, 3489, 3493, 3506, 3517, 3518, 3524 and 3527 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported receipt of information from the City of Portland that there is urgent need for the installation of signals and channelization on Burnside Street (Columbia River Highway) between Second Avenue and Sixteenth Avenue, and a request that such project be given priority over the proposed channelizing of the Columbia River

Highway at the intersections of N. W. 18th and 19th Avenues. He recalled that the 1951 minor betterment budget contains an item of $20,000 for channelization work at N. W. 18th Avenue and at N. W. 19th Avenue conditioned upon the City of Portland contributing a like sum, and he recommended that such sum be transferred to the Burnside Street signalization and channelization project, which recent investigations indicate is urgently needed, provided the City of Portland will contribute a like amount for this purpose, the estimated total cost being $40,000. The Commission approved such transfer of funds unanimously on the condition that the city contributes an equal amount.

Consideration was given by the Commission to the payment of the cost of repairing neon signs, at the following urban locations, which were damaged by members of survey parties:

(1) Sign owned by the Economy Drug Store in Sweet Home, damaged by a Mr. Bladorn, rodman on the crew; repair cost $29.50;

(2) Neon sign owned by Atseff Bros. Grocery near Larrabee Street, Portland, damaged by a member of the survey crew working under Resident Manager, D. J. Barbee; repair cost $21.10.

He said that there appears to be no evidence of negligence in either case, and he recommended payment of both claims. The Commission approved the recommendation.

A request was presented from the Cannon Beach Chamber of Commerce for permission to maintain a 155 mm cannon on State-owned property at Cannon Beach. The Engineer advised that the location desired is at the junction of the old and new highways just north of Cannon Beach, and that there is ample room for the installation. He gave as his feeling that no particular hazard would result from the installation and he recommended approval of the request. The Commission approved the recommendation.

The Commission discussed and approved an agreement with Malheur County providing for disposal of portions of the Nyssa-Adrian State Secondary Highway (old route) when the new highway has been constructed. (The agreement was signed later in the session.)

The Commission discussed and approved a request from the County Court of Wallowa County that it be given the steel that is salvaged from two small bridges that are being replaced on the State Highway near Wallowa Lake.

The Commission also considered and approved a request from the County Court of Union County that it be given the steel that is salvaged from two bridges that are being replaced on the Starkey Secondary Highway.

The Engineer brought up for discussion a request from people of Milwaukie and Oregon City for permission to erect on each side of the

Clackamas River Bridge on US99E near Gladstone signs, about five feet by seven feet in dimension, bearing the wording "Clackamas River Sportsmen's Paradise". The Engineer advised that he has viewed the signs which are similar to those being maintained in Central Oregon marking the boundaries of the Deschutes Recreational Area, and that it appears to him that they do not advertise any private enterprise, but simply point out the recreational features of this area. He recommended that a 30-day revocable permit be given to the sponsors of the signs. The Commission approved the recommendation.

A request was presented from the Columbia River Fishermen's Protective Union for elimination, during the current fishing season, of the last round trip of the Astoria-Megler ferry, which leaves Astoria daily at 10:15 p. m. The Engineer advised that this matter comes up by reason of the damage that sometimes occurs to gill nets which fishermen maintain in the river and which drift with the tide. The matter has been investigated, he said, and the records show that, between August 1 and 12 this year, twelve fish nets were crossed on the last ferry trip sailing from Astoria at 10:15 p. m. and that during the same period 33 fish nets, or 50 percent more, were crossed by the ferry on the next to the last ferry trip, which left Astoria at 8:45 p. m. He also said that the contractor who operates the ferry boats is unwilling to make any reduction in his contract price for the elimination of the last trip, due to the fact that his personnel are employed on a shift basis. He recommended, in view of the findings, that the request of the Columbia River Fishermen's Protective Union be denied. The Commission approved the recommendation.

The Commission had under discussion an application from Mrs. Grace Nelson, John Day, Oregon, to operate a mining claim adjacent to the John Day Highway between John Day and Canyon City. Mrs. Nelson states that her operations are on the hillside above the highway, where there is no place for her to deposit waste materials, and she asks permission to transport such materials under and across the highway. The Engineer advised that, according to the Commission's Legal Counsel, Mrs. Nelson has the right to operate her mining claim in any manner she desires, so long as the operation does not conflict with, or inconvenience, motor vehicle traffic. He recommended that permission be granted to Mrs. Nelson to install a seven-foot, corrigated galvanized iron pipe under the highway, subject to the standard provisions that are contained in all pipe line permits, and provided she will pay the entire cost of such installation which is estimated at about $3,000. The Commission approved the recommendation.

The Engineer reported a request from the U. S. Army Engineers that something be done to control traffic along the North Santiam Highway (No. 162) during the construction of the Big Cliff Dam about three miles below the Detroit Dam. A field observation, made in cooperation with the U. S. Army Engineers, he said, indicates that a 25-mile per hour speed zone should be established on this road between M. P. 37.36 and M. P. 36.86, and that a "NO PARKING ON HIGHWAY SHOULDERS" regulation should be made effective between the same points. He recommended approval of both reduced speed zone and

parking regulation. The Commission approved the recommendation unanimously by adoption of the attached resolutions relative thereto marked EXHIBITS "E-1" and "E-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission approved the expenditure of $4,000 of State Highway funds for purchase of additional miscellaneous office and engineering equipment and furniture, including $1,175 for the Right of Way Department and $450 for the Construction Department.

The Commission considered and approved a report by the Secretary on papers that he has signed in behalf of the Commission during the month ending August 20, 1951, pursuant to a resolution adopted by the Commission at its previous meeting.

A letter was presented from Mr. John A. Laing, Chairman of the Advisory Committee on travel matters, recommending in behalf of the committee that the following persons be appointed as members of this committee to fill the vacancies caused by death or otherwise and to increase the membership of the Committee from thirteen to fourteen persons:

(1) J. W. Forrester, Jr., Vice-president, East Oregonian Publishing Co., Pendleton, to fill the vacancy caused by the death of Mr. E. P. Aldrich of Pendleton.

(2) Mitchell C. Thorn, Pacific Power & Light Co., The Dalles, to fill the vacancy caused by the death of Hugh Ball of Hood River.

(3) Paul L. Patterson, attorney-at-law, Hillsboro, to fill the vacancy caused by the death of Mr. Ralph A. Coan, Portland.

(4) Robert C. Notson, Managing Editor, The Oregonian, Portland, to fill the vacancy caused by the resignation of Arden X. Pangborn, Portland.

(5) Vern Tinnerstet, Manager, Oregon Coast Association, Tillamook, to fill the newly created membership.

The Commission by unanimous vote approved the appointment of all the persons recommended by the Travel Advisory Committee and instructed the Secretary to convey to each of the appointees notification of their appointments and to ascertain whether or not they are willing to serve the State in this capacity.

The Commission unanimously approved attendance of Mr. W. C. Williams, First Assistant State Highway Engineer, at a meeting of the Test Road Committee of the Western Association of State Highway Officials in San Francisco during August 22 and 23, 1951; estimated expense $82.50. In this connection, the Engineer presented for the Commission's approval

and execution an agreement with the National Academy of Sciences, Detlev W. Bronk, President, covering construction of the test road. He recalled that the Commission previously authorized a maximum contribution of $30,000 for this purpose in conjunction with other cooperating states; however, he said, a sufficient number of states are joining in the undertaking, so that each will not be required to contribute more than $20,000, which sum the agreement provides for. He explained further details, and requested authority to sign the agreement on behalf of the Commission. As a result of discussion, the Commission approved the authority requested.

The Commission also authorized Robert C. Blensly of the Traffic Engineering Department to go to Olympia, Washington, at State expense during the week of August 27, 1951 to obtain data on truck fees for use by the Highway Legislative Interim Committee; estimated expense $30.

The Engineer reported that during the redecking of the Steel Bridge in Portland, approximately 100 tons of street car rails were salvaged. He advised that the material is of no value for State highway purposes, and he requested authority to advertise it for sale. The Commission approved the request.

The Engineer advised that reconstruction of the Oregon Coast Highway between Hauser and North Bend will involve construction of bridges over North Slough and Haines Inlet, which are considered navigable bodies of water, and, before the bridges can be built, permits must be obtained from the U. S. Army Engineers, authorizing such construction. He also pointed out the need to secure a similar permit from the U. S. Army Engineers for construction of a new bridge across Scholfield River on the Oregon Coast Highway at Reedsport. He requested authority to file applications with the Army Engineers for necessary permits. The Commission approved the request by unanimous vote.

The Commission discussed and approved an agreement with Marion County and the City of Woodburn pertaining to rerouting the Hillsboro-Silverton Secondary Highway for a distance of about two blocks on East Young Street easterly from its intersection with Pacific Highway East, in Woodburn. (The agreement was signed later in the session.)

The Commission considered the disposition to be made of the old route of the West Unit, Deschutes County Line-Prineville Section of the O'Neil State Secondary Highway, Crook County, which has been rendered valueless for State highway purposes since the highway has been reconstructed on revised alignment. The Engineer exhibited a map showing the old route and the revised route, and he pointed out that only about seven hundred feet of the old road are concerned at this time. He recommended that this short section be surrendered to the County Court of Crook County to be used for county purposes or

vacated as the County Court may determine. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported a request from the County Court of Wasco County for improvement of the connection between The Dalles-California Highway (ORE23) and the Columbia River Highway (US30) in order to lessen the hazards that presently exist in such connection. He explained that the existing connection between these two highways is on a very flat angle, which makes it extremely difficult and hazardous for east bound traffic from ORE23 to make the turn to US30, and for west bound traffic from US30 to make the turn on to ORE23. When the new bridge across the Columbia River is opened to traffic, he said, there is bound to be a heavy increase in traffic movements turning easterly from The Dalles-California Highway to the bridge which will definitely accentuate the hazards. To relieve this situation, he stated, will necessitate reconstruction of the intersection, which is estimated to cost $22,600. He recommended, in view of the fact that Wasco County is going to spend about $52,000 to widen and otherwise improve a section of US30 at its connection with the bridge approach road, that the State assume the obligation to improve the connection between ORE23 and US30; and, in order to satisfy the legal requirements with respect to the expenditure of State highway funds, that an arrangement be made with the county whereby the work will be done by the county's contractor, the State to reimburse the county for the costs thereof. The Chief Counsel advised that such an arrangement will satisfy the legal requirements. As a result of discussion, the Commission unanimously approved the project on the basis of the Engineer's explanation.

The Engineer reported on a recent order by the Maintenance Engineer prohibiting the parking of employees' cars in the La Grande equipment storage sheds. He said that there are 78 employees, including eight members of the State Police, who work at this plant, and that these personnel drive a total of 38 cars to work, seven of whom park their cars on Adams Street, fourteen on Willow Street, two in the opening inside of the highway fence, and fifteen in the open equipment storage shed By permitting the employees to park in the storage shed, he said, leaves insufficient covered storage space for official cars, some of which are now parked in the open. He recommended, since all of the covered storage now utilized by the fifteen employees is necessary for the storage of official cars and equipment, that all of the employees be required to park their cars outside the fenced property, and that as an accomodation to them, the State purchase Lots 2, 3, and 4 of Block 3, Karr's Subdivision, located directly across Willow Street from the highway shop premises. He estimated the cost of the property at $1,000 and the cost to gravel the area at approximately $600. It was the feeling of the Commission that space should be provided for the employees to park their cars, if they are not allowed to park them on the shop premises. Accordingly, the Commission authorized the purchase of the lots mentioned by the Engineer at the price quoted, and also authorized an expenditure of $600 to gravel the area.

The meeting recessed for luncheon at 12:00 noon, and reconvened at 2:00 p.m. with the same persons present and participating.

At 2:00 p.m., bids as follows for highway construction projects were opened and read aloud by the Secretary in conformance with previously published notice, at the conclusion of which, the Secretary, pursuant to the request of the Chairman, announced that the awards of contracts would be made at 5:00 p.m.

BAKER COUNTY
HUNTINGTON MAINTENANCE BUILDING

Swendig and Son, Redmond	$12,430.00
Gilbert Roberts, Hood River	12,781.00
Johnson Construction Company, Ontario	12,805.00
Loree Building Service, La Grande	12,983.48
Arnold Arends, La Grande	13,207.60
H. J. and H. W. Miller, Baker	14,245.00

OREGON COAST HIGHWAY IN CLATSOP COUNTY
CANNON BEACH-ARCADIA SECTION

C. H. Grimstad & T. Vanderveldt and Heavy Hauling Co., Astoria	$417,656.00
Leonard & Slate Oregon Limited, Portland	443,774.50
C. J. Eldon, Portland	444,315.50
Natt McDougal, Portland	446,634.00
K. L. Goulter & Co., Seattle, Washington	447,427.50

COOS COUNTY
MAINTENANCE BUILDING AT BRIDGE

Gilbert Roberts, Hood River	$13,781.00
Ausland and Dodson, Ashland	15,729.00
H. G. Wirtz, Grants Pass	16,060.00

OREGON COAST HIGHWAY IN COOS COUNTY
COOS BAY (GREENWOOD AVENUE-MARKET AVENUE) SECTION

Portland Construction Company, Portland	$7,170.28
Knight Pearcy Nursery and Parkrose Nursery, Portland	7,386.50

WASCO-HEPPNER HIGHWAY IN GILLIAM COUNTY
EAST COTTONWOOD CANYON SECTION

E. H. Itchner Company, Molalla	$22,839.00
John A. Logan, Portland	30,074.50
Newport Construction Company, Portland	39,416.00

LINN COUNTY
SWEET HOME ("K" AND "L" STREETS) PAVING

Warren Northwest Inc., Portland (FOOTNOTE)	$20,517.50

WARM SPRINGS HIGHWAY IN WASCO COUNTY
FOREST BOUNDARY-MILL CREEK SECTION

Babler and Rogers, Portland	$338,690.00
Warren Northwest Inc., Portland	349,680.00
J. C. Compton Company, McMinnville	354,800.00
E. C. Hall Company, Portland	374,155.00
Acme Construction Company, Eugene	375,695.00
Porter W. Yett, Portland	375,985.00
J. N. Conley, Portland	376,210.00
Parker-Schram Company, Portland	420,365.00
Newport Construction Company, Portland	437,116.00

The Engineer reported the results of a reconnaissance survey of the Valley Section of the Alicel-Cove Market Road in Union County, the improvement of which section has been requested by the Union County Court. He advised that this section is 7.66 miles in length and that it connects with Federal Aid Secondary Highway No. 479 at its northerly end and at the southerly end it connects with the Cove State Secondary Highway. Further, that the investigation reveals that over a major portion of the section, it would be necessary not only to widen the existing grade but also to raise it at numerous points where the subgrade is unstable, before the roadway could be oiled. He estimated the cost of such improvement at approximately $205,000. The road, he said, serves a prosperous farming area, and the project is meritorious. He pointed out that it is not a designated Federal Aid Secondary Highway, so it will be necessary to extend Federal Aid Secondary Highway No. 479 to include it if Federal funds are to be used to finance the work. He questioned the advisability of doing that until other roads that now are on this system have been improved. He recommended that action on the County Court's request be deferred pending completion of the study that he is now making of the status of county roads that have been designated Federal Aid Secondary highways. Commissioner Reynolds remarked that this road is in the same category as other roads in Umatilla County and in Baker County, which the county courts of those counties have asked to be improved, and concerning which the Engineer has been requested to report. The Engineer stated that he is now assembling information for his state-wide report on this subject which will be rendered as soon as he can assemble necessary material. As a

---

(FOOTNOTE) This bid is accepted, and the Engineer is instructed to have contract prepared and offered to contractor for execution as soon as City of Sweet Home makes provision for the cost of the project in excess of $15,000, which amount will be advanced by the State.

result of discussion, the Commission adopted the Engineer's recommendation. The Engineer was instructed to direct a letter to all county courts which have requested additions to the Federal Aid Secondary Highway system, advising them of the Commission's attitude with respect to adding additional mileage to the system until improvement of the roads now on the system is further advanced.

There was brought up for discussion a report rendered by the Engineer at the previous meeting giving reasons why the engineering costs have overrun on projects completed during the first six months of 1951. The Engineer advised that he is unable to give any better explanation of the overruns than were given in his previous report. He was cautioned by the Commission to keep the overruns down as much as possible.

The Commission discussed a request from Mr. Fred Kiddle, Island City, for improvement of the Wallowa Lake Highway between Island City and La Grande. The Engineer advised that this section is 2.41 miles in length and that the right of way is 60 feet, pavement is 18 feet wide, with a pathway five feet wide. He estimated the cost to provide a 24-foot pavement with five-foot shoulders and three-inch resurfacing at $50,000. He also said that it is a merited project when the Commission has funds that can be spared to finance it. He suggested that it be kept in mind for future undertaking. The Commission approved the suggestion and instructed the Engineer to advise Mr. Kiddle of the action taken.

The Engineer requested instructions as to the rpocedure to be followed in connection with the issuance of Group I and Group II permits under the provisions of Chapter 405, Oregon Laws 1951, which became effective on August 2, 1951. He pointed out that this law, which has been referred to as the "big truck" bill, necessitates rewriting of log hauling Group I and Group II permits for about 5,000 operators, some 450 of whom have approximately 650 citations outstanding against them for violations of the weight and dimension laws. Some of the violators, he said, have headquarters outside of the State of Oregon, and it is rather difficult for the State Police to serve warrants on them due to the inability to locate the truck drivers. He suggested that an effective means of clearing up these old cases would be to refuse to issue new permits on a permanent basis until the outstanding citations have been disposed of. Accordingly, he recommended the granting of permits on a temporary basis (30-45 days), and that a letter of explanation be sent to the permittee stating that the renewal of his permit on a permanent basis will be refused until the outstanding citations in the justice or district courts have been satisfactorily disposed of. It was the feeling of the Commission that these outstanding cases should not be overlooked, and that the operators should be required to clear them before securing new permits. Accordingly the Commission unanimously approved the Engineer's recommendation, and so ordered.

The Engineer reported the results of investigations that have been made of a possible revision of US101 through the Town of Yachats

along the line suggested by Mr. M. E. Sherwood, owner of Sherwood Lodge. He said the investigation reveals that the routing proposed by Mr. Sherwood is very impractical in that it would result in the destruction of twelve residences and would greatly increase right of way costs. Moreover, the route would follow the toe of a hill, which would require a cut approximately 80 feet deep through slide material, and, were the cut made, it very likely would result in serious damage to numerous residences other than those on the highway right of way. He recommended against the adoption of the route suggested by Mr. Sherwood. The Commission approved the recommendation and ordered that Mr. Sherwood be informed that the Commission finds no particular need to construct any revision of the highway at this point now.

The Commission discussed a request from Mr. K. E. Elliott, who represents Pope & Talbot Company's Lumber Division, concerning traffic conditions along the Albany-Corvallis Highway about one mile north of Corvallis, and a communication from the Benton County Court requesting correction of log truck parking conditions at such point. The Engineer advised that the Pope & Talbot Company operates a log dump in the Willamette River at this location, and immediately adjacent thereto there is another log dump, which is operated by the West Oregon Lumber Company. It appears that there is adequate storage area for waiting log trucks entirely off the highway right of way at the Pope & Talbot dump, but there is not sufficient storage area at the West Oregon Lumber Company's dump. Consequently, logging trucks destined for the latter mentioned dump use the highway shoulder for storage area, which shortens the sight distance along the highway at the Pope & Talbot dump and interferes with the operations of this company. The Engineer stated that a desirable solution for the problem would be to provide a more adequate off highway storage area, but property ownerships preclude such treatment, so in lieu thereof, he recommended that the West Oregon Lumber Company be granted a revocable permit to construct and maintain a storage area along the easterly side of the highway beyond the normal highway shoulder strip and as close to the right of way line as is possible, particularly between Engineer Stations 486 and 488, the work to be performed in conformity with State Highway Department plans and specifications but at the sole expense of the company. He also recommended prohibition of any vehicular parking on the highway shoulders on both sides of this highway between M. P. 1.15 and M. P. 1.44. As a result of discussion, the Commission unanimously approved the recommendation of the Engineer as to granting a revolcable permit to the West Oregon Lumber Company, and as to the "NO PARKING" regulation. The attached resolution prohibiting parking of vehicles on the highway as recommended by the Engineer, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The Commission discussed and approved an agreement with the City of Canby covering the installation of traffic signals at the intersection of Molalla Avenue and Pacific Highway East in Canby. The Engineer advised that this installation was previously approved by the Commission

and that the City of Canby has already deposited with the Commission its warrant for $1,900, representing its proportionate share of the expense. (The Agreement was signed later in the session.)

The Commission discussed with members of the State Highway Commission of the State of Washington and its engineering staff, a plan for the relief of traffic congestion that presently exists on the Interstate Bridge between Portland, Ore. and Vancouver, Wash. involving construction of an adequate facility for present and future traffic needs between these two population centers. Those present representing the Washington State Highway Department were Fred Redman, Chairman; L. B. Wallace, Judge Simpson and Ray Mosio, Commissioners; Wm. Bugge, Highway Director; O. R. Dinsmore, Assistant Director; Paul McKay, District Engineer; and Herbert G. Higgins, Traffic Supervisor. Mr. Redman briefly stated their problem and called upon Mr. Bugge to explain details.

Mr. Bugge presented a written report on the subject which, he said, was prepared as a result of joint investigations conducted by the engineering staffs of the Highway Departments of both states to find some way to relieve traffic congestion that now occurs on the existing bridge, especially during peak hours when there is a definite hazard, and to provide a satisfactory facility to handle anticipated future traffic needs. Mr. Bugge explained that the report is the result of exhaustive studies made at a number of proposed bridge sites, including (1) 82d Avenue, (2) 39th Avenue, (3) Interstate Bridge via Interstate Avenue and (3alternate) via Delaware Avenue, (4) tunnels under the Columbia River near the present bridge site,and a location near St. Johns. Also carefully considered, he said, was the type of facility that would best meet the requirements. As a result of the studies, he stated, mutual agreement has been reached among the engineers of both departments that a bridge of the low level type constructed parallel to and only a short distance down stream from the existing bridge is feasible, offers the most favorable solution of the problem, and will be the cheapest facility to construct. He read aloud from the report conclusions reached by the engineers, which conclusions, he said, are based on factual information covering both traffic and economic features, and are the results of several years' study by the engineers of both departments. (There follows a copy of the conclusions contained in the report):

"CONCLUSIONS"

"The traffic studies point to the conclusion that the present Interstate Bridge will satisfactorily carry the traffic until 1960, provided adequate connections are built on the Vancouver side. The traffic and economic studies indicate positively that the present site offers most feasible location for the building of the additional bridge when necessary. Therefore, it is recommended

that a low-level lift bridge over the Columbia River, parallel and adjacent to the existing bridge, be built when traffic requires it and that proper connections on the Oregon side, as described under Alternate Route No. 3, be undertaken at the same time. Adequate connections to the Washington side of the present bridge by way of the Vancouver Freeway should be constructed as early as possible so that proper approach facilities may be available."

In the ensuing discussion, Chairman Chandler gave as his understanding that the Washington State Highway Commission wishes an expression from the Oregon State Highway Commission as to the action that Oregon will take in the future regarding construction of a parallel bridge as recommended in the report and assurance that, when traffic warrants and the State of Oregon has the money, it will approve the bridge project if the State of Washington constructs a "freeway" through the City of Vancouver. Mr. Bugge replied in the affirmative. Chairman Chandler then stated that the members of the Oregon State Highway Commission as now constituted, look with favor on the bridge project as outlined in the report and that when the proper time comes, if they are still serving, will cooperate with the Washington Highway Department to the fullest extent. He gave as his feeling that future Highway Commissions of the State of Oregon will do likewise, although, he said, the present Commission cannot speak for future Commissions.

Mr. Bugge pointed out that, while the additional bridge will not be required until about 1960, nevertheless initial studies of the project should be gotten under way in the not distant future in order to avoid possible delays. Mr. R. H. Baldock, Oregon State Highway Engineer, stated that, according to his thinking, preparation of the plans for the new bridge and its construction will require about five years time and plans should be started before too long if the bridge is to be ready for use by 1960. Chairman Chandler again remarked that the members of the present Highway Commission will be ready definitely to approve the project at that time if they are still serving on the Commission, but, he repeated, this Commission cannot tie the hands of any future Commission. Mr. Bugge asked for approval of the recommended bridge location because of the immediate effect it has on the planning of the Washington State Highway Department for construction of the "Vancouver freeway". The bridge matter, he said, definitely fits into the plans for such freeway, and the location is of primary importance at this time. He was assured by Chairman Chandler that the Oregon State Highway Commission will approve the bridge and the project as planned at the proper time if recommended by its Engineering Department. Commissioners Reynolds and McIver concurred. Chairman Redman of the Washington State Highway Commission mentioned that the State of Washington has an approved bond issue to finance its project. He suggested an appropriate agreement between the two states covering the arrangement as recommended in the report, and reasonable assurance from the Oregon State Highway Commission that the bridge will be constructed at the selected site. Chairman Chandler advised that there will be no disagreement regarding the matter and that Oregon will "tie in" its improvement

with the Washington project when the time is propitious if the Engineers are in agreement. Mr. Bugge requested a letter from the Commission regarding its approval of the plan as presented. The Commission authorized the Engineer to send such letter. The following press release briefly outlining the action taken at this conference was unanimously approved by both Commissions:

"The traffic studies point to the conclusion that the present Interstate Bridge will satisfactorily carry the traffic until about 1960, provided adequate connections are built on the Vancouver side now. Studies have been made as to five possible connections, consisting of the following: the present route, the St. Johns route, the 39th Avenue extension route, the 82nd Avenue extension route, and the tunnel route. The most feasible point for parallel tubes under the river would be a short distance above the present bridge structure.

"The approximate cost of the routes involving proper connections on both the Oregon and Washington sides are as follows: present route - $27,000,000, St. Johns route - $48,800,000, 39th Avenue extension route - $49,600,000; 82nd Avenue extension route - $46,400,000; and tunnel route - $62,000,000.

"The major portion of traffic on the present Interstate Bridge is local traffic between the cities of Portland, Oregon and Vancouver, Washington, and the present bridge is ideally located for that service. If the other structures were built now the St. Johns Bridge would take away from the present bridge only about 4,000 vehicles per day; the 39th Avenue extension, about 11,500; and the 82nd Avenue extension, about 6,000, of the 31,000 average daily traffic. Due to the preponderance of local traffic, if one of the other bridges were built it would be necessary sometime during the next 15 to 20 years to build a parallel bridge adjacent to the present site to handle the local traffic alone.

"Economic studies made show that the greatest benefit to the road users of both states would be obtained by building a low level bridge parallel and adjacent to the present structure which would afford three lanes of traffic in either direction, and such solution is recommended when the traffic requires it. In the meantime the Washington Department plans to construct the Vancouver Freeway in the near future which will provide adequate approach facilities to the present bridge and will likewise afford a satisfactory connection to the parallel bridge when built."

This concluded the conference.

There followed a discussion of the general functioning of the Oregon State Highway Commission as an aid to the functioning of the Washington State Highway Commission, which is newly constituted and is based somewhat on the Oregon system.

August 20, 1951

Chairman Chandler brought up for discussion a letter received from the City Attorney of the City of Sweet Home, Mr. F. D. Mayer, concerning the financing of the city's share of the cost to construct the Sweet Home (K and L Streets) paving project, for which the Commission received bids at this meeting. Mr. Mayer gave as the city's understanding that the project is estimated to cost $27,500, of which the State will contribute $15,000 and the city the balance, and he advised that the city council is in a quandry as to how to finance the city's share. The Engineer advised that, according to information he has received, the city does not have the money to pay its share of the costs and wants the State to advance it for the city, which will reimburse the State later. The Commission decided, as a matter of policy, not to advance the city's share and ordered that the city be informed that the Commission received a satisfactory bid for this work but is holding up the award of the contract until the city pays its proportionate share of the costs.

Chairman Chandler also reported receipt of a request from the owner of Edgewater Lodge, which is situate on the Oregon Coast Highway south of Waldport, for permission to perform some grading work on the highway at this point. The matter was referred to the Engineer for investigation and report.

The Commission discussed the bids received at 2:00 p.m. for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect thereto, as follows, the action of the Commission being by unanimous vote:

"Construction of a highway maintenance building at Huntington, Baker County. The low bidder for this work was Swendig & Son, Redmond, at $12,430. There were five higher bids. The contract has been awarded to the low bidder at their bid price.

"Grading, bituminous macadam, and oil mat surfacing, and bridge construction on the Cannon Beach-Arcadia Section of the Oregon Coast Highway in Clatsop County. The low bidder was Grimstad and Vanderveldt and Heavy Hauling Company, Astoria, as a joint venture, at $417,656.00. There were four higher bids. The Commission has awarded the contract to the low bidder at their bid price.

"Construction of a highway maintenance building at Bridge, Coos County. The low bidder for this work was Gilbert Roberts, Hood River, at $13,781. There were two higher bids. The contract has been awarded to the low bidder at his bid price.

"Landscaping the Coos Bay (Greenwood Avenue-Market Avenue) Section of the Oregon Coast Highway in Coos Bay, Coos County. Portland Construction Company, Portland, was the low bidder for this work at $7,170.28. Knight Pearcy Nursery and Parkrose Nursery, Portland, was the only other bidder at $7,386.50. The contract has been awarded to the low bidder, Portland Construction Company at its bid price.

"Surfacing the East Cottonwood Canyon Section of the Wasco-Heppner Highway, Gilliam County. E. H. Itchner Company, Molalla, was the low bidder for this work at $22,839.00. There were two higher bids. The contract is awarded to the low bidder, E. H. Itchner Company, at its bid price.

"Paving 'K' and 'L' Streets in the City of Sweet Home, Linn County. Warren Northwest Inc., Portland, submitted the only bid for this work at $20,517.50. The bid of Warren Northwest Inc., in the sum of $20,517.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Sweet Home, and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Paving and furnishing crushed material in stockpile for the Forest Boundary-Mill Creek Section of the Warm Springs Highway. Babler and Rogers, Portland, submitted the low bid for this work at $338,690. There were eight higher bids. The contract has been awarded to Babler and Rogers at its bid price."

Consideration was given by the Commission to the items of "Unfinished Business" appearing in the Secretary's summary dated August 3, 1951. Action thereon as follows was taken:

(1) Collection of the amount of the bid bond furnished by State Construction Company in connection with its proposal to construct the Marion Street Bridge piers at Salem: The Chief Counsel advised that his complaint in this matter has been filed. The Commission ordered the item deleted from the list.

(2) Acquisition of additional area at Wallowa Lake State Park to accomodate overnight parking: The Commission ordered this item deleted from the list inasmuch as the matter had been disposed of earlier in the session.

(3) Proposed park site in Ladd Canyon, Union County: The Commission ordered this item deleted from the list pending completion of the Ladd Canyon construction project.

(4) Proposed improvement of the Valley Section of the Alicel-Lower Cove Road in Union County: The matter was disposed of earlier in the session when it was decided to give the project consideration in some future construction program. The item was ordered deleted from the list.

(5) Request of Andrew Stambuck to acquire a section of the old right of way of the Pacific Highway at Turkey Hill, Douglas County: The Right of Way Engineer advised that progress in this matter has been suspended, pending further action on the part of Mr. Stambuck's attorney, Mr. George Neuner, Jr., Roseburg. The item was ordered deleted.

(6) Request of McMinnville Chamber of Commerce for elimination of a hazardous condition on US99W near Whiteson: The Engineer advised that this matter is contingent upon completion of a survey which is now being carried on but which will require several months to finish. He suggested that the item be removed from the list of "Unfinished Business" because it will come up again automatically with the report on the survey. The Commission approved the suggestion.

(7) Fireproofing service station north of Salem underpass: This item was ordered deleted from the list because it was disposed of earlier in the session.

(8) Request for designation of ORE route 23 as a part of Federal route 97 from The Dalles to a point 22 miles south of Maupin: The Engineer recommended that the request be presented to the American Association of State Highway Officials for designation of a new Federal route numbered US197 from new bridge over the Columbia River at The Dalles, southerly over ORE23 to a junction with US97. The Engineer also recommended that a request be made of the American Association of State Highway Officials for designation as US Highway No. 26 of the following described routes: Ontario to Vale over US20, thence to Prineville over US28 thence to Madras over ORE27, thence to Portland over ORE50, thence to Cannon Beach over ORE2, thence to Seaside and Astoria over US101. The Commission approved both recommendations, and ordered the item deleted from the list.

(9) Request of Umatilla County for the oiling and extension of Mission County Road as a Federal Aid Secondary Highway: The Commission deferred action on this matter pending receipt of a report from the Engineer on the status of Federal Aid Secondary Highways. The item is to be deleted from the list.

(10) Proposed improvement to US99 at Portland Stockyards: The Engineer recalled his letter report on this subject dated May 22, 1951, and he advised that the information requested by the Stockyard people has already been delivered to them. The Commission ordered the item deleted.

(11) Wording for signs to be placed at the ends of construction projects: This matter was disposed of earlier in the session, when the Engineer was instructed to canvass other states as to what they are doing along that line. The item was ordered deleted from the list of "Unfinished Business."

(12) Acquisition of park property at Tooth Rock Tunnel on the Upper Columbia River Highway: This matter was disposed of earlier in the session and ordered deleted from the list.

(13) Proposed addition to Harris Beach State Park, Curry County: This matter was discussed by the Commission earlier in the session when it was decided not to purchase the property because of its exorbitant cost. The item was ordered deleted from the list.

(14) Request of Pilot Rock Commercial Association for improvement of the Pendleton-John Day Highway between Pendleton and Pilot Rock: The Commission decided that this project is for a future highway program, and ordered the item deleted.

(15) Request of the postmistress at Depoe Bay for establishment of a "NO PARKING" zone on US101 in front of the Depoe Bay post office: The Engineer advised that another investigation has been made of this request, which discloses that the post office at this place is a bona fide post office and that the "NO PARKING" zone is needed to accommodate the mail truck, which, otherwise, would have to park on the roadway, where it would create a hazard. He recommended approval of the request. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(16) Cleanup of payments on completed contracts: The Engineer advised that his report on this subject is not yet ready. The Commission ordered the item retained on the list.

(17) Proposed change in alignment of the Oregon Coast Highway at Yachats: This item was ordered deleted from the list in view of the fact that the Engineer previously reported on the matter at this meeting.

(18) Request of Lake County Court that the Camas Creek County Road be substituted for the Adel-Plush Section of the Warner State Secondary Highway: The Engineer advised that his investigation of this matter is in progress, and a report will be rendered, possibly at the September meeting. This item is to be retained on the list.

(19) Improvement of Mount Hood Highway between Parkdale and Hood River: The Engineer advised that his report on the subject will be ready to present to the Commission at its meeting in October. The item is to be retained on the list.

(20) Request of the Department of Veterans Affairs to rent space in the State Highway Building: It was reported that the Department has arranged for space in another building, so no longer is interested in obtaining space in the new Highway Building. The Commission ordered the item deleted.

(21) Suggestion of E. L. Kincaid, Eugene, that a new highway be constructed along the north side of the Willamette River between the new Ferry Street bridge in Eugene, and the City of Springfield: The Commission ordered this item deleted from the list. It will automatically arise again when the Engineer's report on the Eugene-Springfield area is rendered.

(22) Request of Lane County Court for substitution of the Mohawk County Road for the Fox Hollow Secondary Highway in the State's Secondary Highway system: This item was ordered deleted from the list pending completion of the Engineer's over-all study of the highway situation in the Eugene-Springfield area.

(23) Installation of traffic signals in the City of Weston, Umatilla County: This matter having been disposed of earlier in the session, the item was ordered deleted from the list of "Unfinished Business".

(24) Highway improvements requested by Baker and Umatilla County Courts: This item was ordered deleted from the list of "Unfinished Business" pending the Engineer's report on the status of Federal Aid Secondary Highway Project.

(25) Proposed improvement of the Umpqua Highway near Reedsport, as suggested by Mr. Howard Hinsdale: This matter was disposed of earlier in the session when the Engineer reported on the subject. The Commission ordered the item deleted from the list.

(26) Request of the Town of Delake for establishment of a permanent grade and installation of concrete curbs on US101 through said Town of Delake: The Engineer advised that his report on the subject will be ready to present to the Commission at its October meeting. The item is to be retained on the list of "Unfinished Business".

(27) Request of the City of Tillamook for construction of a new entrance for the Wilson River Highway into said City of Tillamook: The Engineer advised that an investigation of this matter is under way, and that his report on the subject will be ready for presentation to the Commission at its October meeting. The Commission ordered the item retained on the list.

(28) Highway improvements in Salem: The Engineer advised that his report on this subject will be ready for presentation to the Commission at its September meeting. The Commission ordered the item deleted from the list.

(29) Acquisition of Lloyd Corporation property needed as right of way for the T. H. Banfield Expressway in Portland: The Right of Way Engineer advised that he will render a complete report on this subject as soon as the Lloyd Corporation has made its reappraisals. The Commission ordered the item retained on the list of "Unfinished Business".

(30) Request for improvement of the Island City-La Grande Section of the Wallowa Lake Highway: The Engineer reported on this subject earlier in the session. The Commission ordered the item deleted.

(31) Issuance of permits to truckers who have outstanding weight violations charged against them: This matter was disposed of earlier in the session and the item was ordered deleted from the list.

(32) Proposed connection to US30 in Portland at N. W. 18th Avenue and N. W. 19th Avenue: The Engineer advised that his report on this subject is not ready for presentation. The Commission ordered the item retained on the list.

(33) Expenditure of Secondary Highway funds in Division IV. The Engineer advised that his report on this subject is not yet ready, but he anticipates that he will be able to present it to the Commission at its next meeting. The Commission ordered the item retained on the list.

(34) Traffic lights in the City of Coos Bay: Chairman Chandler expressed a desire that the signals be installed where they are most needed. He suggested three on Front Street and four on Broadway. As a result of discussion, the Commission approved the installation of seven signals in this city, provided the city will pay 50 percent of the cost involved, will maintain the signals, and will furnish electrical energy to operate them, otherwise, only three are to be installed on the same conditions. The item was ordered deleted from the list.

(35) Increased per diem allowance for employees who are required to be away from headquarters: The Engineer advised that he has consulted with Mr. Harry Dorman, Director of Finance and Administration, who has indicated that he will approve an increase to $4.50 per day if he is furnished satisfactory supporting evidence. The Commission ordered the item deleted from the list.

The meeting adjourned at 5:00 p.m. to reconvene the following morning in the same room.

Portland, Oregon
August 21, 1951

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotal. The following were present and participated:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
J. M. Devers, Chief Counsel
C. W. Enfield, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice at the conclusion of which Chairman Chandler announced that the awards of contracts would be made at 3:00 p.m.

HAINES-ANTHONY HIGHWAY IN BAKER COUNTY
HAINES-ANTHONY SECTION

D. F. McKenzie Company, Salem	$25,016.00
Newport Construction Company, Portland	32,420.00

INDEPENDENCE-ALBANY COUNTY ROAD IN BENTON COUNTY
POLK COUNTY LINE-FIR GROVE SECTION

G. D. Dennis and Sons, Portland	$38,975.50
C. J. Eldon, Portland	40,511.50
Rex C. Ayers Const. Co., Portland	43,468.00

NEHALEM SECONDARY HIGHWAY IN COLUMBIA COUNTY
BANZER BRIDGE

Snook Brothers, Corvallis	$72,418.50
C. J. Eldon, Portland	73,751.00
Schracer Construction Company, Portland	80,570.00

THE DALLES-CALIFORNIA HIGHWAY IN DESCHUTES COUNTY
REDMOND (5th STREET) LANDSCAPING PROJECT

C S. Whitcomb Co., Inc., Portland	$3,953.20
Knight Pearcy Nursery and Parkrose Nursery, Portland	4,024.82
Portland Construction Company, Portland	4,138.80

JACKSON COUNTY
ROGUE RIVER (MAIN STREET) GRADING AND PAVING

J. C Compton Company, McMinnville *	$11,395.00
T. W. Thomas, Portland *	12,293.00
Hamilton and Thoms, Eugene *	13,186.50
T. R. Florey, Medford	14,852.00
K. F. Jacobsen Co., Inc. & J. M. Arenz, Portland *	16,053.00

* Bidder will accept this project only in combination with the North Grants Pass Project.

PACIFIC HIGHWAY IN JOSEPHINE COUNTY
NORTH GRANTS PASS SECTION

T. W. Thomas, Portland *	$131,663.00
J. C. Compton Company, McMinnville	136,960.00
K. F. Jacobsen Co., Inc., & J. N. Arenz, Portland **	143,269.00
Hamilton and Thoms, Eugene	158,262.00

* Bidder will accept award of this project only in combination with the Rogue River (Main Street) Project.

** Bidder will make reduction of $2,500 if also awarded the Rogue River (Main Street) Project.

KLAMATH LAKE SECONDARY HIGHWAY IN KLAMATH COUNTY
ROCKY CREEK-WOCUS MARSH SECTION

Leonard and Slate Oregon Limited and E. C. Hall Company, Portland	$495,810.00
J. W. Briggs, Detroit	531,218.00
K. L. Goulter and Company, Seattle, Washington	613,690.00

PACIFIC HIGHWAY IN LANE COUNTY
FRANKLIN BOULEVARD

Central Heating Company, Eugene	$27,723.50
Acme Construction Company, Eugene	27,807.00

NORTH SANTIAM HIGHWAY IN LINN COUNTY
SANTIAM RIVER BRIDGE RAIL REPLACEMENT

C. M. Merrill, Newport	$8,638.00
Snook Brothers, Corvallis	9,000.00

NORTH SANTIAM HIGHWAY IN MARION COUNTY
LITTLE NORTH SANTIAM RIVER BRIDGE

C. J. Eldon, Portland	$192,878.00
Tom Lillebo, Reedsport	216,374.00
Hamilton and Thoms, Eugene	219,455.00
J. G. Watts Const. Company, Portland	221,880.00
Lindstrom Brothers, Inc., Portland	227,100.00

18557

SUNSET HIGHWAY IN MULTNOMAH COUNTY
SYLVAN GRADE WIDENING PROJECT

Parker-Schram Company, Portland	$8,900.00
Fred Christensen, Inc., Portland	11,900.00
G. D. Dennis and Sons, Portland	12,900.00
Rex C. Ayers Const. Co., Portland	14,550.00
John A. Logan, Portland	14,640.00
Q. L. Rufener, Portland	15,990.00

WASHINGTON COUNTY
WILSON RIVER AND TUALATIN VALLEY HIGHWAYS
FOREST GROVE SECTION

Warren Northwest Inc., Portland	$156,259.00
J. C. Compton Company, McMinnville	169,790.50

Chairman Chandler inquired if there were any new developments concerning the McKenzie Highway routing in the city of Springfield. The Engineer replied that there are no definite new developments, although he had heard that the City has secured right of way options on South "A" Street and has arrived at a tentative agreement with the Southern Pacific Company. It was the thought of the Commission that if the City does not make a definite move shortly, work should be started on the North "A" Street route.

The Engineer reported that Bechtel Brothers who had been awarded a contract to construct the maintenance buildings at Flora had been requested to stop work because it appears impossible to obtain a water supply, the well driller after drilling about 170 feet at a cost of nearly $1,600 having been unsuccessful in finding any indication of water. Bechtel Brothers, he said, have done very little work on the buildings to date and in view thereof he recommended that he be authorized to negotiate with them to construct the buildings on another site. He mentioned a site containing four acres of land owned by the Mt. Emily Lumber Company, located about five miles south of Flora which, he said, the Company will sell for $750 and where water is available. The Commission unanimously authorized negotiations for the new site and arrangements with Bechtel Brothers to construct the buildings thereon.

A group of people representing the McKenzie Protective and Development Association, Lane County, appeared before the Commission and requested construction of an all-weather route for the McKenzie Highway over the Cascade Mountain Range. The following people were present:

C. R. Belknap, President McKenzie River Protective and Development Association, Blue River

Carl Baker, member of the Association, Vida
County Judge Day T. Bayly, Lane County, Eugene
W. Lester Houck, Central Oregon Chamber of Commerce, Redmond

Mr. Belknap who was spokesman for the group stated that the delegation favored construction of an all-weather road extending north from the McKenzie Highway near Belknap Springs via Clear Lake to a connection with the Santiam Highway near Santiam Junction. He left with the Commission letters from the county courts of Lane and Deschutes Counties; Chambers of Commerce of Bend, Springfield, Eugene, and Redmond; U. S. Forest Service and Central Oregon Potato Growers Association; all urging construction of such an all-weather route from the commercial standpoint. He pointed out that the Forest Service will benefit by virtue of making accessible a large block of timber, and that industry in eastern and western Oregon needs this road especially during the winter time. He declared that the McKenzie Highway was the first highway built across the Cascades and that now it is the only one which is not kept open during the winter months. He requested that the all-weather route be placed on the Forest Highway Program. Chairman Chandler stated that the Commission believes the request has merit and that the Commission will look into it, however, without any commitment. The Engineer was thereupon instructed to conduct a reconnaissance survey on the proposed route as soon as engineering personnel is available.

A delegation from Central Oregon representing the Crook County FarmBureau and composed of the following persons, appeared before the Commission and requested further improvements to the Paulina Secondary Highway:

Eldred Breese, President, Crook County Farm Bureau, Prineville
J. R. Breese, cattle rancher, Prineville
Robert Lister, Newton Fearrien and Lane Fearrien, cattle ranchers, Paulina
Joe D. Thomison, manager of Prineville-Crook County Chamber of Commerce, Prineville

Mr. Eldred Breese who was principal spokesman requested that the existing gravel macadam surface on the Combs Flat Section be given an oiled treatment. He also complained of the kind of maintenance work that is being performed on the existing road, stating that it is not adequate and in some cases the road is in a dangerous condition. He presented petitions signed by numerous people of the district urging the oiling work, Mr. Lister stressed the large number of logging trucks that operate over this road. He also said that the graveled surface is rapidly disappearing into dust and that the road needs oiling; also that the section toward Paulina needs improvement to eliminate hazardous conditions. He added that the U. S. Reclamation Department might assist in building the road as the location of the Crooked River dam site has now been determined. Chairman Chandler advised that the Commission is aware of the conditions and that the construction budget was

stretched in order to perform the rock surfacing work across Combs Flat but it would be a waste of funds to apply a light oil surface which will not stand up under the heavy pounding of logging trucks. The Commission, he added, would like to fix properly all roads in the State but sufficient funds are not available to do so and the existing funds have to be distributed equitably about the State. The conference was concluded by the Engineer being instructed to investigate the complaint about the maintenance of the road and report his findings.

A delegation representing the Seaside Chamber of Commerce appeared before the Commission to request improvements to the Oregon Coast Highway in the Seaside area. The following people were present:

Don McNeil, Manager Seaside Chamber of Commerce
Wm. R. Manion, Seaside Safety Committee
John Phillips, Seaside Chamber of Commerce, Highway Committee
Paul A. Scoggin, member Chamber of Commerce, Seaside
E. R. Baldwin, City Manager, Warrenton
Verne H. Tinnerstet, Oregon Coast Association, Tillamook

Mr. Manion headed the group. He said that the west side communities of Clatsop County have agreed on two highway improvement projects on US101 which they feel should be given priority over other projects in their district; viz: (1) construction of a new route through Seaside to relieve the congestion on Holladay Drive; (2) straightening of the highway from West Lake to Astoria. He presented a resolution signed by the Warrenton City Council, the Seaside Chamber of Commerce, and other groups endorsing the two requests. Mr. Baldwin particularly urged construction of the Astoria-Warrenton By-pass, paralleling the S. P. & S. Railroad across Youngs Bay, as their first choice of projects. He pointed out that the county owns most of the land that will be needed as right of way so the cost of right of way will be negligible now. Chairman Chandler advised that the Commission already has authorized the Engineer to make a study of the By-pass route and will make a decision when his report has been rendered. Following departure of the group, the Commission resumed discussion of this matter and as a result thereof motion was made by Commissioner Reynolds that the Engineer be authorized to make a complete survey for improvement of the Oregon Coast Highway from the south city limits of Seaside to Astoria. Commissioner McIver seconded the motion which received the unanimous vote of the Commission.

The Commission discussed the setting of dates for hearings to be held in towns which may be by-passed by proposed rerouting of the Pacific Highway. The Engineer stated that the towns affected are Creswell, Cottage Grove, Drain, Yoncalla, Oakland, Sutherlin and Gold Hill. It was decided to hold the hearings on Tuesday and Wednesday, October 9 and 10, immediately preceding the next regular meeting of the Commission. The Engineer was instructed to arrange a schedule for the hearings and the Secretary was instructed to give formal notice thereof to the cities concerned.

The Engineer rendered a status report on surveys heretofore ordered by the Commission. In order to clarify certain features of the report, he was instructed to render another report at the regular meeting in October.

Mr. John W. Shuler, Attorney, Portland, who has been retained by the Commission to pass on legal matters in connection with the proposed sale of $15,000,000 highway bonds on September 12, 1951, was present. The question whether or not to provide for the calling and redemption of the bonds prior to maturity was discussed. As a result of the discussion, by unanimous action of the Commission, it was ordered that the $15,000,000 bonds to be sold on September 12, 1951, shall be so issued that all bonds maturing after October 1, 1961, shall be subject to call and redemption on October 1, 1961, and on any interest paying date thereafter at par and accrued interest. If less than all outstanding bonds are called, they shall be called in numerical order. Mr. Shuler also was authorized and instructed to advertise the bond sale at the proper time and to arrange for the printing of the bonds, favoring local printers, if possible.

Chairman Chandler reported a complaint about a dangerous condition that exists at the intersection of the Green Acre County Road with US101 near the Evans Products Company plant between Coos Bay and Coquille. He said that the Green Acre Road is a school bus route and the complaint is that the intersection is hazardous because the road enters the highway through a deep cut where sight distance is short. The Engineer was instructed to investigate the matter.

The meeting recessed at 12:00 noon and reconvened at 2:00 p. m. in the same room with the same persons present and participating.

A delegation representing the U. S. Highway 26 Association, consisting of the following persons, appeared before the Commission regarding the designation of a route to be known as US Highway 26 across Oregon, east and west:

Dan E. Scott, President, John Day
I. B. Hazeltine, Secretary, John Day
Paul A. Scoggin, Vice-president, Seaside
Robert Lister, Director, Paulina
Bob Clark, Director, Gresham
Joe D. Thomison, Manager Prineville-Crook County Chamber of Commerce

Mr. Scott, who acted as spokesman, presented a resolution adopted by the Oregon US Highway 26 Committee in which the Commission is urged to designate such route beginning at Nyssa and extending through Vale, Brogan, Prairie City, John Day, Dayville, Mitchell, Prineville, Madras, Warm Springs, Sandy, Gresham, Portland, Seaside to Astoria. He cited advantages of this route particularly declaring it to be the shortest and fastest route across the State in an easterly and

westerly direction. The Committee, he said, is working with the Idaho Highway Officials with a view of securing such a designation across the State of Idaho where it will connect with routes already so designated across Wyoming and Nebraska. Commissioner Chandler pointed out the only action the Commission can take is to recommend the designation to the American Association of State Highway Officials. After discussion, motion was made by Commissioner Reynolds that the American Association of State Highway Officials be requested to desighate US 26 as described. The motion was seconded by Commissioner McIver and unanimously passed, subject to concurrence by the State of Idaho as to the connection at the Oregon-Idaho State line.

Mr. Joe Thomison presented a request from residents along the old section of the Ochoco Highway between Marks Creek and Jones Ranch, that the State retain the old route as a State secondary highway rather than allow it to revert to the jurisdiction of Crook and Wheeler counties when the newly constructed section of the highway is opened to traffic. The Commission referred the matter to the Engineer for recommendation.

A delegation representing the Oregon State Federation of Labor and the Central Labor Council, Salem, appeared before the Commission and urged that a prevailing wage provision be included in all State highway contracts. The following people were present:

J. T. Marr, Executive Secretary, Oregon State Federation of Labor, Portland
H. G. Barker, Secretary, Salem Trades Labor Council, Salem
D. W. Burroughs, Business representative of Plumbers & Steamfitters Local 347 and Secretary of Oregon State Pipe Trades Association

Mr. Barker headed the group. He asked the Commission to include in its contracts a provision requiring the payment of prevailing wages as may be determined in each locality where work is being carried on. Mr. Marr alleged that the wage scale now prescribed in the contracts is far below wages paid for the classes of labor described. He asked that it be increased and cited as an illustration the contract of Rich and Sons who are landscaping the State Highway Building grounds at Salem. This contractor, he said, is not paying his help the prevailing wage for this area, which is unfair to other contractors who do pay the union scale. He also said that they have been waiting since 1943 for the Commission to adopt the prevailing wage clause. Mr. Burroughs protested the employment of non-union men on Rich and Sons' job. Chairman Chandler advised that this is a new matter to the present Commission but the request will be carefully considered although presently the Commission does not know the extent of its jurisdiction in the matter; also, that if the Engineer has previously reported on the subject such report will be reviewed. The Engineer was thereupon instructed to render a report and ascertain how other states are handling the situation so the Commission can have the information in adopting a policy.

A group representing the National Electrical Contractors Association was present and protested the action taken by the Commission in rejecting all bids received on August 3 for installation of traffic signals in Salem. The following persons composed the group which was headed by Laurence C. Rodgers, Secretary-Manager of the local chapter:

R. H. Wooden, Business Manager of Local 125, Portland
Bert Landon, Business Manager of Local 280, Salem
H. H. Harrison, Business Manager of Local 48, Portland
Laurence C. Rodgers, Secretary-Manager, Oregon Columbia Chapter, Portland
W. R. Grasle, Contractor, Portland, and
James Walton, Walton-Brown Company, Salem

Mr. Rodgers protested the action taken by the Commission in rejecting all bids received for the work and ordering the work done by State forces. He said that they want to know the procedure the Commission expects to follow in the future in such cases. He questioned that the work can be done at the cost estimated by the Engineer and he requested the privilege of examining details of the estimate, particularly as to labor items. Mr. Grasle stated emphatically that the work cannot be done at the cost estimated by the Engineer. The electrical contractors, he said, do not wish to bid on the Highway Commission's electrical work if future projects are going to be handled on the same basis that this one was handled. He gave as his feeling that, if the State gets the work done for the amount of the Engineer's estimate, it will be performed by someone who does not know how to do it. Mr. Walton declared that the Engineer's estimate is not in line with what the actual costs will be. He expressed resentment at the press releases that mentioned only one bid having been received, as four were submitted. He also mentioned that electrical contractors have a stockpile of wire that is needed for installations of this kind, and he declared that the State has no such stockpile and very likely it will be several months before the State can get it. He requested more time for electrical contractors to prepare their estimates, and he gave as his feeling that it would be a courteous gesture if the Engineer would discuss the plans with the electrical contractors in advance. He expressed himself positively that there is something wrong with the estimate of cost prepared by the Highway Department's engineers for this job. Mr. Landon mentioned that the State Highway Department recently hired two men for this job at $295 per month, whereas the prevailing wage rate for such type of labor is about $500 per month. Chairman Chandler advised that the members of the Highway Commission are not contractors and that the estimates are prepared by the engineers, whose figures the Commission depends upon in its award of contracts. He explained that it is the policy of the Commission not to award a contract if the bids received are more than 10 percent in excess of the Engineer's estimates. He added that in this particular instance, the low bid submitted was so much in excess of the Engineer's estimate that the Commission felt that it was its duty in the best public interests to reject it and to order the work done by

State forces. The State Highway Engineer advised that estimates prepared by the Highway Department engineers for a long time have been very close to the bids submitted by contractors and, if a mistake has been made in this instance, he would acknowledge it. He also said that he would see to it that this job is done strictly in accordance with specifications and, that when the actual cost of the job is determined, he will make it available to the contractors. He also said that he will be glad to discuss now the cost figures on which the estimate was based. Chairman Chandler concluded the conference by stating that the Commission is powerless to do anything today about the matter, that the Commission appreciates the objections of the electrical contractors and, will give the matter further consideration when the job is done and the final costs have been determined. He advised that the Commission does not wish to enter into any controversy in the matter, and that the Engineer will review his figures with the contractors, admitting any mistake if there is one.

The Commission discussed with the Engineer bids received at the morning session and at 3:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote:

"Surfacing 12.58 miles on the Haines-Anthony Section of the Haines-Anthony Highway north and west of Haines in Baker County. Only two bids were received on this project, the low one being that of D. F. McKenzie Company, Salem, at $25,016. The contract has been awarded to D. F. McKenzie Company at their bid price.

"Grading and oil mat surfacing on the Polk County Line-Fir Grove Section of the Independence-Albany County Road, in Benton County. Three bids were received for this project, the low one being that of G. D. Dennis and Sons, Portland, at $38,975.50. The contract has been awarded to G. D. Dennis and Sons at their bid price.

"Construction of Banzer Bridge over the Nehalem River on the Nehalem Secondary Highway, in Columbia County. Three bids were received for this project, the lowest one being that of Snook Brothers, Corvallis, at $72,418.50. The contract has been awarded to Snook Brothers at their bid price.

"Landscaping project on Fifth Street (The Dalles-California Highway) in Redmond, Deschutes County. Three bids were received for this work, the lowest being from C. S. Whitcomb Company, Inc., Portland, at $3,953.20. The contract has been awarded to C. S. Whitcomb Company at their bid price.

"Grading and paving 0.11 mile on Main Street in the city of Rogue River, Jackson County. Five bids were received on this project which could be bid in combination with North Grants Pass project. On a combination basis the low bid was submitted by T. W. Thomas at $12,293. The contract has been awarded to T. W. Thomas on his low combination bid with the North Grants Pass Section.

"Grading and paving 0.92 mile of the North Grants Pass Section of the Pacific Highway in Grants Pass, Josephine County. Four bids were received on this project, the lowest being submitted by T. W. Thomas, Portland, at $131,663. The contract has been awarded to T. W. Thomas at his bid price.

"Grading and cinder surfacing 12.27 miles on the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway, Klamath County. Three bids were submitted for this project, all of which have been rejected as being too high.

"Paving 0.7 mile on Franklin Boulevard (University Street-Walnut Street) Section of the Pacific Highway in Eugene, Lane County. Only two bids were received for this project, the low one being that of Central Heating Company, Eugene, at $27,723.50. The contract has been awarded to the Central Heating Company at their bid price.

"Replacement of bridge rail on the Santiam River Bridge on the North Santiam Highway in Linn County. Two bids were received on this project both of which were rejected as being too high.

"Construction of a concrete bridge over the Little North Santiam River on the North Santiam Highway about one mile from Mehama. C. J. Eldon, Portland, submitted the low bid out of the total of five bids received, at $192,878. The contract has been awarded to C. J. Eldon at his bid price.

"Grade widening project at Sylvan on the Sunset Highway about 1.2 miles west of Portland, in Multnomah County. Six bids were received for this project, the low bid being that of Parker-Schram Company, Portland, at $8,900. The contract has been awarded to Parker-Schram Company at their bid price.

"Grading and paving 1.82 miles on the Forest Grove Section of the Wilson River Highway (temporary route) and on the Tualatin Valley Highway, in Washington County. Only two bids were received for this project, the low one being

that of Warren Northwest Inc., Portland, at $156,259. The contract has been awarded to Warren Northwest Inc. at their bid price."

A delegation from Noti and vicinity, Lane County, appeared before the Commission to urge improvement of the Elmira-Richardson Highway. The following people composed the group:

W. F. Harcomb, Principal of Elmira Union High School, Veneta
W. H. Swanson, Lumberman, Noti
Farmer Hale, and Darwin Hale, both farmers, Noti
Leo Sherman, Farmer, Walton, and
County Judge D. T. Bayly of Lane County

Mr. Harcomb who was spokesman, requested surfacing on a four-mile section of this highway between Noti and the foot of Badger Mountain; the elimination of several bad curves on a 1½ mile section on Badger Mountain, and elimination of a low area which is inundated during high water periods. He presented a letter from the Lane County Court requesting such improvements. He urged the improvements from the standpoint of convenience to 1,360 people who live along this road, greater safety in the transportation of school children, and the increasing amount of log hauling over the road. He declared the project important and worthy of undertaking soon. Messrs. Swanson and Hale also spoke for the improvements. Chairman Chandler advised that the Commission will have an engineering investigation made of the conditions and there are possibilities that something can be done to improve the curves and the low section, although no definite commitment can be made now. He added that the Commission does not have money to perform a major construction job at this time. The Engineer was thereupon instructed to make the investigation.

A delegation from Stayton and vicinity, representing the Stayton Chamber of Commerce and consisting of the following persons, appeared before the Commission and urged the Commission to designate and improve the Stayton-Scio County Road as a state secondary highway: M Van Driesche, President of Stayton Chamber of Commerce, and A. C. Van Nuys, also of Stayton.

Mr. Van Driesche who was spokesman asked that the Commission reconsider its adverse decision made some few months ago in this matter. He gave as their understanding that a major factor in denying their previous request was the fact that a new bridge over the Santiam River is required to replace the existing narrow structure. He suggested that such objection could be satisfied by installing a "stop and go" light at each end of the bridge in order to maintain one-way traffic. Chairman Chandler recalled that several years ago the County Courts of all counties were requested to list the county roads that they preferred to have on the Federal Aid Secondary System, but this road

was not included in the list submitted by the Linn and Marion County Courts, and the Highway Commission is in no position to select it now with costs rising as they are, and indications are that it will be ten years or more before the State can take it over. He pointed out that there remains a large mileage of roads yet to be improved in the Secondary Highway System and this mileage must be disposed of before the State can take on new obligations. In addition to that, he added, the Bureau of Public Roads probably would not concur in adding this road to the Secondary Highway System unless provision was made to build a new bridge. Mr. W. H. Lynch, Division Engineer of the Bureau of Public Roads who was present, verified such statement.

The Highway Engineer brought up for discussion the matter of designating as a United States numbered route, the section of The Dalles-California Highway, (ORE 23), from The Dalles southerly to its junction with the Sherman Highway (US 97). He recalled that such designation was requested by a delegation which appeared before the Commission a few months ago. He advised that there is merit in the request because it will provide a more direct connection with the new bridge that is being constructed across the Columbia River near The Dalles than is afforded by U. S. Highway No. 97 (Sherman Highway). He recommended that the number of this highway section be changed from ORE 23 to U. S. 197 on the condition that the Washington Highway will join in a request to the American Association of State Highway Officials. The Commission approved the recommendation unanimously upon motion by Commissioner Reynolds and duly seconded by Commissioner McIver.

Mr. R. N. Kellogg, Assistant Engineer, Bureau of Public Roads, was present and presented for the Commission's approval a revised program for financing the North Santiam and Tiller-Trail Forest Highway projects. After due consideration and upon recommendation of the State Highway Engineer, the Commission unanimously approved the program as revised. The following letter with regard thereto, directed to the Chief, Forest Service and Commissioner of Public Roads, Washington, D. C. was thereupon signed by the Commission:

"The Oregon Forest Highway program letter for the Fiscal Year 1951, recommended March 9, 1950 and approved by the Acting Chief, Forest Service, March 15, 1950, proposed to finance the North Santiam Forest Highway Project 24-C4, Unit 2, as follows:

Project and Account No.	Project Name, Type of Work and Length	Forest Highway Funds
24-C4, Unit 2 (0337-00)	North Santiam Highway, Grading 2.88 Miles	$335,000.00

"The Oregon Forest Highway program letter for the Fiscal Year 1952, recommended March 28, 1951 and approved by Acting Chief, Forest

Service, April 3, 1951, proposed to finance the North Santiam Highway, Oregon Forest Highway Project 24-A6, B8, C6, and the Tiller-Trail Highway, Oregon Forest Highway Project 16-C5, E4, F5, as follows:

Project and Account No.	Project Name, Type of Work and Length	Funds	
24-A6, B8, C6 (0368-00)	North Santiam Highway, Surfacing and Bituminous Surfacing 15.5 Miles	$250,000.00	Forest Hwy.
		150,000.00	COOP (State)
		$400,000.00	
16-C5, E4, F5 (0367-00)	Tiller-Trail Highway, Surfacing and Bituminous Surfacing 6.6 miles	$195,000.00	Forest Hwy.

"Because of the necessity of immediate construction of Oregon Forest Highway Project 24-C4, Unit 2, North Santiam Highway, and because of the limited available Forest Highway funds, the State of Oregon has agreed to transfer to this project the sum of $155,055.00 of cooperative funds, of which $150,000 was previously programmed to project 24-A6, B8, C6 and $5,055.00 a saving on North Santiam Highway Project 24-A2.

"The United States Corps of Engineers have agreed to participate on this project to the extent of the cost for drawdown protection currently estimated to cost $90,000.00. The total estimated cost of Project 24-C4, Unit 2 is $338,000, of which $245,055 will therefore be contributed by the Cooperators. It is proposed to reduce the Forest Highway funds on this project from $335,000.00 to $92,945.00.

"The program for Project 24-A6, B8, C6 provided for surfacing and bituminous surfacing of 15.5 miles (correct mileage 15.666), but it is now desirable to separate this into two projects, the first to be the production of surfacing and bituminous surfacing material for 15.666 miles and the placing of surfacing materials on 2.88 miles. The second project is the bituminous surfacing of 15.666 miles, this to be designated as Project 24-A7, B9, C7. This change in sequence of construction will make possible the elimination of the $150,000 of State cooperative funds as hereinbefore provided and its transfer to Project 24-C4, Unit 2.

"Since the programming of Project 16-C5, E4, F5, Tiller-Trail Highway, more extensive improvement has been deemed necessary which will materially increase the cost of the project. The $55,000 increase as recommended below is to insure adequate funds to finance the desired construction.

"The above will result in the following recommended program revisions:

Project & Acct. No.	Route Name & Type of Work	Lgth.	Est. Cost	F H. Funds	State Coop Funds	Corps of Engrs.
24-C4, Unit 2 (0337-01)	North Santiam Hwy., Grading	2.88	315,000	75,000	150,000	90,000
24-C4, Unit 2 (0337-01)	North Santiam Hwy., Clearing & Grubbing	2.88	23,000	17,045	5,055	-
24-A6, B8, C6 (0368-00)	North Santiam Hwy., Production of Bituminous & Surfacing Aggregate and Place Surf. Aggregate	15.666 2.88	250,000	250,000	-	-
24-A7, B9, C7 (0397-00)	North Santiam Hwy., Bit. Surf.	15.666	300,000	300,000	-	-
16-C5, E4, F5 (0367-00)	Tiller-Trail Hwy., Surf. & Bit. Surf.	6.6	240,000	240,000	-	-

"There are sufficient funds in the State unprogrammed balance to finance the project changes as recommended above.

"Very truly yours,

/s/ W. H. Lynch
Division Engineer

U.S. FOREST SERVICE, Region 6

/s/ J. Frankland
Acting Regional Forester

OREGON STATE HIGHWAY COMMISSION

/s/ Ben R. Chandler
Chairman

/s/ Chas. H. Reynolds
Commissioner

/s/ M. K. McIver
Commissioner "

August 21, 1951

The Commission signed Agreements, etc. as follows:

Five Deeds conveying to State Forestry Department waysides along Sunset and Wilson River Highways.

Agreement with U. S. Bureau of Reclamation concerning right of way needed for improvement of Nyssa-Adrian Highway, Malheur County.

Agreement with Marion County, City of Woodburn and the State Highway Commission re Hillsboro-Silverton Secondary Highway along East Young Street, Woodburn.

Power Line Easement granted to Bonneville Power Administration covering property in Section 16, Township 5 North, Range 28 East, W. M. in Umatilla County.

Abandonment Agreement with Malheur County covering the Nyssa-Adrian Section of the Nyssa-Adrian State Highway.

Agreement with City of Canby covering the proposed installation of traffic signals at the intersection of Molalla Avenue and the Pacific Highway East, in Canby.

Agreement with Glens Falls Indemnity Company re payment of final estimates in connection with contracts 3011, 3012 and 3018 awarded to Shoreline Construction Company.

The meeting adjourned at 3:45 P. M.

Chairman

State Highway Engineer

Commissioner

Commissioner

EXHIBITS "A" THROUGH "H"

Minutes of

August 20 and 21, 1951

EXHIBIT "A"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT NO. 4 - T. H. BANFIELD EXPRESSWAY

17016 - Gill Brothers Seed Company, (Johnson)
Right of Way
Option expires October 6, 1951

6.81 acres at $2,626.00 per acre	$17,883.10	
Allowance - damage to property and business.	4,000.00	
- Severence and loss of rail road frontage	2,400.00	
Amount to be paid owner - chrg to Right of Way		$24,283.10

Access controlled - no access allowed

Grantor to have free possession and all crops until March 15. 1952

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Athena	$2,306.92
Butte Falls	1,145.78
Cascade Locks	2,248.56
Chiloquin	2,030.46
Coburg	2,128.76
Falls City	2,604.88
Hammond	1,585.05
Juntura	331.75
Long Creek	869.32
Oakland	2,534.23
Richland	675.80
Stanfield	2,592.60
Talent	2,242.41

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

(cont.)

EXHIBIT "B" (cont.)

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 20th day of August, 1951.

EXHIBIT "D"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3196, with Tom Lillebo for constructing the Ferry Street Bridge in Eugene, Lane County, completed July 31, 1951.

Contract No. 3238, with Peter Kiewit Sons' s Co., for grading and bituminous macadam surfacing on the Dodson-Bonneville Section of the Columbia River Highway in Multnomah County, completed July 26, 1951.

Contract No. 3300, with Inter City Sand & Gravel Co., for grading and oil mat surfacing on the Port Orford Section of the Oregon Coast Highway in Curry County, completed July 3, 1951.

Contract No. 3384, with Rogers Construction Co., for grading, surfacing and oiling on the Mill Gulch-Salisbury Section of the Baker-Unity Highway in Baker County, completed August 10, 1951.

Contract No. 3396, with Parker-Schram Co., for grading and oil mat surfacing on the Viento Park-Wygant Park Section of the Columbia River Highway in Hood River County, completed August 2, 1951.

Contract No. 3428, with Porter W. Yett for pavement resurfacing on the Yamhill River-Salt Creek Section of the Dallas-Coast Highway in Polk County, completed August 9, 1951.

Contract No. 3460, with Porter W. Yett for grader work and paving on the Willamina (West Main St.) Section of Willamina City Streets in Yamhill County, completed August 9, 1951.

Contract No. 3465, with Barney B. Helser for furnishing crushed materials in stockpile on the Horse Ridge-Hampton Section of the Central Oregon Highway in Deschutes County, completed July 17, 1951.

Contract No. 3489, with Babler Bros. Inc., for reoiling on the Wallowa-Lostine Section of the Wallowa Lake Highway in Wallowa County, completed August 11, 1951.

Contract No. 3493, with Robert C. Wilson for constructing maintenance building at Clatskanie in Columbia County, completed August 1, 1951.

(cont.)

EXHIBIT "D" (cont.)

Contract No. 3506, with Warren Northwest Inc., for pavement resurfacing on the Alder Creek-Philomath Section of the Alsea Highway in Benton County, completed July 27, 1951.

Contract No. 3517, with Tri-State Painting Co., for painting the Interstate Bridge in Multnomah County, completed August 2, 1951.

Contract No. 3518, with The United Contracting Co., for paving on the Bay City (4th St.) City Street Section in Tillamook County, completed August 9, 1951.

Contract No. 3524, with J. C. Denton & Sons for constructing guard rail on the Sweet Home (Narrows) Section of the Santiam Highway in Linn County, completed July 31, 1951.

Contract No. 3527, with Porter W. Yett for paving on the Dallas (Ellendale Ave.) City Street Section in Polk County, completed August 4, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

18599

EXHIBIT "E-1"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of Highway: NORTH SANTIAM SECONDARY HIGHWAY

Highway Number: 162 Route Number: Oregon 222

Location of Termini			Established Speed
M. P. 36.86 (0.25 mile west of Big Cliff Dam Site)	to M. P.	37.36 (0.04 mile west of bridge over Sardine Creek	25 miles per hour

(cont.)

EXHIBIT "E-1" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the minutes and records of the Commission as of the twentieth day of August, 1951.

18601

EXHIBIT "E-2"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, The North Santiam Secondary Highway, otherwise known and designated as State Secondary Highway No. 162, is a State Highway under the jurisdiction and control of the State Highway Commission and,

WHEREAS, on property abutting on said highway a dam is being constructed by the U. S. Government known as Big Cliff Dam, and,

WHEREAS, the width of said highway and shoulders at said location is not sufficient to allow the parking of cars on the highway and at the same time permit the safe and free movement of traffic, and,

WHEREAS, the parking of vehicles on the highway and the shoulders thereof will create a hazard not only to through traffic, but also to the owners and drivers of said parked vehicles and,

WHEREAS, in the opinion of this Commission public welfare and public safety require that the use of the said highway and the shoulders thereof for parking purposes be prohibited within the area hereinafter set forth.

NOW, THEREFORE, be it, and it hereby is resolved by the State Highway Commission as follows:

1. The Commission does hereby find and declare based upon investigation, reports and recommendations of members of its staff, that the parking of motor vehicles on either side of the North Santiam Secondary Highway between mile point 36.86 (Engineer's Station 511+36) and mile point 37.36 (Engineer's Station 677+34) a distance of one-half ($\frac{1}{2}$) mile in Marion County, Oregon, creates a hazard not only to through traffic, but also to persons owning and using said parked vehicles.

2. That in the opinion of the Commission the right of way of said highway at the described location is not of sufficient width to permit parking, and at the same time provide the degree of safety and convenience which, in the opinion of this Commission, should be provided the motoring public;

3. That this Commission does hereby further find and declare that the parking of vehicles on said highway or the shoulders thereof between the points above set forth, should be prohibited;

4. That the State Highway Engineer hereby is instructed to erect signs at said points and at such places between said points, as in the judgment of said Engineer, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on

(cont.)

EXHIBIT "E-2" (cont.)

which signs shall be printed in plain, legible type the words "NO PARKING" or "NO PARKING ON HIGHWAY SHOULDERS";

5. That the prohibition against parking herein declared and set forth, shall become effective at such time as construction on the Big Cliff Dam warrants such action to the end that the traveling public shall be properly safeguarded;

6. That the Secretary be, and he hereby is, instructed to send a certified copy of this resolution to the US Army Engineers and a like copy to the Superintendent of State Police;

7. That this resolution be entered in the minutes and records of the State Highway Commission as of the 20th day of August, 1951.

18603

EXHIBIT "F"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the O'Neil Secondary Highway No. 370 known as the West Unit, Deschutes County Line-Prineville Section in Crook County, the westerly terminus of which is at highway engineer's station 146+42.9 of the reconstructed line and the easterly terminus of which is at highway engineer's station 476+50 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the highway, as formerly located, have been eliminated from the boundaries of the new location, which eliminated sections or areas are no longer needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the O'Neil Secondary Highway was completed on June 13th, 1951, and traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the areas and sections of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the O'Neil Secondary Highway known as the West Unit, Deschutes County Line-Prineville Section, which begins at highway engineer's station 146+42.9 on the new route and ends at highway engineer's station 476+50 of the new route, has been completed and made available for travel, and that the section of the old route herein defined and described as Unit "A" shall no longer be part of the route of the O'Neil Secondary Highway but shall be eliminated therefrom.

2. That the section of the old route of the O'Neil Secondary Highway lying outside the established right of way of the relocated highway which for the purpose of this agreement is identified as Unit "A" and is more particularly described as follows:

Unit "A"

Be ginning at State Highway Engineer's Station 215+28 of the relocated O'Neil Secondary Highway in the Northeast quarter of the Southwest quarter of Section 30, Township 14 South, Range 14 East,

(cont.)

EXHIBIT "F" (cont.)

W. M.; thence Easterly along the former route of the O'Neil Secondary Highway to State Highway Engineer's Station 222+20 of the relocated O'Neil Secondary Highway in the Northwest quarter of the Southeast quarter of Section 30, Township 14 South, Range 14 East, W. M.

and is otherwise shown and identified colored in brown on a white print marked "Exhibit A", and which is by this reference incorporated herein, is hereby abandoned as any part of the right of way of the said state highway, and the Commission hereby surrenders all jurisdiction thereover and hereby consents that jurisdiction over said section may be assumed and exercised by the County Court of Crook County to be used for county purposes or vacated as the County Court of Crook County may determine. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission as of the twentieth day of August, 1951, and the Secretary hereby is directed to mail to the County Court of Crook County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned section of the said old right of way shown colored in brown on the map attached hereto and marked "Exhibit A", and shall assume jurisdiction thereover or permit it to revert to the owners of the abutting property, as the County Court may determine. *

FOOTNOTE: * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 238, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, the Albany-Corvallis Highway is one of the major state highways of the state, is likewise a part of the Federal Highway System, and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 31 and US Route No. 20; and

WHEREAS, it appears that on said highway situate approximately 0.75 mile northeast of the northeast city limits of Corvallis in Benton County there is located on property adjacent to said highway log dumps operated by the West Oregon Lumber Company and the Pope-Talbot Company, and that log haulers waiting to unload their trucks at said dumps, park their vehicles on the shoulders of said highway at said location and leave said vehicles so parked for indefinite periods of time; and

WHEREAS, because said highway through its entire length carries a large volume of traffic, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public welfare and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendation made by and under the supervision of the State Highway Engineer, that the parking of motor vehicles along either side of the Albany-Corvallis Highway between a point 0.58 mile northeast of the northeast city limits of Corvallis (M. P. 1.15) and a point 0.87 mile northeast of the northeast city limits of Corvallis (M. P. 1.44), a distance of 0.29 mile in Benton County, creates a hazard not only to through traffic on said highway but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the shoulders of said highway at said location are not of sufficient width to permit the parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

(cont.)

EXHIBIT "G" (cont.)

3. That this Commission does further find and declare that the parking of vehicles on the shoulders on either side of said highway between said M. P. 1.15 and said M. P. 1.44 should be and hereby is prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs on both sides of the highway at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the owners and operators of said log dumps and that a like copy be mailed to the Superintendent of the Department of State Police and a copy to the Sheriff of Benton County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the twentieth day of August, 1951.

18607

EXHIBIT "H"

Minutes of August 20 and 21, 1951

RESOLUTION

WHEREAS, it has been represented by Mrs. Clara M. Dodson, Postmistress at Depoe Bay, Oregon, that the parking of cars on the Oregon Coast Highway in front of the postoffice at Depoe Bay, Oregon, causes inconvenience to and interference with the movement of United States Mails, and to remedy such situation this Commission has been requested to designate the highway in front of the post office as a "LOADING ZONE-NO PARKING AT ANY TIME" area; and

WHEREAS, it is the opinion of this Commission that every reasonable and legitimate action should be taken which has for its purpose a speeding of the movement of United States Mails, and this Commission is therefore of the opinion that the parking of vehicles in front of the post office entrance at said place should be prohibited;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That the area adjacent to the post office at Depoe Bay on the east side of the Oregon Coast Highway between Engineer's Station 382+95 and Engineer's Station 383+11 be and said area hereby is declared closed to the parking of vehicles.

2. That the Engineer be and he hereby is instructed to install and thereafter maintain at points in front of said post office entrance where they will best serve the purpose of this resolution, appropriate signs designating said area as a "LOADING ZONE-NO PARKING AT ANY TIME" area and that in addition to such signs the curb line in front of said building be appropriately painted.

3. That this resolution be entered in the minutes and records of this Commission as of August 20, 1951, and a certified copy thereof mailed to Mrs. Clara M. Dodson, Postmistress at Depoe Bay, Oregon, and a like copy to the Superintendent of the Department of State Police and to the Sheriff of Lincoln County.

Portland, Oregon
September 12, 1951

The State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Chas. H. Reynolds, Commissioner, Acting Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, First Assistant State Highway Engineer
W. W. Stiffler, Second Assistant State Highway Engineer
J. M. Devers, Chief Counsel
C. W. Enfield, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler was excused from attending this meeting.

Commissioner Reynolds, who acted as Chairman, called the meeting to order and announced to the gathering of contractors and others that this meeting had been called for the principal purpose of opening bids for the purchase of $15,000,000 of Highway Bonds. He then inquired if there were any bids for bonds which had not been presented at the Commission's table. There being none, bids, as follows, for the purchase of the $15,000,000 of highway bonds offered for sale were then opened and read aloud by the Secretary, pursuant to previously published notice, at the conclusion of which Commissioner Reynolds stated the bids would be studied and the Commission's decision with respect to them would be publicly announced at 11:00 a.m.

Bids for highway construction were then opened and read aloud by the Secretary at the conclusion of which Commissioner Reynolds announced that awards of contracts would be made at 11:00 a.m.

MCKENZIE HIGHWAY IN LANE COUNTY
VIDA-BELKNAP SPRINGS ROCK PRODUCTION PROJECT

E. H. Itschner Company, Molalla	$46,695.00 *
E. C. Hall Company, Portland	48,179.00
Vernie Jarl, Gresham	51,072.00

* This bid is accepted and the Engineer is instructed to have contract prepared and offered to contractor for execution as soon as right of way has been cleared.

September 12, 1951

MARION COUNTY
SILVER FALLS PARK LATRINE

V. C. Johnson, Oregon City	$4,249.50
Wiley Concrete Construction Co., Portland	4,430.00
Clarence W. Hill and Son, Salem	4,799.00
Gilbert Roberts, Hood River	4,895.00
Enoch I. Maerz, Salem	5,000.00

Thompson and Georgesen, Inc., Portland	10,173.00
Salem Sand and Gravel Company, Salem	10,474.80

The State Parks Superintendent Mr. C. H. Armstrong reported on the following matters:

1. Application of R. A. Zimpel for road crossing in Camas Mountain State Park, on the Coos Bay-Roseburg Highway, Douglas County: The Parks Superintendent advised that Mr. Zimpel purchased land adjoining the park and in order to make use of the property he has

requested use of an old road that crosses the park. He recommended approval of the request subject to the usual conditions of permits that the Commission grants for such purpose. The Commission approved the recommendation.

2. Cutting of timber by the Coastal Lumber Company in Van Duzer Forest Corridor adjacent to the Salmon River Highway: The Parks Superintendent advised that under the terms of the deed by which the State acquired the wayside property the company reserved the right to remove the timber standing thereon up to December 1950, but did not take advantage of the provision until after the time limit expired, and then removed 349 MFBM which is valued at $11 per M. He further stated that the timber taken consisted of young trees which should have been preserved and the loss of which has depreciated the area considerably. He recommended that the company be billed for twice the value, $22 per M, which amount, he said, the company is willing to pay. The Commission approved the recommendation.

3. Request of Everett J. Sickler for concession privileges in Peter Skene Ogden State Park in Jefferson County: The Parks Superintendent reported that Mr. Sickler wishes to construct a concession building near the bridge in the park for dispensing ice cream, pop, candy, etc. He recommended that this request be denied as a matter of park policy. The Commission approved the recommendation.

4. Issuance of certificates to Menasha Wooden Ware Company and to Cascadia Development and Protection Company for gifts of land for park purposes: The Parks Superintendent advised that it had been customary in the past to issue certificates to donors of real property to be used for park purposes and he recommended issuance of such certificates to these two companies for additions to Umpqua Lighthouse Park and Cape Lookout Park. The Commission approved the recommendation and also authorized the park superintendent to erect a plaque in each of these parks bearing appropriate wording as to the donors.

The State Parks Superintendent reported that Branton & Lash, timber operators, want to purchase down and dead timber along the Salmon River Highway waysides and have offered to pay $3.50 per MFBM for the same, and in addition thereto, they agree to construct a fire guard along the edge of the wayside. He said that there are about 100 MFBM of timber involved, and he recalled that it previously had been advertised for sale, bids to be received on February 16, 1951, but no bids had been submitted. He felt that it would be of considerable advantage to the wayside area were the snags and down timber removed, and he recommended acceptance of the offer without going through the formality of readvertising it for sale. The Commission approved the recommendation.

The Commission had under consideration options obtained by the Right of Way Department for purchase of real property that is needed for right of way and other purposes in connection with highway improvements. The Right of Way Engineer presented a list of the options. As a result of careful study of each item, the Commission authorized the Right of Way Department to close the options at the prices mentioned therein. The

attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The Assistant Counsel, Mr. Enfield, requested authority to condemn certain parcels of real property that are needed for highway purposes and which cannot be acquired by negotiation. He presented a list of such properties together with the offer that he recommended for each tract as follows:

			Recommended Offer
Wygant Park-Hood River Sec. of the Col. River Hwy.			
R 17004	O. W. Bauer		
R 17630	Columbia Gorge Hotel Co.		
	Right of Way (Hood River)		
	7.06 acres		$ 6,000.00
R 17002	G. S. Jewett and The Perkins Oil Company		
	Right of Way (Hood River)		
	0.62 acre		$10,000.00
R 17007	Gladys June Haviland		
	Right of Way (Hood River)		
	3.95 acres		$10,000.00
Blue River Section of the McKenzie Highway			
R 17313	Frederick Behm		
	Quarry Site and Stock Pile Site (Lane)		
	15 acres	$ 3,375.50	
	Damages	650.00	
		$ 4,025.50	$ 4,050.00
Unit #5 Section of the T. H. Banfield Expressway			
R 15535	William E. Tegart		
	Right of Way (Multnomah)		
	3.15 acres of land at $1,250.00	$ 3,937.50	
	770 lin. ft. fence at $0.303	233.31	
		$ 4,170.81	$ 4,200.00

Barbur Blvd. -Marion Co. Line Sec. of the West Portland-Hubbard Hwy.

			Recommended Offer
R 17496, 17497, 17498 - Ojiro Sasaki			
Right of Way (Washington)			
15.02 acres at $350	$ 5,250.00		
Fencing	1,500.00		
	$ 6,750.00		$ 7,000.00

Cape Lookout State Park

R 17674-A Jones Lumber Corporation
(Park) Tillamook
Interest of Jones Lumber Company, a corporation
46.4 acres, being only standing timber upon the land $ 2,650.00

Unit #5 Section of the T. H. Banfield Expressway

R 17037 Lizzie Luscher
(Multnomah)
Perpetual Drainage Easement
1,500 square feet $ 150.00

As a result of careful consideration, the Commission approved the request unanimously by adoption of the attached resolutions relative thereto marked Exhibits "J-1" through "J-7", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer reported the following sales of miscellaneous properties heretofore acquired by the Commission in connection with right of way acquisitions, and he asked the Commission to confirm them:

File No.	Location	Sales Price	Purchaser	Items & Remarks
16933	Viento-Hood River Columbia River Hwy	$ 60.00	James M. Phelan, Hood River	4 high boys (lube tanks) with pump, removed from property after sale to State. Paid same price. Sale value, $15.00 each
16961	Tumalo Section McKenzie Highway	$ 25.00	Lowell L. Hertzel, State Police Officer, Bend	Unfinished building 15 x 15 feet

File No.	Location	Sales Price	Purchaser	Items & Remarks
16750	Cottonwood-Hay Cr. Sec. Wasco-Heppner Highway	$805.87	Condon Grain Growers Co-operative, Condon	21,879 pounds wheat at $2.21 per bushel
16122	Ladd Canyon Sec. Old Oregon Trail	$309.10	LaGrande Milling Company LaGrande	158.55 bushels wheat at $1.95 per bushel less tax $309.89. Harvesting 4.0 acres at $12 per acre
16539	North Roseburg Sec. Pacific Highway	$576.00	Ray D. Anderson, 1945 Estelle Street Roseburg	This house is setting on edge of slope within right of way and could move into cut if rainy season starts.
15089	Canyonville Section Pacific Highway	$ 20.00	J. F. Sullivan Canyonville	200 ft. of 3/4" pipe-used quite number of years-buried about 3' underground-must be dug to salvage.
15559-A	Canyonville Section Pacific Highway	$ 55.00	Albert Mault Canyonville	Doors, windows and fixtures-vandals had badly destroyed this property, making sale of buildings impossible.
15559-A	Canyonville Section Pacific Highway	$ 15.00	Marvin R. Smith, Canyonville	Laundry trays and metal cabinets-not damaged by vandals.
14785	Judkins Point Sec. Pacific Highway	$ 35.00	J. R. Chezem Eugene	Old garage-unused since property purchased.

The Commission confirmed the sales as reported by unanimous vote.

Commissioner McIver stated that Mr. L. R. Hussa, connected with the Albina Engine Works in Portland, had expressed to him an interest in acquiring the State Highway Maintenance Building and Land at Government Camp which now is being advertised for sale, bids to be received September 20, 1951. Mr. Hussa's interest, he stated, is in

behalf of people of Government Camp who want the property for a community hall and church purposes, but who do not have money readily available to pay for it. The Commission decided to hold up sale of the property for the time being and instructed the Right of Way Engineer to get in touch with some of the people who are interested in the matter and ascertain whether or not they expect to make a concrete proposal for purchase of the property.

The Commission discussed acquisition of the Lofts' property at Hood River, a portion of which is needed as right of way for the new Columbia River Highway at that place. The Right of Way Engineer advised that Mr. Lofts with whom negotiations have been carried on in the past, had died and that the Reconstruction Finance Corporation which has taken over the property is attempting to work out an agreement with Mrs. Lofts whereby it can secure clear title to the land and take care of outstanding debts. If such an agreement can be secured, he said, the Reconstruction Finance Corporation will sell to the State the land that is needed for the proposed Columbia River Highway improvement. Commissioner Reynolds recalled that some time in the past the Commission had declined to purchase the property from Mr. Lofts due to the excessive price he asked and it was his understanding the highway could be built without taking any of the property. The Engineer confirmed such understanding but he added that a much better highway improvement would result were the right of way widened. He recommended approval of an offer of $8,625 to the Reconstruction Finance Corporation for sufficient land to provide a standard width right of way, minimum of 100 feet on the north side of the highway center line. The Commission approved the recommendation unanimously.

The Right of Way Engineer requested approval for an additional expenditure of $300 to drill a well on the Hannan property located on Unit 5 of the T. H. Banfield Expressway. He explained that the amount previously authorized for this purpose proved to be insufficient and that it actually took an extra $300 to complete the job. The Commission approved the additional expenditure unanimously.

The Right of Way Engineer reported that in the highway widening project in Sweet Home the grade of the street was raised about one foot in front of a service station owned by Max M. Landon who is asking reimbursement for expense incurred in raising the floor of his grease room so it will not be flooded by water from the street. Mr. Landon, he stated, spent $750 to raise the floor, but has agreed to settle for $570. He recommended payment of such sum to Mr. Landon as settlement in full of his claim. The Commission approved the recommendation unanimously.

The Right of Way Engineer requested approval of a change in access to the Fredrickson property located on the Salem-Hayesville School Section of the Pacific Highway East, in Marion County. He said that the change involves no additional access, and is recommended. The Commission approved the recommendation. (An "Indenture of Access" was signed by the Commission later.)

The Right of Way Engineer also requested approval of a change in access on the Rhonda-Johnson property on the Chrome Plant-Coquille Section of the Oregon Coast Highway in Coos County. He explained that the change is a routine procedure not involving additional access to the highway. The Commission unanimously approved the recommendation. (An "Indenture of Access" was signed later.)

The Right of Way Engineer reported that he finally has received a statement from Mrs. Irene Wiggins as to how much she wants for her property which the Commission desires as an addition to the Wallowa Lake State Park, to be used primarily in development of overnight camping facilities. Mrs. Wiggins, he stated, demands $54,000 for the property, plus a long-term lease on boat and horse concessions. The Commission considered the amount exorbitant and unjustified. The Right of Way Engineer was instructed to let the matter rest for the time being.

The Right of Way Engineer brought to the Commission's attention that, in some instances in the past, options have been taken on real properties needed for right of way and other highway purposes, and in some instances options are now being taken on additional properties, on the basis of informal authorization by the Commission, and that the Commission records do not show the authority. He presented a list of projects for which right of way either has been acquired on such basis or is now being negotiated for, and he asked the Commission to formally ratify all options so taken. The Commission confirmed authority to acquire the right of way as shown in the list presented and thereupon unanimously adopted the attached resolution relative thereto, marked Exhibit "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed verbal authority heretofore given the Right of Way Engineer to defend the State and the Westfall Engineering Company from being denied use of a building located in the Ascot Zoning District in East Portland. The Right of Way Engineer explained briefly that the building concerned is a warehouse located on 134th Street and that under the Portland Zoning Law it loses its status as a warehouse and reverts to residential status if not used within one year. He also pointed out that if the zone law prevails in this instance, it will cause a loss of about $12,000 to the State.

The Chief Counsel discussed with the Commission the State's claim against The Central Heating Company, Eugene, for damaging the Dodge Bridge on the Sam's Valley Secondary Highway in Jackson County, during transportation thereover of an overweight load. He advised that the insurance company which issued The Central Heating Company's bond disclaims liability because it alleges The Central Heating Company did not haul the items listed in its permit from the Highway Department and did not use the route specified in the permit. The Chief Counsel questioned the State's ability to recover in court from the bonding company and recommended that legal proceedings be

taken against the Central Heating Company to cover the depreciated value of the bridge, which has been set at $6,000, if the bonding company will not settle. The Commission unanimously approved the recommendation.

The Chief Counsel reported that some of the electric power companies have challenged the right of the State Highway Commission to make a charge for permits issued to install power lines along and within state highway rights of way. This matter, he stated, has been discussed with the Attorney-General who advises that, under the law, the power companies do have the right to install their facilities on highway rights of way without charge for such installation, but the Highway Commission is within its legal rights in making a charge to cover the administrative and supervision costs incident to the issuance of the permits. The Commission decided to make no change in the procedure heretofore approved for handling permits and fees to be charged in connection therewith.

The Chief Counsel brought up for discussion a recent ruling by the Attorney General that all monies derived from the sale of state-owned equipment, etc., must be deposited in the State General Fund rather than in the fund of the department disposing of the property. The Highway statute, he said, states that funds derived from the sale of highway property reverts to the Highway Fund, which is in contradiction to the opinion of the Attorney General. The Engineer pointed out that if the ruling is followed, it will result in diversion of approximately $30,000 annually of Highway Funds to the General Fund. The Commission ordered that the ruling be resisted strenuously.

The Engineer presented a report concerning unassigned space on the fifth floor of the State Highway Building. He said that the Legal Department needs about 440 square feet of floor space and the Traffic Department, which is crowded at present on the fourth floor, needs 2,021 square feet. He recalled that prior to these assignments the Property Control Division of the Department of Finance had been allocated the use of 1,091 square feet, and advised that there remains, after reserving some space for Highway Department expansion, about 4,600 square feet of space which could be rented on a revokable basis if the Commission so desires. In this connection he recalled that the Commission, some time ago, gave the State Liquor Control Commission first refusal of any floor space that might become available after the Highway Department had taken all that it needed. In the discussion the Engineer pointed out that partitions will have to be installed for the separate offices. He estimated that cost of those needed for Highway Department offices at $1500, and those needed for other departments at $2500. He requested authority to install the partitions for the Highway offices now and to install the others later when it is decided who is to occupy the space. As a result of the discussion, the Commission unanimously approved the request upon motion of Commissioner McIver, duly seconded by Acting Chairman Reynolds. It was understood that a charge is to be made for the space used by the other State departments, and that such departments shall pay for the partitions if they occupy the space less than three years time, but if they stay three years or longer, the Highway Department will pay for the partitions. The Engineer was instructed to secure suggestions

from Governor McKay as to the renting of the unassigned space.

The Engineer reported the results, as follows, of taking bids in Salem on August 24, 1951 for the purchase of the scrap steel salvaged from the old Dodge Bridge on the Sam's Valley Secondary Highway in Jackson County:

1.	Alaska Junk Company, Portland	$1,042.00
2.	Medford Bargain House, Medford	610.00
3.	Zidell Machinery and Supply Company, Portland	517.77

The Engineer estimated the value of this property at $600 and recommended acceptance of the offer of the Alaska Junk Company. The Commission unanimously approved the recommendation.

The Engineer also presented the results as follows of receiving bids in Salem on August 24. 1951 for the purchase of timber located on a State-owned quarry site adjacent to the Santiam Highway near Cascadia in Linn County:

1.	Drury and Kenady, Eugene	$15.10 per MFBM
2.	Homer Moxley, Lebanon	10.00 per MFBM

He estimated the value of the timber at $10 per MFBM and recommended that it be sold to Drury and Kenady at their bid price. The Commission unanimously approved the recommendation.

The Engineer presented for the Commission's consideration a progress report covering the operations of the Astoria-Megler Ferry for the first eight months of this year showing a comparison with the same period in 1950. The net result of this comparison disclosed a net loss during the first eight months of 1950 of $29,279, while for the same period in 1951, the net loss was only $468. The Commission accepted the report and ordered it filed.

The Commission considered a request from the City of Empire, Coos County, for the installation of a traffic signal at the intersection of Commercial Street and Newmark Avenue; also, for a change in "STOP" signs at the junction of the Cape Arago and Coos Bay-Empire Secondary Highways. The Engineer advised that investigations reveal that there is no justification for the signal and that the "STOP" signs are now correctly located. He recommended that both requests be denied. The Commission approved the recommendation.

The Engineer reported that the cities of Adams, Amity, Butte Falls, DeLake, Eagle Point, Gold Hill, Idanha, Long Creek, Paisley, Riddle, Stanfield, Sublimity, Taft, Troutdale, and Turner have fulfilled the legal requirements with respect to the expenditure of state tax street funds accrued to them during the first six-months period of 1951 and that the plans for improvements contemplated by each of these cities to be financed with the funds available have been examined

and found satisfactory. He recommended approval of the plans by the Commission. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto, marked Exhibit "D", which resolution by this reference is made a part hereto with like effect as though extended in full herein.

The Engineer also reported that the cities of Boardman, Clatskanie, Donald, Idanha, Jefferson, Sisters, and Sumpter have fulfilled the legal requirements with respect to the expenditure of state tax street funds accrued to them during the second six-month period of 1950, and that the improvements contemplated by each of these cities to be financed by the funds available have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked Exhibit "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer asked the Commission to confirm oral authority given him on August 24, 1951 to obligate an additional expenditure of $12,000 for dredging embankment materials from the Willamette River at Salem. He explained that the additional amount is necessary to keep the US Army Engineers' dredge working to provide dredged materials that are needed for the embankment at the west bridge approach in West Salem. The Commission unanimously confirmed the additional authorization.

The Commission considered a petition from property owners and residents of Empire, Coos County, for construction of a foot path on the Coos Bay-Empire Highway between Bonneville Power Substation and Thompson Road. The Engineer estimated the cost of such foot path, 0.54 mile long, at $5,000 and advised that, according to an investigation by the Traffic Engineer, there is no justification for the expenditure. He recommended that the request be denied. The Commission approved the recommendation.

The Commission considered a request from the City of Vernonia for installation of a flashing beacon at the intersection of Bridge Street and Rose Avenue in that city. The Engineer advised that this matter has been investigated by the Traffic Engineer who recommends installation of a flashing beacon that will flash red to the north, west, and south, and amber to the east , augmented with a green arrow to indicate a free-moving right turn from south to east; also that parking be prohibited by the city on both sides of Rose Avenue for a distance of 100 feet south of the intersection and on both sides of Bridge Street for 100 feet east of the intersection. He estimated the cost of the signal at $450 and recommended approval of the installation at State expense if the city will adopt necessary ordinances with respect to the "NO PARKING" feature. The Commission approved the recommendation.

The Commission considered a request from the Albany Timber Carnival Association for continued use of Waverly Lake Park in conducting its annual carnival. The Engineer advised that the Timber Carnival

Association has used the park for several years for this purpose and has always cleaned it up satisfactorily. The park, he said, is an ideal site from the standpoint of the Carnival Association, but, as the show is increasing in magnitude, it has proved detrimental to the appearance of the park. He recommended approval of the request subject to imposition of the following additional restrictions:

1. That the Association be required to provide and furnish adequate toilet facilities which meet the approval of the County Health Department.

2. That the Association refrain from adding to or attaching to the large main entrance sign any wording of a nature soliciting contributions for programs or buttons.

3. That all official cars be required to be parked in a designated parking area to be constructed.

4. That all concessions be located along the edges of a designated parking area and that all service trucks servicing these concessions be limited to one ingress and egress, approach road to the parking to be constructed.

The Commission approved the recommendation unanimously.

In this connection, the Engineer stated a need for development of a car-parking area and an access road. He exhibited a plan disclosing what he has in mind and advised that the cost to construct these facilities is estimated at $2,500. He recommended approval of the expenditure and that the work be done as a 1952 Minor Betterment project. He also recommended an expenditure of $600 to fertilize and reseed the grassed areas that have been damaged by motor vehicles, the funds to be taken from the maintenance and operation budget. The Commission unanimously approved both recommendations.

The Commission discussed a letter from the City of Athena, Oregon, requesting that the State pay the entire cost of constructing a foot bridge on Wild Horse Creek Bridge at Athena, the estimated cost of which is $800. The Engineer recalled that construction of the foot bridge previously had been approved by the Commission on a fifty-fifty basis with the City, but recent investigations reveal that responsibility for the bridge is largely a State matter. He recommended that the State pay the entire amount. The Commission approved the recommendation.

The Engineer reported satisfaction of the condition governing award of the following contracts: (1) Sweet Home (K and L Streets) paving project in Linn County, bids received August 20, 1951, low bidder, Warren Northwest Inc.; (2) Grading and paving the Fairview-Sundial Section of T. H. Banfield Expressway in Multnomah County, bids received July 17, 1951, low bidder, K. F. Jacobsen Co., Inc., and J. M. Arenz. The Commission approved the report.

The Commission had under consideration the following requests for extensions of time within which to complete highway contracts:

1. Stockton & Son, Contract No. 3413, for construction of a Maintenance Building at Timberline Junction on the Mt. Hood Highway in Clackamas County, requested an additional extension of time of thirty (30) days, from July 31, 1951 to August 31, 1951, within which to complete this job. They alleged that unfavorable weather had prevented painting the roof within the limits of the previous extension of time. The Engineer advised that the work was completed within the original time limit except for minor items of painting, and that the present extension is to allow for completion of such work. He also said that the building has been occupied since early last spring and there has been no additional cost to the State. He recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

2. Valley Construction Company, Contract No. 3349, for construction of the Willow Creek Bridge on the Imbler-Dry Creek Highway, in Union County, requested a third extension of time of forty-six (46) days, from April 30 to June 15, 1951, within which to complete this job. The contractor alleged that the additional extension of time was necessary because they could not remove the old bridge abutments during high water. The Engineer advised that at the expiration of the second extension of time, up to April 30, 1951, the only work remaining to be done, was removal of the abutments of the old structure, and that due to high water, removal of the abutments could not be accomplished until June of 1951. He also said there was no inconvenience to traffic and that the State incurred no additional expense by reason of the delay. He recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring in the recommendation. The Commission approved the recommendation. (SEE FOOTNOTE)

3. Frank Watt Construction Company, Contract No. 3338, for construction of the South Yamhill River Bridge on Three Mile Lane Secondary Highway, in Yamhill County, requested an extension of time of 120 days, from August 15, 1951 to and including December 15, 1951, within which to complete this job. They alleged that inability to secure reinforcing steel for precast beams ahead of bad weather and high water prevented them from completing the contract within the specified time limit. The Engineer advised that he has been unable to find a shortage of reinforcing steel and it appears to him that the main reason for an overrun in time was due to lack of aggressiveness on the part of the contractor. The work, he added, is now proceeding at a reasonable rate and the project should be opened to traffic by the last of October. He recommended that the extension of time as requested be granted, subject, however, to the provision that the contractor shall reimburse the State for all engineering costs that the State incurs on this job subsequent to August 15, 1951. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (SEE FOOTNOTE)

4. Tom Lillebo, Contract No. 3313, for construction of the North Dillard Bridge on the Pacific Highway, In Douglas County, requested an additional extension of time of eleven days, from July 31, 1951 to August 11, 1951, within which to complete this job. He alleged that it had been necessary to wait for extreme low water in the late summer in order to complete removal of the old piers and final cleanup of the site. The Engineer stated that the structure was completed and open to traffic last fall and that the only work remaining was removal of the old bridge piers which had to be delayed until the river reached its lowest stage. No inconvenience had been caused to traffic, he said, and no additional cost has accrued to the State by reason of the delay. He recommended that the extension of time be granted as requested, without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (SEE FOOTNOTE)

5. Durbin Brothers, Contract No. 3354, for grading and oil mat surfacing on the South Unit Section of the Joseph-Wallowa Lake Secondary Highway in Wallowa County, requested an extension of time of ten (10) days, from July 31, 1951 to August 10, 1951, within which to complete this job. They alleged that grading and rock production was completed well within the specified time limit but, due to heavy commitments of the oiling subcontractor, it had been necessary to request an extension of time to allow for completion of the oil surfacing. The Engineer advised that the contractor had completed the grading and rock production ahead of schedule, but was unable to get the oiling done within the specified time limit due to the subcontractor's heavy schedule. As there was neither inconvenience to the traveling public nor additional expense to the State, he recommended that the extension of time be granted as requested, without penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

6. Porter W. Yett, Contract No. 3494, for paving the Myrtle Point (Reedsford Road) Section (City Street Project) in Myrtle Point, Coos County, requested an extension of time of ten (10) days, from July 31, 1951 to August 10, 1951, within which to complete this job. He alleged that completion of the job within the specified time limit had been impossible due to failure of the City of Myrtle Point to perform necessary preliminary work. The Engineer advised that the contractor's operations were held up by the City of Myrtle Point, and that the work was actually completed within three (3) days after the City had completed its portion. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (SEE FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3289, 3406, 3441, 3486, 3494, 3500, 3531, 3543, 3554, 3349, 3413, 3526, 3411, 3313, and 3470, for construction of State highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission, by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked Exhibit "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Commissioner Reynolds brought up the matter of shifting the location of the Maintenance Building originally proposed at Flora, Wallowa County, to a site about five miles south. He recalled that a contract had been awarded for construction of the building at Flora and that drilling of a well had been started, but, as no water was found, it was abandoned and the contractor was requested to stop construction on the building for the time being. It appears that E. F. Chidsey, Division Engineer, then found a suitable site about five miles south of Flora, owned by the Mt. Emily Lumber Company, which could be purchased for $750, including three acres of land and a partial right to water from a spring. In the meantime supplementary agreements had been prepared and signed by the building contractor, providing for compensation for work performed at the Flora site, and for construction of the building at the new location. The Commission unanimously approved the arrangement as outlined by Commissioner Reynolds.

The Commission had under consideration the offers and bids of The National City Bank of New York & associates, The First National Bank of Portland, Oregon & associates, The First National Bank of Chicago & associates, Foster & Marshall & associates, Halsey, Stuart, & Co., Inc., & associates, and Kuhn, Loeb, & Co., & associates, submitted at 9:00 a.m. this day, for the purchase of $15,000,000 of Oregon State Highway bonds. It was the considered opinion of the members of the Highway Commission that the bid submitted by The National City Bank of New York & associates, including Blyth & Co., Inc. and The United States National Bank of Portland, was the lowest and best bid received, and that the interests of the State of Oregon will be best served by acceptance of said bid. Accordingly, motion was made by Commissioner McIver that the offer of The National City Bank of New York & associates be accepted for the entire amount of $15,000,000, face value, Oregon State Highway Bonds now offered for sale and that the bonds be sold to The National City Bank of New York & associates for the amount of its said offer. The motion was duly seconded by Commissioner Reynolds, Acting Chairman, and, having received the majority vote of the members of the Commission, was by the Acting Chairman declared carried. At 11:00 a.m. the Commission's decision was publicly announced by Acting Chairman Reynolds.

The matter of the printing of the bonds was then discussed with Mr. John W. Shuler, Attorney, Portland, who has been retained by the Commission to pass on legal matters in connection with this bond issue.

As a result of the discussion, motion was made by Commissioner McIver that this business be given to Irwin-Hodson Company, Portland. Motion was duly seconded by Commissioner Reynolds who as Acting Chairman declared it carried.

The Commission discussed the bids received at 9:00 a.m. for contract construction work and at 11:00 a.m. Commissioner Reynolds announced the Commission's decision with respect to each project, as follows, the Commission's action being by unanimous vote:

"Rock production on the Vida-Belknap Springs Section of the McKenzie Highway near Blue River, in Lane County: three (3) bids were received for this project, the low one being that of E. H. Itschner Company, Molalla, at $46,695. The Commission has accepted the low bid as submitted by E. H. Itschner Company and the Engineer has been instructed to have the contract forms prepared and sent to the contractor for execution as soon as right of way has been cleared.

"Construction of a latrine in Silver Falls State Park, Marion County: ten (10) bids were received for this project, the low one being that of V. C. Johnson, Oregon City, at $4,249.50. The contract has been awarded to V. C. Johnson at his bid price.

"Rock excavation and placing of riprap on the Oneonta Section of the Columbia River Highway near Multnomah Falls, in Multnomah County: John A. Logan, Portland, submitted the low bid out of a total of ten (10) received at $14,285. The contract has been awarded to John A. Logan at his bid price.

"Construction of a latrine in Helmick State Park on the Pacific Highway West, in Polk County: Seven (7) bids were received for this project, the low one being that of V. C. Johnson of Oregon City at $5,895. The contract has been awarded to V. C. Johnson at his bid price."

The Commission considered and authorized expenditures for office furniture and supplies, as follows:

Construction Engineer	$320
Office of the Secretary	$370
Bridge Engineer (for the purchase of one Sound Level Meter)	$550

The Commission discussed, approved, and signed a letter directed to Mr. C. G. Polk, Acting District Engineer, Bureau of Public Roads, requesting that the Salem By-Pass Section of the Pacific Highway East, extending from a point on Federal Aid Primary Route 3, approximately five miles south of Salem, to a point on Federal Aid Primary Route 3, approximately one mile north of Salem, to be known as Federal Aid Route 45.

The Commission considered a request from the Civic Improvement Club, Fort Klamath, for a contribution of $5 per year to maintain local fire-fighting equipment owned by the Fort Kalmath Community. The Engineer advised that the Maintenance Headquarters at Fort Klamath will benefit by reason of this fire-fighting equipment and he recommended that the Commission authorize payment of $5 per year as the department's pro rata share of the expense. The Commission unanimously approved the recommendation.

The Engineer reported that the City of Portland has requested that previous action establishing speed zones on 82nd Avenue, (Cascade State Secondary Highway), be reviewed in order that numerical speed indications can be made compatible with the timing of the progressive signal system recently installed on that street. Action on this matter, he said, was taken by the Speed Control Board on August 27, insofar as the street lies within the city limits, and it now is necessary for the State Highway Commission to concur with the State Speed Control Board in its action on the sections where the corporate limits of the City of Portland and the center line on 82nd Avenue coincide, and where the easterly portion of the highway is under jurisdiction of the Highway Commission. He recommended that the Commission concur in the action of the Speed Control Board. He further recommended as a part of the same action that a 35-mile per hour speed zone be established on North East 82nd Avenue between North East Killingsworth Street, M. P. 0.0, and the north city limits of Portland, M. P. 0.50. The Commission unanimously approved both recommendations by adoption of the attached resolution relative thereto, marked Exhibit "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered a request from residents along the Eddyville-Blodgett Highway in Benton and Lincoln Counties for establishment of a reduced speed zone on this highway. The Engineer advised that this request was investigated by the Traffic Engineer whose report on the subject indicated that there is no justification for a reduced speed zone; moreover, because of the physical nature of the road, which limits speed from 20 to 45 miles per hour, it would not be practicable to designate one. He recommended that the request be denied. The Commission unanimously approved the recommendation.

The Engineer presented for the Commission's consideration the designation of a "NO PARKING ON HIGHWAY SHOULDERS" zone on both sides of the Columbia River Highway between M. P. 44.99 and M. P. 45.15, about two miles east of the City of Rainier, Columbia County, where a drive-in theater is operating. He advised that cars park on the highway shoulders with their headlights on which creates a hazardous condition. He recommended designation of a "NO PARKING ON HIGHWAY SHOULDERS" zone at the location mentioned. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto, marked Exhibit "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed telephonic approval of an agreement with the Oregon-Washington Railroad and Navigation Company and the Union Pacific Railroad Company covering encroachment of the T. H. Banfield Expressway upon railroad property between Fairview and Sundial crossing, in Multnomah County. The Engineer advised that the agreement is necessary in construction of the T. H. Banfield Expressway. (The Agreement was signed later.)

The Commission considered the advisability of issuing permits for transportation of logs and other products loaded cross-wise on trucks and trailers up to a maximum width of 8' 6", as authorized in Article 5, Section 12, Chapter 405, Laws of 1951. The Engineer advised that an application has been made for such a permit to haul plywood cores on the Columbia River Highway from Astoria to a point about two and one-half miles easterly thereof. The law provides, he said, that before a permit is granted a trial load must be observed over the highway as to whether it can stay on its own side of the road, and that the applicant must furnish public liability and property damage insurance as may be required by the granting authority. He recommended that the Commission grant authority to issue such permits over his facsimile signature, to be countersigned by the Director of Permits or his assistant, the Supervisor of Transportation Permits. He likewise recommended that each applicant be required to furnish property damage insurance in the amount of $10,000 for each accident and public liability insurance in the amounts of $10,000 / $20,000, and that the insurance or certificate of insurance name the State Highway Commission and its officials, employees and agents as additional parties assured. The Commission unanimously approved the recommendation.

The Engineer presented for the Commission's consideration a list of monthly-rate employees who are eligible under Civil Service Rules and the Highway Department's merit rating system, for annual salary-step increases during the last quarter in 1951. He explained that the Civil Service Commission has modified its rules so that an employee is now eligible for an annual increase on his actual anniversary date with the department, rather than being eligible on January 1 and July 1. He pointed out further that the employees recommended for annual step increases are only those whose merit rating is average or better. He recommended that the step increases be approved. The Commission approved the recommendation. (See copy of list in general files.)

The Engineer reported that he has received a letter from the City Manager of Bend requesting that the Highway Commission widen and pave to full width between curbs the streets used as routes for State highways in the city; also, that the Highway Department furnish plans for the design and construction of curbs. As the matter had not previously been considered by the Commission, the Engineer recommended that he be authorized to investigate the request. The Commission approved the recommendation.

The Engineer requested approval of the projects proposed for contracting at the November and December meetings of the Commission, and which are to be financed with money derived from the sale of bonds, this date. He submitted a list of the projects for the Commission's consideration. The Commission unanimously approved the projects as listed subject, however, to changes as may be necessary as a result of hearings in cities along the Pacific Highway which are to be held on October 9 and 10. The list of approved projects follows:

November, 1951

Divide-Anlauf Unit of Divide-Rice Hill Section, 6.7 mile grading, bridge, and paving	$2,200,000
Union Avenue-Swift Road Junction, 0.4 mile grading, bridge, and paving	225,000
Boones Ferry Road-Marion County Line Unit of Barbur Blvd.-White School Section, 9.2 miles grading	2,000,000
Oakland Junction-Deady Unit of Chenoweth Park-Deady Section of the Pacific Highway	1,500,000
	$5,925,000

December, 1951

Newport-Toledo, 8 miles grading, bridge, and paving	$1,000,000
Gnat Creek-Bradley Park, 2.5 miles grading bridge, and paving	600,000
Jones Ranch-Mitchell, 9.73 miles grading, bridge, and paving	1,000,000
Showgren-Rowena Unit of The Dalles-Mosier Section	1,500,000
	$4,100,000

The Commission also discussed with the Engineer proposed changes in the Federal Aid Program for the Federal Fiscal Year, 1953, heretofore approved by the Commission on July 17, 1951. As a result of the discussion, the following changes were authorized in the Primary Federal Aid Program in Division 2: delete the Sulphur Creek-Rogue River Section on the Salmon River Highway in Lincoln, Polk, and Tillamook Counties and substitute therefore 2.3 miles of grading and paving on the Sheridan-Deer Creek Section of the Salmon River Highway in Yamhill County.

In the Secondary Federal Aid Program in Division 1: Reduce from $150,000 to $100,000 the authorization for a bridge over the Tualatin River on a Clackamas County Road west of West Linn. Add as a new project on a Clackamas County Road a bridge over Kellogg Creek at $50,000.

In the Secondary Federal Aid Program in Division 4: Increase the authorization for the Wocus Marsh-Lake o'Wood Road on the Klamath Lake Secondary Highway in Klamath County from $450,000 to $500,000. Delete entirely the grading, surfacing, and oiling of the Klamath County Road (FAS 418) Junction Lakeview Highway to Bonanza, in the amount of $200,000, and substitute therefore five miles of grading, surfacing, and oiling on FAS Highways 322 and 400 (County Roads) in Crook County, in the amount of $150,000.

In Division 5 delete entirely $150,000 allocated for work on the Prairie Creek-Zumwalt Section of a county road in Wallowa County and substitute therefore six miles of asphaltic concrete resurfacing on the Hurricane Creek County Road in Wallowa County.

The Commission unanimously approved the changes as outlined and ordered that they be submitted to the Bureau of Public Roads for concurrence.

In the discussion of the Federal Aid Program the question came up as to why the contractors are consistently bidding over the estimate on the Wocus Marsh job in Klamath County. The Engineer pointed out that in addition to the rising costs of contracting, which have increased 10 percent in the last three months, that on this particular section, in order to look the job over accurately, it is necessary for contractors to walk ten miles and, he added, most of them have not done that. However, he expressed the hope that better bids can be obtained when the job is next advertised.

The Engineer stated that the Highway Interim Committee appointed by the last Legislature desires data on truck taxes as levied in some of the neighboring states. He recommended that the Commission authorize an expenditure of $80 to pay the expenses of R. C. Blensly of the Traffic Department in securing such data in Sacramento, California, and Carson City, Nevada. The Commission unanimously approved the recommendation.

The Assistant Counsel presented a proposal from J. Bardell Purcell to settle the Commission's condemnation case against him concerning right of way for Banfield Expressway in Portland. He recalled the State's offer to pay $8050 for the property, which Mr. Purcell refused. Mr. Purcell, he said, now states that he will settle for $6500 if he is allowed the residence building located on the property and is paid an extra amount of $250 to move it. He recommended payment of $6500 only. The Commission unanimously approved the recommendation.

Mr. Enfield, the Assistant Counsel, reported concerning the condemnation case against Elling and Veda Halvorson for property adjacent to the Pacific Highway East near Lana Avenue in North Salem.

He explained that under the settlement offered to them they had been allowed three access points, one of which is 50 feet wide but Mr. Halvorson is insistent that there be no access restriction at all, anyway not less than four. He requested instructions from the Commission as to whether or not an exception should be made in this instance and full access granted. The Commission decided to make no change in its established policy with regard to such matters and accordingly denied the request.

The Commission considered a proposed easement agreement with White City Lumber Company for a log scale site on "H" and "G" Avenues in the White City area, on the old Crater Lake Highway at Camp White, Jackson County. The Right of Way Engineer explained that the White City Lumber Company is to maintain the old pavement to the satisfaction of the Highway Engineer and that the easement agreement is revocable upon 30 days' written notice. He recommended that it be granted. The Commission unanimously approved the recommendation. (The Agreement was signed later.)

The Commission also considered an exchange of properties with the White City Lumber Company in the Camp White area in Jackson County. The Right of Way Engineer recalled that during the summer trip of the Commission in Southern Oregon, this proposed exchange had been viewed and that it was tentatively agreed with Mr. White that the State would quit claim to the White City Lumber Company the right of way of a part of the abandoned Crater Lake Highway, and that the Company would deed to the State an equal area that the State needs. The exchange, he stated, is an advantage to the State and he recommended that it be approved. The Commission unanimously approved the recommendation.

The Commission considered and approved two project agreements with the Bureau of Public Roads covering: 1) Bridgeton Road-Goetz Road Section, Pacific Highway East, Oregon U-130(5); and 2) Columbia Slough-Columbia Boulevard Section, Pacific Highway East, Oregon U-130(4). (The Agreements were signed by the Commission later in the session).

The Commission considered and approved an agreement with the Union Pacific Railroad Company covering an encroachment of the Wygant Park-Hood River Section of the Columbia River Highway on railroad company property. (The Agreement was signed later in the session).

The Commission considered and upon recommendation of the Engineer, approved an agreement with Lane County providing for disposal of the old route of the Pacific Highway between Goshen and Judkins Point, South of Eugene. (The Commission signed the Agreement later in the session).

The Commission considered an agreement with the U.S. Geological Survey concerning a cooperative project for investigation of water resources previously authorized by the Commission on August 20, 1951. The Engineer recalled that this agreement simply embodied the

provisions and conditions as outlined previously by which the State and the Geological Survey each are to contribute $5,000 toward the expense. He recommended that it be signed. The Commission approved the recommendation. (The Agreement was signed later).

The Commission considered a form of receipt and release agreement with the Sunny Slope Irrigation Ditch Company, north of North Powder, on the Ladd Canyon Section of the Old Oregon Trail, Union County. The Right of Way Engineer stated that the Irrigation Company had protested the handling of drainage facilities along the highway and as a result of investigation, payment of $750.00 had been approved on May 24, 1951. The receipt and release form, he stated, relieves the Commission from further liability in this matter and he recommended that it be approved. The Commission unanimously accepted the recommendation. (The Agreement was signed later in the session).

Commissioner Reynolds reported that the Department of State Police had brought to his attention that truck drivers seeking PUC inspections block the street at the east end of the State Highway Office Building in La Grande. He recalled that previously the Commission had approved acquisition of space to provide facilities to park State Highway Department cars. The Engineer stated that he had knowledge of the situation and recommended that Lot 22 in Block 1 be purchased at an estimated cost of $500 to relieve the condition complained of. The Commission unanimously approved the recommendation.

Commissioner Reynolds also brought up for discussion the Strasbaugh case involving property near Ontario in Malheur County. He recalled that sometime in the past the Commission had requested that local attorneys be hired to represent the State in cases such as this, and in this particular instance he urged that the services of Mr. R. D. Lytle, Attorney, Vale, be secured if it is necessary to take the case to court. Commissioner McIver concurred in the suggestion and the Commission so ordered.

The Engineer rendered a status report on the obligations of the City of Salem as provided for in the Commission's agreement with the City covering highway improvements in the Salem area and the Salem traffic plan. He advised that, insofar as the traffic plan is concerned, the City has designated the streets providing for one-way traffic and has also taken action approving the "No Parking" feature, but it has as yet not definitely provided for off-street parking in North Salem, which is a controversial item, but the latest information available is that the City will do so shortly. He recalled that the original agreement with the City provides for the widening of South Commercial Street for a distance of four blocks between Oxford and Hoyt Streets, however, in preparing the contract, he said, this particular feature was overlooked. He advised that the cost of such

widening work two years ago was estimated at $5,500, but is now estimated at $6,500. He also said that the City has stated a willingness to perform the work at such amount. He recommended approval of the project on such basis. The Engineer also advised that, in putting the traffic plan into effect, it will be necessary for the State to take jurisdiction over certain streets. He mentioned the streets concerned and pointed out that Marion Street and Center Street are included in the list pursuant to a request from the Salem City Council, as substitutes for Chemeketa Street and Court Street which have been deleted, and that the City has approved the change by subsequent agreement in writing. He recommended approval of the arrangement and presented a form of resolution with regard thereto for adoption by the Commission. He called attention to a clause in the resolution which provides that the arrangement shall not go into effect until the City has completely fulfilled its obligations. This matter was discussed at considerable length and, as a result thereof, the Commission unanimously approved the widening work on South Commercial Street as recommended by the Engineer, the work to be done by the City. The Commission also unanimously approved the traffic plan as reported by the Engineer, by adoption of the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In this connection the Chief Counsel expressed doubts that the City of Salem will provide off-street parking areas in North Salem, which is its obligation according to the original agreement. He cautioned the Commission against assuming any new obligations until the City has provided such off-street parking and has agreed in writing to other features. He suggested that the entire matter should be covered by an amended agreement between the Commission and the City covering all features definitely and clearly before the Commission puts the traffic plan into effect. The Commission approved the suggestion and ordered that such amended agreement be prepared and presented to the Commission at its October meeting. It is to include provision that the State can relinquish to the City jurisdiction over certain city streets if the Commission so desires. The Secretary was instructed to notify the City by letter explaining the Commission's action and pointing out definitely that the Commission will not assume any further obligations with reference to the routing of traffic over the city streets and the assumption of maintenance thereupon until the City has fulfilled its obligations to the Commission's satisfaction.

The Engineer reported a request from the City of Salem for use of a small triangular tract of State-owned land situate on the west side of US99E just north of the Southern Pacific underpass in North Salem, for the off-street parking of cars. He said the property is of no value for State highway purposes and he recommended that it be either sold or leased to the City for the purpose intended. The Commission deferred action on the matter until the City has made its decision with respect to the fulfilment of its obligations in connection with the Salem

traffic plan. The Commission also expressed a wish to inspect the property before deciding the matter.

Mr. W. W. Stiffler, Assistant State Highway Engineer, stated that in connection with the removal of "danger" trees along the Oregon Coast Highway between Seaside and Astoria, owners of some of the trees on private property had agreed to remove their trees and had offered to buy the "danger" trees on the state highway right of way and to pay to the State $5.00 per MFBM for the merchantable timber. He recommended acceptance of the offer because it would be costly to dispose of the trees in any other manner. The Commission unanimously approved the recommendation.

The Engineer brought up the matter of a traffic interchange at US30 and US730 near Boardman in Morrow County. The traffic here, he stated, is quite fast and an underpass is badly needed for protection of the traveling public. He recalled that there had been some previous discussion of this matter but no formal action had been taken by the Commission. He recommended approval of the project and that the Commission authorize an expenditure of $50,000 for construction of the underpass. The Commission unanimously approved the recommendation.

The Engineer reported requests received from members of the lumber industry for permission to truck haul logs over State highways during Sundays to enable them to stock pile a sufficient supply of logs to insure continuous operation of their plants during the winter season. These requests have been made, he said, because of the fact that logging and saw mill operations have been closed down for such a long time this year as a precaution against fires. He recommended approval of the requests. The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission signed Agreements etc., as follows:

"Indenture of Access" re Frederickson property situate on Salem-Hayesville School Section of US99E.

"Indenture of Access" re Rhonda-Johnson property on the Chrome Plant-Coquille Section of US101.

Letter directed to Bureau of Public Roads requesting designation of Federal Aid route No. 45. (Salem By-pass)

Agreement with O. W. R. & N. Co. and Union Pacific Railroad Company covering encroachment of the T. H. Banfield Expressway between Sundial crossing and Fairview.

Agreement with White City Lumber Company for log scaling site on "H" and "G" Avenues, Medford, Jackson County.

Deed re exchange of properties with White City Lumber Co., in Camp White area.

Two project agreements with Bureau of Public Roads covering (1) Bridgeton Road-Goetz Road Section of Pacific Highway East, and (2) Columbia Slough-Columbia Boulevard Section of Pacific Highway East.

Agreement with Union Pacific Railroad Co. covering encroachment at Wygant Park-Hood River Section of Columbia River Highway.

Agreement with Lane County providing for disposal of old route of Pacific Highway between Goshen and Judkins Point.

Agreement with U. S. Geological Survey covering cooperative project for investigation of water resources.

Receipt and Release from Sunny Slope Irrigation Ditch Company, North Powder, Oregon, releasing the Highway Commission from all claims for damages by reason of road construction on property located on the SW¼ of the SE¼ of Section 9, Township 6 South, Range 39 E. W. M.

Agreement with Glens Falls Indemnity Company whereby State pays certain monies earned under contracts No. 3011, 3012, and 3018. Guarantees payment of claims up to $5934.17.

Agreement with City of Eugene, City of Springfield and Lane County covering the Origin and Destination Survey made by the State Highway Commission.

There being no further business to come before the Commission at this time, the meeting adjourned at 12:30 p. m.

Acting Chairman

State Highway Engineer

Commissioner

Secretary

EXHIBITS "A" THROUGH "J"

Minutes of

September 12, 1951

EXHIBIT "A"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT NO. 4 - T. H. BANFIELD EXPRESSWAY

14857 - Ertz, Harry E. and Mildred G. (Johnson)
Right of Way
Option expires October 21, 1951

10,000 sq. ft. at $0.40 per sq. ft.	$4,000.00	
2 story building. 3616 sq. ft.	19,888.00	
Repair shop, 1494 sq. ft.	4,482.00	
Concrete drive and parking area, 2,240 sq. ft.	505.00	
Total consideration		$28,875.00
Less amount paid by Fires Insurance Co., (Fire of 5/24/51)		2,000.00
Amount to be paid owner - chrg to Right of Way		$26,875.00

(cont.)

Option expires March 4, 1952

1700 sq. ft. at $0.08 per sq. ft.	$136.00	
Amount to be paid owner - chrg to Right of Way		$136.00

Access controlled - no access allowed

17724 - Grant, A. H. and Maurine (Bennett)
Easement
Option expires February 19, 1952

500 sq. ft. slope easement GRATIS

Grantor reserves and may construct commercial approaches at Stations 20+22.5 and 20+47.5, South side

Access controlled -

WYGANT PARK-HOOD RIVER SECTION - COLUMBIA RIVER HIGHWAY

17000 - Jackson, Chas. B. and M. Vilate (Witt)
Right of Way
Option expires December 28, 1951

1.29 acres at $2,000 per acre	$2,580.00	
Dwelling-1172 sq. ft. at $5 per sq. ft.	5,860.00	
Dwelling-464 sq. ft. at $3- per sq. ft.	1,292.00	
2 garages, 832 sq. ft.	832.00	
2 mink sheds, 3,400 sq. ft.	3,922.00	
713 feet of 6' board fence	514.00	
Amount to be paid owner - chrg to Right of Way		$15,000.00

Access controlled - no access allowed

17802 - Galligan, Merideth (Witt)
Talus Pit and Haul Road
Option expires February 29, 1952

12.93 acres at $92- per acre	$1,189.00	
0.61 acres at $100 per acre	61.00	
Amount to be paid owner - chrg to Quarry Site		$1,250.00

(cont.)

EXHIBIT "A" (cont.)

DRINKING WATER SPRING SECTION - ENTERPRISE-LEWISTON HIGHWAY

17976 - Daggett, Roy W. and Emily (Benfield)
Maintenance Building Site
Option expires February 27, 1952

2.75 acres	GRATIS	
One-half interest in spring	$750.00	
Amount to be paid owner - chrg to Maintenance Site		$750.00

State to have the privilege of improving spring, installing new pump, new pipes, etc.

WYGANT PARK-HOOD RIVER SECTION - COLUMBIA RIVER HIGHWAY

16997A - Burkholder, H. B. et ux (Witt)
Right of Way
Option expires February 13, 1952

1.41 acres at $1,000 per acre	$1,410.00	
Allowance - 5 room, 1½ story frame house	6,130.00	
- Wood shed and garage, 640 sq. ft.	960.00	
Amount to be paid owner - chrg to Right of Way		$8,500.00

Takes all -

17001 - Thompson, Elmer E. and Barbara E. (Cozad)
Right of Way
Option expires November 4, 1951

3 acres at $2,333.33 per acre	$7,000.00	
8 frame cottages, 2808 sq. ft. at $5 per sq. ft.	14,040.00	
5 room dwelling, 832 sq. ft. at $5.50	4,576.00	
1 frame rest room, 264 sq. ft. at $3	792.00	
404 ft. picket fence at $0.50 per ft.	202.00	
3 single garages connecting cabins at $50 each	150.00	
1 artificial fish pond stocked with bass, ¼ acre	500.00	
Amount to be paid owner - chrg to Right of Way		$27,260.00

Takes all -

EXHIBIT "B"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Section 13, Chapter 467, Oregon Laws 1947, as amended, the Highway Commission has submitted in writing to the Public Utilities Commissioner recommendations or suggestions that, in the opinion of the Highway Commission, should be imposed for the protection of highways and for the best interests of the general public in connection with permits issued by the Public Utilities Commissioner for the transportation of logs, poles or piling; and

WHEREAS, the Public Utilities Commissioner has adopted such recommendations or suggestions as regulations covering the transportation of logs, poles or piling, and has made the same a part of Schedule "B" Permits issued by the Commissioner; and

WHEREAS, one of said regulations prohibits the truck hauling of logs, poles or piling over or across any state highway on Sundays; and

WHEREAS, the forest and wooded areas within the State of Oregon have been closed during long periods of the year of 1951 because of fire danger, and logging operators, sawmills and lumber companies have been unable to cut, remove and stock-pile sufficient logs to insure the continuous operation of their plants during the latter part of 1951 and the early part of 1952, during which period weather and climatic conditions will probably make logging impossible in many areas of the State; and

WHEREAS, the continuous and uninterrupted operation of sawmills and other lumber plants, facilities and businesses, is essential to the general welfare of the people of the State, and the transporting of logs over highways during periods of favorable weather during the remainder of the year 1951 will do less damage to highways than the transporting of logs during the period of spring thaws in 1952, during which latter period hauling will be required to maintain the production of said sawmills and other lumber plants, facilities and businesses, if additional hauling periods are not permitted during the year of 1951, it is the opinion of the Commission that the restriction placed upon the hauling of logs, poles or piling, over or across state highways on Sundays, from 4:00 A. M. to 8:00 P. M., Pacific Standard Time, should be suspended until January 1, 1952;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by this Commission, the majority of the members being

(cont.)

EXHIBIT "B" (cont.)

present and voting affirmatively, as follows:

1. That the Highway Commission does hereby recommend to the Public Utilities Commissioner, pursuant to the provisions of Section 13, Chapter 467, Oregon Laws 1947, as amended, that the effect and enforcement of that portion only of the regulations made a part of Schedule "B" Permits issued by the Commissioner for the transportation of logs, poles or piling, prohibiting truck hauling of logs, poles or piling, over or across any state highway on Sundays, from 4:00 A. M. to 8:00 P. M., Pacific Standard Time, be suspended until January 1, 1952, and that said provision and regulation be reinstated in full force and effect on and after January 1, 1952.

2. That this resolution be entered in the minutes and records of the Commission as of the twelfth day of September, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Public Utilities Commissioner and the Superintendent of State Police.

EXHIBIT "C"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, it has been brought to the attentior of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's minutes or records; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal record and action, it is the purpose of the Commissior at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, two members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction or other improvement of the highway projects listed on the attached sheet, which sheet for identification purposes is marked "A" and dated September 12, 1951, is hereby declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby approved.

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this resolution be entered in the minutes and records of the Commission as of September 12, 1951, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page "A".

Minutes of September 12, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Boardman	$ 365.54
Clatskanie	2,733.90
Donald	571.35
Idanha	1,354.66
Jefferson	1,944.45
Sisters	2,205.55
Sumpter	439.27

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the twelfth day of September, 1951.

EXHIBIT "F"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3289, with Peter Kiewit Sons' Co., for grading and bituminous macadam surfacing on the Barkley Springs-Algoma Section of The Dalles-California Highway in Klamath County, completed August 11, 1951.

Contract No. 3313, with Tom Lillebo for constructing North Dillard Bridge on the Pacific Highway in Douglas County, completed August 11, 1951.

Contract No. 3349, with Valley Construction Company for constructing Willow Creek Bridge on the Imbler-Dry Creek County Road in Union County, completed June 15, 1951.

Contract No. 3406, with Russell Olson Construction Company for grading, surfacing and oiling on the Burns (W. Gilmore Street) City Street Section in Harney County, completed August 18, 1951.

Contract No. 3411, with A. H. Saxton & Sons for constructing guard rail and bituminous macadam surfacing on the Sand Station-Washington State Line Section of the Columbia River Highway in Umatilla County, completed August 31, 1951.

Contract No. 3413, with Stockton & Sons for constructing Timberline Junction Maintenance Building in Clackamas County, completed August 31, 1951.

Contract No. 3441, with Rush Construction Co., for grading and surfacing on the East Cottonwood Canyon-York Ranch Section of the Wasco-Heppner Highway in Gilliam County, completed August 31, 1951.

Contract No. 3470, with O. C. Yocom Co., and J. C. Compton Co., for grading and paving on the West Unit, South Yamhill River-Dayton Section of the Three Mile Lane Highway in Yamhill County, completed August 25, 1951.

Contract No. 3486, with Babler Bros., Inc., for reoiling on the Boardman Junction-Echo Junction and Echo Junction-Rieth Section of Hermiston and Stanfield-Pendleton Highways in Umatilla County, completed August 31, 1951.

(cont.)

EXHIBIT "F" (cont.)

Contract No. 3494, with Porter W. Yett for paving on the Myrtle Point (Reedsford Road) City Street Section in Coos County, completed August 10, 1951.

Contract No. 3500, with Portland Construction Co., for landscaping on the Lombard-Killingsworth (33rd Avenue-42nd Avenue) Section of the Northeast Portland Secondary Highway in Multnomah County, completed August 21, 1951.

Contract No. 3526, with Leland J. Plank for constructing Champoeg State Park Latrine in Marion County, completed August 10, 1951.

Contract No. 3531, with C. H. Grimstad and T. Vanderveldt for grading and paving on the Tillamook (Miller Avenue) City Street Section in Tillamook County, completed August 27, 1951.

Contract No. 3543, with Harr & Horton for oiling on the Apiary Section of the Rainier-Apiary County Road in Columbia County, completed August 31, 1951.

Contract No. 3554, with Babler Bros., Inc., for grading and oil mat surfacing on the Dufur (North First Street) City Street Section in Wasco County, completed August 21, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

18667

EXHIBIT "G"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, the Columbia River Highway in one of the major State highways of the State, is likewise a part of the Federal highway system and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 2 and US Highway Route No. 30; and

WHEREAS, it appears that on said highway situate approximately two miles East of the city of Rainier in Columbia County there is located on property adjacent to the said highway a drive-in theatre and by reason of traffic entering and leaving said theatre grounds and the parking of vehicles on the shoulders of said highway adverse parking conditions are created at times; and

WHEREAS, because said highway throughout its entire length carries a large volume of traffic, the parking of vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and occupants of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public convenience and public safety require that the use of the shoulders of said highway within said area of the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation reports and recommendation made by and under the supervision of the State Highway Engineer, that the parking of vehicles along the Columbia River Highway between M. P. 44.99, approximately 0.62 mile west of Little Jack Creek, and M. P. 45.15, approximately 0.78 mile west of Little Jack Creek, a distance of 0.16 mile in Columbia County, creates a hazard not only to through traffic on the said highway but also to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles thereon and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

3. That this Commission does further find and declare that the parking of vehicles for long periods of time on the shoulders of said highway between M. P. 44.99 and M. P. 45.15 should be and hereby is

(cont.)

EXHIBIT "G" (cont.)

prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect "NO PARKING ON HIGHWAY SHOULDERS" signs at said termini and at such points between said termini as in the judgment of said engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declar ed.

5. That a certified copy of this resolution be sent to the owner and operator of said drive-in theatre and that like copies be mailed to the Superintendent of the Department of State Police and to the Sheriff of Columbia County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the twelth day of September, 1951.

EXHIBIT "H"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, the Pacific Highway from the Columbia River on the north to the Oregon-California State Line on the south, including both Pacific Highway East and Pacific Highway West, is a state highway by legislative declaration and said highway is therefor under the jurisdiction and control of the State Highway Commission; and

WHEREAS, the eastern branch of said highway, the Pacific Highway East, as the same is now located, enters from the north and passes through the corporate limits of the City of Salem; and

WHEREAS, by virtue of authority provided for in Section 100-122, O. C. L. A., the Commission is authorized and directed to select and designate the street, streets or sections of streets of said city over which said Pacific Highway East shall be routed within the corporate limits of said city and said Commission is also authorized and directed to select the street or streets or sections of streets of said city over which to route state highway traffic entering and leaving the corporate limits of said city over the Salem-Dallas Highway; and

WHEREAS, on the 21st day of September, 1949, the State of Oregon, acting by and through its State Highway Commission, and the City of Salem, acting by and through its elected, qualified and acting municipal authorities, entered into a written agreement, the subject of which is the construction, reconstruction and improvement of said streets within said city, including bridges which span the Willamette River, which agreement also covers and provides for the routing and the regulation and control of traffic moving over said streets; and

WHEREAS, the prime purpose of said agreement is to provide safe and convenient traffic arteries for the operation of vehicular traffic, both state and local, into, through and out of said city; and

WHEREAS, the provisions and conditions of said agreement require and obligate the State Highway Commission to select and designate within the meaning and purpose of said Section 100-122, O. C. L. A., the street or streets or sections of streets of said city over which traffic entering said city by way of the Pacific Highway and by way of the Salem-Dallas Highway shall be routed; and

WHEREAS, by virtue of charter authority, there is vested in said city officials the power and authority to provide by ordinance or resolution for the prohibition of parking of vehicles on city streets and said city officials are authorized to provide for and designate certain streets as one-way traffic arteries; and

(cont.)

EXHIBIT "H" (cont.)

WHEREAS, it is provided in said State-City agreement that: "The State shall not be required to undertake any of the things or obligations herein assumed by it until such time as the ordinances adopted by the City as provided for herein have become finally effective." And,

WHEREAS, it is the purpose of the Commission, by the adoption of this resolution, to select and designate the street or streets of the City of Salem, or sections of streets, over which traffic entering said city by way of the Pacific Highway East and by way of the Salem-Dallas Highway shall be routed if and when the obligations set forth in said State-City agreement have been consumated by the parties to said agreement;

NOW, THEREFORE, in consideration of the purpose sought to be accomplished by virtue of the obligations set forth in said State-City agreement, and in consideration of the public benefits which it is anticipated will be derived as a result of things provided for in said agreement, and with the intent of performing in part some of the provisions of said agreement, the Commission does hereby resolve and order, as follows:

I.

The Commission does hereby resolve and order that the following streets and sections of streets of the City of Salem are hereby selected and designated as streets and sections of streets of said city over which the Pacific Highway East and the Salem-Dallas Highway shall be routed within the corporate limits of said city:

1. Fairgrounds Road from Tile Road to Summer Street.

2. Summer Street from Fairgrounds Road to Center Street.

3. Marion Street from Capitol Street to Water Street, including also the extension of Marion Street across the Willamette River to the west city limits of Salem.

4. Liberty Street from Marion Street to Superior Street, including also the cross-over street from Liberty Street to Commercial Street.

5. North Commercial Street from Marion Street to Court Street.

II.

The following streets have been previously adopted as highway routes, and are continued as such:

(cont.)

EXHIBIT "H" (cont.)

1. Center Street from Capitol Street to its intersection with Edgewater Street.

2. Portland Road from the north city limits to the intersection with Fairgrounds Road.

3. Fairgrounds Road from its intersection with Portland Road to its intersection with North Capitol Street.

4. North Capitol Street from Fairgrounds Road to Court Street.

5. Commercial Street from Court Street to the south city limits.

6. Court Street from Capitol Street to 12th Street.

7. 12th Street from Court Street to State Street.

8. State Street from 12th Street to the east city limits.

9. Edgewater Street from its intersection with Center Street to the west city limits.

10. Clark Street from its intersection with Edgewater Street to the north city limits.

III.

It is hereby resolved that Court Street from Capitol Street to Commercial Street hereby is removed from the streets of said city as a street over which shall be routed state highway traffic and complete jurisdiction over said street hereby is returned to the municipal authorities of said city within the power, meaning and purpose vested in the Commission by the provisions of Section 100-122, O. C. L. A.

IV.

That said streets and sections of streets between the termini hereby fixed are declared to be and hereby are designated as main traveled or through highways.

V.

The State Highway Engineer hereby is directed to erect and thereafter maintain along said above-listed streets or sections of streets between said termini the necessary and appropriate directional signs conforming to the design and type of sign heretofore adopted and approved by the Highway Commission for like purpose.

EXHIBIT "H" (cont.)

VI.

That the State Highway Engineer be and he hereby is instructed to place or cause to be placed and thereafter maintained along said above-listed streets or sections of streets between said termini at all points where streets or roads intersect or enter said streets or sections of streets markers notifying drivers of vehicles to stop before entering or crossing said streets.

VII.

That the said Engineer is instructed further to place such signs or markers as nearly as practicable at the place or places where said cross or intersecting roads or streets meet a prolongation of the nearest property line of such through streets and such signs or markers so placed or installed shall indicate or designate to all drivers of motor vehicles entering said streets or sections of streets from any of the said cross or intersecting roads or streets where the stop shall be made.

VIII.

That said signs or markers shall conform in shape, design, size and other physical characteristics to the specifications and standards heretofore approved for such signs and markers.

IX.

The action of the Commission with respect to the selection and designation of streets or sections of streets of said city as in this resolution provided is understood to be within the meaning, purpose and privilege of Section 100-122, O. C. L. A., and amendments thereof.

X.

The action of the Commission as disclosed and declared in this resolution is in consideration of and on the assumption that the City will promptly and in due form satisfy all of its obligations set forth in and assumed by the execution of said State-City Agreement. The Commission may, at its option, upon failure or default on the part of City, annul or amend any part or all of this resolution.

XI.

That this resolution shall be entered in the minutes and records of the Commission as of the 12th day of September, 1951, and a duly certified copy thereof delivered to the Bureau of Public Roads and to the City of Salem.

18673

EXHIBIT "I"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, The State Highway Commission, pursuant to the provisions of S 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made of the Cascade Secondary Highway between Mile Posts 0.00 and 0.6.49 thereof; and

WHEREAS, the data, facts and information obtained by said investigation are on file in the office of the State Highway Commission at Salem, Oregon; and,

WHEREAS, portions of the Cascade Secondary Highway between Mile Post 0.50 and 6.49 are partially within the City Limits of the City of Portland, and the State Speed Control Board, based upon engineering and traffic investigations, has established certain speed zones for such portions that lie within its jurisdiction; and,

WHEREAS, based upon the engineering and traffic investigations, the Commission has determined that the designated speed set forth in sub-section b of S 115-320, O. C. L. A., as amended, is greater than is reasonable and safe due to the congested vehicular traffic and due to the desirability for conformance with the speed limits established for those portions of the Cascade Secondary Highway as may be situated within the confines of the City of Portland, the Commission has determined to designate a different speed upon portions of the said Cascade Secondary Highway as hereinafter designated.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and affirmatively voting as follows:

1. Based upon said engineering and traffic investigation and upon the findings and determination made by the Commission with respect thereto and within the meaning and purposes of section 115-320, O. C. L. A., as amended, it is hereby ordered that the designated speed for any vehicle on the said Cascade Secondary Highway between Mile Posts 0.00 and 0.50 shall be thirty-five miles per hour; and that for such portions of the said Cascade Secondary Highway as may be situated beyond and outside of the City Limits of the City of Portland, between Mile Posts 0.50 and 0.71, Mile Posts 0.80 and 1.01, Mile Posts 3.81 and 4.88, Mile Posts 5.40 and 6.00, the designated speed for any vehicle shall also be thirty-five miles per hours, when appropriate signs giving notice of said designated speed are erected on said highway.

(cont.)

EXHIBIT "I" (cont.)

2. The State Highway Engineer hereby is ordered and directed to erect in appropriate places in sufficient numbers adequate signs giving notice that the designated speed on the aforesaid portions of the Cascade Secondary Highway is thirty-five miles per hour.

3. This resolution shall be entered in the minutes and records of the Commission as of the twelfth day of September, 1951 and a certified copy thereof shall be delivered to the Superintendent of the State Police, the Secretary of State and to the Traffic Engineer of the City of Portland.

18675

EXHIBIT "J-1"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Viento-Hood River Section of the said Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Viento-Hood River Section of the Columbia River Highway the parcel of real property located in Hood River County, Oregon, and described as follows, to-wit:

R 17002
Owner: G. S. Jewett, et al.

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 27, Township 3 North, Range 10 East, W. M., Hood River County, Oregon; the said parcel being a tract

(cont.)

EXHIBIT "J-1" (cont.)

of land lying north of and between the existing Columbia River Highway and a line parallel to and 75 feet northerly of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1070+00, said Station being 658.40 feet north and 1325.51 feet west of the south quarter corner of said Section 27; thence North 72° 55' 30" East 1000 feet to Station 1080+00; the said center line crosses the west line and the east line of said parcel approximately at Stations 1074+24 and 1077+35, respectively.

The westerly line of said parcel is coincident with the easterly line of that tract of land conveyed to Elmer E. and Barbara E. Thompson by deed recorded in Book 37, Page 232, Hood River County Deed Records.

The easterly line of said parcel is coincident with the westerly line of that tract of land conveyed to O. W. Bauer by deed recorded in Book 24, Page 385, Hood River County Deed Records.

Also, all rights and interest in that part of a 16-foot roadway which lies along the westerly line of the parcel herein conveyed.

The parcel of land to which this description applies contains 0.62 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described property, it is necessary that there be acquired all easements of access and all rights of ingress, egress, and regress to, from, and between the remaining land of the larger tract, of which the above-described property is a part, and the above-described property, and any highway now or hereafter constructed thereon, except that there shall be reserved unto the owners of said remaining property right of access to a frontage road to be constructed upon the above-described property and northerly of the main highway, said frontage road to be connected to the main highway only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

(cont.)

EXHIBIT "J-1" (cont.)

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the twelth day of September, 1951.

EXHIBIT "J-2"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Viento-Hood River Section of the said Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Viento-Hood River Section of the Columbia River Highway the parcel of real property located in Hood River County, Oregon, and described as follows, to wit:

R 17007
Owner: Gladys June Haviland

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 27, Township 3 North, Range

(cont.)

EXHIBIT "J-2" (cont.)

10 East, W. M., Hood River County, Oregon, and being a portion of that property conveyed by that deed to Gladys June McWilliams, recorded in Book 29, Page 261, of Hood River County Records of Deeds; the said parcel being that portion of said property included in a strip of land 250 feet in width, lying 75 feet on the north side and 175 feet on the south side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1080+00, said Station being 951.2 feet north and 369.3 feet west of the south quarter corner of said Section 27; thence North 72° 55' 30" East 2396.56 feet; thence on a spiral curve right (the long chord of which bears North 73° 35' 30" East) 400 feet; thence on a 5729.58 foot radius curve right (the long chord of which bears North 81° 05' 30" East) 1233.33 feet to Station 1120+29.89; the said center line crossing the west and east lines of said property approximately at Stations 1101+29 and 1108+03, respectively.

The parcel of land to which this description applies contains 3.95 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there by acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Columbia River Highway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited, except that there shall be reserved unto the owners of the remaining real property rights of access to a frontage road to be constructed by the State upon the aforesaid-described real property and northerly of the main highway, said frontage road to be connected to the main highway only at such points as designated by the State of Oregon.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement

EXHIBIT "J-2" (cont.)

can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the twelth day of September, 1951.

18681

EXHIBIT "J-3"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the McKenzie Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of maintaining the Vida-Balknap Section of the McKenzie Highway, the Highway Commission plans and proposes to acquire and stock-pile road-building materials, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of road-building materials, stock pile site and for other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows.

1. The Commission does hereby find and declare that the following-described property is necessary and required for the acquisition of road-building materials and for a stock pile site in connection with the proper maintenance of the Vida-Belknap Section of the McKenzie Highway, said property being located in Lane County, Oregon:

R 17313
Owner: Frederick Behm, et ux.

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) and in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 21, Township 16 South, Range 4 East, W. M., Lane County, Oregon; the said parcel being described as follows:

Beginning at a point in the channel of Blue River and on the south line of said Section 21, said point being 1783.4 feet east of the southwest corner of said Section 21; thence east along said south line 1550 feet, thence north 300 feet; thence North 66° West 930 feet to a point in the channel of Blue River; thence South 45° 55' West down said channel 974.99 feet to the point of beginning.

(cont.)

EXHIBIT "J-3" (cont.)

The parcel of land to which this description applies contains 15 acres, more or less.

2. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking,including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

6. This this resolution be entered in full in the minutes and records of the Commission as of the twelfth day of September, 1951.

18683

EXHIBIT "J-4"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the T. H. Banfield Expressway, for the purpose of establishing, constructing and maintaining a throughway, the following-described parcel of real property, to-wit:

(cont.)

EXHIBIT "J-4" (cont.)

Owner: William E. Tegart
File No. 15535

A parcel of land lying in Section 29, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon, and being a portion of the following-described property: Those tracts of land which were conveyed to William Tegart, recorded in Book 268, Page 84, and in Book 677, Page 180, of Multnomah County Records of Deeds; The said parcel being all of that portion of the foregoing property lying south of a line parallel to and 100 feet northerly of the center line of the T. H. Banfield Expressway as said highway has been located over and across said property; the location of the said parcel being determined by the said center line, which center line is described as follows:

Beginning at a point which is Engineer's center line Station 565+76.05, said point being 277.34 feet North 59° 37' 56" West of the west quarter corner of Section 29, Township 1 North, Range 3 East, W. M.; thence South 85° 03' East a distance of 2247.31 feet to Engineer's Station 588+23.36; thence on a spiral curve to the right (the long chord of which bears South 84° 50' 30" East) a distance of 250 feet; thence on a 11459.16 foot radius curve right (the long chord of which bears South 81° 47' 50" East) a distance of 1051.11 feet; thence on a spiral curve to the right (the long chord of which bears South 78° 45' 10" East) a distance of 250 feet to Engineer's Station 603+74.47; thence South 78° 32' 40" East 625.53 feet to Engineer's Station 610+00; the northerly line of said parcel crossing the west and east lines of said property approximately opposite Stations 596+49 and 604+12, respectively.

The parcel of land to which this description applies contains 3.15 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the T. H. Banfield Expressway, when constructed upon the aforesaid-described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access ingress, egress and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least

EXHIBIT "J-4" (cont.)

private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the twelfth day of September, 1951.

EXHIBIT "J-5"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the West Portland-Hubbard Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there are needed and required, and are being appropriated for right of way of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway, for the purpose of establishing, constructing and

(cont.)

EXHIBIT "J-5" (cont.)

maintaining a throughtway, the following-described three parcels of real property, to-wit:

Owner: Arthur Ojiro Sasaki
File Nos: 17496, 17497 and 17498

Parcel No. 1:

A parcel of land lying in Lots 5, 8 and 9, in Tualatin Orchards Subdivision in Section 35, Township 2 South, Range 1 West, and in Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon; the said parcel being that portion of said Lots 5, 8 and 9 included in a strip of land 300 feet in width, 200 feet on the easterly side and 100 feet on the westerly side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is desctibed as follows:

Beginning at Engineer's center line Station 370+00, said Station being approximately 735 feet north and 500 feet west of the southeast corner of said Section 35; thence South 15° 48' 30" West 1201.22 feet to Station 382+01.22; said center line crossing the north line of said Lot 5 and the south line of said Lot 8 approximately at Station 370+65 and Station 379+54, respectively.

The parcel of land to which this description applies contains 6.12 acres.

Parcel No. 2:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to Arthur O. Sasaki and Nami Sasaki, recorded in Book 187, Page 37, of Washington County Records of Deeds; the said parcel being that portion of said property included in a strip of land 300 feet in width, 200 feet on the easterly side and 100 feet on the westerly side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 375+00, said Station being approximately 225 feet north and 540 feet west of the northeast corner of said Section 2; thence South 15° 48' 30" West 701.22 feet; thence along a spiral curve left (the long chord of which bears South 15° 36' West) 250 feet; thence along an 11459.16 foot radius curve left (the long chord of which bears South 7° 52' 30" West) 2923.34 feet to Station 413+74.56; said center line crossing the northerly and southerly lines of said property approximately at Station 379+54 and Station 388+98, respectively.

(cont.)

EXHIBIT "J-5" (cont.)

The parcel of land to which this description applies contains 6.5 acres.

Parcel No. 3:

A parcel of land lying in the Northeast quarter (NE¼) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property conveyed by that deed to O. Sasaki, recorded in Book 144, Page 496, of Washington County Records of Deeds; the said parcel being that portion of said property lying west of a line which is parallel to and 200 feet easterly of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 384+51.22, said Station being 2178.09 feet North 24° 55' 21" West of the east quarter corner of said Section 2; thence on a 11459.16 foot radius curve left (the long chord of which bears South 7° 52' 30" West) 2923.34 feet to Station 413+74.56; said center line crossing the northerly and southerly lines of said property approximately at Station 388+98 and Station 392+90, respectively.

The parcel of land to which this description applies contains 2.4 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described parcels of real property, it is necessary that here be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the West Portland-Hubbard Highway, when constructed upon the aforesaid-described parcels of real property to the remaining abutting lands of the larger tracts, of which said larger tracts the aforesaid-described parcels of property are parts, and that all access, ingress, egress and regress to, from and between the aforesaid-described parcels of property, including any highway to be constructed thereon, and said remaining abutting properties be prohibited; except that there shall be reserved unto the owners of said remaining properties rights of access as follows:

a. A right of access for a crossing over said West Portland-Hubbard Highway for farm purposes only of a width not to exceed twenty-five feet at Highway Engineer's center line Station 385+50, which said right of farm crossing is solely for the purpose of engaging in farming activities by the owners or occupants of the remaining real properties of the larger tracts of which the above-described parcels of property are parts, their agents and employees, with their chattels, to and from the parcels severed; said right shall terminate when the

(cont.)

parcels severed are no longer in common ownership, and said right also shall terminate in the event the right is used for any purpose not permitted herein.

b. A right of private access for an approach, not to exceed twenty-five feet in width, on the east side of the West Portland-Hubbard Highway opposite Highway Engineer's center line Station 385+50.

c. A right of private access for an approach, not to exceed twenty-five feet in width on the west side of the West Portland-Hubbard Highway opposite Highway Engineer's center line Station 385+50.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

The State shall have the right, at its option, to build at any future time at its sole cost, a frontage road upon either or both sides of the West Portland-Hubbard Highway upon right of way now owned or lands to be acquired by the State, and upon construction of either or both of such frontage roads, the right or rights of private access herein set forth to be reserved that is or are adjacent to either or both such frontage roads shall terminate and cease, and the owner of said remaining property shall thereupon have access to such frontage road or roads; said frontage road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition

EXHIBIT "J-5" (cont.)

of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the twelfth day of September, 1951.

EXHIBIT "J-6"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the T. H. Banfield Expressway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and the public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for highway drainage purposes, in connection with the proper establishment, construction and maintenance of the T. H. Banfield Expressway, a perpetual right and easement to install and thereafter have access to and replace or maintain a drainage pipe or other type covered drain through, under and along the following-described real pro-

perty, to-wit:

R 1757 (Lizzie Luscher)

A parcel of land lying in the East half ($E\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 28, Township 1 North, Range 3 East, W. M., Multnomah County, Oregon; the said parcel being a strip 10 feet in width, 5 feet on each side of the following-described line:

Beginning at a point on the southerly right of way line of the Columbia River Highway, said point being 470.1 feet easterly when measured along the southerly right of way line of the Columbia River Highway from the intersection of the said southerly right of way line with the easterly line of that tract conveyed to Wayne E. McGill by deed recorded in Book 562, Page 340, of Multnomah County Deed Records; thence South 0° 34' West 150 feet, more or less, to the northerly line of the proposed new right of way.

The parcel of land to which this description applies contains 1,500 square feet.

2. That the highway facility for which the aforesaid parcel of real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

4. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

EXHIBIT "J-6" (cont.)

5. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

6. That this resolution be entered in full in the minutes and records of the Commission as of the twelfth day of September, 1951.

EXHIBIT "J-7"

Minutes of September 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Columbia River Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Viento-Hood River Section of the said Columbia River Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Columbia River Highway is a major highway of the State, and as such carried large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Viento-Hood River Section of the Columbia River Highway the parcel of real property located in Hood River County, Oregon, and described as follows, to-wit:

File No R 17630
Owner: Columbia Gorge Hotel Co.

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) and in the West hald ($W\frac{1}{2}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 27, Township 3 North, Range 10 East,

(cont.)

EXHIBIT "J-7" (cont.)

W. M., Hood River County, Oregon, and being a portion of that property conveyed by that deed to Columbia Gorge Hotel Co., recorded in Book 34, Page 279, of Hood River County Records of Deeds; the said parcel being that portion of said property included in a strip of land of variable width, lying on each side of the center line of the Columbia River Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1070+00, said Station being 658.4 feet north and 1325.5 feet west of the south quarter corner of said Section 27; thence North 72° 55' 30" East 3396.56 feet to Station 1103+96.56; said center line crossing the southerly extension of the westerly line and the east line of said property approximately at Stations 1081+35 and 1097+76, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
1077+00	1081+50	75	175
1081+50	1083+00	50	175
1083+00	1090+00	Taper 75 to 85	175
		100	175

The parcel of land to which this description applies contains 8.83 acres, of which 2.06 acres lie within the existing right of way, title to which hereby is acknowledged to be in the public, and 6.77 acres lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described property, it is necessary that there be acquired all easements of access and all rights of ingress, egress and regress, to, from and between the remaining land of the larger tract, of which the above-described property is a part, and the above-described property and any highway now or hereafter constructed thereon, except that there shall be reserved unto the owner of the remaining real property rights of access to frontage roads to be constructed by the State upon the aforesaid-described real property on both sides of the main highway. both of said frontage roads shall be connected to the main highway opposite State Highway Engineer's center line Station 1083+35 and at such other points as designated by the State.

3. That the State Highway Commission will construct at its sole cost and expense a rock wall upon the abutting property of the owner of the aforesaid-described property on the northerly side of the Highway. The State Highway Commission shall have the right to salvage and use the materials in the existing wall.

EXHIBIT "J-7" (cont.)

4. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be entered in full in the minutes and records of the Commission as of the twelfth day of September, 1951.

LOCATED AT SALEM, OREGON

TABLE OF CONTENTS

Page	Date 1951	Subject
18697	Oct. 8	Josephine County. Grants Pass. Revision of Pacific Hwy. route considered at Gold Hill, Oakland, Sutherlin, Drain, Yoncalla,
18698		Cottage Grove and Creswell.
		Clackamas County. Mt. Hood Hwy. Sale of Maintenance site at Govt. Camp. Bid of J. S. Greenwood accepted.
		Polk County. Salmon River Hwy. Coastal Lumber Company paid double indemnity for timber cut.
18699		Lincoln County. Oregon Coast Hwy. Otter Crest. Cutting of timber on old Banfield property to be investigated.
		Meeting adjourned at 9:00 p.m.
	Oct. 9	Jackson County. Gold Hill. Hearing held on Pacific Hwy. route revision. Delegation protests change. Action deferred.
		Meeting adjourned at 9:30 a.m.
18703		Douglas County. Sutherlin. Hearing held re relocation of Pacific Hwy. Delegation presents views. Action deferred.
		Meeting adjourned at 2:20.p.m.
18704		Douglas County. Oakland. Hearing held re relocation of Pacific Hwy. Delegation expresses general approval.
		Meeting adjourned at 3:45 p.m.
18706	Oct. 10	Douglas County. Yoncalla. Hearing held re relocation of Pacific Hwy. Delegation protests. Action deferred.
		Meeting adjourned at 9:30 a.m.
18708		Douglas County. City of Drain. Hearing held re relocation of Pacific Hwy. Delegation protests. Action deferred.
		Meeting adjourned at 11:00 a.m.
18711		Lane County. City of Cottage Grove. Hearing held re relocation of Pacific Hwy. Delegation urges connecting roads. Action deferred.
		Meeting adjourned at 1:45 p.m.
18715		Lane County. City of Creswell. Hearing held re relocation of Pacific Hwy. Delegation protests. Action deferred.
		Lane County. Springfield-Creswell Secdy. Hwy. Raising of grade east of Creswell requested. Action deferred.
		Meeting adjourned at 3:00 p.m.
18718	Oct.11	J. M. Devers. Commemorative resolution adopted.
18719		Bids received on construction projects.
18722		Minutes of June, July and August 3 approved.
		Recording machine. Use at Commission meetings discussed. Present method to be continued.
		Parks Superintendent reports on following matters:
		Battle Mountain State Park. Permit to use road across park approved.
		Ecola State Park. Authority granted to negotiate with U.S. Govt. for additional land.

Page	Date 1951	Subject
18723	Oct. 11	Fern Ridge Dam Recreational Areas. Agreement approved.
		Ukiah-Dale Timber Wayside. Approved renewal of permit to Pilot Rock Lumber Company for road crossing.
		McNary Dam park site. Attendance at hearing reported.
		Cascadia State Park. Request of School District to use excess water approved.
		Proposed Koberg Park. Development to be investigated.
18724		R/W Engineer reports status of r/w acquisition.
		Real property. Options approved. See EXHIBIT "A".

Grants Pass, Oregon
October 8, 1951

The State Highway Commission convened in special session at 8:00 p. m. in the Caveman Room of the Redwood Hotel for consideration of the Engineer's report on the proposed revisions of the Pacific Highway at several points between Eugene and the California State line, particularly revisions that will by-pass the cities and towns of Creswell and Cottage Grove in Lane County; Drain, Yoncalla, Oakland, and Sutherlin in Douglas County; and Gold Hill in Jackson County where public hearings are scheduled to be held on October 9 and 10, 1951, pursuant to the requirements of Section 13 of the Federal Aid Highway Act of 1950. Present were:

Ben R. Chandler, Chairman
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, First Assistant State Highway Engineer
H. B. Glaisyer, Secretary

Commissioner Chas. H. Reynolds was excused.

The State Highway Engineer explained details with respect to the proposed change at each location. He particularly pointed out the following:

1. Proposed revision at the Town of Gold Hill, Jackson County. The estimated cost to modernize the present highway through this town, including some new bridges but without controlled access, is $1,966,000. The estimated cost to construct the proposed by-pass route is $1,078,000. The Engineer pointed out that the by-pass route will be 0.28 mile shorter than the present route and that the benefits to be derived on the by-pass route will amount to 2½ times the benefits that would accrue by improving the present route.

2. Proposed change by-passing the Towns of Oakland and Sutherlin: The Engineer pointed out that this revision starts at a point a short distance north of the Town of Oakland and ends at a place known as Deady, south of the Town of Sutherlin, and that it lies approximately one mile west of the present highway. The change, he said, will effect a saving of 0.55 mile, and the benefits accruing will be four times those that would accrue were the present highway through Oakland and Sutherlin modernized. He estimated the cost to improve the present highway without controlled access at $2,700,000 and to construct the by-pass route at $2,033,000.

3. Proposed by-passing of the towns of Drain and Yoncalla. The Engineer advised that the proposed route follows along Curtis Creek about six miles east of the present highway through the City of Drain, its northerly end being at Cornstock and the southerly terminus being at the foot of Rice Hill, about six miles south of Yoncalla. The by-pass route, he said, is about 2.39 miles shorter than the existing highway, and the benefit showing will be about 3.2 times more than the benefits accruing were the present highway modernized. He pointed out that were the present highway improved, access

to it through the Towns of Drain and Yoncalla could not be controlled, whereas full control of access can be had along the proposed route. He also pointed out that the rise and fall along the by-pass route will be 200 feet less than along the present one. He proposed connections with the present highway at a place known as Anlauf, north of Drain, and at a point about three miles south of Yoncalla for the convenience of the traveling public which wishes to go to Drain or Yoncalla. He also proposed that the present highway north of the town of Drain be renamed as an extension of the Umpqua Highway, and that the existing highway south of Drain be designated a State secondary highway. He estimated the cost to modernize the present highway through Drain and Yoncalla at $6,675,000, and to construct the by-pass route at $5,300,000.

4. Proposed rerouting to by-pass Cottage Grove and Creswell. The Engineer advised that this revision starts about three miles north of Creswell, and extends southerly on the east side of the present highway and the Southern Pacific Railroad to a place known as Divide, by-passing the towns of Creswell and Cottage Grove. The proposed route, he said, is 16.2 miles long and there will be no saving over the present route. However, the benefits accruing will be 2.2 times as much as by improvement of the present route. He estimated the cost to improve the existing highway between the termini of the proposed route at $4,300,000 and the cost to construct the by-pass route is $3,600,000.

The Engineer exhibited maps showing each of the proposed changes and recommended formal adoption of the proposed locations at the next regular meeting of the Commission on October 11, 1951, and that the Right of Way Department be authorized to proceed with negotiations for acquisition of necessary right of way. The Commission discussed this matter at considerable length, but took no action on the Engineer's recommendations.

The Engineer reported results of the receiving of bids in Salem on September 20, 1951 for the purchase of the old maintenance site owned by the Highway Department at Government Camp. He advised that only one bid was received, being that of Mr. J.S. Greenwood, Wemme, Oregon at $4.505.80. He recommended acceptance of this offer, which, he pointed out, is $505.80 more than the minimum price heretofore set by the Commission. In the discussion of the matter, it was recalled that a group from Portland had asked the Commission to defer sale of the property because it wanted to make use of the building located thereon for church and recreational purposes, although the group had made no offer of payment for the property. As a result of the discussion, the Commission decided unanimously to sell the property to Mr. Greenwood for the amount of his offer. (The Commission's action in this matter was confirmed at its meeting on October 11, 1951. See additional minute entry on that date.)

The Commission discussed and approved a report from Mr. C.W. Enfield, Assistant Counsel, on the Commission's claim against Coastal Lumber Company for cutting timber growing on State Highway property located in the $SE\frac{1}{4}$ of the $NE\frac{1}{4}$ of Section 7, Township 6 South, Range 8 West,

W. M. Mr. Enfield in his report stated that the company has paid in full the amount of the claim, $7,678.00, which, he pointed out, is twice the value of the timber that was cut, and is in conformity with the price set by the Commission at its meeting on September 12, 1951.

In this connection, Chairman Chandler inquired as to the status of the State's claim against logging contractors, Gilbert J. Roles and Clive Stiltner, Waldport, who felled about 55MFBM spruce and hemlock timber on highway property that was purchased from Mr. and Mrs. T. H. Banfield in 1937 as right of way for a proposed revision of the Oregon Coast Highway between Otter Crest and Otter Rock, Lincoln County. The answer not being readily available, the Engineer was instructed to check into the matter and report his findings to the Commission. He was also instructed to advise the Commission how the quantity of timber that was taken by these operators was determined.

The meeting adjourned at 9:00 p. m.

Chairman

State Highway Engineer

Commissioner

Secretary

Gold Hill, Oregon
October 9, 1951

Pursuant to the requirements of Section 13 of the "Federal Aid Highway Act of 1950", and to written notice given to the Common Council of the City of Gold Hill, Oregon, dated September 7, 1951, the State Highway Commission held a public hearing in the City Council chambers of the City Hall in the City of Gold Hill, starting at 8:30 a. m., at which hearing the citizens of this town were given an opportunity to express their feelings concerning the proposed rerouting of the Pacific Highway through this place. Present were:

Ben R. Chandler, Chairman, State Highway Commission
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

The local group consisted of 26 members, headed by Mr. A. A. Walker, President of the Gold Hill Chamber of Commerce and Chairman of the City Committee. Others in the group were Mr. Paul J. Malloy, City councilman and motel operator; John A. Stieber, hardware man; Norman Gail, general merchant; Herbert Drake, motel operator; Don Morrow, owner of a hardware and sporting goods store; Fred Lester, general merchandise; Herbert L. Elbert, sporting goods store; Ernest Cooper, trucking service; George Brownell, owner of an auto court; Tom Carlton, rancher; John Cogswell, merchant; and Carl Nelson, rancher.

Chairman Chandler explained the purpose of the hearing. At his request, the Assistant State Highway Engineer, Mr. W. C. Williams, exhibited a map disclosing the proposed rerouting of the highway at this place, and explained details in connection therewith. The group was then invited by Chairman Chandler to express its views with respect to the proposed improvement.

Mr. Walker presented a petition signed by 221 citizens of Gold Hill and vicinity, protesting against "the execution of the proposed plan of the Oregon State Highway Commission to relocate Highway 99 on the south side of the Rogue River and so have this highway by-pass the City of Gold Hill". He advised that this petition has been endorsed by the Gold Hill Lions Club, the Rebecca Lodge, the Gold Hill Grange, and the Gold Hill City Council. In support of the petition, Mr. Walker stated that, if the Highway Commission constructs the change as proposed, their town will be cut off from main highway travel, upon which they depend to a very large degree for their livelihood. He particularly pointed out that the nearest access approach to the city from the proposed highway will be $2\frac{1}{2}$ miles distant, so the city will lose all of the tourist business which it has enjoyed in the past. He urged improvement of the highway at its present location and the straightening of the highway between Gold Hill and Grants Pass, including a new bridge over Rock Creek. He also said that the highway as presently located is very satisfactory and that the people of Gold Hill are definitely in favor of improvements on that location. He also mentioned that conditions on the highway as proposed will be very bad during the winter season; and, that right of way along that route will be costly. Mr. Walker declared that the biggest and most important asset of the City of Gold Hill is its tourist business, on which, he said, the city's existence depends. He pointed out that there are a number of tourist motor courts in the city, one of which, costing upwards of $200,000, will be ruined if the highway were changed because tourists could not be attracted to the city if required to take a detour $2\frac{1}{2}$ miles away. Mr. Walker also spoke of depreciated property values on the north side of the river were the highway rerouted. He also mentioned that provision should be made to connect the Sams Valley State Secondary Highway to US99 at Gold Hill because of its importance as a highway route to Crater Lake.

He called upon Mr. Malloy to present further arguments. Mr. Malloy inquired as to the plans of the Commission for improvement of the

Rocky Point-Grants Pass Section of the Pacific Highway. He was informed by Chairman Chandler that such project is in the Commission's long range plan, but probably will not be undertaken for ten years and that the objective of the Commission presently is to reconstruct those sections of the Pacific Highway throughout its entire length that are most in need of improvement. Mr. Malloy also asked about access into the Town of Gold Hill from the new highway, and he mentioned that, according to the map, the connection would be more than two miles distant from the city. He was informed by the Engineer that present plans call for a highway traffic interchange at the point where the old and new highways join. Mr. Malloy also asked about the new connection for the Sams Valley Secondary Highway with 99 in Gold Hill, and he suggested that such connection be made in the Town of Gold Hill rather than two miles distant therefrom. Inquiry was also made by Mr. Malloy as to whether or not the Commission's investigations include improvement of the present highway on the north side of the river, with some possible changes; also, how the Engineer arrived at the estimated costs. He was informed by the Engineer that all possible routes had been investigated and that the cost estimate was based on the result of those studies. In reply to Mr. Malloy's further inquiry as to whether or not any thought had been given to relocating the highway on the north side of the river between the railroad and the river, because of the rumors to the effect that the highway will evidently by-pass the City of Grants Pass, the Engineer repeated that all possible routes had been investigated and it had been determined that the cost to improve the highway through Gold Hill would be far more than to build a new highway on any other route. The matter of rerouting the highway between Gold Hill and Grants Pass, he said, has no bearing whatsoever on the location of the highway through the City of Gold Hill.

Others speaking for the retention of the present route were Mr. Stieber, who advised that 40% of his business is derived from tourists and, should he lose even 10% of that business, he would be forced to close his store; Mr. Gail and Mr. Drake, both of whom endorsed the remarks of the other speakers; Mr. Morrow, who advised that 15% of his business is derived from tourist traffic, which he would lose if the highway were rerouted; Mr. Lester who advised that 35% of his business is derived from tourists; Mr. Elbert, who stated that he has an investment of $35,000 in his sporting goods establishment and that he has kept a careful record of people who trade with him, which record discloses that 50% of his business is from tourists - he also said that he would have to close his store and lose $20,000 were the highway rerouted; Mr. Cooper, who stated that 85% of his business is tourist and transient business, and that he would stand to lose about $50,000 if the highway were rerouted. Mr. Brownell stated that his auto court would suffer greatly from the loss of the summer transient trade. He declared that the moving of the highway to the proposed location will force him to "junk" his facilities. Mr. Carlton advised that his ranch is on the south side of the river and that the proposed highway passes through the middle of it, and will render his farm valueless for farming purposes. Mr. Cogswell stated that he is unable to estimate what his

loss will be if the highway is changed as proposed, but it will be great. He gave as his feeling that the engineers have picked a very poor location for the new highway, and that, if the highway is built in such location, it will be virtually a death trap, because of adverse traveling conditions during the winter season in that location. Mr. Nelson stated that he also lives on the south side of the river and that it is going to require him to travel an extra distance of about five miles going from his place to Gold Hill and return. He said that he is "burnt up" about the matter and he asked for a solution.

Mr. Walker concluded the presentation by declaring that the economy of the town of Gold Hill will be jeopardized if the highway is rerouted as proposed under the Engineer's plan. The people of Gold Hill, he said, are particularly anxious for the Commission to know their feelings in the matter, also, that if they are unable to obtain a highway on the north side of the river, then they hope for a satisfactory access road to the new location because tourist trade is vital to the business of the town. He asked for a resurvey to determine whether or not anything can be done to help out the City in this matter.

Chairman Chandler closed the meeting by stating that the Commission will give very careful consideration to the arguments presented at this hearing and will take action as the Commission feels is in the best interests of the people of the State as a whole.

The meeting adjourned at 9:30 a.m., following which the Commission and the Engineer inspected the route suggested by Mr. Walker for a proposed highway connecting the Sams Valley State Secondary Highway, with the revised location of US99.

Chairman

State Highway Engineer

Commissioner

Secretary

Sutherlin, Oregon
October 9, 1951

Pursuant to the requirements of Section 13 of the "Federal Aid Highway Act of 1950", and to official notice given to the Common Council of the City of Sutherlin by letter dated September 7, 1951, the State Highway Commission conducted a public hearing in the City of Sutherlin to give local citizens an opportunity to express their views regarding the Commission's plans to relocate the Pacific Highway west of the cities of Sutherlin and Oakland. The meeting was held in the dining room of Walt's Cafe, starting at 2:00 p.m. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

The local group consisted of 20 members, including the following persons, who represented a special committee approved by the City Council: Hon. J. C. Kesner, Mayor of Sutherlin and Chairman of the committee; Marvin Parks, City Councilman; Fayette Thompson, John Buchanan and Emery Huntoon, publisher of the Sutherlin Sun.

Chairman Chandler opened the meeting by explaining its purpose. At his request Assistant State Highway Engineer, Mr. W. C. Williams exhibited a map showing the proposed highway location and explained details concerning it Chairman Chandler then invited those present to express their feelings in the matter. Mayor Kesner introduced the members of his committee and advised that the feeling of the committee members toward the proposed highway improvement is representative of the feeling of the majority of the people of their town. He called upon Mr. Buchanan who gave the Commission an idea as to how the citizens of Sutherlin feel about the proposed highway relocation. Mr. Buchanan read aloud and filed with the Commission a typewritten brief in which the feelings of the committee were expressed and in which request was made that consideration be given by the Commission to the following provisions: (1) That highway 99 be made an overpass over State Highway No. 225; (2) That four access roads be constructed to link Highway 99 with Highway 225; (3) That the signing and lighting on Highway 99 be of the highest State standards; (4) That the curve in Highway 225 at the west city limits be straigntened and that Highway 225 from the west city limits to the city center be widened and leveled; (5) That two means of access be provided for residents who will be south and west of the new highway. The suggested solution for this item was construction of a one-way lane along the west side of relocated Highway 99 to an intersection with Highway 225; (6) That the present Highway 99 from its junction with the new 99 south of Sutherlin to the city center be maintained as a route for north-bound local traffic to the city center, and that the old highway between Sutherlin and Oakland be maintained for inter-community traffic.

Mr. Buchanan gave as his understanding that the Highway Commission has not as yet made its final decision with respect to the new highway location, and he requested an opportunity for his committee to discuss the matter further with the Commission, if necessary, before such final decision has been reached.

Chairman Chandler complimented the committee on its brief and gave as his feeling that some of the proposals mentioned therein can be accomplished. Commissioner McIver concurred. As to another meeting with the Commission, Chairman Chandler advised that the Commission will be glad to grant such a further hearing if and when requested. However, he suggested that it would be advisable for the committee first to consult with the State Highway Engineer in Salem.

This concluded the hearing. The meeting adjourned at 2:20 p. m.

Chairman

State Highway Engineer

Commissioner

Secretary

Oakland, Oregon
October 9, 1951

At 3:30 p.m. this day, the State Highway Commission conducted a public hearing in the City Hall in Oakland, Oregon, pursuant to written notice previously given the City Council and to the requirements of Section 13 of the "Federal Aid Highway Act of 1950". The hearing was conducted to give the citizens of Oakland an opportunity to express their views with respect to the Highway Commission's plans to relocate the Pacific Highway between Oakland and Sutherlin along a route that will by-pass these two towns. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

The City of Oakland was represented by its Civic Committee, composed of Hon. John Edwards, Mayor; Harry Smith, realtor; and Ed Stearns, hardware merchant.

Chairman Chandler opened the meeting by explaining its purpose. At his request, Assistant State Highway Engineer, Mr. W. C. Williams, exhibited a map showing the proposed highway location and explained details with respect to it. The meeting was then turned over to the local committee.

Mayor Edwards advised that the people of Oakland are in accord with the Highway Commission's plan for the proposed improvement and are looking forward to the early construction of the project. However, he said, there are certain things that the city would like the Highway Commission to consider in the development of the project. He presented a typewritten list of the things that they have in mind, which was signed by the members of the committee, including himself, Harry Smith, Ed Stearns, Lyle E. Strieve, and Barton Slane. The requests are as follows: (1) that all county roads that lead into the City of Oakland be left open, such as the Good rich Road four miles north of Oakland, which is a mail and school bus route; (2) that the Metz Hill Road, three miles north of the City, be left open because it is a school bus route; (3) that the Cemetery Hill Road be left open because it is a mail and school bus route; moreover, during the winter season it is the only high land road available to the people residing west of the City of Oakland during the period of high water in the Calapooya River; (4) that the main road lying west of the City of Oakland, known as Kellogg Road or Dodge Canyon Road, be left open, because it is a school bus route, mail route, and the main road over which produce is transported into the city; (5) that provision be made for a convenient access on and off the new highway north of the City of Oakland.

Mayor Edwards inquired if the State will continue to maintain the existing highway after the new one is constructed. He was informed by Chairman Chandler that the old highway will be maintained either by the State or by the county as may be determined later.

Mayor Edwards also inquired whether or not a connection to the new highway will be provided for what is known locally as the Green Valley County Road. He was informed by the Assistant State Highway Engineer that the plans do not provide for a connection at this point nor for a direct connection with any other county road and that such connections as are provided will be underpass or overpass construction at important intersections so as to maintain, in so far as is possible, the freeway characteristics of this important interstate thoroughfare.

Mr. Smith expressed hearty endorsement of the proposed change, advising that all of the people of Oakland favor it. He inquired as to when the Commission plans to construct the new road and was informed by the Chairman that the Commission hopes to place the work under way some time next year.

There being no further discussion, the meeting adjourned at 3:45 p. m., following which the Commission inspected the site of the proposed connection between the old and new highways just north of the City of Oakland, and then returned to Roseburg for an overnight stop.

Chairman

State Highway Engineer

Commissioner

Secretary

Yoncalla, Oregon
October 10, 1951

Pursuant to written notice heretofore given the Common Council of the City of Yoncalla, and pursuant to the requirements of Section 13 of the Federal Aid Highway Act of 1950, the State Highway Commission held a public hearing in the City of Yoncalla this day to give the citizens of this town an opportunity to express themselves regarding the plans of the Highway Commission to relocate the Pacific Highway between the Town of Anlauf and Rice Hill in northern Douglas County, which relocation will by-pass the Cities of Drain and Yoncalla. The meeting was held in the City Hall at 8:30 a.m. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

Representing the City of Yoncalla were 25 local citizens including Delbert Dickey, merchant; Gus Peret, retired businessman; Mrs. Annie Applegate Kruse, representing the Yoncalla Civic Club; and others.

Chairman Chandler called the meeting to order and explained its purpose. At his request, Mr. W. C. Williams, Assistant State Highway Engineer, exhibited a map, disclosing the location of the proposed highway improvement and explained details. The meeting was then turned over to the local group for general discussion.

Mr. Dickey inquired as to what would be done with the old highway when the new one is built. He was informed by the Chairman that the old road would continue to serve traffic, particularly local traffic, and that the State would continue to maintain it in a travelable condition.

Mr. Peret expressed his feeling that the Highway Commission has already decided where the highway is to go and is going to construct it in that location as rapidly as it can, regardless of the effect that it will have on the people of local communities. He declared that, if the highway is constructed as planned, it will adversely affect the communities through which it now is routed, and the people who depend to a large extent on tourist trade for a livelihood. The proposed highway, he said, will enable tourists to travel through the State of Oregon at high speed, whereas under present conditions they, at least, stop overnight and utilize facilities and accomodations offered in this State. He gave as his opinion that it would be much cheaper to rebuild the existing highway to modern standards than to construct an entirely new highway as planned. By so doing, he said, local people would still receive the benefits of tourist trade, which he alleged is a big factor in their economic set-up.

Chairman Chandler explained that the present highway is out-moded and must be rebuilt to modern standards, and to accomodate present day traffic usage. He pointed out that the trend today in highway construction is to locate permanent highways so as to by-pass cities and towns, and to avoid traffic congestion that occurs in urban districts. The Highway Commission, he said, considers that its duty is to construct State highways in the interests of the people of the State as a whole and not for individual communities. On such basis, he added, the Commission has in mind to improve the Pacific Highway, an important inter-state thoroughfare, using not only State money to finance the work, but also moneys received from the Federal Government.

In reply to an inquiry from Mr. Dickey whether or not provision will be made to connect county roads to the highway, Chairman Chandler advised that such connections will not be provided except where necessary at important intersections, and at those points connections will be made by means of traffic separation structures. He also pointed out that the plans call for construction of an additional traffic lane for slow moving vehicles on Rice Hill as an accomodation to other traffic.

Mrs. Kruse spoke against the proposed change in behalf of the members of the Civic Club whom, she said, are of the feeling that the people of their town are being unfairly treated.

In the further discussion of the matter, Mr. Dickey inquired why the Highway Commission is conducting this hearing. He was informed by the Chairman that it is to fulfill a requirement of the Federal Government, which is furnishing and has furnished in the past considerable amounts of money to assist in financing the construction of this highway.

The meeting adjourned at 9:30 a.m.

Chairman

State Highway Engineer

Commissioner

Secretary

Drain, Oregon
October 10, 1951

The State Highway Commission conducted a public hearing in the city of Drain this date, pursuant to written notice heretofore given the city and in accordance with the requirements of Section 13 of the Federal-Aid Highway Act of 1950, to give the people of this city an opportunity to express themselves in regard to the plans of the Highway Commiss on to relocate the Pacific Highway between Anlauf and Rice Hill, which relocation will by-pass the cities of Drain and Yoncalla.

The meeting convened at 10:00 a.m. in the City Community Hall. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

Representing the city were 125 local citizens including the Highway Committee of the Chamber of Commerce. Speaking in behalf of the city were the Honorable W. E. McIntosh, Mayor; Leo Rigan and Henry Goodmanson, members of the Highway Committee; H. W. Lombard, City Attorney, and Mr. William Carlson. The meeting was opened by Chairman Chandler, who explained its purpose. At his request, the Assistant State Highway Engineer, Mr. W. C. Williams, exhibited a map showing the proposed relocated highway, details of which he explained briefly. The meeting was then turned over to the local citizens. Mayor McIntosh extended a welcome to the Commission and its group. He advised that they had been ignorant of the plans of the Highway Commission until a few days previous, and, upon

learning the facts, were very much disappointed because, he alleged, the proposed change will have a very bad effect on their city. He pointed out that the proposed location is six miles east of the city of Drain, and he inquired as to why such by-pass is necessary rather than modernization of the existing highway. The State Highway Engineer responded at the request of the Chairman. Among other things, he stated, the by-pass is needed to satisfy modern highway requirements and to provide the shortest, fastest and most direct highway across the State for motorists who pay the bill, a highway that will give them the greatest amount of use and enjoyment. He pointed out that the benefits that will be derived from the construction of the new highway will be three times greater than those that would be derived by improvement of the existing highway. Mr. McIntosh recited some of the problems of the city, such as a sewer disposal problem, which, he said, is going to cost the city a lot of money. The city, he said, depends largely on tourist business and if the highway is built six miles east of the city that business will be lost to the city and the question then arises how is the city to pay for its sewage disposal plant. He gave as his feeling that the highway could be constructed nearer to the city than six miles, and urged that that be done. He also gave as his understanding that the new highway will be a freeway, with access thereto only at infrequent intervals. He declared that if the highway is built as planned, it will mean that the State will have to maintain two highways, the existing one and the new one; whereas, if the present highway is modernized there will be only one to maintain. Mr. McIntosh also mentioned the importance of Highway 38, Umpqua Highway, which now connects with the Pacific Highway in the city of Drain. This highway, he said, is very important as a route to the Coast and as a commercial facility for heavy hauling, including transportation of logs. He inquired as to how these problems are to be met, and requested information as to costs and other factors that influenced the Commission in its adoption of the present plan.

At the request of the Commission, the State Highway Engineer explained briefly engineering details upon which the proposed location was based, including curvature, rise and fall, saving in distance, and estimated costs. He pointed out that the proposed by-pass route is 19.65 miles long as compared with 22.04 miles, length of the present route between common points. Also that the rise and fall along the by-pass location is nearly 200' less than along the present highway. The cost to improve the present highway, he said, is estimated at $6,700,000 whereas the cost to build the by-pass route is estimated at $5,300,000, a saving of $1,400,000, which could not be disregarded. In addition, he said, there is the item of right of way costs, which would be considerable were the present highway improved through the city of Drain. Considering all of these things and other benefits, he said, it was determined that the by-pass location is the proper location for this highway.

Messrs. Rigan and Goodmanson endorsed the remarks of Mayor McIntosh. In responding to an inquiry from Mayor McIntosh, Chairman Chandler advised that the State will continue to maintain the existing highway

with some improvements, after the new highway has been constructed, and that it is the intention of the Commission to improve and maintain Highway 38, which will continue to be routed through the city of Drain. He also mentioned that the highway maintenance headquarters in the city of Drain will not be moved to some other location.

In reply to an inquiry from Mr. Rigan as to why it was necessary to make the new highway connection with the old highway at a place known as Anlauf, Chairman Chandler advised that topography controlled the situation and that engineering investigations revealed no other feasible location.

Mr. Lombard made a lengthy plea for either modernization of the present highway through the city of Drain or construction of an alternate route that would not be so far removed from their city. He said that the "impact" of the proposed route on the city cannot be measured by dollars because the city is geographically situated in the center of a large productive area that is developing rapidly, and to remove the highway from close proximity to the city will have a very damaging effect on the city's economic life. He admitted that the idea of by-passing cities and towns is good if the by-pass route is not located too far away from the city by-passed. He suggested a location immediately east of the railroad and construction of an access roadway to their town to enable people to drive on and off the highway freely. He gave as his feeling that such a plan is feasible; moreover, it is justified even though it would increase the highway mileage and the costs of construction. He urged the Commission to consider such location, which he declared will bring greater development to the city of Drain and the surrounding territory, even to the Coast and to Coos Bay. It was his feeling that the Commission can accomplish what it has in mind by following his suggestion. He repeated that the theory of by-passing cities and towns is "perfect" but not to the extent that it leaves a community six miles off the main highway, and he asserted that such a change will be a great economic and political mistake. He urged further consideration and study of the matter before the Commission arrives at any definite decision because it is a matter of vital concern to the people of Drain, who feel that their suggestions have merit. He also asked for an opportunity to discuss the matter further with the Commission before its decision has been reached.

Mr. Carlson endorsed the statements of the other speakers and inquired if there is any objection to naming the old highway "US99 Alternate". He was informed by the Engineer that US highway route designations are made by the American Association of Highway Officials, and that there is a question whether or not the Association would approve the alternate designation in this case because it has refused to do so in similar instances in the past.

There followed a general discussion during which Mr. Rigan asked that the results of the Engineer's survey be made known to their committee.

His request was granted and the Engineer was instructed to furnish them. Mr. McIntosh concluded their presentation by again requesting an opportunity for the Civic Committee to discuss the matter further with either the Commission or its Engineer. Chairman Chandler advised that the Commission will be glad to confer further with the group, but he suggested that it would be advisable before coming to the Commission, for a small group to consult with the Engineer who is in a better position to explain the engineering features and details than is the Commission.

Chairman Chandler concluded the hearing by stating that the Highway Commission in the expenditure of highway funds is charged to consider the state as a whole and to construct improvements that meet certain Federal standards if it expects to obtain Federal funds to finance the work. The trend presently, he said, is to build highways to freeway standard so as to provide the greatest possible safety to traffic. He also said that to improve the Pacific Highway will take a large sum of money and that it is important that this money be spent to put the highway in the correct location, which is the thing the Commission is attempting to do to the best of its ability.

The meeting adjourned at 11:00 a. m.

Chairman

State Highway Engineer

Commissioner

Secretary

Cottage Grove, Oregon
October 10, 1951

Pursuant to the provisions of Section 13 of the Federal-Aid Highway Act of 1950 and to official written notice heretofore given to the Cottage Grove City Council, the State Highway Commission conducted a public hearing in Cottage Grove this date to give the people of this city an opportunity to express themselves with regard to the Highway Commission's plans to relocate the Pacific Highway east of this town. The meeting was held in the City Council chambers in the City Hall and convened at 1:00 p. m. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

Also present were about 75 local citizens including the following Mr. P. B. Webb, president, Chamber of Commerce; Messrs. W. C. Hesse, H. B. McMillan, and J. F. Finneran, members of the Highway Committee of the Chamber of Commerce; Mr. ---- Woolley; H. W. Lombard, City Attorney; Mr. ----- Melcome; Mrs. ----- Wright; Honorable John Wells, Justice of the Peace; and Mr. D. J. Allen, City Recorder.

Chairman Chandler called the meeting to order and explained the purpose of the hearing. At his request, the Assistant State Highway Engineer, Mr. W. C. Williams, exhibited a map showing the proposed location of the highway and he explained details with reference thereto. Chairman Chandler then turned the meeting over to the local people.

Mr. Webb introduced the members of the Highway Committee. He also read aloud and presented to the Commission the following letter:

October 8, 1951

State Highway Commission
Salem, Oregon

Dear Sirs:

The Chamber of Commerce of this city heartily agrees with the fact that the present highway through this area as it is today, is inadequate to handle the ever increasing vehicle traffic, both local and transit. However, we wish to request that the Highway Commission give due consideration to the number of businesses affected and the hundreds of thousands of dollars this community alone will lose by a change of highway location without properly lighted, well marked and well maintained access roads connecting this community with the proposed new highway location.

We therefore request that the Oregon State Highway Commission grant, properly light, mark and maintain two access roads into Cottage Grove. One access road from the North not to exceed one mile from the North Cottage Grove city limits, and one access road from the South not to exceed one mile from the South Cottage Grove city limits. Furthermore, that a proper crossing of the proposed new highway be made at East Main substituting said crossing

(either overhead or underpass) for the proposed cloverleaf at that point.

Your consideration of this matter will be greatly appreciated.

Very truly yours,

PBW:JG

/s/ P. B. Webb, President

A general discussion followed. Mr. Woolley stated that he owns property east of the city of Cottage Grove, which he is trying to sell, but he cannot get people interested in it because it is not known definitely where the highway is to be routed. Others in the vicinity, he said, are affected in a similar manner, and are suffering for lack of information on the highway development. He was informed by Chairman Chandler that the hearings that are being conducted by the Highway Commission are for the purpose of securing expressions of local people regarding the proposed plan and that the Highway Commission will give careful consideration to the expressions received and then will adopt the location which it considers to be in the best interests of the people of the State as a whole.

Another citizen requested information as to where the proposed highway will cross the Row River. He was informed that such information has not been determined definitely as yet, and cannot be determined until the highway location is adopted. Another citizen inquired as to the difference in the cost to improve the present highway than to construct a new highway on the proposed alignment. He was informed by the Engineer that cost to construct the new highway is estimated at $700,000 less than to improve the present one.

Mr. Finneran inquired if the Highway Commission has any idea as to the value of the business that will be wiped out if the highway is constructed as proposed. The Engineer replied that the benefits to the users of the highway will be about $2.37 for every dollar that the Commission spends for construction of the new highway, but no figures are available as to the effect the new highway will have on business in Cottage Grove.

Mr. Woolley inquired as to when the right of way will be acquired on the new route. He was informed by Chairman Chandler that negotiations for the right of way will be authorized when the route of the highway has been formally adopted by the Commission. At that time, he said, the Engineer will prepare descriptions and the Right of Way Department will be authorized to proceed with the negotiations.

In answer to an inquiry by a citizen concerning access to the highway from county roads, Chairman Chandler advised that county roads will not be connected directly with the highway, but will either go under or over

them. Mr. Lombard inquired if there are any objections to [illegible] for the city. He was informed that the plan is for one such connection to the center of the town, which is considered better than having two, one at each end of the town; also, that the right of way for the new highway will be 220' wide, that the pavement will be 24' wide with 4' shoulders, and that two lanes of traffic will be constructed first with two additional lanes following later on when necessity demands.

Mr. Melcome stated that he owns a motel just outside of the city limits and he inquired if private business would be allowed to build its own access roads to the highway. Chairman Chandler replied in the negative, stating that the object is to provide a "freeway". Mr. Melcome then inquired about the connection between the old and new highways at a place known as Divide, for the benefit of people coming from the south who wish to go to Cottage Grove. The Engineer advised that the plan is to provide a connection at Divide, but the details have not as yet been designed.

Mrs. Wright advised that she is a land owner that will be affected by the new highway and she inquired as to how she will be able to go to town without using a circuitous route. Her question was answered by the Engineer.

Inquiry was made by Mr. ----, farmer, who expressed concern that the highway fill across his property would act as a dam, and flood his land. The Engineer advised that relief openings in the highway fill would be provided and that before actual construction of the highway is undertaken, details of that nature will be discussed with the property owners affected.

A number of other citizens asked general questions, which were answered by Chairman Chandler and the Engineer.

Chairman Chandler concluded the hearing by asking the local committee to assemble additional facts concerning their problems and present them to the Engineer on or about November 20, 1951 in Salem. These facts, he said, will be carefully considered by the Engineer and the Commission in arriving at its final decision regarding this project.

The meeting adjourned at 1:45 p. m.

Chairman

State Highway Engineer

Commissioner

Secretary

October 10, 1951

1:715

Creswell, Oregon
October 10, 1951

The State Highway Commission this date conducted a public hearing in the City of Creswell pursuant to written notice given to the City Council on September 7, 1951, in order to satisfy the provisions of Section 13 of Federal-Aid Highway Act of 1950, which require the Highway Commission to conduct such a hearing in any city or town which is bypassed by a highway improvement that is financed with Federal Aid funds. The meeting was held in the City Council chambers in the City Hall, starting at 2:15 p.m. Present were:

Ben R. Chandler, Chairman
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Assistant State Highway Engineer
H. B. Glaisyer, Secretary
C. G. Polk, District Engineer, Bureau of Public Roads

The local group, which consisted of 30 citizens, included Honorable Carlisle Scarborough, Mayor of Creswell; V. W. Johnston, Councilman; C. C. Holleman, Chief of Fire Department; Lynn Scott, farmer; and others.

Chairman Chandler called the meeting to order and explained its purpose. At his request Assistant State Highway Engineer, Mr. W. C. Williams exhibited a map showing the location of the proposed highway relocation and explained details. Chairman Chandler then turned the meeting over to the local group to present their case. Mayor Scarborough extended greetings to the Commission, and called upon the members of his group to express their views.

Mr. Holleman urged the Commission to retain the highway at its present location, or to change it to a location on the west side of the present highway and the railroad. He declared that right of way along the proposed location will be extremely expensive and, in his estimation, the cost to acquire it is unjustified. Mr. Johnston spoke about access connections and railroad grade crossings and inquired how they are to be taken care of. He presented a brief in opposition to the relocation of the highway containing the following reasons why they are opposed to the relocation as proposed by the State:

"1. The approach to and from highway 58 is an off center approach. Highway 58 will continue in a straight line and highway 99 turns off thus traffic will be diverted to 58 instead of 99.

2. We at Creswell will have two grade crossing if we have two approaches to town which we will need.

3. In our estimation it would cost less to build the highway

on the west side of the railroad track from Goshen to Walker or Cottage Grove than it will to build an altogether new highway on the east side of the tracks. There would not be the property cost because over half to two-thirds of the highway right of way is already useable and owned by the highway department. The relocation of the highway will destroy or damage many homes and a great quantity of valuable farm, fruit and produce land.

4. There are four restaurants in Creswell that depend on the present highway for over 50% of their business. There are five service stations in town that depend on the highway for over 60% of their business. These combined businesses will have to cut down on their hired labor, thus reducing the payroll of the town which will in turn divert from the five groceries, the hardware store radio & electric, Variety store, Taverns, and etc. which also get business from the highway as well."

Mr. Johnston also presented a petition signed by 31 residents of Creswell who protest the relocation of Highway 99 as proposed, because they consider the route unnecessarily expensive, will ruin good farm lands, will destroy many homes, and because they consider that a direct route on or near the present highway is the only practical route.

Mr. Scott stated that he is a farmer and that, while his property will not be hurt badly by construction of the highway on the proposed alignment, there are other farmers whose property lies south of his who will be damaged badly. He urged the selection of a route on the west side of the present highway. He pointed out, however, that while the highway will not damage his property greatly, he will be forced, if the highway is constructed to the east of the existing highway, to travel three-fourths of a mile either north or south to obtain access to the highway. He also said that he now enjoys the use of two private roadway connections to the existing highway which he understands will be eliminated. A lady speaker stated that she owns the Hilltop Motel on the present highway about two miles north of Creswell and she inquired as to what would become of her property if the highway is constructed as planned. She was informed by Chairman Chandler that the present road recently constructed in the vicinity of her motel is permanent, but when the Commission finds it necessary to provide four lanes of traffic, it might be necessary to purchase her property, although that is something for the future.

Responding further in the discussion, Chairman Chandler stated that the highway as presently constructed does not meet primary highway standards and that the Commission has in mind to rebuild the highway throughout its entire length to proper standards in order to provide maximum traffic safety. This, he said, would be accomplished by taking the

highway away from congested urban areas and by eliminating, insofar as possible, free access to the highway. The highway will have freeway characteristics, he said, which means that there will be no access to the highway except at certain necessary points, such as at county road crossings where the highway will go either over or under the county road.

At the Chairman's request, the Engineer explained the engineering features involved. He also said that property owners who have particular problems to solve will be contacted by representatives of the Engineering and Right of Way Departments at the proper time. This concluded the hearing except that Chairman Chandler advised that the information gathered by the Commission at this meeting will be given careful consideration by the Commission in reaching a final decision in this matter.

At the conclusion of this discussion, Mr. Holleman brought to the Commission's attention the condition of the Springfield-Creswell State Secondary Highway east of Creswell, particularly the section in the Willamette River bottom about two miles east of Creswell which he said is inundated during periods of high water. He urged the Commission to reconstruct and oil the highway along this two-mile section so that it will be above the overflow water of the Willamette River. Under present conditions, he said, it frequently is not possible for school buses and mail trucks to operate over the road during the winter season. Moreover, the Fire Department in Creswell cannot respond to calls in that direction as is its custom and practice. He urged the Commission to do something to alleviate the condition. The matter was referred to the Engineer for investigation and report.

The meeting adjourned at 3:00 p. m.

Chairman

State Highway Engineer

Commissioner

Secretary

Portland, Oregon
October 11, 1951

The State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
C. W. Enfield, Assistant Counsel
Fred Miller, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

Chairman Chandler, speaking for the Commission, expressed their sorrow in the recent demise of Mr. J. M. Devers, Chief Counsel for the Highway Commission. As a written expression of the Commission's feeling in the matter he requested the Secretary to read the following resolution:

"WHEREAS, Almighty God, in His infinite wisdom, has seen fit to remove from his earthly endeavors our friend and co-worker, JOSEPH M. DEVERS, and to assign him to a new and greater sphere of being; and

WHEREAS, Mr. Devers ("Joe", as he was affectionately known to all his associates) devoted the last thirty-two years of his life to legal and administrative work in connection with the financing, development, construction and maintenance of the highway system of the State of Oregon with an ability and kindliness of spirit few men possess, and prepared and sponsored legislation that gave to this State its present highway code of laws, which have served as a model throughout the entire Nation; and

WHEREAS, his passing is a loss not only to this State, but to the Nation at large, and his absence will be long felt;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, that it is fitting and proper that we hereby recognize and commend the unfailing devotion to duty, the high professional ability and the great public service rendered by

JOSEPH M. DEVERS

to the people of the State of Oregon; that we express our deep and abiding regret that he is no longer here to assist us with his experience, wisdom and counsel; and, that we convey to Mrs. Joseph M. Devers, his wife, and to Richard and Joseph, his sons, our deep and sincere sympathy in their bereavement; and

BE IT FURTHER RESOLVED that this resolution be entered in the permanent records of this Commission as of October 11, 1951, and a suitably embossed copy thereof, signed by the Commission, be presented to Mrs. Devers, and to Richard and Joseph."

After the resolution had been read, Commissioner McIver moved that it be adopted and inserted as a part of the minutes of the State Highway Commission. Commissioner Reynolds seconded the motion and it carried unanimously.

Bids as follows for highway construction projects were opened and read aloud by the Secretary in conformance with previously published notice, following which Chairman Chandler announced that award of contracts would be made at 4:00 p.m.:

OREGON COAST HIGHWAY IN DOUGLAS COUNTY
REEDSPORT-WINCHESTER BAY SECTION

Berke Brothers, Portland	$669,982.00
E. L. Gates & Co., Salem	719,326.00
McNutt Brothers, Eugene	744,581.00
Leonard & Slate Oregon Limited, Portland	749,501.00

DOUGLAS COUNTY
REEDSPORT (WINCHESTER AVENUE)

E. L. Gates & Co., Salem (1)	$ 20,305.00
McNutt Brothers, Eugene (1)	22,724.00

(1) Bidder will accept award of this project only in combination with the Reedsport-Winchester Bay Project.

HOOD RIVER COUNTY
DEE BRIDGE OVER EAST FORK OF HOOD RIVER

Lindstrom Brothers, Inc., Portland	$ 55,392.00
Valley Construction Company, Portland	56,663.50
Schrader Construction Company, Portland (1)	61,123.00
Leonard and Slate Oregon Limited, Portland	80,879.00
Snook Brothers, Corvallis	81,336.00

(1) Bidder will accept award of only <u>one</u> project.

(1) Bidder will accept award of only one project

The Commission unanimously approved the minutes of June 18-22, July 16-17, and August 3, 1951.

Commissioner Reynolds brought up the matter of the possible use of a machine to record discussion at the Highway Commission meetings. Several disadvantages were pointed out, the chief ones being inability to identify the speakers by the sound of the voice alone and the probability that not all speakers could be recorded intelligibly due to varying distances from the microphones. The Commission decided unanimously to continue the present manner of recording proceedings of the Commission.

The Parks Superintendent reported on the following park matters:

1. Application of Pilot Rock Lumber Company for a road crossing in Battle Mountain State Park: The Parks Superintendent reported that the road requested is in the north end of the park in the $SE\frac{1}{4}$ of the $NW\frac{1}{4}$ of Section 20, Township 3 South, Range 31E. W.M., and is the only practical route that the Company can use to remove their timber. Construction of the road will involve cutting only a very few trees, for which they will pay, and will otherwise do no harm to the park. He recommended they be granted a revocable permit to cross the park joining the Pendleton-John Day Highway at M.P. 37.76. The Commission unanimously approved the recommendation.

2. Acquisition of property on Tillamook Head as an addition to Ecola State Park: The Parks Superintendent reported that this land which is owned by the Federal Government had been made

available about a year ago. He estimated that if it were to be purchased on the open market it would cost about $12,000 for the 50 acres due to the fact that the land supports a good stand of timber. He proposed that the State attempt to purchase it under the Federal Recreational Act which provides roughly that the property may be acquired for 50 per cent of its fair value which at the present time is not definitely known. He recommended that he be granted authority to negotiate for acquisition of the property, which is described as the $SW\frac{1}{4}$ of the $NE\frac{1}{4}$ of the $SE\frac{1}{4}$; the $NW\frac{1}{4}$ of the $SE\frac{1}{4}$ of the $SE\frac{1}{4}$, and Lot 3, all in Section 1, Township 5 N, Range 11 West W.M. The Commission approved the recommendation.

3. Agreement covering maintenance of Fern Ridge Dam Recreational Area at Richardson's Point and Perkins Peninsula: The Parks Superintendent reported that the agreement now prepared conforms with the provisions as outlined when discussed before the Commission previously, and he recommended that it be approved. The Commission unanimously accepted the recommendation and on the following day signed the agreement.

4. Application of Pilot Rock Lumber Company for renewal of its permit for a road crossing of the Ukiah-Dale Timber Wayside on the Pendleton-John Day Highway: The Parks Superintendent reported that a permit had been granted two years ago but has now expired, although the timber company has not completed removal of the timber. He recommended that the permit be extended for a two year period. The Commission unanimously approved the recommendation.

5. Proposed park at McNary Dam: The Parks Superintendent reported that he had attended a hearing on October 2, 1951, concerning this park and outlined to the Commission requirements of the Game Commission concerning location of a swimming area and other details. The report, he added, is for information only, with no action requested at this time.

6. Request of Cascadia School District No. 58 to use water from Cascadia State Park. The Parks Superintendent reported that the School District had requested permission to use water for the school out of the surplus water supply available to the Park. A water flow of 60 gallons per minute is available in the park, of which park use requires only about 20 gallons per minute. As there would be no inconvenience to the State, he recommended that they be given permission to use excess water over that required for park purposes. The Commission unanimously approved the recommendation.

Commissioner Reynolds brought up the matter of development of "Koberg" Park near Hood River. The Parks Superintendent reported that the Chamber of Commerce in Hood River has requested development of the park. He explained that the area known as Koberg Park was formerly a private recreational area and contains a large concrete building and other recreational facilities. The area was purchased in connection with

construction of the Columbia River Highway. The Parks Superintendent was instructed to investigate the feasibility of development of the park and the Engineer to look into the engineering features, and both to report later to the Commission.

At Chairman Chandler's request, Mr. Forrest Cooper, Right of Way Engineer, outlined to the Commission the status of acquisition of rights of way on projects on which bids are to be received at this meeting and in the near future.

The Right of Way Engineer presented for the Commission's consideration options obtained for real property purchases. After careful consideration the Commission approved closing of the options at the prices mentioned therein and thereupon adopted the attached resolution relative thereto marked EXHIBIT "A" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Chandler requested the Right of Way Engineer to prepare a report for the Commission on the sale of houses acquired in connection with the new highway construction in Roseburg and show thereon how much is received in the sale and how much the houses cost the Highway Department.

Commissioner Reynolds stated that the house on a parcel of property at Garrison Corner on the Nyssa-Adrian Highway had burned and it was his thought that perhaps the land should now be acquired. He recalled that due to difficulties with the owner the property had not been purchased previously although acquisition of the land would have been advantageous to the Highway. The Engineer was instructed to investigate the feasibility of acquiring the land now that the house has burned, and report his findings at the next Commission meeting.

The Assistant Counsel, Mr. Enfield, requested authority to condemn certain parcels of real property which cannot be acquired at reasonable cost by negotiation. He submitted a list of such properties with the offer that he recommended in condemnation for each parcel as follows:

Reedsport-Winchester Bay Sect. of the Oregon Coast Hwy.			Recommended Offer
R 17734	Mary Ann Bendele Right of Way (Douglas) 0.49 acre, hillside, lawn, trees and shrubs House: 1280 sq.ft. at $9.00	$ 500.00 11,500.00 $12,000.00	$12,000.00
R 18086	H. L. Mooney - Louie Nichols Right of Way (Douglas) 1.56 acres at $700.00	$ 1,092.00	$ 1,200.00

1795

Reedsport-Winchester Bay Section of the Oregon Coast Highway (cont.)		Recommended Offer
R 17729	Russell J. Hubbard Right of Way (Douglas) 35.21 acres	$17,200.00
R 17732	Hiram Mooney - Marion Mooney Right of Way (Douglas) 2.56 acres and house	$ 3,000.00
Bay City-Tillamook Sect. of the Oregon Coast Hwy.		
R 17913-A	Joe W. Abbott Right of Way (Tillamook) 2.05 acres	$ 2,000.00
R 17908	Anna Neilson (Tillamock) Right of Way - 3.33 acres Easement for Highway Drainage for Construction of a Channel Change	$ 5,000.00
R 17907	Julia Stillwell Right of Way (Tillamook) 2.05 acres	$ 3,000.00
R 17906	Clifford Gendreau Right of Way (Tillamook) 0.06 acre	$ 1,000.00
R 17912	Wm. R. Coats Right of Way (Tillamook) 4.38 acres	$ 7,000.00
R 17915	Annie Jacoby Right of Way (Tillamook) 3.29 acres	$ 4,000.00
R 17913	Reuben Wilkins Right of Way (Tillamook) 1.37 acres	$ 1,500.00
R 17911	John Kominoth Right of Way (Tillamook) 2.25 acres	$ 5,500.00
R 17904	George Maybee Right of Way (Tillamook) 0.98 acre	$ 1,000.00

Viento-Hood River Sect. of the Columbia River Hwy.		Recommended Offer
R 17007	Gladys June Haviland Right of Way (Hood River) 3.95 acres	$10,500.00
R 17002	G. S. Jewett, et al. Right of Way (Hood River) 0.62 acre	$10,500.00
Quartz Creek-North Plains Sect. of the Sunset Hwy.		
R 8875	Oliver Jack Quarry Site and Haul Road (Washington) Approximately 60 acres quarry site Approximately 11 acres haul road	$ 8,000.00

After careful consideration of each item, the Commission unanimously approved the request and the recommended offers by adoption of the attached resolutions relative thereto marked EXHIBITS "U-1" through "U-8" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In connection with the condemnations, Chairman Chandler requested the Assistant Counsel to prepare a detailed report for the Commission showing the number and status of the various condemnation cases.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Right of Way Engineer reported sales of miscellaneous properties as follows which have been made since the last meeting of the Commission:

File No.	Location	Sales Price	Purchaser	Items & Remarks
16125-	Ladd Canyon Sect. Old Oregon Trail	$ 600.35	LaGrande Milling Co., LaGrande	Grain harvested from 10.0 acres of r/w by Charles Smutz, Rte. 2, LaGrande. Cost of harvesting $12 per acre-

File No.	Location	Sales Price	Purchaser	Items & Remarks
12565-	Ojalla Bridge-Siletz Sec., Siletz Highway	$ 25.00	M.G. Hammerness, Toledo	House purchased with stock pile site in 1946-unused since that date-paid $275 for bldg. at time of purchase
17348	North Entrance Grants Pass Sect. Pacific Highway	$ 20.00	T.S. Kitchen Grants Pass	Plate glass window ----- This bldg. advertised for sale & no bidders. Therefore this method of salvage
17348-	North Entrance Grants Pass Sect Pacific Highway	$ 33.00	Louis Theilen Grants Pass	Door, toilet, wash-bowl-- This bldg. advertised for sale & no bidders. Therefore this method of salvage
17348-	North Entrance Grants Pass Sect. Pacific Highway	$ 20.00	Tom Cudd Grants Pass	Lumber--- This bldg. advertised for sale & no bidders. Therefore this method of salvage

The Commission unanimously approved the sales as reported.

The Right of Way Engineer reported concerning the sale of the old maintenance site at Government Camp on which bids were received September 20. He recalled that the sale of the property had been previously authorized and a minimum price of $4,000 set. It had been advertised according to law, which advertisement showed the minimum price; and in addition to this, a newspaper had run a news story on the sale but had not included the item of $4,000 as a minimum price. Mr. Jack Greenwood, Wemme, saw the newspaper story and submitted a bid of $3,500 which he later withdrew and then submitted a bid in the amount of $4,505.80. Mr. Eric Stork who owns property adjoining the maintenance site claims that an embankment cut has encroached on his property and he had made an offer of $1,250 for the property and the release of his claim for damages. The Right of Way Engineer recommended that this offer be rejected. He also pointed out that local residents at Government Camp had made overtures toward acquiring the property to be used as a community center and

for a church. Attempts had been made to contact these people and a letter was finally received from a Mrs. West, outlining roughly the terms under which it was felt the community might acquire the property. Mr. Greenwood's bid of $4,505.80, he stated, is in excess of the minimum amount and he recommended that it be accepted. The Commission unanimously approved the recommendation. (On the following day, Mr. Greenwood appeared before the Commission and requested that he be allowed to withdraw his bid for personal reasons as he indicated that a number of people in his community felt that although the property had been properly advertised, that there were other bidders who would like to have bid on the property had they known it was for sale; and as he did not wish to appear in a bad light with his neighbors, he asked that his bid be not accepted. The Commission unanimously reconsidered its previous action, rejected his bid, and advised him that if and when the property is re-advertised for sale he would be notified.)

The Advisory Committee to the Travel and Information Department represented by the following persons appeared before the Commission concerning the 1952 Budget for the Travel Department:

Mr. Donald J. Sterling
Mr. Robert C. Notson
Mr. John A. Laing

Mr. Laing acted as spokesman and outlined the proposed budget to the Commission, pointing out that the overall amount of $250,000 is the same as the 1951 Budget. The budget, he stated, had been carefully gone over by members of the Committee with particular attention paid to the allocation of funds to the various types of expenditures. He recommended that the budget be adopted, and in so doing expressed the Committee's regret that Mr. Manley Robison had resigned as Director and complimented him on the excellent job he had done. The Committee, he added, feels that Mr. Carl W. Jordon, Assistant Director for the last several years, would do a good job in replacing Mr. Robison. Chairman Chandler stated that the Commission has studied the budget and is in accord on its adoption. The Advisory Committee, he added, has done a fine job and he also expressed regret that Manley Robison has resigned. Commissioner Reynolds moved that the budget be adopted as presented, a recapitulation of which appears below. Commissioner McIver seconded the motion and it was passed unanimously.

RECAPITULATION
TOTAL PROPOSED EXPENDITURES
1952

	Proposed 1952
Item A -- General	
Printing (Booklets & Maps)	$26,075.00
Photographic Department	9,125.00
Misc. Auxiliary Promotion	6,750.00
General Office	8,240.00
Salaries	27,444.00
	$77,634.00

RECAPITULATION (cont.)

	Proposed 1952
Items B & C -- Space Advertising	
Magazine	$100,033.70
Newspaper	54,557.56
Production	12,500.00
Contingency	5,274.74
	$172,366.00
	$250,000.00

The Commission considered the sale of 0.143 acre of land near Estacada to Russell O. Reed for $213.00. The Right of Way Engineer reported that the property is outside the regular right of way and is not needed for highway purposes, having been purchased as part of an entire taking of land in 1936 from Loren C. Cyrus. He recommended that it be sold for $213.00. The Commission unanimously approved the recommendation.

The Commission considered a proposed sale of a parcel of land in Lots 5 and 8, Block 7, Couch's Addition to Portland. The Right of Way Engineer reported that this property which lies in the Harbor Drive-Front Avenue Section of the Pacific Highway West is not needed for highway purposes and that it can be sold, he believed, for the same price paid for it even though it is cut off from access to the highway. He recommended that he be granted authority to advertise for bids on the property with a stipulated minimum price of $3,150. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented the matter of adopting a policy regarding the transfer to counties of right of way acquired by the State for Federal Aid Secondary Highways not on the State Highway System. He recalled that prior to 1949 the Highway Department had purchased required right of way in connection with contract projects on FAS County Roads. That policy was discontinued and the Counties now acquire required right of way with their own funds. He recommended that upon application by the counties right of way acquired by the State Highway Department on FAS County Roads be turned over to them. The Commission unanimously approved the recommendation.

In connection with this matter, the Right of Way Engineer reported that Benton County had requested transfer of land acquired for the Buena Vista County Road, FAS Highway No. 193. He recommended that the property be deeded to them. The Commission approved the recommendation.

The Commission considered leasing to Ben F. Burgess and Fred Hadlock parts of Lots 10 and 11, Block 34, Coos Bay Plat "B" in Coos County. The Right of Way Engineer stated that the proposed lease contained a six months' cancellation clause, a consideration of $50.00 annually, and also reported that the property which is excess is to be used for a used car lot. He recommended that the lease be granted. The Commission unanimously approved the recommendation.

The Commission considered the matter of deeding to Mr. J.C. Houghton 0.27 acre of land in Sections 3 and 4, Township 7 South, Range 12 West, W.M., Lane County, being on the Oregon Coast Highway near Sea Lion Caves. The Right of Way Engineer explained that Mr. Houghton, in constructing his house, had inadvertently encroached approximately 30 feet on the highway right of way as he had been under the impression that the right of way at this point is 50 feet in width, whereas it is actually 100 feet wide. He recalled that in 1932 in acquiring this strip of right of way, Mr. Houghton had donated property and in addition had recently deeded another tract of land at no cost to take care of a slide condition nearby. Deeding the property to Mr. Houghton will still leave a 70 foot right of way on the westerly side, which, according to the Highway Engineer, will be sufficient for future needs. He recommended that the property be deeded to Mr. Houghton. The Commission unanimously approved the recommendation.

The Commission confirmed a settlement with Mr. J. L. Hendricks in which he is to be paid $1,225 for all damages past, present and future, in connection with his property on the Marks Creek-Summit Section of the Ochoco Highway in Crook County. Mr. Cooper, Right of Way Engineer, explained that there had been controversy concerning irrigation ditches and related facilities since 1946. As a result of an investigation made by himself, it had been agreed with Mr. Hendricks to accept the sum of $1,225 in full and complete payment. Commissioner Reynolds, he stated, had given his approval on September 27, 1951, and he asked that it be confirmed. The Commission unanimously confirmed the settlement.

A request from the Union County Court that the State deed to the County right of way for a county road connection along the southerly boundary of the McCanse cinder pit on the Ladd Canyon Section of the Old Oregon Trail was considered by the Commission. The Right of Way Engineer reported they were asking for a 60-foot right

of way, the total amount involved being 1.26 acre. The Engineer, he stated, has advised that deeding of the property will not injure the State in any way and he recommended that it be deeded to the County without charge. The Commission unanimously approved the recommendation.

The Commission considered approval of a release form releasing The California-Oregon Power Company from its obligations to maintain a section of dike on the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway in Klamath County. The Right of Way Engineer advised that the release is being granted inasmuch as this section of the dike has been taken over by the State Highway Department as a part of the highway. He recommended that the Power Company be released from obligations on this particular section of dike. The Commission unanimously approved the recommendation and on the following day signed the release form.

The Commission considered renewal of a lease providing quarters for the maintenance crew at Newberg. The Right of Way Engineer recommended that the lease be renewed for a period of one year. The Commission unanimously approved the recommendation.

The Right of Way Engineer also presented for consideration the matter of moving a steel tower belonging to the Bonneville Power Administration situated on the right of way for the West Portland-Hubbard Highway. The Bonneville Power Administration has offered to move the steel tower with their forces for $4,240 and to be reimbursed by the State. He recommended that the offer be accepted. The Commission unanimously approved the recommendation.

Settlement of the condemnation suit against General Paint Company who own property needed for highway right of way in Sullivan Gulch along the T. H. Banfield Expressway was discussed. Mr. Forrest Cooper, Right of Way Engineer, stated that Mr. Sid Rasmussen, one of their officials in Portland, had suggested that a settlement might be secured with the Company if Mr. Cooper could go to San Francisco in November and discuss the matter with higher officials in that city. Mr. Cooper explained that officials in Portland do not have full authority to make final settlement. Commissioner McIver questioned the value of the trip to San Francisco and after some further discussion the Commission ordered that the General Paint Company be advised that the Commission is eager to settle the matter in Portland.

The Commission considered and denied a request from the City of Portland that the State pay interest amounting to $216.65 on the $50,000 assessment paid by the Commission to the City of Portland for drainage work on 82nd Avenue. The City had based their request on a statement to the effect that the assessment had not been paid as soon as it should have been; therefore, interest should be paid.

Mr. C. W. Enfield, Assistant Counsel, reported for the Commission's information concerning a check in the sum of $7,678 received from the Coastal Lumber Company in complete payment for timber cut outside of the designated area in a section of land adjoining the east end of the VanDuzer Forest Corridor in Polk County. He recalled that at a previous meeting they had been assessed double value for the timber cut. Payment had been made for the timber cut outside of the area designated without any trouble or argument. He complimented the Company on their amicable settlement.

Mr. Enfield, also brought up the matter of acquiring some 380 volumes of law books belonging to the late Chief Counsel, Mr. J. M. Devers, and now in the law library of the State Highway Department. Mrs. Devers and the two sons of Mr. Devers had been consulted concerning these volumes and had indicated willingness to sell them at the appraised value of $167.00. He recommended that the law books be purchased for this figure. The Commission unanimously approved the recommendation.

The Assistant Counsel brought up for consideration settlement of a condemnation suit authorized in July, 1951, against a Mr. Bessendorfer for property on the Nyssa-Adrian Highway in Malheur County. $4,000 had been offered by the Commission in this condemnation proceeding. Since that time Mr. Bessendorfer in lieu of giving title to the land has offered instead a lease with a provision that the State can remove 80,000 cubic yards of gravel or rock for $0.05 per cubic yard. He recommended that the lease be accepted on this basis. The Commission unanimously approved the recommendation.

The Assistant Counsel also reported on another condemnation suit against Mr. Clay Miller for right of way on the T. H. Banfield Expressway in Portland. Mr. Miller had been offered $5,875 originally. Since then he offered to settle for $7,500, later for $7,000, and still later for the difference between the State's offer and his offer. He recommended that the compromise offer be rejected inasmuch as it would be unfair to a number of other people in this area who had settled without compromise. The Commission approved the recommendation and instructed that the condemnation suit be expedited.

The Commission considered a report from the Right of Way Engineer concerning right of way on the Columbia River Highway at The Dalles Bridge to be secured from Seufert Brothers. Seufert Brothers, he stated, had been offered $20,500 and a complaint filed against them. Mr. Seufert, however, had prepared an option form containing a reversionary clause to himself and the right to use and harvest the products from an orchard involved without payment of rent. He recommended that Mr. Seufert's offer be not accepted. The Commission unanimously approved the recommendation and instructed that all proceedings for right of way at this location be

held in abeyance until action of the Army Engineers is known, as it is understood that the Army Engineers plan to condemn all of the Seufert property.

The Assistant Counsel reported on a proposed settlement of the Nellie Ross case on which condemnation had been authorized about three months ago. The property, he stated, lies on both sides of the Bay Park-Delmar Section of the Oregon Coast Highway in Coos County. The Rosses have refused to leave their house and are holding up the contractor's progress on the job although the contractor, Mr. Porter W. Yett, had tried to negotiate a lease with them without success. Since that time a settlement has been worked out with them in which they are to be allowed to stay on the premises until January 1, 1952, salvage lumber from the buildings after that time, and the State to pay them $8,000 and construct for them a cattle pass. He recommended that the settlement be accepted. The Commission unanimously approved the recommendation.

The Assistant Counsel reported on the progress of a dispute with a Sam Rawson who claims he has been damaged by reason of State operations on his mining claims on Round Butte in Cove State Park. He recalled that Mr. Rawson had sued the State because it had used cinders from his mining claim and the suit had been quashed in court. Now he has instituted suit against Mr. F. L. Somers who holds State Highway Contract 3533. Mr. Rawson, he stated, gives indication of being a violent man and had told the State Highway representative that he plans to take possession of the area in dispute. He pointed out that if the contractor's operations are held up by Mr. Rawson's actions, the contractor would have basis for suit against the State. He requested authority to resist Mr. Rawson's actions in court on behalf of the contractor. The Commission unanimously approved the request.

The Assistant Counsel also reported a proposed condemnation settlement with a Mr. Hoffman under State Highway File No. 1479. A settlement, he stated, had been worked out whereby Mr. Hoffman was to be paid $1,550 but Hoffman had inserted the phrase "plus interest" which at that time it was recommended not be paid; however, the Supreme Court has since ruled that interest may be collected in instances of this sort. The interest amount to date is $411.00, which added to $1,550 equals $1,961. The Hoffmans have offered to settle for $1,861 and he recommended that this settlement be accepted. The Commission unanimously approved the recommendation.

Mr. Fred Miller, Assistant Counsel, reported briefly that the bringing of condemnation suits to trial was being expedited; that the legal department had thus far succeeded in securing trial dates for three pending condemnation cases; and that the case in Malheur County wherein action for alleged trespass had been brought against the Commission, highway officials, the contractors and bonding companies was about ready

for trial and on his request for the legal department the Court had fixed December 11, 1951, as the trial date - that being the only open date on the Court's calendar at this time. He also reported that when in Vale on a hearing before the Court in the above case on September 29, 1951, he, at the request of Mr. Devers, Chief Counsel, had contacted a local attorney to assist in the case but that no satisfactory arrangement had been made and so reported to Mr. Devers by phone at the Imperial Hotel that evening and was instructed by him to so advise the Commission. Mr. Miller requested authority to secure such local counsel as would meet with the approval of the Attorney General, which authority was granted.

The Engineer presented to the Commission a list of surveys showing the status of each. No action taken.

The Engineer also presented for the Commission's consideration the installation of a Stop and Go traffic signal at the intersection of Summer and Center streets in Salem. He advised that this intersection is on the new route for Pacific Highway East traffic in Salem, and was not included in the original list of signals contemplated in the new highway routing in Salem. The route had been in operation only a few days until it became evident that a signal is badly needed at this intersection. The City of Salem, he stated, has indicated its willingness to pay half the cost of installation and provide the electrical energy for the signal operation. He recommended that installation of the signal be authorized, provided the City pays half the cost, furnishes electricity and maintains the signal. The Commission unanimously approved the recommendation.

The Engineer reported briefly on weighmasters' operations pointing out that in August, 1950, there had been 7% violations, while in July, 1951, the number of violators had been reduced to 2% of those weighed. He attributed a large part of this reduction in overloading to authority granted by the last legislative session empowering weighmasters to require that overloads be unloaded. Chairman Chandler requested that the Assistant Counsel provide the Commission with a report on changes in authority granted the weighmasters.

The Engineer presented his report on a previous request received from the Lake County Court to substitute the Camas Creek County Road for the Adel-Plush Section of the Warner Secondary Highway in Lake County. He reported that since the request was made, an engineering investigation has been conducted on both roads disclosing, among other things, that the Camas Creek County Road is 19.2 miles in length, whereas the Adel-Plush Section is approximately 17.7 miles in length. Traffic on the Adel-Plush Section averages 50 vehicles per day, whereas on the Camas Creek Road the volume is about double that amount. The distance from Plush to Lakeview via the county road is 40.3 miles, whereas the distance

from Plush to Lakeview via the Warner Secondary Highway is 51.2 miles. He estimated the cost of maintenance on the county road for the first year at $26,000 which would probably drop to approximately $6,000 per year thereafter. This he compared with the maintenance cost of $2,000 per year on the Adel-Plush Section. The difference in cost he explained is due principally to the higher elevation on the county road requiring a greater amount of snow removal, and the fact that the Adel-Plush Section has already been improved to a higher standard than the county road. Due to the need of improving secondary highways now in the system having much higher priority rating, he recommended that the request for exchange of roads be denied. The Commission unanimously approved the recommendation.

The Commission considered a request made by the City of Tillamook for construction of a new entrance for the Wilson River Highway into the city. An engineering investigation has been made on this request, the Engineer stated, which investigation contemplates utilization of a one-way street system from the main part of town eastward to a point near the undercrossing of the Southern Pacific tracks. The installation of such a one way system would involve the construction of a new section of highway diagonally across one block from Third Street to a connection with the main highway on First Street which he estimated would cost $40,000 including right of way. He pointed out there would be no advantage in constructing the section at this time, and recommended that it be included in the ultimate plan of the Wilson River Highway entrance into Tillamook and made a part of the contract when such improvement is made. The Commission unanimously approved the recommendation.

The Commission considered a report from the Engineer concerning the re-routing of the Wilson River Highway between North Plains and Washburne, utilizing the old Oregon Electric Railway Company roadbed. The Engineer reported that a reconnaissance survey had been completed on this section disclosing that a saving of almost $1,000,000 in construction costs can be obtained by using the railroad roadbed, the length of which is 13.41 miles. The length of the line as formerly located is 12.89 miles estimated to cost $3,021,000. He recommended that he be authorized to conduct a detailed location survey on the railroad route and make necessary arrangements to acquire the right of way as soon as possible. The Commission unanimously approved the recommendation.

The Commission considered a report regarding the cost of improving two sections of the Mt. Hood Highway south of the city of Hood River. The Engineer explained that one section is approximately three miles long immediately south of the junction with the Columbia River Highway, and the other approximately two miles long on a section extending south of the junction with the Odel Secondary Highway. A reconnaissance survey disclosed that the cost of improving the first-mentioned section south of the Columbia River Highway would be approximately $426,000 due to the highway being in a narrow canyon.

The second section south of the Odel Secondary Highway he estimated would cost $191,600, totaling for both sections $618,200. The highway, he stated, carries between 1,000 and 1,400 vehicles daily, and although the improvements requested are desirable he could not see how the funds could be made available in an early program. The Commission took no action at this time but at the request of Commissioner Reynolds held their decision in abeyance pending appearance of a delegation, possibly in November, 1951.

A report from the Engineer concerning maintenance and improvement of the Paulina Secondary Highway was considered by the Commission. The Engineer recalled that a delegation had complained of poor maintenance on the highway. Intensive blading and a water wagon had since been used on the road and on September 7, the highway had been inspected by the Maintenance Engineer at which time the highway was in fairly good condition and safe for speeds between 30 and 50 miles per hour. He estimated that to improve the highway with a paved surface heavy enough to withstand log hauling would cost approximately $3,000,000. Truck traffic, he added, composes approximately 50 per cent of the traffic over the road. In lieu of this heavy expenditure he recommended that 54,000 cubic yards of crushed rock be placed on the road and stockpiled over a 41-mile section at an estimated cost of $190,000 and that a water tank be used to hold down the dust. Commissioner Reynolds stated that he had been over the highway recently and found that maintenance had been well performed although it was easy to see that it is very difficult to hold the present gravel surface. It was his thought that improvement of the section should have more study. Commissioner Chandler instructed the Engineer to conduct an economic survey on the highway to find out among other things how much more timber will be hauled over the road.

The Commission considered bids received in Salem on September 28, 1951, for purchase of steel streetcar rails salvaged from the Steel Bridge in Portland. The Engineer reported that Zidell Machinery and Supply Company, Portland, had submitted the high bid with an offer of $35.00 per ton for an estimated 100 tons. He recommended that the rails be sold to Zidell Machinery and Supply Company inasmuch as the value of the rails had been estimated at $2,000.

1.	Zidell Mach. & Supply Co., Portland	$3,500.00
2.	Alaska Junk Company, Portland	3,254.00

The Commission unanimously approved the recommendation.

The Engineer, in connection with the re-routing of traffic in Salem, presented copies of a number of ordinances and resolutions passed by the City of Salem prohibiting parking on Fairgrounds Road between Tile Road and Highland Avenue; prescribing specific parking

regulations as a part of the grid system; specifying Marion Street between Commercial and Water streets as a one-way thoroughfare; certifying as throughways portions of Summer and Marion streets; and prescribing parking regulations for South Commercial Street between State Street and the south city limits of Salem. He also stated that Mr. Al Loucks, the Mayor of Salem, has informed him the City has taken steps to lease land for off-street parking on the west side of Fairgrounds Road accommodating a minimum of 30 cars and will provide accommodations on the west side of Fairgrounds Road for a minimum of 17 cars. He also presented an amended agreement with the City of Salem clarifying a number of doubtful points including the status of previous highway routes. He recommended that the agreement be approved. The Commission unanimously accepted the recommendation and on the following day signed the agreement.

The Commission considered the matter of expending approximately $5,000 for grading work in Port Orford in connection with a damage claim presented by Crawford Smith. The Engineer reported that this matter had been considered in January 1951, at which time he had reported that due to a change in grade raising the Oregon Coast Highway they blocked Mr. Smith's view of the ocean, and caused the collapse of drainage pipes installed under the highway grade, thereby preventing drainage of his toilet facilities. At that time, he stated, it was recommended that the highway grade be widened as far south as Deady Street at an estimated cost of $5,000 to correct conditions in front of Mr. Smith's property and to afford an adequate connection from the new highway to Deady Street. In April 1951, he stated, Mr. Cooper, the Right of Way Engineer reported that he had effected a settlement with Mr. Smith for the lump sum payment of $3300 to him as settlement in full, and the waiver of all claims. This was approved by the Commission, but the matter of raising the highway grade to Deady Street was not brought up at that time, so the minutes do not show approval of the $5,000 necessary for this work. He recommended that expenditure of this amount be confirmed, with the work to be performed by State Highway forces. The Commission unanimously approved the recommendation.

The Commission considered a proposed settlement with Southern Pacific Company concerning a slide which occurred on the railroad tracks near Lafayette in January 1951. The Engineer reported that on the afternoon of January 19, the railroad fill adjacent to a newly constructed section of Highway 99W started to slide. The State subsequently uncovered drainage structures partially covered by the slide, dug observation wells to determine what caused the slide, and bored horizontal drill holes to drain off the water, expending altogether $3,500. The railroad company completed the shoofly track and later in the spring repaired the slide area and restored the original track. On May 22, 1951, the railroad company made demand upon the State for the cost of construction of the shoofly track and restoration of the main track. A number of conferences, he stated, were held with railroad officials in an attempt to determine

the cause of the slide, but without definite results although, he added, the railroad fill had been in position for about 35 years without any slide movements. Further meetings were held with the railroad management and a compromise settlement was agreed upon, in which each party is to pay 50% of the cost resulting from the slide. He estimated costs to the railroad company at $16,000 and the State's cost at $3,500, totaling $19,500 to be shared equally. As the State has already expended $3,500, he recommended that the State pay to the railroad company $6,250, which amount plus the $3,500 already expended, equals $9,750, or half of the total cost. The Commission approved the recommendation.

The Engineer brought up the matter of re-phrasing instructions to the Engineer as to the award of contracts on which work cannot be started immediately due to right of way difficulties and other matters. The matter, he stated, applies particularly at this time in connection with bids received for projects on the Columbia River Highway in which encroachment upon the Union Pacific Railroad property will be necessary in prosecution of the work. As it takes some considerable time to secure these rights from the railroad companies, he suggested that the phrasing of the awarding instructions to the Engineer be revised as suggested by the Chief Counsel, as follows:

> "The bid of (name of Contractor), in the sum of (amount of bid) is accepted subject to the completion of acquisition of all rights of way within 60 days, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads."

The Commission approved the suggestion.

The Commission considered a request from the City of Silverton for widening the Cascade Secondary Highway between Second Street and North Church Street. The Engineer reported that the request had been investigated, disclosing, among other things, that to widen the section to thirty feet between Church Street and Mill Street and to forty feet from Mill Street to Second Street is estimated to cost $15,000. As the present route of the Cascade Highway through the City of Silverton is an impractical one, and as the cost of widening is high, he recommended that the request be denied pending further study as to the ultimate route of the highway. The Commission approved the recommendation.

The Engineer requested authorization for the expenditure of $15,000 additional money to resurface the present route of US30 through The Dalles. He stated that the present route is in poor condition and very costly in maintenance, and that it would result in a

considerable saving if the surfacing of the existing route could be included in the other work to be done on the one-way street system. He recommended that authority be granted him to call for bids for the necessary repaving when bids are received for the one-way street construction, and that $15,000 be added to the previous authorization for this job. The Commission approved the recommendation.

The Engineer presented his report on a request submitted by residents of Creswell in Lane County for the oiling of the Springfield-Creswell Secondary Highway between its junction with the Willamette Highway and Creswell. The length of the section on which improvement has been requested is 6.31 miles, not including an existing 1.07 mile section which now has a light oil surface treatment. Traffic on this section is relatively light, the road is 18 feet wide with a graveled surface and is difficult to maintain, especially during the dry periods. He estimated that it would cost $200,000 to improve the road with adequate base and a medium type oil surface. The section, he added, is not subjected to much heavy traffic and he recommended that the request be denied, as other secondary highways in Lane County have higher priority by reason of traffic usage and benefits. The Commission approved the recommendation.

The Commission considered a request from the John Day Chamber of Commerce for improvement of the Brogan Hill Section of the John Day Highway to eliminate dangerous curves. The Engineer reported that the section referred to is in a narrow canyon, known as Road Canyon, that the present alignment is tortuous and there are two very sharp curves, but they are no different from numerous sharp curves such as the Emigrant Hill Section on US30, many miles of the Coast Highway, and the existing route of the Columbia River Highway. He pointed out that when the Brogan Hill Section is reconstructed it will be on the opposite side of the canyon where it is possible to obtain alignment up to modern standards. Such reconstruction, he estimated, would cost at least $500,000. Due to the more urgent need of correcting present deficiencies on highways of higher priority by reason of road usage, he recommended that the Brogan Hill Section be not included in the presently planned program. The Commission approved the recommendation.

The Engineer requested authority to transfer $29,000 to construct a concrete block equipment storage building at Sylvan. He explained that the 1951 budget includes $34,000 for buildings at Multnomah and Newberg. As a suitable site has not been located in Newberg, it is proposed to defer the work until next year. No suitable site could be found at Multnomah, but a site was located at Sylvan adjacent to US99W, which location is perhaps more advantageous than the one in Multnomah. The Commission approved the request.

The Commission considered a request made by Mr. C. C. Colvin, Klamath Falls, for better maintenance of the Klamath Lake

Secondary Highway in lieu of reconstruction. The Engineer reported that Mr. Colvin had been rather critical concerning delays in reconstructing the Klamath Lake Secondary Highway on which bids have been rejected several times as too high, and had suggested that in lieu of reconstruction, an oil surface be placed on the present road. He pointed out that a great part of this highway has never been graded or surfaced, and that oiling under such conditions would be out of the question. He recommended that the request be denied. The Commission approved the recommendation.

The Commission also considered a request from the Lions Club of Powers, Oregon for improvements to the Powers Secondary Highway. The Engineer reported when the highway was taken over as a secondary highway in 1931, it consisted of a gravel surface about 16 feet in width with several sharp curves and was difficult and hazardous to drive Since that time, the highway has been gradually improved to the point where the roadbed has an average cross section of 22 feet, with an oil surface 18 feet in width, sufficiently stable to withstand log truck travel. He estimated that it would cost $80,000 to widen approximately 65 sharp curves, and recommended that the request for improvement be denied as he believed that the highway in its present condition adequately serves the demand of the vicinity. The Commission unanimously approved the recommendation.

A request from the Umatilla County Court for designation of the Havana Cutoff as a State Secondary Highway was considered by the Commission. The Engineer advised that the road involved is approximately a half mile in length, connecting the old Oregon-Washington Highway with the reconstructed Oregon-Washington Highway about 6 miles north of Pendleton. The County Court, he stated, has made this request periodically for the past several years and has each time been denied. There is, he pointed out, a bad crossing of the Union Pacific Railroad tracks at Havana Station, and a sharp turn approaching a bridge over Wild Horse Creek. He recommended that the road not be added to the State Highway system at this time because of the necessity of improving existing State Secondary Highways. The Commission unanimously approved the recommendation.

The Commission considered an agreement form with Homer C. Beach disposing of a claim for past, present and future damage to their property which is located on the Corvallis-East Side Secondary Highway in Linn County. The Engineer advised that the agreement had been arrived at on the basis that the State would spend approximately $4,000 in construction of a grouted rock spillway. He recommended that the agreement be approved. The Commission unanimously accepted the recommendation and on the following day signed the agreement.

The Engineer requested an increase of $8,200 in the project authorization for the West Unit of the South Yamhill-Dayton Section of

the Three Mile Lane Secondary Highway in Yamhill County. He explained the major cause of the overrun was due to unstable roadbed conditions requiring an extra large amount of rock, particularly in the shoulders. The Commission unanimously approved the increase.

The Commission considered a request from the Seaside Safety Council for realignment on the Sunset Highway, about 12 miles south of Seaside The Engineer reported that this request had been investigated, disclosing that the maximum curvature in the entire section is 4°, which permits a safe speed of 60 miles per hour with ample sight distance between curves. In view of these facts, he recommended the request be denied. The Commission approved the recommendation.

Chairman Chandler instructed the Engineer to investigate a report concerning poor drainage on the recently completed contract in Sweet Home.

The Commission considered a request from Mrs. J. F. Eighme, Dayton, Oregon, for installation of a signal at the railroad crossing on US99W near Dayton Junction, and erection of a sign indicating a cross-road on US99W at "Bob's Place" at M.P. 31.80 on the Pacific Highway West The Engineer reported an investigation had been made at both locations and that on the railroad crossing it had been determined only two trains passed there daily and that the crossing stands at No. 65 in the priority rating of non-signalized crossings. The accident rate, he added, was also low As to the need for a sign at "Bob's Place", the investigation determined that it would be of benefit to erect standard cross-road symbol signs in advance of the crossing. He recommended that the request for the railroad signal be denied and that the cross-roads sign be installed. The Commission accepted the recommendation.

The Commission discussed a request from the City of North Bend that steps be taken to alleviate traffic conditions at the intersection of Sherman and Washington Avenues, US101, in North Bend. The Engineer reported that an investigation of this request had been made with particular regard to proper signalization. The investigation disclosed that the volume of traffic is above the national warrant for signal installation, and that the number of accidents was almost double the standard requirement, although the pedestrian volume did not quite come up to the required amount. This location, he added, is a five-way intersection which somewhat complicates traffic movement. In view of these facts, he recommended that a 3-phase activated traffic signal be installed at the intersection, provided the City will pay one-half the cost of installation, maintain the signal, and furnish electrical energy for its operation. The total cost he estimated at $6,000, the State's share to be taken from unallocated minor betterment monies. The Commission approved the Engineer's recommendation.

A request from the Washington County Court and others, for installation of signs on the Sunset Highway directing traffic to the City of Hillsboro and also requesting that a traffic signal be installed on the

Sunset Highway at its intersection with the North Plains county road was considered by the Commission. The Engineer reported that this request had been investigated and that steps had already been taken to install the necessary directional signs, directing traffic to the city of Hillsboro, and extensive investigation of traffic conditions at the intersection of the North Plains road with the Sunset Highway had also been made. Sight distance at this intersection is exceptionally good, however the accident record is bad. The investigation disclosed no apparent reason for the accidents and in view of these facts, he did not believe that the installation of a flashing beacon would materially decrease the accident pattern. He recommended that the request for a flashing beacon be denied. The Commission accepted the recommendation.

The Commission considered a request from the Honorable E. J. Ireland, Molalla, in behalf of the Molalla Chamber of Commerce that something be done to eliminate the traffic hazard at the intersection of the Cascade Highway and the Woodburn-Estacada Highway west of Molalla. The Engineer recalled there had been numerous requests for investigation at this location, the most recent of which resulted in the establishment of a 45 mile per hour speed zone on July 11, 1950. The traffic count taken on June 23, 1950 showed 57% of all traffic entered the intersection from the East and West, therefore the stop signs are correctly placed at the present time. However, just a short distance north of the intersection on ORE215, there is a signalized intersection where the Crown Zellerbach log road crosses the highway. It was his thought that motorists going through the signal here are not mentally prepared to encounter a stop sign at the intersection so soon and as a result, a number of them fail to stop. To accentuate the stop indications at this location, he recommended that a flashing beacon be installed, flashing red to the North and South and amber to the East and West, at an estimated cost of $500.00. The Commission approved the recommendation.

A request from the City of Portland, through its Police and Traffic Engineering Department, to correct a hazardous condition at the intersection of NE 33rd Avenue and Lombard Street (US30) was considered by the Commission. The Engineer reported that this section of highway carries some 7,500 vehicles per day and from 1946 through the first half of 1951 there were six reported accidents at the intersection, four of which occurred during darkness. This intersection is one of the access turn-offs to the Portland airport and has a directional sign consisting of a small fingerboard. It was his thought that the accident hazard might be lessened by better signing and illumination at the intersection. He therefore recommended that a mercury vapor luminaire unit and a larger fingerboard directional sign be installed at a total estimated cost of $400. The Commission accepted the recommendation unanimously.

The Commission discussed with the Engineer bids received in the morning session and at 4:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect thereto as follows, the action of the Commission being by unanimous vote:

"Grading and paving on the Reedsport-Winchester Bay Section of the Oregon Coast Highway in Douglas County. The low bidder for this work was Berke Brothers, Portland, at $669,982 00. Three higher bids were submitted. The bid of Berke Brothers is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Reedsport (Winchester Avenue) Project in Douglas County. Two bids were received on this project, the low one being submitted by E. L. Gates & Company, Salem, at $20,305.00. The Commission has rejected all bids as being too high.

"Construction of the Dee Bridge over the East Fork of Hood River at Dee, about 11½ miles South of Hood River in Hood River County. Lindstrom Brothers, Inc., Portland, submitted the low bid for this project at $55,392.00. There were four higher bids submitted. The contract has been awarded to the low bidder, Lindstrom Brothers, Inc. at their bid price.

"Grading, paving and bridge widening on the Gorton Creek-Warren Creek Section of the Columbia River Highway about six miles East of Cascade Locks in Hood River County. Gibbons & Reed, Salt Lake City, Utah, submitted the low bid for this work at $1,447,754.00, using either the concrete, metal or treated timber guard fence posts. Nine higher bids were received. The bid of Gibbons and Reed Company in the sum of $1,447,754.00, using concrete or metal guard fence posts is accepted subject to the completion of acquisition of all rights of way within sixty days and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving on the Warren Creek-Viento Section of the Columbia River Highway, east of Cascade Locks in Hood River County. Gibbons and Reed Company, Salt Lake City, Utah submitted the low bid for this work at $848,815.00, using either concrete, metal or treated timber guard fence posts. Eleven higher bids were received. The bid of Gibbons and Reed Company, using concrete or metal guard fence posts is accepted subject to the completion of acquisition of all rights

of way within sixty days, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading, cinder surfacing and bridge construction on the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway in Klamath County. R. A. Heintz Construction Company, Portland, submitted the low bid for this project at $452,433.00. Seven higher bids were received. The Commission has rejected all bids as being too high.

"Construction of a concrete reinforced structure on new alignment of the Columbia River Highway about 1½ miles east of Boardman in Morrow County. Schrader Construction Company, Portland, submitted the low bid for this project at $60,460.00 Twelve higher bids were received. The contract has been awarded to the low bidder, Schrader Construction Company at their bid price.

"Construction of the McGill Undercrossing on the T. H. Banfield Expressway near Fairview in Multnomah County. The low bid for this job was submitted by Birkemeier & Saremal, Portland at $42,196.60. Eleven higher bids were received. The contract has been awarded to Birkemeier & Saremal the low bidder."

Consideration was given by the Commission to the following requests for extensions of time within which to complete highway contracts:

1. Jack R. Robinson, Contract No. 3476, for grading and oil mat surfacing on the Bly Section of the Klamath Falls-Lakeview Highway in Klamath County, requested an extension of time of 30 days from August 31 to September 30, 1951 within which to complete this job. He alleged that the job was not completed within the specified time limit due to the inability of the oiling sub-contractor to get on the job until after September 1. The Engineer reported that the contract had been completed with the exception of oiling because of previous commitments made by the oiling sub-contractor. As no additional expense had been incurred, he recommended that the extension be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

2. Warren Northwest, Inc., Contract No. 3399 for grading and paving the Main Street Section in Sweet Home, on the Santiam Highway, Linn County, requested an extension of time of 30 days from August 31 to September 30, 1951 within which to complete this job. They alleged that high water in Ames Creek had prevented

construction of a culvert within the specified time limit. The Engineer reported that the contractor had completed the curbs, storm sewer, paving; that traffic was restored to normal use of the street prior to the specified completion date; and that the contractor had been delayed because of high water. In view of the circumstances, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

3. American Bridge Company, Contract No. 3415, for construction of steel spans on the Marion Street Bridge over the Willamette River at Salem in Marion County, requested an extension of time of 304 days from August 31, 1951 to and including July 1, 1952 for completion of this work. They alleged that they had been prevented from completing the contract within the specified time limit due to inability to secure steel from rolling mills, as practically all allocations issued for this project had been rejected. The Engineer reported that steel will not be available until about April 1, 1952. As the delay has not been the fault of the contractor, he recommended that the extension of time be granted as requested without penalty. A letter from the Bureau of Public Roads concurring therein was presented. The Commission approved the recommendation. (See FOOTNOTE)

4. Acme Construction Company, Contract No. 3392, for paving on the Broadway-Commercial Street Section in Empire in Coos County, requested an extension of time of 24 days from July 15, 1951 to August 8, 1951 within which to complete this job. They alleged that due to late delivery of a new paving plant which they had planned to use on the project they had as a result negotiated with Porter Yett to do the work and he did not get started as soon as planned. The Engineer reported that Mr. Yett had performed the job as soon as he could, and had completed it in four days' working time. As there was no extra cost involved and no inconvenience to the traveling public, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

5. C. R. O'Neil, Contract No. 3491, for grading and surfacing the Summit-Lobster Valley Section of the Alsea Secondary Highway in Benton County, requested an extension of time of 30 days from August 31 to September 30, 1951 within which to complete this contract. He alleged that he had been prevented from completing the project within the specified time limit due to the fact that the Forest Service would not permit him to burn logs due to extremely dry weather. The Engineer reported all work other than burning had been completed within the specified time limit, which work could not be performed because of the fire hazard. As the delay was beyond control of the contractor and caused no inconvenience to the department, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

6. Bechtel Bros., Contract No. 3388 for alterations to the shop building at LaGrande, Union County, requested an extension of time of 91 days from May 31 to and including August 31, 1951 in which to complete

the work. They alleged that shortage of materials had prevented completion within the specified time limit. The Engineer reported that all work was completed within the specified time limit except installation of some minor materials not available at that time. As the building has been in use since the specified completion date and the delay is in no way chargeable to the contractor he, therefore, recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

7. Tom Lillebo, Contract No. 3397 for construction of the Bybee Bridge on the Table Rock Market Road in Jackson County, requested an extension of time of 90 days from October 1 to and including December 29, 1951 within which to complete this work. He alleged that delay in receiving structural steel had prevented completion of the contract within the specified time limit. The Engineer reported that delivery of steel had been delayed several months because of Federal allocations, however, the steel is now on the job and erection is proceeding. In view of these facts, he recommended that the extension of time be granted as requested and without penalty. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

8. Lindstrom Bros. Inc., Contract No. 3417 for construction of the Wilson River Bridge on the Wilson River Highway in Tillamook County, requested an extension of time of 45 days from September 30, 1951 to and including November 15, 1951 for completion of this work. They alleged that high water conditions in the spring of the year and inadequate concrete supply had prevented completion of the contract within the specified time limit. The Engineer reported that heavy rainfall in the spring of 1951 made it inadvisable to start construction until the danger of high water had passed. As traffic is being carried over the existing structure without serious inconvenience, he recommended that the extension of time be granted as requested without penalty and presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

9. Lindstrom Bros. Inc., Contract No. 3429 for construction of the Weed and Muscott Bridge on the Little Nestucca Secondary Highway in Tillamook County requested an extension of time of 60 days from September 30 to and including November 30, 1951 within which to complete this work. They alleged that adverse weather conditions during the preceding winter and spring made it impractical to begin construction until April 1, 1951. The Engineer reported that heavy rainfall in the spring of 1951 made it inadvisable to attempt construction until high water had passed. As traffic is being served by the existing structure and no serious inconvenience has been caused, he recommended that the extension of time be granted as requested without penalty. A letter from the Bureau of Public Roads concurring therein was presented. The Commission approved the recommendation. (See FOOTNOTE)

10. C. E. Leseberg, Contract No. 3468 for rock production on the Rock Creek-McDermitt Section of the I. O. N. Highway in Malheur County, requested an extension of time of 90 days from September 30 to December 30, 1951 within which to complete this work. He alleged that a change in the contract increasing the rock production approximately 30 percent had made it impossible to complete the contract within the specified time limit. The Engineer reported that the original contract required materials for an oiled macadam, but, after awarding the contract, it was decided that asphaltic concrete should be used and, therefore, it was necessary to change the type of materials to be produced, which delayed the contractor to some extent. No inconvenience has been caused the State, and he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

11. Parker-Schram Co., Contract No. 3318 for grading, paving and pavement widening on the Sauvie Island Bridge approaches on the Columbia River and Gillihan County Road in Multnomah County, requested an additional extension of time of 45 days from July 15, 1951 to August 9, 1951 within which to complete this work. They alleged that a change of plans increasing the amount of Class B asphaltic concrete in lieu of an oil mat surfacing and the final clean-up of the project had prevented completion of the contract within the limits of the previous extension of time. The Engineer reported that the original plans called for oil mat surfacing but at the request of Multnomah County a portion of the work was changed to Class B asphaltic concrete, which caused a change-over in the contractor s operations. The overrun in time caused no inconvenience to the public, and he therefore recommended the extension of time be granted as requested without penalty. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

12. F. L. Somers, Contract No. 3383 for grading and paving Fifth Street in Redmond on The Dalles-California Highway in Deschutes County, requested an extension of time of 15 days from June 30 to July 15 1951 within which to complete this work. He alleged that changes in the plans, labor shortage and difficult blasting operations had prevented completion of the contract within the specified time limit. The Engineer reported that the project involved asphaltic concrete paving, using cinders. This being the first contract of this type attempted by the State, there were numerous changes in the plans and specifications, and the contractor was held up at times because of these changes. As the overrun in time could not be attributed to the contractor, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

13. Warren Northwest Inc., Contract No. 3484 for grading and paving the Parkrose (99th to 122d Avenue) Section of the Columbia River Highway in Multnomah County, requested an extension of time of 30 days from September 15 to October 15, 1951 within which to complete this work. They alleged that failure of the telephone and power companies to

remove their poles from the right of way until the middle of July had prevented completion of the contract within the specified time limit. The Engineer reported that the utility companies had failed to remove their poles from the right of way as soon as anticipated, thus delaying the contractor. He, therefore, recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

14. Asphalt Paving Co., Contract No. 3466 for reoiling and rock production on the Clear Creek-White School Section of the Wapinitia Highway in Wasco County, requested an extension of time of 19 days from September 15 to October 4, 1951 within which to complete this work. They alleged that rock production had been slowed considerably due to the nature of the quarry. The Engineer reported that all oiling on the section had been completed within the specified time limit but due to a difficult quarry they were unable to complete production of the maintenance materials within the time limit. As there will be no inconvenience to the State nor additional expense, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

15. J. C. Compton Company, Contract No. 3407 for paving on Locust Street in the City of Oakland in Douglas County, requested an extension of time of 267 days from October 31, 1950 to July 25, 1951 within which to complete this work. The contractor alleged that, due to inclement weather in September and October 1950, it was impractical to complete the job. The Engineer reported that the contract was not awarded until September 1, 1950 and, because of inclement weather, it was decided not to attempt completion until the 1951 paving season. As no inconvenience had been caused the traveling public nor additional expense incurred, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

16. A. H. Saxton & Sons, Contract No. 3251 for grading and bituminous macadam surfacing on the Squally Hook-Quinton Section of the Columbia River Highway in Gilliam County, requested an additional extension of time of 13 days from June 16 to June 29, 1951 within which to complete this work. They alleged that finishing the guardrail had required more time than anticipated, thus preventing completion of the contract within the limits of the previous extension of time. The Engineer reported that all work on the project had been completed by June 15, 1951, with the exception of the final coat of paint on the guardrail. The contractor, he said, had difficulty in securing guardrail materials. As there was no delay to the traveling public, he recommended that the extension of time be granted as requested without penalty; however, it was understood that the penalty imposed previously and effective up to June 16, 1951 would still remain effective. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

10. C. E. Leseberg, Contract No. 3468 for rock production on the Rock Creek-McDermitt Section of the I. O. N. Highway in Malheur County, requested an extension of time of 90 days from September 30 to December 30, 1951 within which to complete this work. He alleged that a change in the contract increasing the rock production approximately 30 percent had made it impossible to complete the contract within the specified time limit. The Engineer reported that the original contract required materials for an oiled macadam, but, after awarding the contract, it was decided that asphaltic concrete should be used and, therefore, it was necessary to change the type of materials to be produced, which delayed the contractor to some extent. No inconvenience has been caused the State, and he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

11. Parker-Schram Co., Contract No. 3318 for grading, paving and pavement widening on the Sauvie Island Bridge approaches on the Columbia River and Gillihan County Road in Multnomah County, requested an additional extension of time of 45 days from July 15, 1951 to August 9, 1951 within which to complete this work. They alleged that a change of plans increasing the amount of Class B asphaltic concrete in lieu of an oil mat surfacing and the final clean-up of the project had prevented completion of the contract within the limits of the previous extension of time. The Engineer reported that the original plans called for oil mat surfacing but at the request of Multnomah County a portion of the work was changed to Class B asphaltic concrete, which caused a change-over in the contractor s operations. The overrun in time caused no inconvenience to the public, and he therefore recommended the extension of time be granted as requested without penalty. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

12. F. L. Somers, Contract No. 3383 for grading and paving Fifth Street in Redmond on The Dalles-California Highway in Deschutes County, requested an extension of time of 15 days from June 30 to July 15, 1951 within which to complete this work. He alleged that changes in the plans, labor shortage and difficult blasting operations had prevented completion of the contract within the specified time limit. The Engineer reported that the project involved asphaltic concrete paving, using cinders. This being the first contract of this type attempted by the State, there were numerous changes in the plans and specifications, and the contractor was held up at times because of these changes. As the overrun in time could not be attributed to the contractor, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

13. Warren Northwest Inc., Contract No. 3484 for grading and paving the Parkrose (99th to 122d Avenue) Section of the Columbia River Highway in Multnomah County, requested an extension of time of 30 days from September 15 to October 15, 1951 within which to complete this work. They alleged that failure of the telephone and power companies to

remove their poles from the right of way until the middle of July had prevented completion of the contract within the specified time limit. The Engineer reported that the utility companies had failed to remove their poles from the right of way as soon as anticipated, thus delaying the contractor. He, therefore, recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

14. Asphalt Paving Co., Contract No. 3466 for reoiling and rock production on the Clear Creek-White School Section of the Wapinitia Highway in Wasco County, requested an extension of time of 19 days from September 15 to October 4, 1951 within which to complete this work. They alleged that rock production had been slowed considerably due to the nature of the quarry. The Engineer reported that all oiling on the section had been completed within the specified time limit but due to a difficult quarry they were unable to complete production of the maintenance materials within the time limit. As there will be no inconvenience to the State nor additional expense, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

15. J. C. Compton Company, Contract No. 3407 for paving on Locust Street in the City of Oakland in Douglas County, requested an extension of time of 267 days from October 31, 1950 to July 25, 1951 within which to complete this work. The contractor alleged that, due to inclement weather in September and October 1950, it was impractical to complete the job. The Engineer reported that the contract was not awarded until September 1, 1950 and, because of inclement weather, it was decided not to attempt completion until the 1951 paving season. As no inconvenience had been caused the traveling public nor additional expense incurred, he recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

16. A. H. Saxton & Sons, Contract No. 3251 for grading and bituminous macadam surfacing on the Squally Hook-Quinton Section of the Columbia River Highway in Gilliam County, requested an additional extension of time of 13 days from June 16 to June 29, 1951 within which to complete this work. They alleged that finishing the guardrail had required more time than anticipated, thus preventing completion of the contract within the limits of the previous extension of time. The Engineer reported that all work on the project had been completed by June 15, 1951, with the exception of the final coat of paint on the guardrail. The contractor, he said, had difficulty in securing guardrail materials. As there was no delay to the traveling public, he recommended that the extension of time be granted as requested without penalty; however, it was understood that the penalty imposed previously and effective up to June 16, 1951 would still remain effective. He presented a letter from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

17. K. F. Jacobson, Inc., Contract No. 3418 for grading and paving the Garden Valley Road-Roseburg Section of the Pacific Highway in Douglas County, requested an extension of time of 20 days from August 31 to September 20, 1951, within which to complete this work. They alleged that delay by the city in installing their sewer had delayed the contractor's operations more than the estimated length of time as stated in the specifications. The Engineer reported that installation of a sewer line by the City of Roseburg had definitely conflicted with the contractor's operations and that he had been delayed thereby. He recommended that the extension of time be granted as requested without penalty. The Commission approved the recommendation. (See FOOTNOTE)

18. F. L. Somers, Contract No. 3325 for grading and oil mat surfacing on the West Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County, requested an additional extension of time of 13 days from May 31 to June 13, 1951 within which to complete this work. He alleged that inability to secure metal work had prevented the completion of the contract within the limits of the previous extension of time. The Engineer reported that the contractor had completed all work by May 31, 1951 with the exception of some metal flume work, for which he was unable to secure delivery of materials. He recommended that the extension of time be granted as requested without penalty and presented a letter from the Bureau of Public roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract No's 3251, 3299, 3311, 3318, 3325, 3383, 3388, 3392, 3394, 3407, 3418, 3440, 3476, 3484, 3496, 3498, 3508, 3515, 3536, 3546, 3547, 3550, 3553, 3556, 3559, and 3581 for construction of State Highway projects had been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities and towns had met the legal requirements with respect to expenditure of State Tax Street funds accrued to them during the second six months period of 1950 and that the plans for the work contemplated with such funds have been approved and found satisfactory:

Arlington	$2,091.89
Fossil	1,956.74
Gates	1,296.30
Huntington	2,242.41
Powers	2,749.26

He also reported that the following cities and towns have met the legal requirements with respect to expenditure of State Tax Street funds accrued to them during the first six months period of 1951 and that the plans for the work contemplated with such funds have been approved and found satisfactory:

Barlow	$ 191.54
Boardman	303.91
Canyonville	2,012.48
Culver	768.72
Dundee	786.60
Elkton	510.78
Grass Valley	498.01
Hammond	1,317.81
Huntington	1,864.35
Imbler	380.53
Monument	582.29
Nehalem	687.00
Pilot Rock	2,147.03
Waterloo	459.70
Yamhill	1,374.00

He recommended approval of the plans by the Commission. The Commission approved the plans by adoption of the attached resolutions relative thereto marked EXHIBITS "D-1" and "D-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered adoption of a resolution abandoning to Grant County portions of the West Unit, Hamilton Hill-Long Creek Section of the Kimberly-Long Creek Secondary Highway. The Engineer reported that under terms of an agreement previously executed with the County, the County had agreed to take over and maintain parts of the old highway when the new section has been completed and opened to travel. The newly constructed section has been completed and is open to traffic and he recommended that the resolution be adopted. The Commission thereupon adopted the attached resolution marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed briefly and referred to Commissioner Reynolds with power to act, the renewal of the Commission's forgery bond which expires November 2, 1951.

The Commission considered an agreement with the California-Oregon Power Company for moving power poles along the Barkley Springs-Algoma Section of The Dalles-California Highway. The Engineer advised that on May 22, 1950 an agreement had been entered into with the power company for the movement of certain poles to permit reconstruction of the Barkley Springs-Algoma Section of The Dalles-California Highway in Klamath County. Subsequent to the date of this agreement, it was found necessary to move one additional pole at an estimated cost of $503.12. As this is an obligation of the State by reason of the power company having owned its own right of way, he recommended approval of the additional pole movement. The Commission accepted the recommendation and on the following day signed the agreement.

The Commission considered a request from the Depoe Bay Chamber of Commerce which had been forwarded through the office of Governor McKay for construction of public restrooms in Depoe Bay with State Highway funds. The Engineer pointed out that this same subject has been considered a number of times and each time has been denied. The Commission again denied the request.

The Engineer presented for the Commission's consideration a request from Mr. Archie R. Averill, a contractor, that the penalty previously assessed for overrunning the time limit on Contract 3265 for construction of the Umatilla River bridge at Umatilla be rescinded. He pointed out that Mr. Averill's bid of $94,340 was approximately $20,000 under the second low bid and nearly $27,000 under the Engineer's estimate for the job. Mr. Averill, he stated, is a small contractor who has built many small bridges for the State and has always done good work. On this particular job at Umatilla, he overran his time limit with the result that penalty had been imposed for engineering costs subsequent to April 30, 1951, which amount to approximately $3,000. In view of Mr. Averill's past record, he recommended that the assessment of engineering penalties as previously ordered be rescinded. The Commission approved the recommendation.

The Commission considered and approved granting of a permit to the Bonneville Power Administration to construct an access road on State Highway property in Deschutes County. On the following day the Commission also signed the permit.

The Commission considered a suggestion offered by Arthur R. Kirkham to Governor Douglas McKay that sections or corridors of State Highways be named in honor of certain prominent citizens. After careful consideration, the suggestion was denied.

The Commission considered and approved an extension rider to an existing lease from the O. W. R. and N. Company and the Union Pacific Railroad Company for authority to install underground wiring on railroad property in Burns, Oregon, in connection with the State radio system. On the following day the Commission also signed the extension.

The Engineer presented for the Commission's consideration proposed modifications of the provisions of a permit form governing single trip oversize and overweight movements. He recalled that the original resolution had been approved on July 16, 1951, but there had been protests received from trucking companies, and as a result of conferences with them certain modifications had been agreed upon. He outlined the changes roughly as being, (1) the gross weight on any pair of tandem axles should not exceed 38,000 pounds and (2) a combination gross weight of vehicle and load should not exceed 84,000 pounds. In addition to these modifications he also recommended that the standard permit form be used for occasional single trip movements, such as hydraulic scrapers, equipped with 24 and 25 inch low pressure tires and in which one of the two axle weights exceeds 19,000 pounds. Road stresses for these vehicles with low pressure tires with single axle loads up to 26,000 pounds are no greater than tandem axle loads up to 38,000 pounds with high pressure tires. He recommended that permits be granted as presented. The Commission approved the recommendation and thereupon adopted the attached resolution marked EXHIBIT "F" which resolution by this reference is made a part hereof with like effect as though extended in full herein. (For further details concerning the permit modifications see EXHIBIT "F" and the Engineer's letter dated October 1 in the Commission's files.)

The Engineer requested authority to purchase various types of equipment as itemized in detail in his letter of October 2d, 1951, totaling $152,898. These purchases, he explained, are to be made from funds in the 1951 budget. He also requested that authority be granted to place orders now for the purchase of equipment, the money to be taken from the 1952 budget. Both the Ford Motor Company and the General Motors Company, he stated, have advised that they will not guarantee delivery of light trucks during 1952 unless orders are placed by November of this year. Specifically, he requested authority to place orders for 75 light trucks at $2,500 each, totaling $187,500 as a commitment against the 1952 budget. He also reported that he would recommend to the Commission approximately the same amount in 1952 for the purchase of equipment as was approved in the budget for 1951. In addition to the 75 light trucks, he also requested authority to purchase a posting machine and one comptometer, totaling $4,150. The Commission approved the Engineer's requests.

The Engineer reported that complaints had been received regarding the parking of cars in front of the Valley View Apartments which are located on the Tualatin Valley Highway at the intersection of Canyon Lane and

Canyon Road. An investigation has been conducted disclosing that vehicles parking in front of the apartment house do so at right angles to the highway pavement and vehicles so parked force pedestrians to walk on the traveled roadway. He recommended that that section of the Tualatin Valley Highway between Engineer's Station 14+98.2 and 16+98.2 be posted for parallel parking only. The Commission approved the Engineer's recommendation by adopting the attached resolution marked EXHIBIT "G" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and accepted a report presented by Mr. H. B. Glaisyer, Commission Secretary, listing papers that he had signed in behalf of the Commission during the preceding month.

The Engineer reported that during the past several years there had been a number of requests to change the stop signs at the intersection of the Pacific Highway West and the Salem-Dallas Highway at Rickreall. At the present time traffic on the Salem-Dallas Highway is required to stop. A recent traffic count disclosed that 65 percent of the traffic enters the intersection from the Salem-Dallas Highway which traffic is now required to stop. In a 5-1/2 year period from January 1, 1946 to June 30, 1951, there were 20 reported accidents at this intersection with four fatalities and six personal injuries. There are presently installed at the intersection a flashing beacon and stop signs; however, due to the wide open nature of the intersection, there is no well-defined stop line. He recommended that the stop signs be changed making the Salem-Dallas Highway the through or preference route and that traffic entering the intersection from US99W be required to stop before proceeding. The Commission approved the recommendation.

The Commission considered a change in previously approved speed zones on the Salmon River Highway in the vicinity of Valley Junction. The Engineer recalled that on November 24, 1947, a 40-mile per hour speed zone had been established on the Salmon River Highway from Mile Post 18.27 to Mile Post 27.83, being from a point east of Grand Ronde to the west limits of Willamina. Since the establishment of this zone, there has been very little compliance with the posted limits and a great deal of objection from the driving public. The matter has been re-investigated, disclosing that there is a need for speed zoning only in the vicinity of Valley Junction and Grand Ronde. He recommended that the resolution enacted November 24, 1947, be rescinded and that a 35-mile per hour speed zone be established between Mile Post 21.59 near Valley Junction, and Mile Post 21.89, just east of the South Yamhill River, and that a 35-mile per hour speed zone also be established between Mile Post 19.57 and Mile Post 20.07 about 0.14 mile east of the road to Grand Ronde Agency. The Commission unanimously approved the recommendation and thereupon adopted the attached resolution marked EXHIBIT "H" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered extending a 25-mile per hour speed zone on the North Santiam Secondary Highway near Big Cliff Dam. The Engineer reported that on August 20, 1951, a 25-mile per hour speed zone

and a "NO PARKING ON HIGHWAY SHOULDERS" regulation had been established between Mile Post 37.36 and Mile Post 36.86 at the dam site. Subsequent to this action, field conditions at the dam have changed so that it is necessary to extend the regulated section and a request to do so has been made by the Army Engineers. His recommendation that a 25-mile per hour speed zone be established on that section of the North Santiam Highway between Mile Post 36.46 and Mile Post 36.86, and also that shoulder parking be prohibited in this section was approved by the Commission who also adopted the attached resolutions marked EXHIBITS "I-1" and "I-2" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered a request from George C. Gillis of Summit, Oregon, for designation of a reduced speed zone in the town of Summit on the Eddyville-Blodgett Highway. The Engineer advised that this request had been investigated, disclosing that the roadway consisted of an 18-foot blacktop pavement, gravel shoulders ranging from two to six feet in width, curved alignment but no greatly restricted sight distances, and three intersecting roads in the section of the community between Mile Post 14.08 and Mile Post 14.44. From January 1, 1946 to June 30, 1951 there were four accidents in this section, all involving property damage only. In view of these facts he recommended that the request for speed zoning be denied and that the "Summit" sign at the northwesterly edge of the community be moved northwest to a point beyond the Grange Hall affording a measure of additional indication to traffic entering the community. The Commission approved the recommendation.

The Commission also considered a request of the Seaside Safety Committee for designation of a reduced speed zone on the Sunset Highway in Elsie. The Engineer reported that an investigation had been made which shows that the alignment through Elsie is on a slight curve with no sight distance complications and that the roadside culture is concentrated on the southwesterly side of the highway. The daily average traffic was found to be 1,500 vehicles, and from January 1, 1947 to December 31, 1950, there were seven reported accidents with eight persons injured but no fatalities. In view of these facts and due to the shortness of the section involved (0.21 mile), he recommended and the Commission approved installation of advance "SLOW CONGESTED ZONE" signs at the approaches to the community in lieu of speed zoning.

Requests from several different sources for speed zoning on the Northeast Portland Secondary Highway in Northeast Portland were considered by the Commission. The Engineer reported that a detailed investigation had been made which disclosed that the section between the east city limits of Portland and the intersection of US30 in Parkrose should be speed-zoned as follows: from the east city limits of Portland, (Mile Post 2.05, N. E. 42d Avenue) to N. E. Culley Boulevard (Mile Post 3.46) 45 miles per hour; from N. E. Culley Boulevard (Mile Post 3.46)

to N. E 82d Avenue (Mile Post 4.20) 35 miles per hour; from N. E. 82d Avenue (Mile Post 4.20) to N. E. Sandy Boulevard (Mile Post 5.10) 45 miles per hour. He recommended that these speed zones be installed. The Commission unanimously approved the Engineer's recommendation by adopting the attached resolution relative thereto marked EXHIBIT "J" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that as a part of the program of speed zoning on the Pacific Highway West, action was taken by the State Speed Control Board on August 27, 1951 establishing a 35-mile per hour speed zone between the east city limits of Lafayette and the west city limits. The overall investigation indicated that a portion of the Pacific Highway West, east of the east limits of Lafayette should be zoned. During the period 1946 to 1950, there were five accidents in this section with one injury. The average daily traffic in 1950 was 5,300 vehicles. He recommended that a 35-mile per hour speed zone be established on the Pacific Highway West outside the east city limits of Lafayette (Mile Post 33.12) and a point easterly thereof (Mile Post 32.92) The Commission unanimously approved the Engineer's recommendation by adoption of the attached resolution marked EXHIBIT "K" which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the State Speed Control Board at the request of the City of Medford established certain speed zones within the corporate limits of the city on the Pacific Highway at its meeting August 27, 1951 on Court Street, Central Avenue, and Riverside Avenue. As a part of the overall program of speed zoning, he felt it necessary that the rural extensions of the above-mentioned city streets have certain restricted speed zones established thereon so that there will be an integration of speeds approaching and within the city. To establish such uniform speed zoning on the primary highway approaches to the City of Medford and to coordinate the action of the Speed Control Board, he recommended that the following speed zones be established:

1. On the Pacific Highway from the south city limits of Medford (Mile Post 312.06) to Mile Post 312.76, 45 miles per hour.

2. On the Pacific Highway from the State Highway Section Headquarters (Mile Post 308.45) to the north limits of Medford (Mile Post 309.14 for southbound traffic and at Mile Post 309.26 for northbound traffic) 35 miles per hour.

3. On the Crater Lake Highway from the junction of the Pacific Highway (Mile Post 0.00) to Mile Post 0.30, 35 miles per hour.

The Commission unanimously approved the Engineer's recommendation by adopting the attached resolutions relative thereto marked EXHIBIT "L-1" and EXHIBIT "L-2" which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered the matter of an overweight violation as committed by Charles Thornton Leeds who was driving a truck belonging to the Brookings Plywood Corporation. The Engineer reported that on September 24, the weighmasters, while operating in the vicinity of Brookings, apprehended this load of logs which, when weighed, was determined to be 28,240 pounds in excess of the permissible weight and was also overheight. The load had entered the Oregon Coast Highway approximately three miles north of Brookings. This Company, he stated, had only recently started hauling logs, and, as of September first, was operating seven trucks and trailers that had been weighed nineteen times with no violations. He recommended that a warning letter be written to the firm, advising that should any of their trucks be apprehended in the future with similar violations, such action may be considered cause to cancel permits for their vehicles. The Commission approved the Engineer's recommendation.

The Commission considered recommendations as made by the Engineer concerning retirement of those employees who will have reached retirement age, or those whose present extension will expire in the first quarter of 1952. The Engineer advise that he had made a report on all persons affected during the year 195 . in order to present a full picture, but at this time asked that the Commission take action on the names of 17 persons reaching retirement age in January, February, or March, 1952. Of the 17 names, he recommended that six be retired, that seven be retained for one year, and that four be retained for a period of three months. This latter group, he pointed out, are all Engineers who have been granted four extensions and all of whom will have reached the age of 70 by March 30, 1952. He also recommended that William Cowgill, Jr., age 66, be re-employed for one year beginning November 1, 1951 and also that Mr. Charles L. Plummer, Sr. be re-employed for a period of one year beginning November 1, 1951. On both employees, re-employment was requested on the basis of adequate physical condition and the inability to secure replacements. The Commission approved the recommendations. (For names of the employees and further details, see Engineer's letter dated October 4, 1951.)

The Commission confirmed the date for the next regular meeting for Thursday and Friday, November 8 and 9, 1951 to be held in the Green Room of the Imperial Hotel in Portland.

The Commission discussed items of "Unfinished Business" as shown on the list dated September 12, 1951 as follows:

1. Cleanup of payments on completed contracts: The Engineer advised that he had submitted his report on this subject on October 3. The Commission ordered the item deleted from the list of "Unfinished Business".

2. Request of Lake County Court to exchange Camas Creek County Road for Adel-Plush Section of the Warner State Secondary Highway: The Engineer stated that this matter had been previously considered by the Commission at this meeting under Agenda item 3-a. The item was ordered deleted from the list.

3. Improvement of Mt. Hood Highway between Parkdale and Hood River: The Engineer recalled that he had presented a report at this meeting but action had been deferred pending the appearance of a delegation. This item to remain on the list.

4. Request of City of DeLake for establishment of permanent grade and installation of curbs on US101 through DeLake: The Engineer reported that an investigation was under way but had not yet been completed. This item to be retained on the list of Unfinished Business.

5. Request of City of Tillamook for construction of new entrance at Wilson River Highway into Tillamook: The Engineer pointed out that he had presented a report at this meeting under agenda item 3-b. The Commission ordered the item deleted from the list.

6. Highway improvements in Salem. The Engineer recalled that an amended agreement clarifying obligations of the City and the right of the State to abandon old highway streets had been approved at this meeting. The Commission ordered the item deleted from the list.

7. Acquisition of Lloyd property along Banfield Expressway in Portland: The Commission ordered this item to be retained on the list of Unfinished Business.

8. Proposed connection to US30 in Portland at 18th and 19th streets: The Engineer advised that other streets are involved in this proposed connection and that his report would be ready at a later date. This item to be retained on the list.

9. Expenditure of secondary funds in Division 4: The Engineer reported that $150,000 had been transferred from Klamath to Crook County. The Commission ordered this item deleted from the list of Unfinished Business.

10. Request to move dirt on Coast Highway two miles south of Waldport: The Engineer stated that the owner of the Edgewater Lodge had been contacted and after reviewing his request, he had been granted permission to move dirt. This item to be deleted from the list.

11. Maintenance of the Paulina Secondary Highway: The item to be retained on the list of Unfinished Business as an economic survey is to be conducted for this highway.

12. Design of signs to be erected at ends of construction work that is under way: This item also to be retained on the list, as the Engineer reported that he had not received replies from as many States as he would like and that he would report later.

13. Request of A. F. of L. for prevailing wage provision in contracts: This item to be deleted, as the Assistant Counsel, Mr. C. W. Enfield advised that the State could not comply. (See report below)

14. Improvement to Noti-Badger Mountain Section of the Richardson-Eugene Highway: The Engineer reported that the necessary investigation on this request was still in progress and that he would report at the next meeting.

15. Sale of land and building at Government Camp: The Right of Way Engineer previously reported that bids had been received for the sale of this property. This item to be deleted from the list of Unfinished Business.

16. Damage to Dodge Bridge on Sams Valley Secondary Highway: Mr. C. W. Enfield, Assistant Counsel, reported that evidence was still being gathered preparatory to taking the matter to court. To be retained on the list.

Mr. C. W. Enfield, Assistant Counsel, presented a report concerning a request from the American Federation of Labor that prevailing wages be paid as a requirement in contracts awarded by the Commission. The Assistant Counsel stated that as a summation of the research in this matter, he could state as follows:

(1) There is no law that requires the Commission to set forth in its specifications that the prevailing wage shall be the minimum wage scale.

(2) The Commission has no authority, even if it wished to do so, to set forth in its specifications what would purport to be a requirement that the prevailing wage be the minimum wage paid, for the Legislature has not named the officer or authority who is to determine what is the prevailing wage.

(3) That a specification requiring that only union labor be employed on the State Highway jobs would be unlawful without the aid of Legislation and that any statute enacted by the Legislature requiring the same would be invalid.

The Commission unanimously accepted the Counsel's report.

The Commission considered a request from the Hammond Lumber Company for a change of access point on the Hammond Lumber Company's property near Detroit on the North Santiam Secondary Highway. The Right of Way Engineer reported that the request would not involve any additional access but only a change and recommended that it be granted. The Commission approved the recommendation.

The Right of Way Engineer presented a proposed exchange of property with the Long Bell Lumber Company in the vicinity of Gardiner, Oregon. He advised that the department needs from the lumber company 4.07 acres valued at $2,205 and that the company wishes to secure 1.844 acres in three parcels in Gardiner, valued at $2,357. The lumber company needs the State property in order to construct a railroad. They also gave to the State some right of way without charge at Mill Creek on the Umpqua Highway. The exchange, he stated, has the approval of the Highway Engineer and he recommended that it be made. The Commission approved the recommendation.

The Engineer reported that construction of the Marks Creek-Jones Ranch Section of the Ochoco Highway in Crook County has been completed and that under the terms of an agreement previously signed by Crook County, the county is to maintain a part of the old route of the highway when the new route is opened to traffic. This has now been done and he recommended that the old right of way be formally abandoned to Crook County. The Commission approved the Engineer's recommendation by adoption of the attached resolution marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that construction of the Marks Creek-Jones Ranch Section of the Ochoco Highway in Wheeler County has been completed and that under the terms of an agreement previously signed by Wheeler County, the county is to maintain a part of the old route of the highway when the new route is opened to traffic. This has now been done and he recommended that the old right of way be formally abandoned to Wheeler County. The Commission approved the Engineer's recommendation by adoption of the attached resolution marked EXHIBIT "N", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed an agreement with Jackson County whereby the county agrees to accept a portion of the old right of way of the North Unit, Antelope Creek-Medford Section of the Crater Lake Highway when construction on this section has been completed and the new route is opened to traffic. The Engineer advised that the agreement has been signed by Jackson County officials, approved by the Chief Counsel, and he recommended that the Commission approve it. The Commission accepted the Engineer's recommendation and on the following day signed the agreement.

The Commission considered adoption of a resolution by which the State would accept jurisdiction of the Crescent Lake County Road in Klamath County as the Crescent Lake Secondary Highway No. 429. The Engineer reported that the Commission and Klamath County, on November 8, 1949, had at that time agreed that the State would take over this road if the county would take over a part of the old route of the Barkley

Springs-Algoma Section of The Dalles-California Highway. The resolution before the Commission, he stated, carries out the intent of the previous arrangement as far as the Crescent Lake road is concerned. The Commission thereupon adopted the attached resolution relative thereto marked EXHIBIT "O", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered adoption of a resolution abandoning parts of the Barkley Springs-Algoma Section of The Dalles-California Highway to Klamath County when the new route is completed and open to traffic. The Engineer advised that this resolution is the culmination of an agreement dated January 26, 1950 relating to the use and jurisdiction of the abandoned sections and that under the agreement and the proposed resolution, the sections are to be maintained by Klamath County as the new section is now open to traffic. He recommended that the resolution be adopted. The Commission approved the recommendation by adoption of the attached resolution marked EXHIBIT "P", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered an agreement with Tillamook County covering relocation of a section of the Oregon Coast Highway in Tillamook County, known as the Bay City-Kilchis River Section. The Engineer reported that the agreement provides that the county is to maintain certain parts of the old section of the highway when the new section has been completed and opened for traffic. He recommended that the agreement be approved. The Commission approved the recommendation and on the following day signed the agreement.

The Commission also considered a form of agreement between the State, the City of Reedsport, and Union High School District No. 13 in connection with the Reedsport-Winchester Bay project on the Oregon Coast Highway in Douglas County. The agreement, the Engineer advised, provides a cooperative arrangement whereby the city may install a water line on State Highway right of way during construction of this section of road, and that the school district is to maintain a landscaped area incorporated in the plans for construction. He recommended that the agreement be signed. The Commission accepted the Engineer's recommendation and on the following day signed the agreement.

The Engineer requested authority to have Porter W. Yett lay 6,000 tons of asphaltic pavement on the Front Street job in Coos Bay at a cost in addition to the bid price of $1.25 per ton, totaling an increase of $7,500 in the contract authorization. He reported that the principal contractor had failed to get the paving done as soon as had been planned and that in order to relieve the congested traffic on Broadway Street it was deemed advisable to have the work

done by Mr. Yett even though the cost is more than stipulated in the contract. The Commission approved the recommendation.

The Engineer brought up for the Commission's consideration the conducting of a reconnaissance survey from Euchre Creek to Gold Beach to Brookings on the Oregon Coast Highway. He stated that property has been purchased along the coast for the Samuel H. Boardman Park and that in purchase of the right of way it had been borne in mind that the future location of the highway may be through the park property and it is needful to know the cost of reconstructing the highway on or near its present alignment or on new alignment. He requested authority to expend $25,000 in conducting such a survey. The Commission unanimously approved the request.

The Commission discussed with the Engineer problems of the several delegations to appear on the following day. No action was taken at this time.

The meeting adjourned at 5:00 p.m. to reconvene the following morning at 9:00 a.m. in the same location.

Portland, Oregon
October 12, 1951

The State Highway Commission reconvened in regular session at 9.00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Asst. State Highway Engineer
W. W. Stiffler, 2nd Asst. State Highway Engineer
C. W. Enfield, Assistant Counsel
Fred A. Miller, Assistant Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
Malcolm H. Hawke, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction projects were opened and read aloud by the Secretary in conformance with previously published notice, at the conclusion of which the Secretary, as requested by the Chairman, announced that award of contracts would be made at 3:30 p.m.:

MT. HOOD HIGHWAY IN CLACKAMAS COUNTY
DORMITORY AT TIMBERLINE JUNCTION

McKel, Inc., Portland	$ 59,772.00
Serge R. Perrin, Oregon City	59,969.00
Thompson & Georgeson, Inc., Portland	62,925.00

MT. HOOD HIGHWAY IN CLACKAMAS COUNTY (cont.)
DORMITORY AT TIMBERLINE JUNCTION

H & R Construction Co., Beaverton	66,757.62
Blanchard Construction Co., Portland	69,802.00
Gilbert Roberts, Hood River	69,905.00
Donald M. Drake Co., Portland	72,276.00

COLUMBIA RIVER HIGHWAY IN HOOD RIVER COUNTY
JAYMAR OVERCROSSING

Orlando C. Bennard, Portland	$ 20,654.00
Snook Brothers, Corvallis	21,232.00
Lindstrom Brothers, Portland	21,758.00
Erick Enquist, Troutdale	22,252.00
Leonard & Slate Oregon Limited, Portland	25,260.00
Kuckenberg Construction Co., Portland (1)	26,110.00

The Engineer reported that as previously authorized by the Commission he had caused to be conducted detailed surveys on the following sections of state highways:

1. The Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County. (Engineer's Station 0+00 at Newport to Engineer's Station 293+00 west of Toledo)

2. The Divide-Anlauf Section of the Pacific Highway in Douglas County. (Engineer's Station 297+00 at Anlauf to Engineer's Station 1048+80 south of Divide)

3. The Eagle Creek Section of the Clackamas Secondary Highway in Clackamas County. (Engineer's Station 994+00 to 1049+42.69)

The proposed locations as shown by the surveys represent the most feasible routes for reconstruction considering costs, safety and benefit to the general public and he recommended that they be adopted. The Commission approved the Engineer's recommendation and thereupon adopted the attached resolutions relative thereto marked EXHIBITS "S-1" and "S-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Judge Wallace Telford and Commissioner Bob Jones representing the Clackamas County Court appeared before the Commission to request an exchange of county roads on the Federal Aid Secondary System: Judge Telford requested that the Aemisigger Hill-Bradley Richy Road No. 1671, consisting of $3\frac{1}{2}$ miles, and Market Road No. 17, consisting of 2 miles, or a total of $5\frac{1}{2}$ miles be placed upon the Federal Aid Secondary System, and that there be deleted from the FAS System a section of Market Road No. 28 between Carver and Park Place, consisting of $5\frac{1}{2}$ miles. He urged that the exchange be made as the section now on the FAS System is not a heavily traveled road, whereas the section requested bears very heavy traffic, including the hauling of lumber and logs. He also brought up the matter

of an allocation of $50,000 which has been made by the State for rebuilding with FAS funds the bridge over Kellogg Creek. He pointed out that the County has on hand two 61-foot steel railroad girders and three truss beams for a bridge and suggested that in lieu of spending the allocation on the Kellogg Bridge, that the County be permitted to construct it with their own funds, and that the $50,000 allocation be diverted to a project on market roads No. 14, 16 and 34 for widening the pavement three or four feet on each shoulder. Chairman Chandler concluded the discussion by advising the delegation that the Engineer would study their requests, contact them, and report to the Commission at a later date.

A delegation representing the Hillsboro City Council appeared before the Commission requesting that a study be made with a view to relieving traffic congestion on the highway within the city. Present were:

J. W. Barney, City Manager
L. J. Alder, Mayor
Thomas Doyle and Harley Cruse, Councilmen
Carroll Bradley, Asst. City Attorney

Mr. Barney who acted as spokesman, pointed out that there is much congestion of traffic within the city and that there is a definite need for a study to alleviate this condition with a possibility of either widening the highway or installing a one-way system. City officials, he stated, are well aware that no matter which program is undertaken there will be opposition from some sources; and with that thought in mind, the City feels that a complete and thorough study should be made. He requested that the Highway Department make the study. Chairman Chandler advised the delegation that the Commission in the past has made it a policy to perform such services when requested by the cities. The survey, he added, will be performed as requested when engineering personnel is available and after the City has submitted the request in writing.

County Judge Sewell Stanton and Mr. George Taylor, both from Ontario in Malheur County appeared before the Commission to request highway improvements in Malheur County. Judge Stanton thanked the Commission for work performed in Malheur County and requested that the proposed cut-off between Ontario and Huntington be placed in the immediate State Program; that the project for widening US30 from Ontario to the Snake River Bridge be completed at an early date; and that early improvement be made on the farm to market road south of Ontario from the Ontario Livestock Commission to Highway 28. He presented a resolution from Idaho State Representative Allen Gowey, a resolution from the Malheur County Highway and Industrial Development Association approved by the Malheur County Court endorsing early construction of the Ontario-Huntington cut-off, and also a resolution from the Malheur County Highway and Industrial Development Association approved by the Malheur County Court urging improvement on the farm to market road from the Stock Auction Yards to U. S. Highway No. 28. Chairman Chandler thanked the delegation

for their expression of appreciation for work completed and advised them that their requests would be given consideration.

State Representative J. S. "Jack" Greenwood appeared before the Commission regarding the bid he had submitted for purchase of the old maintenance site and buildings at Government Camp. He asked that the Commission rescind award of the property to him as he expressed the feeling that a number of people who are his neighbors may have wanted to bid on the property but did not know that it was for sale even though it had been properly advertised. Inasmuch as these people are his neighbors and friends, and he did not wish to create an antagonistic feeling among them, he requested that he be allowed to withdraw his bid. Chairman Chandler stated that his request would be considered by the Commission during the lunch hour. (Later in the day this matter was again discussed and the Commission decided unanimously to release Mr. Greenwood from his bid. The Right of Way Engineer was instructed to determine if the property should be re-advertised for sale, and if so determined to re-advertise it.)

A delegation representing the US Highway 20 Association appeared before the Commission concerning improvement of the Corvallis-Newport Highway between Newport and Toledo. The following people were present:

Marion E. Cady, Mgr., Bend Chamber of Commerce
Frank Updyke, Pres., Highway 20 Assoc., Toledo
Kurt Kiesow, Director, Highway 20 Assoc., Toledo
Mel Hammerness, Director, Highway 20 Assoc., Toledo
C. H. Bogert, Mayor of Toledo
Mrs. C. H. Bogert, Toledo
James M. Howes, Secy., Highway 20 Assoc., Newport
Russell Gardner, State Senator, Newport

Mr. Kurt Kiesow who acted as spokesman stated that they had just heard that the survey between Newport and Toledo had been approved by the Commission and in behalf of the delegation he thanked the Commission for their action. He expressed the hope that there would be funds available for extending the project at a later date. He also expressed appreciation for work performed on US20 between Bend and Burns and between Sisters and Bend. State Senator Russell Gardner stated that the Mayor of Newport had asked him to express the City's thanks for adoption of the Newport-Toledo survey. Chairman Chandler concluded the interview by expressing the Commission's appreciation for the attitude shown by the delegation.

The Assistant Highway Engineer, Mr. W. C. Williams, reported that the conditions under which the contract for the Vida-Belknap Springs rock production project had been awarded to E. H. Itschner Company

had been satisfied and that contract forms had been sent to the contractor for execution. Bids on the project were received by the Commission on September 12, 1951.

The Assistant Engineer also brought up the matter of formal adoption of a resolution outlining the amounts and conditions under which charges are made to utility companies to cover administrative costs of issuing permits to allow their facilities on the highway right of way. He recalled that this matter had been discussed at a previous meeting and confirmed as a matter of policy. He recommended that the resolution be formally adopted at this time. The Commission thereupon adopted the attached resolution marked EXHIBIT "Q", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Doctor B. R. Sharff appeared before the Commission representing the Enterprise Chamber of Commerce. He asked that a reduced speed limit be placed on the Wallowa Highway between Minam and Wallowa or that the highway be reconstructed to modern standards as the present highway is exceedingly dangerous to the traveling public. Chairman Chandler stated that the project would be considered when money is available.

A delegation from Wemme and vicinity appeared before the Commission and requested improvement to the Mt. Hood Highway in the vicinity of Cherryville. The following people were present:

Hon. J. S. "Jack" Greenwood, State Representative, Wemme
Marion E. Cady, Mgr., Chamber of Commerce, Bend
Jim Langdon, District Ranger, Zigzag
Lester Houk, Central Oregon Chamber of Commerce, Redmond
E. S. Young, Crown-Zellerbach Corp., Brightwood
Wm. Jossy, Bend-Portland Truck Co., Bend
Joe Thomison, representing Central Oregon Stockmen, Prineville

State Representative J. S. Greenwood headed the delegation and acted as spokesman, introducing the various members of the delegation. He pointed out the very crooked, narrow condition of a section of the Mount Hood Highway beginning at a point about four miles east of Sandy and extending easterly for a distance of about 11 miles. He called attention to the fact that there is much heavy truck traffic, particularly in the summer, and that passing lanes are badly needed on the steeper grades to allow faster moving traffic to get by. Mr. Jim Langdon, District Ranger for the Forest Service, outlined the large amount of timber which the Forest Service plans to sell or has sold in this vicinity, all of which will be hauled over the highway. He anticipated that there would probably be about 25 million feet to be hauled during 1952 as compared with about 12 million feet in 1951 and smaller amounts in 1950 and 1949. It was also pointed out that much produce from Eastern Oregon is hauled over this highway, particularly cattle and lumber. Mr. Joe Thomison emphasized this point citing the loss in weight suffered by cattle when trucks are

delayed while hauling over the Mt. Hood Highway. Mr. Greenwood concluded the delegation's remarks by requesting that the Commission consider whatever improvements are possible, particularly passing lanes for trucks. Chairman Chandler stated that their request would be given serious consideration. (Later in the day the Commission authorized the Engineer to make a location survey on this section).

Mr. Glaisyer, the Commission's Secretary, advised that he plans to be out of the state for about three weeks during the later part of October and the early part of November and during his absence he requested that the Commission designate Mr. Floyd Query as Acting Secretary. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "R", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Chairman Chandler inquired of the Ass't Counsel as to progress in collection of the bid bond forfeited by the State Construction Company on their bid to construct the Marion Street Bridge piers across the Willamette River in Salem. Mr. Enfield replied that the matter is being prosecuted and that attorneys for the contractor have filed an answer.

Mr. Glaisyer brought up the matter of a telephone request from a representative of the State Forestry Department concerning a permit for a road on State Highway property adjoining the Fishhawk Falls Secondary Highway in Clatsop County. He recalled that at a previous meeting the Commission had approved a request granting the use of highway property for a log hauling road for a period of one year. The State Forestry Department has now advised that they have a large amount of timber to come out over this road and that in order to get good bids for the timber they wish to have the period of their lease or permit extended from one to two years. The Commission unanimously approved the extension of the lease.

Chairman Chandler inquired of the Engineer as to the status of survey work for location of the Umpqua Highway in and along the Umpqua River. The Engineer reported that he anticipated the survey would be ready for presentation to the Commission in November or December of this year.

Chairman Chandler also requested the Engineer to prepare a map for the Commission showing the location of survey parties.

The Engineer presented an oral report on progress being made for transfers of property with the Union Pacific Railroad in connection with construction and proposed construction of the new alignment of the Columbia River Highway in the Columbia River Gorge. He pointed out that years ago a survey had been conducted by the

Railroad Company called the "Roberts Projection" which allowed room for the Railroad Company to straighten and improve their tracks. In the highway construction now being conducted, the "Roberts Projection" has been respected but he suggested that if the Railroad Company did not show a more lenient attitude in dealings with them concerning right of way that the State cease to respect the "Roberts Projection". He requested authority for himself and the Assistant Counsel, Mr. Enfield, to contact head officials of the Union Pacific Railroad Company when they are in Omaha during the latter part of October. The Commission approved the request.

The meeting recessed at 12:00 noon and reconvened at 2:00 p m. in the same room with the same persons present and participating.

Chairman Chandler stated that the Commission would go along with the proposed change in the Forest Highway Program increasing the allotment for work on the Cascade Lakes Forest Highway from $90,000 to $130,000. (The Secretary gave to Mr. Kellogg of the Forest Service a letter signed by two members of the Highway Commission concerning the change in program.)

Mr. Gil Wright, Baker County Commissioner from New Bridge, appeared before the Commission concerning plans the Commission might have for highway construction in Baker County. He inquired if it was true that if more work is performed on the Sumpter Valley Secondary Highway, that it would not be possible to do other jobs in the county. Chairman Chandler replied that available money is allocated in an equitable manner over the state and that if the funds are spent on primary and secondary State highways it would not be possible to spend additional funds on Federal Aid Secondaries. Mr. Wright stated that the county road in Baker County known as the Wingville Route between Baker and Pocahantas is their number one project following the work on the Sumpter Valley Highway. Chairman Chandler concluded the interview by stating that the Commission cooperates with the county courts in allocating available funds for improvement of county roads, but the Commission could not state at this time when additional funds will be available.

A delegation representing the John Day Chamber of Commerce composed of the following people appeared before the Commission concerning improvement of several sections of highways in Central Oregon:

I. B. Hazeltine, Secretary, John Day Chamber of Commerce
E. L. Knox, Dr. Jerry VanderVlugt and L. D. Wilson, all members of the John Day Chamber of Commerce

Mr. Hazeltine, who acted as spokesman, outlined the projects in which they were most interested as follows:

1. Early completion of the section between Mt. Vernon and John Day on US Route 28.

2. Removal of dangerous curves in the Brogan Hill Section of US28.

3. Improvement of the John Day-Pendleton Highway from John Day to Mountain Rest.

4. Elimination of curves east of Mitchell on Highway 28.

5. Elimination of sharp curves on Highway 19 near Service Creek.

6. Improvement on Highway No. 28 east of Austin Junction by cutting out sharp curves.

Chairman Chandler advised the delegation that the survey from Mt. Vernon to John Day was complete and it was anticipated that bids would be received for construction on this section in the spring of 1952. He pointed out that much of the work on Highway 395 comes under jurisdiction of the United States Forest Service and that improvements are conducted by them. The Commission, he added, will give serious consideration to the requests as submitted by the delegation.

Mr. Elmer Bankus appeared before the Commission requesting that some provision be made so that he could use land located in Brookings and previously deeded to the State. He recalled that sometime in the past he had deeded right of way for highway purposes with an understanding (not written into the deed) that if the property was not needed it would be deeded back to him. Chairman Chandler stated that the Commission had several times considered his request for return of the property and that in each instance the Engineer had recommended against it on the basis that the property is needed for highway purposes. Mr. Bankus questioned the statement that the property is needed for highway use and suggested that if the property could not be deeded back to him that it be leased to him for a period of 15 years or more with the understanding that at any time it is needed for highway purposes the lease could be cancelled. He also stated that he would not ask for more than two accesses and emphasized the point that he needed the property badly for the development of his business. The Engineer was instructed by the Commission to discuss the matter with the Assistant Engineer and the Legal Department and report to the Commission later.

The Engineer presented for the Commission's consideration a proposal that the Wocus Marsh job on the Klamath Lake Secondary Highway, for which $413,000 has been allocated, be combined with

the adjoining section for which $500,000 has been allocated and that the two jobs be advertised as one with bids to be received sometime in the spring after snow has left the ground. He pointed out that bids had been received several times on the Wocus Marsh job alone and had been rejected as being too high. It was his thought that if the two jobs could be combined, the one larger job might be more attractive to contractors, thereby securing a lower bid. The Commission approved the Engineer's suggestion.

The Engineer requested that he be given authority to conduct a survey for relocation of the Mt. Hood Highway on a section approximately 11 miles long beginning at a point about four miles east of Sandy and extending easterly from that point. The Commission authorized the survey as requested by the Engineer.

A delegation consisting of the following residents of North Powder and other users of the Anthony Lakes Road appeared before the Commission to protest a grade crossing of the Anthony Lakes Road at US Highway No. 30 near North Powder:

Roger Loennig, Member of State Legislature, Baker
County Rural School Board, Haines
A. W. Peters and Merton A. Davis, farmers, North
Powder
John Davis, farmer and stock raiser, North Powder

Mr. Loennig acted as spokesman and pointed out that the Anthony Lakes Road served a populous farming community and in addition carried considerable log traffic. It was his feeling that crossing US30 at grade by the Anthony Lakes Road would be exceedingly dangerous and that the Anthony Lakes Road should be carried beneath the primary highway. He presented to the Commission a petition signed by residents of North Powder and vicinity endorsing the construction of an underpass. Mr. Davis emphasized the amount of farm products hauled on the Anthony Lakes Road and also pointed out that many tourists travel this road in visiting Anthony Lakes. The Engineer stated that there are many other highway grade crossings in the state which carry more traffic than this one, and he pointed out the type of stage construction in such instances, generally followed in the order mentioned: first, channelizing of the intersection; second, installation of traffic lights; and third, construction of an underpass. The cost of the underpass he estimated at about $60,000. Chairman Chandler concluded the interview by stating that no action could be taken at this time but that the Commission would have to wait and see how the intersection actually worked when it is in operation.

The Engineer brought up the matter of allowing the proprietor of the "Chicken in the Rough" restaurant in Gladstone to perform landscaping on state highway right of way in front of his property. He recalled that this man had already put in grass and other beautification

improvements on highway right of way and had asked permission to make additional beautification improvements. Inasmuch as the work he proposes to do will be of benefit to the right of way, he recommended that he be granted a revocable permit to perform this work and include in the permit the work that he has already performed. The Commission approved the recommendation.

Chairman Chandler brought up the matter of appointing a new Chief Counsel to succeed the late J. M. Devers. Commissioner Reynolds moved that Mr. C. W. Enfield, present Assistant Counsel, be appointed as Chief Counsel at a salary of $700.00 per month and that Mr. Fred A. Miller be appointed as Assistant Counsel at a salary of $600.00 per month. He also moved that Mr. J. W. DeSouza be paid $550 per month; G. E. Rhode, $460.00 per month; Mr. R. G. Wykoff $460.00 per month; and that Mr. T. J. Reeder be paid $375.00 per month. Commissioner McIver seconded the motion and it was declared passed unanimously. The Commission also adopted the attached resolutions relative thereto marked EXHIBITS "T-1" and "T-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Commissioner Reynolds also moved that changes be made in Accounting classifications effective September 1, as follows:

Malcolm H. Hawke — Auditor — $700.00 per month

Present Classification	Proposed Classification	Proposed Scale
Accounting Clerk	Junior Accountant	272 - 336
Accountant I	Accountant I	309 - 379
Accountant II	Accountant II	350 - 426
Accounts Executive I	Accounts Executive I	410 - 495
Accounts Executive II	Accounts Executive II	477 - 570
Accounts Executive III	Accounts Executive III	551 - 651

Commissioner McIver seconded the motion and it was declared passed unanimously.

The Honorable C. L. Allen, Deschutes County Judge was present and paid his compliments to the Commission.

At 3:30 p.m. Commissioner Reynolds publicly announced awards of contracts, bids for which were received by the Commission at the morning session as follows, the Commission's action in each instance being by unanimous vote:

"Construction of a dormitory building at Timberline Junction on the Mt. Hood Highway in Clackamas County. McKel, Inc., Portland, submitted the low bid at $59,772. Six higher bids were received. The contract has been awarded to the low bidder, McKel, Inc., at their bid price.

"Construction of the Jaymar Overcrossing on the Columbia River Highway at Hood River in Hood River County. Orlando C. Bennard, Portland, submitted the low bid for this job at $20,654. Seven higher bids were submitted. The bid of Orlando C. Bennard is accepted subject to completion of acquisition of all rights of way within 60 days, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as the right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Wygant Park-Hood River Section of the Columbia River Highway in Hood River County. The low bid for this project, using concrete or metal guard fence posts, was submitted by Guy F. Atkinson Company at $1,821,465.65. Seven higher bids were received. The bid of Guy F. Atkinson Company is accepted subject to completion of acquisition of all rights of way within 60 days, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County. R. A. Heintz Construction Company, Portland, submitted the low bid for this job at $689,648.50. Four higher bids were submitted. The bid of R. A. Heintz Construction Company is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County. Heavy Hauling Company, Astoria, submitted the low bid for this job at $238,645. Only one higher bid was received. The bid of Heavy Hauling Company is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of six bridges on the Bay City-Tillamook Section of the Oregon Coast Highway in Tillamook County. Tom Lillebo, Reedsport, submitted the low bid for this work at $184,232. Five higher bids were submitted. The low bid of Tom Lillebo is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of Johnson Bridge over the Trask River on Tillamook County Market Road No. 13. Tom Lillebo Reedsport, submitted the low bid for this work at $79,045. There were four higher bids received. The contract has been awarded to the low bidder, Tom Lillebo, at his bid price.

"Construction of the Dougherty Slough Bridge on Tillamook County Road No. 12. Tom Lillebo, Reedsport, submitted the low bid for this job at $47,594. Four higher bids were received. The contract has been awarded to the low bidder at his bid price."

Agreements and other papers as follows were signed by the Commission:

Agreement covering maintenance of Fern Ridge Dam Recreational Area.

Renewal of Lease Agreement covering maintenance station at Newberg.

Amended Agreement with the City of Salem covering highway improvements in Salem.

Agreement with Homer C. Beach and wife disposing of claim to their property on Corvallis (east side) Secondary Highway.

Agreement with California-Oregon Power Co. covering movement of power poles along Barkley Springs-Algoma Section of The Dalles California Highway.

Permit to Bonneville Power Administration for construction of access road on State Highway property in Deschutes County.

Extension Rider to existing lease from OWR&N Co. and Union Pacific Company for authority to install underground wiring on railroad property in Burns, Oregon.

Agreement with Jackson County covering abandonment of a portion of old right of way on North Unit, Antelope Creek-Medford Section of the Crater Lake Highway.

Agreement with St. Helens Pulp and Paper Company to cross Short Sand Beach State Park with logging road.

Agreement between State, City of Reedsport, and Union High School District No. 13 in connection with Reedsport-Winchester Bay project on Oregon Coast Highway.

Bargain and Sale Deed conveying four parcels on Front Street, in Coos Bay, to the Southern Pacific Company in accordance with Agreement authorized by the Commission on August 3, 1951.

1975

Agreement with Geo. H. Besendorfer & Martha Besendorfer covering Lease for Road Materials on property situated in Malheur County Oregon.

"Indenture of Access" to Hammond Lumber Company covering the change of access point on the North Santiam Highway at Detroit.

Agreement with Union Pacific & O.W.R. & N. covering encroachments at Mitchell Point on the Columbia River Highway.

Lease for Land to Ben F. Burgess & Fred Hadlock for parts of Lots 10 and 11, Block 34, Coos Bay Platt B. Consideration $50.00 annually.

Agreement with Tillamook County covering the relocation of a section of the Oregon Coast Highway in Tillamook County.

Bargain & Sale Deed to Gardiner Lumber Company for land in the Town of Gardiner, Douglas County.

Bargain & Sale Deed to Roy L. Comrie for a parcel of land in the City of Pendleton, Umatilla County.

Bargain & Sale Deed to Benton County for tracts of land acquired in 1948 by State of Oregon for the right of way of the relocated Albany-Buena Vista County Road in Benton County.

Bargain & Sale Deed to Russell O. Reed and Mary E. Reed for a parcel of land in Clackamas County.

Bargain & Sale Deed to Union County for a parcel of land extending from the relocated Oregon Trail Highway to Ladd Canyon Market Road in Union County. The parcel of land to which this description applies contains 1.26 acres.

Quitclaim Deed to J. G. Houghton for a parcel of land lying in the East half (E½) of Section 4, Township 17 South, Range 12 West, W.M. Lane County, Oregon.

Release of California-Oregon Power Company with respect to the elevation of Klamath Lake on the Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway.

There being no further business to come before the Commission, the meeting adjourned at 3:45 p. m.

Chairman

State Highway Engineer

Commissioner

Commissioner

ATTEST:

Secretary

October 12, 1951

EXHIBITS "A" through "U"

Minutes of

October 11 and 12, 1951

EXHIBIT "A"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #3 - T. H. BANFIELD EXPRESSWAY

14742 - Pacific Power & Light Co. (Johnson)
Right of Way

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the STATE OF OREGON, by and through its State Highway Commission, is the owner of a parcel of land described as follows, to-wit:

A parcel of land lying in Lots 5 and 8 of Block 7 in Couch's Addition to the City of Portland, Multnomah County, Oregon. The said parcel being described as follows:

Beginning at a point on the South line of said Lot 5, said point being 31.82 feet Westerly from the Southeast corner of said Lot 5; thence South 88° 32' West along the South line of Lot 5 a distance of 68.18 feet to the Southwest corner of said Lot; thence North 1° 28' West along the Westerly line of Lots 5 and 8 a distance of 100 feet to the Northwest corner of Lot 8; thence North 88° 32' East along the Northerly line of Lot 8 a distance of 28.65 feet; thence South 23° 02' East a distance of 107.53 feet to the point of beginning, containing 4841 square feet. The foregoing being all that portion of Lots 5 and 8 lying westerly of a line which is parallel to and 25 feet Westerly from the centerline of Harbor Drive-Front Avenue Connection.

WHEREAS, after consideration, this Commission hereby finds and declares that the said property is no longer needed, required, or useful for highway purposes, and

WHEREAS, the said property has been appraised by competent and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of $3,150.00, and the Commission is desirous of selling and disposing of said property, at a price not less than the said appraised amount, upon the basis of complete restriction of access to the abutting Pacific Highway West.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission be, and he hereby is, authorized and instructed, to advertise the said property for sale in accordance with the terms and provisions of Chapter 437, Oregon Laws 1949, as amended by Chapter 154, Oregon Laws 1951. Sealed bids for the sale of the said property shall be received by the said Secretary in the offices of the Commission in Salem, Oregon, at 2:00 o'clock P. M. on November 30, 1951, and shall be opened in the presence of the Commission's Chief Counsel or his authorized representative. The results and tabulations of the bids received shall be reported to the Commission at its next succeeding regular or special meeting.

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

Contract No. 3251 with A. H. Saxton & Sons for grading and bituminous macadam surfacing on the Squally Hook-Quinton Section of the Columbia River Highway in Gilliam County, completed June 29, 1951.

Contract No. 3299 with Bemis & Company for constructing a maintenance building at Jewell in Clatsop County, completed March 8, 1951.

Contract No. 3311 with Bemis & Company for constructing a maintenance building at Fossil in Wheeler County, completed April 30, 1951.

Contract No. 3318 with Parker-Schram Company for grading, oil mat surfacing and pavement widening on the Sauvie Island Bridge Section of the Columbia River Highway and Gillihan County Road in Multnomah County, completed August 9, 1951.

Contract No. 3325 with F. L. Somers for grading and oil mat surfacing on the West Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County, completed June 13, 1951.

Contract No. 3383 with F. L. Somers for grading and paving on the Redmond (5th Street) Section of The Dalles-California Highway in Deschutes County, completed July 12, 1951.

Contract No. 3388 with Bechtel Brothers for alterations of shop building at La Grande in Union County, completed August 30, 1951.

Contract No. 3392 with Acme Construction Co. (assigned to Porter W. Yett) for paving on the Empire (Broadway St. -Commercial St.) Section of the Cape Arago Highway in Coos County, completed August 8, 1951.

Contract No. 3394 with Bemis & Company for constructing addition to maintenance building at Prineville in Crook County, completed September 26, 1951.

(cont.)

EXHIBIT "C" (cont.)

Contract No. 3407 with J. C. Compton Co., for paving on the Oakland (Locust St.) City Street Section in Douglas County, completed July 24, 1951.

Contract No. 3418 with K. F. Jacobsen & Co., Inc. for grading and paving on the Garden Valley Road-Roseburg Section of the Pacific Highway in Douglas County, completed September 20, 1951.

Contract No. 3440 with A. H. Saxton & Sons for furnishing crushed materials in stockpiles on the Elsie-Sunset Tunnel Section of the Sunset Highway in Clatsop, Washington, Tillamook and Columbia Counties, completed August 14, 1951.

Contract No. 3476 with Jack R. Robinson for grading and oil mat surfacing on the Bly Section of the Klamath Falls-Lakeview Highway in Klamath County, completed September 10, 1951.

Contract No. 3484 with Warren Northwest Inc. for grading and paving of the Parkrose (99th Ave.-122nd Ave.) Section of the Columbia River Highway in Multnomah County, completed October 1, 1951.

Contract No. 3496 with C. E. Blakeley for constructing maintenance employees' houses at Prospect in Jackson County, completed September 28, 1951.

Contract No. 3498 with Warren Northwest, Inc. for grading and paving on the Water St.-Commercial St. Unit, Salem (Marion St. Bridge) Section of the Salem-Dallas Highway in Marion County, completed September 15, 1951.

Contract No. 3508 with Warren Northwest Inc. for grading and paving on the Salem (Lana Ave.-Academy St.) Section of the Pacific Highway in Marion County, completed August 31, 1951.

Contract No. 3515 with Central Heating Co. for paving on the Oakridge (Hills St.-Beech St.) City Street Section in Lane County, completed September 17, 1951.

Contract No. 3536 with Babler Bros., Inc. for oil mat surfacing on the Madras (3rd & "C" St.) City Street Section in Jefferson County, completed August 17, 1951.

Contract No. 3546 with Western Paving & Construction Co. for paving on the Halsey (1st Street) City Street Section in Linn County, completed September 25, 1951.

Contract No. 3547 with Warren Northwest Inc. for paving on the Brownsville (Main St.) City Street Section in Linn County, completed September 6, 1951.

EXHIBIT "C" (cont.)

Contract No. 3550 with Western Paving & Construction Co. for paving on the Turner ("C", 2nd & "D" Sts.) City Street Section in Marion County, completed September 10, 1951.

Contract No. 3553 with Russel Olson Construction Co., Inc. for grading and bituminous macadam surfacing of the Umatilla ("G" & "I" Sts.) City Street Section in Umatilla County, completed September 30, 1951.

Contract No. 3556 with H. J. and H. W. Miller for paving on the Wallowa City Street Section in Wallowa County, completed September 15, 1951.

Contract No. 3559 with Russell Olson Construction Co., Inc. for grading and bituminous macadam surfacing on the Stanfield (Coe Ave.) City Street Section in Umatilla County, completed September 30, 1951.

Contract No. 3581 with Warren Northwest Inc. for paving on the Sweet Home ("K" & "L" Sts.) City Street Section in Linn County, completed September 10, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "D-1"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six-month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Arlington	$2,091.89
Fossil	1,956.74
Gates	1,296.30
Huntington	2,242.41
Powers	2,749.26

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows.

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the eleventh day of October, 1951.

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six-month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Barlow	$ 191.54
Boardman	303.91
Canyonville	2,012.48
Culver	768.72
Dundee	786.60
Elkton	510.78
Grass Valley	498.01
Hammond	1,317.81
Huntington	1,864.35
Imbler	380.53
Monument	582.29
Nehalem	687.00
Pilot Rock	2,147.03
Waterloo	459.70
Yamhill	1,374.00

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above-named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the eleventh day of October, 1951.

EXHIBIT "E"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Kimberly-Long Creek Secondary Highway No. 402 known as the West Unit, Hamilton-Long Creek Section in Grant County, the westerly terminus of which is at highway engineer's station 1143+60 of the reconstructed line and the easterly terminus of which is at highway engineer's station 1431+50 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway as formerly located has been eliminated from the boundaries of the new location, which eliminated section or area is no longer needed for highway purposes; and

WHEREAS, the contract for the construction of this relocated section of the Kimberly-Long Creek Secondary Highway was completed on June 28th, 1951, and traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the area and section of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Kimberly-Long Creek Secondary Highway known as the West Unit, Hamilton Hill-Long Creek Section, which begins at highway engineer's station 1143+60 on the new route and ends at highway engineer's station 1431+50 of the new route, has been completed and made available for travel, and that no persons live on, nor is any community served by, the section of the old route herein defined and described as Unit "A", and that Unit "A" shall no longer be part of the route of the Kimberly-Long Creek Secondary Highway but shall be eliminated therefrom.

2. That the section of the old route of the Kimberly-Long Creek Secondary Highway lying outside the established right of way of the relocated highway which for the purpose of this agreement is identified as Unit "A" and is more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 1402+50 of the relocated Kimberly-Long Creek Secondary Highway in the Southwest

(cont.)

EXHIBIT "E" (cont.)

quarter of the Southeast quarter of Section 32, Township 9 South, Range 29 East, W. M.; thence Easterly along the former route of the Kimberly-Long Creek Secondary Highway to State Highway Engineer's Station 1412+50 of the relocated Kimberly-Long Creek Secondary Highway in the Northwest quarter of the Northeast quarter of Section 5, Township 10 South, Range 29 East, W. M.

and is otherwise shown and identified colored in brown on a white print marked "Exhibit A", and which is by this reference incorporated herein, is hereby abandoned as any part of the right of way of the said state highway, and the Commission hereby surrenders all jurisdiction thereover and hereby consents that jurisdiction over said section may be assumed and exercised by the County Court of Grant County to be used for county purposes or vacated as the County Court of Grant County may determine. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission hereby does declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission as of the eleventh day of October, 1951, and the Secretary hereby is directed to mail to the County Court of Grant County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned section of the said old right of way shown colored in brown on the map attached hereto and marked "Exhibit A", and shall assume jurisdiction thereover, or permit it to revert to the owners of the abutting property, as the County Court may determine. *

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 243, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, on July 16, 1951, the State Highway Commission adopted a resolution authorizing the issuance of permits pursuant to the provisions of Section 13, Chapter 405, Oregon Laws 1951, for the movement of any vehicle or combination of vehicles, article, property or thing having any gross weight or dimension, or of a description not otherwise permitted to move over state highways; and

WHEREAS, based upon investigations and studies made by the State Highway Engineer and his recommendations to the Commission, it is the opinion of the Commission that Paragraph 4 of said resolution of July 16, 1951, should be amended in certain particulars; and

WHEREAS, the Commission believes that the best public interest will be served by amending said Paragraph 4 of said resolution of July 16, 1951, in the manner hereinafter set forth.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, two members being present and voting affirmatively, acting pursuant to the authority of Section 13, Chapter 405, Oregon Laws 1951, as follows:

1. That Paragraph 4 of the said resolution adopted by the State Highway Commission on July 16, 1951, is hereby amended to read as follows:

That when either the State Highway Engineer, First Assistant State Highway Engineer, Second Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor, or the personnel hereinafter designated in Para-

(cont.)

EXHIBIT "F" (cont.)

graphs 10 and 11, find that the proposed movement is to be made over a highway classified as either a group 1 or group 2 highway as set forth in resolution of the Commission, dated July 16, 1951, pertaining to issuance of permits pursuant to the provisions of Section 12, Chapter 405, Oregon Laws 1951, and all recommendations and supplements thereto that have been or may thereafter be adopted, they are authorized to issue a permit for such movement; subject to the limitations hereinafter stated, having gross weights not in excess of the following, to-wit:

Maximum gross weight of any vehicle or combination of vehicles, 84,000 pounds.

Maximum gross weight of any axle, 19,000 pounds.

Maximum gross weight of any tandem axle, 38,000 pounds.

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula $W = 1100 \times (L+40)$.

Maximum gross weight in pounds of any group of axles spaced 18 feet or less apart is determined by the formula $W = 1000 \times (L+40)$.

In addition, permits may be issued for the movement of equipment designed for the moving of earth and rock construction materials and having a maximum gross weight of any single axle not in excess of 26,000 pounds, when such single axle is equipped with (not less than 48 inches of) low-pressure tires having a total tire width of not less than 48 inches and operated at a pressure of not more than 25 pounds per square inch.

EXHIBIT "F" (cont.)

2. That this resolution be entered in the minutes and records of the Commission as of the 11th day of October, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police, the Public Utilities Commissioner, and the Secretary of State.

1886

EXHIBIT "G"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Tualatin Valley Highway is one of the major highways of the State and is under the jurisdiction and control of the State Highway Commission, being identified in the Commission's records as State Highway No. 29; and

WHEREAS, it appears that on said highway at the intersection of Canyon Lane and Canyon Road there is located on property adjacent to the said highway an apartment house, and, that vehicles parking in front of said apartment house do so at right angles to the highway pavement, thereby forcing pedestrians and school children to walk on the edge of the first lane of traffic; and

WHEREAS, because said highway throughout its entire length carries a large volume of traffic, and the parking of vehicles at right angles to the curb in front of said apartment house forces pedestrians to walk in the traveled roadway, it is the opinion of the Highway Commission that a hazard is created, not only to through traffic but to school children and other people desiring to pass said apartment; and

WHEREAS, in the opinion of this Commission, public convenience and public safety require that the parking of vehicles at right angles to the highway pavement should be prohibited and parallel parking substituted therefor.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation reports and recommendations made by and under the supervision of the State Highway Engineer, that the parking of vehicles at right angles to the highway pavement along the Tualatin Highway on Canyon Road at Canyon Lane between State Highway Engineer's Station 14+98.2 and State Highway Engineer's Station 16+98.2 creates a hazard not only to through traffic but to school children and other pedestrians desiring to pass said apartment.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles at right angles to the highway pavement and at the same time provide the degree of safety and convenience which in the opinion of this Commission should be provided the traveling public.

(cont.)

EXHIBIT "G" (cont.)

3. That this Commission does further find and declare that the parking of vehicles at right angles to the curb and highway between Engineering Stations 14+98.2 and 16+98.2 should be and hereby is prohibited, and parallel parking substituted therefor.

4. That the State Highway Engineer be and he hereby is instructed to erect "PARALLEL PARKING ONLY" signs at said termini and at such points between said termini as in the judgment of said Engineer are necessary to accomplish the purposes of this resolution and the action of the Highway Commission as herein declared.

5. That a certified copy of this resolution be sent to the owner of the apartment house and that like copies be mailed to the Superintendent of the Department of State Police and to the Sheriff of Washington County for their information and guidance.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the eleventh day of October, 1951.

EXHIBIT "H"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway. SALMON RIVER HIGHWAY

Highway number: 39 Route number: ORE 18

Location of Termini			Established Speed
M. P. 21.39 (0.09 mile west of the W. & C. R. RR spur crossing at Valley Junction)	to	M. P. 21.89 (0.05 mile east of South Yamhill River)	35 miles per hour

SALMON RIVER HIGHWAY (cont.)

Location of Termini			Established Speed
M.P. 19.57 (0.14 mile west of logging RR spur crossing near Grande Ronde)	to	M.P. 20.07 (0.14 mile east of road to Grande Ronde Agcy.)	35 miles per hour

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that the resolution enacted by the Commission November 24, 1947, establishing a 40-mile per hour speed zone between M.P. 18.27 and M.P. 27.94 hereby is rescinded.

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the State Highway Commission as of October 11, 1951.

EXHIBIT "I-1"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: North Santiam State Secondary Highway

Highway number: 162 Route number: ORE 222

Location of Termini			Established Speed
M. P. 36.46 (0.65 mi. west of Big Cliff Dam Site)	to	M. P. 36.86 (0.25 mile west of Big Cliff Dam Site)	25 miles per hour

(cont.)

EXHIBIT "I-1" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the State Highway Commission as of October 11, 1951.

EXHIBIT "I-2"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the North Santiam Secondary Highway, otherwise known and designated as State Secondary Highway No. 162, is a State Highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, on property abutting on said highway a dam is being constructed by the U. S. Government known as Big Cliff Dam; and

WHEREAS, the width of said highway and shoulders at said location is not sufficient to allow the parking of cars on the highway and at the same time permit the safe and free movement of traffic; and

WHEREAS, the parking of vehicles on the highway and the shoulders thereof will create a hazard not only to through traffic, but also to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission public welfare and public safety require that the use of the said highway and the shoulders thereof for parking purposes be prohibited within the area hereinafter set forth; and

WHEREAS, on August 20, 1951, there was established on the North Santiam Highway between M.P. 36.86 and M.P. 37.36 a "NO PARKING ON HIGHWAY SHOULDERS" regulation; and

WHEREAS, subsequent to the above action, field conditions in connection with the construction of Big Cliff Dam have so changed that it now is necessary to extend the above-regulated section.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and the recommendations of members of its staff, that the zone prohibiting the parking of motor vehicles on either side of the North Santiam Secondary Highway be extended to include the section between M.P. 36.46 and M.P. 36.86, a distance of 0.40 mile in Marion County, Oregon.

2. That in the opinion of this Commission the shoulders of said highway at said location are not of sufficient width to permit the parking of vehicles thereon and at the same time to provide the degree of safety and convenience which in the opinion of this Commission should be provided the motoring public.

EXHIBIT "I-2" (cont.)

3. That this Commission does further find and declare that the parking of vehicles on the shoulders on either side of said highway between said M.P. 36.46 and said M.P. 36.86 should be and hereby is prohibited.

4. That the State Highway Engineer hereby is instructed to erect signs at said points and at such places between said points, as in the judgment of said Engineer, are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs shall be printed in plain, legible type the words "NO PARKING" or "NO PARKING ON HIGHWAY SHOULDERS";

5. That the prohibition against parking herein declared and set forth, shall become effective at such time as construction on the Big Cliff Dam warrants such action to the end that the traveling public shall be properly safeguarded;

6. That the Secretary be, and he hereby is, instructed to send a certified copy of this resolution to the U.S. Army Engineers and a like copy to the Superintendent of State Police;

7. That this resolution be entered in the minutes and records of the State Highway Commission as of the eleventh day of October, 1951.

EXHIBIT "J"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

EXHIBIT "K"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: Pacific Highway West

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the State Highway Commission as of the eleventh day of October, 1951.

EXHIBIT "M"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Ochoco Highway, State Highway No. 41, known as the Marks Creek-Jones Ranch Section in Crook County, the westerly terminus of which is at highway engineer's station 589+40 of the reconstructed line and the easterly terminus of which is at highway engineer's station 262+33.3 of the reconstructed line; and

WHEREAS, by reason of the relocation of said section of said highway a portion or unit of the right of way of the highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated section or area is no longer needed for highway purposes; and

WHEREAS, Crook County and the Highway Commission have entered into an agreement under date of October 29, 1946, relating to the use and jurisdiction of the abandoned section; and

WHEREAS, the contract for the construction of this relocated section of the Ochoco Highway has been completed and highway traffic is now routed over said relocated section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the area and section of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, and which for the purpose of this resolution is identified as Unit "A" and is shown colored in red on the map attached hereto and marked "Exhibit A", and is more particularly described as follows

Unit "A"

Beginning at Engineer's Station 593+40 of the new route equals Station 882+60 of the old route of the Ochoco Highway, State Highway No. 41, which is in the southwest quarter of Section 22, Township 14 South, Range 18 East, W.M., thence northeasterly to the intersection of said old

(cont.)

EXHIBIT "M" (cont.)

highway with the north boundary of Crook County at Engineer's Station 1044+00 on the line between Sections 17 and 20, Township 13 South, Range 20 East, W. M.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Crook County, and said road shall thereafter be maintained by the County for public use. *

2. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

3. The boundaries of all real properties acquired for right of way, and the boundaries of all real properties title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

4. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Crook County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned section of the said old right of way shown in red on the map attached hereto and marked "Exhibit A". *

*FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 148, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "N"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Ochoco Highway, State Highway No. 41, known as the Marks Creek-Jones Ranch Section in Wheeler County, the westerly terminus of which is at Highway Engineer's Station 589+40 of the relocated line and the easterly terminus of which is at Highway Engineer's Station 262+33.3 of the relocated line; and

WHEREAS, by reason of the relocation of said section of said highway portions or units of the right of way of the highway as formerly located have been eliminated from the boundaries of the new location, which eliminated sections or units will no longer be needed for highway purposes; and

WHEREAS, Wheeler County and the Highway Commission have entered into an agreement under date of March 6, 1948, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of the Ochoco Highway has been completed and the highway traffic is now routed over said relocated section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the several sections or units of the right of way of said highway which are affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, and which for the purpose of this resolution is identified as Unit "B" and is shown colored in red on the map attached hereto and marked "Exhibit A" and is more particularly described as follows:

Unit "B"

Beginning at State Highway Engineer's Station 17+70 of the old route on the line between Sections 21 and 28, Township 12 South, Range 20 East, W.M., and running thence

(cont.)

EXHIBIT "N" (cont.)

northeasterly to State Highway Engineer's Station 209+80 of the new route equals State Highway Engineer's Station 215+00 of the old route in the northeast quarter of Section 3, Township 12 South, Range 20 East, W. M.

shall hereafter be maintained by the County as a county road for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said road may be assumed and exercised by the County Court of Wheeler County, and said road shall thereafter be maintained by the County for public use. *

2. That the portion of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, and which for the purpose of this resolution is identified as Unit "A" and is shown colored in brown on the map attached hereto and marked "Exhibit A" and is more particularly described as follows:

Unit "A"

Beginning at the intersection of the present Ochoco Highway, State Highway No. 41, and the south line of Wheeler County at State Highway Engineer's Station 1044+00 ± 0+00 of the old highway, which is on the line between Sections 17 and 20, Township 13 South, Range 20 East, W. M., thence northeasterly to State Highway Engineer's Station 17+70 of the old route on the line between Sections 21 and 28, Township 12 South, Range 20 East, W. M.

shall be and hereby is abandoned as a part of said highway and shall hereafter be maintained as a county road by the County, or, in the discretion of the County and in the manner provided by law, may be vacated as a public highway. *

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

EXHIBIT "N" (cont.)

4. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

5. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Wheeler County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned sections of said old right of way shown colored in red and brown on the map attached hereto and marked "Exhibit A". *

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 182, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, under the provisions of Section 100-115, O. C. L. A., and in particular, Subsection 36 of said Section, the State Highway Commission, by mutual agreement with the respective county courts of the several counties of the State, is authorized and empowered to select, locate, and designate a system of state highways, which highways shall be selected from the market roads or other county roads, or available locations or routes of the several counties; and

WHEREAS, the State Highway Commission, by mutual agreement with the Klamath County Court of the State of Oregon, made and entered into January 26, 1950, has selected the road or highway hereinafter named, and it is the purpose of the Commission to officially and regularly designate and adopt said highway as a highway to constitute, together with other highways heretofore adopted and/or which may hereafter from time to time be added, the system of secondary state highways under the provisions of said acts;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and affirmatively voting and participating, as follows.

1. That the following described highway or road in Klamath County be, and the same hereby is, selected, designated, established, adopted and approved as a secondary state highway and shall be, and hereby is, designated as a part of the secondary state highway system, to-wit:

Crescent Lake State Secondary Highway No. 429

Total length - 2.40
Right of Way width - 80 feet - 40 feet each side of center line.

Center Line Description:

Beginning at a point on the center line of the Willamette Highway, which point of beginning is South 0° 15' East 382.3 feet and South 73° 45' West, 223.1 feet from the township corner of Sections 36, 31 and 1, 6, Township 23 South and Township 24 South, Range 6 East and Range 7 East, W.M.; thence South 73° 45' West, 1865.2 feet; thence along the arc of a 520.87 foot radius curve

(cont.)

EXHIBIT "O" (cont.)

to the left (whose long chord bears South 50° 22-1/2' West) a distance of 425.00 feet; thence South 27° 00' West, 2389.7 feet; thence along the arc of a 572.96 foot radius curve to the right (whose long chord bears South 38° 00' West) a distance of 220.00 feet; thence South 49° 00' West, 700.9 feet; thence along the arc of a 954.93 foot radius curve to the right (whose long chord bears South 55° 06' West) a distance of 203.33 feet; thence South 61° 12' West, 4200.4 feet; thence along the arc of a 260.43 foot radius curve to the left, a distance of 134 feet (whose chord bears South 46° 27-1/2' West) to a point on the curve, which point is also of the center line of the Southern Pacific Railroad main line track; thence continuing along the arc of the 260.43 foot radius curve the right arc of a 2864.79 foot radius curve to the right (whose long chord bears South 43° 54' East a distance of 236.67 feet; thence South 41° 32' East, 741.0 feet, which is a point on the southeasterly edge of the Crescent Lake Townsite.

2. Attached hereto and by this reference made a part hereof is a map upon which the above described highway or road is colored in red. *

3. That the said highway shall be and hereby is qualified for improvement under the provisions of said Section 100-115, Subsection 36, O. C. L. A.

4. That this resolution be entered in the minutes of the meeting of the Highway Commission of October 11, 1951, and that the Secretary be, and he hereby is, instructed to deliver to the County Court of Klamath County and to the County Clerk of Klamath County duly certified copies thereof.

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 19, under the heading "Secondary Highway Designations" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "P"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Dalles-California Highway known as the Barclay Springs-Algoma Section in Klamath County, the northerly terminus of which is at Highway Engineer's Station 565+30 of the relocated line, and the southerly terminus of which is at Highway Engineer's Station 370+55 of the relocated line, and

WHEREAS, by reason of the relocation of said section of said highway, portions or units of the right of way of the highway as formerly located have been eliminated from the boundary of the new location, which eliminated sections or units will no longer be needed for highway purposes; and

WHEREAS, Klamath County and the Highway Commission have entered into an agreement under date of January 26th, 1950, relating to the use and jurisdiction of the abandoned sections; and

WHEREAS, the contract for the construction of this relocated section of The Dalles-California Highway was completed on August 11th, 1951, and the highway traffic is now routed over said section; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition to be made of the several sections or units of the right of way of said highway which are affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the portions of the old right of way, which by reason of the relocation of said highway are no longer within the boundaries of the new right of way, which for the purpose of this resolution are identified as Units "A" and "B" and are shown colored in red on map attached hereto and marked "Exhibit A", and more particularly described as follows:

Unit "A"

Beginning opposite State Highway Engineer's Station 552+25 of the relocated The Dalles-California Highway in Lot 11 of Section 6, Township 37 South, Range 9 East,

(cont.)

EXHIBIT "P" (cont.)

W.M.; thence Southerly via the former route of The Dalles-California Highway to State Highway Engineer's Station 496+22.1 of The Dalles-California Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 13, Township 37 South, Range 8 East, W.M.

Unit "B"

Beginning at State Highway Engineer's Station 496+22.1 = 41+47.9 of The Dalles-California Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 13, Township 37 South, Range 8 East, W.M.; thence via a route established as a connection from the old route of The Dalles-California Highway to State Highway Engineer's Station 0+60 of the connecting road opposite State Highway Engineer's Station 409+62.7 of the relocated line of said highway in the Southeast quarter ($SE\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 13, Township 37 South, Range 8 East, W.M.

shall hereafter be maintained by the County as county roads for the benefit and service of persons living thereon and communities served thereby, and the Commission hereby surrenders all jurisdiction thereover, and hereby consents that jurisdiction over said roads may be assumed and exercised by the County Court of Klamath County, and said roads shall thereafter be maintained by the County for Public use. *

2. That the portion of the old right of way, which by reason of the relocation of said highway is no longer within the boundaries of the new right of way, which for the purpose of this resolution is identified as Unit "C" and is shown colored in brown on said "Exhibit A", and is more particularly described as follows:

Unit "C"

Beginning at State Highway Engineer's Station 496+22.1 of The Dalles-California Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 13, Township 37 North, Range 8 East, W.M.; thence Southerly via the former route of The Dalles-California Highway to a point opposite State Highway Engineer's Station 401+40 of the relocated highway on the line between Sections 24 and 37, Township 37 South, Range 8 East, W.M.

shall be and hereby is abandoned as a part of said highway, and hereafter all right, title and interest which the State has in said right of way shall vest in the County for such public use as the County may determine. *

(cont.)

EXHIBIT "P" (cont.)

3. The area shown colored in green on said "Exhibit A" includes right of way acquired for the location and construction of the said highway and includes some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with all the said area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way, and likewise for highway construction, improvement, maintenance and other highway purposes and uses. For such uses and purposes, therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said "Exhibit A" shall be retained and held by the State, and shall not be permitted to revert to or become the property of abutting owners. *

4. In consideration of and in connection with the abandonment of the above sections of highway, the State at the request of and with the approval of the County agreed to establish and maintain a secondary state highway over a county road extending from the Willamette Highway to the community of Crescent Lake. This secondary state highway has been established through the medium of a separate resolution of the State Highway Commission.

5. The boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with proper monuments, and such boundary monuments shall thereafter be maintained in place.

6. This resolution shall be entered in the minutes and records of the Commission, and the Secretary hereby is directed to mail to the County Court of Klamath County a duly certified copy thereof, and said County Court hereby is respectfully requested to take appropriate official action, by resolution or otherwise, by which the County shall accept the said abandoned sections of said old right of way shown colored in red on the map attached hereto and marked "Exhibit A". *

FOOTNOTE * The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 214, under the heading "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "Q"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, the State Highway Commission is authorized and empowered to designate the location of telegraph, telephone and electric power lines and wires and the fixtures incident to the operation and maintenance of said lines and wires upon and along state highways; and

WHEREAS, by virtue of the laws of the State of Oregon, the State Highway Commission is authorized and empowered to order change of location of any such fixtures whenever a change in location is deemed expedient by the State Highway Commission; and

WHEREAS, the State Highway Commission receives many requests to designate locations upon state highways for the installation of poles, pipes, conduits and other fixtures utilized for telephone, telegraph and electric lines and wires; and

WHEREAS, it is necessary, upon the receipt of such a request, for the State Highway Commission to cause to be made investigations, engineering studies and activities, in order that the public interest be served and preserved; and

WHEREAS, the State of Oregon is necessarily put to, and does incur, costs and expenses for such investigations, engineering studies and other activities needed and made necessary to determine the location of the aforesaid fixtures best suited for the public interest; and

WHEREAS, it is the opinion of the State Highway Commission that the State of Oregon be reimbursed for the costs of such investigations, engineering studies and administrative and other expenses as may be incurred in determining and designating the location of the said fixtures.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and affirmatively voting, as follows:

1. That the State of Oregon be reimbursed by payment as hereinafter provided, into the State Highway Fund, by applicant for such designation, for the costs and expenditures occasioned by the investigations, engineering studies and administrative and other expenses made necessary by the determination of the expedient location of telegraph, telephone and electric power lines and wires and the fixtures incidental to the operation of said lines and wires.

EXHIBIT "Q" (cont.)

2. That the said payments into the said Highway Fund shall be in the amount of Ten Dollars ($10.00) per installation, provided, however, that should the desired installation require a cutting of the surface of the traveled portion of a state highway the payments shall be made in accordance with the following schedules, which shall be applicable as indicated.

SCHEDULE NO. 1

(Applicable to P.C. concrete, A.C. concrete, bituminous macadam and oiled surfacings.)

Length of Cut	Flat Charge (Any Width 2' or less)	Additional Charge (For each foot, or fractional ft., of width in excess of 2'
Less than 25'	$30.00	$ 6.00
Between 25' and 35'	38.50	10.00
Between 35' and 45'	45.00	13.00
Between 45' and 55'	55.00	16.00

(Charges for greater lengths to be in proportion)

SCHEDULE NO. 2

(Applicable to unoiled rock and gravel surfacings)

Length of Cut	Flat Charge (Any Width 2' or less)	Additional Charge (For each foot, or fractional ft., of width in excess of 2')
Less than 25'	$17.50	$2.50
Between 25' and 35'	21.50	5.00
Between 35' and 45'	26.00	6.00
Between 45' and 55'	30.00	8.00

3. That this resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 12th day of October, 1951.

EXHIBIT "R"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, Mr H. B. Glaisyer is the duly appointed, qualified and acting Secretary for the Oregon State Highway Commission; and

WHEREAS, Mr. Floyd A. Query is assistant to Mr. H. B. Glaisyer in his capacity as Secretary for the Commission; and

WHEREAS, Mr. H. B. Glaisyer will be absent from the State of Oregon from October 17, 1951, until November 2, 1951, and it is necessary that some other qualified person be appointed to act as Secretary for the Commission during the absence of Mr. Glaisyer; and

WHEREAS, Mr. Floyd A. Query is capable and qualified to perform the duties of Acting Secretary for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. That Floyd A. Query is hereby appointed, authorized and directed to perform all of the usual duties of the Secretary for the Commission, except the signing of vouchers pursuant to the authority given to Mr. H. B. Glaisyer by resolution of the Commission dated May 24, 1951.

2. That Mr. Floyd A. Query is authorized to sign for Mr. H. B. Glaisyer, as Secretary for the Commission, all contracts, documents, minutes and other papers or instruments of the Commission which require the signature of the Secretary, and Mr. Query is authorized to prepare on the request of any interested parties copies of any records, documents, contracts or other papers in the custody of the Secretary, and he may certify to the same.

3. Mr. Floyd A. Query shall keep in his custody the official seal of the Commission and may impress the same upon all contracts or other papers or documents on which said official seal may be appropriate or necessary.

4. Mr. Floyd A. Query shall, in addition to the duties and authorities herein enumerated, and not expressly excepted, is authorized to perform such other functions or duties as may naturally and normally come within the scope of the office of the Secretary for the Commission or as may be required by the Commission.

EXHIBIT "R" (cont.)

5. That the authority granted to Mr. Floyd A. Query pursuant to this resolution and the duties to be performed by him in compliance with this resolution shall be during the absence of Mr. H. B. Glaisyer from the State of Oregon during the period from October 17, 1951 to November 2, 1951, inclusive.

6. That this resolution be entered in full in the minutes and records of the Commission as of the 12th day of October, 1951.

EXHIBIT "S-1"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, and of the route and location of the Eagle Creek Section of the Clackamas Secondary Highway in Clackamas County, and in connection therewith to prepare maps showing the route and location of each of said sections of highway and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said surveys and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of each of said surveys, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Newport-Toledo Section of the Corvallis-Newport Highway between Engineer's Station 0+00 in Newport and Engineer's Station 293+00 near Toledo, together with the map, which for identification purposes bears the number 7B-10-8, dated October, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

2. That the survey of the Eagle Creek Section of the Clackamas Secondary Highway between Engineer's Station 994+00 north of Eagle Creek (stream) and Engineer's Station 1049+42.69 south of Eagle Creek (stream), together with the map, which for identification purposes bears the number 6B-34-19 and the date of October, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

3. That when said sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

EXHIBIT "S-1" (cont.)

4. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said surveys. The said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That this resolution be entered in the minutes and records of the Commission as of the 12th day of October, 1951.

19268

EXHIBIT "S-2"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Divide-Anlauff Section of the Pacific Highway in Lane and Douglas Counties and in connection therewith to prepare a map or maps showing the route and location of said section of highway and to file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission, and

WHEREAS, after due consideration of said survey or surveys, field notes, maps or other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting as follows:

1. That the survey of the Divide-Anlauff Section of the Pacific Highway between Engineer's Station 1048+80, south of the town of Divide, and Engineer's Station 297+00, at the town of Anlauff, together with the map which for identification purposes bears the numbers 7B-7-8 and 7B-8-3 and the date of October, 1951, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

(cont.)

EXHIBIT "S-2" (cont.)

4. That the survey of the Divide-Anlauff Section or Unit of said Pacific Highway has been made within the meaning and purpose of Chapter 4, Oregon Laws, 1947, commonly known as the "Throughway Law" and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission November 3, 1948; therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 12th day of October, 1951.

EXHIBIT "T-1"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, O. C. L. A., Section 100-113, directs and authorizes the Highway Commission, with the approval of the Attorney General, to appoint a Chief Counsel; and

WHEREAS, Clifton W. Enfield is an attorney in good standing before the Oregon State Bar, is admitted to practice before all of the courts of the State of Oregon and before the United States District Court For The District Of Oregon, and is qualified to discharge the duties of Chief Counsel for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That Clifton W. Enfield be and he hereby is appointed as Chief Counsel for the Highway Commission, to serve in such capacity for a term of four years.

2. That the salary to be paid to Clifton W. Enfield is hereby fixed by the Commission in the sum of $700.00 per month.

3. That, in addition to the salary which shall be paid to Clifton W. Enfield, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 12th day of October, 1951.

October 12, 1951

EXHIBIT "T-2"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, O. C. L. A., Section 100-113, directs and authorizes the State Highway Commission, with the approval of the Attorney General, to appoint an Assistant Counsel; and

WHEREAS, Fred A. Miller is an attorney in good standing before the Oregon State Bar and admitted to practice in all of the courts of the State of Oregon and before the United States District Court For The District of Oregon, and is qualified to discharge the duties of Assistant Counsel for the Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That Fred A. Miller be and he hereby is appointed as Assistant Counsel for the Highway Commission, to serve in such capacity for a term of four years.

2. That the salary to be paid to Fred A. Miller is hereby fixed by the Commission in the sum of $600.00 per month.

3. That Fred A. Miller shall serve under the direction of the Chief Counsel, and in the absence of the Chief Counsel shall have full authority to perform any duty required or permitted by law to be performed by the Chief Counsel.

4. That, in addition to the salary which shall be paid to Fred A. Miller, he shall be entitled to and shall be paid his actual traveling and other expenses as may be incurred in the performance of his official duties.

5. That this resolution shall be entered in the minutes and records of the Commission as of the 12th day of October, 1951.

1952

EXHIBIT "U-1"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Bay City-Tillamook Section of the said Oregon Coast Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "U-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Bay City-Tillamook Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17904
Owner: Margaret Lichtenthaler

A parcel of land lying in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 13, Township 1 South, Range 10 West, W.M., Tillamook County, Oregon, and being a portion of that property conveyed by that deed to Margaret Lichtenthaler, recorded in Book 130, Page 20, of Tillamook County Records of Deeds; the said parcel being a strip of land variable feet in width, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 119+39.42, said Station being 790 feet south and 560 feet west of the northeast corner of said Section 13; thence on a spiral curve left (the long chord of which bears North 26° 14' West) 400 feet to Station 123+39.42 back = 123+20.07 ahead; thence North 29° 34' West 679.93 feet to Station 130+00; said strip of land extending from the northerly line of that tract conveyed to Linn A. and Vesta M. Anderson by deed recorded in Book 128, Page 5, of Tillamook County Deed Records, to the westerly line of said Lichtenthaler property; said center line crossing the westerly line of said Lichtenthaler property approximately at Station 125+35.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Northeasterly side of center line	Width on Southwesterly side of center line
Northerly line of Anderson property	123+50	85	To existing highway right of way line
123+50	127+24	110	" " " " "
127+24	West and North lines of Lichtenthaler property	130	" " " " "

(cont.)

EXHIBIT "U-1" (cont.)

The parcel of land to which this description applies contains 0.98 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited; except that there shall be reserved unto the owner of said remaining real property a right of private access not to exceed 25 feet in width on the east side of the Oregon Coast Highway at State Highway Engineer's center line Station 122+30.

Private access, as herein referred to, is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the highway.

The State shall have the right, at its option, to build at any future time at its sole cost, a frontage road upon either or both sides of the Oregon Coast Highway upon right of way now owned or lands to be acquired by the State, and upon construction of either or both of such frontage roads, the right or rights of private access herein set forth to be reserved that is or are adjacent to either or both such frontage roads shall terminate and cease, and the owner of said remaining property shall thereupon have access to such frontage road or roads; said frontage road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

EXHIBIT "U-1" (cont.)

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the state, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

EXHIBIT "U-2"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Bay City-Tillamook Section of the said Oregon Coast Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

EXHIBIT "U-2" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Bay City-Tillamook Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17906
Owners: Jerry F. Arthur, et ux

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 12, Township 1 South, Range 10 West, W.M., Tillamook County, Oregon and being a portion of that property conveyed by that deed to Jerry F. Arthur and Ellen E. Arthur, husband and wife recorded in Book 129, Page 398, Instrument No. 19618, of Tillamook County Records of Deeds; the said parcel being that portion of said property included in a strip of land 100 feet in width, 50 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 130+00 said Station being 165 feet north and 1090 feet west of the southeast corner of said Section 12; thence North 29° 01' West, 500 feet to Station 135+00; the northeasterly line of said strip of land crosses the southerly and westerly lines of said property approximately opposite Stations 132+20 and 133+35, respectively.

The parcel of land to which this description applies contains 0.06 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway, when constructed upon the aforesaid-described real property to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited; except that there shall be reserved unto the owners of said remaining real property a right of access to a frontage or service road to be constructed upon the above described property and easterly of the main highway, said frontage or service road to be connected to a county road lying northerly of and adjacent to the remaining property and to a connection with the existing Oregon Coast Highway.

(cont.)

EXHIBIT "U-2" (cont.)

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

EXHIBIT "U-3"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Bay City Tillamook Section of the said Oregon Coast Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

EXHIBIT "U-3" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Bay City-Tillamook Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17912
Owner: William R. Coats, et al

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 12 and the Northwest quarter ($NW\frac{1}{4}$) of Section 12, Township 1 South, Range 10 West, W. M., Tillamook County, Oregon, and being a portion of that property conveyed by that deed to William R. Coats and E. S. Coats, recorded in Book 107, Page 535, of Tillamook County Records of Deeds; the said parcel being that portion of said property included in a strip of land of variable widths, lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 178+00, said Station being 1753 feet south and 922 feet east of the Northwest corner of said Section 12; thence North 53° 05' West 1800 feet to Station 196+00; said center line crossing the east and west lines of said property approximately at Stations 179+80 and 194+83, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on Northeasterly Side of Center Line	Width on Southwesterly Side of Center Line
178+00	192+00	60	50
192+00	193+00	Taper 60 to 110	Taper 50 to 110
193+00	196+00	110	110

The parcel of land to which this description applies contains 4.38 acres.

2. That in addition to acquisition of fee simple title to the aforesaid described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway, when constructed upon the aforesaid-described real property, to the remaining abutting

(cont.)

EXHIBIT "U-3" (cont.)

land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited; except that there shall be reserved unto the owners of said remaining real property a right of access for a farm crossing not to exceed 25 feet in width on both sides of the Oregon Coast Highway at State Highway Engineer's center line Station 187+00, and also a right to pass stock under the Oregon Coast Highway at State Highway Engineer's center line Station 188+50, going beneath the State Highway bridge to be constructed on said Oregon Coast Highway.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the state, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

EXHIBIT "U-4"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Bay City-Tillamook Section of the said Oregon Coast Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "U-4" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Bay City-Tillamook Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17913-A
Owner: Reuben Wilkins, et al

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 11, Township 1 south, Range 10 west, W.M., Tillamook County, Oregon and being a portion of that property conveyed by that deed to Reuben Wilkins, et ux. recorded in Book 63, Page 491 of Tillamook County Records of Deeds. The said parcel being that portion of said property included in a strip of land 220 feet in width, 110 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows

Beginning at Engineer's center line Station 193+00, said Station being 838 feet south and 267 feet west of the northeast corner of said Section 11; thence North 53° 05' west 700 feet to Station 200+00; said center line crossing the east and northwest lines of said property approximately at Stations 194+83 and 198+89 respectively. The northwest line of said property being the southerly line of the County Road to the Town of Idaville.

The parcel of land to which this description applies contains 2.05 acres.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Com

(cont.)

EXHIBIT "U-4" (cont.)

mission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

EXHIBIT "U-5"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Bay City Tillamook Section of the said Oregon Coast Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Oregon Coast Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Bay City Tillamook Section of the Oregon Coast Highway the parcel of real property located in Tillamook, Oregon, and described as follows, to-wit:

R-17908
Owner: Anna Neilson

A parcel of land lying in the South half of Section 12

(cont.)

EXHIBIT "U-5" (cont.)

Township 1 South, Range 10 West, W.M., Tillamook County, Oregon. The said parcel being a strip of land bounded on the Southerly end by the Kilchis River, bounded on the North by the Southerly line of that tract conveyed to Paul S. Vermilyea and Hancy D. Vermilyea by deeds recorded in Book 40, Page 212 and Book 47, Page 505, of Tillamook County Deed Records, bounded on the West by the S.P. Co. Right of Way, and bounded on the East by a line parallel to and 50 feet Easterly of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 140+00, said Station being 1040 feet North and 1585 feet West of the Southeast corner of said Section 12; thence North 29° 01' West 282.86 feet; thence on a spiral curve left (the long chord of which bears North 31° 01' West) 400 feet; thence on a 1909.86 foot radius curve left (the long chord of which bears North 41° 03' West) 402.22 feet; thence on a spiral curve left (the long chord of which bears North 51° 05' West) 400 feet; thence North 53° 05' West 514.92 feet to Station 160+00.

The parcel of land to which this description applies contains 3.33 acres.

There is also hereby granted an easement for Channel Change, lying East of the above-described parcel and being a strip of land 50 feet in width, 25 feet on each side of a line described as follows:

Beginning at Engineer's center line Station 148+05 as said center line is described above; thence North 56° 55' East 230 feet; thence on a 572.96 foot radius curve left (the long chord of which bears North 49° 25' East) 150 feet; containing 0.39 acre.

Except the right of the public to use the right of way granted to Tillamook County by F. H. Neilson, et ux., recorded September 30, 1920, in Book 42, Page 132, of the Deed Records of Tillamook County, Oregon, being a 30-foot right of way along the north side of the Kilchis River.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway, when constructed

upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulations, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951

EXHIBIT "U-6"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Reedsport-Winchester Bay Section of the said Oregon Coast Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, the Oregon Coast Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Reedsport-Winchester Bay Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

(cont.)

EXHIBIT "U-6" (cont.)

R-17732
Owner: H. L. Mooney, et al

Parcel No. 1:

A parcel of land lying in Tracts 2 and 3, Unrecorded Plat of Mooney, in the Northwest quarter (NW$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) of Section 8, Township 22 South, Range 12 West, W. M., Douglas County, Oregon; the said parcel being that portion of said Tracts 2 and 3 included in a strip of land 120 feet in width, lying on the southerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 143+05.66, said Station being 185.21 feet north and 1550.95 feet east of the west quarter corner of said Section 8; thence on a spiral curve right (the long chord of which bears South 53° 38' 45" West) 400 feet; thence South 54° 58' 45" West 101.95 feet; thence on a spiral curve right (the long chord of which bears South 59° 28' 37" West) 450 feet; thence on a 954.93 foot radius curve right (the long chord of which bears South 71° 47' 11" West) 110.24 feet; thence on a spiral curve right (the long chord of which bears South 84° 05' 45" West) 450 feet; thence South 88° 35' 37" West 692.40 feet to Station 165+10.25; the southerly line of said strip of land intersecting the east and the west lines of said Tracts 2 and 3 approximately opposite Station 151+10 and Station 160+27, respectively.

The parcel of land to which this description applies contains 2.10 acres.

Parcel No. 2:

A parcel of land lying in Tract 10, Unrecorded Plat of Mooney in the Northwest quarter (NW$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 7, Township 22 South, Range 12 West, W. M., Douglas County, Oregon; the said parcel being that portion of said Tract 10 included in a strip of land 100 feet in width, lying on the southerly side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 170+86.56, said Station being 405.95 feet south and 1059.20 feet west of the east quarter corner of said Section 7; thence on a spiral curve right (the long chord of which bears North 71° 41' 15" West) 500 feet to Station 175+86.56 equals Station 175+79.42; thence north 68° 21' 15" West 202.94 feet; thence on a spiral curve left (the long chord

of which bears North 72° 51' 10" West) 450 feet; thence on a 954.93 foot radius curve left (the long chord of which bears South 85° 03' 15" West) 436.39 feet; thence on a spiral curve left (the long chord of which bears South 62° 57' 40" West) 450 feet to Station 191+18.75; the southerly line of said strip of land intersecting the east and westerly lines of said Tract 10 approximately opposite Station 184+15 and Station 187+35, respectively.

The parcel of land to which this description applies contains 0.46 acre.

2. That in addition to the acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished all easements of access and rights of ingress, egress, and regress to, from, and between the aforesaid-described real property and any highway now or hereafter constructed thereon and the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, except that there shall be reserved unto the owners, their heirs and assigns, the following rights of access:

(a) A right of private access for an approach not to exceed twenty-five feet in width on the south side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 153+00.

(b) A right of private access for an approach not to exceed twenty-five feet in width on the south side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 157+75.

(c) A right of private access for an approach not to exceed twenty-five feet in width on the south side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 185+50.

A right of private access as herein used is defined as follows:

An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right, at its option, to build at any future time, at its sole cost, a frontage or service road on the south side of the Oregon Coast Highway upon right of way now owned, or lands to be acquired, by the State of Oregon, and upon

EXHIBIT "U-6" (cont.)

construction of such frontage or service road the rights of private access herein set forth to be reserved that are adjacent to such frontage or service road shall terminate and cease, and the owners, their heirs and assigns, shall thereupon have access to such frontage or service road; said frontage or service road shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

EXHIBIT "U-7"

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Oregon Coast Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Reedsport-Winchester Bay Section of the said Oregon Coast Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows

EXHIBIT "U-7" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Reedsport-Winchester Bay Section of the Oregon Coast Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R.-17729
Owners: Russell J. Hubbard, et ux.

Parcel No. 1:

A parcel of land lying in Section 3 and 4, Township 22 South, Range 12 West, W.M., Douglas County, Oregon; the said parcel being a strip of land of variable widths, extending from the west line of 22nd Street in the City of Reedsport to the west line of said Section 4 and lying on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 23+66.04, said Station being 801.55 feet south and 210.10 feet east of the northeast corner of said Section 4; thence on a 5729.58 foot radius curve left (the long chord of which bears South 72° 22' West) 178.33 feet; thence on a spiral curve left (the long chord of which bears South 70° 08' 30" West) 400 feet; thence South 69° 28' 30" West 4332.76 feet; thence on a spiral curve left (the long chord of which bears South 66° 08' 30" West) 500 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 55° 02' West) 222.08 feet; thence on a spiral curve left (the long chord of which bears South 43° 55' 30" West) 500 feet; thence South 40° 35' 30" West 1135.17 feet to Engineer's center line Station 96+34.38, said center line crossing the west line of said 22nd Street and the west line of said Section 4 approximately at Stations 24+15 and 88+05, respectively. Said Station 88+05 being 893 feet south of the west quarter corner of said Section 4.

The widths in feet of the strip of land above referred to are as follows:

Station	to Station	Width on North side of Center Line	Width on South Side of Center Line
23+66	29+44.37	60	Variable to existing hwy.
29+44.37	37+00	60	110
37+00	45+50	70	110
45+50	50+00	90	110
50+00	63+50	150	150
63+50	65+00	150	300
65+00	70+00	250	300
70+00	73+00	250	200

(cont.)

EXHIBIT "U-7" (cont.)

Station to Station		Width on North side of Center Line	Width on South Side of Center Line
73+00	73+50	200	200
73+50	78+00	200	150
78+00	West line of Section 4	150	150

Except that part of said strip of land lying within the Northeast quarter (NE$\frac{1}{4}$) of the Southwest quarter (SW$\frac{1}{4}$) of said Section 4.

The parcel of land to which this description applies contains 40.3 acres, of which 7.8 acres lie within the existing right of way, title to which hereby is alleged to be in the public, and 32.5 acres lie outside of the existing right of way; 5 acres of this 32.5 acres lie in the Bonneville lease, leaving 27.5 acres net.

Parcel No. 2:

A parcel of land lying in the Northeast quarter (NE$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) of Section 5, Township 22 South, Range 12 West, W.M., Douglas County, Oregon; the said parcel being that portion of said Northeast quarter (NE$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) included in a strip of land 300 feet in width, 150 feet on each side of the center line of the Oregon Coast Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 84+99.21, said Station being 660.95 feet south and 153.52 feet east of the east quarter corner of said Section 5; thence South 40° 35' 30" West 1000.79 feet to Station 95+00, said center line crossing the east and south lines of said Northeast quarter (NE$\frac{1}{4}$) of the Southeast quarter (SE$\frac{1}{4}$) approximately at Stations 88+05 and 93+50, respectively.

The parcel of land to which this description applies contains 3.75 acres, of which 1.04 acres lie within the existing right of way, title to which hereby is alleged to be in the public, and 2.71 acres lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Oregon Coast Highway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the

EXHIBIT "U-7" (cont.)

aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited, except that there shall be reserved unto the owners of said remaining real property rights of private access as follows:

(a) A right of private access not to exceed twenty-five feet in width on the north side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 86+77.

(b) A right of private access not to exceed twenty-five feet in width on the north side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 77+30.

(c) A right of private access not to exceed twenty-five feet in width on the south side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 71+80.

(d) A right of private access not to exceed twenty-five feet in width on the north side of the Oregon Coast Highway opposite State Highway Engineer's center line Station 63+00.

(e) Rights of access to a frontage or service road to be constructed by the State of Oregon on the north side of the Oregon Coast Highway upon right of way now owned, or lands to be acquired, by the State of Oregon; said frontage or service road shall be constructed at the time of construction of the Oregon Coast Highway upon the above-described real property from 22nd Street in Reedsport, Oregon, to connect with an existing ranch road which crosses the Oregon Coast Highway at State Highway Engineer's center line Station 48+40.

A right of private access as herein used is defined as follows: An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right, at its option, to build at any future time, at its sole cost, a frontage or service road, or frontage or service roads, in addition to the said service road above set forth, on either side of the Oregon Coast Highway upon right of way now owned, or lands to be acquired by the State of Oregon, and upon construction of such frontage or service road or roads, the right or rights of private access herein set forth to be reserved that is or are adjacent to such frontage or service road or roads shall terminate and cease, and the owners of said remaining

(cont.)

EXHIBIT "U-7" (cont.)

property shall thereupon have access to such frontage or service road or roads; said frontage or service road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the state, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

Minutes of October 11 and 12, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct, and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts, and

WHEREAS, for the purpose of constructing and maintaining certain sections of the State highway system, the said Commission plans and proposes to acquire a quarry site and an easement for right of way for a hauling road in conjunction therewith, and for such purpose and connection therewith, the real property hereinafter described is necessary, and

WHEREAS, said Commission is authorized to take fee title to said property for the acquisition of a quarry site and is authorized to take an easement for right of way for the construction, improvement or maintenance of a hauling road in conjunction therewith;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find that the following described property is necessary and required for the acquisition of a quarry site in connection with the proper construction and maintenance of certain sections of the State highway system, said property being located in Washington County, Oregon:

R-8875
Owner: Oliver Jack, et al

Parcel No. 1:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 21, Township 2 North, Range 4 West, W.M., Washington County, Oregon, the said parcel being described as follows:

(cont.)

EXHIBIT "U-8" (cont.)

Beginning on the south line of said Section 21 at a point which bears North 88° 25' 15" East 2029.2 feet from the southwest corner of said Section 21; thence North 88° 25' 15" East along said Section line 282.9 feet; thence North 44° 21' West 1430.0 feet; thence North 560.0 feet; thence West 1020.0 feet; thence South 580.0 feet; thence South 46° 43' East 707.5 feet; thence East 641.6 feet; thence South 44° 21' East 737.2 feet; to the south line of said Section 21; thence North 88° 25' 15" East 65.0 feet to the place of beginning.

The parcel of land to which this description applies contains 29.23 acres.

2. The Commission does hereby find and declare that an easement for right of way, over and across the following described property, is necessary and required for the construction, improvement, or maintenance of a hauling road to be used in conjunction with the quarry site situated upon the real property described in Parcel No. 1, said property being located in Washington County, Oregon:

Parcel No. 2:

That part of the following described strip of land lying within the east half of Section 28, Township 2 North, Range 4 West, W.M., Washington County, Oregon, except any portion thereof lying within the tract of land described in that certain deed to Carl H. Hutch, recorded in Book 310, page 384, of the Deed Records of Washington County, Oregon, to wit:

The strip of land 60 feet in width, 30 feet on each side of the following described center line:

Beginning on the South line of the Northwest quarter ($NW\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of said Section 28; said point being 1310.5 feet North and 1656.3 feet West of the Southeast corner of said Section 28; thence North 24° 31' West 21.97 feet; thence North 4° 06' East 183.2 feet; thence North 27° 25' 30" East 203.3 feet; thence North 8° 08' West 462.7 feet; thence North 9° 46' 30" East 453.4 feet; thence North 31° 15' West 243 4 feet; thence North 31° 23' East 110.05 feet; thence North 8° 25' West 313.45 feet; thence North 26° 38' 45" West 360.76 feet; thence North 6° 39' 45" West 369.94 feet; thence North 28° 35' 15" West 379.0 feet; thence North 45° 42' 15" West 528.60 feet; thence North 49° 52' 15" West 515.78 feet; thence North 77° 17' 15" West 167.40 feet; thence North 87° 30' 30" West 167.20 feet; thence North 44° 48' 15" West 243.40 feet; thence North 24° 37' 45" West 51.81 feet to the North line of said Section 28 from which point the Northwest corner of said Section 28 bears South 88° 25' 15" West 2029.2 feet.

(cont.)

EXHIBIT "U-8" (cont.)

The parcel of land to which this description applies contains 4.83 acres.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located. and will be operated and maintained in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 11th day of October, 1951.

Portland, Oregon
October 13, 1951

The State Highway Commission met with members of the Legislative Highway Interim Committee at 9:00 a.m. in the Green Room of the Imperial Hotel for discussion of matters set forth in the Committee's letter of October 1 to the Commission. (See letter in General Files.)

Present representing the State Highway Department were:

Ben R. Chandler, Chairman, State Highway Commission
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
C. W. Enfield, Chief Counsel
H. B. Glaisyer, Secretary
Geo. C. Hester, Jr., Administrative Assistant

Representing the Interim Committee were:

Senator Elmo E. Smith, John Day, Chairman
Senator Angus Gibson, Junction City
Senator Warren Gill, Lebanon
Representative Edward A. Geary, Klamath Falls
Representative Robert W. Root, Medford
Representative B. A. Stover, Bend

Senator Smith presided and upon calling the meeting to order, explained that the purpose of the meeting was to orient members of the Committee on highway matters and fulfill obligations imposed on the Committee by House Joint Resolution No. 24. He then referred to the Commission's brief of the following subjects as outlined in the Committee's letter and asked the Commission to explain the several items appearing therein.

1. Administration of the State Highway Department

   a. Organization and Channels of Administrative Control

   b. Relationship Between the State Highway Commission and the Civil Service Commission with Respect to Salary Scales, Job Classifications, and other Regulations affecting Personnel Requirements

2. Allocation, Distribution and Expenditure of State Highway Funds

   a. Relationship Between the State Highway Commission and the Bureau of Public Roads with Respect to Allocation and Expenditure of Federal Funds

   b. Formula for Allocation to Divisions

c. Method of Allocating Expenditures between Primary, Secondary, and F. A. S. County Roads

d. Method of Selecting Individual Projects for Improvement

e. Distribution of Gross Receipts from Motor Vehicle Taxes

f. Program for the Expenditure of Bond Moneys

3. Methods and Standards Used and the Results Obtained in Construction and Maintenance of State Highways

a. Control Exercised by the Bureau of Public Roads over Design Standards Employed by the State

b. Comparison of Oregon's Standards with those Promulgated by the AASHO

c. Considerations Involved in Choice of Surface Type and Thickness for New Construction and Reconstruction

d. Purpose and Use of Classification as Applied to the State Highway System

e. Considerations Involved in Imposition of Load Limits or Prohibition of Truck Traffic on Various Highways during Spring Thaws and Other Periods

f. Reasons for the Increased Maintenance Expenditures During the Past Quarter Century

g. Explanation of Type of Design and Axle Loads on Proposed WASHO Road Test

Individual copies of the Highway Commission's brief were distributed and the subjects were taken up in order. At the request of Chairman Chandler, Mr. Baldock explained the items presented in the Commission's brief, with an informal discussion following the explanation of each item.

At the conclusion of discussion on the written brief, Representative Root pointed out that at the present time loggers are permitted to haul during certain hours of the day which, during the winter season, extend into the darkness hours; whereas, the same time limits during the summer season fail to take advantage of all the daylight hours. Mr. Baldock agreed that this point was well taken, and promised to make a study and report to the Commission on the subject.

On behalf of the Interim Committee, Senator Smith requested that the State Highway Commission provide the Committee with comments con-

cerning the application of present highway laws and/or recommendations for additional highway legislation, together with drafts of any bills which the Commission desires to have introduced at the next legislative session, on or before July 1, 1952. The Commission assured the Committee that this request would be complied with.

The meeting adjourned at 11:45 a. m.

Chairman

State Highway Engineer

Commissioner

Commissioner

Secretary

Portland, Oregon
November 8, 1951

The members of the State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Those present were:

Chas. H. Reynolds, Commissioner, Acting Chairman
Milo K. McIver, Commissioner
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
Fred Miller, Assistant Counsel
C. H. Armstrong, Parks Superintendent
H. B. Glaisyer, Secretary

Chairman Ben R. Chandler was excused from attending this meeting.

Bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice, following which, at the request of the Acting Chairman, he announced that the award of contracts would be made at 3:00 p.m.

The Commission approved the minutes of the meetings held on August 20-21, and on September 12, 1951, subject to any correction that might be requested by the Chairman.

The State Parks Superintendent reported on the following park matters:

1. Requests of J. T. Lamb and Daniel B. Sells, both of Lakeview, to lease separate portions of Booth State Park for grazing purposes: The Parks Superintendent advised that these are two separate transactions, but neither of the gentlemen wishes to pay very much for the grazing privilege. Moreover, each wants permission to fence his particular area, which would bar public access to the park property. He recommended that both requests be denied, notwithstanding that the grazing of stock would not be objectionable. The Commission approved the recommendation.

2. Offer of Tillamook County to present to the State as a gift thirteen lots situate on Nehalem Sandspit: The Parks Superintendent advised that the State now owns most of this sandspit, a considerable portion of which was obtained from Tillamook County as tax delinquent property, and that the thirteen lots represent additional property that the county has acquired in lieu of taxes. He recommended acceptance of the offer. The Commission approved the recommendation.

3. Proposed development of recreational area acquired from Mr. J. H. Koberg on the Columbia River Highway about one mile east of the City of Hood River. The Parks Superintendent advised that the property in question was acquired from Mr. J. H. Koberg in connection with a settlement for right of way needed for the new Columbia River Highway. The area, he said, has been used by the people of Hood River and vicinity for many years as a swimming beach; it contains about 15 acres of land including the beach and a rock promontory fronting on the Columbia River. Mr. Koberg, he said, spent a considerable sum of money in development including a huge dance hall and a bath house, constructed of stone, concrete and timber with cement walks retaining walls and a swimming pool or reservoir on the high rock northeast of the beach area. The beach, he said, is approximately 900 feet long; also that the area contains a small lake which, if the area is developed, will have to be drained and filled in. He also said that a quarry has been developed at the easterly end of the rock promontory, materials from which are being used by the State's contractor in the construction of the highway. He exhibited a map showing a plan for the development of the area, which plan includes a driveway entrance from the highway. He estimated the cost of the development at about $30,000 except that an additional amount will be required if a traffic separation structure were provided at the junction of the entrance road with the highway.

In this connection the Parks Superintendent also advised that there is another area immediately to the east of the City of Hood River, upstream from the road leading to the Interstate bridge, which is very suitable for recreational purposes, particularly for local residents, a small part of which is owned by the State, and the remainder is in private ownership. He said that at small cost approximately 600 feet of river frontage and 4 acres of land can be developed for recreational purposes, affording an excellent picnic ground and swimming beach away from the highway and highway traffic. He estimated that the development work would cost about $12,000; however, he gave as his opinion that this is strictly a city project and that the expense should be borne by the community, since it is so close to the city and it being contrary to the established policy of the Commission to develop areas in such locations. The Engineer pointed out that were the Highway Commission to develop this latter mentioned area, the probabilities are that the county would ask the Commission to take over the county road that leads to it, which would involve an expenditure of about $96,000 to replace a timber bridge structure located thereon that is badly in need of repair. Both matters were discussed at some length, but action thereon was deferred by the Commission pending a conference with a representation from the City of Hood River, which was scheduled to be present on the following day. (See ahead for additional paragraph and action)

4. Proposed exchange of timber land in Silver Falls State Park. The Parks Superintendent recalled that the Commission some time ago authorized the sale of two isolated tracts in this park, and the

acquisition of a privately owned area that is surrounded by the park. Under authority granted at that time, he said, the timber on both tracts has been cruised, and it has been determined that they are out of balance, that on the State's property being valued at about $265,000, whereas that on the property that the State wants being valued at not to exceed $75,000. He mentioned a suggestion from the National Parks Service that the State sell only sufficient amount of its property to offset the cost of the privately owned property, and he pointed out the desirability of acquiring additional tracts, one of which would be valuable from a standpoint of protecting the water shed, and another which controls the springs in the park, the only available water supply. He requested authority to sell enough of the property that the State now owns to pay for the privately owned land that is needed to fill out this park which arrangement, he said, has been approved by the National Parks Service in principle. The Commission approved the request on the condition that the State is not required to spend any money for the property other than that which it receives from the sale of the State's land.

5. Sale of dead timber on Port Orford cedar tract north of Sixes, Curry County: The Parks Superintendent recalled that the Commission some time ago advertised the sale of this timber, but no bids were received. Subsequently, a Mr. George Weston, Myrtle Point, offered to pay $5.00 per MFBM for the timber. He recommended acceptance of the offer. The Commission approved the recommendation.

6. Purchase of Holland beach grass for use in Cape Lookout State Park: The Parks Superintendent advised that about 720,000 plants are required to control sand blow in this park and that the U. S. Soil Conservation Service has offered to furnish the plants at a maximum cost of $1.75 per thousand. He recommended acceptance of the offer. The Commission approved the recommendation. (An Agreement covering the arrangement was signed by the Commission later in the session.)

7. Prohibiting truck turn-around movements in Yachats State Park: It was explained by the Parks Superintendent that this resolution is simply to confirm and make formal the action taken by the Commission at its meeting on August 20, 1951. He recommended adoption of the resolution. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

8. State Parks budget for 1952: The Commission deferred action on this matter until its next meeting when Chairman Chandler is expected to be present.

The Right of Way Engineer reported options secured for property needed for right of way and other highway purposes. He presented a list of the options, which the Commission carefully considered. As a result of such consideration, the Commission authorized the closing of the options at the prices mentioned therein. The attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

In this connection the Right of Way Engineer reported the status of acquisition of rights of way needed for proposed improvements on US Highway No. 99. He gave as his feeling that it will be necessary to acquire some of these properties by condemnation, and he suggested that acquisition would be expedited were the Commission to grant blanket authority to condemn the properties if necessary. The Commission indicated a favorable attitude toward the suggestion, if that can be done legally, but deferred action in the matter until its next meeting, at which time the Right of Way Engineer will render another report on the subject.

In the absence of the Chief Counsel, Assistant Counsel, Mr. Fred Miller, reported difficulties in closing thirty-three right of way transactions and the need to acquire the parcels by resorting to condemnation. He presented a list of the parcels, together with the offer that is recommended in connection with each tract, as follows:

Stoute Creek-Mill City Sect. of the North Santiam Hwy.		Recommended Offer
R 17766 - Keith Phillips, et ux		
State Park Access Road (Marion)		
3.257 acres at $75.00	$ 244.50	
84 rods of woven wire fence	95.00	
Barb wire 2 strands 84 rods	17.00	
Labor to erect fence	120.00	
Steel posts (2 end)	91.00	
	$ 567.50	$ 575.00
Jones Ranch-Mitchell Section of the Ochoco Hwy.		
R 18199 - Owner unknown		
Right of Way (Wheeler)		
50 square feet, more or less		$ 25.00
R 17621 - C. A. Van Winkle		
Right of Way (Wheeler)		
0.1 acre		$ 150.00
R 17623 - Owner unknown		
Right of Way (Wheeler)		
1.54 acres		$ 25.00

Reedsport-Winchester Bay Sect. of the Oregon Coast Hwy.		Recommended Offer
R 18086 - H. L. Mooney and Louie Nichols Right of Way (Douglas) 1.56 acres		$1,275.00
Viento-Hood River Sect. of the Columbia River Hwy.		
R 17630 - Columbia Gorge Hotel Company Hood River (Right of Way) 6.77 acres		$6,800.00
Barbur Blvd.-Marion County Line Sect. of the West Portland-Hubbard Hwy.		
R 17539 - Mary Scheckla Right of Way (Clackamas) 5.89 acres - Taking Severance	$1,650.00 3,100.00 $4,750.00	$4,750.00
R 10630 - Anna B. Wurster Right of Way (Clackamas) 13.53 acres		$6,500.00
R 18095 - George Teufel, et ux Right of Way (Clackamas) 0.14 acre		$ 500.00
R 17522 - Don C. Irion, et ux Right of Way (Clackamas) 6.66 acres		$16,500.00
R 17499 - John Micek, et ux Right of Way (Washington) 11.67 acres		$7,000.00
Divide-Anlauf Unit of the Divide-Rice Hill Sect. of the Pacific Hwy.		
R 17702 - James Baxter Davis Quarry and Haul Road Easement (Douglas) 15.50 acres for quarry 4.7 acres for haul road		$3,000.00
R 18000 - Eldon Thompson, et ux Right of Way (Douglas) 0.93 acre		$5,000.00

Divide-Anlauf Unit of the Divide-Rice Hill Sect. of the Pacific Hwy. (cont.)	Recommended Offer
R 17692 - Pass Creek Development Company Right of Way (Douglas) 0.62 acre	$ 500.00
R 17691 - Leroy Lumber Company Right of Way (Douglas) 46.14 acres	$12,000.00
R 17993 - I. R. Lawrence, et ux Right of Way (Douglas) Easement for channel change 19.8 acres for right of way 0.55 acre for easement for channel change	$15,000.00
R 17992 - C. R. Lawrence, et ux Right of Way and Easement for channel change (Douglas) 13.09 acres for right of way 0.57 acre for easement for channel change	$ 2,000.00
R 17994 - R. Max and Irene Davis Ames Right of Way (Douglas) 0.40 acre	$ 250.00
R 17995 - Merl F. Clark Right of Way (Douglas) 0.50 acre	$ 500.00
R 17996 - Violet G. Clark Right of Way (Douglas) 0.72 acre	$ 1,000.00
R 17997 - Forest Veneer Company Right of Way and Easement for Channel Change (Douglas) 8.78 acres for right of way 0.72 acre for easement for channel change	$ 9,000.00
R 17998 - Oliver Hodge, et ux Right of Way (Douglas) 0.51 acre	$11,000.00
R 17999 - Benjamin Verl or Rosalia Miller Right of Way (Douglas) 0.76 acre	$10,000.00

Divide-Anlauf Unit of the Divide-Rice Hill Sect. of the Pacific Hwy. (cont.)	Recommended Offer
R 18001 - Clay Galdabini, et ux Right of Way (Douglas) 31 acres	$17,000.00
R 18002 - Clarence T. Anlauf, et ux Right of Way (Douglas) 8.25 acres	$ 3,000.00
R 18003 - W. C. Henderer, et ux Right of Way (Douglas) 12.74 acres	$14,000.00
R 18004 - R. B. Bewley, et ux Right of Way (Douglas) 7.36 acres	$ 4,500.00
R 18005 - Eugene Remington, et ux Right of Way (Douglas) 0.16 acre	$10,000.00
Gilchrist-Willamette Junction Unit Lapine-Diamond Lake Junction Sect. of The Dalles-California Hwy.	
R 18187 - L. L. Miller Right of Way, Mining Claim (Klamath) 29.5 acres	$ 295.00
Bay City-Tillamook Sect. of the Oregon Coast Hwy.	
R 17912 - Wm. R. Coats Right of Way (Tillamook) 4.38 acres	$ 8,150.00
Cape Lookout State Park	
R 17674-A-Jones Lumber Corporation (Park) Tillamook Interest of Jones Lumber Company, a corporation 46.4 acres, being only standing timber upon the land	$ 3,350.00
Judkins Point-Goshen Sect. of the Pacific Hwy.	
R 17055 - Ross E. Glass, et al Gravel Pit (Lane) 30 acres at $250.00	$ 7,500.00

Hood River-Mosier Sect. of the Columbia River Hwy.	Recommended Offer
R 17634 - James C. Fulton, et al Right of Way, Rock Quarry and Haul Road (Wasco) 28 acres	$ 9,000.00

As a result of careful consideration, the Commission approved the offers and authorized the condemnation proceedings. The attached resolutions relative thereto marked EXHIBITS "J-1" through "J-10", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission, upon motion of Commissioner McIver, duly seconded by Acting Chairman Reynolds.

The Right of Way Engineer reported the following sales of miscellaneous properties, which were unanimously confirmed by the Commission:

File No.	Location	Sales Price	Purchaser	Items & Remarks
9734-	South 6th St. - Klamath Falls	$ 500.00	Destroyed by fire Sept. 15, 16, 1951. Covered by Lloyd's Policy	All the balance of Ewauna Box & Big Lake Box buildings had been sold prior to this fire.
17588-	Salisbury-Baker Sec. Baker-Unity Hwy.	326.00	Fred J. Schultz Route 2, Baker, Oregon	These bldgs. valued in final report at $3215.00 with statement house was 80% depreciated.
17786-	Forest Grove Sec. Tualatin Valley Hwy.	501.00	David G. Spiering, 1830 "C" St., Forest Grove	Advertised. Only bid received. In way of construction. Recommended acceptance to W.C. Williams who cleared sale with Mr. Chandler 10/23/51
17246- 17247	Salem By-Pass Pacific Hwy. East	1,750.00	Jack Henningsen, 3115 Willamette Dr. Salem	Auction sale. With this house was offered that part Lot 5, Block 2, Rehb's Addition lying outside right of way. Value of portion lot sold $350. Sale approved by phone by Mr. Chandler 10/22/51

File No.	Location	Sales Price	Purchaser	Items & Remarks
17251-17247A	Salem By-Pass Pacific Hwy. East	$4,350.00	Kenneth A. Murphy, 635 So. Liberty, Salem	Auction sale. With house was offered Lot 4, Block 4 Rehb's Addition. Lot purchase price $700. Sale approved by phone by Mr. Chandler 10/22/51
16987-	Viento-Hood River Sec. Columbia River Hwy.	50.00	M. L. Galligan Hood River	M. L. Galligan only bidder on sealed bids. Did not consider any salvage- extremely old bldgs- 1 bidder
16996-	Viento-Hood River Sec. Columbia River Hwy.	75.00	Lee D. Tanner Rte. 4, Box 123 Hood River	This house has composition siding. There is no ground close that this house could move on to- Estimated value $100. 3 bidders.
16997-	Viento-Hood River Sec. Columbia River Hwy.	96.00	Luke Nichols and R. T. Cobie Rte. 4, Box 5 Hood River	Unplastered house- old bath- Estimated value $150 - 2 bidders
16995-	Viento-Hood River Sec. Columbia River Hwy.	5.00	W. I. Kirby Rte. 2, Box 378 Hood River	Small cabin-not lived in for years- expected to have to pay for tearing down - 1 bidder
16993-	Viento-Hood River Sec. Columbia River Hwy.	198.00	Luke Nichols & R. T. Cobie Rte. 4, Box 5 Hood River	Service station with living quarters above; all service station equipment salvaged by the Department - 5 bidders

File No.	Location	Sales Price	Purchaser	Items & Remarks
16989-	Viento-Hood River Sec. Columbia River Hwy.	$ 62.50	Elmer W. Murray, c/o Murray Auto Parts, Rte. 4, Box 32 Hood River	This property on top of hill reached by winding narrow road- house not modern in any way- 2 bidders
17003	Viento-Hood River Sec. Columbia River Hwy.	118.00	Luke Nichols and R. T. Cobie Rte. 4, Box 5 Hood River	Extremely old house plastered. Barn and mink pen old and will have to be wrecked as no place to move- 4 bidders
17679-	Salem By-Pass Sec. Pacific Hwy. East	2,550.00	Jack Henningsen, 3115 Willamette Drive Salem	Auction sale. With this house was offered that part of Lot 5, Block 4, Rehb's Addition lying outside right of way- value of portion $350.00- phone approval by M. K. McIver 11/5/51
17249-	Salem By-Pass Sec. Pacific Hwy. East	6.650.00	E. W. Brutka Rte. 1, Box 65C, Brooks, Oregon	Auction sale - with this house was offered Lot 3, Block 2, Rehb's Addition, Salem- lot valued at $750- Phone approval by M. K. McIver 11/5/51

The Right of Way Engineer also reported the results of the sale of houses along the Salem By pass Section by the auction method. He recalled that the Commission authorized such method of disposal of the buildings as a trial proposition. The results of the sales, he said, indicate that much better prices can be received by the auction method than by receiving sealed bids, and he recommended that auctioning of the buildings be continued. The Commission approved the recommendation.

The Commission confirmed the sale of Lot 5, Block 2, Rehb's Addition, Salem, to Jack and Flora Henningsen, at $350; and the sale of Lot 4, Block 4, Rehb's Addition, Salem to Kenneth A. Murphy, at $700. The Right of Way Engineer explained that these lots were sold to the two purchasers in connection with the sale of houses on the Salem By-pass and that the sales were authorized by at least one commissioner before they were consummated. The Commission confirmed the sales unanimously.

The Commission authorized the Right of Way Engineer to issue land use permits during the year 1952 in conformity with past practice.

The Commission authorized an expenditure of approximately $700 for construction of right of way fences along the Beach Creek Section of the Pendleton-John Day Highway, Grant County, in cooperation with the U. S. Forest Service which is constructing similar fences along this highway within the National Forest boundaries. It was explained that fences to be constructed by the State aggregate about 3,600 lineal feet along land that is privately owned, where Forest highway funds cannot be used.

The Right of Way Engineer requested instructions concerning the disposition of houses purchased in connection with right of way settlements along Unit 5 of the T. H. Banfield Expressway, Multnomah County, and along the Wygant Park-Hood River Section of the Columbia River Highway in Hood River County. He said there are about 24 houses to be disposed of along Banfield Expressway and he suggested that the public auction method be employed on a number of them as a trial proposition to ascertain whether or not such method is satisfactory in this locality. He also said that no land would be offered in connection with the sales. The Commission approved the suggestion unanimously. As to the buildings located on the Wygant Park-Hood River Section, the Parks Superintendent suggested that these also be disposed of by public auction except the Thompson Motel buildings, which the State's contractor wishes to use during his construction operations. The Motel buildings, he said, are located partially within the construction area, but the contractor wants them left there for his use, and has offered to pay $2,500 for them if the Commission approves. Moreover, he agrees to raze the buildings after his construction work is completed. He recommended acceptance of the offer. The Commission unanimously approved the sale of the buildings either by auction or by negotiated sale. The Thompson Motel buildings are to be handled in conformity with the Right of Way Engineer's recommendation.

The Right of Way Engineer reported that the Reconstruction Finance Corporation finally has taken over the Lofts' property adjacent to the Columbia River Highway near the Hood River Bridge, and has offered to let the State purchase all or a portion of it, as may be needed for highway use. The entire property, he said, can be purchased for about $17,500. He pointed out that the State can realize considerable salvage and he recommended acceptance of the offer. The Engineer concurred in the recommendation. The Commission approved the recommendation unanimously.

The Right of Way Engineer reported the results of taking bids in Salem on October 22, 1951 for the purchase of some fragmentary

lots along The Dalles-California Highway south of Redmond. The high offer received for this property, he said, was that of Mr. M. A. Lynch, Redmond, at $450. He recommended acceptance of the offer. The Commission approved the recommendation. (A deed conveying the property to Mr. Lynch was signed by the Commission later in the session).

The Right of Way Engineer asked the Commission to confirm an oral arrangement previously made with the Roberts Motor Company, Portland, for leasing the "Mack Truck Building" located at the east end of the Steel Bridge. He explained that the arrangement provides for the leasing of the property to the Roberts Motor Company for a period of four years, the company to remodel it at its own cost and expense, which is estimated at $30,000. The arrangement, he said, provides for shortening the building about seventy feet on the east side so as to accommodate a future highway development, if such materializes. The Commission approved the arrangement unanimously. (An Agreement covering the matter was signed by the Commission later in the session).

The Right of Way Engineer requested instructions concerning salaries paid right of way agents. He recalled that some three months ago, a request for salary increases for these men was presented to the State's Civil Service Board, but was denied. Subsequently, the State Tax Commission has embarked on a reappraisal program covering the entire state and is employing men whom they call "appraisal engineers" to do the work. These men, he said, are receiving a higher rate of pay for less responsible work than are the right of way men, and as a result, the Highway Department is due to lose several men, in fact one man already has gone over to the Tax Commission and others are considering offers from that department. He recommended salary increases for the right of way agents in conformity with the following schedule.

Right of Way Agent Aide -	Present rate: $261 - 272 - 284 - 296 - 309 - 322
	Proposed rate: 284 - 296 - 309 - 322 - 336 - 350
Right of Way Agent I -	Present rate: $296 - 309 - 322 - 336 - 350 - 364
	Proposed rate: 322 - 336 - 350 - 364 - 379 - 394
Right of Way Agent II-	Present rate: $336 - 350 - 364 - 379 - 394 - 410
	Proposed rate: 379 - 394 - 410 - 426 - 442 - 459
Right of Way Agent III-	Present rate: $379 - 394 - 410 - 426 - 442 - 459
	Proposed rate: 442 - 459 - 477 - 495 - 513 - 532

As a result of discussion that followed, the Commission approved the salary increases as recommended. The Right of Way Engineer was authorized to ask the Civil Service Board to approve the new schedule.

The Commission had under discussion the matter of deeding to the City of Eugene certain excess property which was acquired in connection with a settlement for right of way needed for the railroad overpass at Sixth and Mill Streets in Eugene. The Right of Way Engineer advised that, while this property was acquired in the name of the State, the purchase price actually was paid by the city, which is now asking the State Highway Department to reconvey to the City such portion as is not needed for State purposes. He recommended approval of the request. The Commission approved the recommendation.

The Commission confirmed an arrangement made by Division Engineer, W. E. Chandler with the Shevelin-Hixson Co., Bend, for office space for engineering crews stationed at the Bend headquarters, consideration $150 per month.

The Commission discussed a request from the City of Portland that the State deed to the City certain surplus property, described as Lots 1, 2 and 3 of Block 147, Carruthers Addition to Portland, on which property the city proposes to construct a building in which to house park maintenance equipment. The Right of Way Engineer advised that the property referred to is one of those toward which the city contributed 60% of the cost, and that the property is not particularly needed for highway purposes. The Commission unanimously approved the deeding of the property to the City of Portland without charge.

The Commission also discussed a request from the City of Portland that the State deed to the city certain property acquired by the State for reconstruction of S. E. Grand Avenue at Division Street, in connection with a highway improvement at that location. It was explained that the highway improvement necessitated a revision in the alignment of Grand Avenue, that title to the property was acquired in the name of the State and, because of that fact, the city has no legal authority to maintain the area as a city street. The Commission unanimously approved the deeding of the property to the City in order to clarify this ambiguity.

The Commission approved extension riders to two existing lease agreements with the Union Pacific Railroad Company as follows: (1) materials storage site in Albina, Multnomah County, original lease dated December 31, 1946, rider extends period five years to December 31, 1956, for consideration of $10 per year; (2) underground asphalt storage site adjacent to the railroad siding at Baker, Oregon, the original lease dated December 31, 1946, rider extends agreement for five years until December 31, 1956, for consideration of $5.00 per year. (Both riders were signed by the Commission later in the session.)

The meeting recessed for luncheon at 12:00 o'clock noon, and reconvened at 2:00 p.m. with the same persons present and participating.

The Engineer presented to the Commission for approval a revised agreement with the Union Pacific Railroad Company concerning highway encroachments on railroad property along the Wygant Park-Hood River Section of the Upper Columbia River Highway. This transaction, he said, involves an exchange of properties and difficulties have arisen in the negotiations. However, they have now been ironed out satisfactorily and the railroad company has agreed to give the State a right of entry onto its property pending conclusion of the property exchange. He recommended approval of the agreements as prepared and pointed out that they have already been approved by the Chief Counsel as to form. The Commission approved the recommendation, and thereupon signed the agreements.

The Commission discussed the matter of permitting the truck hauling of logs over State highways during the holidays as well as on Saturday afternoons and Sundays during the balance of the year, particularly on Monday, November 12, 1951, which has been declared a legal holiday because Armistice Day, November 11, 1951 occurs on Sunday. Mr. Fred Packwood, attorney, Portland, was present regarding this matter in behalf of his clients who are members of the timber industry. He urged the Commission to authorize the truck hauling of logs on Monday, November 12 only. He said they are not interested in the holidays on Thanksgiving or Christmas. The Engineer recommended approval of the request so far as it pertains to the Armistice Day holiday but not as to holidays on Thanksgiving and Christmas. The Commission approved the recommendation, subject to approval by the Public Utilities Commissioner.

The Engineer reported on a request from the City of Delake for establishment of a permanent grade and the installation of concrete curbs along US101 through Delake. He said that this matter has been investigated and it has been determined that to construct the curbs and necessary drainage pipe will cost about $18,000. He gave as his feeling that as soon as the curbs are constructed, the city will ask that the pavement be widened full width between the curbs. He estimated the cost of such widening work at $54,000, and the total cost of the improvement at $72,000. He pointed out that there are not sufficient funds available to finance the entire improvement at this time, and he questioned the advisability of doing any part of the work until it can be done in its entirety. Accordingly, he recommended that the project be deferred until funds become available to finance the entire project and that, in the meantime a permanent grade line be established so the city can proceed with the construction of sidewalks if it so desires. The Commission approved the recommendation.

The Commission discussed a letter from the City of Taft requesting construction of concrete curbs along the Oregon Coast Highway for a distance of about 425 feet to take care of a city drainage problem, and to prevent the drifting of sand onto the highway from ad-

jacent property. The Engineer advised that this matter has been investigated and it has been found that the drifting of sand does create a material drainage problem, which could be eliminated by construction of the curb as has been requested, provided sand surfaces on the abutting areas are covered with shale rock to decrease the sand drift. He estimated the cost to construct the curb at $750 and he recommended approval of the project as a minor betterment function, work to be done in 1952, on the condition that the property owners will first do the necessary surfacing on the adjacent sand areas. The Commission approved the recommendation.

The Engineer reported on the request of a delegation from Lane County that appeared before the Commission at its meeting on August 21, 1951 for improvement of the Noti-Badger Mountain Section of the Eugene-Richardson State Secondary Highway. He recalled that the delegation particularly requested the oiling of the five-mile section between Noti and Badger Mountain, and the raising of the grade at certain low spots where the existing roadway is flooded during the rainy season. Investigation, he said, reveals that to do what the delegation asked will cost about $130,000, of which amount $70,000 represents the cost of raising the low sections and the balance represents the cost to stabilize and oil the 5-mile section. He pointed out that the present highway is not on permanent alignment and that the estimated cost to provide an oiled highway on the proposed alignment is $384,000, which is approximately $77,000 per mile. He gave as his opinion that the Commission would not be justified in spending $130,000 for improving the present road or even in spending $70,000 to raise the grade above high water, in view of the fact that this highway will be abandoned within the next few years. He recommended, therefore, that both requests be denied until more moneys become available to reconstruct the highway on permanent alignment. The Commission approved the recommendation.

The Commission discussed a request from the City of Eugene for installation of three additional traffic signals on US99 at its intersection with 8th Street, 7th Street, and 6th Street in Eugene. The Engineer advised that this matter has been investigated and it has been found that there is justification for the installation of the additional signal at the 8th Street intersection, but there is no justification for the other two. He estimated the cost of the signal at 8th Street at $3,000 and he recommended that this signal be installed if the city will pay one-half of the installation expense, will maintain the signal, and will furnish electrical energy to operate it. He also recommended that the request for the signals at 7th Street and 6th Street be denied. The Commission approved the recommendation.

A request of the City of Joseph for installation of "blinker" lights on the Wallowa Lake Highway at its intersections with Hurricane Creek Road and with Little Sheep Creek State Secondary Highway was discussed by the Commission. The Engineer advised that

an investigation reveals that the conditions existing at each of these intersections do not warrant the installation of signals, either from the traffic or accident standpoint. He recommended that the request be denied. The Commission approved the recommendation.

Pursuant to previous instructions from the Commission, the Engineer reported results of investigations to determine the need for additional traffic signals in the City of Coos Bay. He recalled that the Commission at its September 12, 1951 meeting considered the installation of three signals on Front Street at its intersections with Curtis Avenue, Anderson Avenue and Central Avenue, but a subsequent investigation reveals that three additional signals are desirable and necessary on the two-way portion of Broadway, particularly at its intersection with Elrod Street. Hall Street and Johnson Street, in fact, they are definitely needed for proper control and regulation of traffic on US101 through Coos Bay. He estimated the cost of the six signals at $25,000, and advised that, according to information received from the city manager, the city has sufficient funds available to pay 50% of the cost of the installation. Moreover, the city will maintain the signals and will furnish electrical energy to operate them at city expense when the installation is completed. He recommended approval of the project on the condition that the city will meet the requirements of paying 50% of the cost involved, will maintain the signals and will furnish the electrical energy to operate them. The Commission approved the recommendation

The Commission discussed a request from the City of Corvallis for installation of additional signals on Madison Street at its intersections with 3rd Street and 4th Street, which streets are designated State Highway routes. The Engineer advised that at the time the original signals were installed in Corvallis, it was believed that there would be sufficient lapse in the flow of traffic at Madison Street to permit cross traffic, both vehicular and pedestrian. However, a recent investigation reveals the falsity of such assumption, particularly in view of the great amount of pedestrian traffic, this street being used heavily by students of the state college going to and from the downtown business area. According to a report by the Traffic Engineer, he said, the additional signals now requested are definitely needed. He estimated the cost of the two signals at $6,000 and recommended approval of the installation on the condition that the City of Corvallis will pay 50% of the cost involved, will maintain the signals and will furnish electrical energy to operate them. The Commission approved the recommendation.

The Commission had under discussion a request from the Hermiston Chamber of Commerce for reconstruction of the Union Pacific Railroad underpass on the Hermiston State Secondary Highway No. 207, and for construction of a new bridge across the Umatilla River as a replacement for a timber structure that was erected during World War II. The Engineer advised that reconstruction of the underpass referred to has

been studied for several years, since it is recognized that a hazard does exist at this place. The existing structure, he said, has a horizontal width of only 13 feet 6 inches, and is on a curve where the sight distance is restricted. Also, the present daily traffic averages about 1,600 vehicles. He estimated the cost to reconstruct the underpass to modern standards, including some improvement of the alignment, at $120,000. of which amount $90,000 represents the cost of reconstructing the underpass, and $30,000 represents the cost of grading and surfacing on the revised alignment. He recommended approval of the project in order to eliminate the existing hazard and to provide a structure adequate to take care of present traffic needs; also, that it be placed in the construction program as soon as additional Federal Aid Secondary Highway funds become available to finance it. As to the Umatilla River bridge replacement, the Engineer advised that the present timber structure is in fairly good condition and should give satisfactory service for a number of years. He recommended that the request for the replacement of this structure be denied. As a result of discussion, the Commission unanimously approved both recommendations.

A letter was presented from the County Court of Wasco County requesting that the $100,000 heretofore programmed by the Commission for improvement of the Dufur-Boyd FAS Highway No. 310 be transferred to finance improvement of FAS Highway No. 312, which extends easterly from the Town of Maupin a distance of about 5 miles. The reason given for the proposed transfer is that future modernization of The Dalles-California Highway may have considerable effect on the Dufur-Boyd road with the result that if the $100,000 were spent for the improvement of such road, a considerable portion thereof would be lost. The Engineer advised that the court's reasoning is correct, that there is a possibility that the Dufur-Boyd road will be affected by the modernization of The Dalles-California Highway, although that is a project for some time in the future. FAS Highway No. 312, he said, carries about $2\frac{1}{2}$ times as much traffic as the Dufur-Boyd road, and he recommended, in view thereof, approval of the transfer of the funds as requested by the County Court. The Commission approved the recommendation and instructed the Engineer to present the matter to the Bureau of Public Roads for concurrence.

The Engineer requested authority to spend about $65,000 of State funds to construct a crushed rock surfacing on a 3.76 mile section of the Wasco-Heppner Secondary Highway west of John Day River crossing, which section was recently widened and on which a pit run gravel surfacing was placed, and to widen and surface an additional 1.24 mile section of this highway immediately adjacent thereto, which section is narrow and crooked. He recalled that this highway east of the John Day River crossing has been reconstructed satisfactorily, and he advised that the proposed construction on the west side of the river will place the road in condition to handle all kinds of

traffic for considerable time in the future. He recommended approval of the expenditure, the work to be done in 1952. The Commission approved the recommendation.

The Commission approved an agreement with Douglas County providing for the disposal of a section of the present Oregon Coast Highway between Reedsport and Winchester Bay when the proposed reconstruction of the highway has been completed. (An Agreement was signed later in the session).

The Commission also approved an agreement with Deschutes County providing for county maintenance of the Gerking Corner-North Section of FAS Highway No. 329 upon completion of construction by the State. (An Agreement was signed later in the session).

The Commission also approved an agreement with Hood River County providing for county maintenance of the Dee River Section of FAS Highway No. 306 when improvement of this section has been completed by the State. (The Agreement was signed later in the session).

The Commission considered and approved two agreements with Tillamook County providing for county maintenance of the Dougherty Slough Section of FAS Highway No. 551 and for county maintenance of the Trask River Bridge section of FAS Highway No. 620, when construction of these two proposed improvements have been completed by the State. (Both Agreements were signed later in the session).

The Commission discussed a letter from the County Court of Wallowa County requesting (1) the relocation and resurfacing of the Wallowa Lake Highway between the Cities of Wallowa and Minam, and (2) the resurfacing and oiling of the Little Sheep Creek State Secondary Highway from the Town of Joseph to Sheep Creek, if the Commission cannot see its way clear to continue the improvement to the Town of Imnaha. The Engineer advised that a relocation survey has not been made of the Minam-Wallowa Section, but investigations indicate that to improve this section to present highway standards would require a very material expenditure. He estimated the cost roughly at about $1,000,000 for this 13 mile section. He pointed out that the present highway has been considerably improved during the past few years by betterment work, and is satisfactory to handle traffic which averages about 500 vehicles daily, notwithstanding there are some hazardous curves. He suggested on account of the high cost of improving the section, that the project be deferred for some time in the future when funds can be spared to finance the work. As to the improvement of Little Sheep Creek State Secondary Highway, the Engineer advised that the 5 mile section extending from Joseph to the end of the present oiled surface at the top of Little Sheep Creek Hill needs not only resurfacing and oiling but also considerable regrading, as the alignment is very inferior. He estimated the cost to reconstruct this highway to modern standards at about $300,000, which amount, he pointed out, is not available at the present time. He suggested that the Commission keep this project in mind for possible improvement next year as an FAS project, it being, in his estimation, the most important secondary highway

in Wallowa County, and definitely in need of improvement. The Commission discussed both projects at some length, and it was decided to keep the Minam-Wallowa Section in mind for future consideration when additional Federal Aid primary highway funds become available. As to the other project, the Commission decided to give this project careful consideration in formulating its 1952 construction program. In the discussion, the feeling was expressed that Wallowa County would be better served if moneys available to this county were applied to the improvement of the Little Sheep Creek FAS Highway No. 482, rather than to the Hurricane Creek County Road, FAS No. 497, and that any moneys that are now set up for the Hurricane Creek project should be transferred to the other. The Engineer stated that he would see what could be worked out along that line.

The Commission discussed a letter from the City of Stanfield requesting the widening of a bridge which crosses a drainage ditch on the former route of US Highway 30 just north of the city limits It is alleged that the existing bridge is narrow and a hazard to children who are obliged to cross it in attending school in Stanfield. The Engineer advised that investigation reveals a total vehicular traffic of 2,200 vehicles, and a pedestrian count of only 66 during a 16-hour period. A considerable portion of the pedestrians, he said, were school children. He pointed out that the bridge is only 30 feet long, and he gave as his feeling that, due to the relatively light traffic on the roadway, there should be no particular hazard to pedestrians, who could wait until no vehicles are near the bridge before they cross the structure. He mentioned that it requires only approximately six seconds of time for a pedestrian to cross the bridge. The Engineer also advised that the width of the bridge, 19 feet 4 inches, is substandard, but is wider than many other bridges on the State Highway system. He estimated the cost to widen the bridge at $14,000, but he questioned the advisability of the expenditure. The Commission decided unanimously against the improvement.

The Engineer reported that the cities of Coburg, Donald, Helix, Juntura, Lonerock, North Powder, Phoenix, Prescott and Sherwood have met the legal requirements with respect to the expenditure of state tax street funds which accrued to them during the first six months' period of 1951 and that the plans for the improvements proposed to be financed by such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "C-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the towns of Halfway and Sherwood have fulfilled the legal requirements with respect to expenditure of state tax street funds that accrued to them during the second

six months' period of 1950 and that the plans for the improvements proposed to be financed with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "C-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion requests, as follows, for extensions of time within which to complete highway contracts:

1. Loree Building Service, Contract No. 3552 for building construction in Emigrant Springs State Park on the Old Oregon Trail in Union County, requested an extension of time of 30 days from September 30 to October 30, 1951 within which to complete this job. They attributed their failure to complete the project within the specified time limit to delays in shipment of steel needed for the work, and a change ordered by the State Highway Department in the location of a pump house. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit is correct. He recommended, in view thereof, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

2. J. F. Johnston, Contract No. 3437 for construction of a bridge on the Moores Valley County Road near Carlton, Yamhill County, requested an extension of time of 274 days from September 1, 1951 to May 31, 1952, within which to complete this job. He attributed his failure to complete the project within the specified time limit to the following: (1) heavy rains and high water which prevented excavating work before March 1, the time set for closing the old bridge to traffic; (2) failure of the county to provide a detour and of the city of Carlton to readjust water mains; (3) delays in securing delivery of steel necessary for the job; and (4) delays incident to excavation of piers, rock being encountered instead of blue clay as shown on the plans. The Engineer advised that, when this contract was awarded, it was anticipated that the excavation for the foundations would be started early in the spring and that the existing bridge could be removed by March. However, weather conditions prevented any work until after March 1. In addition, Yamhill County did not provide a detour so the old bridge could be removed and, as stated by the contractor, delays were experienced in the shipment of steel for foundation piling. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads, concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

3. C. M. Merrill, Contract No. 3545 for construction of a sand shed and an extension to the existing maintenance building at Santiam Junction on the Santiam Highway, Linn County, requested an ex-

tension of time of 60 days from October 31, to December 30, 1951 within which to complete this job. He gave the following reason for failure to complete the project within the specified time limit: forest fire on Sardine Creek which caused closure of Idanha Lumber Company's plant, and delayed delivery of lumber, with the result that the job extended into a period of bad weather, which was unsuitable for painting. The Engineer stated that the reason given by the contractor for overrunning the time limit is substantially correct - that the contractor's progress with the work since delivery of the lumber has been very satisfactory. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

4. Del R. Beebe Construction Co., Contract No. 3227, for grading and paving the Marks Ranch-Lone Rock Bridge Section of the North Umpqua County Road in Douglas County, requested an additional extension of time of 16 days from July 31 to August 16, 1951 within which to complete this job. They alleged that their failure to complete the project within the previously extended time limit was due to the fact that they were required to remove additional slide material. They further stated that the road was usable by the public on August 1, 1951. The Engineer advised that this contract was awarded on September 20, 1949, with a specified completion date of September 30, 1950; however, the work was not done at that time and the Commission at its meeting in November 1950 granted the contractor an extension of time to July 31, 1951, with the stipulation that the contractor would be charged, as a penalty, with the extra engineering expense that the State incurred. Due to bad weather conditions, which would not permit paving operations during the winter season, he said, the work was closed down until May 1951 when the paving contractor, J. C. Compton Co., started the paving operations which were completed, except along a short section, by June 23, 1951. The reason that the short section was not paved was because a slide occurred which delayed completion until August 16, 1951. The Engineer stated that an analysis of the engineering costs incurred on the job, indicates that actually there was no excess engineering expense as the necessary pavement inspectors, checkers, etc. would have been required even if the work had been performed and completed within the specified time limit. He pointed out that the engineering costs on the project were less than 8% of the cost of construction, which is normal for a project of this nature. He recommended, in viewof the circumstances, that the additional extension of time as requested be granted without any deduction for excess engineering expense, because none can be proven. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

5. Geo. E. Corliss, Contract No. 3274, for grading and oil mat surfacing on the Scott Canyon County Road in Sherman County, requested an additional extension of time of 238 days from September 15,

1950 to May 10, 1951 within which to complete this job. He gave no particular reason for overrunning the previously extended time limit except that grading work was not completed in sufficient time to perform oiling operations within the specified time. The Engineer advised that the contractor handled this project in a very dilatory manner. He recalled that the Commission at its meeting on August 30, 1950 granted Mr. Corliss an extension of time to September 15, 1950 within which to complete the job, with the stipulation that he would be penalized by an assessment of engineering expense incurred by the State from July 31, 1950 until the job was done. He recommended that the additional extension of time now requested be granted on the same basis. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

6. Russell Olson Construction Co., Contract No. 3403, for grading, surfacing, and oiling the Joseph Section of the Joseph-Wallowa Lake Secondary State Highway, and streets in the Town of Wallowa, requested an extension of time of 11 days from July 31 to August 11, 1951 within which to complete this job. He attributed his failure to complete the project within the specified time limit to the fact that he was busy on other State projects which delayed starting this one. The Engineer advised that the contractor had several State oiling projects in the immediate vicinity of the town of Joseph, and it was to the State's convenience and advantage, as well as the contractor's, to have these jobs completed prior to the commencement of oiling work on the project under discussion. He further stated that the traveling public has not been inconvenienced by the delay, neither has the State incurred any extra expense for engineering supervision. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

7. Rush Construction Co., Contract No. 3446, for rock production on the Eightmile-Heppner Section of the Wasco-Heppner State Secondary Highway, Morrow County, requested an extension of time of 14 days from July 31, 1951 to August 14, 1951 within which to complete this project. The contractor advised that the rock for this project had all been produced prior to the expiration of the specified time limit and that the only thing remaining to be done was to haul it to the designated stockpiles, which work was accomplished as soon as hauling equipment was made available from the Joseph and Wallowa Lake Highway projects. The Engineer advised that the contractor had produced all of the rock required in the contract prior to the completion date specified, but due to the fact that his trucks were being used on another State oiling project nearby, he stockpiled the materials and completed the hauling when his trucks were released from the other work. The traveling public, he said, has not been inconvenienced by the delay, neither has the State incurred any extra engineering expense. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

8. Archie R. Averill, Contract No. 3265, for widening the bridge over the Umatilla River on the Columbia River Highway, Umatilla County, requested an additional extension of time of 83 days from July 1 to September 21, 1951 within which to complete this job. He advised that his failure to complete this project within the previously extended time limit was due to difficulties in securing sufficient labor on a tight labor market in that particular area. The Engineer recommended approval of the request without penalty. The Commission approved the recommendation. (See FOOTNOTE)

9. Tom Lillebo, Contract No. 3322, for construction of the Ferry Street Bridge and approaches on the Eugene-Coburg County Road, Lane County, requested an extension of time of 30 days from September 30 to October 30, 1951 within which to complete this job. He alleged that the extra time is needed to complete certain grading and paving work that was supplemental to the original contract. The Engineer advised that the contractor was delayed practically one month by construction of a connection to 8th Street in Eugene, which work was not included in the original contract. He further stated that the traveling public has not been inconvenienced by the overrun in time limit because the structure was open for public use on July 28, 1951, which was prior to the expiration of the specified time limit. He recommended that the extension of time as now requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

10. VaDare Construction Co., Contract No. 3480 for construction of a bridge over the Deschutes River at Tumalo on the McKenzie-Bend Highway in Deschutes County, requested an extension of time of 60 days from October 31 to December 30, 1951 within which to complete this job. They alleged that they failed to complete the job within the specified time limit because of difficulties in securing delivery of necessary steel, the delay being caused by Governmental restrictions. The Engineer advised that the contractor was delayed for approximately one month on account of a change in plans requiring the driving of piling at three bents. He further stated that, while the contractor did not start operations on this structure until July 2, satisfactory progress was made subsequent thereto, so the job will be completed without the State incurring any additional expense for engineering supervision. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

11. C. R. O'Neil, Contract No. 3491, for grading and surfacing the Summit-Lobster Valley Section of the Alsea-Deadwood State Secondary Highway, Benton County, requested an additional extension of time of 22 days from October 1 to October 22, 1951 within which to complete this job. He stated that he was unable to complete the project within the previously extended time limit because of dry weather

conditions which prevented burning operations. The Engineer advised that the contractor had completed all of the grading and surfacing work on this project within the specified date, and there remained only the burning of logs and brush, which work could not be done until weather conditions were favorable, and no fire hazard existed. This feature, he said, was controlled by the Forest Service, who would not allow the burning until after October 1, 1951. For reasons stated, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

12. M. L. and C. R. O'Neil and George E. Berry, Contract No. 3385 for grading and topping and construction of structures on the North Powder River Section of the Old Oregon Trail, Union and Baker Counties, requested an extension of time of 45 days from September 30 to November 15, 1951 within which to complete this job. They alleged that they were delayed approximately 90 days in securing approval from the Union Pacific Railroad Co. to proceed with the construction of an overcrossing. The Engineer advised that the reason given by the contractor for overrunning the time limit is correct, and that the delay was no fault of the contractor. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

13. M. L. and C. R. O'Neil, Contract No. 3295, for grading and surfacing the Ladd Canyon-North Powder Section of the Old Oregon Trail, Union County, requested an extension of time of 60 days from September 30 to November 30, 1951 within which to complete this job. They stated that this extension of time is needed by their subcontractor, D. F. McKenzie Co., to complete roadbed topping material. The Engineer advised that, had the contractor provided sufficient equipment at the commencement of the project to balance his operations, he would have been able to complete the project well within the specified time limit; further, that the engineering costs on the job have been abnormally high, due to the necessity of constantly replacing stakes, which were destroyed during the contractor's operations, which expense could have been reduced had the contractor made an effort to preserve the stakes. He recommended, in view of the circumstances that the extension of time as requested be granted but that the contractor be charged as a penalty, with the engineering costs that the State incurred in connection with this job from September 1951 to the job completion date. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

14. The Central Heating Co., Contract No. 3340, for pavement resurfacing on the Alsea-Alder Creek Section of the Alsea Highway, Benton County, requested an extension of time of 277 days from November 1, 1950 to August 4, 1951, within which to complete this job. They stated that they were engaged in work for the State under Contract No. 3328 on the

Crater Lake Highway between Cascade Gorge and Prospect during 1950, and that this work was completed too late in the season to commence the work at Alsea, which accounted for the fact that they overran the specified completion date. The Engineer advised that this company was awarded a contract in 1950 for construction of the Cascade Gorge - Propsect Section, but the quarry specified for that job failed and it was necessary to delay the operations until the State could develop another quarry. For this reason, he said, the contractor was unable to move onto the Alsea-Alder Creek project in time to complete it before fall rains interfered with paving operations. He recommended in view of the circumstances that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

15. Cosmo Gilo, Contract No. 3421, for grading the Stout Creek-Mill City Section of the North Santiam Highway, Marion County, requested an additional extension of time of 182 days from October 15, 1951 to July 1, 1952, in which to complete this job. He alleged that extremely wet conditions in the grade and cuts made it impossible for him to finish the roadbed construction by October 15. Also that slides resulting from springs and wet pockets in banks and slopes were frequent and caused considerable delays in the progress of the work. The Engineer advised that this contractor has not exerted any effort to complete the project within the specified time limit. Moreover, he has obligated himself for contracts with other agencies during the summer season, and in connection therewith removed equipment from his State job. The bulk of the grading work has been completed, he said, but there still remains construction of 2 cattle passes, most of the fencing work and the final cleanup and burning of rubbish and debris. He pointed out that the Commission previously granted an extension of time from July 15 to October 15, 1951 within which to complete this project, with the stipulation that the contractor would be charged with engineering expense that the State incurred in connection with the job from October 16, 1951 to the time the job was entirely completed. He recommended that the additional extension of time now requested be granted, subject to a like penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

16. Floyd Grahm Construction Co., Contract No. 3481, for grading and surfacing on the Siletz-Logsden Section of the Siletz-Logsden County Road, Lincoln County, requested an extension of time of 270 days from October 31, 1951 to July 31, 1952 within which to complete this job. They gave the following reason for failure to complete the project within the specified time limit: conditions experienced which made it necessary to move more material than was originally planned and other circumstances beyond their control, which delayed progress of the work. The Engineer advised that the con-

tractor has had great difficulty in obtaining equipment and operators, but has succeeded in grading the roadbed from the east end of the project to the west side of Klamath Grade, and has surfaced this portion so that it is suitable for winter travel. Because of wet weather conditions he said, further grading work cannot be undertaken until next spring. He recommended that the extension of time as requested be granted without penalty. A letter was presented by the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

7. Berke Bros., Contract No. 3448, for grading and topping on the Willow Creek-Boardman Section of the Columbia River Highway, Morrow County, requested an additional extension of time of 15 days from September 15 to September 30, 1951, within which to complete this job. They attributed their failure to complete the project within the specified time limit to extra work that they were asked to do by the State Highway Department, such as construction of an access road from the new highway to the railroad station at Castle, and revision of the grade for the underpass at the connection of Highways No. 30 and No. 730. The Engineer advised that the reasons given by the contractor for overrunning the specified time limit are correct, that the extra work that he was asked to do was not a part of the original contract. The contractor, he said, has prosecuted the work in an excellent manner and the State has incurred no additional expense for engineering because of the overrun. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

8. Porter W. Yett, Contract No. 3505, for grading and paving on the Rays Ranch-West Union Section of the Hillsboro-Cornelius Pass County Road requested an extension of time of 45 days from September 30 to November 14, 1951, within which to complete this job. He attributed his failure to complete the project within the specified time limit to a shortage of equipment repair materials, and additional work required due to unstable material encountered in excavation. The Engineer advised that the contractor encountered considerable unstable materials in his excavation which necessitated additional handling of the materials over and above that normally required. Also that the contractor experienced some difficulty in obtaining repair parts for his equipment. The delay, he said, has caused very little inconvenience to the traveling public and no extra cost to the State for engineering expense. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

9. Coos Bay Dredging Co., Inc., Contract No. 3324, for grading and paving the Fir Avenue-Ingersoll Avenue Section of the Oregon Coast Highway, in the City of Coos Bay, Coos County, requested

an extension of time of 366 days, from September 1, 1951 to August 31, 1952, within which to complete this job. They gave as their reason for overrunning the specified time limit failure of the Southern Pacific Co. to reestablish its track facilities necessitated by the highway improvement. The Engineer explained that this project involved the moving of the Southern Pacific Co.'s tracks in which the State was to construct a new railroad grade and the Southern Pacific Co. was to reestablish its tracks thereon. The company, he said, did not complete its portion of the project in time to permit the contractor to do his paving work before bad weather set in, so such work will have to be deferred until next year. He also said that the delay was no fault of the contractor. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that the Commission's present contract with Brunnel Bros. for furnishing ferry service at the Enegren crossing of Coos River in Coos County will expire on January 6, 1952. He requested authority to advertise for bids to furnish like service for a one-year period after that date, subject to cancellation of the contract upon 60 days' notice to the contractor when the new bridge now under construction across this river, and the approaches thereto, are completed and opened to travel in the late fall of 1952. The Commission approved the request unanimously subject to the cancellation clause as mentioned.

Consideration was given by the Commission to a proposed agreement with the City of Pendleton covering certain improvements on S. E. Court Street, Pendleton, route of US Highway No. 30. It appears that the city has expended a total sum of $3,622.33 for certain street improvements including construction of curbs, catch basins, excavation, surfacing and paving on certain streets, one of which is S. E. Court Street between S. E. 5th Street and S. E. 6th Street, and, due to the fact that the improvements inured to the benefit of highway traffic using S. E. Court Street, the city has requested state cooperation in the expense to the extent of $600. The Engineer stated that

$600 represents a fair share of the improvement cost to the State and he recommended that the city be reimbursed for such sum. The Commission approved the recommendation. (An Agreement covering the matter was signed by the Commission later in the session).

The Engineer reported that Contract Nos. 3105, 3227, 3265, 3340, 3354, 3446, 3454, 3472, 3478, 3491, 3513, 3514, and 3551 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration the Commission by unanimous vote, accepted said contracts by adoption of the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under consideration adoption of the Highway budget for 1952, but deferred action thereon until Chairman Chandler is present, except that the Commission approved EXHIBIT "E" of the tabulation presented by the Engineer, being the contract rock production program, and authorized the Engineer to proceed with the contracting of the projects listed therein. (For list of the rock production projects, see complete proposed budget No. 5 on file in the Secretary's office).

The Commission had under discussion the reclassification from Group 3 status to Group 1 status of the following highways in Harney County so as to permit vehicular movements 60 feet overall in length:

French Glen State Secondary Highway
Diamond Valley State Secondary Highway
Rome-Princeton State Secondary Highway

The Engineer advised that this matter arises because recently State Police have caused the arrest of a number of stockmen who have been using 60-foot equipment, consisting of truck and trailer, for transportation of livestock from rural areas to the main highways, and it appears that they are going to be very seriously handicapped unless they are allowed the continued use of such equipment, which is longer than the statutory limitations. The highways concerned, he said, are now classified as Group 3 highways because equipment 60 feet in length cannot negotiate them without encroaching in the opposing lane of traffic, according to test runs which have been conducted in conformity with the requirements of Section 12, Chapter 405, Oregon Laws for 1951. The traffic on these highways, he said, is very light. Moreover, sight distance along the highway for the most part is not restricted, so the use of overlength equipment will not be objectionable or hazardous, although permits cannot be granted because of the legal limitations. He gave as his feeling that if there is any way at all of allowing permits to be granted without changing the classification of the highways, that should be done. Mr. W. W. Stiffler, Second Assistant State Highway Engineer,

who is in charge of the Permit Division, reported the results of the test runs and verified the statement that the highways cannot be reclassified without evading the intent of the law. He pointed out that the main reason why the equipment cannot operate entirely on its own side of the highway is because of the narrowness of the roadway. The Commission discussed this matter at considerable length, during which the feeling was expressed that the stockmen should be allowed to continue use of overlength equipment if that can be arranged. The matter was referred to the Engineer with instructions to discuss it with the Superintendent of the Department of State Police. (A delegation from Harney County discussed this matter with the Commission on the following day, at which time the Commission explained the situation and the reasons why permits cannot be granted. See ahead for additional paragraph).

The Engineer brought up for discussion a claim presented by Mrs. L. M. Scholl, Hubbard, Oregon, for some trees located on her property near Hubbard, which were cut by members of a highway department survey party. The Engineer advised that this survey party was engaged in making a survey for the proposed Pacific Highway freeway and at this particular point were extending a 6-mile tangent, and in order to maintain accuracy in their work, cut the trees and produced their line directly rather than offsetting around the trees. The claim, he said, is in the amount of $50.00 for 4 trees, three of which were approximately 12 inches in diameter, containing 1152 board feet of merchantable timber, valued at $15.00 per MFBM, and the other was an old growth yellow fir 30 inches in diameter, containing 1344 board feet of merchantable timber valued at $25.00 per MFBM. The total value of the trees from the board foot standpoint, he added, amounts to $50.88. He recommended payment of the claim as presented by Mrs. Scholl. The Commission approved the recommendation.

The Commission discussed and denied as a matter of policy a request from Mr. A. B. Lambert, Portland, for permission to maintain signs along State Highways in the vicinity of Portland directing the traveling public to Lambert Gardens.

The Commission discussed with the Engineer bids received at the morning session for highway construction and at 3:00 p.m., the Acting Chairman, Mr. C. H. Reynolds, publicly announced the action of the Commission with respect thereto as follows:

"Traffic signal installation in the City of Baker, Baker County. Zephyr Electric Co. of Pendleton submitted the low bid at $11,488.41. There were three higher bids. The Commission awarded the contract to the low bidder, Zephyr Electric Co. at its bid price.

"Grading, surfacing, oiling and construction of two bridges on the Pittsburg-Wilson Creek Section of the Pittsburg-Scappoose

County Road, Columbia County. The low bid for this work was submitted by J. N. Conley, Portland, at $179,643.60. There were six higher bids. The contract has been awarded to J. N. Conley, the low bidder, at his bid price.

"Surfacing and oiling the Gerking Corner-North Section of the Gerking and Innes County Roads, Deschutes County. The Commission received eight bids for this project, the low one being that of the Rogers Construction Co., Portland, at $57,535. The contract has been awarded to Rogers Construction Co. at its bid price.

"Grading and paving the Reedsport (Winchester Avenue) Section of a city street project in the city of Reedsport, Douglas County. The only bid received for this project was that of J. C. Compton Co., McMinnville at $18,170. The bid of J. C. Compton Co. in the sum of $18,170 is accepted and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as concurrence is received from the City of Reedsport and provision has been made by said City of funds for the cost of the project in excess of $15,000, which amount will be advanced by the State.

"Construction of a masonry block maintenance building in the Town of Bly, Klamath County. H. G. Wirtz, Grants Pass, was the low bidder of seven for this project at $12,694. The contract has been awarded to Mr. Wirtz at his bid price.

"Construction of a masonry block maintenance building at Sylvan, Multnomah County. C. M. Corkum Co., Portland, was the low bidder for this work at $14,273. There were 17 higher bids. The Commission has awarded this contract to the low bidder, C. M. Corkum Co. at its bid price.

"Grading and paving the Jones Ranch-Mitchell Section of the Ochoco Highway, in Wheeler County. Sixteen bids were submitted for this work, the low one being that of C. R. O'Neil of Creswell, Oregon at $728,595.50. The bid of C. R. O'Neil in the sum of $728,595.50 is accepted, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads."

The Engineer brought up for discussion Bulletin No. 7 issued by the Department of Finance and Administration bearing date of October 31, 1951, on the subject of decentralization of property control. He explained briefly that, according to the bulletin, the Department of Finance and Administration has concluded to dispense with the State Property Control Division and to place the functions of that division with each state department, board, commission and institution, which hereafter shall be respon-

sible for the keeping of accurate records of property and equipment under its jurisdiction. In view of this bulletin, the Engineer requested authority from the Commission to establish a property control section within the State Highway Department and to employ such personnel as may be necessary to handle the work. The Commission approved the request.

The Commission had under consideration a renewal of its agreement with MacWilkins, Cole and Weber, advertising consultants extending for a period of one year after expiration of the present agreement on February 25, 1952, the contract currently in force. It was explained that the renewal of the contract has been recommended by the Travel Advisory Committee. The Commission approved the arrangement unanimously. (An Agreement with MacWilkins, Cole and Weber covering the matter was signed by the Commission later in the session).

The Engineer reported on a request from R. W. Webster, Beaverton, Oregon, for establishment of a reduced speed zone along the Beaverton-Hillsdale Highway from the end of the presently established 40 MPH speed zone at West Slope Road, to the east city limits of Beaverton. He said that when the present 40 MPH speed zone was extended to West Slope Road in 1949 there appeared no justification to extend the zone to the Beaverton city limits, due to the lack of culture, but since then, the district has built up rapidly and the average daily traffic has increased about 400 vehicles per day, resulting in a corresponding increase in the accident rate, from 3.7 per million vehicle miles to 7.78 per million vehicle miles. He recommended, in view of the increasing accident rate, coupled with the rapid residential development, that the Commission extend the existing 40 MPH speed zone from the West Slope Road, M.P. 4.15, to the east city limits of Beaverton, M.P. 5.89. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein

The Engineer also reported a request from the Hayesville Women's Club, Salem, for designation of a 35 MPH reduced speed zone along the Pacific Highway East (US99E) northerly from Salem a distance of about four miles to a place known as "Totem Pole Corner" which request has the endorsement of the Hayesville Parent-Teachers Association. He advised that this section of highway is considerably congested and that the accident ratio is higher than the state-wide average, but he said that is also the case on many of the more heavily traveled highways, which raises the question whether or not the hazard would be decreased materially and the carrying capacity of the highway impaired were the reduced speed zone established. He pointed out that the Commission now has under contract for improvement to a 4-lane standard a $1\frac{1}{2}$ mile section of this highway and he recommended, in view thereof, that the matter of establishing a reduced speed zone as requested be deferred until this highway project is completed and

opened to travel, when further investigation will be made. The Commission approved the recommendation.

A letter was presented from Mr. C. G. Murphy, Secretary, Cummings Hill Zoning Commission, Oswego, Oregon, in which the Highway Commission is requested to give consideration to the erection of suitable warning signs on the Oswego Highway at its intersection with Riverview Road for the benefit and safety of some 50 car-owning residents of their zoning district. The Engineer advised that this matter has been investigated by the Traffic Engineering Department, which advises that there are approximately 75 cars that use this intersection, but which also advises that the conditions here are no different than they are at many others on this highway. If advance warning signs were erected at the Riverview Road intersection, he said, it would be necessary to erect many others in the near vicinity, and experience has indicated that when there are a large number of such intersection road signs, the traveling public pays little attention to them. He added that at the Riverview Road intersection, only one accident has occurred in the last six years, which accident resulted from a motorist making a "U" turn. He recommended that the request be denied, and that the zoning commission be advised that local residents could improve the conditions were they to trim some of the brush and trees growing on their properties near the intersection. The Commission approved the recommendation.

The Engineer requested authority for an expenditure of $1,485 to purchase furniture for use by the Legal Department in its auxiliary offices on the 5th floor of the State Highway Building at Salem. The Commission approved the request.

The Engineer reported the need to impose a 50% reduced load limit on the newly graded section of the North Santiam State Secondary Highway No. 162 between Mehama and Mill City. He said that the grading work was completed recently but no surfacing was applied, and that loggers immediately started truck-hauling logs over this section, causing considerable damage. This matter, he said, was called to his attention on October 20, 1951, at which time he immediately authorized the posting of the road for a 50% reduced load limit in order to keep the logging trucks off the grade. He asked the Commission to confirm the posting. The Commission approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that on November 1, 1951 he ordered the reduced weight load signs removed from the South Santiam River bridge on the entrance road to Cascadia State Park in view of the fact that the bridge has been repaired and is now capable of withstanding legal weight loads. He explained that this bridge was posted for a five ton gross load limit on September 11, 1950, when it was damaged by a logging truck.

He asked the Commission to confirm the lifting of the restriction. The Commission approved the request by unanimously adopting the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission confirmed oral authority heretofore given to Frank R. Towle of the Right of Way Department to go to Boise, Idaho and Salt Lake City, Utah at State expense in connection with the Strasbauch vs State case; amount involved $147.45. The Commission also confirmed oral authority heretofore given Edwin C. Johnson to go to Seattle, Washington at State expense in connection with acquisition of right of way from Mrs. Nettie Salser; amount involved $33.45.

The Commission unanimously approved the Secretary's report on papers that he signed in behalf of the Commission during the preceding month.

The Engineer submitted for the Commission's approval a form of transportation permit for use in granting continuous operation over State highways of overwidth loads consisting of forest products only. He recalled that the Commission at its meeting on September 12, 1951 authorized such movements, and he advised that the permit form, as prepared, is in conformity with the action then taken. He presented a copy of the permit form, which is identified as "Form E-327-2M-10-51", and a form of application for such permit, identified as "Form E-326-1M-10-51", and asked the Commission to approve them. The Commission approved both forms by unanimous vote. In this connection the Commission confirmed for the record the authority granted at its meeting on September 12, 1951 for the issuance of such permit by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion the setting of a date for its next regular meeting and decided to hold such meeting in Portland on Thursday and Friday, December 20 and 21, 1951. The Secretary was instructed to make the usual arrangements for the use of the Green Room in the Imperial Hotel.

The Engineer brought up for discussion the matter of contributing State funds in cooperation with other western states to pay the cost of constructing a test road project in Idaho. He recalled that the Commission earlier in the year authorized an expenditure of $30,000 as Oregon's share of the cost of the project. He also said that when the plans were first prepared, it appeared that the share of each of the participating states would be approximately $20,000 and agreements were entered into by various State Highway Departments and the Highway Research Board, which is sponsoring the

project, on such basis. However, since then the plans and specifications have been completed and bids obtained for the project from which it has been determined that the cost of each participating state will be approximately $30,000. He requested authority from the Commission to enter into a new agreement with the Highway Research Board for an amount not to exceed $30,000 as Oregon's participation in the cost of this work. The Commission approved the request.

The Engineer presented a request from the Supervisor of the Mt. Hood National Forest for authority to construct a log scaling station on the Mt. Hood Highway at M.P. 34.49, which location is at Wildcat Creek in the Cherryville Section, where a location survey has been authorized by the Commission. He said that the scaling area would be so constructed that trucks will be parked a minimum distance of 8 feet from the edge of the pavement, where there should be no interference with traffic if adequate turn-outs are provided. As a matter of fact, he said the scaling area should be helpful to the highway because, presently there is no general scaling area in the vicinity and trucks now park along the shoulder of the highway which does create a hazard. He recommended approval of the request. The Commission approved the recommendation.

The Engineer reported the results of a reconnaissance survey for a one way street system through the City of McMinnville as previously authorized by the Commission. He exhibited a map on which was indicated the most feasible one-way street routing through this place, and pointed out that the one-way couplet provides for the use of Baker Street (existing highway route) for one way traffic north bound, and Adams Street for one-way traffic south bound. Adams Street, he said, is not a continuous street and it is quite narrow in places so that construction along this route will involve considerable expense for right of way. He estimated that construction of the couplet will cost about $215,000 and right of way about $175,000 a total of $390,000. He gave as his belief that the one way street plan ultimately will be required, but he said the cost involved, $390,000, is difficult to finance at the present time. He recommended that the project be kept in mind as a meritorious project to be undertaken when funds become available. The Commission approved the report but took no further action.

The Engineer asked the Commission to authorize for contracting during the months of January, February and March 1952, certain projects contained in the list of projects heretofore approved by the Commission to be financed with moneys derived from the sale of bonds. He explained that it takes considerable time to process projects through the Bureau of Public Roads so it is quite essential that the Commission make a selection of the projects now in order to avoid delays when the plans have been prepared and the right of way acquired. He presented a list of proposed projects as follows:

PROPOSED BOND PROJECTS

(For tentative letting in January, February and March)

	Allotment Requested
U. S. ROUTE 30	
Hood River-Mosier Section:	
Hood River Overcrossing	$230,000
Second Ave. Overcrossing of U. P. RR	85,000
Second Ave. Overcrossing of Highway	47,000
Revision of Approach to Columbia River Bridge at Hood River	46,000
Rock Creek Bridge	50,000
Mosier Grade Separation	70,000
Mosier Creek Bridge	67,000
Shogren Overcrossing	128,000
	$723,000
(The above $723,000 is from the $1,250,000 of bond funds tentatively allotted to the Hood River-Mosier Section. The remaining $526,000 is sufficient for the paving, completion of grading, landscaping, etc.)	
U. S. ROUTE 99E	
Salem By-pass Section:	
Bridge over Mill Creek, 2 railway grade separations and 11 highway grade separations	$750,000
State St.-Turner Road Unit, Grading	150,000
(This $900,000 is the amount of bond funds tentatively allotted to the Salem By-pass. To complete the By-pass, $345,000 has been allotted from 1953 F. A. funds and $920,000 is tentatively allotted from 1954 F. A. funds.)	
U. S. ROUTE 99	
Medford-County Farm Section, 5 mi. Grade and Pave	$500,000

November 8, 1951

PROPOSED BOND PROJECTS (cont.)

	Allotment Requested
U.S. ROUTE 97	
Modoc Point-Barkley Springs Unit of Modoc Point-Algoma Section, 2.52 mi. Grade and Pave	$300,000
U.S. ROUTE 101	
Winchester Bay-Clear Lake Unit of Winchester Bay-Forest Bdry. Section, 2.2 mi. Grade and Pave	700,000
(To complete the Winchester Bay-Forest Bdry. Section, an additional $700,000 is tentatively allotted from future F.A. funds.)	
Hauser-Coos Bay Section, 5 mi. Grade, Pave and 2 Bridges	700,000
Bunker Hill Section, 0.55 mi. Grade and Pave	100,000

As a result of careful consideration, the Commission unanimously approved the request for the recommended projects.

The Commission discussed and approved an agreement with Columbia County providing for county maintenance of the Pittsburg-Wilson Creek Section of FAS Highway No. 609 following construction of this section by the State. (An Agreement covering the matter was signed by the Commission later in the session).

The Commission discussed and, upon the recommendation of the Engineer, denied a request from the Fremont Highlanders Ski Club, Lakeview, that an additional parking area be provided for this group at its skiing grounds on the Warner Valley State Secondary Highway. For the Commission's information, the Engineer advised that investigation reveals that approximately 2,000 skiers at the most use this skiing area during the winter season, and that at the present time there are 109 members of the club. He also said that the present parking area will accommodate 25 cars and there is an additional area not over 0.4 mile distance that will accommodate an additional 25 cars, which, he thought, not too far for the skiers to walk. He estimated the cost to enlarge the present area at $930.00.

A letter was presented signed by 102 residents of Crescent Lake and vicinity in which the State Highway Commission is requested to make provision for oiling the two-mile road which extends from ORE Highway 58 (Willamette Highway) to the Town of Crescent Lake. The Engineer

advised that this road is 2.2 miles in length and is now under the jurisdiction of the State Highway Commission pursuant to an arrangement made with the Klamath County Court in 1949 whereby the county agreed to take over for county maintenance the old section of highway between Barkley Springs and Algoma when the new highway was constructed between these points, if the Highway Commission would assume jurisdiction over the Crescent Lake Road. The exchange, he said, was effected by the Commission at its meeting on October 11 and 12, 1951. The Engineer pointed out that the Crescent Lake Road is now lightly surfaced with gravel, that it is an all-year road although it is somewhat dusty in the dry season, but it is passable at all times of the year. The average daily traffic volume, he said, is 70. He also said that the present road cannot be oiled without the addition of more surfacing materials, which he estimated would cost about $35,000, including a satisfactory oiled surface. The Engineer pointed out that the Bureau of Public Roads is now making a survey for the Cascade Lakes Secondary Highway and there are possibilities that this highway will afford a better connection to Crescent Lake than the existing road. In view of the facts as stated, he recommended that the petition be denied. The Commission approved the recommendation.

The Commission discussed and approved an agreement with the Bonneville Power Administration granting to the BPA a perpetual right to construct and maintain a power line across Primary State Highway No. 1, Lane County. (The Agreement was signed by the Commission later in the session).

The Commission also discussed and approved an agreement with contractors, K. F. Jacobson & Co., Inc., J. M. Arenz, and the Glens Falls Indemnity Co., covering the completion of the contract heretofore awarded to Spada Bros., Contract No. 3439, for construction of the Drake Creek-Adel Section of the Warner State Secondary Highway, Lake County. The Engineer recalled that Spada Bros. defaulted in this work and that the bonding company took it over for completion, and pursuant to authority granted by the Commission, the arrangement to complete the work was made with K. F. Jacobson Co., Inc. and J. M. Arenz. The contract, he said, provides that the surety company is to bear all costs involved over and above the amount that the State would have had to pay Spada Bros. under the original contract. (The contract agreement was signed by the Commission later in the session).

The Commission discussed items of "Unfinished Business" appearing on the Secretary's summary as of October 11, 1951 and took the following action thereon:

(1) Improvement of Mt. Hood Highway between Parkdale and Hood River: Discussion of this matter was deferred pending a conference with the delegation from Hood River on the following day.

(2) Request of the City of Delake for establishment of a permanent grade and installation of curbs on US101 through Delake: This item was previously reported on by the Engineer at this meeting. Item is to be deleted from the list.

(3) Acquisition of Lloyd property for Banfield Expressway in Portland: The Right of Way Engineer advised that the corporation appraisals are still in progress, but they expect to have them completed in about 10 days.

(4) Proposed connection for US30 in Portland at 18th and 19th Avenues: The Engineer advised that his report on the subject will not be ready for 6 or 8 months. He suggested that the item be deleted from the list and be considered as new business when the report is rendered. The Commission approved the suggestion.

(5) Maintenance of Paulina Secondary State Highway, Crook County: The Engineer advised that data is being assembled for a report which he hopes to have ready before the end of the year. It was decided to retain the item on the list.

(6) Design of signs to be erected at ends of construction work: The Engineer advised that as yet he has not received full information from the other states, but he expects to have his report ready in the not distant future. This item is to be retained on the list.

(7) Improvement of the Noti Badger Mountain Section of the Richardson-Eugene State Secondary Highway: This matter was previously reported on by the Engineer at this meeting. The Commission ordered the item deleted from the list.

(8) Damage to Dodge Bridge on Sams Valley State Secondary Highway, Jackson County: The Engineer reported that preparation of this case is in progress but action has not as yet been instituted by the Legal Department. The Commission ordered the suit filed and the case prosecuted vigorously.

(9) Proposed development of Koberg Park near Hood River: Action on this matter was deferred by the Commission pending appearance of a delegation from Hood River on the following day.

(10) Sale of houses in Roseburg: The Right of Way Engineer advised that no houses have been sold to date at this place, so he has no report to render. The item is to be retained on the list.

(11) Purchase of land at Garrison Corner on the Nyssa-Adrian Highway, Malheur County: The Engineer advised that a report on this subject is awaiting the return of the State Highway Engineer. The item is to be retained on the list.

(12) Status of condemnation proceedings: The Chief Counsel advised that his report on the subject was rendered to the Commission some time ago in writing. The item is to be deleted from the list.

(13) Renewal of the State Highway Department forgery bond: The item is to be deleted from the list inasmuch as the new bond has been purchased.

(14) Request of Clackamas County Court for transfer of FAS funds: The Engineer advised that the Court wants the funds heretofore set up for the Kellogg Creek bridge transferred to some other project. Pursuant to the Commission's instructions, he said, the matter has been discussed with the County Court, which wants certain projects that he does not think are necessary. Moreover, there is a question of whether or not the Bureau of Public Roads will approve them. He suggested that the Commission proceed with the construction of the Fields Bridge over the Tualatin River as planned, and that the $50,000 heretofore set up for the Kellog Creek Bridge be held in abeyance. The Commission approved the suggestion and instructed the Secretary to so inform the County Court. This item is to be deleted from the list.

(15) Request of Elmer Bankus for return of land near Brookings: Action in this matter was deferred until Chairman Chandler is present. The Engineer and the Chief Counsel were instructed to have ready at the next meeting their joint report on the subject.

(16) Sale of property at Government Camp: The Right of Way Engineer advised that pursuant to oral instructions from the Commission, the sale of the property has been readvertised, bids to be received on November 30, 1951. The Commission approved the report and ordered the item deleted from the list.

The Commission considered and signed Agreements, etc., as follows:

Deed conveying Lot 5, Block 2, Rehb's Addition, Salem, to Jack and Flora L. Henningsen.

Deed conveying Lot 4, Block 4, Rehb's Addition, Salem, to Kenneth A. Murphy.

Deed conveying property along The Dalles-California Highway south of Redmond to M. A. Lynch.

Extension riders to existing lease agreements with Union Pacific Railroad Co.: (1) materials storage site in Albina, Multnomah County, (2) underground asphalt storage site adjacent to railroad siding at Baker, Oregon.

Agreement with Douglas County providing for disposal of a section of the present Oregon Coast Highway between Reedsport and Winchester Bay when the highway has been realigned.

Agreement with Deschutes County covering maintenance of Gerking Corner-North Section of FAS Highway No. 329.

Agreement with Hood River County providing for maintenance of the Dee River Section (FAS project) when constructed by the State;

also

Two agreements with Tillamook County providing for maintenance of the Dougherty Slough Section and the Trask River Section when these two projects have been completed by the State.

Cooperative agreement with City of Pendleton providing for improvements to SE Court Avenue (US30) in connection with certain city street improvements.

Agreement with MacWilkins, Cole and Weber, advertising consultants.

Agreement with Columbia County providing for county maintenance of the Pittsburg-Wilson Creek Section of FAS Highway No. 609, Columbia County.

Agreement with Soil Conservation Service for furnishing Holland Beach grass for use at Cape Lookout State Park.

Agreement with City of Vernonia covering proposed flashing beacon installation at the intersection of Bridge Street and Rose Avenue in the City of Vernonia.

Agreement with Crown Zellerbach Corporation re exchange of use of quarry material sites in Clatsop and Columbia Counties.

Agreement with Bonneville Power Administration relative to perpetual right to construct and maintain a power line across Primary State Highway No. 1 in Lane County.

Cooperative agreement with Bureau of Public Roads covering Oregon Forest Highway Project 25-A7, Mt. Hood.

Project agreements.

Agreement with K. F. Jacobson & Co., Inc., J. M. Arenz and Glens Falls Indemnity Co. covering completion of Contract No. 3439 with Spada Bros. for construction of Drake Creek-Adel Section of Warner Secondary Highway.

Cooperative agreement for Oregon Forest Highway Project 8-A2, B1, Umpqua Hwy.

Agreement with Pilot Rock Lumber Company covering maintenance and use of a logging road across Battle Mountain State Park, Umatilla County.

Industrial Lease to Roberts Motor Company for Mack Truck Building at east end of Steel Bridge, Portland.

Bargain & Sale Deed conveying Lot 3, Block 2, Rehb's Addition, Salem, Marion County, to E. Walter & Rosella Brutka.

Bargain & Sale Deed conveying Lot 5, Block 4, Rehb's Addition, Salem, Marion County, to Jack & Flora Henningsen.

The meeting adjourned at 4:00 p.m. to reconvene in the same room the following morning.

Portland, Oregon
November 9, 1951

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel, with the following persons present and participating:

Chas. H. Reynolds, Commissioner, Acting Chairman
Milo K. McIver, Commissioner
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
C. H. Armstrong, Parks Superintendent
H. B. Glaisyer, Secretary

A delegation from Harney County, consisting of County Judge, C. W. Craddock; R. E. Kriesien, Attorney; Peter Obiague and O. D. Hotchkiss, livestock men, all of Burns, was present regarding the reclassification of the French Glen, Diamond Lake and Rome-Princeton State Secondary Highways to permit vehicular movements 60 feet overall in length. Judge Craddock headed the group. He explained that the livestock industry is one of the big assets in the southern part of their county and that the only way available to livestock men to move the stock to market is via truck. For a long time, he said, the stockmen have been using equipment 60 feet in length, but recently some of them have been arrested because their permits do not allow such length equipment. These highways, he said, have been classified as Group 3 highways, limiting overall lengths to 50 feet, and unless the use of 60 foot equipment is allowed, the livestock men are going to be very seriously handicapped because smaller equipment is not readily available. He requested favorable consideration. The Acting

Chairman advised that the Highway Commission is sympathetically inclined, but its hands are tied by legal limitations. He called upon Mr. W. W. Stiffler, Second Assistant State Highway Engineer, to explain the legal requirements. Mr. Stiffler briefly outlined the law, particularly Chapter 405 Oregon Laws 1951, which requires that a test run shall be made before the Commission can grant a permit for a movement which exceeds in length the statutory length limits. Such test runs, he said, have been made over the three highways under discussion, and it has been found that portions thereof are too narrow to permit the 60 foot loads without encroachment in the opposing traffic lane. Accordingly, the Commission cannot legally issue the permits for such length loads. Judge Craddock pointed out that these highways traverse open country where sight distance is long, the main difficulty being the width of the road, where even passenger cars cannot travel without taking up more than half the roadway. His statement was confirmed by Mr. Stiffler. The matter was discussed at considerable length during which the Acting Chairman stated that the Highway Commission has no objections to the use of the overlength equipment, but it just cannot approve it legally. Commissioner McIver inquired as to the cost to widen the highway and was informed by the Engineer that it is a very costly undertaking. As a result of the discussion, the Commission referred the matter to the Engineer to discuss with the Superintendent of the Department of State Police to see what arrangement can be made to take care of the situation. He was instructed to convey the information to Judge Craddock.

A delegation was present from the City of Milwaukie; the group was headed by Mr. Thomas Telford, City Manager, and included Hon. Fred Sperr, Mayor; Garland Taylor, Ed Norbeck and R. E. Klein, city councilmen; and E. W. Kirkpatrick, City Attorney. Mr. Telford recalled that the State Highway Department some time ago wanted a strip of land along the west side of US99E, extending southerly from Harvester Drive to the southerly end of the property that the city owns, near the north city limits of the town of Milwaukie, so as to control access to the highway from the adjacent property. The city, he said, granted an option for the strip, but the Highway Commission never exercised it. It now develops that the city has a buyer for some of its land on the west side of the highway, a Mr. P. L. Crooks, who wants one access to the highway in addition to the existing access at Harvester Drive, although he says he may never use it. It was the feeling of the City Council, he said, that the Highway Commission should be consulted before making any definite arrangement with Mr. Crooks. He also stated that the city of Milwaukie is anxious to have the outer highway on the east side of US99E extended into the city of Milwaukie. He inquired whether or not the State will construct such extension if the city will furnish the necessary right of way for the same and will give the State the strip it wants on the west side of the highway. The Engineer explained further details, particularly pointing out that if the city's prospective purchaser Mr. Crooks, is given an additional access to the highway, it would mean installation of a traffic signal at that point.

He also said that the State is not at all interested in obtaining the strip along the west side of the highway unless access to the highway is fully controlled. The Engineer also mentioned, as an alternative proposition, construction of a connection on the east side of the highway at Harvester Drive similar to the existing one on the westerly side, for the convenience of northbound highway traffic, which would go to Mr. Crooks' plant or to any point on the west side of the highway. He pointed out that under existing conditions, northbound US99E traffic that wants to make a left-hand turn on Harvester Drive to points west of the highway must cross two lanes of south-bound traffic, which is rather dangerous because of the heavy volume of traffic at this location, but if the connecting roadway were constructed, all northbound traffic would then be protected by the existing traffic signal at this intersection. He estimated the cost of such connecting roadway at about $4,000. Mr. Telford advised that he has discussed this matter with Mr. Crooks, who appeared to be favorably inclined, although he made no definite statement regarding it. In the further discussion of this matter, the Acting Chairman mentioned that this is a new problem for the State Highway Commission, and it involves a question of State funds and a deviation from the Commission's policy with respect to access. He said that the Commission does not favor additional openings and the Commission is not in a position today to make a definite statement relative to extending the present service road into the City of Milwaukie. Mr. Kirkpatrick mentioned that the right of way for the service road extension is estimated to cost about $22,000. The Acting Chairman concluded the discussion by stating that the matter will be investigated, and the City will be advised when final action has been taken by the Commission.

Mr. Jack Steiwer, Secretary of the Fossil Community Club, was present. He gave as their understanding that the Highway Commission has authorized an expenditure of $45,000 next year for certain improvements to the Butte Creek-Summit Section of the John Day Highway. He also said that it is the feeling of the group that he represents that such sum is not sufficient to do much good, and that they now prefer this money spent for improvement of the John Day Highway between Service Creek and Spray. Anyway, he said, they do not want any money spent on the Butte Creek-Summit Section until the Commission is in a position to provide a permanent improvement. Acting Chairman Reynolds recalled that the request of a former delegation that appeared before the Commission in regard to this project was for a temporary relief job, which the Commission authorized, the work to consist of widening the worst places so as to provide safety for traffic when passing. However, he added, the matter will be given further study and, if the Commission can justify the transfer of the funds, that will be done.

The Engineer brought up for discussion the matter of cooperating with the Council of State Governments, an organization consisting of representatives of the eleven western states, in correlating highway functions, such as road laws, weight limits, etc. He explained

that this organization is considering such a correlating service with headquarters possibly at the University of California, and that it works with the legislative interim committees. It appears that the Oregon Legislative Highway Interim Committee has been approached with regard to participating in the expense involved, which is estimated at $22,000 or $2,000 for each of the eleven states. The Oregon Committee, he said, has inquired whether or not the State Highway Commission has any objections to the committee contributing about $2,000 of its funds in cooperation with other states, the idea being that, if the Highway Commission has no objections, details then will be worked out among the members of the committee and the Council of State Governments. As a result of discussion the Commission stated that it would have no objections whatsoever to the expenditure if the committee wishes to spend its money in that manner.

The Engineer also brought up for discussion the matter of purchasing metal culvert pipe for use in connection with construction of the Divide-Anlauf Section of the Pacific Highway, which project has been authorized for next year's construction. He said that this project requires 257 tons of metal culvert pipe, that can be purchased now for approximately $70,000, but contractors might not be able to obtain it next year because of prospective governmental restrictions, it being predicted that metal culvert pipe will soon be included in the list of controlled items. He recommended purchase of the pipe at this time, notwithstanding that there is a possibility that Federal reimbursement cannot be obtained. The Commission considered it good business to purchase the pipe at this time. Accordingly, motion was made by Commissioner McIver that the Engineer be authorized to spend approximately $70,000 for pipe for this job. Acting Chairman Reynolds seconded the motion and declared it carried.

A delegation from Lakeview, headed by Mr. Burt K. Snyder, former member of the state legislature, and including Messrs. Hugh Mercer and Dave Farmer, Councilmen; and Walter Dykeman, street superintendent, was present in the interests of highway improvements within the city limits of Lakeview. Mr. Snyder asked for the widening of the pavement on the Klamath Falls-Lakeview Highway and on the southerly portion of the Fremont Highway within the city limits, in order to relieve traffic congestion and to provide safety for pedestrians. He advised that considerable development has taken place on the Klamath Falls-Lakeview Highway and on the Fremont Highway just south of Lakeview and, because of a 100% increase in traffic volume during the past year, which the highways as now constructed are unable to handle, considerable congestion occurs and a dangerous condition exists for people who walk on the pavement as they now are required to do. The Engineer advised that the portion of the Fremont Highway which extends northerly to Bend is in pretty fair condition, but the section leading south from Lakeview is narrow. Likewise, the Klamath Falls-Lakeview Highway is narrow, the pavement consisting of an oiled surface only 18 feet wide. He also said that investigations a year ago revealed that it would cost about $46,000 to widen the Klamath Falls-Lakeview Highway and about $118,000

to widen the Fremont Highway, a total of about $164,000, but the work today probably would cost about $190,000. He pointed out that the traffic volume on the Klamath Falls-Lakeview Highway is about 2,200 vehicles daily and that on the Fremont Highway is about 1,200 daily, a considerable portion of which consists of logging trucks. He also said that the improvement will not only benefit local people but also through traffic, and that it is a meritorious one when funds are available to finance it. As a result of discussion of this matter, Acting Chairman Reynolds stated that the Highway Commission will give the project early consideration and study. He pointed out that the question of funds is involved and that the cities are now getting a large portion of highway revenues. The Engineer was instructed to make such further investigations as may be necessary and to render a full report to the Commission at its next regular meeting.

A delegation from McMinnville, including A. B. Stanky, Salem, owner of a Service Station in McMinnville; Henry Flomer, McMinnville, owner of Red Top Motel; C. Bays, McMinnville, owner of the Walnut Trailer Apartments; and P. E. Piluso, Portland, representing the McCall Oil Co., which supplies Mr. Stanky's service station, was present and urged the opening of divider strips on the new highway constructed just south of McMinnville so as to allow traffic from both directions ingress to and egress from the service station and the motor courts owned by these gentlemen. Mr. Piluso was principal spokesman. He said that the traffic now can enter the service station from one direction only and that a similar situation exists at Mr. Flomer's motel and Mr. Bays' trailer apartments. Moreover, the opening into the trailer apartments is too small and people have difficulty in driving their trailers into the lot, particularly if they are extra long. He suggested, in order to accommodate Mr. Flomer's motel, the cutting of about 10 feet off the edge of the highway at the Flomer Motel. He also urged the opening up of the divider strips so as to permit traffic from both directions to enter the service station and the other facilities. He was informed by Acting Chairman Reynolds that it is the function of the State Highway Commission and its engineers to construct highways for general public use and enjoyment and in so doing it is necessary to introduce certain features, such as traffic divider strips and islands, in order to eliminate hazards as would obtain were the divider strips and islands left out, particularly on 4-lane highways, such as the one under discussion, where traffic volume is heavy. The Highway Commission, he said, does not want to build highways that will handicap or be a detriment to the public, but in order to provide for safety, it sometimes is necessary to do things that hurt the adjacent property owners. As a result of further discussion, the Commission agreed to give the request consideration, although it was explained not much hope can be given that the request will be approved.

A delegation from the City of Portland and Multnomah County, consisting of the following persons, was present regarding construction

of tunnels rather than bridges across the Willamette River in Portland: Hon. Dorothy McCulloch Lee, Mayor of Portland; Frederick J. Schnell, representing the Progressive Businessmen's Club; R. D. Ward, representing the Hollywood Boosters Club; K. R. Jette, President of the East Side Commercial Club; W. J. Morrow, Secretary, East Side Commercial Club; H. H. Pearce, representing Parkrose Chamber of Commerce; Frank L. Shull, Chairman, Board of County Commissioners, Multnomah County; A. L. Brown, County Commissioner; L. D. Purcell, Progressive Businessmen's Club; Ernie Edmeades, Progressive Businessmen's Club; and William Bowes, City Commissioner. Mayor Lee headed the group. She advised that this delegation represents various civic groups in the City of Portland, who have been most interested in looking into the feasibility of a tunnel under the Willamette River. The matter came to a head, she said, in the early part of the year when a group was formed, called the "Tunnel Committee", which met informally with the City Council and with the Board of County Commissioners. She gave as her understanding that the group fully realizes that actual construction of the tunnel is out of the question at the present time, but the group is interested in a survey to ascertain and determine whether or not such a project would be feasible. She declared that the responsibility for bridges over the Willamette River is a function of the county and the State, the city's responsibility being limited to construction of approaches, but she added, the city is also interested in anything reasonable and forward looking, such as the project that the Tunnel Committee has in mind. Mrs. Lee introduced Mr. Schnell, Chairman of the Tunnel Committee. Mr. Schnell advised that he was delegated by his group to come before the Highway Commission at this meeting and request an appropriation of sufficient funds to finance an engineering survey to determine the practical and economic feasibility for a tunnel crossing of the Willamette River as an outlet for T. H. Banfield Expressway. He gave as their feeling that it would be a mistake to bring an expensive highway into a bridge bottleneck. He suggested employment of a well qualified firm of engineers experienced in the construction of tunnels to make necessary studies. He estimated the cost of the survey at from $25,000 to $50,000 and he asked the Highway Commission to join with the City of Portland and Multnomah County in bearing this expense. Mr. Schnell presented to the Commission a typewritten statement in support of his oral request. Mr. Jette endorsed the remarks of Mr. Schnell. He added that the Tunnel Committee has been informed by qualified engineers of this community that enough facts are available to support a request for a survey for a tunnel of this kind. He also stated that they are not pushing construction of the tunnel, but simply are requesting a survey to determine whether or not a tunnel is economically justified and sound, and whether or not it would relieve Portland's traffic problem. He declared that the City of Portland in the past has underestimated its possible growth, and he predicted that future growth of the city will be amazing and in time beyond the understanding of the people who live here now. He urged favorable consideration of the survey. Commissioner Bowes was asked to make a statement, but declined, stating that he had nothing further to add than has already been said. Mr. Shull

gave as his feeling that the engineering personnel of the State Highway Commission, City of Portland and Multnomah County are capable of making the engineering surveys as may be required, and that it would be unnecessary to employ others. He expressed the feeling that the engineers of these three organizations should make a survey of the project and bring in a recommendation. Mr. Brown expressed himself in agreement with Mr. Shull. He expressed his feeling that the tunnel project is the solution to their problems and that the survey will determine if it is economically sound. He endorsed the request for a preliminary survey. Mr. Schnell explained the committee's reasoning for specifying engineers who are not connected with the organizations of the state, county or city. Briefly, he said, it is the feeling of the committee that employment of an outside engineer with experience in tunnels would avoid local feeling which might influence an engineering decision. However, the local engineers should not be disregarded entirely. Mr. Ward stated that his business is predominantly on the East Side of the Willamette River, but, he said, there should be constructed a good expressway facility to the West Side of the river as a public convenience, and he urged the tunnel to provide such facility. Mr. Pearce also spoke for the survey in behalf of the people of Parkrose. Mr. Schnell concluded the presentation by thanking the Commission for its time and attention. The Commission made no response.

The following persons composed a delegation from the City of Hood River, which appeared before the Commission: Hon. F. B. Garrabrant, Mayor; Ed Steele, Manager, Hood River Chamber of Commerce; Dan L. Pierson, President, Chamber of Commerce; and R. W. Arens, President of the Farm Bureau and Chairman of the Highway Committee of the Hood River Chamber of Commerce. Mr. Steele headed the group. He said that the group has three matters to present to the Commission, viz., snow removal on the Cooper's Spur Road, establishment of a wayside park along the Columbia River Highway at Koberg's, and improvement of the Mount Hood Highway. As to the first of these three projects, Mr. Steele recalled that the Commission last year authorized snow removal operations on the Cooper's Spur Road for the benefit of winter sports enthusiasts. He advised that there were 2,700 visitors and skiers who patronized the area last year and that the number would have been considerably larger had weather conditions been more favorable. He urged the Commission to keep the road open again this year up to the tow line, a distance of about 2 miles, on the same basis that the operations were conducted last year. As a result of discussion, the Commission unanimously approved the request.

Mr. Pierson presented their request for the development of a State Park at a place known as Koberg's Beach. He recited the history of this area, advising that the beach had been used by the people of the mid-Columbia area for recreational purposes ever since the first

settlers came into Hood River Valley. He read aloud a prepared brief on the subject and urged the Commission to develop the property, which is now owned by the State, as a wayside park for travelers on the new Columbia River Highway. He declared that there is no place along this highway easterly to the Idaho state line that offers the possibilities for a wayside park as does this place, which, he said, could be developed at reasonable cost, and where drinking water, scenery, swimming and fishing are available to the public immediately adjacent to the highway. Mr. Pierson filed with the Commission a typewritten statement in support of his oral request.

Mayor Garrabrant endorsed the remarks of Mr. Pierson for development of Koberg Beach Park. He gave as his feeling that there is a very apparent need for a recreational area where people can congregate safely and avoid situations such as obtains along the Columbia River Highway near Troutdale and Multnomah Falls, where people park their cars along the highway while enjoying the recreational facilities available at those places.

Mr. Arens presented the group's request for improvement of the Mount Hood Highway immediately south of its connection with US30. He gave figures on traffic volume, advising that this highway carries traffic from 350 farms and that the traffic count at the north end of the highway shows a daily average of 1735 vehicles, and at Odell junction, the daily average is 1270 vehicles. He also gave figures on the tonnage of fruit that is carried over the road, the yearly average being apples and winter pears, 65 000 tons and Bartlett pears 11,000 tons. He pointed out that 50% of the packed fruit from the Odell and Parkdale warehouses is transported over this highway in large trucks, hauling 800 boxes each, and he also stated that almost the entire production of logs of the Hood River Box and Veneer Co. is hauled over the road, also, all of the logs of the Jaymar Lumber Co., and the logs that are rafted in the Columbia River at Hood River. Mr. Arens pointed out that, because of the highway conditions, several loads of fruit are lost annually due to the severe curvature of the highway and bad crown conditions, which means a loss of some $600 per load. He urgently requested improvement of the highway, particularly at two places, viz., Fike's corner and underpass, and at Whiskey Creek junction. He said that they have been looking for the improvement of this highway for a long time and that the Fike's Corner underpass project was considered by the Commission before the war.

Acting Chairman Reynolds advised that the Commission previously at this meeting discussed the matter of developing Koberg Beach Park as a recreational area, and decided to give it further study and personal inspection to make certain it is a merited project. He pointed out that there are traffic problems that will have to be solved. As to Mr. Arens' request for improvement of the Mount Hood Highway, Acting Chairman Reynolds advised that this is a matter of funds and that the Commission is

going to give it further study. The Engineer was thereupon authorized and instructed to make such study at the two places mentioned by Mr. Arens, and to report his findings to the Commission. In concluding the presentation, Mr. Pierson mentioned that the Highway Commission in its investigation will find that there is going to be a traffic hazard at Koberg Beach even if the area is not utilized as a State park because, he said, people will use the area anyway and will leave their cars parked on the highway shoulders.

Mr. J. H. Harland headed a delegation from the Town of Rickreall, Polk County, which registered objections to the proposed plan of the State Highway Commission for construction of a new highway extending from Rickreall to a connection with the Dallas-Coast State Secondary Highway at a place known as Dolph Corner. Others in the group were: Miss Elsie Monson, Mrs. Anna Ryan, M. J. Ryan, W. M. McDaniel, Howard Fleming, A. R. Cadle and W. H. Harland. In presenting their case, Mr. Harland (J. H.) read aloud a prepared statement setting forth their objections to the proposed highway, summarized as follows: (1) the proposed highway cuts across farm property at about a 45° angle, which will make it very difficult to operate the land and will nearly double the cost of operation; (2) it will necessitate the relocation of considerable drainage ditches, private roads and utilities; (3) every low spot that is crossed by the road will cause a surplus water problem; (4) the property owners affected are long-time residents of the district and do not wish to sell their properties at any price, but, if forced to do so, will demand maximum damages. Mr. Harland offered two alternative propositions, the first being a location extending from Oak Knoll Golf Course to Dolph Corner. A road in such location, he said, will provide a better route and will satisfy more people. He also said that it will be about 7.4 miles in length and will save about 4 miles of travel over the present route, whereas, the route proposed by the Highway Commission is 4.43 miles in length and will realize a saving of only 2.67 miles. He offered, if this route is adopted, to donate one-half of a 100 foot right of way across his holdings, about a mile and a quarter in length. He also stated that other property owners will be very liberal as to the right of way across their property. He urged adoption of such a route because it is not well adapted to home sites and because it will afford traffic an unobstructed view throughout most of its length; will eliminate considerable congestion at Rickreall and will result in a tremendous improvement over the existing situation at Derry Station. As a second alternate, Mr. Harland suggested modernization of the present highway from Brunk's Corner to Dallas with a new connection to Dolph's Corner. Many people, he said, favor such routing, including quite a few from Salem. Others speaking in behalf of the alternates suggested by Mr. Harland were Mr. Cadle and Mrs. Ryan. At the request of the Acting Chairman, the Engineer explained the benefits that would be received by the public if the proposed route between Rickreall and Dolph Corner were constructed. Such savings, he said, are the highest of any in the state, and the return to the public will be $12 for each $1 expended for construction of the road. He

estimated the cost to construct the road at $295,000 and the cost to acquire right of way at about $100,000, or a total cost of about $395,000. He also said that the road will pay for itself within five years. He also gave figures on traffic volume. Acting Chairman Reynolds advised that this project is not a new one, but has been considered by the State Highway Commission for a long time, even prior to World War II, and that it has been given a lot of study by the engineers. He stated that the Commission realizes that the road will cut up some of the farms through which it passes, but, he said, that is not a new problem to the State Highway Commission and it seems there is no way to avoid it. He added that the Highway Commission will give every consideration to the objections offered at this meeting, although not much hope can be given that any changes in the plan as presently prepared will be approved. Mr. Harland again urged the Commission to give very careful consideration to the Golf Course-Dolph Corner alternate route, which, he said, will save four miles of travel (8 miles round trip) for loggers and others. He also referred to his offer to donate a portion of the right of way across his holdings, and he advised that if the Highway Commission desires to proceed in accordance with its present plan for a road between Rickreall and Dolph Corner, it will have to "pay through the nose" for the right of way. Acting Chairman Reynolds concluded the discussion by restating that the Commission will carefully consider the matter from every angle, and will decide the matter on the basis of doing the best thing for the greatest number of people.

Mr. Harland registered a complaint in reference to a drainage problem at Basket Slough bridge on US99W, about 2¼ miles north of Rickreall. He said that when this bridge was constructed in 1922, it acted as a dam, preventing the drainage of the surrounding territory and that his request for remedial measures when presented to the State Highway Department was denied, so he had to spend $500 of his own money to lower the grade under the bridge. The Engineer was instructed to look into the situation.

Following the departure of the group, discussion of the proposed highway between Rickreall and Dolph Corner was resumed. The Engineer was instructed to present a full report on the matter during the afternoon session. (The Engineer rendered his report later in the session. The Commission then unanimously adopted the location between Rickreall and Dolph Corner. See ahead for additional entry.)

The meeting recessed for luncheon at 12:00 o'clock noon and reconvened at 1:30 p.m. with the same persons present and participating.

The Commission had under discussion a letter from Mr. Malcolm H. Hawke, Chief Auditor, stating his desire and intention to sever his connections with the State Highway Department as of November 7, 1951. As a result of discussion, motion was made by Commissioner McIver that Mr. Hawke's resignation be accepted as of the date specified. Acting

Chairman Reynolds seconded the motion and declared it carried.

In view of Mr. Hawke's resignation, it became incumbent upon the Commission to select someone to perform the duties and functions heretofore assigned to him. The name of Mr. Clifford H. Maison, presently employed as Assistant Auditor, was mentioned. Motion was made by Commissioner McIver that Mr. Maison be appointed Manager of the Accounting Division of the State Highway Department, in which capacity he will be responsible for actions of the Accounting Division. The motion was seconded by Acting Chairman Reynolds and was declared by him carried. The following statement concerning this appointment was thereupon made by the Commission for the record:

> "It is the desire of the Highway Commission that the records of the Commission show that Mr. Clifford H. Maison is hereby promoted from his present position of Assistant Auditor to the position of Manager of the Highway Department Accounting Division and that he have charge of and be responsible for the operation of the Accounting Division. Before entering upon the duties of Manager of the Accounting Division, Mr. Maison shall give to the State of Oregon, the State Highway Commission and members thereof, a liability bond executed by a corporate surety company duly licensed to transact the business of surety within the State of Oregon in the penal sum of $100,000.00. Said bond shall be conditioned upon the faithful discharge by Mr. Clifford H. Maison of the duties of his position, as such duties may be now or hereafter prescribed by the Commission; for the faithful performance by all persons employed by him, or under his control or supervision, of their duties and trusts; and for the transfer and delivery to his successor, or to any other person designated by the Commission, of all moneys, books, papers, records and other articles or effects belonging to his position or to the Accounting Division."

The salary to be paid Mr. Maison in his new position was then discussed and it was decided that the position should be classified as Accounts Executive III, salary range from $513.00 to $610.00 per month. The Commission approved the starting salary of $551.00 per month. Mr. Maison declared himself perfectly satisfied.

The Chief Counsel reported a settlement of the case of the State vs. Ida B. Ward et al, proposed by Harold Henigson, concerning right of way needed by the State for construction of the Nyssa-Adrian Section of the Nyssa Adrian State Secondary Highway. He explained that the State is taking a small parcel at the corner of Mrs. Ward's 320 acre farm at an agreed price of $800 per acre. The defendants claim, he said, that because of the taking, they are unable to utilize some of their land where the highway taking leaves square corners,

because farm machinery which they use on their crops cannot reach such places and they grow up to weeds. They also allege that the area thus destroyed amounts to 0.75 acre for which they are asking payment of $600. The Chief Counsel advised that the previous settlement was at $1500 but, if the Commission approves the extra payment, the total will be $2100. He gave as his opinion that the extra taking is less than 3/4 acre, and he recommended, therefore, in order to settle the case, payment for the actual area at the rate of $800 per acre, which he thought would amount to about $300. The Commission approved the recommendation.

The Chief Counsel brought up for discussion a claim filed by Mr. Howard F. Gepner, Portland, for injuries suffered by his 7 year old daughter, who, it is alleged, fell from a bicycle while riding on the sidewalk in front of State Highway property at N.E. 39th Avenue in Portland. Mr. Gepner, he said, alleges that his daughter fell from the bicycle due to a poor sidewalk, that she lost several teeth which have been replaced by dentures costing $35.00, with more expense to follow in the future. He asked the Commission for an expression whether or not it considers the State morally obligated to pay the claim. As a result of discussion, the Commission decided unanimously to deny the claim unless there are facts concerning it, of which the Commission has not been advised.

The Chief Counsel also brought to the Commission's attention a proposed settlement with Messrs. Marion Mooney and Louie Nichols et al for right of way needed for a proposed improvement of the Reedsport-Winchester Bay Section of the Oregon Coast Highway, Douglas County. He said that the property consists of portions of three lots of a platted subdivision, the appraised value of which is $1254. In dealing with the owners, he said, an offer of $1275 was made but was refused; however, they will settle for the sum of $500 for each lot, or a total of $1500. He recommended payment of such sum in order to avoid the expense of condemnation. The Commission approved the recommendation.

The Chief Counsel reported the status of the Commission's condemnation case against Mr. James P. Weter for right of way needed for improvement of the Oregon Coast Highway in the City of Coquille. He said that only a small parcel of land is being taken for which an offer of $5,100 was made, whereas the owner originally demanded the sum of $15,000, but later agreed to settle for $7,500. He requested instructions from the Commission whether or not to pay such sum, but he recommended that the offer be refused. The Commission approved the recommendation.

The Chief Counsel brought up for discussion a proposed "out of court" settlement of the case of the State vs. Gladys June Haviland, involving property that is needed as right of way for the Upper Columbia River Highway near the Columbia Gorge Hotel, Hood River County. It appears that Mrs. Haviland owns about 18 acres of land on which is situate a 12 room house and two artificial lakes. Also that the Commission previously authorized an offer of $10,500 for the property in condemnation in the event that appraisals reveal that is the correct value of the

property. The Chief Counsel advised that two separate appraisals of the property were made for the State, one of which indicated a value of $8500 and the other a value of $8700 with an extra allowance of $200 for fencing. However, Mrs. Haviland had the property appraised by Mr. Horace Dryer, a commercial appraiser from Portland, who has set a value of $10,500 on the property. It is alleged by Mr. Dryer, he said, that the property is worth such sum because the State is taking the best part of Mrs. Haviland's land and is depriving her of certain privacy which she previously enjoyed. He recommended payment of $10,500 for the property, otherwise that he be given authority to proceed with condemnation proceedings. The Commission approved the recommendation.

Pursuant to instructions from the Commission earlier in the session, the Engineer rendered a report on the proposed highway extending from a junction with the Salem-Dallas Highway at Rickreall northwesterly to a connection with the Dallas-Coast State Secondary Highway at a place known as Dolph Corner, objections to which location were offered by residents of Rickreall and vicinity during the morning session. Also covered by the report was the alternate route recommended by the group, which extends from Oak Knoll Golf Course on the Salem-Dallas Highway to Dolph Corner and improvement of the present highway. Briefly the Engineer stated that several years ago, a former highway commission recognized the need for improving the existing highway between Dallas and Dolph Corner and ordered investigation of several different routes, one of which was the improvement of the present route north from Dallas, which, it developed, was not economically sound. The second was the route suggested by the delegation, between Oak Knoll Golf Course and Dolph Corner, and the third was the Rickreall route. The Oak Knoll route, he said, is 7.4 miles long, will provide a saving of 3.2 miles in distance under the present route through Dallas, and is estimated to cost $719,000, whereas the proposed route from Rickreall to Dolph Corner is 4.43 miles long, provides a saving of 2.67 miles in distance, and is estimated to cost only $395,000, including construction and right of way. He pointed out that the saving in distance is only 0.53 mile and that in order to realize it, it would cost the State about $324,000 which in his estimation is not justified. He also pointed out that the route from Oak Knoll Golf Course to Dolph Corner closely parallels for a considerable distance the existing highway which still would have to be maintained. Too, the adoption of either route would require purchase of farm property, the value of which along the Oak Knoll route probably would be somewhat less than along the other, because it is low ground, although any benefit that might be realized by reason of the lower unit cost of the land would be offset by the need to purchase considerably more right of way than along the Rickreall route. The Engineer also mentioned that considerable of the coast-bound traffic, which originates along US99W south of Rickreall will be affected were the Commission to adopt the Oak Knoll-Dolph Corner route. He pointed out the benefits that would accrue in connection with each of the routes, and advised that such benefits are vastly in favor

of the route from Rickreall to Dolph Corner, which route will pay for itself in about two and one half years. The logical route and the best route, as determined by economic analysis, he said, is the one which connects with the Salem-Dallas Highway at Rickreall and he recommended adoption of such route by the Commission. After careful consideration of the report, motion was made by Commissioner McIver that the route of this proposed highway as surveyed, and as recommended by the Engineer, between Rickreall and Dolph Corner, be adopted by the Commission as a permanent route of this highway. The motion was seconded by Acting Chairman Reynolds, who declared it carried by unanimous vote. The attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously. The Right of Way Engineer was authorized by the Commission to proceed immediately with negotiations to acquire the right of way along the line of the adopted survey.

The County Court of Crook County, represented by Commissioners J. C. Minson and W. R. McCormack, was present concerning the possibilities of obtaining a timber access road extending eastwardly from the town of Paulina, Crook County, to the town of Seneca, Grant County. Mr. Minson was principal spokesman. He advised that the district to be served by the proposed road contains a vast amount of timber that is to be sold by the Federal Government in the not distant future and that the road is needed to facilitate the truck-hauling of logs to market at Prineville. He exhibited a map prepared by the U. S. Forest Service, showing the location of the timber, and advised that it will have to be marketed during the next five years. He urged construction of the road so that it will be ready for use when the timber is sold. He pointed out the possible use of the road as a portion of another cross-state route leading to Vale. Acting Chairman Reynolds pointed out that there is an existing highway outlet for timber in the Seneca area. He gave as his feeling that the Highway Commission should improve the present highway from Prineville to Paulina before any thought is given to extending it beyond that place, and he advised that it will be considerably more than five years before the Highway Commission will be in a position to even think about building a new road east of Paulina. Mr. McCormack spoke for the road from the recreational standpoint. Mr. Minson asked the Commission to at least designate the road as a State secondary highway, if it cannot see its way clear to construct it. He offered county cooperation. After further discussion, Acting Chairman Reynolds concluded the conference by again stating that the Highway Commission feels that it should spend its available money for improvement of the present road to Paulina before considering extending it eastwardly from that point; however, the Commission will take the matter under advisement, but can give no hope for approval. He mentioned that an economic survey of the Paulina district is now being made to determine whether or not there is justification for further improvement of the highway between Prineville and Paulina.

Mr. Minson then inquired when the Highway Commission proposes to landscape the area at the junction of the Ochoco and Madras-Prineville highways just west of Prineville. He gave as his understanding that the project has been authorized although the work has not as yet been started. The Engineer stated that he believed the Commission authorized $6,000 for this work, although he is not quite certain as to the amount. He was instructed by the Commission to check the records as to the authorization.

The Chief Counsel reported difficulties in acquiring right of way that is needed for improvement of the Gilchrist-Willamette Junction Section of The Dalles-California Highway across properties owned by a Mr. Pat Montgomery (Right of Way file 18189) and by the Gilchrist Timber Company (Right of Way file 17936), in Klamath County. He recalled that the Commission at its meeting on October 12, 1951 received a satisfactory bid for the construction of this project, but deferred a definite award of the contract pending the clearing of right of way matters and the securing of concurrence by the Bureau of Public Roads. He requested, in order to avoid further delay on account of right of way matters, that he be given authority to condemn the Montgomery and Gilchrist Timber Company properties. The Commission approved the request unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

There being no further business to come before the Commission at this time, the meeting adjourned at 2:15 p. m.

Chas. H. Reynolds

EXHIBIT "A"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission, outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT #5 - T.H. BANFIELD EXPRESSWAY

17657 - Wells, Chester C. and Gertrude L. et al (Johnson)
Right of Way
Option expires October 30, 1951

0.384 acres at $1,250 per acre	$ 480.00	
Allowance - 0.42 acres used for frontage road	525.00	
- grade and blacktop frontage road, 20' x 450'	2,000.00	
- Loss of spring and damages	495.00	
Amount to be paid owner - chrg to Right of Way		$3,500.00

This option taken subject to present lease on property, to expire May 1952

Access controlled - no access allowed

Confirmation of phone approval - by Mr. M.K. McIver - 10-29-51

EXHIBIT "A" (cont.)

BOONES FERRY ROAD-MARION COUNTY LINE UNIT-BARBUR BLVD.-WHITE SCHOOL SECTION WEST PORTLAND-HUBBARD HWY.

10628 - Mills, H. L. and Cora E. (Johnson)
Right of Way
Option expires October 30, 1951

6.18 acres at $645+ per acre, includes severance	$3,992.00
Allowance - 96 rods of fence at $2.06+ per rod	198.40
Amount to be paid owner - chrg to Right of Way	$4,190.40

Access controlled - no access allowed

Confirmation of phone approval - by M.K. McIver 10-29-51

4854 - Simmons, Cyrus T. and Elizabeth E. (Smith)
Right of Way
Option expires April 17, 1952

2.75 acres willamette loam at $400 per acre	$1,100.00
24 rods of fence at $4.50 per rod	108.00
Allowance-for digging new well	300.00
-for moving & reestablishing buildings	1,985.00
-for re-establishing power to buildings	150.00
-fruit and nut trees	27.00
-to establish 250 ft. roadway, at $2.00	500.00
-Severance and reduction damages	475.00
Amount to be paid owner - chrg to Right of Way	$4,645.00

Access controlled - no access allowed

17538 - Boettner, Herman H. (Johnson)
Right of Way
Option expires April 18, 1952

6.8 acres at $225.00 per acre	$1,530.00
Allowance-125 rods of fence at $3.50 per rod	437.50
Amount to be paid owner - chrg to Right of Way	$1,967.50

Access controlled - Parcel 1 only

Option taken subject to an easement to Bonneville Power Administration

EXHIBIT "B"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the Yachats Park is a state park under the jurisdiction and control of the State Highway Commission; and

WHEREAS, there is located in said park a certain road which forms a loop, and the same is owned and maintained by the State; and

WHEREAS, diverse persons operating trucks use the above said road as a turn-around for said trucks, and the same creates a traffic hazard to the public using said park and the facilities thereon; and

WHEREAS, the trucks using said road for a turn-around make loud and undesirable noises which interfere with the comfort and peace of the residents who live near said state park; and

WHEREAS, said road is owned and maintained by the State solely for park purposes and for the convenience and accommodation of the public and its use of said park; and

WHEREAS, said road was not constructed and is not maintained to withstand the loads and pressures resulting from the use thereof by trucks; and

WHEREAS, in the opinion of the State Highway Commission the use of said road by trucks as a turn-around is an improper use of said road, and the same is destructive and detrimental to said road and said park and facilities thereon; and

WHEREAS, in the opinion of the State Highway Commission the public welfare and public safety require that the use of said road or any other roads in said park by trucks as a turn-around be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, two members being present and affirmatively voting, as follows:

1. The Commission does hereby find and declare, based up on investigations, reports and recommendations of the members of its staff, that the use of that certain road which forms a loop, or any other road, which is located in Yachats State Park, Lincoln County, Oregon, as a turn-around by trucks of any kind whatever creates a hazard to the general public which uses said park and the facilities thereon.

(cont.)

EXHIBIT "B" (cont.)

2. The Commission does further find and declare that the trucks using said road as a turn-around make loud and undesirable noises which interfere with the peace and comfort of the residents living in the proximity of said park.

3. That the Commission does further find and declare that said road is owned and maintained by the State solely for park purposes and the use by the public thereof, and that said road is not constructed to standards sufficient to withstand the weights of trucks in the use of said road.

4. That the Commission does further find and declare that the use of said road or roads in said park shall henceforth be prohibited as a turn-around for trucks of any kind whatsoever.

5. That the State Highway Engineer is hereby instructed to erect signs at such places in and around said park as in the judgment of said Engineer are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared; said signs shall be printed in plain, legible type and in such words as the said Engineer shall deem necessary to carry out the purpose of this resolution.

6. That the Secretary be and he hereby is instructed to send a certified copy of this resolution to the Superintendent of State Police and to send a like copy to the State Parks Superintendent.

7. That this resolution be entered in the minutes and records of the State Highway Commission as of the 8th day of November, 1951.

EXHIBIT "C-1"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Coburg	$1,769.85
Donald	475.03
Helix	469.82
Juntura	275.82
Lonerock	97.05
North Powder	1,024.12
Phoenix	1,928.20
Prescott	301.36
Sherwood	1,463.39

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission. shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy

(cont.)

of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 8th day of November, 1951.

EXHIBIT "C-2"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1950 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Halfway	$ 955.33
Sherwood	1,760.14

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 8th day of November, 1951.

EXHIBIT "D"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3105 with the Gilpin Construction Co. for constructing the Sauvie Island Bridge on the Gillihan County Road in Multnomah County, completed October 12, 1951.

Contract No. 3227 with Del R. Beebe Construction Co. for grading and paving on the Marks Ranch-Lone Rock Bridge Section of the North Umpqua County Road in Douglas County, completed August 16, 1951.

Contract No. 3265 with Archie R. Averill for widening the Umatilla River bridge on the Columbia River Highway in Umatilla County, completed September 21, 1951.

Contract No. 3340 with The Central Heating Co. for pavement resurfacing on the Alsea-Alder Creek Section of the Alsea Highway in Benton County, completed August 4, 1951.

Contract No. 3354 with Durbin Brothers for grading and oil mat surfacing on the South Unit, Joseph-Wallowa Lake Section of the Joseph-Wallowa Lake Secondary Highway in Wallowa County, completed August 9, 1951.

Contract No. 3446 with Rush Construction Co. for furnishing crushed materials in stockpiles on the Eightmile-Heppner Section of the Wasco Heppner Highway in Morrow County, completed August 14, 1951.

Contract No. 3454 with General Construction Company for redecking the Steel Bridge on the Pacific Highway West in Multnomah County, completed October 1, 1951.

Contract No. 3472 with Hamilton & Thoms for construction of the Goshen Overcrossing project on the Pacific Highway in Lane County, completed November 5, 1951.

Contract No. 3478 with Warren Northwest, Inc. for grading and paving on the Philomath ("F" Street - "H" Street) Section of the Corvallis-Newport Highway in Benton County, completed August 31, 1951.

(cont.)

EXHIBIT "D" (cont.)

Contract No. 3513 with O & K Construction Co. for surfacing on the South Unit, Gateway-Agency Plains Section of the Gateway-Agency Plains County Road in Jefferson County, completed October 4, 1951.

Contract No. 3514 with Babler & Rogers for grade widening and paving on the Hampton-Gap Ranch Section of the Central Oregon Highway in Lake, Harney, and Deschutes Counties, completed October 12, 1951.

Contract No. 3551 with F. C. Scott Construction Co. for roadbed embankment and slope protection on the west approaches to the Salem bridges on the Salem-Dallas Highway in Polk County, completed October 2, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said state highway contracts for the construction of said state highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of Section 115-320, O. C. L. A., as amended by Chapter 458, Oregon Laws, 1941, has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of subsection (b) of said Section 115-320, O. C. L. A., as amended, are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said Section 115-320, O. C. L. A., as amended, the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

NAME OF HIGHWAY: Beaverton-Hillsdale Highway

Highway number: 40 Route number: ORE 10

Location of Termini			Established Speed
M. P. 4.15 (Junction with West Slope Road)	to M. P.	5.89 (east city limits of Beaverton)	40 miles per hour

(cont.)

EXHIBIT "E" (cont.)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this resolution be entered in the records and minutes of the Commission as of the eighth day of November, 1951.

EXHIBIT "F"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the North Santiam Secondary Highway has been duly designated and declared to be a state secondary highway and has been improved and maintained by the State Highway Commission pursuant to the laws of the State of Oregon as a state secondary highway; and

WHEREAS, a section of said highway is, in the judgment of the State Highway Commission, being subjected to a kind and character of traffic which will damage and injure the said highway section; and in order to protect said section of highway against such damage and injury, it is deemed and is the judgment of the Highway Commission and said Highway Commission finds that it will be for the best interests of said section of highway that the maximum weights permitted and authorized by law be reduced; and

WHEREAS, the State Highway Commission has, after due investigation, determined and found, and it is the judgment of the Commission that the maximum weights which shall be permitted upon said section of highway shall be reduced and fixed as in this order provided;

NOW, THEREFORE, the premises being in part as above-stated and the State Highway Commission being of the opinion that said section of highway is not presently constructed to such standards to withstand the maximum weights permitted and authorized by law, and the Commission having found upon due investigation that it will be for the best interests of said section of highway that the maximum total weight of load and vehicle which shall be permitted upon said section commencing on the date hereinafter specified, shall be reduced so as to conform to the requirements fixed in this order.

IT IS HEREBY ORDERED that the maximum weight of combined load and vehicle or combination of vehicles which shall be permitted upon the following described section of highway shall not exceed 11,000 pounds gross on any single axle nor 20,000 pounds gross on any pair of tandem axles nor a maximum of 36,000 pounds gross on all axles of the vehicle or combination of vehicles:

Name of Highway and No.	County	Section Restricted	Date Effective
North Santiam Secdy. No 162	Marion	On the north side of the North Santiam River beginning at the intersection of DeWitt's Road approximately 3 miles west of Mill City and extending easterly therefrom 1¼ mile.	1951 Oct. 20

(cont.)

EXHIBIT "F" (cont.)

IT IS FURTHER ORDERED that these rules and regulations as made and found by the State Highway Commission under the provisions of Section 15, Chapter 405, Oregon Laws 1951, shall be in full force and effect from the effective date hereinabove specified until modified, annulled or voided by the order of the State Highway Commission; and

IT IS FURTHER ORDERED that a notice be posted in a conspicuous manner and place at each end of the above section of highway and at the important cross roads on said section so that said notice can be readily seen and read, which said notice shall state plainly the limitations and prohibitions of traffic thereby in this order determined and fixed; and

BE IT FURTHER ORDERED that a certified copy of this order be furnished to the Marion County Clerk and that a certified copy of this order also be furnished to the Superintendent of the Department of State Police for his information.

Dated this 8th day of November, 1951.

19003

EXHIBIT "G"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, on the 28th day of September, 1950, at a meeting of the Oregon State Highway Commission, all members being present and participating, the Commission adopted a resolution effective September 12, 1950, reducing the maximum load limit on the following described State Highway bridge to wit:

SANTIAM PRIMARY HIGHWAY NO. 16

M. P. 41.56	Bridge No. 1356 crossing Santiam River (on entrance road to Cascadia State Park in Linn County)	5 tons (10,000 lbs.)

and

WHEREAS, subsequent to the passage of said resolution, conditions have changed so that it no longer is necessary or desirable, and the Commission hereby finds that it no longer is necessary or desirable to maintain the reduced load limit set out in said resolution;

NOW, THEREFORE, BE IT RESOLVED that the action of the State Highway Commission reducing the permissible load limit on the said bridge be and the same hereby is rescinded and cancelled as of November 1, 1951, and that the maximum load limit permissible on the said bridge structure hereafter shall be the maximum load limit provided by law; and

IT IS FURTHER ORDERED that certified copies of this resolution be furnished to the Linn County Clerk, and to the Superintendent of the Department of State Police for their information.

Dated this 8th day of November, 1951.

EXHIBIT "H"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the Forty-Sixth Legislative Assembly enacted Chapter 405, Oregon Laws 1951, and

WHEREAS, the State Highway Commission is authorized by the provisions of Section 12, Chapter 405, Oregon Laws 1951, to issue permits for the movement of any single vehicle engaged in the transportation of peeler bolts, blocks, cores, railroad ties, logs or poles loaded crosswise of the vehicle, having an overall width and load thereon in excess of eight feet but not in excess of eight and one-half feet, if it is first determined by trial load that the vehicle with load thereon, moving in a normal manner, can stay on the right side of the center line of the traveled way at all times and that there is sufficient room in the opposing traffic lane for the safe movement of other vehicles, and

WHEREAS, based upon the advice and recommendation of the State Highway Engineer, it is the judgment and opinion of the Commission that permits may be issued upon application therefor when meeting requirements of the provisions of Subsection 5 Section 12, Chapter 405, Oregon Laws 1951, which permits shall authorize the movement over highways set forth therein of single vehicles engaged in the transportation of peeler bolts, blocks, cores, railroad ties, logs or poles loaded crosswise on the vehicle, having an overall width in excess of eight feet but not in excess of eight and one-half feet,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, two of the members being present and voting affirmatively, as follows:

1. That subject to such action as the Commission may hereafter deem to be in the public interest, the issuance of permits pursuant to the provisions of Subsection 5, Section 12, Chapter 405, Oregon Laws 1951, hereby is authorized in a form of permit attached hereto, marked Exhibit "A", and by this reference made a part hereof, which said form of permit is hereby approved and adopted as to form and as to all provisions and regulations contained therein.

2. That no permit on said form marked Exhibit "A" shall be issued pursuant to the provisions of Subsection 5, Section 12, Chapter 405, Oregon Laws 1951, authorizing the movement of any vehicle including any load thereon having a width in excess of eight feet until it is first determined by trial load that the vehicle with load thereon, moving in a normal manner, can stay on the right side of the center line of the traveled way at all times and that there is sufficient room

(cont.)

EXHIBIT "H" (cont.)

in the opposing traffic lane for the safe movement of other vehicles, and in no event shall such permit authorize the movement of any single vehicle including any load thereon having a width in excess of eight and one half feet.

3. That permits on said permit form marked Exhibit "A" may be issued for and by the State Highway Commission within the meaning, purpose and intent of Subsection 5, Section 12, Chapter 405, Oregon Laws 1951, and shall be valid when bearing the facsimile signature of R. H. Baldock, State Highway Engineer, and signed by any other of the following designated persons:

State Highway Engineer
First Assistant State Highway Engineer
Second Assistant State Highway Engineer
Director of Permits
Transportation Permit Supervisor

That any permit issued upon said permit form marked Exhibit "A", as above provided, shall be in full force and effect until the date of expiration specified upon the permit, which said date shall not extend beyond one year from the date of issuance of the permit.

4. That no permit shall be issued under the authority of Subsection 5, Section 12, Chapter 405, Oregon Laws 1951, and this resolution and order unless and until the permittee shall have furnished to the Director of Permits evidence satisfactory to the Director of Permits that he has procured and has in full force and effect, covering the proposed operation of the vehicle pursuant to the permit to be issued, a policy or policies of public liability and property damage insurance in any insurance company duly qualified and licensed to do business in the State of Oregon; said public liability insurance shall be not less than $10,000/$20,000, and said property damage insurance shall be not less than $10,000

5. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification should be evidenced by resolution or order entered in the minutes and records of the Commission.

6. That this resolution be entered in the minutes and records of the Commission as of the 8th day of November, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police and the Public Utilities Commissioner.

	☐

Subject to each and all of the following terms and conditions, printed, typed or written below, and on the reverse side hereof, and not otherwise, the above named permittee is hereby authorized to

DESCRIPTION OF HAULING EQUIPMENT

MAKE OF TRUCK | MOTOR No. | PUC or PLATE No. | LICENSE No. | FIRM No.

This permit is issued under authority of Section 12, Chapter 405, Oregon Laws, 1951.

1. The overall length of any vehicle, including any load thereon, operated under this permit shall not exceed 35 feet. The OVERALL WIDTH of load thereon may exceed 8 feet, but SHALL NOT EXCEED 8½ feet.

2. The gross weight of any single axle of a vehicle operated under this permit shall not exceed 18,000 pounds, and the gross weight of any tandem axle of a vehicle shall not exceed 32,000 pounds. The gross weight of any vehicle shall not exceed the applicable gross weight set forth in the table of weights on the reversie side of this permit or the sum of the permissible axle weights, whichever is the lesser.

3. The posting of any highway or structure to reduced limits of weight or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. All equipment operating under authority of this permit shall be properly licensed, shall carry proper Oregon P.U.C. authorization, and shall conform in all other respects with the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code.

5. Notwithstanding anything in this permit to the contrary, the permittee shall be subject to all regulatory powers vested in the Interstate Commerce Commission, and shall be subject also to the regulatory powers vested in the Public Utilities Commissioner, but any such regulatory power, or any order of any Federal or State office, Board, or Commission having regulatory power over transportation, shall not be construed as permitting the operation of vehicles exceeding in any respect the provisions of this permit in regard to weight or dimensions.

6. Any vehicle operated pursuant to this permit shall at all times keep to the extreme right hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of the center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing other vehicles or obstructions on the highway.

7. This permit must be carried at all times in the cab of the truck and shall be available for inspection by any police officer and any representative of the State Highway Commission or the Public Utilities Commissioner.

8. This permit is of a temporary nature only and will expire on ....., provided that any time prior thereto this permit may be cancelled by the State Highway Commission for violation of any of the terms or provisions of this permit, or when, in the judgment of the Highway Commission, public interest requires cancellation of this permit.

(OVER)

TABLE OF PERMISSIBLE WEIGHTS

a. The gross weight of any vehicle where the distance between the first and last axles is 18 feet or less, shall not exceed that set forth in the following table; or the sum of the permissible axle weights, whichever is the lesser:

Distance Between First and Last Axles (feet)	Maximum Gross Weight (pounds)	Distance Between First and Last Axles (feet)	Maximum Gross Weight (pounds)
Less than 6	32,000	12	36,400
6	32,200	13	37,100
7	32,900	14	43,200
8	33,600	15	44,000
9	34,300	16	44,800
10	35,000	17	45,600
11	35,700	18	46,400

The maximum gross weights in the above tables are for axle spacings measured to the nearest foot. If the axle spacing as actually measured is exactly one-half foot, the gross weight allowed is that given in the table for the next higher spacing.

EXHIBIT "I"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of a road or highway extending northwesterly from a junction with the Salem-Dallas State Primary Highway No. 30 at Rickreall, to a junction with the Dallas-Coast State Secondary Highway No. 192 at a point known as Dolph Corner, in Polk County, and in connection therewith to prepare a map showing the route and location of said section of highway and to file said report and record with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed the said survey and has submitted the same for the approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed:

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, a majority of the members being present and affirmatively voting as follows:

1. That the survey of the Dolph Corner-Rickreall Section, beginning at the intersection with the Dallas-Coast Secondary Highway at Dolph Corner, (Engineer's Station 622+00) and ending at the intersection with the Salem-Dallas Highway in the westerly part of the town of Rickreall, (Engineer's Station 857+00), together with the map which for identification purposes bears the number 7B-9-15 and the date of October, 1951, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Departments all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also

(cont.)

EXHIBIT "I" (cont.)

be deemed and constituted as instructions to the Legal and Right of Way Departments to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That the survey of the section or unit of said highway has been made within the meaning and purpose of Chapter 4, Oregon Laws 1947, commonly known as the Throughway Law, and was likewise made within the scope and purpose of the resolution approved and adopted by the Highway Commission, November 3, 1948. Therefore, the construction of said state highway shall be accomplished pursuant to the provisions of said law and said resolution.

5. That this resolution be entered in the minutes and records of the Commission as of the 9th day of November, 1951.

EXHIBIT "J-1"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Ochoco Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Jones Ranch-Mitchell Section of the said Ochoco Highway, and has ordered and declared that the said relocated highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said relocated highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "J-1" (cont.)

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Jones Ranch-Mitchell Section of the Ochoco Highway, for the purpose of establishing, constructing and maintaining a throughway, the following described real property, to wit:

R-17621
Owner: C. A. Van Winkle

A parcel of land lying in the Town of Mitchell in Section 36, Township 11 South, Range 21 East, W.M., Wheeler County, Oregon, and being a portion of that property conveyed by that deed to C. A. Van Winkle, recorded in Book 25, Page 343 of Wheeler County Records of Deeds; the said parcel being that portion of said property included in a strip of land variable feet in width, lying on each side of the center line of the Ochoco Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 718+70.59, said Station being 1677 feet east and 1460 feet south of the west quarter corner of said Section 36; thence on a spiral curve left (the long chord of which bears South 69° 04' East) 600 feet; thence on a 1909.86 foot radius curve left (the long chord of which bears South 78° 47' 30" East) 248.33 feet to Station 727+18.92; the south line of said strip of land crossing the west and east lines of said property approximately opposite Stations 723+80 and 725+50, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station to	Station	Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
721+00	724+32	50	155 feet opposite Station 721+00 to 60 feet opposite Station 724+32 in a straight line
724+32	727+18.92	50	60

The parcel of land to which this description applies contains 0.1 acre.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights

(cont.)

EXHIBIT "J-1" (cont.)

of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Ochoco Highway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting property be prohibited.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the state, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 8th day of November, 1951.

EXHIBIT "J-2"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, The Dalles-California Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Gilchrist-Willamette Junction Unit, Lapine-Diamond Lake Junction Section of the said The Dalles-California Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to acquire all of the estate, right, title, or interest of the mining claimants to the said property for right of way and other purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, The Dalles-California Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way for use in connection with the relocation, construction, improvement and maintenance of the Gilchrist-Willamette Junction Unit, Lapine-Diamond Lake Junction Section of The Dalles-California Highway the parcels of real property located in Klamath County, Oregon, and described as follows, to wit:

(cont.)

EXHIBIT "J-2" (cont.)

R-18187
Owner: L. L. Miller

Parcel No. 1:

A parcel of land lying in unsurveyed Government land which, if surveyed, would be the Southwest quarter (SW$\frac{1}{4}$) of Section 10, Township 26 South, Range 8 East, W.M., Klamath County, Oregon; the said parcel being that portion of said mining claim included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated and staked on the ground over and across or adjacent to said mining claim, which center line is described as follows:

Beginning at Engineer's center line Station 170+00, said Station being 325 feet east and 315 feet north of the southwest corner of Section 35, Township 25 South, Range 8 East, W.M.: thence South 19° 53' West 11,600 feet to Station 286+00, which Station is approximately on the south line of what would be Section 10 if surveyed, at a point 1850 feet east of the southeast corner of Section 9, Township 26 South, Range 8 East, W.M.

The parcel of land to which this description applies contains 13.0 acres, more or less.

Parcel No. 2:

A parcel of land lying in unsurveyed Government land which, if surveyed, would be the Southeast quarter (SE$\frac{1}{4}$) of Section 3, Township 26 South, Range 8 East, W.M., Klamath County, Oregon; the said parcel being that portion of said mining claim included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated and staked on the ground over and across or adjacent to said mining claim, which center line is described as follows:

Beginning at Engineer's center line Station 170+00, said Station being 325 feet east and 315 feet north of the southwest corner of Section 35, Township 25 South, Range 8 East, W.M.; thence South 19° 53' West 10,000 feet to Station 270+00, which Station is 2365 feet east and 1540 feet north of the southeast corner of Section 9, Township 26 South, Range 8 East, W.M.

The parcel of land to which this description applies contains 16.5 acres, more or less.

(cont.)

EXHIBIT "J-2" (cont.)

2. That in addition to the acquisition of the estate, right, title or interest in or to the aforesaid-described property, it is necessary that there be acquired or extinguished all existing rights of access to, from and between the aforesaid-described real property and any highway now or hereafter constructed thereon and the remaining real property, in or to which the mining claimants claim some estate, right, title or interest by virtue of the mining claims recorded in Book 3, Page 277, and Book 3, page 453, of Klamath County Records, the exact extent of said real property being unknown to the Commission, and that it is necessary that there be acquired or extinguished such interests, if any there be, by which rights of access, or any right in the nature of rights of access, may accrue by virtue of the adjacency of the relocated The Dalles-California Highway when constructed upon the aforesaid-described property to the remaining real property, in or to which the mining claimants claim some estate, right, title or interest by virtue of the aforesaid mining claims and access at all points to said The Dalles-California Highway located upon the aforesaid-described real property from said remaining real property, and all approach or access from said highway located upon the aforesaid-described real property to said abutting real property be restricted, except that there shall be reserved unto the mining claimants, their heirs and assigns, as owners of some estate, right, title or interest in the remaining real property by virtue of the aforesaid mining claims, a right of private access not to exceed twenty-five feet in width on the easterly side of The Dalles-California Highway opposite State Highway Engineer's center line Station 265+00.

A right of private access as herein used is defined as follows: An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right, at its option, to build at any future time, at its sole cost, a frontage or service road, on the easterly side of The Dalles-California Highway upon right of way now owned, or lands to be acquired, by the State of Oregon, and upon construction of such frontage or service road, the right of private access herein set forth to be reserved that is adjacent to such frontage or service road shall terminate and cease, and the mining claimants, their heirs and assigns, shall thereupon have access to such frontage or service road; said frontage or service road shall be connected to the main highway only at such points as the State of Oregon may designate.

EXHIBIT "J-2" (cont.)

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel, upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 8th day of November, 1951.

19017

EXHIBIT "J-3"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the West Portland-Hubbard Highway is a highway under the jurisdiction and control of the State; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct and maintain the Barbur Boulevard - Marion County Line Section of the West Portland-Hubbard Highway and to construct and maintain an approach or connecting road between the said highway and the Oregon City-Wilsonville County Road, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way, for use in connection with the construction and maintenance of the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and the construction and maintenance of an approach or connecting road between said highway and the Oregon City-Wilsonville County Road, the parcel of real property located in Clackamas County, Oregon, and described as follows, to wit:

R 18095
Owner: George Teufel, et ux.

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 23, Township 3 South, Range 1 West, W.M., Clackamas County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed

(cont.)

EXHIBIT "J-3" (cont.)

to George and Lillian A. Teufel, husband and wife, recorded in Book 395, Page 88, of Clackamas County Record of Deeds. The said parcel being described as follows:

Beginning at the northwest corner of the above-described property, said point being 709.50 feet West of the northeast corner of said Section 23; thence East 141.62 feet along the North line of said Section; thence South 30 feet at right angles to the North line of said Section; thence Southwesterly 165.1 feet, more or less, to a point in the West line of the above-described property which is 115.1 feet South of the point of beginning; thence North along the West line of said property to the point of beginning.

The parcel of land to which this description applies contains 0.24 acre, of which 0.10 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.14 acre lies outside of the existing right of way.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make

EXHIBIT "J-3" (cont.)

such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-4"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to, or any interest in, any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system, and

WHEREAS, the Highway Commission has approved and adopted a survey of a route as a state highway to be known as the Divide-Anlauf Section of the Pacific Highway and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law, and

WHEREAS, for the purpose of establishing, relocating, constructing, improving, and maintaining the said highway as a throughway to the end human lives may be saved, property damage minimized, transportation of motor vehicles promoted and highway travel in general safeguarded, the real property hereinafter described is necessary and acquisition to and from said highway should be controlled.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively as follows:

(cont.)

EXHIBIT "J-4" (cont.)

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the Divide-Anlauf Section of the Pacific Highway for the purpose of establishing, relocating, constructing, improving, and maintaining a throughway the following described property, to wit:

R-17691
Owner: LeRoy Lumber Company

Two parcels of land lying in the South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcels being that portion of said South half ($S\frac{1}{2}$) of the South half ($S\frac{1}{2}$) of Section 10 and in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 16 included in a strip of land of variable widths, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 18+04.30, said Station being 478.83 feet North and 978.89 feet East of the Southeast corner of said Section 10; thence on a 1909.86 foot radius curve right (the long chord of which bears South 88° 42' 30" West) 1389.44 feet; thence on a spiral curve right (the long chord of which bears North 65° 27' West) 500 feet; thence North 62° 57' West 2.50 feet; thence on a spiral curve left (the long chord of which bears North 66° 17' West) 400 feet; thence on a 1145.91 foot radius curve left (the long chord of which bears North 76° 59' 30" West) 161.67 feet; thence on a spiral curve left (the long chord of which bears North 87° 42' West) 400 feet; thence South 88° 58' West 1373.04 feet; thence on a spiral curve left (the long chord of which bears South 86° 18' West) 400 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 74° 47' 45" West) 308.54 feet; thence on a spiral curve left (the long chord of which bears South 63° 17' 30" West) 400 feet; thence South 60° 37' 30" West 4.63 feet; thence on a spiral curve right (the long chord of which bears South 63° 07' 30" West) 500 feet; thence on a 1909.86 foot radius curve right (the long chord of which bears South 76° 26' 30" West) 554.44 feet; thence on a spiral curve right (the long chord of which bears South 89° 45' 30" West) 500 feet; thence North 87° 44' 30" West 285.83 feet; thence on a spiral curve left (the long chord of which bears South 88° 55' 30" West) 500 feet; thence on a 1432.40 foot radius curve left (the long chord of which bears South 70° 58' 15" West) 564.38 feet; thence on a spiral curve left (the long chord of which bears

The parcels of land to which this description applies contain 55.12 acres, of which 8.73 acres lie within the existing right of way, title to which hereby is acknowledged to be in

(cont.)

EXHIBIT "J-4" (cont.)

the public, and 46.39 acres lie outside of the existing right of way.

2. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interest or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Divide-Anlauf Section of the Pacific Highway when constructed upon the aforesaid-described real property to the remaining abutting lands of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress, and regress to, from, and between the aforesaid-described property, including any highway to be constructed thereon, and said remaining abutting properties be prohibited, except rights of access to the Divide-Anlauf Section of the Pacific Highway as follows:

(1) An approach not to exceed 25 feet in width for private access on the north side of the Divide-Anlauf Section of the Pacific Highway at Engineer's center line Station 45+25.

(2) An approach not to exceed 25 feet in width for private access on the south side of the Divide-Anlauf Section of the Pacific Highway at Engineer's center line Station 52+00.

(3) An approach not to exceed 25 feet in width for private access on the north side of the Divide-Anlauf Section of the Pacific Highway at Engineer's center line Station 69+90.

(4) An approach not to exceed 25 feet in width for private access on the south side of the Divide-Anlauf Section of the Pacific Highway at Engineer's center line Station 94+00.

A right of private access as herein used is defined as follows: An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which in any manner caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right at its option to build at any future time, at its sole cost, a frontage or service road, or frontage or service roads, on either side

(cont.)

EXHIBIT "J-4" (cont.)

of the Pacific Highway upon right of way now owned or land to be acquired by the State of Oregon, and upon construction of such frontage or service road or roads, the right or rights of access herein set forth to be reserved that is or are adjacent to such frontage or service road or roads shall terminate and cease, and the owners of said remaining property shall thereupon have access to such frontage or service road or roads; said frontage or service road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interest of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-5"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to, or any interest in, any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system, and

WHEREAS, the Highway Commission has approved and adopted a survey of a route as a state highway to be known as the Divide-Anlauf Section of the Pacific Highway and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law, and

WHEREAS, for the purpose of establishing, relocating, constructing, improving, and maintaining the said highway as a throughway to the end human lives may be saved, property damage minimized, transportation of motor vehicles promoted and highway travel in general safeguarded, the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively as follows:

EXHIBIT "J-5" (cont.)

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the Divide-Anlauf Section of the Pacific Highway for the purpose of establishing, relocating, constructing, improving, and maintaining a throughway the following described property, to wit:

R-17692
Owner: Pass Creek Development Co.

Parcel No. 1:

Beginning at a point on the south right of way line of established Pacific Highway, said point being marked by an iron pin and being North 779.1 feet and East 265.7 feet from the Southwest corner of the Southeast quarter ($SE\frac{1}{4}$) of Section 10, Township 21 South, Range 4 West, W.M.; thence South 0° 16' East 147.5 feet; thence North 89° 44' East 100 feet; thence North 0° 16' West 107.7 feet to southern right of way line; thence northwesterly along said right of way on a 317.9 foot radius curve right (the long chord of which curve bears North 68° 32' West 107.6 feet) a distance of 108.2 feet to point of beginning, containing .29 of an acre in Section 10, Township 21 South, Range 4 West of Willamette Meridian, all in Douglas County, Oregon.

Parcel No. 2:

Beginning at a point marked by an iron pipe, said point being North 631.6 feet and East 365.7 feet from the Southwest corner of the Southeast quarter ($SE\frac{1}{4}$) of Section 10, Township 21 South, Range 4 West, W.M.; thence North 89° 44' East 600 feet; thence North 0° 16' West to intersection with the South line of the Pacific U.S. Highway #99 as now located; thence in a westerly direction following the South boundary line of said highway to a point which junctions with a line running North 0° 16' West from point of beginning; thence South 0° 16' East 107.7 feet to a point of beginning and containing two and one-fourth acres more or less, all in Douglas County, Oregon.

2. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said

(cont.)

parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcels of real property.

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-6"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway,

(cont.)

EXHIBIT "J-6" (cont.)

for the purpose of establishing, constructing and maintaining a throughway, the following-described parcel of real property, to wit:

R-17992
Owner: C. R. Lawrence, et ux

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$); Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) and Lot 3 of Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon; the said parcel being that portion of the said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$), Northeast quarter ($NE\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) and Lot 3 included in a strip of land of variable widths, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 168+55.60, said Station being 257.36 feet North and 847.48 feet West of the northeast corner of said Section 20; thence South 65° 19' West 612.14 feet; thence on a spiral curve left (the long chord of which bears South 64° 17' 45" West) 350 feet; thence on a 3274.05 foot radius curve left (the long chord of which bears South 50° 35' 30" West) 1332.86 feet; thence on a spiral curve left (the long chord of which bears South 36° 53' 15" West) 350 feet; thence South 35° 52' West 1199.40 feet to Station 207+00; said center line intersecting the north line of said North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) approximately at Station 173+50 and the West line of Lot 3 approximately at Station 204+05. Excepting therefrom a parcel of land lying in the North half ($N\frac{1}{2}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 20 as deeded to DeEava Gibson in Book 178, Page 123, of Douglas County Records of Deeds.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
N. L. Sec 20	176+00	136	To Railroad Right of Way

(Bearings used herein are based upon the Oregon Coordinate System, South Zone.)

The parcel of land to which this description applies contains 16.1 acres.

2. The Commission does further find and declare that there is needed and required for highway drainage purposes for the construction of a channel change for Pass Creek in connection with the establishing, constructing and maintaining of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway the following described parcel of real property, to wit:

A parcel of land lying in Lot 3 of Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon; the said parcel being described as follows:

Beginning at a point which is opposite and 75 feet westerly of Engineer's center line Station 199+00 of the center line of the Pacific Highway as said highway has been relocated, said point also being 74.11 feet south and 1721.38 feet east of the northwest corner of the Samuel Hall D. L. C. No. 37; thence North 54° 08' West 75 feet; thence South 35° 52' West, parallel to said center line, 273 feet more or less to the west boundary of said Lot 3; thence south along the west boundary of said Lot 3 a distance of 135 feet more or less to a line parallel to said center line and 75 feet westerly, measured at right angles from said center line; thence North 35° 52' East parallel to said center line 386 feet, more or less, to the point of beginning.

(Bearings used herein are based upon the Oregon Coordinate System, South Zone.)

The parcel of land to which this description applies contains 0.56 acre.

(cont.)

EXHIBIT "J-6" (cont.)

3. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, when constructed upon the aforesaid-described real property designated as Parcel No. 1, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property designated as parcel No. 1 is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property designated as Parcel No. 1, including any highway now or hereafter constructed thereon, and said remaining abutting property be prohibited, except that there shall be reserved unto the owners, their heirs and assigns of said remaining abutting property, a right of crossing at Engineer's center line Station 188+00 by means of a concrete 12-foot x 12-foot underpass to be constructed and maintained by the State Highway Commission.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the

EXHIBIT "J-6" (cont.)

best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-7"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designated said route as a state highway to be known as the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, and is being appropriated for right of way of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway,

(cont.)

EXHIBIT "J-7" (cont)

for the purpose of establishing, constructing and maintaining a throughway, the following-described parcel of real property, to wit:

R-17993
Owner: I. R. Lawrence, et ux

A parcel of land lying in the Samuel Hall Donation Land Claim #37 and situated in Section 20, Township 21 South, Range 4 West, W. M., Douglas County, Oregon, the said parcel being that portion of said Donation Land Claim #37 lying in said Section 20 and included in a strip of land of variable widths, lying on each side of the center line of the Pacific Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 200+00, said Station being 199.09 feet south and 1723.57 feet east of the northwest corner of the Samuel Hall Donation Land Claim #37; thence South 35° 52' West 3366.07 feet; thence on a spiral curve right (the long chord of which bears South 36° 04' 30" West) 250 feet to Station 236+16.07; said center line intersecting the east line of said Donation Land Claim #37 approximately at Station 204+05 and the south line approximately at Station 234+66. The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Cen. Line	Width on Westerly Side of Cen. Line
200+00	205+50	125	75
205+50	219+00	125	125
219+00	233+66.07	125	200
233+66.07	235+00	125 to 180 (a straight line)	220
235+00	236+00	180	220

The parcel of land to which this description applies contains 19.8 acres.

Bearings used herein are based upon the Oregon Coordinate System, South Zone.

2. The Commission does further find and declare that there is needed and required for highway drainage purposes for the construction of a channel change for Pass Creek in connection with the establishing, constructing and maintaining of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway the following described parcel of real property, to wit:

(cont.)

EXHIBIT "J-7" (cont.)

A parcel of land lying in the Samuel Hall Donation Land Claim #37 and situated in Section 20, Township 21 South, Range 4 West, W.M., Douglas County, Oregon, the said parcel being described as follows:

Beginning at a point which is opposite and 75 feet westerly of Engineer's center line Station 205+50 on the center line of the Pacific Highway as said highway has been relocated, said point also being 600.86 feet south and 1340.44 feet east of the northwest corner of the Samuel Hall Donation Land Claim #37; thence North 54° 08' West 75 feet; thence North 35° 52' East parallel to said center line, a distance of 377 feet, more or less, to the east line of said Donation Land Claim #37; thence south along said east line of Donation Land Claim #37 a distance of 135 feet, more or less, to a line which is 75 feet westerly of and parallel to said center line; thence South 35° 52' West, parallel to said center line, a distance of 264 feet, more or less, to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, South Zone.

Said easement contains 0.55 acre.

3. That in addition to acquisition of fee simple title to the aforesaid-described real property, it is necessary that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, when constructed upon the aforesaid-described real property, to the remaining abutting land of the larger tract, of which said larger tract the aforesaid-described property is a part, and that all access, ingress, egress and regress to, from and between the aforesaid-described property, including any highway now or hereafter constructed thereon, and said remaining abutting property be prohibited, except that there shall be reserved unto the owners, their heirs and assigns of said remaining abutting property, a right of crossing at Engineer's center line Station 206+00 by means of a concrete 12-foot x 12-foot underpass to be constructed and maintained by the State Highway Commission.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcel

(cont.)

EXHIBIT "J-7" (cont.)

of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

19037

EXHIBIT "J-8"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation or by the exercise of the power of eminent domain, real property or any right or interest therein necessary or deemed necessary for the development and maintenance of parks; and

WHEREAS, the Highway Commission is authorized and empowered to develop, construct, improve, operate and maintain said parks to such an extent and in such manner as will best afford to the motoring public and road users necessary conveniences and accommodations and as will contribute to the general welfare of the people of the State, or the members of the motoring public using and traveling the highways of the State; and

WHEREAS, the North Santiam Forest State Park is a state park under the jurisdiction and control of the State; and

WHEREAS, for the purpose of developing and improving the North Santiam Forest State Park, the Highway Commission plans and proposes to construct and maintain a road within said park, and for such purpose and in connection therewith, the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively, as follows:

1. The Highway Commission does hereby find and declare that there is needed and required as an addition to the North Santiam Forest State Park to be used for the construction and maintenance of a road within said park, the following-described real property, to-wit:

R-17766
Owner: Keith Phillips, et ux

A parcel of land lying in the North half ($N\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 22, Township 9 South, Range 2 East, W. M., Marion County, Oregon; the said parcel being that portion of said North half ($N\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) included in a strip of land of variable widths, lying on each side of the center line of the State Park Access Road, which center line is described as follows:

(cont.)

EXHIBIT "J-8" (cont.)

Beginning at Engineer's center line Station 9+16.57, said Station being 61.3 feet north and 90.3 feet east of the northwest corner of Lot 2 of said Section 22; thence on a 1432.39 foot radius curve left (the long chord of which bears North 82° 23' West) 166.67 feet; thence North 85° 43' West 1103.48 feet; thence on a 954.93 foot radius curve right (the long chord of which bears North 77° 54' 15" West) 260.42 feet to Engineer's center line Station 24+47.14, at which Station the west end of said strip of land lies at right angles to said center line and said strip is coincident with the tract of land deeded to Marion County by deed recorded in Book 223 at Page 93 of Marion County Deed Records.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Northerly Side of Center Line	Width on Southerly Side of Center Line
North and South center line of Section 22	14+00	50	Taper in a straight line from 75 to 107
14+00	17+00	50	Taper in a straight line from 107 to 50
17+00	21+86.72	50	50
21+86.72	23+00	Taper 50 to 40	40
23+00	24+47.14	40	40

The parcel of land to which this description applies contains 3.257 acres.

2. That the facility for which the aforesaid real property is required and is being taken has been planned, designed, located and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

3. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and other persons in interest of said parcel of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

EXHIBIT "J-8" (cont.)

4. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

5. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

6. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-9"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated, and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws, 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate, and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block, or tract of land, if by so doing the interest of the owner and the State will be best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, the Highway Commission has approved and adopted a survey of a route and has designed said route as a state highway to be known as the West Portland-Hubbard Highway, and has ordered and declared that the said highway shall be constructed under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary and that access to and from said highway should be controlled;

(cont.)

EXHIBIT "J-9" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way for the proper construction and maintenance of the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway as a throughway the following described real property, to wit:

R-17499
Owner: Louisa Micek

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to John and Louisa Micek, recorded in Book 93, page 193, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land 300 feet in width, 200 feet on the easterly side and 100 feet on the westerly side of the center line of the West Portland-Hubbard Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 384+51.22, said Station being 2178.09 feet North 24° 55' 21" West of the East quarter ($E\frac{1}{4}$) corner of said Section 2; thence on an 11,459.16 foot radius curve left (the long chord of which bears South 7° 52' 30" West) 2923.34 feet to Station 413+74.56, said center line crossing the northerly line of said property approximately at Station 392+90.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 3.17 acres, more or less.

2. The Commission does hereby find and declare that the acquisition of the real property hereinabove described and the denial of access thereto, as hereinafter set forth, will result in depriving the owner of all means of access from that portion of her real property lying easterly of and adjacent to the real property hereinabove described to any public highway and to her remaining real property, and, therefore, that it is in the best interest of both the State and the owner for the Highway Commission to acquire fee simple title to the owner's entire tract of real

EXHIBIT "J-9" (cont.)

property lying easterly of the west boundary of the real property hereinabove described, which said tract includes that portion of the real property described in paragraph 1, above, and the real property described as follows, to wit:

A parcel of land lying in the Northeast quarter ($NE\frac{1}{4}$) of Section 2, Township 3 South, Range 1 West, W.M., Washington County, Oregon, and being a portion of the following described property:

That tract of land which was conveyed by that certain deed to John and Louisa Micek, recorded in Book 93, Page 193, of Washington County Record of Deeds, the said parcel being that portion of said property lying easterly of the parcel of land described in paragraph 1, above, more particularly described as follows:

Beginning at the northeast corner of the parcel of land described in paragraph 1, above, said point being approximately 1158 feet north and 905 feet west of the East quarter ($E\frac{1}{4}$) corner of said Section 2; thence east on the north line of said Micek property 895 feet more or less to the northeast corner of said Micek property; thence south on the east line of Section 2 to the north line of that property conveyed to Hugh R. and Fay Thornton by deed recorded in Book 277, page 191, of Washington County Deed Records; thence west along said north line 970 feet more or less to the southeast corner of the parcel of land described in paragraph 1, above; thence northerly along the easterly line of the parcel of land described in paragraph 1, above, to the point of beginning.

Bearings used herein are based upon the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 8.52 acres, more or less.

3. That in addition to the acquisition of fee simple title to the real property hereinabove described in paragraphs 1 and 2, it is necessary and required that there be acquired or extinguished such interests or rights, if any there be, by which rights of access or any rights in the nature of rights of access may accrue by reason of the adjacency of the West Portland-Hubbard Highway, when constructed upon the real property described in paragraph 1 hereinabove, to the real property remaining after the appropriation of the real property described in said paragraph 1, and that all access to, from and between the real property described in paragraph 1 hereinabove, including any highways now or hereafter constructed thereon, and the real property remaining after

EXHIBIT "J-9" (cont.)

the appropriation of the real property described in said paragraph 1 be restricted and prohibited.

4. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to the said parcel of real property.

6. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

7. That upon the trial of any suit or action instituted to acquire the said parcel of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

8. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "J-10"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, the Pacific Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to construct and maintain the Divide-Rice Hill Section of the Pacific Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property described hereinafter as parcel No. 1 for the acquisition and manufacture of road-building materials and the construction and maintenance of a stockpile site, and for other highway purposes, and is also authorized to acquire a perpetual, nonexclusive easement over and across the real property hereinafter described as parcel No. 2 for the construction and maintenance of a haul road to be used in conjunction with the aforesaid acquisition and manufacture of roadbuilding materials and construction and maintenance of a stockpile site;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that the following-described real property is necessary and required for the acquisition and manufacture of road-building materials and the construction and maintenance of a stock pile site in connection with the construction and maintenance of the Divide-Rice Hill Section of the Pacific Highway, said property being located in Douglas County, Oregon:

File No. 17702
Owner: James Baxter Davis, et ux

Parcel No. 1:

A parcel of land situated in the South half ($S\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 14, Township 21 South, Range 4

(cont.)

EXHIBIT "J-10" (cont.)

West, W. M., Douglas County, Oregon, which is described as follows:

Beginning at an iron pin at the south quarter corner of Section 14; thence North 0° 44' 30" East along the east line of the said South half ($S\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 14, a distance of 450 feet; thence North 87° 33' 30" West a distance of 1500 feet; thence South 0° 44' 30" West a distance of 450 feet to the south line of said Section 14; thence South 87° 33' 30" East along said south line, a distance of 1500 feet to the point of beginning.

(The bearings used herein are based on the Oregon Coordinate System, South Zone.)

The parcel of land to which this description applies contains 15.50 acres.

2. The Commission does hereby find and declare that a perpetual, nonexclusive easement is necessary and required over and across the following-described property for the construction and maintenance of a haul road in connection with the aforesaid acquisition and manufacture of road-building materials and construction and maintenance of a stock pile site, said property being located in Douglas County, Oregon:

Parcel No. 2:

The perpetual right and easement to construct, maintain, widen, repair and have free access to a haul road contained in a strip of land 40 feet in width, 20 feet on each side of the center line of the Ward Butte Forest Road, as said road is now located in the South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) and the West half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 14, Township 21 South, Range 4 West, W. M.; the center line of said Ward Butte Road is described as follows:

Beginning on the north line of the South half ($S\frac{1}{2}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 14 at approximately Engineer's center line Station 20+27.94, said Station being 1382.9 feet south and 1096.1 feet east of the northwest corner of Section 14, Township 21 South, Range 4 West, W. M.; thence South 57° 44' 30" West 125.40 feet; thence North 87° 48' West 212.05 feet; thence South 57° 42' West 91.13 feet; thence South 12° 45' West 344.15 feet; thence South 25° 37' 30" West 196.88 feet; thence South 41° 53' 30" East 91.08 feet; thence North 60° 55' 30" East 137.95 feet; thence North 84° 10' East 105.55 feet; thence South 27° 32' West 465.90 feet; thence South 1° 55' West

EXHIBIT "J-10" (cont.)

358.63 feet; thence South 22° 09' West 583.08 feet; thence South 37° 35' 30" West 131.36 feet; thence South 3° 32' West 187.25 feet; thence South 25° 09' 30" West 210.93 feet; thence South 15° 19' 30" East 192.00 feet; thence North 64° 27' East 238.82 feet; thence South 35° 54' 30" East 180.33 feet; thence South 14° 27' East 227.24 feet; thence South 38° 11' East 298.42 feet; thence South 42° 05' East 126.75 feet; thence South 68° 42' East 182.80 feet; thence South 17° 37' 30" West 141.09 feet; thence South 28° 39' West 146.05 feet; thence South 45° 15' East 127.10 feet to Station 71+29.88, which Station is approximately situated in the west line of the above-described parcel No. 1.

(The bearings used herein are based on the Oregon Coordinate System, South Zone.)

The parcel of land to which this description applies contains 4.7 acres.

Together with whatever additional areas that may be required for cut-and-fill slopes and for curves at angle points. Said easement is granted subject to any and all existing easements for rights of way; the owners to have the right to maintain a gate at the north entrance of this road, unless it is replaced by a cattle guard.

3. That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of this Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owner and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, including the damages, if any, and, in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire the aforesaid parcels of real property or the interest therein.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary by the State Highway Engineer to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then the Chief Counsel, upon being furnished by the State Highway Engineer a revised description, hereby is authorized to use such revised description in connection with the acquisition of said real property,

EXHIBIT "J-10" (cont.)

either by agreement or by the exercise of the power of eminent domain. The Chief Counsel hereby is authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire the said parcels of real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be and it hereby is entered in the minutes and records of the Commission this 8th day of November, 1951.

EXHIBIT "K"

Minutes of November 8 and 9, 1951

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in the Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property or any right or interest therein deemed by the State Highway Commission necessary for highway purposes; and

WHEREAS, The Dalles-California Highway is a highway under the jurisdiction and control of the State and is, in addition, a part of a federal highway system; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, and improve the Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Junction Section of the said The Dalles-California Highway, and for such purpose and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, said Commission is authorized to take fee title to said property for right of way and other highway purposes, and in addition, the Commission is authorized to take any and all rights of access from property abutting a highway; and

WHEREAS, The Dalles-California Highway is a major highway of the State, and as such carries large volumes of traffic, both intrastate and interstate, and it is, therefore, the judgment of the Commission that access to and from said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required for right of way purposes for use in connection with the proposed relocation in part, widening, construction, and maintenance of the Gilchrist-Willamette Junction Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway the following real property described as Parcels No. 1 to No. 6 inclusive. The Commission does further find and declare that there is needed and required for a cinder pit in connection with the above the real property described as Parcel No. 7, and the Commission does further find and declare that there is necessary and required for use as a haul road to said cinder pit the real property

(cont.)

EXHIBIT "K" (cont.)

described as Parcel No. 8, to wit:

R-17936
Owner: Gilchrist Timber Company

Parcel No. 1:

A parcel of land lying in the Northwest quarter ($NW\frac{1}{4}$) and in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 35, and in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 34, Township 23 South, Range 9 East, W.M., Klamath County Oregon; the said parcel being that portion of said subdivisions included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1238+00, said Station being 875 feet south and 180 feet east of the north quarter of said Section 35; thence South 53° 03' West 5,200 feet to Station 1290+00, said center line crossing the east and south lines of said subdivisions approximately at Stations 1240+35 and 1288+80, respectively, containing 33.60 acres, more or less, outside of the existing right of way.

Parcel No. 2:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 3, and in the Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) and in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 4, Township 24 South, Range 9 East, W.M., Klamath County, Oregon; the said parcel being that portion of said subdivisions included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1328+34.8, said Station being 1055 feet south and 955 feet east of the northwest corner of said Section 3; thence on a spiral curve left (the long chord of which bears South 52° 23' West) 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears South 45° 02' West) 1203.3 feet; thence on a spiral curve left (the long chord of which bears South 37° 41' West) 400 feet; thence South 37° 01' West, 939.1 feet to an equation in Engineer's Stationing, at which point Station 1357+77.2 back equals Station

(cont.)

EXHIBIT "K" (cont.)

1356+77.2 ahead; thence South 37° 01' West, 722.8 feet to Station 1364+00; said center line crossing the north and west lines of said subdivision approximately at Stations 1333+05 and 1301+95, respectively, containing 17.89 acres, more or less, outside of the existing right of way.

Parcel No. 3:

A parcel of land lying in the West half ($W\frac{1}{2}$) of Section 9, Township 24 South, Range 9 East, W.M., Klamath County, Oregon; the said parcel being that portion of said West half ($W\frac{1}{2}$) of Section 9, included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated, said center line being described as follows:

Beginning at Engineer's center line Station 1383+00, said Station being 50 feet east of the north quarter corner of said Section 9; thence South 37° 01' West, 4,700 feet to Station 1420+00; said center line crossing the east and west lines of said West half ($W\frac{1}{2}$) of Section 9 approximately at Stations 1383+85 and 1427+45, respectively, containing 23.88 acres, more or less, outside of the existing right of way.

Parcel No. 4:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 17, in the Southeast quarter ($SE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 18, in the Northwest quarter ($NW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) of Section 20, and in the West half ($W\frac{1}{2}$) of Section 19, all being in Township 24 South, Range 9 East, W.M., Klamath County, Oregon. The said parcel being that portion of said subdivisions included in a strip of land, variable in width, lying on each side of the center line of The Dalles-California Highway as said highway has been relocated, which center line is described as follows:

Beginning at Engineer's center line Station 1480+00, said Station being 2480 feet south and 3115 feet west of the northeast corner of said Section 17; thence South 37° 01' West 3081.46 feet; thence on a spiral curve left (the long chord of which bears South 36° 21' West) 400 feet; thence on a 5729.58 foot radius curve left (the long chord of which bears South 26° 18' 30" West) 1741.67 feet; thence on a spiral curve left (the long chord of which bears South 16° 16' West) 400 feet; thence South 15° 36' West 3420.53 feet to a point where said center line crosses the north limits of the City of Crescent, at Engineer's center

(cont.)

EXHIBIT "K" (cont.)

line Station 1570+43.66 back equals Station 1574+66.48 ahead; thence South 15° 36' West 33.52 feet to Station 1575+00, said center line crossing the north line of said Southwest quarter ($SW\frac{1}{4}$) of Section 17 approximately at Station 1481+45.

The widths in feet of the strip of land above referred to are as follows:

Station to Station		Width on Easterly Side of Center Line	Width on Westerly Side of Center Line
1480+00	1508+00	100	200
1508+00	1519+00	100	Variable to existing right of way
1519+00	1530+00	100	200
1530+00	1536+23.13	100	100
1536+23.13	1545+00	50	100
1545+00	1575+00	50	50

The parcel of land to which this description applies contains 34.12 acres, more or less, outside of the existing right of way.

Parcel No. 5:

A parcel of land lying in the Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 36, Township 24 South, Range 8 East, W.M., Klamath County, Oregon; the said parcel being that portion of said Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated; said center line being described as follows:

Beginning at Engineer's center line Station 30+00, said Station being 1420 feet south and 226 feet east of the northeast corner of said Section 36; thence South 25° 50' West, 1500 feet to Station 45+00, said center line crossing the east and south lines of said Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) approximately at Stations 35+15 and 43+42, respectively, containing 5.44 acres, more or less, outside of the existing right of way.

Parcel No. 6:

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of the Northwest quarter ($NW\frac{1}{4}$) and in the Northwest quarter ($NW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 13 and in the Northeast quarter ($NE\frac{1}{4}$) of the Southeast quarter ($SE\frac{1}{4}$) of Section 14, Township 25 South, Range 8 East, W.M., Klamath County, Oregon;

(cont.)

EXHIBIT "K" (cont.)

said parcel being that portion of said subdivisions included in a strip of land 300 feet in width, 100 feet on the easterly side and 200 feet on the westerly side of the center line of The Dalles-California Highway as said highway has been relocated, said center line being described as follows:

Beginning at a point which is Engineer's center line Station 195+06.74, said point being 1320 feet south and 585 feet east of the northwest corner of said Section 13; thence on an 11,459.16 foot radius curve left (the long chord of which bears South 14° 54' 30" West) 500 feet; thence on a spiral curve left (the long chord of which bears South 13° 14' 30" West) 250 feet; thence South 13° 02' West, 2243.26 feet to Station 225+00; said center line crossing the north and south lines of said subdivisions approximately at Stations 196+00 and 224+23, respectively, containing 18.70 acres, more or less, outside of the existing right of way.

Parcel No. 7:

A parcel of land lying in the South half ($S\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section 16, Township 24 South, Range 9 East, W.M., Klamath County, Oregon; the said parcel being described as follows:

Beginning at a point 200 feet east of the southwest corner of Section 16, Township 24 South, Range 9 East, W.M.; thence north 660 feet; thence east 900 feet; thence south 660 feet; thence west 900 feet to a point of beginning, containing 13.6 acres; said bearings being parallel to the south and west lines of the Southwest quarter ($SW\frac{1}{4}$) of Section 16.

Parcel No. 8:

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 17, Township 24 South, Range 9 East, W.M., Klamath County, Oregon, said parcel being that portion of said South half ($S\frac{1}{2}$) of Section 17 included in a strip of land 50 feet in width, 25 feet on each side of the center line of a haul road, which center line is described as follows.

Beginning at a point which is Engineer's center line Station 1496+60.82 on The Dalles-California Highway as said highway has been relocated, said point being 1490 feet north and 1210 feet east of the southwest corner of said Section 17; thence South 78° 29' East, 2450 feet and South 78° 09' East, 1700 feet, more or less, to the west line of said Section 17;

(cont.)

EXHIBIT "K" (cont.)

thence continuing South 78° 09' East 205 feet, more or less, to the west line of Parcel No. 7 above, containing 4.8 acres, more or less.

2. That in addition to acquisition of fee simple title to the aforesaid-described property, it is necessary that there be acquired all interest or rights, if any there be, by which rights of access, or any rights in the nature of rights of access, may accrue by reason of the adjacency of The Dalles-California Highway when constructed upon the real property described as Parcels No. 1 to No. 6 inclusive to the remaining abutting land of the larger tract, of which said larger tract the aforesaid parcels of real property are a part, and all access, ingress, egress and regress to, from and between the aforesaid-described real property, including any highway to be constructed thereon, and said remaining abutting property, except rights of access to The Dalles-California Highway, as follows:

(a) A right of private access not to exceed twenty-five feet in width on both sides of The Dalles-California Highway at State Highway Engineer's center line Station 1265+00.

(b) A right of private access not to exceed twenty-five feet in width on both sides of The Dalles-California Highway at State Highway Engineer's center line Station 1354+00.

(c) A right of private access not to exceed twenty-five feet in width on both sides of The Dalles-California Highway at State Highway Engineer's center line Station 1422+00.

(d) A right of access not to exceed one hundred feet in width on the East side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1539+80.

(e) A right of access not to exceed thirty-five feet in width on the East side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1544+57.

(f) A right of access not to exceed thirty-five feet in width on the East side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1546+59.

(g) A right of access not to exceed one hundred feet in width on the East side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1551+76.

(h) A right of private access not to exceed fifty feet in width on the West side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1552+46.

EXHIBIT "K" (cont.)

(i) A right of private access not to exceed twenty-five feet in width on the West side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1563+00.

(j) A right of private access not to exceed twenty-five feet in width on the West side of The Dalles-California Highway opposite State Highway Engineer's center line Station 1568+70.

A right of private access as herein used is defined as follows: An access for ordinary travel to and from the remaining land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from, or is dependent upon the users of the said highway.

The State of Oregon shall have the right at its option to build at any future time at its sole cost a frontage or service road, or frontage or service roads, on either side of The Dalles-California Highway upon right of way now owned or land to be acquired by the State of Oregon, and upon construction of such frontage or service road or roads, the right or rights of access herein set forth to be reserved that is or are adjacent to such frontage or service road or roads shall terminate and cease, and the owners of said remaining property shall thereupon have access to such frontage or service road or roads; said frontage or service road or roads shall be connected to the main highway only at such points as the State of Oregon may designate.

3. That the highway facility for which the aforesaid property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and least private injury or damage.

4. That the Chief Counsel for the Commission is directed to attempt to agree with the owners and/or other persons in interest of said property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then he is directed and authorized to commence and prosecute to a final determination such suit or action as may be necessary to acquire title to said property.

5. That if and in the event that prior or subsequent to the commencement of condemnation proceedings it be found necessary to change in any manner or to any extent the description of the real property, the acquisition of which is by this resolution authorized, then said Chief Counsel,

EXHIBIT "K" (cont.)

upon being furnished by the Chief Highway Engineer a revised description, is hereby authorized to use such revised description in connection with the acquisition of said real property, either by agreement or by the exercise of the power of eminent domain. Said Chief Counsel is also authorized in such event to increase or decrease the amount of the offer herein approved, which increase or decrease shall be justified by reason of said revised description.

6. That upon the trial of any suit or action instituted to acquire said real property, or any interest therein, the Chief Counsel, or, in his absence, the Assistant Counsel, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owners.

7. That this resolution be entered in full in the minutes and records of the Commission as of the 9th day of November, 1951.

Portland, Oregon
December 20, 1951

The State Highway Commission convened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, 1st Assistant State Highway Engineer
W. W. Stiffler, 2nd Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Chairman Chandler called the meeting to order with the following statement:

"Ladies and gentlemen, this will be the last official meeting of the Highway Commission for the year 1951 and we just want to report to you that this has been the biggest year from the standpoint of new road construction, maintenance and dollar volume in the history of the Highway Commission. There are three factors involved in this: (1) the Legislature permitted us to sell bonds, (2) we completed the new Highway Office Building in Salem, which gave the Highway Department the room and the facilities necessary to better coordinate our work, and (3), a most important factor is the fine cooperation we have received from you gentlemen. We are proud and happy in the way you handled the road building projects this year. We hope to make 1952 even a larger year in our road-building program. Ladies and gentlemen, the Highway Commission and the Highway Department wish you all a very Merry Christmas."

Bids as follows for construction of State Highway projects were then opened and read aloud by the Secretary in conformity with previously published notice, following which the Secretary announced that the Commission would award contracts at 4:00 p.m.:

Porter W. Yett, Portland	196,335.00

The Commission unanimously approved the minutes of the meetings of the Commission held on October 11 and 12, and on November 8 and 9, 1951.

The State Parks Superintendent reported on the following park matters:

1. Sale of down and dead timber along north side of Salmon River Highway through Van Duzer Corridor in Sections 16, 20 and 29, T. 6S., R 9 W, W.M., Tillamook County: The Parks Superintendent advised that there is considerable dead and down timber along this section that should be disposed of. He requested authority to advertise it for sale through the usual medium. The Commission approved the request unanimously.

2. Request of LaJasse and Anderson for permission to construct and operate a roadway across Short Sand Beach State Park in order to market timber that they own on an adjoining tract; also, request to purchase the down and dead timber in this park. The Parks Superintendent

advised that these operators own a triangular area of land that lies between the park and the Pacific Ocean, and in order to market the timber standing thereon it is necessary for them to transport it across the park area. He also said that these operators wish to purchase the dead and down timber within the park. He recommended approval of the request for construction of the roadway, but that their request for the purchase of the dead and down timber be denied because it is quite scattered throughout the park and removal of the same will result in damage to the park area. The Commission approved the recommendation unanimously, subject to the condition that LaJasse and Anderson must pay for the timber that they cut in the construction of the roadway.

3. Parks budget for 1952: The Parks Superintendent presented a budget covering the activities of his department during the calendar year 1952, including purchases, development and maintenance of park areas. After careful consideration, the Commission by unanimous vote approved the budget as presented subject to the following: Approval of the budget does not carry with it authority to purchase any properties other than those that heretofore have been authorized, but it does authorize the development of the present parks except for general overnight camping, which development is to be deferred for the time being pending the results of tests that are now being conducted at Wallowa Lake State Park and at Silver Falls State Park. It was the feeling of the Commission that general park development should be given precedent over the expenditure of too much money for overnight camping purposes. No monies are to be expended for acquisition of new areas or for the development of overnight camping accommodations other than those that heretofore have been authorized unless specific approval for such expenditures are authorized by the Commission. (For details with respect to State Parks Budget, see copy of the budget in Special Budget Files.)

4. Request of Illinois Valley Women's Club for preservation of scenery along the Hayes Hill Section of the Redwood Highway, Josephine County: The Parks Superintendent advised that the area this group has in mind consists of about three acres of land lying between the old highway and the new highway on Hayes Hill, about 15 miles southwest of Grants Pass. Part of the area, he said, is in the National Forest, some of it is O & C land under the control of the Bureau of Land Management, and some of it is owned by the county. He gave as his feeling that the property is now well protected for park and scenic purposes, and he recommended that the request be denied because the area does not particularly fit into the State park plan. In the discussion, the question arose what should be done with the old road. The Engineer advised that no one lives along the old section and an endeavor will be made to turn the road back to Josephine County for future maintenance or disposal as the county deems proper, and, if the county will not assume this responsibility, then steps will be taken to abandon this section in its entirety as a public roadway. As a result of the discussion, the Commission unanimously approved the Parks Superintendent's recommendation.

5. Proposed gift of the A. F. Coats' family, Tillamook, of a small area of land at Hobsonville Point on US101 about one mile south of Garibaldi: The Parks Superintendent advised that the area consists of about one acre of land which is valuable from a historical standpoint inasmuch as it was at this point that Captain Gray landed many years ago during the course of his explorations, at which time he discovered Tillamook Bay. He recommended that if the Coats' family offers to donate the property to the State, that it be accepted by the Commission subject to the condition that the area will not have to be developed until such time in the future as the highway is realigned at this location. The Commission approved the recommendation unanimously.

6. Request of Tillamook County Delegation for development of a roadway leading to Cape Lookout State Park, Tillamook County: The Parks Superintendent advised that a delegation will appear before the Highway Commission on the following day to renew its request for this roadway. He estimated the cost to improve the present roadway, which is a county road that ends about two miles from the park, at about $65,500. the cost to extend the roadway to the park at about $40,100 and to construct a roadway through the park at about $37,800, or a total of about $144,000. The matter was discussed briefly by the Commission which deferred a decision in the matter until it has had an opportunity to hear what the delegation has to say on the subject. (See additional paragraph ahead)

7. Proposed addition to Bald Peak State Park: The Parks Superintendent advised that a delegation will appear before the Commission on December 21, 1951 to urge the purchase of a 24.6 acre addition to this park, to the north and on the opposite side of the county road from the present park, which property is owned by a Mr. Landreth. He recalled that the matter previously has been discussed by the Commission and that in November 1949 the Commission refused to pay $19,800 for the property, which was the price set by Mr. Landreth at that time. Subsequent negotiations with Mr. Landreth, he said, reveal that he will not lower his price. He pointed out that the property contains a spring which is the only natural water supply for the park; also, that the area affords an excellent panoramic view of the Tualatin Valley and a view of snow capped peaks in the Cascade range. He also said that the park is patronized by a large number of people. The Commission discussed the matter briefly but deferred action pending discussion with the delegation on the following day. (After consulting with members of the delegation, the Commission authorized the Parks Superintendent to offer Mr. Landreth a maximum of $6,000 for his property) (See additional paragraph ahead)

8. Request of the State Forester for an extension of time within which to remove dead and down timber from land that the State Highway Commission deeded to the State Forestry Department along the Wilson River Highway: The Parks Superintendent recalled that about a year ago the Commission transferred title to the land to the State Forestry Department, one of the conditions of the transfer being that the Forestry

Department would remove dead and down timber, and it was anticipated that the timber could be removed by June 1, 1951. The work, he said, did not progress as was anticipated and the Forestry Department now is asking that the time limit for completion of the work be extended to June 1952. He recommended approval of the request. The Commission approved the recommendation.

9. Request of Mr. Jack Flauscher, concessionnaire at Crown Point, for permission to close the Vista House to the public during the months of January and February of each year, when business is slack: The Parks Superintendent advised that revenues derived from this concession during the first three months of 1950 was only $146.00 and for the same period in 1951 was only $250.34. He recommended approval of Mr. Flauscher s request. The Commission approved the recommendation.

10. Question of disposal of trees that were blown down in State Parks during recent severe windstorms: The Parks Superintendent advised that at least 100 trees had fallen in Honeyman State Park, approximately the same number in Ecola State Park, about 40 had fallen in Van Duzer Corridor, 4 large trees fell in Cascadia State Park, and a few trees fell in other parks. He requested authority to advertise these trees for sale. The Commission approved the request unanimously subject to the condition that the logs are not to be transported over park roads until conditions are satisfactory and the hauling can be done without damage to the road surfaces.

The Right of Way Engineer presented for the Commission's consideration options that he has obtained for acquisition of real property that is needed as right of way and for other purposes. After careful consideration of each item, the Commission approved the options and authorized the closing of them at the prices mentioned therein. The attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m., with the same persons present and participating.

The Chief Counsel brought up for discussion a suggested procedure to be followed in the future to expedite condemnation cases and the closing of transactions so as to avoid delays in contracting projects for construction. The proposed procedure provides for authorizing and directing the Chief Counsel to tender to the owners of real property an offer in behalf of the Commission for purchase of such real property, such offer to be in an amount of money and other considerations as the Chief Counsel may determine, based upon appraisals of competent appraisers, to be the fair cash market value of the property sought and the depreciation, if any, in the fair cash value of the owner's remaining property, resulting from the acquisition. The Chief Counsel explained that the making of such offers prior

to receiving authority from the Commission to commence condemnation proceedings would only be done in those cases where it has not been possible to negotiate an option to purchase property for a consideration that can be recommended to the Commission, and when the awarding of contracts may be delayed if an offer is not tendered prior to receiving authority from the Commission to institute condemnation proceedings. The Chief Counsel also suggested that prior to the making of any offer at least one Commissioner should be consulted to approve the amount of the offer. In the discussion of the matter, Commissioner McIver pointed out that the Commission's objective is to eliminate the time element in clearing right of way matters, so projects may go forward. Chairman Chandler advised that the Commission wants all right of way options obtained and necessary condemnation cases filed in connection with any particular project before the project is advertised for bids. The Engineer advised that he is working to that end and expects to accomplish the desired results before the fall of 1952. As a result of discussion, the Commission unanimously approved the Chief Counsel's suggested procedure by adoption of the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel requested authority to condemn certain parcels of real property that are needed for highway purposes, because of difficulties in acquiring the properties by negotiation. He submitted a list of the properties as follows, together with the offer that he recommended for each in the condemnation proceedings:

Unit No. 2 Sect. of the T. H. Banfield Expressway			Recommended Offer
R 15872	Walnut Park Company (A Fred Meyer Ownership) Right of Way (Multnomah) 1305 sq. ft.		$ 900.00
R 15873	Yamhill Street Corp. (A Fred Meyer Ownership) Right of Way (Multnomah) 2.319 acres at $25,291.82 per acre, or 101,016 square feet at $0.50 per sq. ft.	$50,508.00	
	Allowance for damage to remainder by reduction of the plottage from 130,591 sq. ft. to 29,575 sq. ft. 1/2 value of 29,575 sq. ft. at $0.50 per ft.	$ 7,393.75	
	Allowance for store rental bldgs.	750.00	
		$58,651.75	$58,700.00
Unit No. 3 Sect. of the T. H. Banfield Expressway

Hayesville School-Lana Avenue	Pacific East
YAMHILL	
Sheridan-Deer Creek	Salmon River
CLACKAMAS	
Barbur Blvd.-White School	West Portland-Hubbard

As a result of discussion and in order to clear the records, the Commission unanimously approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed briefly and ordered filed a written report from the Right of Way Engineer dated December 6, 1951 showing the salvage value on houses sold by auction as compared with the salvage value of houses sold by another method. The report indicates that the auction method in general provides a much higher return.

The Right of Way Engineer reported results of the taking of bids in Salem on November 30, 1951 for the purchase of a parcel of Highway Department land located in Lots 5 and 8, Block 7, Couch's Addition to Portland. He said that only one bid was received, being that of Consolidated Supply Company of Portland at $3,200. He pointed out that this offer is $50.00 more than the minimum price of the property as specified in the advertisement, and he recommended acceptance of the same. The Chief Counsel and the State Highway Engineer concurred. The Commission approved the recommendation unanimously.

The Right of Way Engineer also reported that, pursuant to instructions from the Commission, the old maintenance headquarters property at Government Camp was readvertised for bids to be received in Salem on November 30, 1951, but no bids were received. He recommended, due to the lateness of the season, that no further attempt be made to sell this property until next spring. The Commission approved the recommendation.

Authority was requested by the Right of Way Engineer to purchase for the sum of $150 a sawdust pile located on property that the Commission acquired from the Jaymar Wholesale Lumber Co. of Hood River for right of way purposes along the Wygant Park-Hood River Section of the Columbia River Highway. Purchase of the sawdust pile, he said, could not be avoided and the company is asking $150 for the same. He recommended payment of such sum. The Commission approved the recommendation. The sawdust is being given to the Landscape Department for such use as it may have for the same.

Consideration was given by the Commission to a request from Mr. Edson McCanse for a change of access from his property to the La-Grande-Ladd Canyon Section of US Highway No. 30. The Right of Way Engineer recommended approval of the request. The Commission approved the recommendation. (An "Indenture of Access" agreement was signed by the Commission later in the session)

The Commission unanimously confirmed a settlement that was authorized by Commissioner Reynolds on December 6, 1951 of the State's claim against the Highway Department's insurance carrier for damage that occurred to a trailer tank by fire, such settlement being in the sum of $1,141.76.

The Commission discussed and approved an agreement with the Union Pacific Railroad Company covering the furnishing of extra width right of way at the railroad overcrossing on US30 south of Hermiston, to take care of embankment slopes. (The agreement was signed later in the session)

The Commission also considered and approved an exchange of properties with the Weyerhaeuser Timber Company on the Catching Slough-Enegren Section of the Coos River Highway, Coos County. (A Quitclaim Deed conveying the State's property to the company was signed later in the session)

The Right of Way Engineer presented for the Commission's approval a proposed agreement with Linn County providing for use of county-owned land on Saddle Butte, about two miles east of the town of Shedd, in connection with the operation of a state-owned quarry at this location. It was explained that the agreement provides for use of the county property for ten years, and as consideration the county is to be allowed to

take materials from the State's quarry for county road purposes only. The Commission approved the arrangement unanimously. (The agreement was signed later in the session)

The Commission discussed and approved the renewal of a materials site lease with the OWR&N Co. near M. P.'s 32 and 34 on the John Day Highway in Gilliam County. (The extension rider covering the matter was signed later in the session)

The Commission confirmed a two-year ground lease arrangement with the Long-Bell Lumber Company for the securing of borrow materials on the Mill Creek Section of the Umpqua Highway, Douglas County. It was explained that the highway improvement at this location is under the jurisdiction of the US Bureau of Public Roads and that it is the State's obligation to acquire borrow pit sites for the same. It was also explained that the Long-Bell Company is demanding one cent per cubic yard for material taken from its land, which is estimated to cost $1500.00 and payment for the timber which is removed from the site, which is estimated to cost not in excess of $500. (The lease was signed later in the session)

The Commission discussed a proposed easement agreement with the Willamina and Grande Ronde Railroad Company covering right of way across State Highway property on Bolon Island, Douglas County. It was explained that the easement covers the undercrossing of the railroad with the Oregon Coast Highway by a grade separation structure which has been built under authority of an order of the Public Utilities Commission; also that the agreement has been prepared principally to make the arrangement a matter of record in the Highway Department's files. The Commission approved the agreement unanimously. (The agreement was signed later in the session)

The Commission had under discussion the matter of joining in the vacation of certain lots and streets in a subdivision known as "Saratoga Park" on the Mt. Hood Highway in Clackamas County. The Right of Way Engineer explained that the request for the vacation comes from the Clackamas County Court. He recommended approval of the same as an advantage to the State because it will avoid confusion in crossing streets and avenues when the proposed realignment of the highway at this location is undertaken. The Commission approved the recommendation. (The "Consent to Vacation" form was signed by the Commission later in the session)

The Commission discussed a request from the Douglas County Parks Supervisor for permission to use for public recreational purposes a portion of a State-owned gravel site near the Ford Bridge crossing of the South Umpqua River on US99. The Engineer advised that the gravel site, which contains about 25 acres of land, is situate at the end of a county recreational road which the county wants to extend to the river for the convenience and use of picnickers and fisherman, and the county also wants the use of a portion of the State's property but does not intend to

place any facilities within the area. He gave as his feeling that there would be no objections to such use of the property provided the area is closed to public use at such times as the State might have a contractor operating on the property. He recommended, in view thereof, that a revocable permit be granted, the county to use the area for recreational purposes subject to the condition and definite understanding that the State reserves the right to close the area at any time that it is necessary to do so in the State's interests. The Commission approved the recommendation unanimously.

The Commission discussed the purchase of a residence building owned by Dr. F J. Friedrich, Jr., which is located on the proposed entrance of the Wilson River Highway into Tillamook. The Engineer recalled that the Highway Commission, during its inspection of the Oregon Coast Highway in June 1951, authorized, at the request of the City Council of Tillamook, a study of a one-way street routing to connect with the ultimate new alignment of the Wilson River Highway where it enters the city. Subsequently, he said, a reconnaissance survey was made and the results thereof were reported to the Commission about two months ago, but the Commission took no action on the matter. Moreover, a location survey has never been made. It now appears that Dr. Friedrich's residence is located on one of the connections and he is anxious for the State to buy his property, alleging that because of the State's investigations, he lost a sale to another party. The Engineer further stated that Dr. Friedrich's property is appraised at $14,000, whereas he is asking $15,000 for it. He requested instructions. The Commission deferred consideration of the matter pending discussion with Dr. Friedrich who was scheduled to appear before the Commission on the following day. (See additional paragraph ahead)

The Commission considered the matter of renewing its previous agreement with the City of Pendleton covering maintenance of the landscaped area of State-owned property situate at the junction of the Old Oregon Trail and the Oregon-Washington Highway near the east city limits of Pendleton. It was pointed out that the former Highway Commission entered into an agreement with the Board of Park Commissioners of the City of Pendleton on June 13, 1941 relative to maintenance of this property for a ten year period, by which agreement the Park Board agreed to maintain the property in a manner satisfactory to the State at its own cost and expense during the effective period of the agreement. It appears that the Park Board no longer is in existence and its obligations have been assumed by the City, which now wishes the arrangement extended for another 10-year period. The Engineer advised that maintenance of the area under the original agreement has been performed in an entirely satisfactory manner, and he recommended approval of the City's request. The Commission approved the recommendation unanimously. (Agreement covering the matter was signed by the Commission later in the session)

The Commission had under consideration for approval a request for access changes on the Kerr and Olson properties (right of way files 13894 and 13891) situate on the Salem-Hayesville Section of the Pacific Highway in Marion County. The Right of Way Engineer explained that in acquiring right of way at this location, six access points were granted, but the Kerrs and the Olsons now plan to develop their holdings, in connection with which they intend to build their own frontage road and connecting streets. The development, he said, will work out to the advantage of the State inasmuch as it will eliminate three of the approved access points. He recommended approval of the request. The Engineer concurred. The Commission approved the recommendation unanimously. (An "Indenture of Access" covering each property was signed by the Commission later in the session)

The Commission had under discussion a written report from the Chief Counsel on the matter of securing owners public liability and property damage insurance on buildings owned by the State Highway Department that are being rented or leased by the Commission for a consideration. The Chief Counsel suggested that it would be advisable to secure such insurance for the protection of the State, members of the State Highway Commission and its officers and employees against claims for personal injury or property damage that may occur upon such premises. He pointed out in his report that should the Commission desire to secure such type of insurance, it should be on a blanket coverage basis similar to the Commission's present fire insurance policy, which provides that units may be added to or deducted from the coverage at the pleasure of the Commission. The Chief Counsel explained that only such buildings as are being rented or leased would be covered by the new insurance and that a policy providing public liability protection in the amount of $100,000, 300,000 and property damage insurance in the amount of $100,000 will cost about $5.00 per year or a fraction thereof, for each unit, or about $525 per year for buildings now being rented. It was the feeling of the Commission that such protection should be provided. Accordingly, the Commission unanimously approved the purchase of the insurance as suggested by the Chief Counsel.

The Chief Counsel reported as follows on the lawsuits that have been settled since the last meeting of the Commission:

1. Case of the State Highway Commission vs. James P. Weter et al: The Chief Counsel advised that this case concerns the acquisition of land for widening and improving the Oregon Coast Highway in the City of Coquille, and that the complaint in this action was filed on March 29, 1951 after a formal offer in the sum of $5,050 was refused by the owners, who consistently demanded the sum of $15,000 for their property. A compromised settlement at $6,000, he said, was reached on November 10, 1951, subject to approval by the Commission. The Commission approved the settlement.

2. The State vs. Lyon Lumber Company: The Chief Counsel advised that this case involves acquisition of 80 acres of land as a source of road-building material to be used in the construction and maintenance of the Santiam Highway in Linn County. He recalled that the Commission on April 3, 1941 authorized an offer of $300 for the property, but it was necessary to file the case because of title difficulties. Moreover, it is apparent that the amount of the offer was determined without benefit of any independent appraisal. Later, in 1946, it was agreed by the attorneys for the Commission and the attorneys for the defendants that the fair cash market value of the property was $900. In order to clear title to the property, he said, the defendants instituted suit in the Circuit Court, and, as a part of the judgment that was entered in the case, the trustee in charge of the property was authorized by the Court to convey the premises to the State for the sum of $900 and the Trustee's Deed has been received. He recommended approval of the settlement. The Commission approved the recommendation.

3. The State Highway Commission vs. Bradford T. Bowles et al. The Chief Counsel advised that this case was reported informally to the Commission at its November meeting, but for the record he wished to advise that the total amount of the judgment in the case, which was tried in the Circuit Court of Lane County, was $13,873.07. The Commission approved the report.

4. Case of the State vs. James Trzil concerning right of way needed for the T. H. Banfield Expressway, Portland. The Chief Counsel advised that the complaint in this case was filed on November 16, 1951 after a formal offer of $8,000 for the property had been rejected. Mr. Trzil, he said, demanded the sum of $10,000 for his property, but after several months of negotiating finally agreed to accept the $8,000 previously offered, provided the State would pay him an additional $100 to cover his attorneys fees, and to allow him to occupy the premises for a period of three months. He recommended approval of the settlement. The Commission approved the recommendation.

5. Case of the State vs. Delbert Norlund for acquisition of 3.04 acres of land needed as right of way for improvement of the Pacific Highway about one mile south of Canyonville, on which property is located a motor court known as "Cedars Motel". This property, he said, is presently owned by a Mr. Houston, who is a contract purchaser. 47 acres of land are involved, only four of which are usable, the balance being located on a steep hillside. Improvements consist of a log-type building, the lower portion of which is occupied by a tavern and grocery store and the upper portion is used as living quarters. In addition there are 12 cabins which are rented spasmodically by overnight tourists. The Chief Counsel also said that the new highway at this place will be from 19 feet to 33 feet above the level of Mr. Houston's land, and that the nearest connecting roadways are in Canyonville on the north, and at a point about 1/4 mile from the property on the south. He further advised that about a year ago, the former Chief Counsel, Mr. J. M.

Devers, discussed a settlement with Mr. Houston's attorney, Mr. George Neuner of Roseburg, and at that time agreed to recommend a settlement at $7,750, but the settlement was rejected by the owners. However, as a result of subsequent negotiations, a compromise settlement has been reached at $8,500. He recommended payment of such sum. The Commission approved the recommendation.

6. Proposed settlement of State vs. Kuckenberg Construction Company and Glens Falls Indemnity Company concerning damage to the "Ford" Bridge over the Umpqua River on the Pacific Highway in Douglas County. The Chief Counsel advised that the damage to the bridge resulted from an accident that occurred on it involving an operation of an overweight and oversize vehicle belonging to the defendant. The complaint in this case, he said, was filed on May 17, 1951 for the recovery of $2,507.53 for damages, but the defendant refused to pay such sum; however, did agree to pay the sum of $2,393.55 as settlement in full. He recommended acceptance of this offer. The Commission approved the recommendation.

7. State vs. Mary Scheckla: The Chief Counsel advised that this transaction involves the acquisition of right of way for the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway and that the Commission authorized an offer of $4,750 in condemnation, which the owners refused. A compromise settlement has been effected, he said, on the basis of paying an additional sum of $500 for construction of 142 rods of fencing, or a total of $5,250. The Commission approved such settlement.

The Chief Counsel requested authority to employ Mr. Anthony Yturri, rather than Mr. Robert Lytle, Vale, as an attorney to assist in the defense of the case of Strasbaugh vs. the State, which case concerns the taking of gravel from a source in the Snake River for improvement of the Old Oregon Trail in the vicinity of Ontario, and to employ Mr. George T. Cochran of the firm of Eberhardt and Cochran, Attorneys, LaGrande, to assist in the case. He stated that Mr. Yturri is professionally well qualified, is held in high esteem in his vicinity and is a very successful trial lawyer, and that the services of Mr. Cochran will be of value because of his great experience in the matter of water rights and other litigation involving water. He said that the Commission has authority to employ such legal assistance if it so desires, with the consent of the Attorney General, who has already given his approval. The Commission unanimously approved the employment of both Mr. Yturri and Mr. Cochran.

The Chief Counsel requested authority to prosecute by whatever action as is necessary, claims against the following named persons for damages to highway facilities:

1. Claim against William R. Taylor and E. L. Conover for damaging the Holley Bridge on the Halsey-Sweet Home State Secondary

Highway on June 15, 1949, amount of claim $1,599.86.

2. Claim against Henry Sauce in the amount of $1,929.79 for damaging the State-owned drawbridge on the Netarts State Secondary Highway in Tillamook County.

3. Claim against George W. Thornton in amount of $462.34 for damaging Mill Creek Bridge on the Warm Springs Highway.

4. Claim against Steiner Lumber Company, Sacramento, California, in amount of $679.32 for damaging a SnoGo owned by the State Highway Department and being operated on the Willamette Highway at Willamette Pass.

5. Claim against Nevey Smith in the sum of $287.12 for damaging a bridge on the Powers State Secondary Highway, Coos County.

6. Claim against Cage Fred Snow in the sum of $154.97 for damaging the Williamson River Bridge on The Dalles-California Highway, Klamath County.

7. Claim against White Line Produce Company in the sum of $1,066.85 for damaging concrete handrail on the Wapinitia Highway at Clear Creek Bridge.

The Commission approved the request unanimously.

The Chief Counsel also requested authority to prosecute a suit against Mr. Ed Randle for specific performance of an option which Mr. Randle executed in connection with acquisition of property needed as right of way for improvement of the Pacific Highway East, Salem. He stated that Mr. Randle operates a service station and a fuel yard in North Salem, a portion of which property is needed by the State, that Mr. Randle signed the option, which provided for payment to him of $15,000 for his land, but later he refused to execute a deed of conveyance, so court action is required. The Commission approved the request unanimously.

In this connection, the Chief Counsel stated that a similar situation exists regarding acquisition of right of way that is needed for improvement of the Bay City-Kilchis Section of the Oregon Coast Highway, Tillamook County across property owned by Jeannette Scaife, and, because of an existing emergency, he instituted suit against Mrs. Scaife for specific performance of the option which she had executed. He asked the Commission to confirm his action in the matter. The Commission approved the request.

The Chief Counsel brought up for discussion the claim of Mr. Howard Gepner in the amount of $227 for past and anticipated future dental treatment for his daughter, who was injured while riding a bicycle on the sidewalk in front of State Highway property in Portland. The Chief Counsel

recalled that this matter was first presented to the Commission at the previous meeting and was referred back to him for additional information. It now appears, he said, that Mr. Gepner's claim consists of payment of $27 for dental services already received and $200 for future dental work and for physical disfigurement. He explained the details of the conditions obtaining at the time of the accident and advised that circumstances are such that the State is under no obligation to pay Mr. Gepner's claim, although the Commission may consider it has a moral obligation and in that case he recommended a compromise settlement of $50. He added that, if the Commission considers that no moral obligation exists, then the claim should be denied in its entirety. It was the opinion of the Commission that it has neither legal obligation nor moral obligation with respect to the claim and, accordingly, denied the claim.

The Chief Counsel requested authority to collect for the benefit of the State Highway fund the sum of $5.00 as consideration for each instrument conveying, modifying or changing any point or points of access to a State highway in cases where such conveyance, change, or modification is requested by the individual affected. He explained that this charge is simply for the purpose of reimbursing the State for its costs and expenditures in preparing and recording the necessary instruments. The Commission unanimously approved making such charge.

The Commission discussed the settlement proposed by the Chief Counsel of the Commission's claim against Mr. Joe M. Armstrong for damaging the handrail on the viaduct on Interstate Avenue in Portland. It appears that immediately following the accident, the State's contractor offered to make repairs for $577.50, but through a misunderstanding the contractor did not make the repairs, and the work was done on a force account basis at a total cost of $795.76. It also appears that Armstrong's insurance company objected to paying the full amount of such cost because of the contractor's offer to do the work for $577.50, but stated a willingness to compromise the settlement by paying $577.50 plus one-half the difference between such sum and the actual cost of doing the work, or a total of $686.68. The Commission approved the compromise settlement unanimously.

The Commission discussed a demand from the Southern Pacific Company that the State's contractor, Mr. Porter W. Yett, furnish "occurrence" insurance coverage rather than "accident" insurance coverage in connection with his Contract No. 3512 with the Commission for construction of the Bunker Hill-Delmar Section of the Oregon Coast Highway, Coos County. The Chief Counsel advised that the railroad company has threatened to stop Mr. Yett's operations unless he furnishes the insurance coverage they demand, which coverage is written by only two insurance companies, General Casualty and Lloyds. He estimated the cost of the extra coverage at approximately $200, but advised it may be as much as $500. The contractor, he said, considers that he is not obligated to furnish the extra insurance as he has already complied with the State's requirements

in that regard. He recommended, in view of the circumstances and the small cost involved, that the State pay for the insurance demanded by the railroad company in the present instance, with the understanding that a conference shall be had shortly after the first of the year with the railroad companies and the underwriters in an attempt to agree on specifications for the furnishing of insurance in connection with future State Highway contracts. The Engineer joined in the recommendation. The Commission approved the recommendation unanimously on motion of Commissioner Reynolds, which was duly seconded by Commissioner McIver.

The Commission unanimously confirmed the oral authority heretofore given the Chief Counsel to settle for the sum of $300 the claim against Ross V. Bales for damaging a truck owned by the State Highway Department, and also confirmed authority given the Secretary to sign an agreement releasing Mr. Bales from further obligation in connection with this matter upon payment of the amount of the State's claim.

The Chief Counsel brought up for discussion the matter of posting overhead structures upon and over the State highway system where vertical clearances will not accommodate vehicles having a lawful height as provided in Section 3 (1) (b), Chapter 405, Oregon Laws 1951. He gave as his feeling that these structures should be posted with appropriate signs notifying the motoring public of the impaired clearance notwithstanding that by law the driver of any vehicle is not relieved from the exercise of due care in determining whether or not the verticle clearance is sufficient. He gave as his feeling that the posting of such signs on certain overhead structures having a minimum verticle clearance of less than 12'9" is necessary in the best interests of the State and for the safety and general welfare of the public, and to protect State highway facilities from damage. He presented a list of structures in such category. As a result of careful consideration, the Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed a written report from the Chief Counsel, dated December 19, 1951, concerning the adoption of procedure to be followed in closing county roads where they intersect throughways and the nature of the consent of the county to such closure as is required under the Throughway Law. In his report, the Chief Counsel recommends that in each instance where county roads are to be closed at points of intersection with a throughway, an agreement be entered into between the Commission and the county concerned with respect to such closures and that, based upon such agreement, the county court adopt a proper resolution or order giving its consent to and approval of such closures. He also suggested that, if the constitutionality of the procedure is questioned, then the Commission can at that time consider what future action should be taken. The Commission unanimously approved the procedure as outlined in the report and so ordered. (For details, see copy of Chief Counsel's report in General Files).

The Chief Counsel requested authority for the Commission's Secretary to execute releases in behalf of the Commission for claims made for damages to State-owned vehicles and equipment on the basis of compromised settlements for less than the full amount of the claim when such settlements are recommended by the Chief Engineer and the Chief Counsel. The Commission approved the request and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed with the Engineer the bids received at the morning session for highway construction, and at 4:00 p.m., the Commission's decision with respect thereto was publicly announced by Commissioner Reynolds as follows, the Commission's decision in each instance being by unanimous vote:

"Coos River ferry service at Enegren, Coos County. Brunnell Bros. submitted the only bid at $2,340.00 per month. The contract has been awarded to Brunnel Bros. at their bid price.

"Grading and paving the Divide-Anlauf Unit of the Divide-Rice Hill Section of the Pacific Highway, Douglas and Lane Counties. The joint bid submitted by Leonard & Slate Oregon Limited and E. C. Hall Company, Portland, at $1,530,464.00 was the low bid submitted for this work. There were nine higher bids. The joint bid of Leonard & Slate Oregon Limited and E. C. Hall Company in the sum of $1,530,464.00 is accepted subject to the completion of acquisition of rights of way, including easements and encroachments upon railroad right of way, within 60 days, and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as all right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Grading and paving the Forest Boundary-Gilchrist Unit of the Lapine-Diamond Lake Junction Section of The Dalles-California Highway, Klamath County. Warren Northwest, Inc., Portland, submitted the low bid of four, at $215,434.25. The contract has been awarded to Warren Northwest, Inc. at its bid price.

"Construction of a paint shop at the Highway Department Shops in Salem, Marion County. H. G. Carl Construction Company, Salem, was low bidder for this work at $63,381.45. There were three higher bids. The Commission has awarded the contract to the low bidder, H. G. Carl Construction Company, at its bid price.

"Grading and paving the Tunnel Point Section of the Wilson River Highway in Tillamook County. Carl M. Halvorson, Inc.,

Portland, submitted the low bid of sixteen for this work at $229,594.00. The contract has been awarded to Carl M. Halvorson, Inc., at its bid price.

"Grading and paving the LaGrande-North Powder Section of the Old Oregon Trail, Union and Baker Counties. Pacific Sand and Gravel Company, Centralia, Washington submitted the low bid for this work at $848,677.00. There were six higher bids. The Commission has awarded the contract to Pacific Sand & Gravel Co. at its bid price.

"Grading and paving the Sheridan-Deer Creek Section of the Salmon River Highway, east from Sheridan, Yamhill County. The low bid for this work was submitted by J. C. Compton Co., McMinnville, at $182,352.50. There were two higher bids. The contract has been awarded to J. C. Compton Co. at its bid price."

The Chief Counsel presented for the Commission's consideration an agreement with the Bonneville Power Administration covering the re-establishment of a power transmission tower on the West Portland-Hubbard Highway. He recalled that the Commission at its October meeting authorized the payment of $4,240 to the Bonneville Power Administration to move this tower, which will be in the way of highway construction, and that this agreement is simply to cover the arrangement in writing. He recommended approval of the agreement as prepared. The Commission approved the recommendation. (The agreement was signed on the following day).

The Engineer reported on the request of the City of Lakeview for improvements to city streets that are used as state highway routes in Lakeview, pursuant to instructions received from the Commission at the previous meeting. He recalled his prior report to the Commission in July 1950 when the estimated cost to improve the Klamath Falls-Lakeview Highway Section was estimated at $46,000, and the cost to improve the Fremont Highway Section was estimated at $118,000, or a total of $164,000. The present day estimate, he said, is $190,000, the increase being due to the rise in prices. He advised that the improvements are merited and he recommended approval of the project for construction in 1952, using State funds if such funds are available. The Commission decided unanimously to construct at least a portion of the work in 1952, the balance to be constructed later, and thereupon authorized the Engineer to make surveys as may be necessary in connection therewith.

The Commission discussed briefly and ordered filed a written report from the Engineer dated December 3, 1951, covering truck weight violations during certain periods in the year 1951 as compared with violations during a corresponding period in 1950. The report indicates a reduction of about 50% in weight violations during 1951. (For details, see copy of the report in General Files).

The Engineer reported results of a conference held on Tuesday, November 20, 1951, among representatives of Astoria fishermen, their unions, and the packing company of Astoria, concerning the effect of the Astoria-Megler ferry operations upon the fishing industry in general, particularly with reference to interference and damage caused to the fishermen's nets by reason of ferry operations. The discussion, he said, resolved in two requests being made by the fishermen's union representatives and the packers, one of which was the elimination of the last daily trip of the ferry, and the other was for revisions to the bow or stem of the ferry "Tourist No. 3" to enable this vessel to slide over the nets. The records of the Highway Department, he said, reveal that, during the last trip of the ferry, between 10:15 p.m. and 11:30 p.m., 85 nets were crossed, whereas, during the two immediately preceding trips, between 8 p.m. and 9:15 p.m., and between 8:45 p.m. and 10:00 p.m., the number of nets crossed were 67 and 112 respectively, which indicates that the elimination of the last ferry trip would not solve the problem, but would merely give the operators an additional one and one-half hours of evening fishing free of any interference from the ferry operations. As to the second request, the Engineer stated that there is more merit, and, accordingly, he recommended that he be authorized to employ Mr. Joseph M. Dyer, naval architect and builder of the "Tourist No. 3", to study the plans and the original design of this vessel and to submit a plan, first choice and alternate, including estimates of cost, to alter the stem of this vessel to facilitate its passage over the nets. He also recommended that the request for the elimination of the last ferry trip be denied. The Commission unanimously approved both recommendations.

The Engineer presented a claim from T. R. Williams, Manager of the Astoria Navigation Company, operator of the Astoria-Megler ferry, for reimbursement for additional expense incurred by the company due to employment of additional personnel over and above that contemplated in the contract, as ordered by the Bureau of Marine Inspection, U. S. Coast Guard. It appears that the claim is based on action taken by the U. S. Coast Guard Marine Inspection Bureau as a result of an inspection of all three ferry boats on August 15, 1951 by a Mr. Richmond, traveling inspector from the headquarters office of the U. S. Coast Guard in Washington, D. C. The Engineer stated that Mr. Richmond's inspection revealed several deficiencies, mostly minor, in all three vessels, which apparently have been passed over for several years by the local office of the Inspection Bureau. As a result of Mr. Richmond's inspection, he said, the certificates issued by the Coast Guard for all three vessels were altered and amended to require additional personnel. He estimated the annual additional cost of the ferry operation resulting from the revised requirements at $7,812 and recommended that this expense be assumed by the State because it is quite evident that the contractor's bid price for furnishing the ferry service (approximately 66% of which is labor expense) is based on crew requirements as specified in certificates issued by the U. S. Coast Guard for each of the three vessels. He also recommended approval of the invoices submitted by the contractor covering the additional

labor costs incurred during the months of September and October, which are in the amounts of $139.65 and $216.45, respectively. As a result of discussion, the Commission unanimously approved both recommendations. (For details, see copy of Engineer's written report on the subject dated December 4, 1951 in General Files.)

A resolution was presented from the Heppner Chamber of Commerce requesting the reclassification of the following described State highways in Morrow, Wheeler, Gilliam and Umatilla Counties so as to allow operation thereover of vehicle combinations 60' overall in length:

1. Secondary State highway extending between Heppner and Condon.

2. That certain State highway which extends from U. S. Highway 30 at Buck's Corner, southerly up Butter Creek to U. S. Highway No. 207, thence along U. S. Highway No. 207 via Lexington and Heppner, Rugg Station and Hardman to a junction with the John Day Highway near Spray.

The Engineer advised that under authority previously granted him by the Commission, he has approved the reclassification of the following highways from Group 2 highways to Group 1 highways, investigations having proved conclusively that equipment authorized under Group 1 permits can negotiate them safely:

1. Lexington-Echo State Secondary Highway No. 320 from M. P. 0.0, junction with the Heppner Highway (ORE74), to M. P. 27.28, junction with the Hermiston Secondary Highway No. 333.

2. Hermiston Secondary Highway No. 333 from M. P. 17.92, junction with the Lexington-Echo Secondary Highway No. 320, thence northerly along Highway No. 320, to M. P. 12.61, which is the junction with the Boardman-Stanfield Highway.

3. Wasco-Heppner State Secondary Highway No. 300 between Condon and Heppner.

As to the Heppner-Echo Highway No. 321, the Engineer advised that test runs over this highway prove conclusively that the geometric design of the highway between Hardman and Spray does not conform to statutory requirements for a Group 1 highway. He recommended that the request for reclassification of the Heppner-Spray Highway be denied, but that the reclassification of the remaining highways be approved. The Commission approved the recommendation unanimously.

The Engineer presented to the Commission an itemized list of employees who are eligible under Civil Service rules and regulations,

and under the State Highway Department's merit rating system, for annual step salary increases on the first day of October, November and December 1951. He also presented a tabulation showing the name of each employee who is eligible under the Civil Service rules and regulations and the State Highway Department's merit system for annual salary step increases during the six-month period from January to June, inclusive, 1952. He recommended approval of the annual step increases for all personnel who qualify under the Highway Department's merit rating of average or better. The Commission approved the recommendation unanimously. (For details, see copy of Engineer's written report dated December 6, 1951 in General Files.)

In this connection, the Commission instructed the Engineer to submit a supplemental report on the number of employees who have reached the present top in their respective classifications.

The Engineer reported on complaints that had been received concerning the unevenness on the pavement along curb lines of the newly completed section of the Santiam Highway through the town of Sweet Home. He stated that upon receipt of the complaints, an immediate investigation was made, which revealed considerable unevenness, resulting in the forming of pools of water during rains. This was called to the attention of the contractor, he said, who repaired some of the worst places, but could not finish the entire job because of wet weather conditions, so it has been necessary to defer further work until next spring. The Engineer questioned that the unevenness of the pavement's surface was definitely the fault of the contractor, and he gave as his feeling that probably faulty inspection was the cause of the unevenness rather than the operation of the contractor. He recommended that the contractor be released from the project and that the work be completed next spring using State forces, which, he said, can do a better job because they are more experienced in that type of work than are the contractors. He estimated the cost of the remaining work at about $600 and advised that this expense will be charged against the contract. The Commission approved the recommendation, and so ordered. In this connection, the Engineer was cautioned by the Commission to provide more rigid inspection of contract work because it was thought better finished improvements will result.

The Engineer reported the result of an economic analysis survey of the Pilot Rock-Pendleton Section of the Pendleton-John Day Highway. He estimated the cost to reconstruct this 12.68-mile section at $619,800, and advised that it would provide a saving in distance of 0.29 mile. He also said that the saving in rise and fall is 235', or approximately 25%, that the saving in curvature is approximately 214°, or a decrease of 40% in the existing curvature, and that the resulting benefit quotient is 1.70. Consideration of the above facts, he said, indicates that the project is meritorious; however, it is well down on the State-wide priority list, there being many sections on the primary highway system that need reconstruction and which have a much higher benefit quotient. In

view of the information given by the Engineer the Commission decided unanimously not to program this project for immediate undertaking, but to keep it in mind for some future program.

The Engineer requested confirmation of the authority given him in response to his letter of November 19, 1951 to spend about $20,000 of State funds for landscaping the triangular area at the intersection of the Ochoco Highway with the Madras-Prineville Highway at the westerly limits of the City of Prineville, bids for which are to be received by the Commission on the following day. The Commission unanimously confirmed such expenditure, and also the advertising of the project for bids.

A petition was presented from residents and users of the Klamath Falls-Midland Secondary Highway, in which the Commission is requested to construct an oiled surface on the unpaved portion of this road. The Engineer advised that such unpaved portion is 3.74 miles in length; further that the existing base is not sufficiently stable to hold an oiled surfacing without additional foundation, and that it would cost about $57,000 to provide an adequate foundation. He pointed out that the volume of traffic that uses the road is not very heavy, and he suggested that the project be deferred until some time in the future, because of the heavy demand in Klamath County for improvement of the Klamath Lake Secondary Highway, it being his feeling that it would be unwise to make any switch in available funds at the present time. The Commission approved the Engineer's suggestion and decided to let this improvement take its proper turn when future Federal Aid Secondary funds become available for this district.

The Commission discussed a report from the Engineer on a request from Walterville Grange No. 416, Lane County, for a new bridge over Lane Creek on the McKenzie Highway, to eliminate accidents which they allege occur at this point. According to the Engineer's report, investigation reveals that the existing bridge is only 19' long, and has a width of 25', but it is near the middle of a 10° curve. The grade of the highway at this point is level, he said, and there is no restriction of sight distance. Moreover, during the past five years, records disclose only one reported accident, which occurred on November 6, 1951, when an out-of-state car had a tire blow-out and ran into the bridge railings. He estimated the cost to construct a new bridge (culvert type), and to straighten the highway at this point at about $5,000, but he recommended that the request be denied because of facts disclosed by the investigation. The Commission approved the recommendation.

A petition was presented from people residing in Burnt Woods, Harlan, Blodgett and vicinity, Lincoln County, requesting the straightening and widening of the Corvallis-Newport Highway between M.P.'s 36.26 and 46.16, particularly, the corner known as "Fred Ray's Corner" situate about .7 mile east of M.P. 36.26, and the "Gallatly Canyon" Section, which is situate 1.5 miles west of M.P. 46.16. The Engineer advised

that the section of highway referred to is approximately 10 miles long and that to improve the corner known as "Fred Ray's Corner", involving about one mile of reconstruction, is estimated to cost $75,000, and the estimated cost to improve the "Gallatly Canyon" Section, 2 miles in length, is $175,000, or a total of $250,000. He stated that there are no funds available in proposed programs to finance either improvement, and he recommended that the request be denied for the time being, but that he be authorized to make a reconnaissance survey of the entire 10-mile section when personnel is available to do the work. He estimated the cost of such a survey at $3,000. The Commission approved the recommendation unanimously.

The Engineer reported satisfaction of conditions governing the awards of the following contracts for which bids were received by the Commission at its meetings on October 11 and 12, and on November 8 and 9, 1951, and that contract forms have been prepared and submitted to the several contractors for acceptance and execution:

(1) Grading and paving Winchester Avenue-Reedsport Section of Oregon Coast Highway. Bids received November 8, 1951, conditions satisfied November 19, 1951. Contractor, J. C. Compton Co.

(2) Grading and paving Jones Ranch-Mitchell Section, Ochoco Highway, Wheeler County. Bids received November 8, 1951, conditions satisfied November 28, 1951. Contractor, C. R. O'Neil.

(3) Grading and paving Reedsport-Winchester Bay Section of the Oregon Coast Highway, Douglas County. Bids received October 11, 1951, conditions satisfied, December 4, 1951. Berke Bros., Contractor.

(4) Construction of Gilchrist-Willamette Junction Unit of La Pine-Diamond Lake Section of The Dalles-California Highway, Klamath County. Bids received October 12, 1951, conditions satisfied December 10, 1951. R. A. Heintz Construction Co., Contractor.

(5) Grading and paving Bay City-Tillamook Section of the Oregon Coast Highway, Tillamook County. Bids received October 12, 1951, conditions satisfied December 7, 1951. Heavy Hauling Company, Contractor.

(6) Construction of bridges on the Bay City-Tillamook Section of the Oregon Coast Highway, Tillamook County. Bids received October 12, 1951, conditions satisfied December 7, 1951. Tom Lillebo, Contractor.

(7) Gorton Creek-Warren Creek Section of the Columbia River Highway, Hood River County. Bids received October 11, 1951, conditions satisfied, December 10, 1951. Gibbons and Reed, Contractor.

(8) Warren Creek-Viento Section of the Columbia River Highway, Hood River County. Bids received October 11, 1951. Conditions satisfied December 10, 1951. Gibbons and Reed, Contractor.

(9) Jaymar Overcrossing on Columbia River Highway in Hood River County. Bids received October 12, 1951. Conditions satisfied December 10, 1951. Orlando C. Bennard, Contractor.

(10) Grading and paving Wygant Park-Hood River Section of Columbia River Highway, Hood River County. Bids received October 12, 1951. Conditions satisfied December 10, 1951. Guy F. Atkinson Co., Contractor.

The Commission unanimously approved the report and action taken by the Engineer in connection with these projects.

The Commission considered and approved an agreement with the OWR&N Co. and the Union Pacific Railroad Company covering an easement for right of way and the relocation of a crossing signal on the Old Oregon Trail at Cairo, Malheur County. (The agreement was signed later in the session.)

The Commission had under discussion a request from the City of Bend for installation of a traffic signal at the intersection of Wall Street and Franklin Avenue in Bend. The Engineer advised that the intersection referred to is on the route of US Highway 97 at a point where it makes a right angle turn, one of the opposing streets being a city street, the other being the route of the Century Drive State Secondary Highway. Investigation, he said, reveals that 10,242 vehicles enter this intersection daily, of which 56% enter from the north and south, and 44% enter from the east and west. Due to the almost equal distribution of the entering traffic, he said, there is a material congestion, in view of which it is recommended that a three-phase signal installation, estimated to cost $3,500, be made on the condition that the City of Bend will pay 50% of the cost of the installation, will maintain the signal after it is installed, and will furnish electrical energy to operate it. The Commission approved the recommendation.

The Commission discussed a report from the Engineer on a request from the City of Silverton for either a traffic signal or a four-way stop at the intersection of Main Street with Silver Creek Falls State Secondary Highway in Silverton. According to the Engineer's re-

port, there is insufficient traffic at this intersection at the present time to warrant the installation of a signal. He recommended, in view thereof, that the request for both the signal and a four-way stop be denied. The Commission approved the recommendation.

A letter was presented from the City of Prairie City requesting installation of a "blinker" light and more specific traffic signs at the intersection of Front and Bridge Streets in Prairie City, as an accident prevention measure. The Engineer advised that this matter has been investigated by the Traffic Engineer, who advises that there is not sufficient warrant for installation of the "blinker" light. Moreover, since the highway at this point is on a tangent, a flashing beacon would be of no value if installed. The Traffic Engineer, he said, recommends that the request be denied, but that the existing "SPEED 25 MILES" signs be replaced with oversize signs having the same wording, and that additional speed signs be maintained within the city. He stated his concurrence in such recommendation. The Commission approved the recommendation.

The Commission discussed and, upon recommendation of the Engineer, denied a request from Mr. E. M. Fredricks, Baker, Oregon, for installation of a "blinker" light at the intersection of Tenth Street (US30) and "H" Street in the City of Baker. The Engineer's recommendation was based on an investigation by the Traffic Engineering Department, which disclosed no warrant for installation of such a signal at this time.

The Commission considered and ordered filed a petition forwarded by H. L. Goodmanson, Drain, Oregon, through Governor Douglas McKay, in which citizens of Drain, Yoncalla and vicinity state their opposition to the proposed plan of the State Highway Commission to relocate the Pacific Highway (US99) so as to by-pass these towns, and to limit access thereto.

The Commission had under discussion at this time the adoption of surveys for proposed revisions of the Pacific Highway, which will by-pass the towns of Creswell, Cottage Grove, Drain, Yoncalla, Oakland, Sutherlin and Gold Hill. It was the feeling of the members of the Commission, the State Highway Engineer, and the Chief Counsel that sufficient time has been given the people of these towns since the public hearings which were held in October, to voice their objections to the proposed revisions, and, whereas those opposing the revisions have neither appeared before the Highway Commission nor asked for the privilege of appearing before the Highway Commission since such public hearings were held to elaborate and present additional arguments in behalf of their contentions, that it will be proper at this time to formally adopt the surveys as made and recommended by the Engineer. Accordingly, motion was made by Commissioner McIver that the surveys for the several revisions of the Pacific Highway which will by-pass the towns of Creswell, Cottage Grove, Drain, Yoncalla, Oakland, Sutherlin and Gold Hill as made and recommended by the Engineer, except the surveys for proposed connections to the several towns which will be considered later by the Commission, be approved in order to delay no longer construction of the proposed revisions. The motio

was seconded by Commissioner Reynolds and was declared by Chairman Chandler to have received the unanimous vote of the Commission. The attached resolution relative thereto, marked EXHIBIT "M", which resolution by this reference is made a part hereto with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

The Commission had under consideration the following requests for extensions of time within which to complete highway contracts:

1. Lindstrom Bros., Inc., Contract No. 3417, for construction of a bridge over the Wilson River on the Wilson River Highway, Tillamook County, requested an additional extension of time of 30 days from November 15 to December 15, 1951, within which to complete this job. They attributed their failure to complete the project within their previously extended time limit to sudden high water conditions which washed out a large portion of their center span false work. The Engineer advised that the reason given by the contractor for failure to complete the project by November 15, 1951 is correct. All concrete in this structure, he said, has been poured and traffic was routed over this structure on November 10, 1951. Furthermore, there yet remains only a small amount of concrete finishing and the cleaning up of the site to complete the job. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

2. R & M Construction Company, Contract No. 3443, for construction of four concrete structures and approaches thereto on the Holland Loop County Road, Josephine County, requested an extension of time of 243 days from November 30, 1951 to July 31, 1952 within which to complete this job. They gave the following reasons for failure to complete the project within the specified time limit: difficulties in securing necessary steel, change of plans and location of a box culvert at Chapman Creek, and redesigning of wing walls at bridge No. 7327 because of an error in the specifications. The Engineer advised that the contractor experienced considerable delays in receiving steel for the structures, and it became necessary to add one span to one of them. He also said that the existing bridge at the location of the uncompleted work is still serving traffic, and the public is not being inconvenienced by the contractor's failure to complete the project in the specified time. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

3. City Electric, Inc., Contract No. 3435, for installation of traffic signals in Salem, Marion County, requested an additional extension of time of 90 days from August 31, 1951 to November 30, 1951 within

which to complete this job. They attributed their failure to complete the project within the previously extended time limit to difficulties in securing necessary equipment. The Engineer advised that the contractor did everything that he could to expedite this project, but, as stated by him, could not complete the work within the specified time limit because of nondelivery of materials entering into the job. Due to the fact that the delay was in no manner attributable to the contractor, he recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

4. Bemis and Company, Contract No. 3315, for construction of a storage building at the Highway Department headquarters in Eugene, Lane County, requested an extension of time of 464 days from August 31, 1950 to December 8, 1951 within which to complete this job. They alleged that bad weather during the winter of 1950-51 and difficulties in obtaining experienced workmen were the contributing causes for failure to complete the job within the specified time limit. The Engineer advised that this job was completed several months ago with the exception of a small amount of clean-up work and adjustment of some of the flashing around the chimney. The contractor, he said, got into financial difficulties and arrangements were made with Mr. George Bemis, a brother of one of the contracting firm, to finish the work by December 8, 1951. He said that only a very minor additional expense has been caused to the State, and he recommended in view thereof that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

5. Bemis and Company, Contract No. 3292, for construction of a maintenance building at Veneta, Lane County, requested an additional extension of time of 409 days from October 25, 1950 to December 8 1951 within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to bad weather conditions and inexperienced help. The Engineer advised that this project was practically completed last fall except for some minor work in cleaning up the site and in repairing one window sash; further that due to financial difficulties, arrangements were made with Mr. George Bemis, a brother of one of the contracting firm, to complete the work by December 8, 1951. The Engineer further stated that the building has been in use since last fall and that the State has incurred only a very minor additional expense because of the delay in finishing the project. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

6. Bemis and Company, Contract No. 3394, for construction of a maintenance building at Prineville, Crook County, requested an extension of time of 342 days from December 31, 1950 to December 8, 1951 within which to complete this job. They attributed their failure to complete the project within the specified time limit to bad weather conditions and inexperienced help. The Engineer advised that the date specified in the contract for completion of the building was December 31, 1950 and that

the Highway Department has had use of the building since approximately that time. All work in connection with the job, he said, was completed on September 26, 1951 except for some repairs and changes which had to be made to the roof, arrangements for which work were made with George Bemis, a brother of one of the contracting firm, who gave assurance that the work will be completed by December 8, 1951. He recommended, in view of the fact that the State has incurred only a very minor additional expense because of the delay in finishing the work, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

7. Bemis and Company, Contract No. 3299, for construction of a maintenance building at Jewell, Clatsop County, requested an extension of time of 495 days from July 31, 1950 to December 8, 1951 within which to complete this job. They attributed their failure to complete the project within the specified time limit to bad weather conditions and difficulties in obtaining experienced help. The Engineer advised that all work in connection with this job was completed by the contractor on March 8, 1951, including a minor amount of cleanup work and adjustment of plumbing fixtures. Also, that the Highway Department has had the use of the building since late summer 1950. Due to financial difficulties, he said, the company arranged with Mr. George Bemis, a brother of one of the contracting firm, to complete the work. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

8. Lindstrom Bros., Contract No. 3429, for construction of the Weed and Muscott Bridges on the Little Nestucca State Secondary Highway, in Tillamook County, requested an additional extension of time of 180 days from November 30, 1951 to June 30, 1952 within which to complete this job. They attributed their failure to complete the project within the previously extended time limit to unusually late high water in the river and shortage of competent help, which carried the project so far into the fall season that it was not possible to perform certain features of work, such as sandblasting, erection and painting of steel, which work had to be deferred until suitable weather prevails next spring. The Engineer recalled that the first extension of time was granted the contractor because of unusually late high water and a shortage of competent help. He gave as his opinion that the previous extension compensated the contractor for all delays from those causes, and he, accordingly, recommended that the additional extension of time now requested by granted subject to the condition that the contractor be assessed all engineering costs incurred by the State in connection with this job subsequent to November 30, 1951. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

9. The Central Heating C ompany, Contract No. 3577, for paving Franklin Boulevard (University Avenue-Walnut Street) Section

of the Pacific Highway, Lane County, requested an extension of time of 214 days from October 31, 1951 to June 1, 1952 within which to complete this job. They alleged that their work was handicapped by bad weather conditions, which necessitates completion of the project next year. The Engineer advised that this contract was awarded on August 21, 1951, and that the contractor commenced operations on September 12, 1951. The specified completion date, he said, was October 31, 1951, but, because of adverse weather conditions during the months of September and October, the contractor was unable to complete the project on time. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

10. Parker-Schram Co., Contract No. 3579, for grade widening on the Sylvan Section of the Sunset Highway, Multnomah County, requested an extension of time of 229 days from October 15, 1951 to June 1, 1952 within which to complete this job. They attributed their failure to complete the project within the specified time limit to heavy fall rains. The Engineer advised that this contract was awarded on August 21, 1951, and operations of the contractor were commenced on August 30, 1951, but, due to heavy rains which set in on September 25, it was not possible to complete the work in the time specified. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. (See FOOTNOTE)

11. Coos Bay Dredging Company, Contract No. 3520, for grading and surfacing on the Riverton Section of the Oregon Coast Highway, Coos County, requested an extension of time of 10 days from September 30 to October 10, 1951 within which to complete this job. They gave the following reasons for failure to complete the project within the specified time limit: delays caused by failure of the power company to reestablish certain power poles in connection with Coos Bay Dredging Company's contract for grading and paving the Cedar Point-Coquille Section of the Oregon Coast Highway, which necessitated the taking of key men from the Riverton job to complete the grading work on the other one preparatory to oiling. They also said they experienced difficulty in obtaining repair parts for their power shovel. The Engineer advised that the contractor started work on this project immediately after the contract was awarded and that they failed to complete the project within the specified time limit for reasons stated. The contractor, he said, expedited the project as much as possible, but still required an additional 10 days' time to complete it. He recommended, in view of the circumstances, that the extension of time, as requested, be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

12. Oscar E. Joelson, Contract No. 3459, for the Lapine rock production project on The Dalles-California and Fremont Highways requested an extension of time of 211 days from September 30, 1951 to May 1, 1952 within which to complete this job. Mr. Joelson attributed his

failure to complete the project within the specified time limit to extreme difficulties that he experienced on his contract with the Bureau of Public Roads at Mount Vernon, which delayed commencing work on the Lapine rock production project. The Engineer advised that the contract was awarded on January 24, 1951 but the contractor did not commence work until September 30, 1951, which was the specified completion date; further, that at the time the contract was awarded, Mr. Joelson, who is a small operator, also had a contract with the Bureau of Public Roads for work north of Mount Vernon on the Pendleton-John Day highway, and a rock production job for the State at Weston. Mr. Joelson, he said, expected to finish the Mount Vernon work early in the spring and it was his intention then to move to the State rock production job at Weston, which he believed he could complete in time to move to the Lapine job and complete it within the specified time limit. However, he was delayed in starting the Bureau's job at Mount Vernon and was two or three months late in moving to the Weston project, with the consequent result that the time limit had expired on the Lapine job before he got to that work. The Engineer also advised that the State has been caused no extra expense for engineering supervision because of the delay, since no engineering crew was on the job until the work got under way. He also said that the rock will not be needed before April, 1952. He recommended, in view of the circumstances, that the extension of time as requested by Mr. Joelson be granted up to April 30, 1952 without penalty, but if he has not completed the work by April 30, 1952, that he be charged with all engineering expense that the State incurs thereafter in connection with this job. The Commission approved the recommendation. (See FOOTNOTE)

13. C. A. Lantz, Contract No. 3538, for construction of a service station building at the Highway Department Shops in Salem, requested an extension of time of 21 days, from November 30 to December 21, 1951, within which to complete this job. Mr. Lantz gave as the reason for his failure to complete the project within the specified time limit damp weather conditions which would not allow painting. The Engineer advised that because of wet weather conditions, the contractor was not allowed to do the painting on the exterior surfaces. He anticipated that such work would be done within the next few days and he, accordingly, recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

14. W. R. Grasle Company, Contract 3530, for construction of a lighting system in Sunset Tunnel on the Sunset Highway, Washington County, requested an extension of time of 46 days, from November 30, 1951 to January 15 1952, within which to complete this job. They asserted that they failed to complete the project within the specified time limit because of difficulties in securing certain necessary materials from Westinghouse Manufacturing Co. and Union Metal Co. The Engineer advised that this work should have been completed by November 30, 1951, but due to the failure of the manufacturers to deliver some of the neces-

sary equipment, completion has been delayed, although it is expected that the installation will be entirely completed by not later than January 15, 1952. He recommended that the extension of time as requested be granted without penalty. The Commission approved the recommendation. (See FOOTNOTE)

15. Babler & Rogers, Contract No. 3477, for grading, paving and bridge construction on the Cascade Locks-Herman Creek Road Section of the Columbia River Highway, Hood River County, requested an extension of time of 244 days from November 30, 1951 to July 31, 1952 within which to complete this job. They attributed their failure to complete the project within the specified time limit to adverse weather conditions and numerous slides. The Engineer advised that the contractor encountered several severe slides which delayed the grading operations until so late in the fall that it was impossible to complete the paving operations within the specified time limit. The paving operations were closed down by the paving contractor pursuant to the Engineer s request at the beginning of the rainy season. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

16. Peter Kiewit Sons' Co., Contract No. 3516, for paving the Willow Creek-Boardman Section of the Columbia River Highway, Morrow County, requested an extension of time of 31 days from October 15, 1951 to November 15, 1951 to complete this job. They stated that their failure to complete the project within the specified time limit was due to the fact that the contractor for the grading work did not have the roadway ready for the leveling course until July 29, 1951, and did not complete all of the grading work until after September 1, 1951. The Engineer advised that the paving contractor was ready to place the leveling course on the roadway by June 25 but could not proceed with such work because of delays by the grading contractor. The overrun of time limit, he said, was not the fault of the paving contractor, and he, accordingly, recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

17. Leonard & Slate Oregon Ltd. and E. C. Hall Co., Contract No. 3456, for grading and construction of a selected roadbed topping on the East Unit, LaGrande-Ladd Canyon Section of the Old Oregon Trail, Union County, requested an extension of time of 106 days, from November 30, 1951 to March 15, 1952, within which to complete this job. They attributed their failure to complete the project within the specified time limit to difficulties in securing sectional steel plate culverts, it finally being necessary to change the type of culvert to concrete box culverts; also, to an increase in quantities of material to be moved caused by slide conditions. The Engineer advised that the original contract speci-

fied the use of sectional steel plate culverts, but, after the contract was awarded, it was found that these culverts could not be obtained without considerable delay due to priorities and, for that reason, concrete box culverts were substituted. This change, he said, involved considerable additional work which, together with extra work caused by slides was responsible for the specified time limit being exceeded. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein. The Commission approved the recommendation unanimously. (See FOOTNOTE)

18. J. N. Conley, Contract No. 3521, for surfacing on the Combs Flat (Prineville-Eagle Rock) Section of the Paulina State Secondary Highway, Crook County, requested an extension of time of 18 days, from September 30 to October 18, 1951, within which to complete this job. Mr. Conley attributed his failure to complete the project within the specified time limit to the fact that he was using a new crusher manufactured in the State of Oregon, and quite a bit of time was lost installing and removing the same. The Engineer advised that the contractor's statement as to the reason for overrunning the specified time limit is correct. The crushing plant, he said, is a new one designed and built in Oregon, and, while it operated very satisfactorily, numerous small delays occurred because of the newness of the design. The delay, he said, has caused no inconvenience to the traveling public nor has it increased the State's expense for engineering supervision. He recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

19. R. A. Heintz Construction Co., Contract No. 3303, for grading and paving on the South Unit, Denver Avenue-Columbia Slough Section of the Pacific Highway East, Multnomah County, requested an additional extension of time of 92 days from September 30, 1951 to December 31, 1951 within which to complete this job. They gave the following reasons for overrunning the previously extended time limit: slow delivery of certain electrical parts needed in the work, due to the priority system; landscaping was delayed due to inability to seed and plant in extremely dry weather; and delays incident to the securing of approval from the Engineer to install an 18" pipeline across certain privately owned property. The Engineer advised that all work on this project, with the exception of certain electrical work and the seeding and planting of plants required in the landscaping, was completed by September 30, 1951. The electrical work, he said could not be completed due to priority difficulties in securing of material, and the seeding and planting work was delayed until sufficient rainfall had occurred to insure proper growth of the plants. He recommended, in view of the circumstances, that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

20. Loyd Calkins & Co., Contract No. 3541, for grading, surfacing and bridge construction on the Bridge Creek Section of the Ochoco Highway, Wheeler County, requested an extension of time of 61 days, from November 15, 1951 to January 15, 1952, within which to complete this job. Mr. Calkins attributes his delay in completing the project within the specified period to difficulties in obtaining steel culvert pipe and reinforcing iron for the bridge. The Engineer advised that, due to priorities, the contractor experienced considerable difficulty in obtaining metal culvert pipe and reinforcing steel for a major portion of the contract. The delays, he said, were not the fault of the contractor, and he recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein. The Commission approved the recommendation. (See FOOTNOTE)

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above, was based upon the recommendations of the State Highway Engineer and his reports, which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3322, 3399, 3403, 3431, 3435, 3448, 3449, 3450, 3466, 3468, 3505, 3520, 3521, 3522, 3552, 3555, 3571, and 3584, for construction of State Highway projects, have been completed according to the requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. After due consideration, the Commission by unanimous vote accepted said contracts by adoption of the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the cities and towns of Antelope, Aumsville, Aurora, Cave Junction, Condon, Cornelius, Creswell, Dayton, Eastside, Echo, Estacada, Fairview, Falls City, Gates, Gearhart, Gervais, Glendale, Granite, Hubbard, Ione, Lafayette, Long Creek, Malin, Manzanita, Merrill, Metolius, Monroe, Oakland, Oceanlake, Scappoose, Sodaville, Summerville, Waldport, Wheeler, Yoncalla and Gold Beach have satisfied the legal requirements with respect to the expenditure of State tax street funds that accrued to them during the first six-months period of 1951, and that the plans for the projects that are contemplated for construction with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the

attached resolution relative thereto marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the cities of Dayton and Umatilla have satisfied the legal requirements with respect to the expenditure of State tax street funds that accrued to them during the second six-months period of 1950 and that the plans for the projects which they wish to finance with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported that the City of Chiloquin has satisfied the legal requirements with respect to State tax street funds that accrued to the city during the first six-months period of 1949 and that the plans of the project that the city proposes to finance with such funds have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "E-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested approval of an increase of $195,000 in the project authorization in connection with the contract awarded to Parker-Schram Co., Contract No. 3562, for topping and slope protection on the Hood River-Mosier Section of the Columbia River Highway. He explained that difficulties have developed in connection with Contract 3507 awarded Kuckenberg Construction Company for grading and construction of a rock toe wall on the same section, which difficulties were not foreseen at the time the project was advertised for bids, and are the result of the raising of the elevation of the pool of the Bonneville reservoir 6' above normal in order to alleviate power shortage. The raising of the pool level, he said, requires the raising of the elevation of the rock toe wall, requiring considerably more rock riprap than was anticipated. Also additional rock was required back of the wall to avoid the washing away of the grade through wave action. He estimated that there is a deficiency of about 160,000 cubic yards of suitable material to construct the toe wall and rock embankments, and he advised that, to obtain the additional amount, it is more economical to use a rock quarry located on the Parker-Schram Co. contract than to attempt to secure suitable materials on the Kuckenberg Construction Co. contract, but that the furnishing of the additional materials by Parker-Schram Co. will result in increasing the cost of this job by $195,000, although a saving of $45,000 will be created in connection with the Kuckenberg Construction Co. contract. The two contracts, he said, total approximately $1,325,000, so the overrun represents only 11.3%, considering both jobs. He pointed out that it is necessary for the Commission to make a decision in the matter immediately because Parker-

Schram Co., if it is to do the work, wants to arrange to do it this winter. As a result of discussion the Commission unanimously approved the $195,000 increase in the authorization of the Parker-Schram Company contract as recommended.

A request was presented from the City of Redmond Planning Commission and the City Council of Redmond for installation of traffic signals at the intersections of 5th Street and 6th Street with "E" Street, 5th Street being the route of US97 north bound, and 6th Street being route of US97 south bound, to eliminate traffic hazards which, they allege, exist at these intersections. The Engineer advised that a traffic investigation has been made and it has been determined that at neither intersection does the traffic volume warrant the installation of traffic signals. He recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed a letter from the City of Seaside requesting that the State Highway Department prepare plans for a bridge which the city proposes to construct across the Necanicum River on Avenue "G". The city agrees to pay the cost of preparation of the plans. The Commission approved the request unanimously on the condition that the city pays for the work involved, which the Engineer estimated would amount to about $100.

The Engineer requested authority for an expenditure of approximately $900 to construct an asphalt tile covering on the floor of the blue print room in the basement of the new Highway Building, in Salem. He explained that the floor presently is concrete and that considerable trouble in the blue printing equipment has been experienced by reason of dust from this bare concrete floor. The Commission approved the request unanimously.

The Commission discussed a request from the County Court of Clackamas County that the existing bridge over Eagle Creek on the Milwaukie-Estacada State Secondary Highway be given to the county when the proposed new bridge at this location is constructed. The Engineer recommended approval of the request on the condition that the county will assume all responsibility for removal of the old structure. The Commission approved the recommendation.

Consideration was given by the Commission to the naming of the newly designated highway between Rickreall and Dolph Corner in Polk County. The Engineer suggested that this highway be placed on the State primary highway system because of objections to construction of the road that have been offered by farmers through whose property the road extends, and he is fearful that the County Court will not approve designation of the road as either a State or a Federal Aid secondary highway which is a requirement and, if the court will not approve such designation, the construction of the road will have to be deferred. He pointed out that the Highway Commission has authority to designate a primary highway without county court approval. The Chief Counsel advised that,

if the Highway Commission designates the road a State primary highway and later on desires to remove it from the system, it has legal authority to do so. As a result of discussion, the Commission unanimously decided to defer action on the matter for the time being.

The Engineer requested authority to establish a petty cash fund in the amount of $500 in order to pay small incidental expense, such as express shipments received "Collect", advance payment of expenses to witnesses in order to have them available at court trials, etc. He recalled that in May 1947, the Commission authorized the establishment of such a fund in the amount of $25.00, which sum, he said, is far from sufficient for the purpose, and he recommended that it be increased to $500. He said that the money would be kept in the Auditor's office safe, and that disbursements would be made therefrom when the need arises; further, that replacement of cash expended would be by receipted bills, which would be attached to an expense account and a check drawn for reimbursement. The Commission unanimously approved the request.

The Commission authorized expenditure of $750 to purchase 30 table-type armchairs at $25 each for use in the conference room in the State Highway Building, the present supply of chairs being insufficient, necessitating the borrowing of chairs from other departments.

The Commission considered and unanimously approved payment of the invoice of Mr. John W. Shuler in the amount of $6,000, for services rendered and for the approving opinion that he furnished the Commission in connection with its sale of $15,000,000 of State Highway bonds, bids for which were received by the Commission at its meeting on September 12, 1951. It was reported that Mr. Shuler's present bill covers only service already rendered, but does not include payment for services that he might render in connection with future bond sales.

The Engineer reported the status of salary increases for Highway Department employees heretofore authorized by the Commission, particularly increases for right of way agents, Manager of the Accounting Department, Section Supervisors in the Accounting Division, Legal Department personnel, and the Commission's Secretary. As to the right of way agents, the Engineer advised that he has discussed the proposed increases with the Civil Service Department and with Mr. Harry Dorman, Director of the Department of Finance and Administration, and indications are that the Civil Service Commission will approve the increases at its January 15, 1952 meeting, and if the increases are approved by that Commission, Mr. Dorman will concur. As to the salary of Mr. Maison, Manager of the Accounting Division, the Engineer stated that the starting salary of $551.00 has been approved by the Civil Service Commission and by Mr. Dorman, but increases for the Section Supervisors in that department were denied. As to the increases authorized by the Commission for Chief Counsel C. W. Enfield and Assistant Counsel Fred A. Miller and other Legal Department personnel, the Engineer advised that all had been approved by

Attorney General Mr. George Neuner, who has charge of the legal personnel, except that Mr. Enfield's salary was limited to $605 per month, as compared to $700 authorized by the Commission. The Commission expressed dissatisfaction with the Attorney General's decision as to Mr. Enfield's salary and declared its intention to discuss the matter personally with the Attorney General on the occasion of its visit to Salem in January. As to the salary of the Secretary, H. B. Glaisyer, the Engineer stated that the increase authorized by the Commission was denied by the Director of the Department of Finance and Administration. The Commission stated its dissatisfaction with the action taken by Mr. Dorman in this matter and declared its intention to discuss the matter further with Mr. Dorman and Governor McKay on the occasion of its visit to Salem in January. In this connection, motion was made by Commissioner Reynolds that the Engineer's report on salary increases be made a part of the record of the Commission. The motion was seconded by Commissioner McIver, and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

The Chief Counsel reported that the volume of business in his office is too great to handle with his present force. He asked the Commission for authority to employ three additional attorneys to assist in handling the work. The Commission approved the request unanimously.

The Commission considered a request from the Carl K. Stevens Company, Gearhart, for an extension of time, until August 31, 1952, within which to complete its agreement with the Commission for the cutting of timber on a 120-acre tract of Highway Department land situate near the intersection of the Sunset Highway and the Necanicum Highway in Clatsop County. They attributed their failure to complete the work within the specified time limit, December 31, 1951, to unusually dry weather conditions during the summer, when they had to close down their operations because of the fire hazard. The Engineer recommended approval of the request. The Commission approved the recommendation.

The Engineer reported that the contract for the reconstruction of the South Yamhill River Section of Three Mile Lane State Secondary Highway No. 152, which extends from the intersection of Third and Irvine Streets in the City of McMinnville easterly to Highway Engineer's Station 50+00, has been completed by the contractor and the new highway is now open for public use. He recommended appropriate action by the Commission disposing of the old highway section in order to remove such section from the State highway system. The Commission approved the recommendation and thereupon by unanimous vote adopted the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and upon recommendation of the Engineer, denied the claim of Mr. G. H. Grabenhorst, Salem, in the amount of $90 for damage that he alleges was done to growing crops on property

that he owns near Salem by a Highway Department engineering crew while making surveys for the Salem By-pass.

The Commission discussed a claim presented by Mrs. Helen Jorgenson, Hammond, Oregon, in the amount of $18.70, representing the cost to repair her automobile which was damaged on August 16, 1951 during an opening of the Lewis and Clark River drawbridge on the Oregon Coast Highway near Astoria. The Engineer advised that the accident occurred while a maintenance crew was involved in replacing all of the timber in this bridge structure. Traffic at the time, he said, was being regulated by manually operated traffic signals and Mrs. Jorgenson was given the green light by a member of the bridge crew who had charge of this feature, but who reversed the signals in order to open the drawspan for river traffic. Mrs. Jorgenson, he said, stopped her car directly under a traffic gate but was unable to back her car due to the nearness of following motor vehicles, with the result that the traffic gate was lowered on her car, damaging it to the extent of the repairs. The damage, he said, occurred through no fault of Mrs. Jorgenson and he accordingly recommended payment of the claim. The Commission approved the recommendation.

The Commission discussed a request from the legislative highway interim committee for comments concerning the application of present highway laws, and for recommendations for additional highway legislation, which information the committee requests be placed in its hands on or before July 1, 1952. The Engineer and the Chief Counsel were told that the Commission depends on them for suggestions in this regard. In this connection, the Chief Counsel was instructed to look into the matter of legislation that will give the Commission authority, if such authority does not now exist, to invest monies derived from the sale of bonds so that the State Highway fund will receive the benefit of revenues from the investment of idle funds derived from such sources, rather than the benefits accruing to the State General Fund.

The Commission discussed and approved extending the existing agreement with the City of Portland covering maintenance of a "Guest Center" now operated by the Portland Chamber of Commerce on State Highway property along Harbor Drive in Portland. (An agreement covering the matter was signed by the Commission on the following day.)

The Commission considered a request from Mr. Peter Kerr, Portland, for designation of a restricted speed zone along the Oswego Highway between the cities of Portland and Oswego. The Engineer advised that this matter has been before the Commission a number of times in the past, but requests for a 35MPH speed limit have been denied because the traffic volume did not warrant such restriction. However, a current investigation indicates that this section of highway is now very heavily traveled, carrying 10,000 vehicles on a 3-lane highway, and that the accident potential is very material. He recommended

establishment of a 45 MPH speed zone extending from the south city limits of Portland (MP 4.49) to the north city limits of Oswego (MP 7.37). The Commission unanimously approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was presented from the County Court of Douglas County for designation of a 35 MPH speed zone on the North Umpqua River Bridge at Winchester, Douglas County. A letter was also presented from Mr. Thomas F. Tucker requesting establishment of a restricted speed zone along this highway (US99) near Log Cabin Grocery about one mile south of Winchester for the benefit and safety of school children. The Engineer advised that investigation reveals no real justification for the establishment of the reduced speed zone, that the alignment of the roadway is good except at the north end of the bridge where the highway makes a rather sharp turn. He recommended that both requests be denied but that in lieu thereof oversize "NARROW BRIDGE" signs and oversize "CURVE" signs be placed on the bridge and on the curve immediately north thereof. The Commission approved the recommendation.

A petition was presented from the residents of the town of Tigard, Washington County, requesting designation of a 45 MPH speed zone on US99W, between Multnomah County Line and the east city limits of Tigard. The Engineer advised that a traffic investigation has been made which reveals no apparent need for a restricted speed zone. He pointed out that the accident record on this section is slightly higher than the state-wide average, being 5.56 accidents per million vehicle miles, as compared with the state-wide rural average of 4.71. A reduced speed zone on this section, he said is no more warranted than on any other modern four-lane highway in the State. He recommended that the request be denied. The Commission approved the recommendation.

Consideration was given by the Commission to a request by Mr C. H. Abrams, forwarded by Governor Douglas McKay, for establishment of a 35 MPH speed zone on the bridge that crosses the Deschutes River near the Warm Springs Indian School. The Engineer advised that this matter has been investigated by the Traffic Engineering Department, and the information gathered indicates no apparent need for a change in speed zone through the Warm Springs Indian Reservation which is currently posted at 45 MPH. He pointed out that the bridge is 24' wide with very little culture adjacent thereto. In fact, the only hazard apparent is that which might be caused by people fishing from the bridge. He recommended that the request be denied. The Commission approved the recommendation.

A request was presented from the City of Pendleton for a traffic study on US395 (Pendleton-John Day Highway) south of Pendleton, and for installation of traffic signs and adoption of speed limits as may be necessary for protective purposes. The Engineer advised that investigation reveals that the section of highway referred to by the city is adjacent to a

new housing development consisting of some 300 homes located about 1½ miles from the city center. Further, that there are two access roads to the housing project, one of which approaches the highway on an unsatisfactory grade. He also stated that the average daily traffic on the highway at this point is 1,600 vehicles, and that there is practically no culture along the highway, except the housing project. He gave as his opinion that there is no warrant for designation of a reduced speed zone and he recommended that the request in that respect be denied, and that in lieu thereof additional crossroad symbol signs be installed in advance of the access points. He also recommended that the Housing Authority be requested to improve the grade of the access roads so as to permit vehicles to stop on a level section of road before entering the highway, and that the city engineer and the Housing Project Authority be further requested to arrange for buses to pick up school children within the housing project rather than on the highway shoulder as they are now doing. The Commission approved the recommendations unanimously.

There was presented to the Commission a request from the Newberg Chamber of Commerce for designation of a reduced speed zone along US99W north of the city limits of Newberg. The Engineer advised that investigation of the conditions at this point indicate that a reduced speed zone is warranted on a 1.24-mile section of this highway immediately north of the city limits where there is considerable roadway culture, including a number of business establishments, and where traffic is heavy. He recommended designation of a 35 MPH speed zone along the section which extends from the north city limits of Newberg (M.P. 24.18) to Hulet Lane (M.P. 23.47), and designation of a 45 MPH speed zone between Hulet Lane (M.P. 23.47) and Springbrook Road (M.P. 22.81). The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request was presented from the Seaside Safety Council for establishment of a "NO PARKING" zone on South Holladay Drive (US101) near its intersection with Avenue "U" in Seaside in order to eliminate what is termed a hazardous condition at this point. The Engineer advised that Avenue "U" is one of the main streets that serve the area west of Necanicum River, that it forms a "T" intersection with Holladay Drive, and contains a bridge crossing of the river in close proximity to the highway. The 1950 average daily traffic on US101, he said, was 3560 vehicles, 80% of which traveled at or below 40 MPH, with maximum speeds of 55 MPH. He also said that during the period from January 1, 1946 to August 31, 1951, there were eight reported accidents at this intersection. He gave as his feeling that the restricted sight distance due to shoulder parking of vehicles is, in general, the probable cause of the accidents. He recommended, in view of the findings, that the Commission take appropriate action to prohibit parking of vehicles on the west side of the highway northerly from Avenue "U" intersection, a distance of 150'. The Commis-

sion approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed and, upon recommendation of the Engineer, denied a petition from businessmen and patrons of Portland requesting the removal of the "NO PARKING ON HIGHWAY SHOULDERS" signs that are now being maintained on Killingsworth Avenue between N. E. 82nd Avenue and N. E. 60th Avenue in Portland, route of the Northeast Portland State Secondary Highway. In his report on the subject, the Engineer advised that, in his estimation, were the signs removed and the parking of cars on highway shoulders permitted in this congested area, a material hazard would be created.

The Commission confirmed oral authority heretofore given G. S. Paxson, Bridge Engineer, to go to Sacramento, California on December 14, 1951 at State expense, to attend a meeting of the Board of Directors of the Western Association of State Highway Officials; estimated cost $68. The Commission also authorized the Bridge Engineer G. S. Paxson, and the Landscape Engineer, Mr. Mark Astrup, to attend, at State expense, a meeting of the Highway Research Board in Washington, D. C. on January 15, 1952; estimated total cost $700. The Commission also authorized Mr. A. O. White of the Testing Department, and Mr. J. A. Schaub, Soils Engineer, Construction Department to go to Olympia, Washington, at State expense, to investigate methods and testings of soils as are carried on by the Washington Highway Department; total estimated expense $50.

The Commission unanimously approved the Secretary's report of papers that he signed in behalf of the Commission during the preceding month.

A request was presented from the County Court of Coos County for an exchange of roads in the Federal Aid Secondary Highway system. The county asks that FA Project No. 248 be transferred from County Road No. 35 to a like distance on County Road No. 57 known as the Coos City-Sumner Road, which begins at State Highway 101 and connects with the south end of Market Road No. 18, known as the Ross Slough Road. The Engineer advised that he is not in a position to make a recommendation in this matter at the present time, nor will he be until the State-wide Federal Aid Secondary highway investigation that is now under way is completed, which will be some six or eight months. The Commission approved the report and instructed the Secretary to so inform the County Court.

Consideration was given by the Commission to a request from Mrs. F. O. Heacock, Springfield, for establishment of a reduced speed zone on the McKenzie Highway in the vicinity of Jackson Loop, to control logging trucks and other vehicles which travel at great speed along this section and endanger lives of school children and other pedestrians. The

Engineer advised that investigation of this matter fails to reveal any specific need for establishment of a speed restriction along this section. The alignment of the highway, he said, is tangent throughout and most of the section is on a level grade; moreover, the pavement is approximately 19' wide with 8' gravel shoulders. The accident record, he said, is 4.95 accidents per million vehicle miles as compared to a State-wide average of 4.71. He recommended that the request for a reduced speed zone be denied, but in lieu thereof that oversize "LOOK OUT FOR CHILDREN AHEAD" signs be installed. The Commission approved the recommendation.

The Engineer requested instructions relative to the disposal of trees that fell from privately owned property on and across the right of way of the Oregon Coast Highway during recent severe windstorms. He suggested that the owners of the trees be notified to remove them within a reasonable length of time, and that the State Highway Department will sell them if they are not removed within such period, and will charge the owners the actual cost involved over and above the amount that is received from the sale. The Commission approved the suggestion unanimously and instructed the Engineer to advertise the trees for sale in the event that the owners do not remove them within 30 days after being notified.

The Commission discussed the adoption of a policy with respect to removal of plants, individual trees or small numbers of trees growing on highway rights of way. The Engineer advised that frequently requests are received from abutting property owners or from other persons, to remove plants or individual trees from the highway in front of their premises, some of which requests are accompanied by offers to pay for the plants, or the stumpage value of the trees, etc. The amounts involved, he said, are small and do not justify the cost incident to advertising the property for sale, and he recommended in view thereof that the Commission authorize the sale of minor quantities of timber, trees and/or shrubs when the appraised value of such property does not exceed $100, without calling for bids. He cited as a precedent for such action a resolution that was adopted by the Commission at its meeting on September 19 - 21, 1949, which resolution provides a procedure for the disposition of minor buildings, structures and minor improvements, including personal property acquired in connection with real property purchases. As a result of discussion, the Commission approved the Engineer's recommendation unanimously by adoption of the attached resolution relative thereto marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission had under discussion the matter of prohibiting advertising signs to be maintained along T.H. Banfield Expressway in Portland. The Engineer advised that the present highway law places in the State Highway Commission the control of advertising signs on highway rights of way outside of the city limits of incorporated cities and towns, but there has always been some question as to the Highway Commission's

authority to control such signs within the city limits. He pointed out that where a highway is routed over a dedicated city street, jurisdiction by the State Highway Commission is limited to the area between the curbs, and it is left with the city to control the area between the curb lines and the property lines. However, where the State acquires title to the right of way within cities, the Highway Commission has full control between property lines, although it never has contested the city's right to control advertising back of the curb line. In the case of Banfield Expressway, he said, the Highway Commission not only purchased the right of way in fee, but also acquired access rights of the adjacent property, so, according to the Chief Counsel, the Highway Commission can in its own proprietory right prohibit advertising signs on any portion of the right of way. The Engineer suggested, in order to eliminate any question as to this feature that the City of Portland be asked to prohibit by appropriate ordinance, the placement of advertising signs along Banfield Expressway. The members of the Commission expressed themselves as being strictly opposed to advertising signs along this expressway, and, accordingly, instructed the Engineer to ask the Portland City Council to adopt an ordinance prohibiting such signs. It was the feeling of the Commission that the law with respect to the maintenance of advertising signs on state highways within cities should be amended, if necessary, to obtain desired results with respect to the advertising feature.

The meeting adjourned at 5:00 p.m. to reconvene on the following morning at 9:00 a.m. in the same room.

Portland, Oregon
December 21, 1951

The meeting of the State Highway Commission reconvened in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
Milo K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, First Asst. State Highway Engineer
W. W. Stiffler, Second Asst. State Highway Engineer
C. W. Enfield, Chief Counsel
Forrest Cooper, Right of Way Engineer
C. H. Armstrong, State Parks Superintendent
C. H. Maison, Manager, Accounting Division
H. B. Glaisyer, Secretary

Chairman Chandler, speaking in behalf of the Commission, extended Season's Greetings to the contractors and others present.

Bids as follows for highway construction were opened and read aloud by the Secretary pursuant to previously published notice, following which it was announced that the award of contracts would be made at 3:00 p.m.

CLATSOP COUNTY
BIG CREEK SECT. OF THE COLUMBIA RIVER HWY.

Vernie Jarl, Gresham	$ 123,142.00
C. H. Grimstad & T. Vanderveldt, Astoria	138,566.00
P. B. Doherty & Son & S. D. Spencer & Son, Portland	139,474.00
Heavy Hauling Company, Astoria	143,630.00
J. N. Conley, Portland	150,938.00

CROOK COUNTY
MADRAS-PRINEVILLE AND OCHOCO HIGHWAYS

Ernest Ferrante & Co., Portland	$ 14,541.28
Western Golf Course Supply Co., Portland	17,857.25
Knight Pearcy Nursery & Parkrose Nursery, Portland	20,830.26
Portland Construction Co., Portland	21,374.74
F. A. Doerfler & Sons, Salem	21,705.80

AUSTIN-SQUAW CREEK UNIT OF THE AUSTIN-UNITY JCT. SECT. AND THE AUSTIN SPUR SECT. OF THE JOHN DAY HIGHWAY IN GRANT COUNTY

Durbin Bros., Eugene (1)	$ 218,174.00
Rogers Construction Co., Portland	251,804.00
E. C. Hall Company, Portland	274,731.00
Leonard & Slate Oregon Limited, Portland	282,406.00
F. L. Somers, Klamath Falls	288,932.40

(1) Bidder will accept project only in combination with Prairie City (Johnson Avenue) Project.

GRANT COUNTY
PRAIRIE CITY (JOHNSON AVE.)

Durbin Brothers, Eugene (1)	$ 9,777.00

(1) Bidder will accept award of project only in combination with Austin-Squaw Creek and Austin Spur Project.

LANE COUNTY
JUDKINS POINT-GOSHEN SECTION OF THE PACIFIC HWY.

E. C. Hall Co. & J.C. Compton Co., Portland	$386,361.00

A delegation representing the Douglas County Court and the Roseburg Chamber of Commerce appeared before the Commission requesting improvement to the North Umpqua County Road. The following people were present: George Neuner, Jr., Director of Roseburg Chamber of Commerce; George Louma, President of Roseburg Chamber of Commerce, L. V. Beckley, County Commissioner, Roseburg, and Percy Croft, member of the Roseburg Chamber of Commerce.

Mr. George Neuner, who acted as spokesman, stated that an economic survey had been made by the Roseburg Chamber of Commerce and other groups which disclosed, among other things, that there had in

the past few years been a great amount of overcutting of privately-owned timber and not sufficient timber cutting on public lands. He requested further improvements to the North Umpqua Road eastward in the next construction program, particularly the surfacing of the section from Rock Creek to Steamboat Creek which, he said, will materially increase the availibility of publicly-owned timber and permit cutting of National Forest timber on a maximum sustained yield basis, thereby benefiting the economy of Douglas County. He also requested a survey for the location of future timber access road east of Steamboat Creek towards Diamond Lake to open up additional timbered areas. He presented a copy of a report prepared by the Chambers of Commerce of Roseburg, Myrtle Creek and Riddle on an "Economic and Industrial Survey" of the Inland Umpqua Basin.

Chairman Chandler stated that the Commission is aware of the need for an access road into this area, but the problem resolves itself to a question of available funds. He pointed out that the State already has expended about $1,500,000 on this highway and that the U.S. Forest Service has spent approximately the same amount. The Commission, he said, must maintain a balance among the several counties in the expenditure of funds for development of county roads and in connection therewith, the Commission has set up a 15-year program which is now being checked regarding equitable expenditure of funds. The Commission, he added, can make no commitment at this time regarding the North Umpqua Road. He then inquired of the delegation regarding the merit of constructing a road into Sutherlin along a route where no road now exists, which road has been requested at various times by delegations. Mr. Neuner replied that this area does need an improved road and that the county will build it if the State won't.

The Harney County Court and other interested persons appeared before the Commission to propose a cooperative project between the State and the County so as to allow the use of 60-foot equipment in the transportation of livestock over highways from the Frenchglen and Diamond districts to Burns. The following people were present: C. W. Craddock, County Judge, T. E. Jenkins, County Commissioner, J. L. McCullough, Chairman of the Highway Committee of the Burns Chamber of Commerce; Henry Otley, stockman; and Gus Bardwell, businessman, all from Burns.

Judge C. W. Craddock, who was spokesman, pointed out that the alignment of the Frenchglen Secondary Highway at Wrights Point, about 11 miles south of Burns, precludes the designation of this highway as a Group I highway which would allow use of equipment 60 feet overall in length. Cattlemen in the area south of Wrights Point, he said, must move their livestock to market by truck, and they have not been able to secure enough of the shorter length equipment permissible under the Group II classification to do so properly. To alleviate this condition, he proposed that the State enter into a cooperative agreement with Harney County to improve Federal Secondary Highway No. 456 for a distance of approximately seven miles east from its connection with Frenchglen State

Secondary Highway, to its junction with Harney County Market Road about five miles west of Diamond, and to improve Harney County Market Road northeasterly from its junction with Federal Secondary Highway No. 456, a distance of about $7\frac{1}{2}$ miles to a connection with the Diamond Valley State Secondary Highway 7 miles north of the town of Diamond. He proposed that the County perform this improvement with county equipment and forces during the winter months. He estimated that the cost to the State would be about $27,600 and advised that the county would pay costs over and above such sum. Commissioner Reynolds inquired if this work would be more feasible than reconstruction of the crooked section on Wrights Point. Judge Craddock replied that the solution he had offered was temporary. but in his opinion the best one at this time for the amount of money involved. Chairman Chandler then predicted that, as the proposed development is a longer route than via Wrights Point, it would probably be only a matter of time until a delegation would be back requesting improvement of the shorter route. Judge Craddock replied that he did not think this would be the case. Mr. W. C. Williams, Assistant Highway Engineer, pointed out that about half of the work proposed by the County is on an existing federal aid secondary highway and he suggested that State funds could be expended on this FAS highway and that the County could perform the work on the county road. The respective costs to the State and the County, he said, would be about equal. Chairman Chandler concluded the discussion by stating that the matter would be given careful consideration by the Commission which understands the problem and will try to help , although no promise can be made now that it will do so.

Dr. F. J. Friedrich, Jr., Tillamook, appeared before the Commission regarding sale of his house in the eastern part of the city of Tillamook. He explained to the Commission that during the past summer he had purchased a home in Tillamook and in so doing had placed his former residence up for sale. Shortly after the house was offered for sale he said, a rumor developed in Tillamook that the Highway Commission contemplated construction of a new entrance for the Wilson River Highway into the city and that in so doing it would be necessary to pass through his property. Sale of the house, he stated, had been almost consummated. but when the prospective buyer heard of this condition he refused to close the deal. He asked the Commission to purchase his house and lot inasmuch as it would be required eventually in construction of the new highway entrance. Chairman Chandler stated that no survey has been adopted for a revised Wilson River Highway entrance into the city and that the Commission does not know where the highway will go. and as a result there is nothing that the Commission can do. In the discussion following, it was pointed out that at a meeting held in Tillamook during the Commission's inspection trip in June, 1951, the City Council asked the Commission to make a study with a view in mind of establishing a one-way street plan which included a revision of the Wilson River Highway entrance, and that a preliminary investigation was made later on but no stakes were set and no definite survey line determined; moreover, no provision has been made in any construction program for the project, so the Commission is

not in a position to take any action at this time. Dr. Friedrich then asked for a letter from the Commission stating, in writing, that the Commission does not intend to construct the project within the next three years. He was instructed to direct a letter to the Commission's Secretary requesting such information and he would receive as complete a reply as can be given at this time.

Mr. W. H. Lynch, Division Engineer, U.S. Bureau of Public Roads was present and requested a conference with the Highway Commission to arrange a program for Forest Highway funds for the fiscal year 1953. He was advised that it would be satisfactory to hold such conference during the Commission's next regular meeting.

Consideration was given by the Commission to the adoption of a working budget for the calendar year 1952, as prepared by the Engineer, totaling $59,551,000 and comprising the following items:

Capital Outlay	$ 42,764,000
Maintenance	11,963,000
Operation	3,535,000
Debt Service	1,289,000

Details with respect to the proposed expenditures were supplied by the Engineer in the form of six exhibits, marked Exhibit "A" through Exhibit "F", inclusive. As a result of careful study of all the items comprising the budget, the Commission unanimously approved the budget as submitted, upon motion of Commissioner McIver and seconded by Commissioner Reynolds, subject to the following:

(1) Re Item 5-b on Page 4 of Exhibit "C", which anticipates an expenditure of $2,000 in connection with the operation of Boardman Oasis: The Commission ordered this expenditure held up until it is specifically authorized by Commissioner Reynolds.

(2) Re budget for purchase of equipment as detailed in Exhibit "F": It appeared to the Commission that no provision has been made for the purchase of an additional stripe painting machine, which the Commission feels is essential in order to expedite the striping of highways, and to provide additional safety for the traveling public. The Commission ordered the purchase of an additional striping machine at once, and in this connection instructed the Engineer to pay stricter attention to the striping operations than has been given in the past to the end that such operations shall be started as early in the spring as weather conditions will permit, regardless of the fact that some of the stripes will be obliterated by paving and oiling operations later, so the traveling public will have the benefit of the stripes at the

earliest possible time. It was the feeling of the Commission that it would be possible for the striping crews to restore obliterated stripes before the rainy season sets in in the fall.

(3) Re purchase of new equipment: Commissioner Reynolds questioned the economy of maintaining automobiles for a period of five years or more. He gave as his feeling that it is poor economy to spend money to keep old equipment in a good state of repair after the equipment has outlived its initial usefulness and that it would be better to replace it with new equipment. The Engineer was instructed to review the equipment records and to report to the Commission facts from which the Commission may determine how long a piece of equipment should be kept in service as an economical proposition.

(4) Construction of a general shop building in Bend: The Engineer advised that this item was overlooked in preparing the budget. He estimated the cost of the building at about $150,000 and he requested approval of the expenditure because the building is badly needed. The Commission unanimously approved increasing the budget by such amount.

(5) The Commission unanimously approved the budget for State parks items, subject to action taken by the Commission previously at this meeting.

(6) The Commission also unanimously approved the budget for the Travel and Information Department, subject to action taken by the Commission on this subject at its meeting on October 19, 1951.

(For details of the budget as originally proposed by the Engineer, dated October 19, 1951, and as adopted by the Commission, dated November 19, 1951, see copy of budget in Special Budget files.)

A delegation from Lane County, consisting of County Judge D. T. Bayly; Oren King, City Manager of Eugene; L. B. Bartlet, City Manager of Springfield; and Oliver Larson, Secretary of the Springfield Chamber of Commerce, was present regarding a program to correlate street, road and highway planning and construction in the Eugene-Springfield metropolitan area. Judge Bayly headed the group. He said that the metropolitan area, including Eugene, Springfield and the surrounding territory is very much congested, and that they have in mind a working arrangement with the State Highway Commission to relieve the situation. He proposed the following projects, which, he said, are arranged in priority status:

1. Extension of the Mohawk County Road from the intersection of Mill and "Q" Streets in Springfield to the Ferry Street Bridge in Eugene. He said that this will involve the designation of the road as a State Second-

ary Highway and, if the Highway Commission will do that, the County will assume jurisdiction over the present State secondary highway which extends south from Eugene. He advised that the county has available the sum of $42,000 for the purchase of right of way along the proposed route, but they would like to have the benefit of the State's organization to do the buying. He suggested a right of way at least 160' wide with complete restriction of access. He also suggested that Federal Aid Secondary highway funds should be used for construction. He asked the Commission to authorize an immediate investigation to determine the proper location for the road.

2. Straightening and paving the Jasper Bridge-Willamette Highway Section of the Springfield-Creswell State Secondary Highway. Judge Bayly urged an early reconnaissance survey of the project and construction as soon as the Commission is able to finance it. He recommended approval of the project as second only to the Mohawk Road extension.

3. Construction of an overhead railroad crossing leading from Blair Boulevard to River Road in the City of Eugene. Judge Bayly urged this as a Federal Aid Urban project to relieve extreme congestion of traffic to and from the River Road area caused by trains blocking the presently existing railroad grade crossing. He suggested a cooperative arrangement between the City of Eugene and the State to finance the work.

4. Construction of a truck by-pass route westward from the Mill Street overhead and Ferry Street Bridge to First Avenue and West Eugene, between Skinners Butte and the Southern Pacific Railroad tracks. He urged this improvement to get the trucks away from the business district of Eugene, particularly logging trucks, which, he said, presently are a hindrance to the free flow of traffic on the city streets.

Judge Bayly requested a reconnaissance survey of all four projects to determine their relative importance, and he exhibited a map showing the location of each. Chairman Chandler advised that the Commission is somewhat familiar with each of these projects, but is not now in a position to make any statement in respect to any of them. He pointed out that an economic study of the Eugene area is now being carried on to determine a highway plan for this district, and he advised that the Commission will give consideration to the projects presented at this meeting when it studies the Engineer's report, which, it is expected, will be rendered within the next few months.

Chairman Chandler inquired as to the status of right of way matters in connection with the proposed highway project in the City of Springfield. He was informed by Mr. Bartlett that negotiations with the Southern Pacific Company are being pressed, and it is expected that they will be completed within the not distant future.

A delegation was present representing Tillamook County and the Portland Chamber of Commerce regarding construction of a roadway into

Cape Lookout State Park. This delegation was headed by County Judge Otto Effenberger of Tillamook County, and included the following: Wes Schulmerich, County Commissioner; Clyde Metcalf and Charles Ross, members of the Tillamook Chamber of Commerce; Vern Tinnerstet, Manager, Oregon Coast Highway Association, Tillamook; R. B. Miller, representing the Kiwanis Club, Tillamook; George Goodrich, representing the Tillamook Taxpayers Association; Arthur Kirkham, representing the Recreational and Natural Resources Committee of the Portland Chamber of Commerce; and Mr. Parks, also of Portland Chamber of Commerce. Judge Effenberger advised that the present road leading to the Cape Lookout State Park is a county road, which ends about two miles from the park. It is known as the Whiskey Creek Road and the county would like very much for the State to assume jurisdiction of the same and to extend it into the park. He called upon Mr. Kirkham to explain details. Mr. Kirkham described briefly the type of park, stating that it is an Alaska type promontory with cliffs straight down to the ocean, that it is a beautiful double forest, some trees lying horizontally and other trees growing over them, a peculiarity, he said, that is not seen in other locations, in fact, he added, the park is not duplicated anywhere in the United States. He advised that the present road is quite satisfactory as is, and he urged construction of the two-mile extension as a bulldozer type of operation with gravel surfacing only. Others speaking in behalf of the project were Messrs. Miller, Goodrich, Parks, Tinnerstet, Ross, Metcalf, and County Commissioner Schulmerich, who advised that the county will cooperate by furnishing equipment. Chairman Chandler advised that the Commission is familiar with the project, having discussed it previously at this meeting, and that to provide a standard road would cost approximately $144 000, which the Commission does not have immediately available. However, if all that is wanted is the construction of a low type road extending from the end of the present road into the park, that is another thing, and the Commission will give it further study. The State Parks Superintendent was thereupon instructed to render another report to the Commission at its next meeting based on constructing such a road on the two-mile section only.

The meeting recessed for luncheon at 12:00 o'clock noon and reconvened at 1:30 p.m., with the same persons present and participating.

The Commission had under discussion the setting of a date for its next regular meeting and decided tentatively to hold such meeting on Thursday, January 31 and Friday, February 1, 1952 in Portland. The Secretary was instructed to make the usual arrangements to hold this meeting in the Green Room of the Imperial Hotel. (January 31 and February 1 were later definitely set by the Commission as the date for this meeting.)

A delegation including the following persons was present regarding acquisition of an addition to Bald Peak State Park, situated adjacent to the Hillsboro-Silverton State Secondary Highway on Chehalem Mountain, Washington County: Messrs. Garnet Cannon, Thornton G.

Munger, B. F. Cole, David B. Charlton, and Marshall N. Dana, representing the Recreational and Natural Resources Committee of the Portland Chamber of Commerce, Mrs. Bertha Blakeway, Hillsboro Chamber of Commerce; E. L. McIntyre, County Engineer of Washington County, Jim Lewis, Beaverton, County Commissioner of Washington County, Charles Newman and A. W. Youngberg, McMinnville, County Commissioners of Yamhill County, and Mr. Wilkins, representing the Newberg Chamber of Commerce. Mr. Cannon headed the group. He read aloud a prepared statement in which is recommended: "that the State Highway Commission purchase the area involving some 30 acres immediately to the north of the present Bald Peak State Park and including a source of water, providing such purchase can be made at a fair price". The following is quoted from the statement in support of the recommendation: "First, drinking water is not available at the Park. For picnics and other occasions, water must be carried a considerable distance. Second, the present park area is quite small for such an admirable site. There is not even adequate provision for parking. Third, the inspiring view to the north, overlooking the beautiful Tualatin Valley, can be entirely obscured by development of private land to the north, now separated from the park by the road."

It was the feeling of the group. as pointed out in the statement, that the park, with this addition, can be developed at modest expense to become one of the outstanding parks of the Oregon State Park System.

Speaking in behalf of the project were Mr. Wilkins, who stated that the acquisition of the additional area would help materially in attracting tourists to that particular section of the State; Mr. Dana, who stated that acquisition of the additional area is necessary to control the scenic outlook to the north. He gave as his opinion that the expense of the proposed addition is fully warranted provided the cost is within reason; Mr. Munger, who mentioned that the park is within 30 minutes driving time of about half of the people of the State of Oregon and is within easy reach of both urban and farm people. He stated that a number of societies hold picnics there and gave as his feeling that the expense of acquiring the additional land is fully justified. He urged purchase of the property at once. Others speaking were Messrs. Lewis and Newman, and Mrs. Blakeway.

Chairman Chandler advised the group that this matter has been before the Commission on several occasions in the past, having been presented by the former State Park Superintendent, Mr. S. H. Boardman, who recommended purchase of the additional 30 acres if it can be acquired at reasonable cost, but not at the price of $19,800 which the owner has been demanding. The Commission, he said, felt that it was not justified in paying such a price for the property. Mr. Dana gave as his feeling that a price of $200 per acre is reasonable, or a total of $6,000 for the property. Chairman Chandler concluded the conference by stating that if the property can be purchased from the owner at $6,000, the Com-

mission will buy it. The matter was referred to the State Park Superintendent to negotiate with the owner on such basis.

A delegation representing Wheeler, Gilliam, Sherman and Wasco counties and consisting of the following persons was present and requested additional improvements to the Wasco-Heppner State Secondary Highway between Condon and the John Day River: Loyd Brady, City Manager, The Dalles; Van Rietmann, Condon Chamber of Commerce; Bob Patching, Rancher, Condon; Caroline Patching, Condon; Jack Steiwer, Secretary, Fossil Community Club; Fred Misener, member, Community Club, Fossil; and Stewart Hardie, State Senator, Condon. Mr. Patching stated that they are asking the Commission to construct an oiled surface on the unoiled section between Condon and the John Day River. Mr. Reitman stated they are particularly interested in the section of highway immediately west and north of the oiled section west of Condon, that the present rock surface is thin and that a few days previously several trucks had got stuck in the mud. The Engineer explained the present plans of the Commission which includes an expenditure of $65,000 next year for additional improvements west of the John Day River crossing. Senator Hardie said that they approve the expenditure of $65,000 as planned and do not want the sum diverted, but they do want also the oiling of the section east of the bridge. Mr. Brady endorsed the project in behalf of The Dalles Chamber of Commerce. Chairman Chandler advised that the Commission is not prepared to give a definite answer today but will get a report from the Engineer and decide later what, if anything, can be done. The Engineer was thereupon instructed to look into the matter. Mr. Steiwer endorsed this project and inquired if the Commission has reached a decision with respect to improvement of the John Day Highway between Service Creek and Spray. He was informed that the Engineer's report on such subject has not yet been rendered so the Commission is not prepared to take action in the matter.

Mr. Russell Hubbard, Reedsport, and his son John K. Hubbard, appeared before the Commission concerning a settlement for his property that is needed as right of way for an improvement of the Oregon Coast Highway south of Reedsport. He stated that he had been offered $15 000 for his property and access rights to the highway, which amount he declared is far less than its actual value. He asked for $55,000 and that he be granted more points of access. In the discussion following it was brought out that the State intends to build a 20-foot oiled frontage road on the north side of Mr. Hubbard's property and allow him access thereto; also that he has been granted three non-commercial accesses to the highway. It was the feeling of the Commission that Mr. Hubbard has been dealt with fairly and that the plan of the proposed improvement is satisfactory. Accordingly the Commission instructed the Chief Counsel to proceed with condemnation proceedings for acquisition of Mr. Hubbard's property if he will not sell it for the amount of the original offer, $15,000.

The Commission considered the following items of unfinished business as shown on the Secretary's list dated November 9, 1951:

(1) Improvement of Mt. Hood Highway between Parkdale and Hood River: The Engineer reported that his investigation of the three bad places mentioned by the Hood River delegation on November 9 has not yet been completed. The Commission ordered this item retained on the list of Unfinished Business.

(2) Acquisition of Lloyd property along Banfield Expressway in Portland: The Right of Way Engineer reported that the Lloyd people have completed their appraisals of this property, the land being appraised at $427,687.00, and damages at $132,985.00 - total $560,672.00, and they wish it stipulated in an agreement that they are to receive an additional $40,000 when connections with Lloyd Blvd. are constructed. He pointed out that the State's high appraisal is in the amount of $408,800. He gave as his feeling that there is no common ground for further arbitration in view of which he recommended condemnation of the property and an offer of $408,800 in connection therewith. Commissioner McIver advised that the Lloyd Corporation has asked for a meeting among its appraisers and those of the State to determine if an agreement can be reached. He suggested approval of the request and that the Chief Counsel proceed with condemnation on the basis of paying $408,800 for the property, if the appraisers cannot agree. The Commission approved the suggestion and ordered this item deleted from the list of Unfinished Business.

(3) Maintenance of the Paulina Secondary Highway: The Engineer reported that the economic survey heretofore ordered by the Commission, is now under way but his report on the subject will not be ready until next spring. This item is to remain on the list of Unfinished Business.

(4) Design of signs to be erected at ends of projects under construction: The Engineer advised that his report on this subject will be ready for the Commission at its January meeting. This item is to be retained on the list of Unfinished Business.

(5) Damage to Dodge Bridge on the Sams Valley Secondary Highway: The Chief Counsel reported that a complaint has been filed to collect damages from the Central Heating Company or its bondsman. The Commission approved the report and ordered the item removed from the list.

(6) Proposed development of "Koberg" Park near Hood River: This item was ordered deleted from the list of Unfinished Business as it is planned that the Commission will look at the park on one of its trips during 1952.

(7) Sale of houses in Roseburg; report on cost of houses and receipts when sold: The Right of Way Engineer stated that the houses will not be sold until construction of the highway is programmed. In view thereof, the Commission ordered the item deleted from the list of Unfinished Business.

(8) Purchase of land at Garrison Corner on the Nyssa-Adrian Highway: The Engineer reported that a description of the property has been furnished the Right of Way Department and that negotiations are underway to secure an option. The Commission ordered the item deleted from the list of Unfinished Business.

(9) Request of Elmer Bankus for return of land near Brookings: The Engineer recalled that action on this request had been deferred at the November 8 meeting due to the absence of Chairman Chandler. Chairman Chandler stated that he did not approve the request of Mr. Bankus. The Commission ordered this item deleted from the list of Unfinished Business.

(10) Timber cutting encroachment on the Oregon Coast Highway near property of T. H. Banfield: The Commission instructed the Chief Counsel to take necessary steps to collect any damages due. This item to remain on the list of Unfinished Business.

(11) State Parks Budget for 1952: The Commission ordered this item deleted from the list because it was disposed of earlier in this meeting.

(12) Speed-up in submitting offers for property under condemnation: This item was ordered deleted from the list of Unfinished Business inasmuch as it had been disposed of earlier in the session.

(13) Highway Budget for year 1952: This item was ordered deleted from the list inasmuch as the Budget had been adopted by the Commission earlier in the session.

(14) Extension of service road into Milwaukie and acquisition of right of way on west side of McLoughlin Boulevard on US99E. The Right of Way Engineer advised that since the meeting on November 9 he discussed this matter with members of the delegation that appeared before the Commission on that day and he now believes that the city will deed to the State the property that the State wants on the west side of the highway, including right of access, if the State will construct a "button hook" connection on the east side of the highway at Harvester Drive, similar to the existing connection on the west side of the highway at this point. The Commission approved such proposition and authorized the Right of Way Engineer to make a proposal to that effect to the city. The item is to remain on the list of Unfinished Business.

(15) Request of Fossil Community Club that $45,000 be spent on the Service Creek-Spray Section in lieu of work on the Butte Creek-Summit Section of the John Day Highway: The Engineer advised that pursuant to instructions given him at the meeting November 9, an investigation of the request is being made and that the results thereof will be reported as soon as is possible. This item is to be retained on the list of Unfinished Business.

(16) Request of the Lakeview delegation for improvements to city streets that are highway routes: The Commission earlier in the session discussed the Engineer's report on this subject and decided at that time to construct at least a portion of the requested improvements during 1952 if funds are available to finance the work. The item is to be deleted from the list of Unfinished Business.

The Commission discussed with the Engineer the bids received at the morning session for contract work and at 3:00 p. m. Commissioner Reynolds announced the Commission's decision with respect to each project as follows, the Commission's action being by unanimous vote:

"Construction of rock base and paving of 2.04 miles on the Big Creek Section of the Columbia River Highway in Clatsop County. Vernie Jarl, Gresham, submitted the low bid for this work at $123,142. Four higher bids were submitted. The Commission has awarded this contract to the low bidder, Vernie Jarl, at his bid price.

"Grading and shaping 4.6 acres on the west Prineville Roadside Improvement Project on the Madras-Prineville and Ochoco Highways west of Prineville, in Crook County. Ernest Ferrante and Company of Portland submitted the low bid for this job at $14,541.28. Four higher bids were received. The Commission has awarded the contract to the low bidder, Ernest Ferrante and Company, at their bid price.

"Grading and oil mat surfacing on the Austin-Squaw Creek Unit of the Austin-Unity Junction Section, and on the Austin Spur Section of the John Day Highway east of Prairie City, in Grant County. The low bid for this job was submitted by Durbin Brothers, Eugene, at $218,174. Four higher bids were received. The Commission has awarded this contract to Durbin Brothers, the low bidder, at their bid price.

"Grading, surfacing and bituminous macadam on the Prairie City (Johnson Avenue) project, in Grant County. Durbin Brothers, Eugene, submitted the only bid for this project at $9,777. The Commission has awarded the contract to Durbin Brothers at their bid price.

"Construction of 4.5 miles of base and paving on the Judkins Point-Goshen Section of the Pacific Highway east of Eugene, in Lane County. E. C. Hall Company and J. C. Compton Company, McMinnville, bidding as a joint venture, submitted the low bid for this job at $386,361. Six higher bids were received. The Commission has awarded the contract to the low bidder, E. C. Hall Company and J. C. Compton Company at their bid price.

"31.6 miles of paving on the Quartz Creek-North Plains Unit of the Necanicum Junction-North Plains Section of the Sunset Highway, in Washington and Clatsop counties. The low bid for this job was submitted by Porter W. Yett, Portland, in the sum of $507,900. Eight higher bids were submitted. The Commission has accepted the bid of Porter W. Yett in the sum of $507,900 and the Engineer is instructed to have a contract prepared and offered to said low bidder for execution as soon as right of way has been cleared and concurrence is received from the Bureau of Public Roads.

"Construction of bridges on the Jones Ranch-Mitchell Section of the Ochoco Highway west of Mitchell, in Wheeler County. The low bid for this job was submitted by R. H. Jones, Hillsboro, at $106,071. Nine higher bids were submitted. The Commission has awarded the contract to R. H. Jones, low bidder, at his bid price.

A delegation from the city of Medford appeared before the Commission and requested advice concerning proposed extensions to and improvement of a number of city streets as they relate to possible future highway construction in that vicinity. Present were: Chester Hubbard, President of the Medford Chamber of Commerce; D. L. Flynn, Mayor of the City of Medford; R. A. Duff, City Superintendent, Medford; and Paul B. Rynning, Jackson County Engineer, Medford. Mr. Hubbard and Mr. Rynning explained what they have in mind. As a result of discussion the Commission authorized and instructed the Engineer to send the Traffic Engineer to Medford to discuss with the group their local problems, it being understood that such authority does not include the making of a survey.

The Right of Way Engineer presented for the Commission's consideration a proposed settlement of the claim of D. E. Richardson for right of way obtained from him for the Cedar Point-Coquille Section of the Oregon Coast Highway. He recommended payment of the sum of $288.05 to Mr. Richardson as settlement in full. The Commission approved the recommendation.

The Commission considered and upon the favorable recommendation of the Right of Way Engineer approved an agreement with Jack Schrieber extending a lease for a stockpile site on the Oregon Coast Highway at Mile Post 185.85 from January 15, 1952, to January 15, 1954, for a consideration of $50.00 for the two-year period. (The Commission signed the lease extension later in the session.)

The Commission considered and upon recommendation of the Right of Way Engineer approved vacation of portions of Beach Avenue and 10th Street in the townsite of Winchester Bay, Douglas County as requested by Hayward C. and Katherine C. Stacey. The Right of Way Engineer advised that such vacation would not be detrimental to the State.

(The Commission signed the "Consent to Vacate" form later in the session.)

The Right of Way Engineer presented the matter of a change in access points heretofore approved for the Lena G. Richmond property on NE Union Avenue, Portland, which property is under lease to the Standard Oil Company, and is described as Lots 7, 10 and 11 of Block 29, Love's addition to Portland. He explained that this indenture of access is to revise the record of the access points provided for in the original conveyance, and that the change conforms to the curb openings which were made during construction of the project. The Commission approved the changes as presented. (An "Indenture of Access" was signed by the Commission later in the session.)

The Commission considered and accepted a report from the Right of Way Engineer showing costs of right of way acquired for projects which were contracted by the Commission between June 1 and November 1 1951. (See General Files for report as presented.)

The Right of Way Engineer presented the matter of possible condemnation of the Fred Meyer warehouse property to be acquired as right of way for the T. H. Banfield Expressway in Portland. He pointed out that on December 13 he had directed a letter to the members of the Commission outlining several proposals for acquisition of the property and recommended that immediate steps be taken to acquire the entire Fred Meyer warehouse either by negotiation or condemnation. The Commission deferred action on the matter until its next meeting. The Right of Way Engineer was instructed, in the meantime to discuss the matter further with Commissioner McIver.

The Chief Counsel presented a request from Harry L. and Gladys V. Perkins that the Commission enter into a written agreement with them to raise buildings located upon their property so as to conform with the proposed grade of the Zig Zag-Rhododendron Section of the Mt. Hood Highway if and when the highway grade is raised by the U. S. Bureau of Public Roads. He recalled that construction had been contemplated at an earlier date but had been postponed, and that previously the Commission had authorized the raising of the buildings to correspond with a change in the grade line. Mr. W. C. Williams, Assistant State Highway Engineer, pointed out that no work had been done on the project, in fact, the survey for the improvement has not yet been approved. The Chief Counsel recommended that no agreement be entered into and that the Commission's previous action be cancelled. The Commission approved his recommendation and so ordered.

The Chief Counsel requested and the Commission authorized prosecution of a lawsuit against Glenn J. Beringer et al for specific performance of an option to sell to the State for right of way purposes, for $225.00, property located between Engineer's Stations 445+13 and 449+38 on the Mehama

Mill City Section of the North Santiam Highway in the NE quarter of Section 18, Township 9 South, Range 24, W. M., Marion County.

The Chief Counsel outlined a proposed moving of some of the personnel of the Legal and Right of Way Department to the fifth floor of the State Highway Building in Salem, which will require an expenditure of approximately $600.00 for a temporary type partition. He requested authority for the expenditure. The Commission approved the request unanimously.

The Chief Counsel brought up for discussion the condemnation case against Ewing and Rand of Heppner for right of way. The jury in the case, he said, awarded a verdict of $1,400 to the defendants which really is in favor of the State. The Commission approved payment of such sum.

The Chief Counsel requested instructions as to action that he should take with respect to the request of property owners that the State negotiate with them a settlement of alleged damages to their properties abutting upon Marion Street between Commercial Street and Water Street in Salem, by reason of construction of the east approach to the new bridge over the Willamette River at such location. The Commission ordered that no negotiations be entered into and that no action be taken pending the actual filing of suits for damages by the complaining parties.

The Commission again considered the diversion of interest money earned by reason of investment of revenue received from the sale of highway bonds, which interest money at present is being directed into the State General Fund. The Chief Counsel reviewed the several laws pertaining to the subject and gave as his opinion that the Commission has basis in law to request that such interest money be placed in the Highway Fund. The Commission instructed the Chief Counsel to make a further check of the laws pertaining to the subject, and if he finds nothing therein that would alter or change his opinion as expressed today, to prepare a letter directed to the State Treasurer requesting that such interest funds be placed to the credit of the Highway Fund. The letter is to be prepared for the signatures of the members of the Highway Commission.

The Engineer reported concerning results of bids received in Salem on December 12, 1951, for the purchase of used equipment and scrap materials located at the Salem Highway Shops. He pointed out that the high bids received for the various items totaled $26,327.37 whereas, the Engineer's estimate of the value of the equipment and scrap is $14,556.50. He recommended that the high bids be accepted with the exception of Item No. 66, a Star churn drill, Dept. No. 39-902, and that the bids received for this item be rejected because it has now been determined that the Department has use for the drill. The Commission unanimously approved the recommendation.

191127

The Commission discussed a report from the Engineer on a request for an all-weather highway connecting the McKenzie Highway and the Santiam Highway via Belknap Springs and Clear Lake. The Engineer recalled that at the August meeting of the Commission a delegation appeared in the interests of such road and that he was instructed to make a reconnaissance survey of the same. This survey, he stated, has been made and the findings indicate that the total length of the project is 18.3 miles and that to construct it, including $3\frac{1}{2}$ inch asphaltic concrete base, will require about $1,100,000. As a result of discussion the Commission ordered that the proponents of the project be informed that no funds are available at this time to finance such project.

The Commission considered a request from Chester A. Hubbard, President, Jackson County Chamber of Commerce, that a roadway be constructed from Dodge Bridge to the edge of the Rogue River, for the benefit and convenience of fishermen in launching their boats. Also considered was a proposal by the State Game Commission for a cooperative arrangement to provide public boat launching sites generally, along fishing lakes and streams. The Engineer recalled that similar requests had been made in the past and denied on the basis of not wishing to establish a precedent for constructing such facilities. As a result of discussion, the Commission instructed the Engineer to consult with the State Game Commission and then render a full and complete report on the subject.

The Commission confirmed its approval of an agreement previously signed with the Bureau of Public Roads providing for maintenance by the State, at Federal expense, of a section of the Pendleton-John Day Forest Highway Project north of the city of Mt. Vernon during the winter season when the Government's contractor's operations are closed down.

Consideration was given by the Commission to an agreement with the Southern Pacific Company covering highway encroachment on railroad property between Coos Bay and Overland on the Oregon Coast Highway, Coos County. The Engineer stated that the agreement had been carefully examined and in its present form is satisfactory. He recommended that it be approved by the Commission. The Commission approved the recommendation. (The Commission signed the agreement later in the session.)

The matter of renewing medical and hospital coverage agreements with the National Hospital Association and with the Oregon Physicians Service was considered by the Commission. The Engineer reviewed briefly the most important features of both contracts, including changes proposed by the Oregon Physicians Service, and recommended that the Commission renew the agreement with the National Hospital Association but defer action on its approval of the Oregon Physicians Service agreement due to a number of changes detrimental to the interests

of the employees. After some discussion the Commission approved renewal of the National Hospital Association agreement as recommended by the Engineer. The Engineer was instructed to consult with officials of the Oregon Physicians Service in an attempt to negotiate the elimination of the objectionable features in its new contract. The results of such conference are to be reported to the Commission by telephone when further instructions will be given.

The Commission authorized payment of membership dues for the year 1952 in the American Association of State Highway Officials, amounting to $675.00.

The Commission authorized the Director of the Travel Department, Mr. Carl Jordan, to attend a meeting of the Directors of the Pacific Northwest Traffic Association in Spokane, Washington, on January 11, 1952, at State expense which is estimated at $50.35.

The Engineer presented for the Commission's consideration a proposed agreement with the Southern Pacific Railroad Company covering installation of a flashing light signal at the intersection of Summer and Union streets in Salem and the re-arrangement of an existing signal at the intersection of Capitol and Union streets. He explained that the agreement has been prepared on the basis that work will be performed by the Railroad Company and the State will reimburse the Railroad for the entire cost which is estimated at $6,600. He recommended that the agreement be approved. The Commission adopted the recommendation. (Later in the day the Commission signed the agreement.)

The Engineer brought up for discussion the selection of projects to be financed next year with about $8,000,000 of highway bond money, in case additional bonds are sold. He was instructed to send to each member of the Commission a list of desirable projects.

Commissioner Reynolds mentioned receipt of numerous complaints regarding "slick" spots on the recently completed Willow Creek-Boardman Section of The Old Oregon Trail. The Engineer was instructed to investigate the spots and apply a remedy as may be needed.

Commissioner Reynolds also mentioned complaints received regarding methods used by State forces in making repairs to the Lewis and Clark River Bridge at Astoria. The nature of the complaints, he said, indicate that the work should have been done by contract and that the public would have been less discommoded had it been done in that manner. The Engineer was instructed to give the matter thought when undertaking similar work in the future.

Chairman Chandler inquired as to the status of right of way acquisition on projects for which bids are to be received by the Commission at its January, 1952 meeting. The Right of Way Engineer reported details.

The Commission discussed a possible encroachment of the Secretary of State's building on highway right of way at Oregon City. The Engineer explained that it has been very difficult to determine the exact right of way boundaries at this location and that he is now having a title search made on the matter and when the actual boundary lines are determined he will advise the Commission.

Chairman Chandler instructed the Engineer to keep up to date the map furnished the members of the Commission showing the location of survey parties, by revising it every two or three months.

Chairman Chandler also brought up the matter of unfulfilled commitments appearing on the monthly financial statement prepared by the Accounting Division. The Manager of the Accounting Division was instructed to render a report at the next meeting regarding the status of all such unfulfilled commitments with a view in mind that some of them may be eliminated.

Chairman Chandler instructed the Engineer to prepare a statement showing a segregation of engineering costs on the various types of contract work, such as grading, paving, rock production, bridges, buildings, surfacing contracts, et cetera, to give the Commission an idea as to what this expense amounts to. He commented that engineering costs appear to be unusually high on some of the small jobs.

The Commission signed agreements and other papers as follows:

Deed conveying property in Portland to high bidder for its purchase on November 30, 1951.

"Indenture of Access" to Edson McCanse property on LaGrande-Ladd Canyon Section on US30.

Agreement with Union Pacific Railroad Company covering extra width right of way needed at overcrossing on US30 south of Hermiston.

Quitclaim Deed conveying certain property to Weyerhaeuser Timber Co. on Catching Slough-Enegren Ferry Section of Coos River Highway.

Extension rider covering renewal of material site lease from OWR&N Co. near Mile Points 32 and 34 on John Day Highway.

Two-year ground lease with Long-Bell Lumber Co. for borrow area on Mill Creek Section of Umpqua Highway.

Agreement with Willamina and Grande Ronde Railroad Company covering right of way across highway property at Bolon Island, Douglas County.

"Consent to Vacation" of certain streets in Saratoga Park subdivision on Mount Hood Highway, Clackamas County.

Agreement covering renewal of previous agreement with City of Pendleton for maintenance of landscaped area at junction of Old Oregon Trail and Oregon-Washington Highway near east city limits of Pendleton.

"Indenture of Access" re changes in access from Kerr and Olsen properties to the Salem-Hayesville Section of the Pacific Highway, Marion County.

8 Deeds conveying houses to purchasers of said houses on Salem By-Pass.

Agreement with OWR&N Co. and Union Pacific Railroad Co. covering easement for right of way and relocation of crossing signal on Old Oregon Trail at Cairo, Malheur County.

Extension of agreement with City of Portland covering maintenance of a Guest Center on State Highway property on Harbor Drive.

"Indenture of Access" covering property on Union Avenue, Portland owned by Lena G. Richmond under lease to Standard Oil Company.

Agreement with Southern Pacific Company covering the granting of easements for encroachments of Oregon Coast Highway on railroad property between Coos Bay and Overland.

Agreement with Jack Schrieber extending lease of stockpile site on Roosevelt Beach-Squaw Creek Section of Oregon Coast Highway, Lane County.

"Consent to Vacation" of portions of Beach Avenue and Tenth Street in the townsite of Winchester Bay.

Agreement with Bonneville Power Administration covering moving of power pole on the unit of the West Portland-Hubbard Highway which is scheduled for bids at the January-February meeting.

Agreement between State Highway Commission and Linn County granting right of access to State in return for right of Linn County to remove materials from State Quarry on Saddle Butte.

Project Agreement between the State Highway Commission and the Bureau of Public Roads concerning payment of Federal Aid for construction of highway in Hood River and Wasco Counties.

Agreement between the State Highway Commission and the Southern Pacific Company concerning the installation of flashing signals at the crossings of Summer Street and Capitol Street.

Agreement between the State Highway Commission and the Bureau of Public Roads concerning a cooperative agreement for winter maintenance on Oregon Forest Highway Project 34-B4, C, Pendleton-John Day Highway.

There being no further business to come before the Commission at this time the meeting adjourned at 4:40 p. m.

Chairman

State Highway Engineer

EXHIBITS "A" THROUGH "N"

Minutes of

December 20 and 21, 1951

EXHIBIT "A"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, in connection with the further improvement of the highways hereinafter designated, it is and has been necessary to acquire property for right of way, quarry sites, gravel or other materials sites, or sites for the storage of materials, as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW, THEREFORE, BE IT RESOLVED that the several offers or bases of settlement, hereinafter enumerated be, and the same hereby are approved and accepted, and that the Attorney for the State Highway Commission be and he hereby is instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon. The said properties hereby ordered and authorized to be acquired are as follows:

BOONES FERRY ROAD-MARION COUNTY LINE UNIT-BARBUR BLVD.-WHITE SCHOOL SECT. WEST PORTLAND-HUBBARD HIGHWAY

17489 - Ellman, Maudie and Howard (Smith)
Right of Way
Option expires April 10, 1952

.45 acres at $300 per acre	$ 135.00
20 rods of fence at $4.50 per rod	90.00
Damages	605.00

Amount to be paid owner - chrg to Right of Way $ 830.00

THINGS TO BE DONE BY THE STATE:

Build a frontage road.

Access controlled - no access allowed

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the State Highway Commission is authorized to acquire real property, or any interest therein, for highway and park purposes by negotiation, agreement, or by the exercise of the right of eminent domain; and

WHEREAS, Section 100-116, O. C. L. A., provides that in an action in eminent domain brought by the Highway Commission the costs and disbursements of the defendants, including a reasonable attorney's fees to be fixed by the Court, shall be taxed by the Clerk and recovered from the State, but if it appears that the State Highway Commission tendered the defendants before commencing the action an amount equal to or greater than that assessed by the jury, in such case the State shall recover its necessary disbursements from the defendants; and

WHEREAS, it has been the practice and policy of the Commission to authorize the Chief Counsel to make offers in definite amounts for the acquisition of real properties prior to institution of condemnation proceedings; and

WHEREAS, the filing of complaints is sometimes delayed after the institution of condemnation proceedings has been authorized by the Commission because of the necessity of tendering in writing the Commission's offer to purchase and waiting a reasonable time for a reply thereto, and subsequent negotiations that often result from such tendering of offer to purchase; and

WHEREAS, with respect to real properties that the Legal and Right of Way Departments are unable to acquire by negotiation and agreement, and which it is anticipated will have to be acquired by exercise of the right of eminent domain, and when the awarding of contracts for highway construction and improvement projects and park projects may be delayed if an offer is not tendered the owners of said property before the Commission authorizes its acquisition by exercise of the right of eminent domain or before the Commission authorizes that an offer of a specified sum of money be made for purchase of the property, the Commission desires to authorize the Chief Counsel to tender to the owners of said real property an offer, in behalf of the Commission, to purchase the same, such offer to be in that amount of money and other considerations determined by the Chief Counsel, based upon the appraisals of competent appraisers, to be the fair cash market value of the property sought to be acquired and the depreciation, if any, in the fair cash market value of the owner's remaining property resulting from the acquisition; provided that the amount of said offer is approved by at least one member of the

(cont.)

EXHIBIT "B" (cont.)

Commission before the said offer is tendered to the owner of the real property, and, provided further that when requested by any Commissioner, the amount of said offer is approved by more than one member of the Commission before the said offer is tendered to the owner of the real property.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members being present and voting affirmatively as follows:

1. With respect to real properties which the Legal and Right of Way Departments are unable to acquire by negotiation and agreement, and which it is anticipated will have to be acquired by exercise of the right of eminent domain, and when the awarding of contracts for highway construction and improvement projects and park projects may be delayed if an offer is not tendered the owners of said property before the Commission authorizes its acquisition by exercise of the right of eminent domain or before the Commission authorizes that an offer of a specified sum of money be made for purchase of the property, the Highway Commission does hereby authorize and direct its Chief Counsel to tender to the owners of said real property an offer, in behalf of the Commission, to purchase the same, such offer to be in that amount of money and other considerations determined by the Chief Counsel, based upon appraisals of competent appraisers, to be the fair cash market value of the property sought to be acquired and the depreciation, if any, in the fair cash market value of the owner's remaining property resulting from the acquisition; provided that the amount of said offer is approved by at least one member of the Commission before the said offer is tendered to the owner of the real property, and provided further that when requested by any Commissioner, the amount of said offer is approved by more than one member of the Commission before the said offer is tendered to the owner of the real property.

2. The Chief Counsel shall prepare and file with the Commission each month a written report in which there shall be set forth in such detail as will give to the Commission knowledge of all pertinent facts involved in offers made by the Chief Counsel in behalf of the Commission during the period covered by the report.

3. This resolution shall be entered in the minutes and records of the Commission as of the twentieth day of December, 1951.

19181

EXHIBIT "C"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the 46th legislative assembly enacted Chapter 405, Oregon Laws, 1951; and

WHEREAS, Section 3 (1) (b), Chapter 405, Oregon Laws 1951, provides that no vehicle, including any load thereon, shall exceed a height of twelve and one-half feet, which increases the permissible height of vehicles from eleven feet, as formerly provided by law, to twelve and one-half feet; and

WHEREAS, by reason of said increase of permissible height of vehicles, there are several overhead structures upon and over the state highway system that will not now accommodate vehicles having a lawful height as provided in Section 3 (1) (b), Chapter 405, Oregon Laws 1951; and

WHEREAS, in some instances, said structures are not high enough at any place to permit clearance of vehicles of lawful height, and in other instances certain portions of said structures will permit clearance of vehicles having a legal height, whereas other portions of said structures near the outer edges of the highway will not permit clearance of such vehicles; and

WHEREAS, based upon the advice and recommendation of the State Highway Engineer, it is the judgment and opinion of the Commission that certain overhead structures having vertical clearances of less than twelve feet, nine inches be posted with conspicuous signs which shall inform the motoring public of the same, although, by law, the driver of any vehicle is not relieved from the exercise of due care in determining that the vertical clearance is sufficient; and

WHEREAS, the Commission believes that the posting of such signs as contained herein are necessary for the best interests of the state, for the safety and general welfare of the public, and to protect the state highway system from being unduly damaged;

NOW, THEREFORE, be it, and it hereby is resolved and ordered by this Commission, all of the members being present and voting affirmatively, as follows:

1. That for the purpose of protecting the general public welfare, and especially the welfare of the motoring public, and for the further purpose of preventing undue damage to the state highway system,

EXHIBIT "C" (cont.)

the Commission hereby, and pursuant to the authority vested in it by law, does post or cause to be posted signs which shall notify and inform the public of the minimum vertical clearance of the two vertical clearances hereinafter set forth for each of the said structures:

OVERHEAD STRUCTURES
MINIMUM VERTICAL CLEARANCE OF LESS THAN 12' 9"

Hwy. No.	Route No.	Mile Post Location	Name of Structures	Vertical Clearance (at 8')*	Vertical Clearance (at 4')*

390	ORE207	0.56	John Day River	10'0"	12'7"

*Number of feet from center line of highway.

2. That the State Highway Engineer is hereby directed to erect, and thereafter maintain, suitable and adequate signs containing the following words: "IMPAIRED CLEARANCE," and said words shall be followed by the minimum vertical clearance of the structure, either at the center line of the highway or at a point eight (8) feet either side of the center line, whichever of said points does in fact constitute the minimum vertical clearance.

3. That the State Highway Engineer is hereby directed to locate said signs in a conspicuous manner and place at each end of said structures and at such other places as in his judgment may be necessary to inform the public of said vertical clearances of said structures.

4. That the State Highway Engineer is also hereby directed to erect and maintain advance warning signs in connection with the said structures hereinabove set forth and the same shall contain the following words: "LOW BRIDGE". The State Highway Engineer is further hereby directed to locate said signs in a conspicuous manner and place in

(cont.)

EXHIBIT "C" (cont.)

such places as in his judgment may be necessary.

5. That the Commission hereby reserves the right to change or modify the action hereby taken, but any change or modification shall be evidenced by a resolution or order entered in the minutes and records of the Commission.

6. That this resolution be entered in the minutes of the Commission as of the 20th day of December, 1951, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a copy of this resolution be furnished to each the Superintendent of State Police, the Public Utilities Commissioner, and the Secretary of State.

EXHIBIT "D"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of state highway projects have been completed according to the terms and provisions of said contracts, and that said jobs are now ready for acceptance:

Contract No. 3322 with Tom Lillebo for constructing concrete viaduct on the Coburg County Road in Lane County, completed October 30, 1951.

Contract No. 3399 with Warren Northwest, Inc., for grading and paving on the Sweet Home (Holly Junction-19th Street) Section of the Santiam Highway in Linn County, completed October 9, 1951.

Contract No. 3403 with Russell Olson Construction Co. for grading and oil mat surfacing on the Joseph (Highway and City Street) Section of the Joseph-Wallowa Lake Highway in Wallowa County, completed August 11, 1951.

Contract No. 3431 with E. C. Hall Co. for constructing concrete viaduct on the White River Bridge Section of the Mt. Hood Highway in Hood River County, completed October 29, 1951.

Contract No. 3435 with City Electric, Inc., for installation of traffic signals on the Pacific Highway East in Salem, Marion County, completed November 14, 1951.

Contract No. 3448 with Berke Bros. for grading and topping on the Willow Creek-Boardman Section of the Columbia River Highway in Morrow and Gilliam Counties, completed September 30, 1951.

Contract No. 3449 with F. L. Somers for grading and surfacing on the Goose Lake Section of the Cottonwood Creek and West Side County Roads in Lake County, completed August 22, 1951.

Contract No. 3450 with R. A. Heintz Construction Co. for grading and oil mat surfacing on the Sams Creek-Snider Creek Section of the Sams Valley Highway in Jackson County, completed September 15, 1951.

Contract No. 3466 with Asphalt Paving Co. for reoiling and rock production on the Clear Creek-White School Section of the Wapinitia Highway in Wasco County, completed October 4, 1951.

(cont.)

EXHIBIT "D" (cont.)

Contract No. 3468 with C. E. Leseberg for furnishing crushed material in stock pile on the Rock Creek-McDermitt Section of the I-O-N Highway in Malheur County, completed December 7, 1951.

Contract No. 3505 with Porter W. Yett for grading and paving on the Rays Ranch-West Union Section of the Hillsboro-Cornelius Pass County Road in Washington County, completed November 5, 1951.

Contract No. 3520 with Coos Bay Dredging Co., Inc., for grading and surfacing on the Oregon Coast Highway in Coos County, completed October 10, 1951.

Contract No. 3521 with J. N. Conley for surfacing on the Combs Flat (Prineville-Eagle Rock) Section of the Paulina Highway in Crook County, completed October 10, 1951.

Contract No. 3522 with Warren Northwest Inc., for pavement resurfacing on the Burns-Buchanan Section of the Central Oregon Highway in Harney County, completed October 29, 1951.

Contract No. 3552 with Loree Building Service for constructing buildings in Emigrant Springs Park in Umatilla County, completed October 30, 1951.

Contract No. 3555 with Swendig & Son for constructing maintenance building at Shaniko in Wasco County, completed November 30, 1951.

Contract No. 3571 with D. F. McKenzie Co. for surfacing on the Haines-Anthony Section of the Haines-Anthony Highway in Baker County, completed November 7, 1951.

Contract No. 3584 with John A. Logan, for riprap repair on the Oneonta Section of the Columbia River Highway in Multnomah County, completed November 30, 1951.

THEREFORE, BE IT RESOLVED that the work covered by said State highway contracts for the construction of said State highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

EXHIBIT "E-1"

Minutes of December 20 and 21, 1951

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Antelope	$ 153.23	Falls City	$2,165.71	Merrill	$2,114.63
Aumsville	712.54	Gates	1,077.75	Metolius	400.96
Aurora	620.60	Gearhart	1,425.08	Monroe	927.07
Cave Junction	689.55	Gervais	1,159.47	Oakland	2,106.97
Condon	2,467.07	Glendale	2,211.68	Oceanlake	1,751.98
Cornelius	2,541.13	Granite	94.49	Scappoose	1,683.02
Creswell	1,700.90	Hubbard	1,253.97	Sodaville	1,044.55
Dayton	1,823.49	Ione	658.91	Summerville	186.43
Eastside	2,272.97	Lafayette	1,685.58	Waldport	1,741.76
Echo	1,162.03	Long Creek	722.25	Wheeler	735.52
Estacada	2,403.22	Malin	1,519.57	Yoncalla	1,598.74
Fairview	1,116.06	Manzanita	863.22	Gold Beach	1,882.23

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.
